

# FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

## Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory\* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

\* - When "state" is referenced throughout this template it is defined as either a state or a territory.

**\*Disclosure.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory:                     CT                    

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Shannon LaPlante

CHIP Program Name(s): All, HUSKY

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2018 **(Note: Federal Fiscal Year 2018 starts 10/1/2017 and ends 9/30/2018)**

Contact Person/Title: Shannon LaPlante

Address: 55 Farmington Ave.

City: Hartford State: CT Zip: 06105

Phone: 860-424-4835 Fax: \_\_\_\_\_

Email: Shannon.LaPlante@ct.gov

Submission Date: 7/17/2019

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

## Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state's CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., **[500]** are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO  
 YES  
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: [500]

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: [500]

### Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
- YES
- N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL
30	50	250	318
0	0	197	249

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL
360	600	250	318

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

- 2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate “yes” or “no change” by marking the appropriate column.

**For FFY 2018, please include only the program changes that are in addition to and/or beyond those required by the Affordable Care Act.**

	Medicaid Expansion CHIP Program			Separate Child Health Program		
	Yes	No Change	N/A	Yes	No Change	N/A
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Enter any Narrative text related to Section I below. **[7500]**

The elimination of the co-pay for behavioral health services for CHIP enrollees was in response to meeting the mental health parity requirement.

## Section II Program's Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state's general strategic objectives and performance goals.

---

### Section IIA: Enrollment And Uninsured Data

---

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your state's 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2017	FFY 2018	Percent change FFY 2017-2018
CHIP Medicaid Expansion Program	0	0	
Separate Child Health Program	28889	28900	0.04

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**
2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (\*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	57	15.5	6.3	1.7
1998 - 2000	39	12.9	4.3	1.4
2000 - 2002	39	7.7	4.5	.9
2002 - 2004	36	7.4	4.0	.8
2003 - 2005	37	8.6	4.2	1.0
2004 - 2006	29	9.0	3.3	1.0
2005 - 2007	29	8.0	3.3	.9
2006 - 2008	19	7.0	2.3	.8
2007 - 2009	25	8.0	2.9	.9
2008 - 2010	24	4.0	2.8	.4
2009 - 2011	25	4.0	2.9	.5
2010 - 2012	20	4.0	2.3	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	14	3.0	1.7	.3
2014	14	3.0	1.8	.4
2015	12	3.0	1.6	.4
2016	7	2.0	.9	.3
2017	8	2.0	1.1	.3
Percent change 2016 vs. 2017	14.3%	N/A	22.2%	N/A

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**

CTs rate of uninsured poor children has remained very low over the past few years.

B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. **[7500]**

The increase appears large due to the very small numbers.

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)  
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

**[7500]**

B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.

**[7500]**

C. What are the limitations of the data or estimation methodology?

**[7500]**

D. How does your state use this alternate data source in CHIP program planning?

**[7500]**

Enter any Narrative text related to Section IIA below. **[7500]**

## Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2016 and FFY 2017) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2018).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.**

Additional instructions for completing each row of the table are provided below.

### A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

### B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued. GAL

### **C. Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional**: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2018.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final**: Check this box if the data you are reporting are considered final for FFY 2018.
- **Same data as reported in a previous year’s annual report**: Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

### **D. Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

#### **HEDIS® Version:**

Please specify HEDIS® Version (example 2016). This field MUST be completed only when a user selects the HEDIS® measurement specification.

#### **“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

### **E. Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

## **F. Definition of Population Included in Measure:**

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded). The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

## **G. Deviations from Measure Specification**

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

## **H. Date Range: available for 2018 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

## **I. Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

## **J. Explanation of Progress:**

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2019, 2020 and 2021. Based on your recent performance on the measure (from FFY 2016 through 2018), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

## **K. Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

**Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)**

FFY 2016	FFY 2017	FFY 2018
<p><b>Goal #1 (Describe)</b>                      CT has been using existing resources and mechanisms to keep the rate of poor uninsured rate low and therefore had not created formal goals for uninsured children for this period. CT is formalizing our goals for the FY 2017 and thereafter.</p>	<p><b>Goal #1 (Describe)</b>                      CT has been using existing resources and mechanisms to keep the rate of poor uninsured rate low and therefore had not created formal goals for uninsured children.</p>	<p><b>Goal #1 (Describe)</b>                      CT is pleased to report that the number of uninsured children is extremely low, (~1%) We continue to use existing resources and mechanisms to prevent gaps in children's health coverage and therefore have not created formal goals.</p>

**Objectives Related to Medicaid Enrollment**

FFY 2016	FFY 2017	FFY 2018
<p><b>Goal #1 (Describe)</b>            CT has been using existing resources and mechanisms to increase the enrollment of eligible uninsured people into Medicaid and therefore had not created formal goals for Medicaid enrollment for this period. CT is formalizing our goals for the FY 2017 and thereafter.</p>	<p><b>Goal #1 (Describe)</b>            CT lacks state resources allocated to accomplish specific goals related to increasing Medicaid enrollment, however community outreach and promotion is being effectively achieved by Access Health CT, the states health insurance exchange. Currently a mechanism does not exist to measure changes in enrollment due to the efforts of the health exchange.</p>	<p><b>Goal #1 (Describe)</b>            CT is pleased to report that the number of uninsured poor children is extremely low, (~1%) yet we continue to use existing resources and mechanisms to prevent gaps in children's health coverage and therefore have not created formal goals for Medicaid enrollment. However, using the state's new shared eligibility management system deployed state-wide in 2017, CT will have the capability to report on the number of Medicaid and CHIP children enrolled through the health exchange in FFY2020.</p>
<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input checked="" type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>	<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>	<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>

FFY 2016	FFY 2017	FFY 2018
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2016 compare with the Annual Performance Objective documented in your 2015 Annual Report?</b> Ensure statewide access to care for members by maintaining and increasing the CT Medical Assistance Program (CMAP) provider network by 5%.</p> <p>CT achieved a 7.13% increase in total CMAP providers.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> The CHIP Network of providers is the same network of providers in the Medicaid program and therefore provider recruitment is for both programs.</p> <ul style="list-style-type: none"> <li>• Collaborate with medical association leaders such as AAP, ACOG and other organizations such as the CT Hospital Association to encourage participation in the CMAP network. Be a presence at provider conferences to solicit participation.</li> <li>• Monitor the specialist network, identify gaps by provider specialty based on GeoAccess reporting and develop a recruitment plan: <ul style="list-style-type: none"> <li>o Research available providers in the geographic area by checking commercial websites of providers not enrolled in CMAP and begin outreach to have them enroll.</li> <li>o Outreach to existing providers to ensure their continued retention and request possible leads on new, non-CMAP providers.</li> </ul> </li> </ul>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> A comparison cannot be made as the rate was measured using a whole year of data in this report as opposed to only 9 months last report.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> The CHIP Network of providers is the same network of providers in the Medicaid program and therefore provider recruitment is for both programs.</p> <ul style="list-style-type: none"> <li>- Collaborate with specialists association leaders to encourage participation in the CMAP network.</li> <li>- Be a presence at specialist conferences to solicit participation.</li> <li>- Monitor the specialist network, identify gaps by provider specialty based on GeoAccess reporting and develop a recruitment plan: <ul style="list-style-type: none"> <li>o Research available providers in the geographic area by checking commercial websites of providers not enrolled in CMAP and begin outreach to have them enroll.</li> <li>o Outreach to existing providers to ensure their continued retention and request possible leads on new, non-CMAP providers</li> </ul> </li> </ul>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> This goal was not anticipated or stated in the FFY17 report but was rather created as a new goal for FFY18 in immediate response to the opioid crisis. CTs access to care objectives shifted to meet the emerging priority to expand our network of providers that offered medication assisted therapy services to address substance use.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> The medical and behavioral health ASOs have collaborated to identify, recruit and offer training to primary care providers to become certified in the administration of Suboxone and other MAT treatment. MAT providers are posted on the provider network directory used by members and providers.</p>

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

Most all data collected and reported by CT DSS is a combination of CHIP and Medicaid. Therefore CHIP program data is not stratified. That said, in most cases CT can only comment and report on data on both programs combined unless otherwise noted.

The network of providers for the Medicaid and CHIP populations are the same. There is one statewide network in Connecticut's self-insured, managed fee-for-service model that is enrolled through the Department and managed through contracted medical, dental and behavioral health administrative service organizations (ASOs). Pharmacy benefits are managed directly by the Department and its contractor DXC, and the Department maintains a statewide Preferred Drug List (PDL).

To assess member access to care, in addition to quarterly monitoring of provider network statistics, an annual Mystery Shopper survey is conducted with a random sample of Medicaid and CHIP providers. A researcher poses as a HUSKY member to request an appointment. Based on the number of HUSKY members able to make an appointment, the results are compared to the network statistics to identify opportunities for improving access to targeted provider types and specialties.

To assess outcomes of member experience, a separate CAHPS member satisfaction survey is conducted annually by an NCQA-certified vendor. Trends identify and inform the types and methods of quality improvement initiatives for the following year.

Measuring clinical quality performance and outcomes through the use of health measures is a key mechanism in assessing all facets of health care delivery. CT utilizes a comprehensive set of different types of health measures including structural measures to assess "sufficiency of resources and proper system design" (e.g., access to primary or specialty care and use of electronic health records); 2) Process measures to assess "the way in which care and services are provided, including assessment, evaluation, diagnosis and treatment" (e.g., prescribing asthma controller medications, screenings and counseling); and 3) Outcome measures to assess "the effect of care delivered on the patient's (and family's) health and function. (e.g., immunization rates, number of emergency department visits due to asthma attacks, etc.) All are included to evaluate and assist the provider community in balancing both time and resources to improve member experience, address population health concerns, including social determinants of health (SDOH), and reduce unnecessary healthcare expenditures.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

An annual Quality Management Plan outlines the quality improvement initiatives to address identified ongoing or emerging health priorities for the upcoming year. Beginning CY2019, the plan will be amended quarterly to meet the evolving needs of the population, and truly embody a more agile quality improvement model. The model allows one to identify and plan activities, implement or change processes, evaluate results and continuously improve based on findings. An analysis and evaluation of the previous year's performance is conducted annually.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

no

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to

reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Enter any Narrative text related to Section IIB below. [7500]

CT monitors and oversees the quality management of services provided to all Medicaid and CHIP members by the ASOs. Our Quality Management Programs are structured to identify a set of goals based on current health priorities with corresponding initiatives and activities in the following key areas: 1) population health management, including health outcomes, utilization management and cost-effectiveness; 2) access to care; and 3) program satisfaction. The annual QM Evaluation is a report of the success in meeting each of the goals established with a corresponding analysis.

## Section III: Assessment of State Plan and Program Operation

### Please reference and summarize attachments that are relevant to specific questions

Please note that the numbers in brackets, e.g., [7500] are character limits in the State Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

CT has not changed course related to outreach interventions rather continues to utilize existing successful methods to reach low-income uninsured.

Connecticut's highly successful implementation of the Affordable Care Act continued to include the Children's Health Insurance Program, as a component of the state's HUSKY Health Program. During 2018, a statewide information and outreach campaign which was spearheaded by Access Health CT, the state's health insurance exchange, targeted and encouraged uninsured and underinsured CT residents to seek affordable health coverage. The CT Department of Social Services (DSS), who is the administering agency for CHIP and Medicaid, partners with and funds Access Health CT. Access Health CT's marketing activities range from walk-in storefront offices to print and TV/radio ads, to promote the state's general gateway for health coverage for uninsured residents ([www.accesshealthct.com](http://www.accesshealthct.com) and 1-855-805-4325). While marketing activities are centered on the exchange's private qualified health plans, the 'wide net' does encompass a general application gateway that includes CHIP-eligible children. CT DSS shares an integrated eligibility system with Access Health CT to offer a 'no wrong door' approach to customer service. Families can apply for CHIP using the Department's integrated eligibility process at [www.connect.ct.gov](http://www.connect.ct.gov) or in person at one of 12 local offices. Consumers may also obtain general information from the DSS-contracted information and referral service provided by the United Way of Connecticut at 2-1-1 and 1-877-CT-HUSKY.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

From the launch of CHIP in Connecticut in mid-1998, the state has found that reaching families and conducting effective outreach is a process that entails a variety of measures, from community-based outreach to media (including paid advertising when dollars were available to the Department of Social Services to 'get the program on the map' in earlier years). Today, advertising and marketing by Access Health CT for the overall system, pursuant to the ACA, is the new era of overall outreach about the availability of children's, family and individual health coverage. More than 20 years after the launch of Connecticut's combined HUSKY Health program (Medicaid and CHIP), we believe awareness of the availability of children's health coverage is extremely prevalent, thanks to the combined efforts of community and statewide advocates, health care providers, government and non-profit partners and an overall commitment to ensure all CT children have health coverage.

To highlight a few ongoing efforts, DSS, Access Health CT and United Way of Connecticut personnel participate in community and regional information activities, including statewide meetings convened by Connecticut Voices for Children three times a year under the banner of "Covering Connecticut's Kids and Families".

Similarly, DSS's contracted medical ASO for CHIP and Medicaid has initiated weekly "Community Engagement HUBs" in high traffic locales in local communities to educate and assist members directly with HUSKY Health questions and concerns.

In partnership with the Department of Education, DSS and Access Health CT issue a customized HUSKY outreach form (English- and Spanish-language), with a request that school systems disseminate the form to parents through their normal distribution channels. The form is an adaptation of a form disseminated for many years in the free and reduced-price school nutrition application packages to parents.

Another ongoing initiative is the DSS collaboration with Connecticut birthing hospitals to enroll babies without health coverage into the HUSKY Plan. To encourage parents to make sure their newborns are covered, the state underwrites the first four months of premium cost-sharing, if applicable. To compliment this initiative a newborn's application is submitted by the hospital before the family goes home. This has resulted in coverage beginning immediately instead of relying on the parent to follow up and apply at a later date. This is particularly relevant to CHIP, or HUSKY B, as this is the portion of the HUSKY Plan with cost-sharing.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

Although difficult to quantify, we continue to believe the robust and well-known partnerships with CT schools and with our birthing hospitals have proven to be best practices. In the case of the school-based initiative between the Departments of Social Services and Education, Access Health CT and school districts across the state, the identification of uninsured students and corresponding outreach to their parents/caregivers is a direct way to zero in on the target audience, across all demographic constituencies. While school-based outreach has been in effect for many years in various forms, the addition of a state law (P.A. 91-327 Sec. 10-206c) to codify the collection of information about uninsured students was an advance that has great potential, depending on the level of involvement and compliance by individual school systems. CT DSS has endeavored to provide guidance to make meaningful compliance as 'doable' as possible. By the same token, the newborn outreach initiative, which entails a degree of state investment by waiving the CHIP premiums that are otherwise the responsibility of parents for the first four months of a child's life, has tremendous potential in ensuring that newborns do not leave the hospital without coverage.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes  
 No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]**

(Identify the data source used). **[7500]**

At this time, CT is unable to accurately quantify the number of uninsured children that have enrolled in Medicaid and CHIP as a result of these vehicles. Parents/guardians of CT's children may be referred or influenced by any number of sources to HUSKY Health. Similarly, hospital reporting is not the only avenue for newborns to be enrolled.

Enter any Narrative text related to Section IIIA below. **[7500]**

## Section IIIB: Substitution of Coverage (Crowd-out)

All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.

1. Does your program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No  
 Yes  
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?  
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**

4. List all exemptions to imposing the period of uninsurance **[1000]**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No  
 Yes  
 N/A

6. If answered yes to question 5, what database? **[1000]**

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]** 33

a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)\*100]? **[5]**

8. Do you track the number of individuals who have access to private insurance?

- Yes  
 No

9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)\*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

## Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

### Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?

- Yes  
 No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]** 1
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]** 99
2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.
- Conducts follow-up with clients through caseworkers/outreach workers
- Sends renewal reminder notices to all families
- How many notices are sent to the family prior to disenrolling the child from the program? **[500]** 2
  - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]** 60 days and 30 days prior to disenrollment
- Other, please explain: **[500]**

CT employs a very successful passive renewal process for CHIP members. At 60 days prior to the end of the eligibility period, information from the application currently on file, such as income or immigration status, is validated against electronic verification sources including the Federal Data Services Hub. If the individual continues to qualify, they are notified. If the information is discrepant and requires another form of verification, a pre-populated renewal form is generated.

Passive renewal is very successful with approximately 72% of individuals auto-renewing each month. The client remains enrolled without an interruption of coverage and without needless follow-up from the client. In addition, the administrative work on part of state resources was reduced.

## Section IIIC: Subpart B: Eligibility Data

**Table 1. Data on Denials of Title XXI Coverage in FFY 2018**

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2018. Please enter the data requested in the table below and the template will tabulate the requested percentages. If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	76497	100
a. Total number of procedural denials	0	
b. Total number of eligibility denials	76497	100
i. Total number of applicants denied for title XXI and enrolled in title XIX	68708	89.8
<input checked="" type="checkbox"/> (Check here if there are no additional categories)		
c. Total number of applicants denied for other reasons Please indicate:		

2. Please describe any limitations or restrictions on the data used in this table:

CT elected to count only the first CHIP denial-for-coverage for an individual, i.e., CT did not count the same person multiple times and did not count QHP/APTC change reporting in the CHIP denials beyond the first instance.

Procedural denials were not included in the report. Procedural denials are low in CT as there are very few paper applications, verification processes are post enrollment, etc.

### Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2018. This definition only includes denials for title XXI at the time of initial application (not redetermination).
  - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2018 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
  - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2018 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
    - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
  - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

## Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2018.

### Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	12102	100%			
2. Total number of children screened for redetermination for title XXI	12102	100	100%		
3. Total number of children retained in title XXI after the redetermination process	8598	71.05	71.05		
4. Total number of children disenrolled from title XXI after the redetermination process	3504	28.95	28.95	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures	1235			35.25	
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria	2269			64.75	100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/> )	363				16
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/> )	1662				73.25
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/> )	43				1.9
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: Reasons included a change in State residency, change in lawful presence, non-custodial parent application, receiving other (non MAGI) Medicaid and withdrew application (not applying) (If unable to provide the data check here <input type="checkbox"/> )	201				8.86
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input checked="" type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

N/A

#### Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2018, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose

eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2018 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state ).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2018.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2018. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2018 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.  
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

### Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	223741	100%			
2. Total number of children screened for redetermination for title XIX	223741	100	100%		
3. Total number of children retained in title XIX after the redetermination process	202341	90.44	90.44		
4. Total number of children disenrolled from title XIX after the redetermination process	21400	9.56	9.56	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures	11740			54.86	
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria	9660			45.14	100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/> )	7972				82.53
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: Reasons included a change in State residency, change in lawful presence, non-custodial parent application, receiving other (non MAGI) Medicaid and withdrew application (not applying) (If unable to provide the data check here <input type="checkbox"/> )	1688				17.47
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input checked="" type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

**Definitions:**

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2018, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2018 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state ).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2018.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2018. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2018 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

Because the measure is designed to capture continuity of coverage in title XIX and title XXI beyond one year of enrollment, the measure collects data for 18 months of enrollment. This means that reporting spans two CARTS reports over two years. The duration measure uses a cohort of children and follows the enrollment of the same cohort of children for 18 months to measure continuity of coverage. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

**The FFY 2018 CARTS report is the first year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018.** For the FFY 2018 report, States will only report on lines 1-4a of the tables. States will continue to report on the same table in the FFY 2019 CARTS report. In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a. The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

**Instructions:** For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2018 report you will only enter data on line 1 about the total children newly enrolled, and lines 2-4a related to the 6-month enrollment status of children identified on line 1. Line 1 should be populated with data on the children newly-enrolled in January, February, and March 2018. Lines 2-4a of the tables should also be populated with information about these same children 6 months later (as of June 2018 for children first identified as newly enrolled in January 2018, as of July 2018 for children identified as newly enrolled in February 2018, and as of August 2018 for children identified as newly enrolled in March 2018). **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

**Note that all data must sum correctly in order to save and move to the next page.** The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to the row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so for data reported at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for. That is, regardless of how the enrollment numbers are distributed between line 2-10 in the continuously enrolled, break in coverage but re-enrolled, and disenrolled categories and across the age category columns at each time period, the total number of children accounted for in each time period should add up to the number in line 1, column 2 "All Children Ages 0-16."

Rows numbered with an “a” (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.

**Table 3 a. Duration Measure of Children Enrolled in Title XIX**

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

**Definitions:**

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
  - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
  
8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from title XIX.

### Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2018	1476	100%	120	100%	486	100%	568	100%	302	100%

	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Enrollment status 6 months later</b>										
2. Total number of children continuously enrolled in title XXI	889	60.23	79	65.83	298	61.32	342	60.21	170	56.29
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	29	1.96	0		13	2.67	13	2.29	3	0.99
3.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	17	1.15	0		8	1.65	7	1.23	2	0.66
4. Total number of children disenrolled from title XXI	558	37.8	41	34.17	175	36.01	213	37.5	129	42.72
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	212	14.36	18	15	82	16.87	74	13.03	38	12.58
<b>Enrollment status 12 months later</b>										
5. Total number of children continuously enrolled in title XXI										
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
7. Total number of children disenrolled from title XXI										
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										
<b>Enrollment status 18 months later</b>										
8. Total number of children continuously enrolled in title XXI										
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										

**Definitions:**

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
  
3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019
  
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
  - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
  - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
  - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:  
the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019  
+ the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019  
+ the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019  
10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

Enter any Narrative text related to Section IIIC below. **[7500]**

None

## Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?

a. Cost sharing is tracked by:

Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

Health Plan(s)

State

Third Party Administrator

N/A (No cost sharing required)

Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?

Yes

No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

Children are issued a new medical card that shows a \$0.00 copayment. Premiums are not collected. Providers are notified via provider remittance statement and provider payments are not reduced.

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

<1%

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

Yes

No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

Yes

No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

N/A

Enter any Narrative text related to Section IIID below. **[7500]**

### **Section IIIE: Employer sponsored insurance Program (including Premium Assistance)**

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.  
 No, skip to Program Integrity subsection.

#### Children

- Yes, Check all that apply and complete each question for each authority
- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))
  - Additional Premium Assistance Option under CHIP state plan (2105(c)(10))
  - Section 1115 Demonstration (Title XXI)

#### Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP state plan (2105(c)(10))
  - Section 1115 demonstration (Title XXI)
2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)
    - Parents and Caretaker Relatives
    - Pregnant Women
  3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**
  4. What benefit package does the ESI program use? **[7500]**
  5. Are there any minimum coverage requirements for the benefit package?
    - Yes
    - No
  6. Does the program provide wrap-around coverage for benefits?
    - Yes
    - No

7. Are there limits on cost sharing for children in your ESI program?

- Yes
- No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes
- No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
- No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

Number of adults ever-enrolled during the reporting period

Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2018.

Children  
Parents

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
Children	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>
Parents	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes  
 No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes  
 No

22. Can you cap enrollment for your program?

- Yes  
 No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text related to Section III E below. **[7500]**

## Section III F: Program Integrity

### COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:
  - (1) prevention:  
 Yes  
 No
  - (2) investigation:  
 Yes  
 No
  - (3) referral of cases of fraud and abuse?  
 Yes  
 No

Please explain: **[7500]**

The Office of Quality Assurance (QA) performs federally mandated audits of medical and health care providers that are paid through the various medical assistance programs administered by the Department. QA reviews medical provider activities, audits claims and identifies overpayments; educates providers on program integrity issues and performs special investigations to combat fraud and abuse.

The Department's provider referrals to law enforcement (MFCU, OAG, HHS-OIG-OI) are made in accordance with a four (4) part MOU.

Do managed health care plans with which your program contracts have written plans?

- Yes  
 No

Please Explain: **[500]**

NA. The CT Department of Social Services does not contract with Managed Care Organizations.

2. For the reporting period, please report the
  - 7 Number of fair hearing appeals of eligibility denials
  - 1 Number of cases found in favor of beneficiary
3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

  - 0 Number of cases investigated
  - 0 Number of cases referred to appropriate law enforcement officials

Provider Billing

  - 22 Number of cases investigated
  - 16 Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

543 Number of cases investigated

0 Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

CT DSS contracts with DXC to perform provider credentialing (enrollment). These functions are overseen by the DSS-Division of Health Service's Medical Operations unit. The Medical Operations Unit conducts quarterly quality assurance reviews of a random selection of credentialed providers to ensure the required enrollment criteria is met. DXC would be notified in the event any deficiencies required corrective action. In addition, the Medical Operations Unit consults with the Office of Quality Assurance-Provider Enrollment Unit on an on-going basis to ensure any new federal or state provider enrollment disclosure requirements are implemented by the Department's contractor, DXC.

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

Enter any Narrative text related to Section IIIF below. **[7500]**

The above referenced cases are Medicaid only. CT DSS Quality Assurance Unit does not investigate CHIP beneficiary fraud and abuse.

The CT DSS Quality Assurance Unit does not investigate fraud and abuse for the Provider Credentialing process

Source for provider billing investigations: Quality Assurance Special Investigations Division Referral and Payment Suspension (RAPS) System

Source for beneficiary eligibility investigations: Quality Assurance Client Fraud Tracking System

## Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2018	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
<b>Total Individuals Enrolled for at Least 90 Continuous Days<sup>1</sup></b>	24120	177	1862	3581	5262	7234	6004
<b>Total Enrollees Receiving Any Dental Services<sup>2</sup> [7]</b>	16133	1	763	2422	3969	5304	3674
<b>Total Enrollees Receiving Preventive Dental Services<sup>3</sup> [7]</b>	15394	1	720	2364	3858	5084	3367

<sup>1</sup> **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

<sup>2</sup> **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

<sup>3</sup> **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2018	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services <sup>4</sup> [7]	6101		21	437	1587	2309	1747

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth<sup>5</sup>? [7]  
951

2. Does the state provide supplemental dental coverage?

- Yes  
 No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section IIIG below. [7500]

<sup>4</sup> **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

<sup>5</sup> **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

### Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

#### Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

#### If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

#### If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not coveredExplain the partial population not covered:
- Data not available
  - Explain why data not available
    - Budget constraints
    - Staff constraints
    - Data inconsistencies/accuracyPlease explain:
    - Data source not easily accessibleSelect all that apply:
  - Requires medical record review
  - Requires data linkage which does not currently exist
  - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

**Definition of Population Included in the Survey Sample:**

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

**Which Version of the CAHPS® Survey was Used?**

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain:

**Which Supplemental Item Sets were Included in the Survey?**

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain:

**Which Administrative Protocol was Used to Administer the Survey?**

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain:

Enter any Narrative text related to Section IIIH below. **[7500]**

See attached CHIP CAHPS Survey w/ CCC and General Population

### Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan

Pursuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.

1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?

Yes, please answer questions below.

No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state’s CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program <sup>6</sup>

3) Please define a metric for each of your state’s HSI programs that is used to measure the program’s impact on improving the health of low-income children. In the table below, please list the HSI program title in the first column, and include a metric used to measure that program’s impact in the second column. In

---

<sup>6</sup> The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

the third column, please provide the outcomes for metrics reported in the second column. Reporting on outcomes is optional as states work to develop metrics and collect outcome data. States that are already reporting to CMS on such measures related to their HSI program(s) do not need to replicate that reporting here and may skip to Section IV.

HSI Program	Metric	Outcome

Enter any Narrative text related to Section III I below. [7500]

## Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2018. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

### COST OF APPROVED CHIP PLAN

<b>Benefit Costs</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>
Insurance payments	0	0	0
Managed Care	0	0	0
Fee for Service	45430359	45508468	47207369
<b>Total Benefit Costs</b>	<b>45430359</b>	<b>45508468</b>	<b>47207369</b>
(Offsetting beneficiary cost sharing payments)	-1095149	-1912704	-1952722
<b>Net Benefit Costs</b>	<b>\$ 44335210</b>	<b>\$ 43595764</b>	<b>\$ 45254647</b>

<b>Administration Costs</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>
Personnel	1410639	1387112	1439894
General Administration	15253	14998	15569
Contractors/Brokers (e.g., enrollment contractors)	3371249	3315022	3441164
Claims Processing	128993	126841	131668
Outreach/Marketing costs	0	0	0
Other (e.g., indirect costs)	0	0	0
Health Services Initiatives	0	0	0
<b>Total Administration Costs</b>	<b>4926134</b>	<b>4843973</b>	<b>5028295</b>
<b>10% Administrative Cap (net benefit costs ÷ 9)</b>	<b>4926134</b>	<b>4843974</b>	<b>5028294</b>

	<b>2018</b>	<b>2019</b>	<b>2020</b>
<b>Federal Title XXI Share</b>	<b>43349983</b>	<b>42626969</b>	<b>38466451</b>
<b>State Share</b>	<b>5911361</b>	<b>5812768</b>	<b>11816491</b>
<b>TOTAL COSTS OF APPROVED CHIP PLAN</b>	<b>49261344</b>	<b>48439737</b>	<b>50282942</b>

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

The funds provided for FFY 2018 were sufficient to cover the Regular CHIP program, but they were not sufficient to cover both the Regular CHIP and the additional 38% federal share for MCHIP (SCHIP Fix) expenditures. In order to not exceed our FFY 18 CHIP award in total we reduced our Q4 MCHIP expenditures accordingly, which allowed us to stay within our total FFY 18 CHIP award.

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

### A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2018	0	\$0
2019	0	\$0
2020	0	\$0

### A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2018	222049	\$222
2019	229836	\$211
2020	236732	\$212

Enter any Narrative text related to Section IV below. [7500]

## Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

Connecticut continues to prioritize expansive coverage for children and families, through Medicaid and CHIP, and we are grateful for the permanency afforded by the long-term extension of CHIP. Anticipating the point in time at which the match rate for CHIP will revert to the historical rate, Connecticut is forecasting around financial sustainability for CHIP.

Of interest to the larger question of covering uninsured children, a bill has been raised during the 2019 legislative session that seeks to require the Department of Social Services to provide health care coverage to undocumented children. We will track the progress of this bill.

During the 2018 legislative session, the following relevant legislation was enacted:

**Insurance Coverage for Children's Health Care Services**

A new law requires certain health insurance policies to cover 10 essential health benefits, including pediatric services. It also requires policies to cover immunizations and preventive care services for children and youths (PA 18-10, effective January 1, 2019).

**Services for Children with Intellectual and Developmental Disabilities**

A new law requires the DCF commissioner, in collaboration with the early childhood, developmental services, and social services commissioners, to develop investigation, assessment, and case-planning procedures that are responsive to the needs of children with intellectual and developmental disabilities. By February 1, 2019, the new law requires the DCF commissioner to report to the Children's Committee on the procedures and include any legislative recommendations (PA 18-71, effective July 1, 2018).

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

Reauthorization of CHIP funding having occurred, there were no major challenges during the reporting period.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

HUSKY B coverage is contributing to significant improvements in health outcomes for enrolled children. Under Connecticut's unique, self-insured managed fee-for-service system, the following results were achieved for Medicaid and CHIP children and adolescents (combined) in calendar year 2017 (latest available quality data):

- o Increased the rate of Developmental Screening in the First Three Years of Life by 17.40%
- o Increased the rate of Behavioral Health Screening in Children Ages 1-18 by 28.04%
- o Increased the rate of Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents by:
  - o BMI Percentile Total-6.03%
  - o Counseling for Nutrition Total-4.07%
  - o Counseling for Physical Activity Total-7.00%
- o Increased the rate of Well Child Visits in the Third, Fourth, Fifth and Sixth Year of Life by 2.81%
- o Increased the rate of Adolescent Well Care Visits by 1.69%
- o Increased the Childhood Immunization Status rates by:

- o 2.36% for DTaP
- o 2.40% for IPV
- o 1.62% for MMR
- o 2.68% for HiB
- o 1.38% for Hepatitis B
- o 4.31% for VZV
- o 4.10% for Pneumococcal Conjugate
- o 2.96% for Hepatitis A
- o 5.02% for Rotavirus
- o 8.86% for Influenza
- o 2.20% for Combination #2
- o 2.31% for Combination #3
- o 3.96% for Combination #4
- o 3.33% for Combination #5
- o 10.67% for Combination #6
- o 4.45% for Combination #7
- o 12.11% for Combination #8
- o 9.89% for Combination #9
- o 10.94% for Combination #10
- o Increased the Immunization rates for Adolescents by:
- o 1.34% for Meningococcal vaccine
- o 2.13% for Tdap/Td
- o 1.66% for Combination #1
- o Increased the rate of Appropriate Testing for Children with Pharyngitis by 3.09%
- o Increased the total rate of Metabolic Monitoring for Children and Adolescents on Antipsychotics by 3.37%
- o Reduced the rate of Non-Recommended Cervical Cancer Screenings in Adolescent Females by:
- o 30.15%
- o Reduced the total rate of Use of Multiple Concurrent Antipsychotics in Children and Adolescents by 1.18%
- o Increased the total rate of Use of First-Line Psychosocial Care for Children and Adolescents on Antipsychotics by 1.36%

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

CT does not plan to make any changes to the CHIP Program in the near future. As noted above, Connecticut is planning for sustainability of the program for the point in time in which the FMAP reverts to historical levels.

Enter any Narrative text related to Section V below. **[7500]**
