Enrollment and Uninsured Data

Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

Program	Number of children enrolled in FFY 2019	Number of children enrolled in FFY 2020	Percent change
Medicaid Expansion CHIP	18,124	20,843	15.002%
Separate CHIP	11,274	11,284	0.089%

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

It is unclear to us why the enrollment numbers increased.

Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey.

Year	Number of uninsured children	Margin of error	Percent of uninsured children (of total children in your state)	Margin of error
2015	7,000	1,000	2.8%	0.5%
2016	6,000	2,000	2.1%	0.7%
2017	5,000	1,000	2%	0.4%
2018	6,000	2,000	2.4%	0.6%
2019	7,000	2,000	2.7%	0.8%

Percent change between 2018 and 2019
Not Available

2.

Are there any reasons why the American Community Survey estimates wouldn't be a precise representation of the actual number of uninsured children in your state?

○ Yes

⦿ No

3.

Do you have any alternate data source(s) or methodology for measuring the number and/or percent of uninsured children in your state?

○ Yes

⦿ No

4. Is there anything else you'd like to add about your enrollment and uninsured data?

Program Outreach

1.

Have you changed your outreach methods in the last federal fiscal year?

○ Yes

◉ No

2.

Are you targeting specific populations in your outreach efforts?

For example: minorities, immigrants, or children living in rural areas.

○ Yes

◉ No

3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

> Word of mouth as there has been an increase in private agencies sharing how to find health coverage in Maine

Eligibility, Enrollment, and Operations

Substitution of Coverage

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

- ⦿ Yes

- ◯ No

- ◯ N/A

2.

Do you match prospective CHIP enrollees to a database that details private insurance status?

○   Yes

◉   No

○   N/A

	%

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

> Our current eligibility system does not have the capability to verify if applicants have private insurance or not.

Eligibility, Enrollment, and Operations

Renewal, Denials, and Retention

Part 1: Eligibility Renewal and Retention

1.

Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?

This question should only be answered in respect to Separate CHIP.

○ Yes

○ No

◉ N/A

2.

In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

○ Yes

◉ No

3.

Do you send renewal reminder notices to families?

(●) Yes

( ) No

4. What else have you done to simplify the eligibility renewal process for families?

Members can renew online, by mail, or in person.

5. Which retention strategies have you found to be most effective?

N/A

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?

N/A

7. Is there anything else you'd like to add that wasn't already covered?

N/A

Part 2: CHIP Eligibility Denials (Not Redetermination)

1.

How many applicants were denied CHIP coverage in FFY 2020?

Don't include applicants being considered for redetermination - this data will be collected in Part 3.

1903

2.

How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.

1263

3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

640

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

4.

How many applicants were denied CHIP coverage for other reasons?

0

5. Did you have any limitations in collecting this data?

No

Table: CHIP Eligibility Denials (Not Redetermination)

This table is auto-populated with the data you entered above.

Type	Number	Percent
Total denials	1903	100%
Denied for procedural reasons	1263	66.37%
Denied for eligibility reasons	640	33.63%
Denials for other reasons	0	0%

Part 3: Redetermination in CHIP

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in CHIP in FFY 2020?

11109

2.

Of the eligible children, how many were then screened for redetermination?

11109

3.

How many children were retained in CHIP after redetermination?

11109

4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

0

Computed: 0

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

0

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.

0

4c.

How many children were disenrolled for other reasons?

0

5. Did you have any limitations in collecting this data?

No

Part 4: Redetermination in Medicaid

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in Medicaid in FFY 2020?

71679

2.

Of the eligible children, how many were then screened for redetermination?

71679

3.

How many children were retained in Medicaid after redetermination?

71679

4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

> 0

Computed: 0

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

> 0

4b.

How many children were disenrolled for eligibility reasons?

This could be due to an income that was too high and/or eligibility in CHIP instead.

> 0

4c.

How many children were disenrolled for other reasons?

0

5. Did you have any limitations in collecting this data?

No

Part 5: Tracking a CHIP cohort (Title XXI) over 18 months

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

⦿   Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

◯   Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

⦿   Yes

◯   No

January - March 2020 (start of the cohort)

3.

How many children were newly enrolled in CHIP between January and March 2020?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
63	423	410	188

July - September 2020 (6 months later)

4.

How many children were continuously enrolled in CHIP six months later?

Only include children that didn't have a break in coverage during the six-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
44	297	307	137

5.

How many children had a break in CHIP coverage but were re-enrolled in CHIP six months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
0	0	0	1

6.

Of the children who had a break in CHIP coverage (in the previous question), how many were enrolled in Medicaid during the break?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
20	133	106	53

7.

How many children were no longer enrolled in CHIP six months later?

Possible reasons for no longer being enrolled:
b" Transferred to another health insurance program other than CHIP
b" Didn't meet eligibility criteria anymore
b" Didn't complete documentation
b" Didn't pay a premium or enrollment fee

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16

Eligibility, Enrollment, and Operations

Cost Sharing (Out-of-Pocket Costs)

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles, coinsurance, and copayments.

1.

Does your state require cost sharing?

⦿ Yes

○ No

2.

Who tracks cost sharing to ensure families don't pay more than the 5% aggregate household income in a year?

○   Families ("the shoebox method")

○   Health plans

◉   States

○   Third party administrator

○   Other

3. How are healthcare providers notified that they shouldn't charge families once families have reached the 5% cap?

> The Office of Family Independence handles all eligibility and enrollment in Maine, and does not communicate with healthcare providers. However, premiums are set low enough that families can't exceed the 5% of the annual income. If families told us their income went below 157% of income the premiums would stop since children would move from CHIP coverage to Medicaid coverage.

4. Approximately how many families exceeded the 5% cap in the last federal fiscal year?

> The data to answer this question is not available at this time.

5.

Have you assessed the effects of charging premiums and enrollment fees on whether eligible families enroll in CHIP?

○　Yes

◉　No

6.

Have you assessed the effects of charging copayments and other out-of-pocket fees on whether enrolled families use CHIP services?

○　Yes

◉　No

8. Is there anything else you'd like to add that wasn't already covered?

Dental Benefits

Tell us about the children receiving dental benefits in your Separate CHIP program. Include children who are receiving full benefits and those who are only receiving supplemental dental benefits. Include the unduplicated number of children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

Note on age groups

Children should be in age groups based on their age on September 30th, the end of the federal fiscal year (FFY). For example, if a child turns three years old on September 15th, the child should be included in the "ages 3-5" group. Even if the child received dental services on September 1st while they were still two years old, all dental services should be counted as their age at the end of the FFY.

1.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-18 years) instead.

⦿   Yes

○   No

2.

How many children were enrolled in Separate CHIP for at least 90 continuous days during FFY 2020?

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18

3.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received at least one dental care service during FFY 2020?

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18
120	1297	5228	9551	11080	6388

Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100-D9999 (or equivalent CDT codes D0100-D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

4.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received at least one preventative dental care service during FFY 2020?

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18
12	1156	4757	8604	9663	5115

Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim. All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

5.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received dental treatment services during FFY 2020?

This includes orthodontics, periodontics, implants, oral and maxillofacial surgery, and other treatments.

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18
99	121	1408	3621	4368	2953

Dental treatment service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D2000-D9999 (or equivalent CDT codes D2000-D9999 or equivalent CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services) based on an unduplicated paid, unpaid, or denied claim.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

6.

How many children in the "ages 6-9" group received a sealant on at least one permanent molar tooth during FFY 2020?

2117

Sealant codes and definitions

The sealant on a permanent molar tooth is provided by a dental professional for whom placing a sealant is within their scope of practice. It's defined by HCPCS code D1351 (or equivalent CDT code D1351) based on an unduplicated paid, unpaid, or denied claim. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, and 31, and additionally - for states covering sealants on third molars ("wisdom teeth") - teeth numbered 1, 16, 17, and 32.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

7.

Do you provide supplemental dental coverage?

○ Yes

◉ No

8. Is there anything else you'd like to add about your dental benefits? If you weren't able to provide data, let us know why.

CAHPS Survey Results

Children's Health Insurance Program Reauthorization Act (CHIPRA) requires that all CHIP programs submit survey results from the Consumer Assessment of Healthcare Providers and Systems (CAHPS). The survey assesses your CHIP program quality and customer satisfaction.

1.

Did you collect the CAHPS survey?

⊙   Yes

○   No

Part 2: You collected the CAHPS survey

Since you collected the CAHPS survey, please complete Part 2.

1.

Upload a summary report of your CAHPS survey results.

This is optional if you already submitted CAHPS raw data to the AHRQ CAHPS database. Submit results only for the CHIP population, not for both Medicaid (Title XIX) and CHIP (Title XXI) together. Your data should represent children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

Health Services Initiative (HSI) Programs

All states with approved HSI program(s) should complete this section.
States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1.

Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

Even if you're not currently operating the HSI program, if it's in your current approved CHIP State Plan, please answer "yes."

○   Yes

◉   No

State Plan Goals and Objectives

Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different.
Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.

1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

In an effort to reduce the number of uninsured children in Maine, our goal is to enroll 94% of eligible children in the CHIP program.

2.

◉   Survey data

○   Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

Because our goal is new, we do not have last year's data or progress to compare to.

10. What are you doing to continually make progress towards your goal?

To make progress towards our goal, Maine has increased outreach efforts for its Medicaid and CHIP programs. Maine hired a CHIP outreach coordinator towards the end of 2020 to provide education and outreach on Medicaid and CHIP enrollment throughout the state, with a goal of decreasing our rate of uninsured children. As a part of the outreach work, informational materials and resources - like flyers and rack cards - are being developed and distributed to providers, organizations, and families. Through introductory meetings, we have established connections with different internal and external groups who are interested in partnering to 1) receive these outreach materials to distribute to their populations and 2) collaborating together in the future.

11. Anything else you'd like to tell us about this goal?

This data is pulled from 2019 ACS 1-year estimates. We want to note that CHIP member numbers appear to be under-reported in the ACS data when compared to our member data. Even so, ACS is consistent in how they collect their data year-to-year and we feel confident in using their data to calculate our percent of enrolled children.

Table 2: Administrative Costs

This table is auto-populated with the data you entered above.
Your total administrative costs cannot be more than 10% of your total CHIP program
costs (the sum of your benefit and administrative costs). The 10% administrative cap
is calculated by dividing the total benefit costs by 9.

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding.

This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2022 will be calculated once the eFMAP rate for 2022 becomes available. In the meantime, these values will be blank.

# Challenges and Accomplishments

1. How has your state's political and fiscal environment affected your ability to provide healthcare to low-income children and families?

The Mills administration has prioritized children's health and access to children's health care. In January 2019, Governor Janet Mills announced her plan to reinstate the Maine's Children's Cabinet to improve the health and well-being of children in our state. The Governor's Office of Policy Innovation and the Future is coordinating the work of the Governor Mill's Children's Cabinet to align and strengthen programs and policies for young children and at-risk youth. The Children's Cabinet members are the Commissioners of five state agencies -- Department of Corrections, Department of Education, Department of Health and Human Services, Department of Labor, and Department of Public Safety - operating programs and policies for children. Maine's Chief Justice is also invited and participates in select Children's Cabinet meetings. In addition the administration has created new executive branch oversight of CHIP and child health needs through the creation of the multidisciplinary child health leadership group and updated positions within the Medicaid program.

2. What's the greatest challenge your CHIP program has faced in FFY 2020?

> The greatest challenge was developing the infrastructure to identify and address gaps within child health needs and workforce.

3. What are some of the greatest accomplishments your CHIP program has experienced in FFY 2020?

> The Mills administration has prioritized children's health care through the development of the Children's Cabinet and creating new positions to aid in the administration of children's public health programs to best meet the needs of Maine's children.

4. What changes have you made to your CHIP program in FFY 2020 or plan to make in FFY 2021? Why have you decided to make these changes?

> The state is in the process of identifying priorities for future updates.

5. Is there anything else you'd like to add about your state's challenges and accomplishments?
