

Technical Assistance Webinar to Support State Reporting of the Child, Adult, and Health Home Core Sets: FFY 2021 Updates and Reporting Resources

May 2021

Presented by Ruth Hsu, Molly McGlone, and Laura Armistead,
Mathematica

Housekeeping

- Welcome to the Technical Assistance Webinar to Support State Reporting of the Child, Adult, and Health Home Core Sets: FFY 2021 Updates and Reporting Resources.
 - All participants are muted upon entry.
 - You may submit comments or questions using the Q&A panel.
 - The meeting will be recorded and posted on Medicaid.gov after the webinar.
 - Please contact **Derek Mitchell** (Event Producer) through the Q&A feature with any technical issues you may encounter.

Objectives

- Review major updates to the 2021 Child, Adult, and Health Home Core Sets
- Review notable changes to technical specifications
- Discuss CMS's plans for using alternate data sources
- Preview FFY 2021 data quality priorities
- Discuss technical assistance resources available to states

FFY 2021 Child, Adult, and Health Home Core Set Updates

Updates to the FFY 2021 Child, Adult, and Health Home Core Sets

Core Set(s)	Measures Added for FFY 2021
Child	Sealant Receipt on Permanent First Molars (SFM-CH)
Measures Modified for FFY 2021	
Child	Well-Child Visits in the First 30 Months of Life (W30-CH) <ul style="list-style-type: none"> Formerly the Well-Child Visits in the First 15 Months of Life (W15-CH) measure. Modified to include two rates: (1) six or more well-child visits in the first 15 months and (2) two or more well-child visits from 15 to 30 months.
Child	Child and Adolescent Well-Care Visits (WCV-CH) <ul style="list-style-type: none"> The former Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life (W34-CH) and Adolescent Well-Care Visits (AWC-CH) measures were combined into WCV-CH. The measure now includes rates for Ages 3 to 11, 12 to 17, 18 to 21, and a total rate.
Child	Low-Risk Cesarean Delivery (LRCD-CH) <ul style="list-style-type: none"> This measure replaces the PC-02: Cesarean Birth measure. To reduce state burden and report a cesarean birth measure consistently across all states, CMS will calculate the LRCD-CH measure on behalf of states using National Vital Statistics System Natality data that are submitted by states and obtained through the Centers for Disease Control and Prevention Wide-ranging Online Data for Epidemiologic Research (CDC WONDER) starting in FFY 2021.
Measures Retired for FFY 2021	
Child	Dental Sealants for 6–9 Year-Old Children at Elevated Caries Risk (SEAL-CH)
Adult & Health Home	Adult Body Mass Index Assessment (ABA-AD/HH)

Updates to the FFY 2021 Core Sets were announced in a November 2020 Informational Bulletin, available at the following link: <https://www.medicare.gov/federal-policy-guidance/downloads/cib111920.pdf>

New Child Core Set Measure: Sealant Receipt on Permanent First Molars (SFM-CH)

Description	Percentage of enrolled children who have ever received sealants on permanent first molar teeth. Two rates are reported: (1) at least one sealant and (2) all four molars sealed by the 10th birthdate.
Measure Steward	American Dental Association on behalf of the Dental Quality Alliance
Data Source	Administrative
Denominator	Children who turn age 10 in the measurement year.
Numerators	<ul style="list-style-type: none"> • Numerator for Rate 1 (At Least One Sealant): The unduplicated number of enrolled children who received a sealant on at least one permanent first molar tooth by the 10th birthdate. • Numerator for Rate 2 (All Four Molars Sealed): The unduplicated number of enrolled children who received sealants on all four permanent first molars by the 10th birthdate.

Sealant Receipt on Permanent First Molars (SFM-CH) (cont.)

- **Now available:** Resources to support state reporting of the new dental sealant measure for FFY 2021:
 - **TA Resource** on “Calculating the Sealant Receipt on Permanent First Molars Measure in the Child Core Set” is available at: <https://www.medicaid.gov/quality-of-care/downloads/sfm-ta-resource.pdf>.
 - **Sample SAS code** that can be adapted to states’ data systems is available on request from MACQualityTA@cms.hhs.gov.

Modified Child Core Set Measure: Well-Child Visits in the First 30 Months of Life (W30-CH)

<p>Summary of Change</p> 	<p>The Well-Child Visits in the First 30 Months of Life (W30-CH) measure is adapted from the retired Well-Child Visits in the First 15 Months of Life (W15-CH) measure.</p> <p>The W30-CH measure includes two rates: (1) six or more well-child visits in the first 15 months; and (2) two or more well-child visits from 15 to 30 months.</p>
<p>Measure Description</p>	<p>Percentage of children who had the following number of well-child visits with a primary care practitioner (PCP) during the last 15 months. The following rates are reported:</p> <ul style="list-style-type: none"> • Well-Child Visits in the First 15 Months. Children who turned age 15 months during the measurement year who had six or more well-child visits in the first 15 months of life. • Well-Child Visits for Age 15 Months–30 Months. Children who turned age 30 months during the measurement year who had two or more well-child visits between the 15th and 30th months of life.
<p>Measure Steward</p>	<p>National Committee for Quality Assurance (NCQA)</p>

Modified Child Core Set Measure: Well-Child Visits in the First 30 Months of Life (W30-CH) (cont.)

Data Source	Administrative
Denominator	<ul style="list-style-type: none"> • Rate 1 – Well-Child Visits in the First 15 Months: Children who turn age 15 months during the measurement year. • Rate 2 – Well-Child Visits for Age 15 Months–30 Months: Children who turn age 30 months during the measurement year.
Numerators	<ul style="list-style-type: none"> • Rate 1 – Well-Child Visits in the First 15 Months: Six or more well-child visits* on different dates of service on or before the 15-month birthday. • Rate 2 – Well-Child Visits for Age 15 Months–30 Months: Two or more well-child visits* on different dates of service between the child’s 15-month birthday plus 1 day and the 30-month birthday. <p><i>*The well-child visit must occur with a primary care practitioner (PCP), but the PCP does not have to be the practitioner assigned to the child.</i></p>

Modified Child Core Set Measure: Child and Adolescent Well-Care Visits (WCV-CH)

<p>Summary of Change</p> 	<p>The Child and Adolescent Well-Care Visits (WCV-CH) measure is adapted from the retired Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life (W34-CH) and Adolescent Well-Care Visits (AWC-CH) measures. The WCV-CH measure includes rates for Ages 3 to 11, 12 to 17, 18 to 21, and a total rate.</p>
<p>Measure Description</p>	<p>Percentage of children ages 3 to 21 who had at least one comprehensive well-care visit with a primary care practitioner (PCP) or an obstetrician/gynecologist (OB/GYN) during the measurement year.</p>
<p>Measure Steward</p>	<p>National Committee for Quality Assurance (NCQA)</p>
<p>Data Source</p>	<p>Administrative</p>
<p>Denominator</p>	<p>Beneficiaries ages 3 to 21 as of December 31 of the measurement year.</p>
<p>Numerator</p>	<p>Beneficiaries with one or more well-care visits* during the measurement year. <i>*The well-care visit must occur with a PCP or an OB/GYN, but the practitioner does not have to be the practitioner assigned to the child.</i></p>

Modified Child Core Set Measure: Low-Risk Cesarean Delivery (LRCD-CH)

Description	Percentage of nulliparous (first birth), term (37 or more completed weeks based on the obstetric estimate), singleton (one fetus), in a cephalic presentation (head-first) births delivered by cesarean during the measurement year.
Measure Steward	Centers for Disease Control and Prevention (CDC)
Data Source	CMS will calculate a state-level rate for all states using natality data submitted by states and compiled by the National Center for Health Statistics (NCHS).
Denominator	The number of resident live births in the state in the reporting period with Medicaid as the principal source of payment for the delivery. The following additional criteria must be met: <ul style="list-style-type: none"> • The birth is a first live birth • Fetal presentation is “Cephalic” (head-first) • The obstetric estimate of gestational age is greater than or equal to 37 weeks • Plurality is “Single”
Numerator	The number of resident live births in the state with Medicaid as the principal source of payment for the delivery and that have a Delivery Method of “Cesarean” on the birth certificate.

FFY 2021 Measure Specification Updates

Cross-cutting Measure Specification Updates

- Updated guidance related to telehealth including:
 - Added new and expanded allowances for telehealth, telephone, e-visits, and/or virtual check-ins to the following HEDIS measures:
 - ADD-CH, AMM-AD, AMR-AD/CH, APP-CH, BCS-AD, CBP-AD/HH, FUH-CH/AD/HH, FUM-AD, HPC-AD, HPCMI-AD, PCR-AD/HH, PPC-CH/AD, SAA-AD, SSD-AD, W30-CH, WCC-CH, WCV-CH
 - Developed a new resource summarizing telehealth allowances in all Core Set measures, available at <https://www.medicaid.gov/medicaid/quality-of-care/downloads/telehealth-ta-resource.pdf>.
 - Refer to each measure specification for more information about the type of telehealth that is allowed, and which services can be provided through telehealth.
- Added palliative care as a required exclusion to the following measures:
 - BCS-AD, CBP-AD/HH, CCS-AD, HPC-AD, HPCMI-AD

Measure-specific Updates: Screening for Depression and Follow-Up Plan (CDF-CH, CDF-AD, and CDF-HH)

	Previous (FFY 2020)	Current (FFY 2021)
Numerator	Beneficiaries screened for depression using an age-appropriate standardized depression screening tool and, if positive, a follow-up plan is documented on the date of the <u>positive screen</u> .	Beneficiaries screened for depression <u>on the date of the encounter or 14 days prior to the date of the encounter</u> using an age-appropriate standardized depression screening tool and, if positive, a follow-up plan is documented on the date of the <u>eligible encounter</u> .

Measure-specific Updates: Controlling High Blood Pressure (CBP-AD and CBP-HH)

	Previous (FFY 2020)	Current (FFY 2021)
Event/diagnosis	Beneficiaries who had at least two visits on different dates of service with a diagnosis of hypertension <u>during the measurement year or the year prior to the measurement year.</u>	Beneficiaries who had at least two visits on different dates of service with a diagnosis of hypertension <u>on or between January 1 of the year prior to the measurement year and June 30 of the measurement year.</u>
Numerator (medical record review)	<ul style="list-style-type: none"> Exclude <u>all</u> blood pressure (BP) readings reported or taken by the beneficiary Only allow BP readings from electronic remote monitoring devices <u>if results were digitally stored and transmitted to the provider.</u> 	Allow BP readings taken by a beneficiary using a <u>digital</u> device, including beneficiary-reported results from a remote monitoring device.

Measure-specific Updates: Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey 5.1H

- Updated measures to include the new CAHPS Health Plan Survey 5.1H Questionnaire (Medicaid), which reflects phone and video encounters in addition to in-person visits:
 - CAHPS Health Plan Survey 5.1H – Child Version Including Medicaid and Children with Chronic Conditions Supplemental Items (CPC-CH)
 - CAHPS Health Plan Survey 5.1H – Adult Version (Medicaid) (CPA-AD)

	Previous (FFY 2020)	Current (FFY 2021)
Questionnaire Version	CAHPS® Health Plan Survey <u>5.0H</u> Child/Adult Questionnaire	CAHPS® Health Plan Survey <u>5.1H</u> Child/Adult Questionnaire
Example question (Adult Questionnaire #5)	In the last 6 months, did you make any appointments for a check-up or routine care <u>at a doctor's office or clinic?</u>	In the last 6 months, did you make any <u>in person, phone, or video</u> appointments for a check-up or routine care?

Measure-specific Updates: Follow-Up After Hospitalization for Mental Illness (FUH-CH, FUH-AD, and FUH-HH)

- Removed the Mental Health Practitioner Value Set in the Numerators section.
 - Clarified that states must develop their own methods to identify mental health providers using the “Definitions of Medicaid/CHIP Core Set Practitioner Types” in the 2021 Resource Manuals.
- Removed the mental health provider requirement for follow-up visits for (1) intensive outpatient encounters, (2) partial hospitalizations, (3) community mental health visits, and (4) electroconvulsive therapy in selected settings.
 - These four types of follow-up visits may be provided by any provider type.

Use of Alternate Data Sources for FFY 2021 Core Set Reporting

Alternate Data Source: LBW-CH and LRCD-CH

- To reduce state burden and streamline reporting, CMS will calculate the **Live Births Weighing Less than 2,500 Grams (LBW-CH)** and **Low-Risk Cesarean Delivery (LRCD-CH)** measures for states using natality data submitted by states and compiled by the National Center for Health Statistics (NCHS) in the CDC's Wide-ranging Online Data for Epidemiologic Research (CDC WONDER).
 - For FFY 2019 and FFY 2020, states were given the option to use the state-calculated rate or the CMS-calculated rate for LBW-CH.
 - For FFY 2021, CMS will calculate the LBW-CH and LRCD-CH measures for all states.

Alternate Data Source: LBW-CH and LRCD-CH (cont.)

- CMS will send states a preview of the LRCD-CH measure in **summer 2021**, which will be calculated using calendar year 2019 natality data.
 - These data will not be publicly reported.
- CMS will send states a preview of the LBW-CH and LRCD-CH measure in **spring 2022**, which will be calculated using calendar year 2020 natality data.
 - These data will be publicly reported for FFY 2021.

Alternate Data Source: NCIDDS-AD

- The National Core Indicators (NCI®) Survey (NCIDDS-AD) was added to the Adult Core Set in 2020. The survey provides information on beneficiaries' experience and self-reported outcomes of long-term services and supports for individuals with intellectual and developmental disabilities (I/DD) and their families.
- State agencies voluntarily submit the NCI In-Person Survey results to the NCI National Team using the Online Data Entry System (ODESA).
- State agencies that submit data in ODESA will be invited to approve the sharing of NCI In-Person survey data with CMS for the purpose of including it in FFY 2021 Adult Core Set reporting.
- CMS will send states a preview of the data for FFY 2021 Core Set reporting in **spring 2022**.

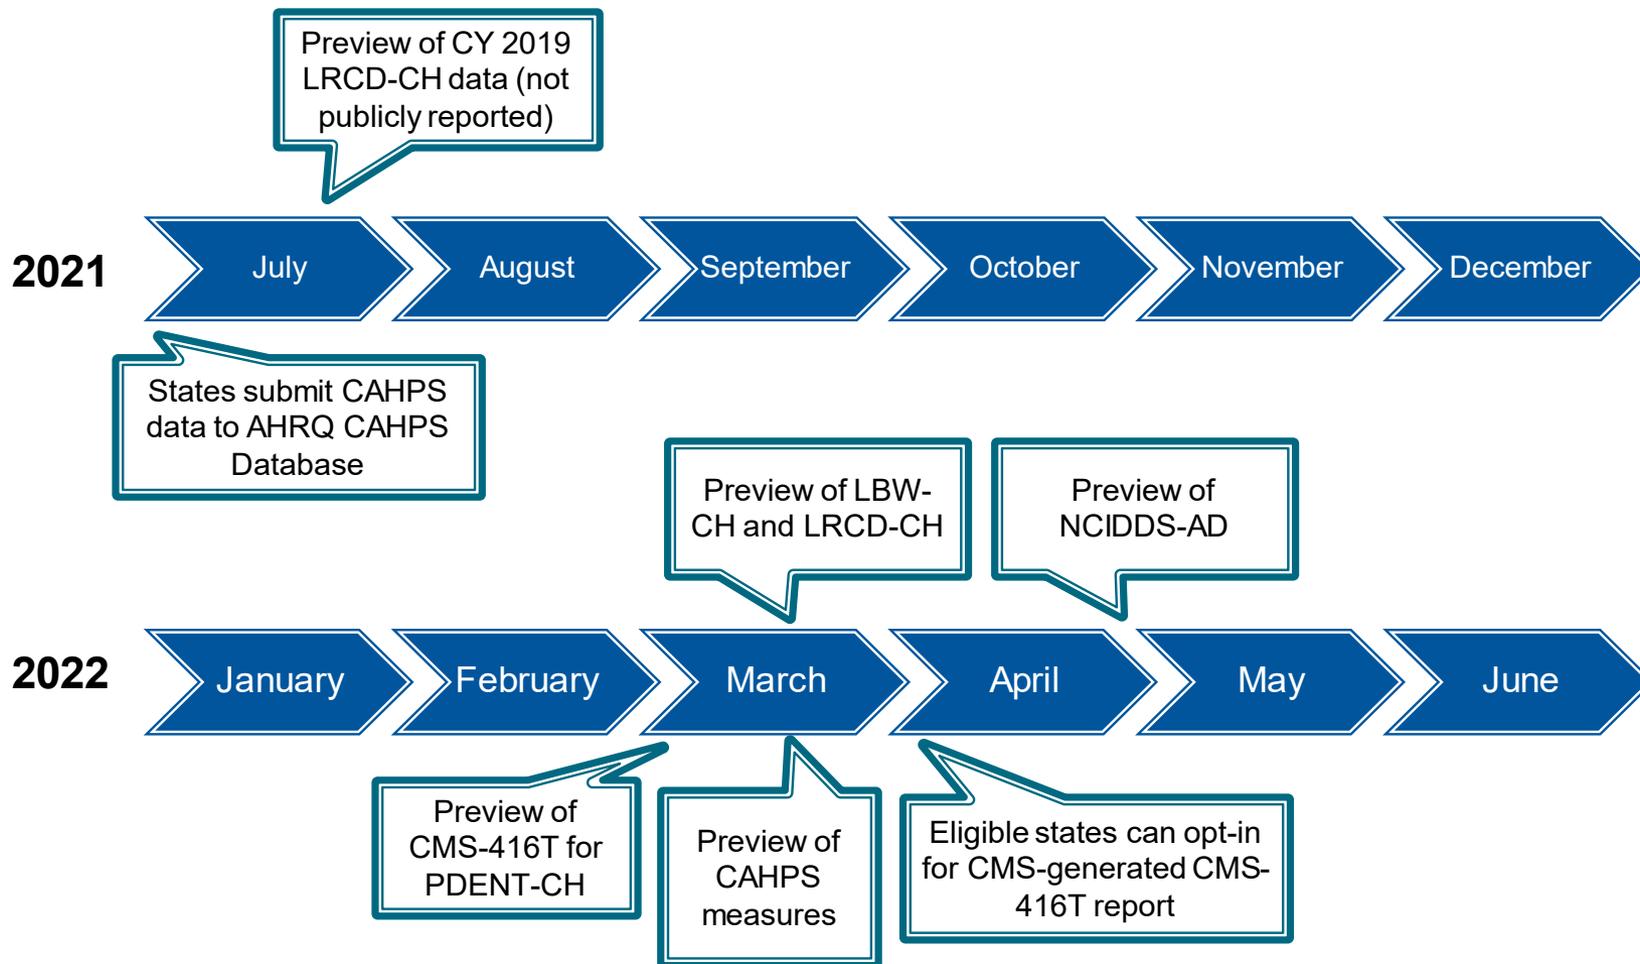

Alternate Data Source: PDENT-CH

- The Preventive Dental Services (PDENT-CH) Child Core Set measure has historically been derived from the state-reported Form CMS-416.
- Beginning with **FFY 2020 reporting**, states that met specified standards for Transformed Medicaid Statistical Information System (T-MSIS) and T-MSIS Analytic Files (TAF) data quality and completeness have the option to allow CMS to generate Form CMS-416T on their behalf using data from the TAF.
- For **FFY 2021 reporting**, states that are eligible to opt-in will receive a CMS-generated report in **spring 2022**. States will be asked to determine whether they will opt-in for TAF-based reporting by the April 1 EPSDT reporting deadline.
- CMS is exploring the use of T-MSIS to calculate other Core Set measures and will be reaching out to states in the coming months.

Alternate Data Source: CPA-AD, CPC-CH, FVA-AD, and MSC-AD

- The Center for Medicaid and CHIP Services (CMCS) is collaborating with the Agency for Healthcare Research and Quality (AHRQ) to use data from the **AHRQ CAHPS Health Plan Survey Database** to streamline reporting of the CPA-AD, CPC-CH, FVA-AD, and MSC-AD measures.
- All Medicaid and CHIP state agencies and health plans are encouraged to submit CAHPS Health Plan Survey data to the 2021 AHRQ CAHPS Database between **June 14 and July 16, 2021. These data correspond to the FFY 2021 Core Set reporting cycle.**
- CMS plans to use data from the AHRQ CAHPS Database for public reporting of Core Set measures in future reporting years and will reach out to states with updates and more information about these plans.
- States and plans that submit their data to the AHRQ CAHPS Database will receive a private, customized Excel feedback report showing their CAHPS survey results compared to overall results in the Database.
- For more information on the AHRQ CAHPS Database, please visit <https://www.ahrq.gov/cahps/cahps-database/index.html> or contact us at MAC-CAHPS-TA@mathematica-mpr.com.

Alternate Data Sources: Timeline for FFY 2021 Reporting

FFY 2021 Data Quality Priorities

Data Quality Considerations

- **Overview of data quality considerations for FFY 2021 Core Set reporting**
 - Data completeness
 - Data accuracy
 - Data consistency
 - Data documentation
- **NEW! Combined data quality checklist for the Child, Adult, and Health Home Core Sets can be found on Medicaid.gov**
 - <https://www.medicaid.gov/medicaid/quality-of-care/downloads/child-adult-healthhomes-data-quality-checklist.pdf>

FFY 2021 Data Quality Priorities

- Documentation of which populations and services are excluded from the measures
 - Programs (Medicaid, CHIP)
 - Delivery systems (managed care, fee-for-service, PCCM)
 - Special populations (for example, dual eligibles or individuals in foster care)
 - Health care settings (for example, services provided at federally-qualified health centers, rural health clinics, or Indian Health Service facilities)
- ★ • If your state cannot include some measure-eligible populations, please describe the missing population and the size of the excluded population.
- If there has been a change in the included populations since the previous reporting year, please provide any available context.

FFY 2021 Data Quality Priorities (cont.)

- Documentation of how states calculated a state-level rate across multiple reporting units
 - If reporting units used different methodologies (for example, several MCOs used administrative data only and several used the hybrid method), note the number of reporting units using each methodology.
 - Please note whether the state-level rates are weighted by population size and by what weighting factor.
 - ★ – Similar guidance applies to creating a SPA-level rate for the Health Home Core Set.
 - Additional guidance on calculating a state-level or SPA-level rate is available at <https://www.medicaid.gov/medicaid/quality-of-care/downloads/state-level-rates-brief.pdf>.

FFY 2021 Data Quality Priorities (cont.)

- Alignment between measures included in the Child, Adult, and Health Home Core Sets
 - Ensure that cross-cutting measures are calculated using consistent methodology
 - Ensure that cross-cutting measures are reported for all applicable Core Sets
- Documentation of any deviations from the Core Set specifications, including age groups, data sources, and methods.
- Documentation of any changes in populations, denominators, or rates between reporting years.

Technical Assistance (TA) for FFY 2021 Core Set Reporting

- For TA related to calculating, reporting, or using the Core Set measures, submit your questions to the TA Mailbox at MACQualityTA@cms.hhs.gov.
- For one-on-one TA on using immunization registry data as a supplemental data source for CIS-CH and IMA-CH measures, contact MACQualityTA@cms.hhs.gov.

Q&A

To ask a question, please enter it into the Q&A panel on the right-hand side of the WebEx platform.

Thank you for attending the webinar!

Appendix A: 2021 Core Set Measure Lists

2021 Child Core Set Measures

NQF #	Measure Steward	Measure Name	Data Collection Method
Primary Care Access and Preventive Care			
0024	NCQA	Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC-CH)	Administrative, hybrid, or EHR
0033	NCQA	Chlamydia Screening in Women Ages 16 to 20 (CHL-CH)	Administrative or EHR
0038	NCQA	Childhood Immunization Status (CIS-CH)	Administrative, hybrid, or EHR
0418*/0418e*	CMS	Screening for Depression and Follow-Up Plan: Ages 12 to 17 (CDF-CH)^	Administrative or EHR
1392	NCQA	Well-Child Visits in the First 30 Months of Life (W30-CH)**	Administrative or hybrid
1407	NCQA	Immunizations for Adolescents (IMA-CH)	Administrative or hybrid
1448**	OHSU	Developmental Screening in the First Three Years of Life (DEV-CH)	Administrative or hybrid
1516	NCQA	Child and Adolescent Well-Child Visits (WCV-CH)***	Administrative or hybrid
Maternal and Perinatal Health			
1360	CDC	Audiological Diagnosis No Later Than 3 Months of Age (AUD-CH)	EHR
1382	CDC	Live Births Weighing Less Than 2,500 Grams (LBW-CH)	State vital records
1517**	NCQA	Prenatal and Postpartum Care: Timeliness of Prenatal Care (PPC-CH)	Administrative or hybrid
2902	OPA	Contraceptive Care – Postpartum Women Ages 15 to 20 (CCP-CH)	Administrative
2903/2904	OPA	Contraceptive Care – All Women Ages 15 to 20 (CCW-CH)	Administrative
NA	CDC	Low-Risk Cesarean Delivery (LRCD-CH)****	State vital records
Care of Acute and Chronic Conditions			
1800	NCQA	Asthma Medication Ratio: Ages 5 to 18 (AMR-CH)	Administrative
NA	NCQA	Ambulatory Care: Emergency Department (ED) Visits (AMB-CH)	Administrative

(continued on next slide)

2021 Child Core Set Measures (cont.)

NQF #	Measure Steward	Measure Name	Data Collection Method
Behavioral Health Care			
0108	NCQA	Follow-Up Care for Children Prescribed Attention-Deficit/Hyperactivity Disorder (ADHD) Medication (ADD-CH) [^]	Administrative or EHR
0576	NCQA	Follow-Up After Hospitalization for Mental Illness: Ages 6 to 17 (FUH-CH) [^]	Administrative
2800	NCQA	Metabolic Monitoring for Children and Adolescents on Antipsychotics (APM-CH) [^]	Administrative
2801	NCQA	Use of First-Line Psychosocial Care for Children and Adolescents on Antipsychotics (APP-CH) [^]	Administrative
Dental and Oral Health Services			
NA	CMS	Percentage of Eligibles Who Received Preventive Dental Services (PDENT-CH)	Administrative (Form CMS-416)
NA	DQA (ADA)	Sealant Receipt on Permanent First Molars (SFM-CH) ^{****}	Administrative
Experience of Care			
0006 ^{*****}	NCQA	Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Health Plan Survey 5.0H – Child Version Including Medicaid and Children with Chronic Conditions Supplemental Items (CPC-CH)	Survey

More information on 2021 Updates to the Child and Adult Core Health Care Quality Measurement Sets is available at <https://www.medicaid.gov/federal-policy-guidance/downloads/cib111920.pdf>. A resource that provides a history of the measures included in the Child and Adult Core Sets is available at <https://www.medicaid.gov/medicaid/quality-of-care/downloads/core-set-history-table.pdf>.

* This measure is no longer endorsed by NQF.

** The Well-Child Visits in the First 15 Months of Life (W15-CH) measure was modified by the measure steward. It now includes two rates: (1) six or more well-child visits in the first 15 months and (2) two or more well-child visits from 15 to 30 months. The NQF number refers to the endorsement of the W15-CH measure.

*** The Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life (W34-CH) and Adolescent Well-Care Visits (AWC-CH) measures were modified by the measure steward into a combined measure that includes rates for Ages 3 to 11, 12 to 17, 18 to 21, and a total rate. The NQF number refers to the endorsement of the W34-CH measure.

**** The Low-Risk Cesarean Delivery (LRCD-CH) measure replaced the PC-02: Cesarean Birth measure in the 2021 Child Core Set. To reduce state burden and report a cesarean birth measure consistently across all states, CMS will calculate the LRCD-CH measure on behalf of states using National Vital Statistics System Natality data that are submitted by states and obtained through CDC Wide-ranging Online Data for Epidemiologic Research (WONDER) starting in FFY 2021.

***** This measure was added to the 2021 Child Core Set. It replaces the Dental Sealants for 6–9 Year-Old Children at Elevated Caries Risk (SEAL-CH) measure, which was retired by the measure steward.

***** AHRQ is the measure steward for the survey instrument in the Child Core Set (NQF #0006) and NCQA is the developer of the survey administration protocol.

[^] This measure is part of the Behavioral Health Core Set. The complete list of 2021 Behavioral Health Core Set measures is available at <https://www.medicaid.gov/medicaid/quality-of-care/downloads/2021-bh-core-set.pdf>.

2021 Adult Core Set Measures

NQF #	Measure Steward	Measure Name	Data Collection Method
Primary Care Access and Preventive Care			
0032	NCQA	Cervical Cancer Screening (CCS-AD)	Administrative, hybrid, or EHR
0033	NCQA	Chlamydia Screening in Women Ages 21 to 24 (CHL-AD)	Administrative or EHR
0039	NCQA	Flu Vaccinations for Adults Ages 18 to 64 (FVA-AD)	Survey
0418*/0418e*	CMS	Screening for Depression and Follow-Up Plan: Age 18 and Older (CDF-AD)^	Administrative or EHR
2372	NCQA	Breast Cancer Screening (BCS-AD)	Administrative or EHR
Maternal and Perinatal Health			
0469/0469e	TJC	PC-01: Elective Delivery (PC01-AD)	Hybrid or EHR
1517*	NCQA	Prenatal and Postpartum Care: Postpartum Care (PPC-AD)	Administrative or hybrid
2902	OPA	Contraceptive Care – Postpartum Women Ages 21 to 44 (CCP-AD)	Administrative
2903/2904	OPA	Contraceptive Care – All Women Ages 21 to 44 (CCW-AD)	Administrative
Care of Acute and Chronic Conditions			
0018	NCQA	Controlling High Blood Pressure (CBP-AD)	Administrative, hybrid, or EHR
0059	NCQA	Comprehensive Diabetes Care: Hemoglobin A1c (HbA1c) Poor Control (>9.0%) (HPC-AD)	Administrative, hybrid, or EHR
0272	AHRQ	PQI 01: Diabetes Short-Term Complications Admission Rate (PQI01-AD)	Administrative
0275	AHRQ	PQI 05: Chronic Obstructive Pulmonary Disease (COPD) or Asthma in Older Adults Admission Rate (PQI05-AD)	Administrative
0277	AHRQ	PQI 08: Heart Failure Admission Rate (PQI08-AD)	Administrative
0283	AHRQ	PQI 15: Asthma in Younger Adults Admission Rate (PQI15-AD)	Administrative
1768*	NCQA	Plan All-Cause Readmissions (PCR-AD)	Administrative
1800	NCQA	Asthma Medication Ratio: Ages 19 to 64 (AMR-AD)	Administrative
2082/3210e	HRSA	HIV Viral Load Suppression (HVL-AD)	Administrative or EHR
