Ms. Henrietta Sam-Louie
Associate Regional Administrator
Centers for Medicare and Medicaid Services
Division of Medicaid and Children's Health Operations
90 Seventh Street, Suite 5-300 (5W)
San Francisco, CA 94103-6707

Dear Mr. Fishman, Ms. Phelps, and Ms. Sam-Louie:

**CALIFORNIA MEDI-CAL 2020 DEMONSTRATION (NO. 11-W-00193/9)
AMENDMENT: ADD ACA SECTION 2703 HEALTH HOMES PROGRAM TO THE
MEDI-CAL MANAGED CARE PROGRAM**

The State of California proposes to amend the Special Terms and Conditions (STCs) of Waiver 11-W-00193/9, California Section 1115 "Medi-Cal 2020" Demonstration (Demonstration Waiver), pursuant to STC paragraph 7.

This proposed amendment would allow a freedom of choice waiver to provide Health Home Program (HHP) services through the Medi-Cal managed care delivery system to members enrolled in managed care. The State is requesting that this Demonstration Waiver amendment have an effective date of March 1, 2017, and is prepared to work

Mr. Eliot Fishman
Ms. Sandra Phelps
Ms. Henrietta Sam-Louie
Page 2
November 10, 2016

diligently to respond to any questions or provide any information the Centers for Medicare and Medicaid Services (CMS) may need in order to secure prompt approval of this amendment. The March 1, 2017, effective date will allow California to complete preparations for implementation of the first phase of HHP implementation on July 1, 2017.

Background

Department of Health Care Services (DHCS) will move forward with California's HHP State Plan Amendment (SPA) 16-007 as well as a companion 1115 amendment for a freedom of choice waiver to implement the HHP. HHP implementation is currently planned in 29 counties. Additional counties may be added at a later date. The first 11 counties are scheduled to begin implementation on July 1, 2017, and the remaining 18 counties will implement over the following 18 months.

The program assigns care managers, such as nurses or other trained professionals, to help members find the right health care or other services in their communities. HHP services include:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and
- Referral to community and social supports.

Impact on Beneficiaries

HHP services will be provided through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal Managed Care Plan (MCP) to receive HHP services as well as all other state plan services that are provided through MCPs. HHP services will not be provided through a FFS delivery system.

Waiver Authority

DHCS believes the existing waivers of freedom of choice, statewide, and comparability encompass this proposed Demonstration Waiver amendment. To the extent necessary, DHCS requests that its authority to operate under these waivers extends to the amendments contained in this request.

Mr. Eliot Fishman
Ms. Sandra Phelps
Ms. Henrietta Sam-Louie
Page 3
November 10, 2016

Expenditure Authority

This proposed Demonstration Waiver amendment will not impact the existing Waiver Expenditure Authority.

Public Notice and Tribal Notice

As required by STC Paragraph 8 and STC Paragraph 14, DHCS conducted Public Notice and Tribal Notice through the following means:

Public Notice and Processing:

On September 26, 2016, DHCS provided public notice for this proposed amendment through a notice emailed to the DHCS General Stakeholder list, which includes approximately 4,500 individuals who have joined the list to receive significant Medi-Cal updates. (See attachment.)

Tribal Notice:

On September 20, 2016, DHCS issued a notice to all Tribal Chairpersons, Designees of Indian Health Programs, and Urban Indian Organizations regarding this proposed amendment in accordance with California's State Plan requirements for Tribal notice of Medi-Cal program proposed changes (35 days prior to submission of this amendment request to CMS). See attachment or web link below:

http://www.dhcs.ca.gov/services/rural/Documents/1115MC2020WaivAmend_92016.pdf

On November 30, 2016, DHCS will present on this proposed amendment at the "Medi-Cal Tribal and Designee Quarterly Webinar Regarding Proposed Changes to the Medi-Cal Program."

Budget Neutrality

The State estimates that the cost of providing this service to the HHP eligible population will be approximately \$65.00 per member per month in fiscal year 2017/18 through fiscal year 2019/20. Please note that the HHP rates and enrollment projections reflected in these revisions are still under development. Once finalized, DHCS will account for budget neutrality using actual HHP costs and enrollment figures for both the "With Waiver" and the "Without Waiver" budget neutrality calculations (HHP costs are not currently included in the "Without Waiver" calculation). Actual HHP costs will be added to both sides of the budget neutrality calculation, and therefore the waiver amendment will have no impact on either costs or savings.

Mr. Eliot Fishman
Ms. Sandra Phelps
Ms. Henrietta Sam-Louie
Page 4
November 10, 2016

Evaluation Design

This proposed Demonstration amendment will not impact the Waiver Whole Person Care evaluation design as stated in STC 123. The HHP will be evaluated by DHCS, but HHP evaluation requirements are not included under the Medi-Cal 2020 Demonstration STC requirements.

Thank you for your assistance and consideration. DHCS is happy to assist you and your staff in any way as you review the proposed Demonstration amendment. If you have any questions, please contact Sarah Brooks, Deputy Director of Health Care Delivery Systems, at sarah.brooks@dhcs.ca.gov.

Sincerely,

Mari Cantwell
Chief Deputy Director
Health Care Programs

General Updates

DHCS Proposal to Amend Health Homes Program Special Terms and Conditions

After consulting with the Centers for Medicare & Medicaid Services (CMS), DHCS is proposing to amend the Special Terms and Conditions (STCs) of the Medi-Cal 2020 demonstration waiver to implement the Health Homes Program (HHP) in the Medi-Cal managed care delivery system. HHP is currently planned in 29 counties. Additional counties may be added at a later date. The first 11 counties are scheduled to begin implementation in July 2017, and the remaining 18 counties will implement over the following 18 months.

Assembly Bill 361 (Chapter 642, Statutes of 2013) authorizes DHCS to implement the HHP, with specific conditions on populations to be served and limits on state General Fund impact. HHP services include:

- comprehensive care management;
- care coordination;
- health promotion;
- comprehensive transitional care;
- individual and family support; and
- referral to community and social supports.

The program assigns care managers, such as nurses or other trained professionals, to help members find the right health care or other services in their communities.

DHCS will waive Freedom of Choice for HHP under the waiver amendment. The HHP services will be provided to members enrolled in the Medi-Cal managed care delivery system. Fee-for-service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal managed care plan to receive HHP services as well as all other state plan services. HHP services will not be provided through the FFS delivery system.

Additional information about the HHP is available on the [DHCS website](#).

If you have general questions or comments, please email us at hhp@dhcs.ca.gov.

Department of Health Care Services
MEMORANDUM

DATE: September 20, 2016

TO: Tribal Chairpersons, Designees of Indian Health Programs, and Urban Indian Organizations

FROM: Sandra "Sam" Willburn, Chief, 
Primary, Rural, and Indian Health Division

SUBJECT: Notice of Proposed Change to the Medi-Cal Program

The purpose of this memo is to provide information regarding a proposed change to the Department of Health Care Services' (DHCS) Medi-Cal Program that will be submitted to the Centers for Medicare and Medicaid Services (CMS). DHCS is forwarding this information for your review and comment.

DHCS is required to seek advice from designees of Indian Health Programs and Urban Indian Organizations on Medi-Cal matters having a direct effect on Indians, Indian Health Programs or Urban Indian Organizations per the American Recovery and Reinvestment Act of 2009 (ARRA). DHCS must solicit the advice of designees prior to submission to CMS of any State Plan Amendment, waiver requests or modifications, or proposals for demonstration projects in the Medi-Cal program.

Please see the enclosed summary for a detailed description of this DHCS proposal.

QUESTIONS AND COMMENTS:

Indian Health Programs and Urban Indian Organizations may also submit written comments or questions concerning this proposal within 30 days from the receipt of notice. Comments may be sent by email to hhp@dhcs.ca.gov or by mail to the address below:

Please note that Indian Health Programs and Urban Indian Organizations may also request a consultation on this proposal at any time as needed.

Enclosure

**Department of Health Care Services (DHCS)
Tribal and Designees of Indian Health Programs Notice**

Purpose

DHCS proposes to amend the Special Terms and Conditions (STCs) of Waiver, Project 11-W-00193/9 (Medi-Cal 2020 Demonstration Waiver) to implement the Health Homes Program (HHP) in the Medi-Cal managed care delivery system.

Background

DHCS is currently operating a five-year Medicaid Section 1115 Demonstration Waiver (Medi-Cal 2020). The waiver operates from January 1, 2016, through December 31, 2020. Section 2703 of the Affordable Care Act allows a state to implement a health homes program that coordinates the full range of physical, behavioral health, and community-based long term services and supports for members with chronic conditions. California Assembly Bill 361(Chapter 642, Statutes of 2013) authorizes DHCS to implement the HHP with conditions on populations to be served and limits on state fund impact. Health homes services include comprehensive care management; care coordination; health promotion; comprehensive transitional care; individual and family support; and referral to community and social supports. With these services a care manager such as a nurse or other trained professional will be assigned to each member to help them find the right health care or other services in their communities.

Summary of Proposed Changes

DHCS will waive freedom of choice for HHP under this Medi-Cal 2020 Demonstration Waiver amendment. Health Home Program services will be provided through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal managed care plan to receive HHP services as well as all other state plan services. HHP services will not be provided through the FFS delivery system.

Impact to Tribal Health Programs

The proposed amendment may impact Tribal Health Programs. Tribal health providers have the option to become health home providers within the local community as a community-based care management entity. Medi-Cal managed care health plans will select and certify local community-based providers to provide health homes services. Health Home care coordination services are optional for members.

Impact to Federally Qualified Health Centers (FQHCs)

FQHC providers will have the option to become health home providers within the local community as a community-based care management entity. Medi-Cal managed care health plans will select and certify local community-based providers to provide health homes services.

Impact on Indian Medi-Cal Beneficiaries

HHP is a program for members with multiple chronic and complex conditions such as diabetes, asthma, or serious mental health or substance use disorders. Program services will be targeted for members who are most likely to benefit from assistance managing their conditions and the services available to them. The goal of the program is to improve Medi-Cal members' health by making sure they are able to access the services they

need at the right time. HHP eligible members may include American Indians with chronic conditions.

HHP services will be provided only through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal managed care plan to receive HHP services as well as all other state plan services. HHP services will not be provided through the FFS delivery system.

Response Date:

Indian Health Programs and Urban Indian Organizations may also submit written comments or questions concerning this amendment within 35 days from the receipt of notice. Comments may be sent by email to hhp@dhcs.ca.gov or by mail to the address listed below:

**CENTERS FOR MEDICARE & MEDICAID SERVICES
SPECIAL TERMS AND CONDITIONS**

NUMBER: 11-W-00193/9

TITLE: California Medi-Cal 2020 Demonstration

AWARDEE: California Health and Human Services Agency

I. PREFACE

The following are the Special Terms and Conditions (STCs) for California’s Medi-Cal 2020 section 1115(a) Medicaid Demonstration (hereinafter “Demonstration”), to enable the California Health and Human Services Agency (State) to operate this Demonstration, The Centers for Medicare & Medicaid Services (CMS) has granted waivers of statutory Medicaid requirements permitting deviation from the approved State Medicaid plan, and expenditure authorities authorizing expenditures for costs not otherwise matchable. These waivers and expenditure authorities are separately enumerated. These STCs set forth conditions and limitations on those waivers and expenditure authorities, and describe in detail the nature, character, and extent of Federal involvement in the Demonstration and the State’s obligations to CMS during the life of the Demonstration.

The periods for each Demonstration Year (DY) will be as follows:

- DY 11 January 1, 2016 through June 30, 2016
- DY 12 July 1, 2016 through June 30, 2017
- DY 13 July 1, 2017 through June 30, 2018
- DY 14 July 1, 2018 through June 30, 2019
- DY 15 July 1, 2019 through June 30, 2020
- DY 16 July 1, 2020 through December 31, 2020

The STCs related to the programs for those State Plan and Demonstration Populations affected by the Demonstration are effective from the date identified in the CMS Demonstration approval letter through December 31, 2020.

The STCs have been arranged into the following subject areas:

- I. Preface
- II. Program Description and Historical Context
- III. General Program Requirements
- IV. General Reporting Requirements
- V. General Financial Requirements
- VI. State Plan and Demonstration Populations Affected by the Demonstration;
- VII. Demonstration Delivery Systems
- VIII. Continuing Operation of Demonstration Programs
 - A. Community Based Adult Services
 - B. California Children Services

- C. Managed Care Delivery Systems for the Coordinated Care Initiative
- IX. Additional Medi-Cal 2020 Demonstration Programs
 - A. Access Assessment
 - B. PRIME
 - C. Dental Transformation Initiative
 - D. Whole Person Care Pilot
- X. Drug Medi-Cal Organized Delivery System
- XI. Negative Balance
- XII. Global Payment Program
- XIII. Uncompensated Care Reporting
- XIV. General Financial Requirements Under Title XIX
- XV. General Financial Requirements Under Title XXI
- XVI. Monitoring Budget Neutrality for the Demonstration
- XVII. Evaluation of the Demonstration

Additional attachments have been included to provide supplementary information and guidance for specific STCs.

II. PROGRAM DESCRIPTION AND HISTORICAL CONTEXT

In November 2010, the Federal government approved California's five-year Medicaid section 1115 Bridge to Reform waiver, through which the state received the necessary authority and corresponding Federal support to invest in its health care delivery system and prepare for the full implementation of the Affordable Care Act. The Bridge to Reform waiver achieved the goals of simultaneously implementing an historic coverage expansion, beginning the process of transforming the health care delivery system, and reinforcing California's safety net to meet the needs of the uninsured.

Medi-Cal 2020 embodies the shared commitment between the state and the Federal government to support the successful realization of some of the most critical objectives for improving our health care delivery system. Bridge to Reform waiver initiatives such as the managed care delivery system for Seniors and Persons with Disabilities (SPDs) and the state's Coordinated Care Initiative (CCI) will continue through in Medi-Cal 2020, and with the foundation of the successes of the Bridge to Reform Waiver, Medi-Cal 2020 initiatives will continue to improve the quality and value of care provided to California's Medi-Cal beneficiaries.

Medi-Cal 2020 initiatives include:

1. A Public Hospital Redesign and Incentives in Medi-Cal program (PRIME), which will improve the quality and value of care provided by California's safety net hospitals and hospital systems;
2. A Global Payment Program that streamlines funding sources for care for California's remaining uninsured population and creates a value-based mechanism to increase incentives to provide primary and preventive care services and other high-value services;

3. A Whole Person Care Pilot program to support local and regional efforts to integrate the systems and improve the care provided to Medi-Cal's most high-risk beneficiaries; and
4. A Dental Transformation Initiative to improve access to dental care and reduce preventable dental conditions for Medi-Cal beneficiaries.

III. GENERAL PROGRAM REQUIREMENTS

1. **Compliance with Federal Non-Discrimination Statutes.** The state must comply with all applicable federal statutes relating to non-discrimination. These include, but are not limited to, the Americans with Disabilities Act of 1990, title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.
2. **Compliance with Medicaid and Children's Health Insurance Program (CHIP) Law, Regulation, and Policy.** All requirements of the Medicaid and CHIP programs expressed in law, regulation, and policy statement, not expressly waived or identified as not applicable in the waiver and expenditure authority documents apply to the demonstration.
3. **Changes in Medicaid and CHIP Law, Regulation, and Policy.** The state must, within the timeframes specified in law, regulation, or policy statement, come into compliance with any changes in federal law, regulation, or policy affecting the Medicaid or CHIP programs that occur during this demonstration approval period, unless the provision being changed is expressly waived or identified as not applicable. In addition, CMS reserves the right to amend the STCs to reflect such changes and/or changes as needed without requiring the state to submit an amendment to the demonstration under STC 8. CMS will notify the state 30 days in advance of the expected approval date of the amended STCs to allow the state to discuss the language changes necessary to ensure compliance with Law, Regulation, and Policy. Changes will be considered in force upon issuance of the approval letter by CMS. The state must accept the changes in writing within 30 calendar days of receipt.
4. **Coordination with the Medicare Program.** The state must have processes in place to coordinate with the Medicare program for Medicare-Medicaid beneficiaries, including:
 - a. The state must provide contact information to Medicare-Medicaid beneficiaries on how they can obtain assistance with their Medicare coverage at any point of enrollment or disenrollment from Medi-Cal managed care or upon request by the beneficiary.
 - b. The state must provide accurate reports to CMS of the eligibility and enrollment of Medicare-Medicaid beneficiaries in the demonstration.
 - c. The state must comply with requirements for Medicaid payment of Medicare cost-sharing for Medicare-Medicaid enrollees, including ensuring any organization delegated with that responsibility adheres with the requirements.
 - d. The state must provide CMS with requested financial information and other demonstration aspects that have a specific impact on the Medicare-Medicaid

population. Requests for information will include a reasonable timeframe for responses as agreed to by CMS and the state.

5. Impact on Demonstration of Changes in Federal Law, Regulation, and Policy.

- a. To the extent that a change in federal law, regulation, or policy requires either a reduction or an increase in federal financial participation (FFP) for expenditures made under this demonstration, the state must adopt, subject to CMS approval, a modified budget neutrality agreement for the demonstration as well as a modified allotment neutrality worksheet as necessary to comply with such change. The modified agreement[s] will be effective upon the implementation of the change. The trend rates for the budget neutrality agreement are not subject to change under this subparagraph.
- b. If mandated changes in the federal law require state legislation, the changes must take effect on the earlier of the day such state legislation actually becomes effective, on the first day of the calendar quarter beginning after the legislature has met for six months in regular session after the effective date of the change in federal law, or such other date provided for in the applicable federal law.

6. State Plan Amendments. The state will not be required to submit title XIX or title XXI state plan amendments for changes affecting any populations made eligible solely through the demonstration. If a population eligible through the Medicaid or CHIP state plan is affected by a change to the demonstration, a conforming amendment to the appropriate state plan may be required, except as otherwise noted in these STCs. In all such cases, the Medicaid state plan governs.

7. Changes Subject to the Amendment Process. Changes related to eligibility, enrollment, benefits, enrollee rights, delivery systems, reimbursement methodologies, cost sharing, evaluation design, federal financial participation (FFP), sources of non-federal share funding, budget neutrality, and other comparable program elements specified in these STCs must be submitted to CMS as amendments to the demonstration. All amendment requests are subject to approval at the discretion of the Secretary in accordance with section 1115 of the Act. The state will not implement changes to these elements without prior approval by CMS of the amendment to the demonstration. In certain instances, amendments to the Medicaid state plan may or may not require amendment to the demonstration as well. Amendments to the demonstration are not retroactive except as otherwise specified in these STCs and FFP will not be available for changes to the demonstration relating to these elements that have not been approved through the amendment process set forth in STC 8 below.

8. Amendment Process. Requests to amend the demonstration must be submitted to CMS for approval no later than 120 days prior to the planned date of implementation of the change and may not be implemented until approved. CMS reserves the right to deny or delay

approval of a demonstration amendment based on non-compliance with these STCs, including but not limited to failure by the state to submit required reports and other deliverables in a timely fashion according to the deadlines specified herein. Amendment requests must include, but are not limited to, the following:

- a. An explanation of the public process used by the state, consistent with the requirements of STC 16, to reach a decision regarding the requested amendment;
- b. A data analysis which identifies the specific “with waiver” impact of the proposed amendment on the current budget neutrality agreement. Such analysis will include current total computable “with waiver” and “without waiver” status on both a summary and detailed level through the current approval period using the most recent actual expenditures, as well as summary and detailed projections of the change in the “with waiver” expenditure total as a result of the proposed amendment, which isolates (by Eligibility Group) the impact of the amendment;
- c. An up-to-date CHIP allotment neutrality worksheet, if necessary;
- d. A detailed description of the amendment, including impact on beneficiaries, with sufficient supporting documentation including a conforming title XIX and/or title XXI state plan amendment, if necessary; and
- e. If applicable, a description of how the evaluation design will be modified to incorporate the amendment provisions.

9. Extension of the Demonstration.

- a. States that intend to request demonstration extensions under sections 1115(a), 1115(e) or 1115(f) must submit an extension request no later than 6 months prior to the expiration date of the demonstration. The chief executive officer of the state must submit to CMS either a demonstration extension request or a phase-out plan consistent with the requirements of STC 10. Upon application from the state, CMS reserves the right to temporarily extend the demonstration including making any amendments deemed necessary to effectuate the demonstration extension including but not limited to bringing the demonstration into compliance with changes to federal law, regulation and policy.
- b. Compliance with Transparency Requirements 42 CFR Section 431.412. As part of the demonstration extension requests the state must provide documentation of compliance with the transparency requirements 42 CFR Section 431.412 and the public notice and tribal consultation requirements outlined in paragraph 14 as well as include the following supporting documentation:
 - i. *Historical Narrative Summary of the demonstration Project*. The state must provide a narrative summary of the demonstration project, reiterate the objectives set forth at the time the demonstration was proposed, and provide

evidence of how these objectives have been met as well as future goals of the program. If changes are requested, a narrative of the changes being requested along with the objective of the change and desired outcomes must be included.

- ii. *Special Terms and Conditions (STCs)*. The state must provide documentation of its compliance with each of the STCs. Where appropriate, a brief explanation may be accompanied by an attachment containing more detailed information. Where the STCs address any of the following areas, they need not be documented a second time.
- iii. *Waiver and Expenditure Authorities*. The state must provide a list along with a programmatic description of the waivers and expenditure authorities that are being requested in the extension.
- iv. *Quality*. The state must provide summaries of External Quality Review Organization (EQRO) reports; managed care organization (MCO) reports; state quality assurance monitoring; and any other documentation that validates of the quality of care provided or corrective action taken under the demonstration.
- v. *Financial Data*. The state must provide financial data (as set forth in the current STCs) demonstrating the state's detailed and aggregate, historical and projected budget neutrality status for the current approval period, and separately for the requested period of the extension. The state must provide five years of historical expenditure and enrollment data for Medicaid and demonstration populations that are to be included in the demonstration extension. CMS will work with the state to ensure that federal expenditures under the extension of this project do not exceed the federal expenditures that would otherwise have been made. In doing so, CMS will take into account the best estimate of current trend rates at the time of the extension. In addition, the state must provide up to date responses to the CMS Financial Management standard questions. If title XXI funding is used in the demonstration, a CHIP Allotment Neutrality worksheet must be included. The state and CMS agree that if a demonstration extension or new demonstration is requested at the expiration of this 5-year demonstration, such future budget neutrality must be developed using updated historical data for the purposes of determining without waiver limits, considering possible adjustments for the impact of alternative payment methodologies and other innovations in managed care
- vi. *Interim Evaluation Report*. The state must provide a narrative summary of the evaluation design, status (including evaluation activities and findings to date), and plans for evaluation activities during the extension period. The narrative is to include, but not be limited to, describing the hypotheses being tested and any results available.

- vii. *Documentation of Public Notice 42 CFR section 431.408.* The state must provide documentation of the state's compliance with public notice process as specified in 42 CFR section 431.408 including the post-award public input process described in 431.420(c) with a report of the issues raised by the public during the comment period and how the state considered the comments when developing the demonstration extension application.

10. Demonstration Phase-Out. The state may only suspend or terminate this demonstration in whole, or in part, consistent with the following requirements:

- a. Notification of Suspension or Termination. The state must promptly notify CMS in writing of the reason(s) for the suspension or termination, together with the effective date and a phase-out plan. The state must submit its notification letter and a draft phase-out plan to CMS no less than 6 months before the effective date of the demonstration's suspension or termination. Prior to submitting the draft phase-out plan to CMS, the state must publish on its website the draft phase-out plan for a 30-day public comment period. In addition, the state must conduct tribal consultation in accordance with its approved tribal consultation state Plan Amendment. Once the 30-day public comment period has ended, the state must provide a summary of each public comment received the state's response to the comment and how the state incorporated the received comment into a revised phase-out plan.
- b. The state must obtain CMS's approval of the phase-out plan prior to the implementation of the phase-out activities. Implementation of phase-out activities must be no sooner than 14 days after CMS approval of the phase-out plan.
- c. Phase-out Plan Requirements. The state must include, at a minimum, in its phase-out plan the process by which it will notify affected beneficiaries, the content of said notices (including information on the beneficiary's appeal rights), the process by which the state will conduct administrative reviews of Medicaid eligibility for the affected beneficiaries, and ensure ongoing coverage for eligible individuals, as well as any community outreach activities.
- d. Phase-out Procedures. The state must comply with all notice requirements found in 42 CFR sections 431.206, 431.210, and 431.213. In addition, the state must assure all appeal and hearing rights afforded to demonstration participants as outlined in 42 CFR sections 431.220 and 431.221. If a demonstration participant requests a hearing before the date of action, the state must maintain benefits as required in 42 CFR section 431.230. .
- e. Federal Financial Participation (FFP). If the project is terminated or any relevant waivers suspended by the state, FFP shall be limited to normal closeout costs associated with terminating the demonstration including services and administrative costs of disenrolling participants.

- 11. Expiring Demonstration Authority and Transition.** For demonstration authority that expires prior to the overall demonstration's expiration date, the state must submit a demonstration authority expiration plan to CMS no later than 6 months prior to the applicable demonstration authority's expiration date, consistent with the following requirements:
- a. *Expiration Requirements.* The state must include, at a minimum, in its demonstration expiration plan the process by which it will notify affected beneficiaries, the content of said notices (including information on the beneficiary's appeal rights), the process by which the state will conduct administrative reviews of Medicaid eligibility for the affected beneficiaries, and ensure ongoing coverage for eligible individuals, as well as any community outreach activities.
 - b. *Expiration Procedures.* The state must comply with all notice requirements found in 42 CFR §431.206, §431.210 and §431.213. In addition, the state must assure all appeal and hearing rights afforded to demonstration participants as outlined in 42 CFR §431.220 and §431.221. If a demonstration participant requests a hearing before the date of action, the state must maintain benefits as required in 42 CFR §431.230. In addition, the state must conduct administrative renewals for all affected beneficiaries in order to determine if they qualify for Medicaid eligibility under a different eligibility category.
 - c. *Federal Public Notice.* CMS will conduct a 30-day federal public comment period consistent with the process outlined in 42 CFR §431.416 in order to solicit public input on the state's demonstration expiration plan. CMS will consider comments received during the 30-day period during its review and approval of the state's demonstration expiration plan. The state must obtain CMS approval of the demonstration expiration plan prior to the implementation of the expiration activities. Implementation of expiration activities must begin no sooner than 14 days after CMS approval of the plan.
 - d. *Federal Financial Participation (FFP).* FFP shall be limited to normal closeout costs associated with the expiration of the demonstration including services and administrative costs of disenrolling participants.
- 12. CMS Right to Terminate or Suspend.** CMS may suspend, or terminate the demonstration (in whole or in part) at any time before the date of expiration, whenever it determines following a hearing that the State has materially failed to comply with the terms of the project. CMS will promptly notify the state in writing of the determination and the reasons for suspension or termination of the Demonstration, or any withdrawal of an expenditure authority, together with the effective date.

13. **Findings of Non-Compliance or Disallowance.** The state does not relinquish either its rights to challenge the CMS finding that the state materially failed to comply, or to request reconsideration or appeal of any disallowance pursuant to section 1116(e) of the Act.
14. **Withdrawal of Waiver Authority.** CMS reserves the right to withdraw waivers or expenditure authorities at any time it determines that continuing the waivers or expenditure authorities would no longer be in the public interest or promote the objectives of title XIX. CMS will promptly notify the state in writing of the determination and the reasons for the withdrawal, together with the effective date, and afford the state an opportunity to request a hearing to challenge CMS' determination prior to the effective date. If a waiver or expenditure authority is withdrawn, FFP is limited to normal closeout costs associated with terminating the waiver or expenditure authority, including services and administrative costs of disenrolling participants.
15. **Adequacy of Infrastructure.** The state must ensure the availability of adequate resources for implementation and monitoring of the demonstration, including education, outreach, and enrollment; maintaining eligibility systems; payment and reporting systems; compliance with cost sharing requirements; and reporting on financial and other demonstration components.
16. **Public Notice, Tribal Consultation, and Consultation with Interested Parties.** The state must comply with the State Notice Procedures set forth in 59 Fed. Reg. 49249 (September 27, 1994). The state must also comply with the tribal consultation requirements in section 1902(a)(73) of the Act as amended by section 5006(e) of the American Recovery and Reinvestment Act (ARRA) of 2009, the implementing regulations for the Review and Approval Process for Section 1115 Demonstrations at 42 C.F.R. §431.408, and the tribal consultation requirements contained in the State's approved State plan, when any program changes to the demonstration, including (but not limited to) those referenced in STC 7, are proposed by the state.

In states with federally recognized Indian tribes, consultation must be conducted in accordance with the consultation process outlined in the July 17, 2001 letter or the consultation process in the state's approved Medicaid State plan if that process is specifically applicable to consulting with tribal governments on waivers (42 C.F.R. §431.408(b)(2)).

In states with federally recognized Indian tribes, Indian health programs, and/or Urban Indian organizations, the State is required to submit evidence to CMS regarding the solicitation of advice from these entities prior to submission of any demonstration proposal or renewal of this demonstration (42 C.F.R. §431.408(b)(3)).

The State must also comply with the Public Notice Procedures set forth in 42 CFR 447.205 for changes in statewide methods and standards for setting payment rates.

17. **Post Award Forum:** Within six months of the demonstration's implementation and annually thereafter, the state will afford the public with an opportunity to provide

meaningful comment on the progress of the demonstration. At least 30 days prior to the date of the planned public forum, the state must publish the date, time and location of the forum in a prominent location on its website. The state can use either its Medicaid Advisory Committee, or another meeting that is open to the public and where an interested party can learn about the progress of the demonstration to meet the requirements of the STC. The state must include a summary in the quarterly report, as specified in STC 25, associated with the quarter in which the forum was held. The state must also include the summary in its annual report as required by STC 26.

18. **FFP.** No Federal matching funds for expenditures for this demonstration will take effect until the effective date identified in the demonstration approval letter.
19. **Federal Financial Participation (FFP) for Designated State Health Programs and Indian Health Services** Payments for Designated State Health Programs (DSHP) and Indian Health Services, are limited to the costs incurred by the certifying entity. This restriction does not preclude Public Hospital Redesign and Incentives in Medi-Cal (PRIME), the Global Payment Program (GPP) and Whole Person Care (WPC) payments funded through intergovernmental transfers (IGTs) or capitated payments received by county health systems or public hospitals funded through IGTs or general fund payments. Additionally, cost limitations do not apply to payments received by government operated hospitals from Medi-Cal managed care organizations, consistent with Federal law as these payments cannot be funded by CPEs.

IV. GENERAL REPORTING REQUIREMENTS

20. **General Financial Requirements.** The State will comply with all general financial requirements under title XIX and XXI set forth in these STCs.
21. **Reporting Requirements Relating to Budget Neutrality and Title XXI Allotment Neutrality.** The State will comply with all reporting requirements for monitoring budget neutrality and title XXI allotment neutrality set forth in these STCs. The State must submit corrected budget and/or allotment neutrality data upon request.
22. **Accounting Procedure.** The State has submitted and CMS has approved accounting procedures for the Medi-Cal 2020 to ensure oversight and monitoring of demonstration claiming and expenditures. These procedures are included as Attachment H. The State shall submit a modification to the “Accounting Procedures” within 90 days after the extension approval to account for changes and expansions to the waiver as described within these STCs for the California Medi-Cal 2020 Demonstration.
23. **Contractor Reviews.** The state will forward to CMS summaries of the financial and operational reviews that the state completes on applicants awarded contracts through the demonstration’s Seniors and Persons with Disabilities Program (SPD), the California Children’s Services Program (CCS), Healthy Families Program Children Transition to the Medicaid Expansion Demonstration and Managed Care Health Plans operating in the State.

- 24. Monthly Calls.** CMS shall schedule monthly conference calls with the State. The purpose of these calls is to discuss any significant actual or anticipated developments affecting the Demonstration. Areas to be addressed include, but are not limited to:
- a. The health care delivery system,
 - b. PRIME
 - c. Global Payment Program
 - d. Access Assessment
 - e. Whole Person Care
 - f. Drug Medi-Cal and Mental Health
 - g. Dental Transformation Initiative
 - h. The Seniors and Persons with Disabilities (SPD) Program;
 - i. The Community Based Adult Services (CBAS) Program;
 - j. California Children’s Services (CCS) Program;
 - k. Designated State Health Programs (DSHP) receiving federal financial participation. – as defined within these STCs;
 - l. Enrollment, quality of care, access to care;
 - m. The benefit package, cost-sharing;
 - n. Audits, lawsuits;
 - o. Financial reporting and budget neutrality issues;
 - p. Progress on evaluations;
 - q. State legislative developments; and,
 - r. Any Demonstration amendments, concept papers or State plan amendments the State is considering submitting.

CMS shall update the state on any amendments or concept papers under review as well as federal policies and issues that may affect any aspect of the demonstration. The state and CMS (both the Project Officer and the Regional Office) shall jointly develop the agenda for the calls.

- 25. Demonstration Quarterly Reports.** The state will submit progress reports 60 days following the end of each quarter (Attachment I). The intent of these reports is to present the state’s analysis and the status of the various operational areas. The state may report data in later quarterly reports if data lags require it, with CMS approval. These quarterly reports will include, but are not limited to:
- a. A discussion of events occurring during the quarter or anticipated to occur in the near future that affect health care delivery, enrollment, quality of care, access, the benefit package and other operational issues.
 - b. Action plans for addressing any policy, operational and administrative issues identified.
 - c. Monthly enrollment data during the quarter and Demonstration Year to Date by:
 - i. County of participation, the number of persons enrolled in the CCS Program based on Medi-Cal eligibility and DSHP;
 - ii. County of participation, the number of persons participating in any Demonstration programs receiving FFP.
 - d. Budget and CHIP Allotment neutrality monitoring tables.
 - e. Access Advisory Committee Minutes

- f. Other items as requested:
 - i. Quarterly reports of any Designated State Health Program (DSHP) obtaining Federal Matching funds through this Demonstration.
 - ii. By County of participation Demonstration population complaints, grievances and appeals
 - iii. Biannually, by plan, the Medicare-Medicaid population enrolled in Medi-Cal managed care in the demonstration that are also enrolled in Medicare Advantage plans operated by Medi-Cal managed care plans that provide services to Medicare-Medicaid beneficiaries.

26. Demonstration Annual Report. The state will submit a draft annual report documenting accomplishments, project status, quantitative and case study findings, utilization data, and policy and administrative difficulties in the operation of the demonstration. The state will submit the draft annual report no later than 120 days after the end of each demonstration year. Within 60 days of receipt of comments from CMS, a final annual report will be submitted for the demonstration year to CMS. The annual report will also contain:

- a. The previous State fiscal year appropriation detail for all Designated State Health Programs.
- b. Identify the plans that do not meet the contractually required minimum performance levels on the following 4 primary care access measures for children (CAP-1224, CAP-256, CAP-711, and CAP-1219), as well as specific actions the state commits to taking to ensure children in California have access to health plans that meet minimum performance levels unless the difference between the MPL and HPL is 10 percentage points or less.
- c. The progress and outcome of program activities related to the:
 - i. PRIME
 - ii. Global Payment Program
 - iii. Access Assessment, including progress on evaluation
 - iv. Whole Person Care
 - v. Drug Medi-Cal and Mental Health
 - vi. Dental Transformation Initiative
 - vii. CCS Program
 - viii. Coordinated Care Initiative (CCI) Program experience of dual eligibles
 - ix. Progress on the evaluation of the demonstration and findings.
 - iv. SPD program.

27. Final Report. Within 120 days following the end of the current Demonstration period, the State will submit a draft final report to CMS for comments. The State will take into consideration CMS' comments for incorporation into the final report. The final report is due to CMS no later than 120 days after receipt of CMS' comments. It will cover:

- a. Financial and budget neutrality reports
- b. Key milestones and analysis of program activities related to:
 - i. PRIME
 - ii. Access Assessment
 - iii. Whole Person Care
 - iv. Drug Medi-Cal and Mental Health

- v. Global Payment Program
- vi. Dental Transformation Initiative
- vii. CCS Program
- viii. Coordinated Care Initiative (CCI) Program experience of dual eligibles

- 28. Revision of the State Quality Strategy.** In accordance with federal regulations at Subpart D 438.200 regarding Quality Assessment and Performance Improvement to ensure the delivery of quality health care and establishment of standards, the State must update its Quality Strategy to reflect all managed care plans being proposed through this demonstration and submit to CMS for approval. The state must obtain the input of recipients and other stakeholders in the development of its revised Quality Strategy and make the Strategy available for public comment before adopting it as final, and submitting to CMS for approval. The state must revise the strategy whenever significant changes are made, including changes through this demonstration. The state will also provide CMS with annual reports on the implementation and effectiveness of the updated Quality Strategy as it impacts the demonstration.
- 29. External Quality Review.** The state is required to meet all external quality review (EQR) requirements found in 42 C.F.R. Part 438, subpart E. The state should generally have available its final EQR technical report to CMS and the public by April of each year, for data collected within the prior 15 months. This submission timeframe will align with the collection and annual reporting on managed care data by the Secretary each September 30th, which is a requirement under the Affordable Care Act [Sec. 2701 (d)(2)].

V. GENERAL FINANCIAL REQUIREMENTS

- 30. Certified Public Expenditures (CPEs).** Total computable expenditures for patient care that are either directly payable under this Demonstration, or the basis for DSH, may be certified by government entities that directly operate health care providers as long as the expenditures are not funded using impermissible provider taxes or donations as defined under section 1903(w) of the Social Security Act or using Federal funds other than Medicaid funds (unless the other Federal funding source by law allows use of federal funds for matching purposes, and the federal Medicaid funding is credited to the other federal funding source). To the extent that the funding source for expenditures is a state program funded through this Demonstration, expenditures may be certified only as a total computable expenditure under such program. The State may not claim federal matching funds for a payment to a provider and also claim federal matching funds on the underlying expenditure certified by the provider, except to the extent that the State has an auditable methodology to prevent duplicate claims (such as one that limits claims for federal matching based on the certified expenditure to the shortfall after accounting for the claimed payment). For this purpose, Federal funds do not include, PRIME Payments, patient care revenue received as payment for other services rendered under programs such as DSHP, Medicare or Medicaid. To ensure that there is no double claiming of federal funding under the DSHP, a detailed protocol will be developed outlining the procedures to be followed for claiming under this paragraph.

31. Designated State Health Programs (DSHP). The state may claim FFP for the following state programs subject to the annual limits described below. Expenditures are claimed in accordance with CMS-approved claiming protocols in Attachment F.

- a. The annual limit the state may claim FFP for DSHP shall not exceed \$75,000,000 FFP per DY11-15 (or \$375,000,000 total for the 5 years), except as provided herein. In the event that the state does not claim FFP up to the \$75,000,000 annual limit in a given DY under this demonstration period, the state may exceed the \$75,000,000 annual limit for claiming FFP for DSHP expenditures in a subsequent DY by an amount equal to the difference of \$75,000,000 and the amount of FFP claimed for DSHP in that applicable prior DY. The total amount of DSHP FFP that the state may claim in DY 11 through 15 combined may not exceed the non-federal share of amounts expended by the state for the Dental Transformation Incentive Program.
- b. Approved Designated State Health Programs (DSHP) for which FFP can be claimed subject to the limits in this paragraph are:

State Only Medical Programs
California Children Services (CCS)
Genetically Handicapped Persons Program (GHPP)
Medically Indigent Adult Long Term Care (MIALTC)
Breast & Cervical Cancer Treatment Program (BCCTP)
AIDS Drug Assistance Program (ADAP)
Department of Developmental Services (DDS)
Prostate Cancer Treatment Program (PCTP)
Workforce Development Programs
Office of Statewide Health Planning & Development (OSHDP) <ul style="list-style-type: none"> • Song Brown HealthCare Workforce Training Program • Steven M. Thompson Physician Corp Loan Repayment Program • Mental Health Loan Assumption Program

- c. *Prohibited DSHP Expenditures.* Allowable DSHP expenditures do not include any expenditures that are funded by federal grants (for example, grants from the Health Resources and Services Administration, or the Centers for Disease Control, or from the Global Payment Program) or that are included as part of the maintenance of effort or non-federal share requirements of any federal grant. Additionally, allowable DSHP expenditures do not include expenditures associated with the provision of non-emergency care to non-qualified aliens. To implement this limitation, 13.95 percent of total provider expenditures or claims through DSHP identified below will be treated as expended for non-emergency

care to non-qualified aliens.

- i. Expenditures for the Medically Indigent Adult Long Term Care (MIA/LTC) program will not be reduced by 13.95 percent because there are no non-qualified aliens receiving services under this program.
- ii. Expenditures for the Breast and Cervical Cancer Treatment Program (BCCTP) will be reduced by the costs related to providing services to those individuals with aid codes used to designate non-qualified aliens; however, the 13.95 percent reduction will not be applied otherwise.
- iii. Expenditures for the California Children Services (CCS) program will be reduced by 13.95 percent as specified in subparagraph (a).
- iv. Expenditures for the Genetically Handicapped Persons Program (GHPP) will be reduced by 13.95 percent as specified in subparagraph (a).
- v. Expenditures for the AIDS Drug Assistance Program (ADAP) will be reduced by either the 13.95 percent factor as specified in subparagraph (a), or by the costs related to providing services to those individuals with aid codes used to designate non-qualified aliens.
- vi. Expenditures for the California Department of Developmental Services will be reduced by either the 13.95 percent factor as specified in subparagraph (a), or by the costs related to providing services to those individuals with aid codes used to designate non-qualified aliens.
- vii. Expenditures for the Prostate Cancer Treatment Program (PCTP) will be reduced by 13.95 percent as specified in subparagraph (a).

- 32. Supplemental Payments to IHS and 638 Facilities.** The state shall make supplemental payments to Indian Health Service (IHS) and tribal 638 facilities to take into account their responsibility to provide uncompensated care and support the IHS and tribal 638 service delivery network. Supplemental payments shall be computed based on the uncompensated cost for services that were eliminated from Medi-Cal coverage in July 2009 pursuant to state plan amendment 09-001, furnished by such facilities to individuals enrolled in the Medi-Cal program. Participating tribal facilities shall maintain policies for furnishing services to non-IHS beneficiaries that are in place as of January 1, 2013. Payments shall be based on the approved methodology set forth in Attachment F. The annual limit for the IHS uncompensated care cost shall be \$ 1,550,000 total computable per year (DY 11 – 15).

VI. STATE PLAN AND DEMONSTRATION POPULATIONS AFFECTED BY THE DEMONSTRATION

- 33. Eligibility.** Certain state plan eligibles are affected by the Demonstration, as described below.

State plan eligibles derive their eligibility through the Medicaid state plan and are subject to all applicable Medicaid laws and regulations in accordance with the Medicaid state plan, except as expressly waived in this demonstration and described in these STCs. Any Medicaid State Plan Amendments to the eligibility standards and methodologies for these eligibility groups, including the conversion to a modified adjusted gross income standard January 1, 2014, will apply to this demonstration. These state plan eligible beneficiaries are

affected by the demonstration by being required to use the managed care network and gaining access to additional benefits not described in the state plan.

The following population groups are affected by the Demonstration:

- a. State Plan California Children's Services (CCS) Affected by the Demonstration are those children with Special Health Care Needs who are:
 - i. Under 21 years of age; and
 - ii. Meet the medical eligibility criteria as defined in the California Code of Regulations such as congenital anomalies, cerebral palsy, hearing loss, cancer and diabetes; and
 - iii. Meet financial eligibility criteria for CCS if they are:
 1. Enrolled in Medi-Cal (per the Medicaid State Plan);
 2. Persons in families with an adjusted gross income of \$40,000 or less in the most recent tax year, as calculated for California state income tax purposes; or
 3. Projected to expend more than 20 percent of their annual, adjusted gross family income for treatment of the CCS-eligible condition.
- b. State Plan Seniors and Persons with Disabilities (SPD) are those persons who derive their eligibility from the Medicaid State Plan and are aged, blind, or disabled.
- c. Section 1931 Children and Related Populations are children including those eligible under Section 1931, poverty-level related groups and optional groups of older children.
- d. Section 1931 Adults and Related Populations are adults including those eligible under Section 1931, poverty-level pregnant women and optional group of caretaker relatives.
- e. Foster Care Children are Medicaid beneficiaries who are receiving foster care or adoption assistance (Title IV-E), are in foster-care, or are otherwise in an out-of-home placement.
- f. Community Based Adult Services (CBAS) Populations are persons who are age 18 or older and meet CBAS eligibility under STC 44(a) and (d).
- g. New Adult Group. The new adult group, described in section 1902(a)(10)(A)(i)(VIII) of the Social Security Act and 42 CFR 435.119, pursuant to the approved state plan will be required to obtain services through this demonstration's managed care delivery system as described in these STCs. Benefits for the new adult group are described in the state's approved alternative benefit plan state plan amendment.
- h. Cal MediConnect eligible beneficiaries are defined in the California-CMS Financial Alignment Memorandum of Understanding signed March 27, 2013 and further clarified in the three-way contracts between the State, CMS, and the participating plans.

- i. Coordinated Care Initiative (CCI) Eligible Beneficiaries: are individuals age 21 and older and includes dual eligible beneficiaries who opt out or are excluded from the Cal MediConnect program, Medi-Cal only Seniors and Persons with Disabilities (SPDs) who were previously excluded from the mandatory managed care SPD transition program, and Medi-Cal managed care enrollees who reside in one of the following 7 counties: Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Mateo, and Santa Clara, excluding: Beneficiaries enrolled in PACE; Beneficiaries enrolled in the AIDS Healthcare Foundation; Medi-Cal-only beneficiaries excluded due to an approved Medical Exemption Request, and; Beneficiaries enrolled in SCAN.
- j. Low-income Pregnant Women, defined as pregnant women with incomes up to and including 138 percent of the FPL will be required to obtain services through this demonstration's managed care delivery system. Beneficiaries who are pregnant women in fee-for-service prior to August 1, 2015 may remain in fee-for-service for the duration of their pregnancy and post-partum period to ensure continuity of care. Any pregnant women voluntarily moving from FFS to managed care will be provided appropriate care coordination.
- k. Health Home Program (HHP) service coverage is limited to only beneficiaries who have full-scope, non-Share-of-Cost, Medi-Cal enrollment, and meet the specific Health Home Program eligibility requirements as specified in the Health Home Program State Plan Amendments (SPAs). HHP services will be provided through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal Managed Care Plan (MCP) to receive HHP services as well as all other state plan services that are provided through MCPs. HHP services will not be provided through a FFS delivery system. The HHP-specific provisions of the Medi-Cal 2020 demonstration freedom of choice waiver, and managed care delivery system implementation Medicaid authority, are in effect for any Health Home Program SPAs - including SPA requirements specific to eligible populations, geographic coverages, approved providers, and any other SPA requirements - for the duration of the Medi-Cal 2020 demonstration.

All Medicaid populations served by public hospital systems that participate in the PRIME program may be affected by payment incentives for such systems that are designed to further efforts to restructure care delivery to improve quality and appropriateness of care settings.

VII. DEMONSTRATION DELIVERY SYSTEMS

If the State chooses to use a managed care delivery system to provide benefits to the affected populations (defined in STC 33), any managed care delivery system which uses managed care organizations (MCOs), health-insuring organizations (HIOs), prepaid inpatient health plans (PIHPs), or prepaid ambulatory health plans (PAHPs) [collectively referred to as managed care entities] is subject to all applicable Medicaid laws and regulations, including but not limited to

sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438.

Health Insuring Organizations are managed care delivery systems unique to California and operate under the authority of section 9517(c) of COBRA 1985, which was subsequently amended by section 4734 of OBRA 1990 and MIPAA 2008. HIOs are exempt from the managed care requirements of section 1932 of the Act (implemented through 42 CFR Part 438) because they are not subject to the requirements under 1903(m)(2)(A) that apply to MCOs and contracts with MCOs. 42 CFR 438.2 identifies these as county-operated entities and California state law that passed simultaneously with OBRA 1990 identifies these as county-organized health systems (COHS). The entities covered by the 1915(b) waivers operate under the HIO authority to deliver benefits to State plan populations; the HPSM is considered a COHS, but is not considered an HIO by Federal standards because it became operational after January 1, 1986.

A COHS plan must enroll all Medicaid beneficiaries residing in the county in which it operates.

In Humboldt County, beneficiaries may be subsequently disenrolled from COHS to be enrolled in the Program of All Inclusive Care for the Elderly (PACE), if eligible. Medicaid beneficiaries residing in COHS counties may not be enrolled in any other alternative delivery system without prior approval from CMS and an amendment to this demonstration.

The counties participating in the Two Plan Model offer a choice of two types of MCOs – a local initiative plan (a county-organized plan which includes local Safety Net providers and clinics) and a commercial plan. The counties participating in the Geographic Managed Care (GMC), Imperial, and Regional Models of managed care offer a choice of two or more MCOs. San Benito County offers a choice of one MCO or the States Fee-For-Service delivery system, enrollment in managed care is voluntary.

- 34. Managed Care Expansions.** The State has been granted the authority to operate managed care programs in the counties in Attachment M. Therefore, a Demonstration amendment is not required to implement expansions in these counties. However, any new service area expansions, proposed changes in Demonstration authorities, or changes in the populations included or excluded in the authorized counties will require an amendment to the Demonstration as outlined in STC 8, including updated Attachment L. All managed care expansions, with beneficiary protections and contract requirements described under the 2010-2015 “Bridge to Reform” Demonstration must maintain the required beneficiary protections and contract requirements with the renewal.
- 35. Encounter Data Validation Study for New Health Plans.** When a managed care entity begins serving the populations in STC 33 in the Demonstration, the State will be responsible for conducting a validation study 18 months after the effective date of the contract to determine completeness and accuracy of encounter data. The initial study will include validation through a sample of medical records of Demonstration enrollees.
- 36. Submission of Encounter Data.** The State will submit encounter data to the Medicaid Statistical Information System (MSIS) as is consistent with Federal law, policy and regulation. The State must assure that encounter data maintained at managed care entities can be linked with eligibility files maintained at the State.
- 37. Standard Transaction Formats for Transmission of Payment and Enrollment to Managed Care Entities.** The State must ensure that regular capitation payments and plan enrollment rosters provided to the managed care entities serving Demonstration populations are generated through an automated process that is compliant with the appropriate standard HIPAA ANSI X12 transaction file format.
- 38. Contracts.** No FFP is available for activities covered under contracts and/or modifications to existing contracts that are subject to 42 CFR 438 requirements prior to CMS approval of such contracts and/or contract amendments. The State will provide CMS with a minimum of 60 days to review and approve changes. CMS reserves the right, as an alternative to withholding all FFP for a contract when CMS determines that the state and the contractor are making good faith efforts to come into compliance, to withhold FFP in part until the contract compliance and approval requirement is met for that contract.

39. **Capitation Payments.** The State must ensure that regular capitation payments made to the Medicaid health plans that are covered under this Demonstration are done through an automated process that is compliant with the standard HIPAA ANSI X12 820 electronic transaction format. . Likewise, the State must ensure that regular plan enrollment rosters are provided to the Medicaid health plans covered under this Demonstration through an automated process that is compliant with the standard HIPAA ANSI X12 834 electronic transaction format.
40. **Network Adequacy.** The State must ensure that each managed care entity has a provider network that is sufficient to provide access to all covered services in the contract.

To the extent that the state applies an exception alternate access standard to its Knox-Keene Medi-Cal managed care health plan contract network standards the state shall provide the CMS with the following information no later than 30 days after approval:

- a. The geographic zip codes where the exception is applied;
- b. The reason(s) for applying this exception; and
- c. A description of how the health plan network being certified for network adequacy compares to the number of FFS provider in the region where the exception is applied or the previous plan network, whichever is applicable.
- d. And annually thereafter:
 - i. The geographic zip codes where the exception is applied; and
 - ii. The reason(s) for applying this exception.

If reports are not submitted on time CMS reserves the right as a corrective action to withhold FFP (either partial or full) for managed care capitation payments for the Demonstration until the requirement is met.

41. **Network Requirements.** The State must through its health plans deliver adequate primary care, including care that is delivered in a culturally competent manner that is sufficient to provide access to covered services to the low-income population, and coordinate health care services for Demonstration populations.
- a. **Special Health Care Needs** - Enrollees with special health care needs must have direct access to a specialist as appropriate for the individual's health care condition.
 - b. **Out of Network Requirements** - The State through its health plans must provide Demonstration populations with the corresponding Demonstration program benefits described within these STCs and must adequately cover these benefits and services out of network in a timely fashion, for as long as it is necessary to provide them, at no additional cost to the enrollee.
 - c. **Timeliness** - The Medi Cal managed care health plans must comply with timely access requirements and ensure their providers comply with these requirements. Providers must meet State standards for timely access to care and services, considering the urgency of the service needed. Network providers must offer office hours at least equal to those offered to the health plan's commercial line of

business enrollees or Medicaid fee-for-service participants, if the provider accepts only Medicaid patients. Contracted services must be made available 24 hours per day, seven days per week when medically necessary. The State, through the health plan contracts must establish mechanisms to ensure and monitor provider compliance and must take corrective action when noncompliance occurs.

- d. **Credentialing** - The State through its health plans must demonstrate that the health plan providers are credentialed. The State must also require these health plans to participate in efforts to promote culturally competent service delivery.
- e. **Demonstrating Network Adequacy** - Annually the State must provide adequate assurances that it has sufficient capacity to serve the expected enrollment in its service area.
 - i. The State must provide supporting documentation that must show that the health plan offers an adequate range of preventive, primary, and specialty services care for the anticipated number of enrollees in the service area. The network must contain providers who are sufficient in number, mix, and geographic distribution to meet the anticipated needs of enrollees.
 - ii. The State through its health plans must submit this documentation when it enters into a contract.
 - iii. The State must submit this documentation any time that a significant change occurs in the health plan's operations that would affect adequate capacity and services.
 - iv. Significant changes include changes in services, benefits, geographic service area, or payments or the entity's enrollment of a new population.

42. Certification – Prior to enrollment and annually, the State is required to certify to CMS that each health plan has complied with State standards for service availability and must make all documentation available to CMS upon request.

43. Concurrent Operation of the Multipurpose Senior Services Program (MSSP) 1915 (c) Home and Community Based Services (HCBS) program (CA 0141). Payment for the MSSP 1915 (c) waiver services will be included in the plan capitation payments from the State starting July 1, 2014. Eligible beneficiaries in the seven CCI counties who are participating in the MSSP waiver will be allowed to join the Cal MediConnect program, if eligible, or mandatorily enrolled in a plan. The Cal MediConnect plans and Medi-Cal only managed care plans will be required to contract with MSSP providers to ensure on-going access to MSSP waiver services for MSSP enrolled beneficiaries at the time of transition through December 31, 2017. MSSP waiver providers will continue to provide the same services to MSSP Waiver participants/clients; however, they will receive payment for Medi-Cal managed care members from the plans. These requirements shall be outlined in the plan and MSSP Waiver provider contracts

44. Operation of the Health Home Program. Health Home Program (HHP) service coverage is limited to only beneficiaries who have full-scope, non-Share-of-Cost, Medi-Cal enrollment, and meet the specific Health Home Program eligibility requirements as specified in the Health Home Program State Plan Amendments (SPAs). HHP services will be provided through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal Managed Care Plan (MCP) to receive HHP services as well

as all other state plan services that are provided through MCPs. HHP services will not be provided through a FFS delivery system. DHCS will provide appropriate notice to potentially eligible HHP FFS members that explains that for eligible FFS members who choose to receive HHP services, the members will then be required to receive all other non-HHP Medi-Cal covered services through the designated HHP managed care plan. DHCS will amend its managed care plan (MCP) contracts as appropriate to reflect the addition of the HHP benefit.

The HHP-specific provisions of the Medi-Cal 2020 demonstration freedom of choice waiver, and managed care delivery system implementation Medicaid authority, are in effect for any Health Home Program SPAs - including SPA requirements specific to eligible populations, geographic coverages, approved providers, and any other SPA requirements - for the duration of the Medi-Cal 2020 demonstration.

The program assigns care managers, such as nurses or other trained professionals, to help members find the right health care or other services in their communities. HHP services include:

- a. Comprehensive care management;
- b. Care Coordination;
- c. Health promotion;
- d. Comprehensive transitional care;
- e. Individual and family support; and
- f. Referral to community and social supports.

VIII. CONTINUING OPERATION OF DEMONSTRATION PROGRAMS

A. Community-Based Adult Services (CBAS) for Medi-Cal State Plan Populations

- 45. Community-Based Adult Services (CBAS) Eligibility and Delivery System.**
Community Based Adult Services” is an outpatient, facility-based program that delivers skilled nursing care, social services, therapies, personal care, family/caregiver training and

support, nutrition services, care coordination, and transportation to eligible State Plan beneficiaries.

- a. CBAS Recipients are those persons who:
 - i. Are age 18 years and older;
 - ii. Derive their Medicaid eligibility from the State Plan and are either aged, blind, or disabled; including those who are recipients of Medicare.
 - iii. Are Medi-Cal managed care plan members or are exempt from enrollment in Medi-Cal managed care.
 - iv. Reside within a geographic services area in which the CBAS benefit was available as of April 1, 2012, as more fully described in STC 44(b), or are determined eligible for the CBAS benefit by managed care plans that contract with CBAS providers pursuant to STC 44(b) and STC 47(a)(ii).

- b. Delivery System.
 - i. CBAS is a Medi-Cal managed care benefit in counties where CBAS existed on April 1, 2012. To the extent that the provision of CBAS is determined by DHCS to be both cost-effective and necessary to prevent avoidable institutionalization of plan enrollees within a plan's service area in which CBAS was not available as of April 1, 2012, CBAS may be a Medi-Cal managed care benefit pursuant to STC 47(a)(ii) available to that plan's enrollees at the discretion of the plan when it contracts with a CBAS provider that has been certified as such by DHCS. The State must ensure that plans have mechanisms to provide care coordination, person-centered planning continuity-of-care, out-of-network care, and other provisions related to newly enrolled managed care beneficiaries as described in STC 58

 - ii. CBAS shall be available as a Medi-Cal fee-for-service benefit for individuals who do not qualify for, or are exempt from enrollment in, Medi-Cal managed care as long as the individual resides within the geographic service area where CBAS is provided.

 - iii. If there is insufficient CBAS Center capacity due to Center closure(s) to satisfy demand in counties where CBAS centers existed as of April 1, 2012, the State Medicaid Agency must assure that eligible CBAS beneficiaries that had received CBAS at the closed Center(s) have access to unbundled CBAS as needed for continuity of care and subject to the following general procedures:
 1. Managed care beneficiaries: For managed care beneficiaries who are eligible for CBAS and there is a 5% change from County capacity as of April 1, 2012, in the area, the MCO will authorize unbundled services and facilitate utilization through care coordination.

 2. Fee-for-Service beneficiaries: For FFS beneficiaries who are eligible for CBAS and there a 5% change from County capacity as of April 1, 2012, in the area, the following procedures will apply:

- DHCS will work with the local CBAS Center network and beneficiary’s physician to identify other available CBAS Centers, and the type, scope and duration of the CBAS the beneficiary needs.
- DHCS will work with the beneficiary’s physician to arrange for
 - needed nursing services,
 - referral to, or reassessment of, In-Home Supportive Services as needed for personal care services (or authorization of waiver personal care services needed in excess of the IHSS cap).
- If the beneficiary needs therapeutic services, DHCS will work with the beneficiary’s physician to coordinate the authorization of needed services.
- If the beneficiary needs mental health services, DHCS will work with the beneficiary’s physician to refer the beneficiary to the local mental health services program.

iv. In the event of a negative change in capacity of 5% or greater in any county for any reason, DHCS shall identify in the quarterly report for the same quarter as the negative change the provider capacity in that county for providing all core and additional CBAS services (as listed in STCs 45(a) and 45(b)) on an unbundled basis.

c. Home and Community-Based Settings. The state must ensure that home and community-based settings have all of the qualities required by 42 CFR 441.301(c)(4), and other such qualities as the secretary determines to be appropriate based on the needs of the individual as indicated in their person-centered plan. In a provider owned or controlled setting, the additional qualities required by CFR 441.301(c)(4)(vi) must be met. The state will engage in a CBAS stakeholder process to amend the HCB settings statewide transition plan to ensure that all home and community-based settings found in the 1115 Demonstration have all of the qualities required by 42 CFR 441.301(c)(4). The state will amend the statewide transition plan to include all HCBS settings used by individuals in the 1115 Demonstration and submit to CMS no later than September 1, 2015, to ensure complete compliance with HCB Settings by March 17, 2019.

d. CBAS Program Eligibility Criteria. The CBAS benefit shall be available to all beneficiaries who meet the requirements of STC 44(a) and for whom CBAS is available based on STC 44(b) who meet medical necessity criteria as established in state law and who qualify based on at least one of the medical criteria in (i) through (v):

- i. Meet or exceed the “Nursing Facility Level of Care A” (NF-A) criteria as set forth in the California Code of Regulations; OR
- ii. Have a diagnosed organic, acquired or traumatic brain injury, and/or chronic mental disorder. “Chronic mental disorder” means the enrollee shall have one or more of the following diagnoses or its successor diagnoses included in the most recent version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association: (a) Pervasive Developmental Disorders, (b) Attention Deficit and Disruptive Behavior Disorders, (c) Feeding and

Eating Disorder of Infancy, Childhood, or Adolescence, (d) Elimination Disorders, (f)) Schizophrenia and Other Psychiatric Disorders, (g) Mood Disorders, (h) Anxiety Disorders, (i) Somatoform Disorders, (j) Factitious Disorders, (k), Dissociative Disorders, (l) Paraphilia, (m) Eating Disorders, (n) Impulse Control Disorders Not Elsewhere Classified (o) Adjustment Disorders, (p) Personality Disorders, or (q) Medication-Induced Movement Disorders. In addition to the presence of a chronic mental disorder or acquired, organic, or traumatic brain injury, the enrollee shall need assistance or supervision with either:

- A. Two of the following: bathing, dressing, self-feeding, toileting, ambulation, transferring, medication management, or hygiene; or
- B. One need from the above list and one of the following: money management; accessing community and health resources; meal preparation, or transportation; OR.

iii. Have a moderate to severe cognitive disorder such as dementia, including dementia characterized by the descriptors of, or equivalent to, Stages 5, 6, or 7 of the Alzheimer's Type; OR

iv. Have a mild cognitive disorder such as dementia, including Dementia of the Alzheimer's Type, AND need assistance or supervision with two of the following: bathing, dressing, self-feeding, toileting, ambulation, transferring, medication management, or hygiene; OR

v. Have a developmental disability. "Developmental disability" means a disability, which originates before the individual attains age 18, continues, or can be expected to continue indefinitely, and constitutes a substantial disability for that individual as defined in the California Code of Regulations.

e. CBAS Eligibility Determination.

Eligibility determination for the CBAS benefit will be performed as follows:

- i. The initial eligibility determination for the CBAS benefit will be performed through a face-to-face review by a registered nurse with level of care determination experience, using a standardized tool and protocol approved by the State Medicaid Agency unless criteria under STC 44 (e)(ii) are met. The eligibility determination will be conducted by the beneficiary's managed care plan, or by the State Medicaid Agency or its contractor(s) for beneficiaries exempt from managed care.
- ii. An initial face-to-face review is not required when a managed care plan determines that an individual is eligible to receive CBAS and that the receipt of CBAS is clinically appropriate based on information that the plan possesses.
- iii. Eligibility for ongoing receipt of CBAS is determined at least every six months through the reauthorization process or up to every twelve months for individuals determined by the managed care plan to be clinically appropriate.
- iv. Denial in services or reduction in the requested number of days for services of ongoing CBAS by DHCS or by a managed care plan requires a face-to-face review.

f. Grievances and Appeals

- i. A beneficiary who receives a written notice of action has the right to file an appeal and/or grievance under State and Federal Law.

ii. A CBAS participant may file a grievance with their Managed Care Organization as a written or oral complaint. The participant or their authorized representative may file a grievance with the participant's Managed Care Organization at any time they experience dissatisfaction with the services or quality of care provided to them, and as further instructed by the MCO.

46. CBAS Benefit and Individual Plan of Care (IPC).

CBAS benefits include the following:

- a. Core Services: Professional nursing care, personal care and/or social services, therapeutic activities, and a meal shall be provided to all eligible CBAS beneficiaries on each day of service as follows.
 - i. Professional nursing services provided by an RN or LVN, which includes one or more of the following, consistent with scope of practice: observation, assessment, and monitoring of the beneficiary's general health status; monitoring and assessment of the participant's medication regimen; communication with the beneficiary's personal health care provider; supervision of personal care services; and provision of skilled nursing care and interventions.
 - ii. Personal care services provided primarily by program aides which include one or more of the following: supervision or assistance with Activities of Daily Living (ADLs) and Instrumental Activities of Daily Living (IADLs); protective group supervision and interventions to assure participant safety and to minimize risk of injury, accident, inappropriate behavior, or wandering.
 - iii. Social services provided by social work staff, which include one or more of the following: observation, assessment, and monitoring of the participant's psychosocial status; group work to address psychosocial issues; care coordination.
 - iv. Therapeutic activities organized by the CBAS center activity coordinator, which include group or individual activities to enhance social, physical, or cognitive functioning; facilitated participation in group or individual activities for CBAS beneficiaries whose physical frailty or cognitive function precludes them from independent participation in activities.
 - v. A meal offered each day of attendance that is balanced, safe, and appetizing, and meets the nutritional needs of the individual, including a beverage and/or other hydration. Special meals will be provided when prescribed by the participant's personal health care provider.
- b. Additional Services. The following additional services shall be provided to all eligible CBAS beneficiaries as needed and as specified on the person's IPC:
 - i. Physical therapy provided by a licensed, certified, or recognized physical therapist within his/her scope of practice.
 - ii. Occupational therapy provided by a licensed, certified, or recognized occupational therapist within his/her scope of practice.
 - iii. Speech therapy provided by a licensed, certified, or recognized speech therapist within his/her scope of practice.
 - iv. Behavioral health services for treatment or stabilization of a diagnosed mental disorder provided by a licensed, certified, or recognized mental health

professional within his/her scope of practice. Individuals experiencing symptoms that are particularly severe or whose symptoms result in marked impairment in social functioning shall be referred by CBAS staff to the identified managed care plan, County Mental Health programs, or appropriate behavioral health professionals or services.

- v. Registered dietician services provided by a registered dietician for the purpose of assisting the CBAS beneficiary and caregivers with proper nutrition and good nutritional habits.
- vi. Transportation, provided or arranged, to and from the CBAS beneficiary's place of residence and the CBAS center, when needed.

c. Individual Plan of Care (IPC).

The IPC is a written plan designed to provide the CBAS beneficiary with appropriate treatment in accordance with the assessed needs of the individual, as determined by the CBAS center and as specified in State law. The IPC is submitted as supporting documentation for level of service determination with the treatment authorization request.

The whole person-centered project will comply with the requirements at 42 CFR 441.301(c)(1) through (3) including specifying: 1) How the IPC will identify each enrollee's preferences, choices and abilities and the strategies to address those preferences, choices and abilities; 2) How the IPC will allow the enrollee to participate fully in any treatment or service planning discussion or meeting, including the opportunity to involve family, friends and professionals of the enrollee's choosing; 3) How the IPC will ensure that the enrollee has informed choices about treatment and service decisions; and 4) How the IPC process will be collaborative, recurring and involve an ongoing commitment to the enrollee.

The IPC is prepared by the CBAS center's multidisciplinary team based on the team's assessment of the beneficiary's medical, functional, and psychosocial status, and includes standardized components approved by the State Medicaid Agency. Development of the IPC is based on principles of Person-Centered Planning, which is an individualized and ongoing process to develop individualized care plans that focus on a person's abilities and preferences for the delivery of services and supports. Person-Centered Planning includes consideration of the current and unique bio-psycho-social-cultural and medical needs and history of the individual, as well as the person's functional level, support systems, and continuum of care needs. CBAS center staff, the beneficiary, and his/her support team shall review and update the beneficiary's IPC at least every six months or when there is a change in circumstance that may require a change in benefits. Such review and updates must include an evaluation of progress toward treatment goals and objectives, and reflect changes in the beneficiary's status or needs. The IPC shall include at a minimum:

- i. Medical diagnoses.
- ii. Prescribed medications.
- iii. Scheduled days at the CBAS center.

- iv. Specific type, number of service units, and frequency of individual services to be rendered on a monthly basis.
- v. Elements of the services that need to be linked to individual objectives, therapeutic goals, and duration of service(s).
- vi. An individualized activity plan designed to meet the needs of the enrollee for social and therapeutic recreational activities.
- vii. Participation in specific group activities.
- viii. Transportation needs, including special transportation.
- ix. Special diet requirements, dietary counseling and education, if needed.
- x. A plan for any other necessary services that the CBAS center will coordinate.
- xi. IPCs will be reviewed and updated no less than every six months by the CBAS staff, the enrollee, and his/her support team. Such review must include a review of the participant's progress, goals, and objectives, as well as the IPC itself.

47. CBAS Provider Specifications. CBAS center staff shall include licensed and registered nurses; licensed physical, occupational, and speech therapists; licensed behavioral health specialists; registered dietitians; social workers; activity coordinators; and a variety of other non-licensed staff such as program aides who assist in providing services.

- a. Licensed, registered, certified, or recognized staff under California State scope of practice statutes shall provide services within their individual scope of practice and receive supervision required under their scope of practice laws.
- b. All staff shall have necessary experience and receive appropriate on-site orientation and training prior to performing assigned duties. All staff will be supervised by CBAS center or administrative staff.
- c. The State Medicaid Agency maintains Standards of Participation for all CBAS providers are found in Attachment W to these STCs. These Standards of Participation are hereby incorporated by reference and can be found on the Department of Health Care Services and California Department of Aging (CDA) websites. Any changes in the CBAS Provider Standards of Participation must be approved by CMS.

48. Responsibilities of Managed Care Plans for CBAS Benefits

The responsibilities of managed care plans for the CBAS benefit shall be consistent with each individual managed care plan's contract with DHCS and with these STCs and shall include that plans do the following.

- a. Contract Requirements for Managed Care Plans:
 - i. Contract with sufficient available CBAS providers in the managed care plans' covered geographic areas to address in a timely way the needs of their members who meet the CBAS eligibility criteria in STC 44(d). Sufficient means: providers that are adequate in number to meet the expected utilization of the enrolled population without a waitlist; geographically located within one hour's transportation time and appropriate for and proficient in addressing enrollees' specialized health needs and acuity, communication, cultural and language needs and preferences.
 - ii. Plans may, but are not obligated to, contract for CBAS with providers licensed as ADHCs and authorized by the Department to provide CBAS on or after

April 1, 2012. Plans are not obligated to develop new CBAS networks or capacity in geographical areas where CBAS capacity is limited or where ADHC was not available prior to April 1, 2012;

- iii. Where there is insufficient or non-existent CBAS capacity in the plan's covered geographic area and ADHC had been available prior to April 1, 2012, the plan shall arrange for the delivery of appropriate plan-covered benefits and coordinate with community resources to assist members, who have similar clinical conditions as CBAS recipients, to remain in the community.
 - iv. Confirm that every contracted CBAS provider is licensed, certified, operating, and meets the managed care plan's credentialing and quality standards.
 - A. The managed care plan may exclude any CBAS provider, to the extent that the managed care plan and CBAS provider cannot agree to terms, the CBAS provider does not meet the plan's credentialing or quality standards, is terminated pursuant to the terms of the CBAS provider's contract with the managed care plan, or otherwise ceases its operations as a CBAS provider.
 - B. The managed care plan shall provide the State Medicaid Agency a list of its contracted CBAS providers and its CBAS accessibility standards on an annual basis.
- b. Eligibility and Authorization: Develop and implement policies and procedures for CBAS eligibility determination and authorization that address the eligibility criteria set forth in STC 44, the processes and timelines in State law, and all of the following:
- i. Face-to-face eligibility determination (F2F) review requirements: the minimum standard is that the managed care plan will conduct an F2F eligibility determination for those beneficiaries who have not previously received CBAS through the plan, provided that the managed care plan has not already determined through another process that the member is clinically eligible for CBAS and in need for the start of CBAS to be expedited.
 - ii. Timeline for eligibility determination: the plan shall complete the F2F eligibility determination using the standard State-approved tool, as soon as feasible but no more than 30 calendar days from the initial eligibility inquiry request. The plan shall send approval or denial of eligibility for CBAS to the CBAS provider within one business day of the decision and notify the member in writing of his/her CBAS eligibility determination within two business days of the decision.
 - iii. Timeline for service authorization: After the CBAS eligibility determination and upon receipt of the CBAS treatment authorization request and individual plan of care (IPC), the plan shall:
 - A. Approve, modify or deny the authorization request within five business days of receipt of the authorization request, in accordance with State law.
 - B. Determine level of service authorization (i.e., days per week authorized) based on the plan's review of the IPC submitted by the CBAS provider,

- consideration of the days per week recommended by the CBAS multidisciplinary team, and the medical necessity of the member.
- C. Notify the provider within one business day of the authorization decision. Notify the member within two business days of the authorization decision, including informing the member of his/her right to appeal and grievance processes in accordance with STC 44(f).
 - iv. Timeline, process, and criteria for expedited eligibility determination and authorization for CBAS such that an F2F will not be performed. At a minimum, expedited authorization shall occur within 72 hours of receipt of a CBAS authorization request for individuals in a hospital or nursing facility whose discharge plan includes CBAS, or when the individual faces imminent and serious threat to his or her health.
 - v. Written notices to the beneficiary shall include procedures and contacts for grievances and appeals.
 - vi. Guidelines for level of service authorization, including for the number of days per week and duration of authorization up to 12 months.
 - vii. Continuity of care: The managed care plan shall ensure continuity of care when members switch health plans and/or transfer from one CBAS center to another.
- c. Coordination with CBAS Providers: Coordinate member care with CBAS providers to ensure the following:
- i. CBAS IPCs are consistent with members' overall care plans and goals developed by the managed care plan.
 - ii. Exchange of participant discharge plan information, reports of incidents that threaten the welfare, health and safety of the participant, and significant changes in participant condition are conducted in a timely manner and facilitate care coordination.
 - iii. Clear communication pathways to appropriate plan personnel having responsibility for member eligibility determination, authorization, care planning, including identification of the lead care coordinator for members who have a care team, and utilization management.
 - iv. Written notification of plan policy and procedure changes, and a process to provide education and training for providers regarding any substantive changes that may be implemented, prior to the policy and procedure changes taking effect.

49. CBAS Center Provider Oversight, Monitoring, and Reporting.

The State shall maintain a plan for oversight and monitoring of CBAS providers to ensure compliance and corrective action with provider standards, access, and delivery of quality care and services. Reporting of activity associated with the plan must be consistent with the Quarterly and Annual Progress Reports as set forth in this Waiver, Section IV, General Reporting Requirements and reported to CMS on a quarterly basis. Such oversight, monitoring and reporting shall include all of the following:

- a. Enrollment Information: to include the number of CBAS FFS and MCO beneficiaries in each county the capacity of each county -, total determined eligible and

ineligible beneficiaries per county quarterly, and explanation of probable cause of any negative change from quarter to quarter of more than five percent and description of any steps taken to address such variances.

b. The quarterly CBAS provider-reported data submitted to the CDA, identifying participant statistics, average daily attendance utilization at Centers, and capacity data.

c. Summary of operational/policy development/issues, including complaints, grievances and appeals. The State shall also include any trends discovered, the resolution of complaints and any actions taken or to be taken to prevent such issues, as appropriate.

d. Summary of all quality assurance/monitoring activity undertaken in compliance with STC 49, inclusive of all amendments.

e. CBAS FFS and Managed Care Access Monitoring. The State Medicaid Agency will assure sufficient CBAS access/capacity, through the mechanisms listed below, in every county where CBAS existed as of April 1, 2012.

i. Review the total number of individuals receiving a new assessment for CBAS vs. the total number of individuals obtaining ongoing CBAS and the number of participants obtaining unbundled services. CMS requires the State to report and review these metrics quarterly and upon a negative change from quarter to quarter of more than 5%, the State must provide a probable cause for the negative change as well as an analysis that addresses such variances.

ii. Review of overall utilization of CBAS, including newly opened or closed Centers. CMS requires the State to report and review these metrics quarterly and upon a negative change from quarter to quarter of more than 5%, the State must provide a probable cause for the negative change as well as an analysis that addresses such variances.

iii. Review of FFS and MCO grievances and appeals by CBAS enrollees for areas including but not limited to: appeals related to requesting services and not able to receive services or receiving more limited services than requested, excessive drive/ride times to access CBAS, grievances around CBAS providers, grievances around FFS or MCO staff in assessment, any reports pertaining to health and welfare of individuals utilizing CBAS, and any reports pertaining to requesting a particular CBAS provider and unable to access that provider. CMS requires the State to report and review these metrics quarterly and upon a negative change from quarter to quarter of more than 5%, the State must provide a probable cause for the negative change as well as a corrective action plans that addresses such variances.

iv. A review of any other beneficiary or provider call center/line for complaints surrounding the provision of CBAS benefits through FFS or the MCOs. CMS requires the State to report and review these metrics quarterly and upon a negative change from quarter to quarter of more than 5%, the State must provide a probable cause for the negative change as well as a corrective action plans that addresses such variances.

v. Review the CBAS provider capacity per county vs. the total number of beneficiaries enrolled for CBAS each quarter. CMS requires the State to report and review these metrics quarterly and upon a negative change from quarter to quarter of more than 5%, the State must provide a probable cause for the negative change as well as an analysis that addresses such variances.

- vi. Evidence of sufficient access monitoring and corrective action plans must be provided to the regional office annually and at any other time a significant impact to the MCO's operations are administered
- vii. If it is found that the State did not meet the monitoring mechanisms listed above, CMS reserves the right to withhold a portion or all of FFP related to CBAS until which time the State provides adequate documentation assuring sufficient access.

50. CBAS Quality Assurance and Improvement Strategy. Quality assurance and monitoring of CBAS shall be consistent with the managed care Quality Strategy required by 42 CFR Part 438 Subpart D which is integrated into the DHCS contracts with managed care plans statewide. Such a Quality Assurance and Improvement strategy shall assure the health and safety of Medi-Cal beneficiaries receiving CBAS and shall address, at a minimum, all of the following:

- a. The quality and implementation of the CBAS beneficiary's person-centered IPC.
- b. The provider's adherence to State licensure and certification requirements.
- c. Financial oversight by the State Medicaid Agency, and
- d. Administrative oversight of the managed care plans by the State Medicaid Agency.

51. CBAS Provider Reimbursement.

- a. DHCS shall reimburse CBAS providers serving eligible Medi-Cal beneficiaries who are exempt from enrollment in Medi-Cal managed care at an all-inclusive rate per day of attendance per beneficiary. DHCS shall publish such rates.
- b. Managed care plans shall reimburse contracted CBAS providers pursuant to a rate structure that shall include an all-inclusive rate per day of attendance per plan beneficiary, or be otherwise reflective of the acuity and/or level of care of the plan beneficiary population served by the CBAS providers. Plan payments must be sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services were available to the respective Medi-Cal population as of April 1, 2012. Managed care plans may include incentive payment adjustments and performance and/or quality standards in their rate structure in paying CBAS providers.

52. CBAS Program Integrity

- a. Following a determination that a credible allegation of fraud exists involving a CBAS provider, the state shall notify managed care plans promptly of the finding. The state must require managed care plans to report, in a timeframe and manner as specified by the state, but no less frequently than quarterly, to the state all payments made to the applicable CBAS provider for CBAS services provided after the date of notification; the state must disclose this information to CMS beginning with payments made on or after April 1, 2016.
- b. If the credible allegation of fraud is proven:
 - i. For purposes of claiming FFP, the state must adjust its claiming associated with payments to a managed care plan to account for an amount equal to what the managed care plan has paid to an applicable CBAS provider for dates of services occurring after the state has notified the managed care

plan that the CBAS provider has been referred for investigation. The state shall refund the federal share associated with such payments in accordance with Attachment OO.

- ii. The state may recoup from its payment to a managed care plan an amount equal to what the managed care plan has paid to the applicable CBAS provider for dates of service after the state has notified the managed care plan that the CBAS provider has been referred for investigation.
- iii. Additional specifications pertaining to these requirements including information about how payments and claiming will be adjusted and MCPs will be notified are set forth in Attachment OO in accordance with the Medicaid Managed Care proposed rule at 80 FR 31097 or the finalized 42 CFR 438. The state must submit Attachment OO by June 30, 2016.

B. California Children’s Services (CCS)

53. **CCS Demonstration Project Approval.** The demonstration project will test two health care delivery models for children enrolled in the California Children’s Services (CCS) Program. The two demonstration models include provisions to ensure adequate protections for the population served, including a sufficient network of appropriate providers and timely access to out of network care when necessary. The plan shall also include specific criteria for evaluating the models. These CCS pilot models shall be eligible for FFP from the Date of CMS approval through the term of the demonstration. In addition, the pilot programs are limited to the two current counties that are authorized as of the date of this approval.
54. **CCS Demonstration Project Protocol.** The overarching goal of the CCS pilot project is for the State to test two models of health care delivery for the CCS population that results in achieving the desired outcomes related to timely access to care, improved coordination of care, promotion of community-based services, improved satisfaction with care, improved health outcomes and greater cost-effectiveness. The demonstration will be analyzed on the following:
 - a. A Program Description – inclusive of eligibility, benefits, cost sharing;
 - b. Demonstration Program Requirements - inclusive of eligibility, enrollment, benefits, and cost-sharing;
 - c. Budget/Allotment Neutrality projections
 - d. Outcomes for:
 - i. Ensuring that the CCS population has access to timely and appropriate, high quality and well-coordinated medical and supportive services that are likely to maintain and enhance their health and functioning and meet their developmental needs.
 - ii. Increasing patient and family satisfaction with the delivery of services provided through the CCS program.
 - iii. Increasing satisfaction with both the delivery of and the reimbursement of services.
 - iv. The State’s ability to measure and assess those strategies that are most and least effective in improving the cost-effectiveness of delivering high-

- quality, well-coordinated medical and supportive services to the CCS population.
- v. Increasing the use of community-based services as an alternative to inpatient care and emergency room use.
- vi. Reducing the annual rate of growth of expenditures for the CCS population.
- e. Use up to two models of care for care delivery:
 - i. A Provider-based Accountable Care Organization (ACO);
 - ii. Existing Medi-Cal Managed Care Plans.

55. 2016 CCS Pilot Update.

- a. The CCS Pilot Protocol has been appended to the STCs as Attachment KK
- b. On or before September 30, 2016, the state must submit to CMS a report detailing the following:
 - i. The current number of pilot programs,
 - ii. A description and status update on each active pilot, including number of children enrolled, average CCS and total Medi-Cal cost of care,
 - iii. Evaluation findings to date (if any).
 - iv. On or before September 30, 2016, California must submit to CMS an updated CCS Pilot Protocol with additions to the list performance measures, to be implemented in 2017. Specifically, the state must propose
 - A. One provider satisfaction measure,
 - B. One patient satisfaction measure,
 - C. Whole person average cost of care,
 - D. Two measures of participant health outcomes.

C. Managed Care Delivery Systems for the Coordination Care Initiative

56. CCI Enrollment Processes

- a. Cal MediConnect Enrollment. Effective no sooner than April 1, 2014, according to the schedule described in Attachment U, dependent on the effective date of the 3-way contract, the State may begin enrollment of beneficiaries eligible for the Cal MediConnect program. Enrollment is described in the plan-specific three-way contracts signed by CMS, the State, and the Cal MediConnect plan. Beneficiaries who opt out of Cal MediConnect, will remain in their existing Medicare program and be enrolled in a Medi-Cal managed care plan for coverage of their Medi-Cal benefits, including LTSS. Beneficiaries may opt out of the Cal MediConnect program at any time.
- b. CCI Eligible Beneficiary Enrollment. Dual eligibles who opt out or are excluded from the Cal MediConnect program, and Medi-Cal only SPDs who were previously excluded from the SPD mandatory enrollment program will be mandatorily enrolled into a Medi-Cal managed care plan The enrollment may be tailored for each county as appropriate to address the specific demographics and population of each county.

Notwithstanding the provisions under this STC, for Two-Plan and GMC counties dual eligibles enrolled in a Medicare Advantage plan shall be mandatorily enrolled in a

Medi-Cal managed care plan that is not operated by the same parent organization for their Medi-Cal and Medicare wrap around benefits. The State shall ensure dual eligibles enrolled in a Medicare Advantage plan will be provided coordination of benefits based off current practice. This is applicable only in the eight authorized CCI counties.

- c. CCI Eligible Beneficiary Enrollment Choice. For counties that do not operate a County Organized Health Systems (COHS), the State will ensure that at the time of enrollment, the individuals will have an opportunity to choose from the managed care health plans and providers, if applicable, available to the specific population groups. If the beneficiary does not choose a health plan, they will receive a default plan assignment as described below. For counties that operate a COHS, the State will ensure individuals have a choice of providers, upon enrollment.
- d. Noticing - Beneficiary and Provider Notices and Information Sharing
 - i. Noticing for Cal MediConnect eligible beneficiaries is described in the MOU, the Cal MediConnect three-way contracts, and the enrollment guidance. For beneficiaries that are not a part of the MOU transition, the noticing requirements are described below:
 - A. *Initial and On-going Outreach and Communication Strategy*. The State shall develop an outreach and education strategy to explain the changes to individuals who are impacted by the Coordinated Care Initiative. The State will establish a stakeholder process to solicit input and recommendations from a broad array of advocates, providers, plans, beneficiaries, and families for the development of a CCI Eligible Beneficiary program. The process will address beneficiary protections, person-centered care coordination, consumer-directed IHSS program protections, and quality. The strategy shall describe the State's planned approach for advising individuals regarding health care options utilizing an array of outreach techniques (including in person as needed) to meet the wide spectrum of needs identified within the specific populations. The strategy will further articulate the State's efforts to ensure that the individuals have access to information and human assistance to understand the new systems and their choices, their opportunities to select a health plan or particular providers and to achieve continuity and coordination of care. The strategy will include a timeline for initial implementation and on-going operation of the CCI. All updates or modifications to the outreach and education strategy shall be submitted to CMS for review, prior to implementation.
 - B. *CMS Review of Enrollee Communication*. The State will submit to CMS, 10 days in advance of finalizing the notice for production, any written communication from the state to enrollees to be used to explain the transition for CMS review and comment. The availability of resources for individual assistance should be clearly set forth in materials developed by both the State and the health plans. The State

will also submit to CMS for review and comment any directional memoranda or guidance documents provided to the counties, plans, and providers.

C. *Readability and Accessibility.* All informing and educational materials should be clear and easy to read, provide information beneficiaries need to help them navigate the transition, and be made available in the 12 Medi-Cal threshold languages, in formats, and at reading levels that ensure materials provide clear information.

D. *Timing.* CCI Eligibles transitioning from Fee-For-Service will be notified at least 90-days in advance of the effective date of enrollment of upcoming changes in delivery systems; will be mailed reminder notices 30 and 60 days prior to enrollment, and final enrollment confirmation notices prior to the enrollment effective date. The State must attempt to contact the beneficiaries who have not made a plan selection by phone, at least two times, prior to 15 days before the transition.

E. *Validation of Beneficiary Addresses.* The state will submit to CMS, 45 days in advance of the transition, a comprehensive plan for ensuring mailings will be sent to the most appropriate beneficiary address (this plan should include the use of address validation software).

ii. For beneficiaries that are currently enrolled in Medi-Cal managed care and are now going to receive MLTSS through the managed care plan, the noticing requirements are as follows:

A. *CMS Review of Enrollee Communication.* The State will require the plans to notify their members at least 30 days in advance of implementation of the benefit. The plan will notify all members of the availability of the benefit for those members who are accessing the services prior to implementation, including information about continuity of care.

B. The plan will notify all members of the availability of the benefit through member informing materials for those who are not accessing the services prior to implementation.

C. *Readability and Accessibility.* All informing and educational materials should be clear and easy to read, provide information beneficiaries need to help them navigate the implementation, and be made available in the 12 Medi-Cal threshold languages, in formats, and at reading levels that ensure materials provide clear information.

iii. *Provider and Community Based Organization (CBO) Notice.* The State shall develop and distribute written informing materials via a provider bulletin no later than 45 days prior to the transition. The State will submit these materials to CMS at least 10 days prior to finalizing the notice for production.

iv. The State will ensure that the Medi-Cal managed care plans include in regular

provider training key elements of operating a successful MLTSS program, including such topics as the applicable assessment tools and processes, person-centered care planning, coordination with the IHSS program, population specific training and self-direction, information technology, billing, and systems operations.

e. Approaches to Default

- i. For CCI Eligible Beneficiaries who are now being mandatorily enrolled in Medi-Cal managed care and do not make an affirmative choice, and after repeated efforts (letter, followed by at least 2 phone calls) to encourage choice, the State will identify individual claims and data (from Medi-Cal and, where appropriate, Medicare) to make a default selection into a plan based on usual and known sources of care, including previous providers (including prescribing providers), and utilization history. Default enrollees will have the opportunity to see their existing Medi-Cal providers for a period of 12 months after enrollment, as defined by the State. The default shall not occur until education and outreach efforts are conducted as noted above. When an assignment cannot be made based on affirmative selection or utilization history, plan assessment shall be based on factors such as plan quality and safety net providers in a plan's network.
- ii. For individuals currently enrolled in Medi-Cal managed care and who will have MLTSS integrated, the default will be to keep the enrollee in the current Medi-Cal managed care plan. Default enrollees will have the opportunity to change to another Medi-Cal managed care plan, in non-COHS counties.
- iii. The State shall inform individuals of their opportunity to change plans at any time.

57. Benefit Package

- a. Beneficiaries enrolled in a Medi-Cal managed care plan will receive through the managed care delivery system Medi-Cal benefits as identified in Attachment N – Capitated Services List/Managed Care Benefit Package. Attachment N has been updated to include the long term services and supports as a plan benefit. The State will assure that enrolled individuals have referral and access to State plan services that are excluded from the managed care delivery system but available through a fee for service delivery system, and will also assure referral and coordination with services not included in the established benefit package. The health plans are responsible for referrals and coordination of services in the State Plan, regardless of whether the services are included in the plan benefit package.
- b. Assessments. The State shall require plans to incorporate into their current policy and procedure a process to assess members who can benefit from LTSS. The plan MLTSS assessment does not preclude the use of specific tools for the determination of eligibility or level of service for MSSP, CBAS and IHSS.
 - i. *MSSP Assessment Tool*: The plans shall enter into a contract with each MSSP Site within the county so that the members have their choice of MSSP Site providers. The MSSP Site shall perform assessments and reassessments of potential MSSP beneficiaries pursuant to the 1915(c)

Home and Community-Based Waiver CA.0141.R04.00 requirements. The MSSP Sites will manage their respective waitlists.

ii. *CBAS Assessment Tool*: The State shall ensure that the plans shall comply with STCs 44-51.

- c. Effective in the authorized CCI counties, managed care benefits for the eligible MLTSS populations will be expanded to include the following long term services and supports (LTSS) as specified in Attachment N:
- i. In-home supportive services (IHSS);
 - ii. Multipurpose Senior Services Program (MSSP) services as defined in the 1915(c) waiver; and
 - iii. Skilled Nursing Facility services and Intermediate Care Facility services.

All services will be provided in compliance with the Americans with Disabilities Act (ADA). The State will assure compliance with the criteria for home and community based settings as referenced in the regulations implementing 1915(c) and 1915(i) and in accordance with the implementation/effective dates published in the Federal Register.

58. Efforts to Ensure Seamless Transitions for New CCI Eligible Beneficiaries: The State shall provide data to plans to assist plans in identifying enrollees with complex, multiple, chronic or extensive health care needs or high risk enrollees prior to the effective date of coverage.

59. Plan Readiness and Contracts

a. Plan Readiness –Ongoing At any time, CMS may require mandatory enrollment freezes based upon review of State reports if it is evident that network adequacy targets are unmet. At any time, CMS reserves the right to withhold approval of contracts/contract amendments and/or Federal financial participation (FFP) if CMS determines that network adequacy is not met. Any available statutory or regulatory appeal procedures will apply.

i. *Care Coordination*. Care coordination activities should reflect the capacity to address the unique needs (medical, support and communication) of individuals in the CCI population and include capacity to provide linkages to other necessary supports outside of each plan’s benefit package (e.g., mental health and behavioral health services above and beyond the benefits covered within the plan, personal care, housing, home delivered meals, energy assistance programs, services for individuals with intellectual and developmental disabilities and other supports necessary). The needs may be identified through the risk assessment process. Care shall be coordinated across all settings including services outside the provider network and benefit package.

ii. *MLTSS Assessments*. By using the CBAS, IHSS, MSSP, and NF assessment tools, the state ensures that these tools include such elements as current health status and treatment needs; social, and transportation needs and preferences; personal goals; participant and caregiver preferences for

care; and back-up plans for situations when caregivers are unavailable. Additionally by using the CBAS, IHSS, MSSP, and NF assessment tools the state ensures that these instruments are capable of producing a similar assessment result from assessor to assessor (i.e. inter-rater reliability).

The State shall direct the plans to engage in a preliminary assessment process that assesses each new enrollee's risk level and needs; assesses the care needs of dual eligible beneficiaries and coordinates their Medi-Cal benefits across all settings; and uses a mechanism or algorithm to determine the health risk level of members. Based on the results of the health risk assessment, the plans shall be directed to develop individual care plans for higher risk beneficiaries.

The State shall ensure minimum assessment/screen components to be included in any assessment/screen administered by the plans to enable comparability and standardization of elements considered and included in all plan assessments.

iii. *Care Continuity: Initial and Ongoing.* The State shall ensure that the plans have mechanisms to provide continuity of care to enrolled individuals in order to furnish seamless care with existing Medi-Cal providers for a period of 12 months after enrollment-and established procedures to bring providers into network. Enrollees may keep current CBAS and Nursing Facility providers and services in their approved service plans, even if those providers are not in the network, for 12 months from first day of coverage, or until a service plan is completed and either agreed upon by the enrollee or resolved through the appeals or a fair hearing process and implemented.

iv. *Person-Centered Planning and Service Design.*

A. For Medi-Cal only and partial Duals without Medicare Part B, the State shall ensure that all contracts will include an assurance that the plans will have protocols in place to require person-centered planning and treatment approaches for each enrollee. While definitions and models of person-centered planning vary, the protocols shall, at a minimum, address the following: 1) How the plan will identify each enrollee's preferences, choices and abilities and the strategies to address those preferences, choices and abilities; 2) How the plan will allow the enrollee to participate fully in any treatment or service planning discussion or meeting, including the opportunity to involve family, friends and professionals of the enrollee's choosing; 3) How the plan will ensure that the enrollee has informed choices about treatment and service decisions; and 4) How the planning process will be collaborative, recurring and involve an ongoing commitment to the enrollee.

B. For MSSP and all 1915(c) HCBS waiver programs which CCI Eligible Beneficiaries will be enrolled, the service plan will reflect the participant's or caregiver's needs and preferences and address how their needs will be met by a combination of covered services

and available community supports. Person-centered service planning is holistic in addressing the full array of medical and non-medical services and supports provided both by the health plan or available in the community to ensure the maximum degree of integration and the best possible health outcomes and participant satisfaction. CBO providers will coordinate the HCBS service plan with the health plans service plan. Participants must be permitted to include individuals of their choosing, along with their service providers, as part of their interdisciplinary team. CMS expects participants will have the ability to choose which team members should serve as the lead and the participant's main point of contact; if the participant does not want to choose a team lead, the interdisciplinary team will make the decision.

- v. *Physical Accessibility.* The State will ensure, using the facility site review tool, that each plan has physically accessible accommodations or contingency plans to meet the array of needs of all individuals who require accessible offices, examination or diagnostic equipment and other accommodations as a result of their disability or condition, and that they are advised of their obligations under the Americans with Disabilities Act and other applicable Federal statutes and rules regarding accessibility.
- vi. *Interpreter Services - Information Technology.* The State will ensure that each plan offers interpreter services for individuals who require assistance communicating, as a result of language barriers, disability, or condition. The State will ensure that each plan has capacity to utilize information technology including teleconferences and electronic options to ensure that delays in arranging services do not impede or delay an individual's timely access to care.
- vii. *Transportation – Specialized.* The State will ensure that each plan offers non-emergency medical transportation so that individuals have easily accessible and timely access for scheduled and unscheduled medical care appointments.
- viii. *Fiscal Solvency.* The State shall ensure a plan's solvency prior to implementing mandatory enrollment and shall continue to monitor on a quarterly basis. California uses the Tangible Net Equity (TNE) standard for plan solvency.

The State shall continue to ensure that all capitation rates developed for the Medicaid managed care program are actuarially sound and adequate to meet population needs pursuant to 42 CFR 438.6 (c). Rates will be designed to support the population's ability to support and retain community placement. The state will have a process for oversight and evaluation of payment structures and to inform areas of exploration for future program modifications.

- ix. *Transparency.* The State shall require that plan methods for clinical and administrative decision-making are publicly available in a variety of formats, as well as elements of contractual agreements with the State related to

benefits, assessments, participant safeguards, medical management requirements, and other non-proprietary information related to the provision of services and supports to the LTSS eligible population.

The State shall require that each plan utilize its community advisory committee, and that the plans engage in regular meetings with its stakeholder advisory committees.

- x. *Timing.* For Medi-Cal only enrollees, the State will ensure that plans are able to serve individuals, including specialty providers, within reasonable and specified timeframes for appointments, including expanded appointment times as needed to meet the individuals' particular needs.

60. Contract Requirements. Each of the elements noted above as essential to determine plan readiness will be included in the State's contracts with each of the plans in a manner that ensures consistency of services, operations, participant rights and safeguards, quality and access to services. In addition to these elements, the State will ensure that each plan contract contains, for applicable populations. To the extent the plans already comply with any of the following requirements, the state shall identify for CMS how they comply.

- a. For Medi-Cal only and Partial Duals without Medicare Part A. Transition Services and Care Coordination requirements to address discharge planning and transition requirements to ensure that:
 - i. Discharge planning occurs with individuals, or their representatives, as applicable, starting from the time individuals are admitted to a hospital or institution; and
 - ii. Appropriate care, services and supports are in place in the community before individuals leave the hospital or institution.
- b. For Medi-Cal only and Partial Duals without Medicare Part B:
 - i. Linkage expectations for linking beneficiaries to providers, for the purposes of assigning members to providers and for ongoing care coordination and/or disease management, using FFS claims data as a source of clinical data on CCI enrollees. The provision and/or exchange of such data shall be done in accordance with Federal and State privacy and security requirements.
 - ii. Requirements for Person-Centered Planning/Consultation, including uniform approach to be used by all plans as required in Plan Readiness Section.
 - iii. Comprehensive health assessments for newly enrolled CCI Eligible Beneficiaries into a plan.
- c. For CCI Eligible Beneficiaries:
 - i. Each plan shall be required to submit service encounter data, for individuals enrolled, as determined by the State and as required by 42 CFR 438 and 1903 of the Act as amended by the Affordable Care Act. The State will develop specific data requirements and require contractual provisions to impose financial penalties if accurate data are not submitted in a timely fashion within 90 days after initial plan enrollment.

- ii. The State must ensure that the notices to beneficiaries are standardized and meet all Federal and State legal requirements.
- iii. Grievance and appeal procedures must comply with Medicaid statutory and regulatory requirements per 42 CFR 438.400-424, Medi-Cal statutory and regulatory requirements and the Knox-Keene Act as applicable and as referenced in Attachment N.
For IHSS, the County will comply with 42 CFR 431, Subpart E. For MSSP, the MSSP Site will comply with 42 CFR 431, Subpart E.
- iv. CCI Eligible Beneficiaries will be substantially involved in plan advisory groups and committees.
- v. Provisions outlining when out-of-network care will be provided.
- vi. Coordination of carved out services.
- vii. To the extent possible, plans should incorporate the existing LTSS providers as health plans network providers. In the case of the IHSS program, plans shall coordinate with the counties in the administration of the IHSS program. The state shall provide support to traditional LTSS providers, in areas such as information technology, billing, and systems operations, to assist them in making the transition to MLTSS.
- viii. Contract Termination Protections for participants:
State contracts with health plans must include expectations around health plans and provider phase-down when health plans or providers are terminating their contract with, or having their contract terminated by, the State or the health plans. These expectations must include the required amount of time for provider and participant notification and rules around the prohibition of new enrollments during the phase-down period.

61. Participant Rights and Safeguards.

- a. Information. All information provided to enrollees, inclusive of and in addition to educational materials, enrollment and disenrollment materials, benefit changes and explanations and other communication, will fully comport with 42 CFR 438.10, and be accessible and understandable to individuals enrolled or potentially enrolled in the Demonstration.
- b. Safeguards to Prevent Abuse, Neglect and Exploitation and Critical incident management systems. The state shall have a system in place to identify, report, and track critical incidents that occur within the delivery of MLTSS, as appropriate.
- c. MLTSS shall continue to be provided in the same amount, duration, and scope while a modification, reduction, or termination is on appeal in accordance with state processes. The State will track the number of appeals of service authorization reductions or expirations. The state will use then use this collected data to intervene when appropriate.
- d. All 1915(c) Waiver requirements and safeguards apply to the individuals receiving MSSP Waiver services.
- e. Independent Consumer Supports. To support the beneficiary’s experience receiving medical assistance and long term services and supports in a managed care environment, the State shall create and ensure a permanent system of consumer

supports independent from the managed care plans to assist enrollees in understanding the coverage model and in the resolution of problems regarding services, coverage, access and rights.

i. Core Elements of the Independent Consumer Supports System:

- i. Organizational Structure. The Independent Consumer Supports system shall operate independently from any managed care plan. The organizational structure of the supports system shall facilitate transparent and collaborative operation with beneficiaries, and health plans.
- ii. Accessibility. The services of the Independent Consumer Supports system are available to all Medicaid beneficiaries receiving managed long-term services and supports (institutional, residential and community based).
- iii. The Independent Consumer Supports system must be accessible through multiple entryways (e.g., phone, electronic mail) and must reach out to beneficiaries and/or authorized representatives through various means (e.g. mail, phone), as appropriate.
- iv. Functions. The Independent Consumer Supports system assists beneficiaries to navigate and access covered health care services and supports. The below list encompasses the system's scope of activity. The State shall have the flexibility to offer these consumer reports through various venues.

- 1) The program shall offer beneficiaries support in the pre-enrollment stage, such as unbiased health plan choice counseling and general program-related information, as well as training on referrals to other counseling and Ombudsman services available, including HICAP, 1-800-Medicare, and the Cal MediConnect Ombudsman, as applicable.
- 2) The program shall service as an access point for complaints and concerns about health plan enrollment, access to services, and other related matters.
- 3) The program shall help enrollees understand the fair hearing, grievance, and appeal rights and processes within the health plan and at the state level and assist them through the process if needed/requested.
- 4) The program has a process in place to ensure that Consumer Support employees have adequate training and/or informational materials about Medicare benefits; how to obtain assistance accessing benefits, plans, and Medicare Ombudsman support; and care coordination efforts between Medicare and Medicaid in the state and provide referrals to the appropriate Medicare entity.

- v. *Staffing and Training*. The State shall ensure the appropriate training is provided to Consumer Support employees. In addition, the Independent Consumer Supports system shall ensure that its services

are delivered in a culturally competent manner and are accessible to individuals with limited English proficiency.

- vi. *Data Collection and Reporting.* The Independent Consumer Supports system shall track the volume and nature of beneficiary contacts and the resolution of such contacts on a schedule and manner determined by the State, but no less frequently than quarterly. This information will inform the State of any provider or contractor issues and support the reporting requirements to CMS.
 - vii. *Consumer Supports Assessment.* The State shall report to CMS on the assessment of the Cal MediConnect Independent Consumer Supports program and incorporate efficient processes and lessons learned into the CCI Consumer Supports program.
 - viii. *Independent Consumer Supports Plan.* The State shall submit a plan to CMS describing the structure and operation of the Independent Consumer Supports system that aligns with the core elements provided in STC 60(e)(i) within 90 days of approval of the CCI managed long term services and supports program.
- f. The State shall conduct trainings with plans as well as providers on community-based resources and supports that can be linked with covered plan benefits.

62. Quality Oversight and Monitoring. In addition to all quality requirements set forth in 42 CFR 438, the state will ensure the following:

- a. Encounter Data. The State shall require each plan to submit comprehensive encounter data at least monthly, on all service utilization by impacted beneficiaries in the CCI Eligible Beneficiary counties, in a manner that enables the State to assess performance by Demonstration plan, by county, and Demonstration wide, and in a manner that permits aggregation of data to assess trends and to facilitate targeted and broad based quality improvement activities.
 - ii. The State shall share these trends and quality improvement activities with CMS quarterly within 60 days of analysis.
 - iii. The State shall ensure sufficient mechanisms and infrastructure in place for the collection, reporting, and analysis of encounter data provided by the plans.
 - iv. The State shall have a process in place to monitor that encounter data from each plan in the authorized CCI Eligible Beneficiary counties is timely, complete, and accurate, and take appropriate action to identify and correct deficiencies identified in the collection of encounter data.
 - v. The State will develop specific data requirements and require contractual provisions to impose financial penalties if accurate data are not submitted in a timely fashion.
 - vi. The State will provide summaries of this data in its regular meetings with CMS regarding the implementation of the CCI Cal MediConnect and CCI Eligible Beneficiary program. Such data will be submitted as required in Section 1903 of the Social Security Act as amended by the Affordable Care Act.

- b. Stratification and Analysis by County and Plan. For all data collected from the plans and COHS the State will be able to stratify information by Demonstration population, plan, and county. The State must also ensure that the data is collected in a manner that enables aggregation and reporting to ensure comprehensive plan oversight by the State of the plans by county.

- 63. **Monitoring and Reporting.** The state will collect data and information on the Coordinated Care Initiative as described in Attachment V in order to monitor, measure and report on this initiative.
- 64. **Notice of Change in Implementation Timeline.** The state must notify CMS of any potential changes in the implementation and deliverables timelines as specified above.
- 65. **Withholding Approval.** At any time, CMS reserves the right to withhold approval of contracts/contract amendment and/or Federal financial participation (FFP) if CMS determined that implementation timelines for MLTSS authorized in this demonstration are not being met. Any available statutory or regulatory appeal procedures will apply.

IX. ADDITIONAL MEDI-CAL 2020 DEMONSTRATION PROGRAMS

A. Access Assessment

- 66. **Access Assessment Document.** Within 90 days of legislation in 2016 being passed providing the state with authority, the Department of Health Care Services (DHCS) will amend its contract with its External Quality Review Organization (EQRO), Health Services Advisory Group, an independent contractor currently under contract with the state and approved by CMS, to complete an Access assessment. If legislative authority is not available the state will need to develop another method for completing this required assessment. This one-time assessment will evaluate primary, core specialty, and facility access to care for managed care beneficiaries based on the current health plan network adequacy requirements set forth in the state's Knox-Keene Health Care Service Plan Act of 1975 (KKA) and Medicaid managed care contracts, as applicable. It will consider State Fair Hearing and Independent Medical Review (IMR) decisions, and grievances and appeals/complaints data. It will report on the number of providers accepting new beneficiaries. The state will also establish an Advisory Committee that will provide input into the structure of the Access assessment.
 - a. **Design Approval.** CMS will approve the Access assessment design, which the state will submit to CMS no later than 180 days after approval by CMS of the EQRO contract amendment.
 - b. **Advisory Committee.** The EQRO will work with the State to establish the Advisory Committee, which will provide input into the assessment structure including network adequacy requirements and metrics that should be considered.
 - c. **Advisory Committee Members.** The Advisory Committee must include one or more representative(s) of each of the following stakeholders to ensure diverse and robust input into the assessment structure and feedback on the initial draft Access

assessment report: consumer advocacy organizations, providers/provider associations, health plans/health plan associations, and legislative staff.

d. **Advisory Committee Responsibility.** The Advisory Committee will:

- i. Begin to convene within 60 days of approval by CMS of the EQRO contract amendment;
- ii. Participate in a minimum of two meetings including an entrance and exit event, with all events and meetings open to the public; and,
- iii. Provide feedback on the Access assessment structure, an initial draft Access assessment report and recommendations that will be published on the state's Medicaid website.

67. Access Report. The EQRO will produce and publish an initial draft and a final Access assessment report that includes a comparison of health plan network adequacy compliance across different lines of business; and recommendations in response to any systemic network adequacy issues, if identified. The initial draft and final report will describe the state's current compliance with the access and network adequacy standards set forth in the Medicaid Managed Care proposed rule at 80 FR 31097 or the finalized 42 CFR 438 if published prior to submission of the Assessment design to CMS. The assessment will:

- a. Measure health plan compliance with network adequacy requirements as set forth in KKA and Medicaid managed care contracts, as applicable. It will consider State Fair Hearing and IMR decisions, grievances and appeals/complaints data; and other factors as selected with input from the Advisory Committee.
- b. Review encounter data including a review of data from sub-capitated plans.
- c. Measure health plan compliance with timely access requirements as set forth in KKA requirements and Medi-Cal managed care contracts using a sample of provider-level data on the soonest appointment availability.
- d. Review compliance with network adequacy requirements for MCPs, and other lines of business for primary and core specialty care areas and facility access, as set forth in KKA requirements or Medi-Cal managed care contracts, as applicable, across the entire health plan network.
- e. Applicable network adequacy requirements of the proposed or final NPRM, as determined under the approved Access assessment design, that are not already required under KKA will be reviewed and reported on against a metric range as identified by the state and approved by CMS in the Access assessment design.
- f. Determine health plan compliance with network adequacy through reviewing information/data from a one-year period using validated network data and utilize it for the time period following conclusion of the pre-assessment stakeholder process but no sooner than the second half of Calendar Year (CY) 2016 in order to ensure use of the highest quality data source available.

- g. Measure MCP compliance with network adequacy requirements within DHCS/MCP contract service areas using the KKA and network adequacy standards within Medicaid managed care contracts.
- h. Accounting for:
 - i. Geographic differences including provider shortages at the local, state, and national levels, as applicable;
 - ii. Previously approved alternate network access standards as provided for under KKA and DHCS/MCP contracts;
 - iii. Access to in- network providers and out-of-network providers separately (presented and evaluated separately) when determining overall access to care;
 - iv. The entire network of providers available to beneficiaries at the State contractor plan level; and
 - v. Other modalities used for accessing care such as telemedicine.

- 68. **Initial Draft Report.** The State must post the initial draft report for a 30 day public comment period after it has incorporated the feedback from the Advisory Committee. The initial draft report must be posted for public comment no later than 10 months after CMS approves assessment design.
- 69. **Publication of Advisory Committee Feedback.** The state must also make publicly available the feedback from the Advisory Committee at the same time it posts the initial draft of the report.
- 70. **Final Report.** The State will submit the final Access assessment report to CMS no later than 90 days after the initial draft report is posted for public comment.

B. PRIME

- 71. **Public Hospital Redesign and Incentives in Medi-Cal (PRIME) Program Description.** The Public Hospital Redesign and Incentives in Medi-Cal (PRIME) Pool will build upon the foundational delivery system transformation work, expansion of coverage, and increased access to coordinated primary care achieved through the prior California Section 1115 Bridge to Reform demonstration. The activities supported by the PRIME Pool are designed to accelerate efforts by participating PRIME entities (as defined in Attachment D) to change care delivery to maximize health care value and strengthen their ability to successfully perform under risk-based alternative payment models (APMs) in the long term, consistent with CMS and Medi-Cal 2020 goals. The PRIME program is intentionally designed to be ambitious in scope and time-limited. Using evidence-based, quality improvement methods, the initial work will require the establishment of performance baselines followed by target setting and the implementation and ongoing evaluation of quality improvement interventions. Participating PRIME entities will consist of two types of entities: Designated Public Hospital (DPH) systems and the District/Municipal Public Hospitals (DMPHs).

PRIME Background The purpose of PRIME program is to support the state’s efforts to adopt alternative payment methodologies (APMs) for managed care systems to use to shift risk for costs and/or outcomes to participating PRIME entities. The PRIME program will also provide direct incentives to participating PRIME entities to support better integration of physical and behavioral health services in inpatient and outpatient settings, improved health outcomes and increased access to health care services, particularly for those with complex health care needs.

Funding for the PRIME program will not exceed \$7.464 billion in combined federal and state shares of expenditures over a five-year period for DPH systems and DMPHs to support reforms for care delivery, provider organization and the adoption of APMs. The demonstration will provide up to \$1.4 billion annually for the DPH systems and up to \$200 million annually for the DMPHs for the first three years of the demonstration. The pool will then phase down by 10 percent in the fourth year of the demonstration and by an additional 15 percent in the fifth year of the demonstration.

Under the PRIME program, DPH systems and DMPHs will receive payments for achieving certain outcomes that will build on the successes of the Delivery System Reform Incentive Payments (DSRIP) Program under the Bridge to Reform demonstration. DPH systems and DMPHs (that are listed in Attachment D) are eligible to receive incentive payments from the PRIME funding Pool, subject to each DPH system and DMPH submitting a completed 5-year PRIME Project Plan pursuant to Attachment Q (Five-Year PRIME Project Plan Process). DPH systems and DMPHs qualified for PRIME funding pool payments are referred to as “participating PRIME entities”. Multiple DPH systems operating under common government ownership may be considered a single participating PRIME entity; the same is true for DMPHs. DMPHs may also submit a joint plan for consideration.

PRIME incentive payments will support participating PRIME entities in their efforts to change care delivery and strengthen those systems’ ability to participate under APMs. As these delivery system changes occur, the state has committed to facilitate movement of participating PRIME entities from payment based on a fee-for-service model to APMs that aligns with HHS’ delivery system reform goals where the provider is accountable for quality and cost of care. CMS and the state will measure the success of the PRIME pool in part by assessing the progress in shifting participating DPH PRIME entities to APMs through managed care plans (MCPs). The APMs will shift risk to participating DPH system PRIME entities through capitation and other risk sharing arrangements. Contracts between MCPs and participating DPH PRIME providers will be required by the state to include language requiring the DPH systems to report on a broad range of metrics to meet quality benchmark goals to ensure improved patient outcomes. PRIME innovations and state payment strategies will allow DPH systems and DMPHs to become self-sustaining entities that are not reliant on pool funds beyond 2020.

To move participating DPH system PRIME providers more toward value-based payments, 50 percent of all Medi-Cal managed care beneficiaries assigned to DPHs by their MCP, in the aggregate, will receive all of or a portion of their care under a contracted APM by January 2018 (DY 13); 55 percent by January 2019 (DY 14); and 60

percent by the end of the waiver renewal period in 2020 (DY 16). Under PRIME, capitated payments, and other acceptable APMs, would be included to capture all models of APM utilized in calculations that determine overall DPH system advancement toward the established thresholds. Four tiers of capitated or alternative payment would exist: 1) partial (primary care only); 2) partial-plus (primary care and some specialty care (varies)); 3) global (primary, specialty, ancillary and/or hospital care); and 4) additional payment methodologies approved by the state and CMS as set forth in Attachment R.

The PRIME program is focused on the following goals: (1) increasing the capabilities of participating PRIME entities to furnish patient-centered, data-driven, team-based care to Medi-Cal beneficiaries, especially those who are high utilizers or at risk of becoming high utilizers (2) improving the capacity of participating PRIME entities to provide point-of-care services, complex care management, and population health management by strengthening their data analytic capacity to drive system-level improvement and culturally competent care; (3) Improve population health and health outcomes for Medi-Cal beneficiaries served by participating PRIME entities, as evidenced by the achievement of performance goals related to clinical improvements, effective preventive interventions, and improved patient experience metrics; (4) improving the ability of participating PRIME entities to furnish, in the most appropriate setting, high-quality, care that integrates physical and behavioral health services and coordinates care in different settings for targeted vulnerable Medi-Cal beneficiaries, ; and (5) moving participating PRIME entities towards value-based payments through the adoption of alternative payment models.

72. **Domains.** The PRIME funds provide incentive payments to participating PRIME entities that undertake 5-year projects within Domains 1, 2, and 3 as described below and consistent with the Attachment II PRIME *Funding and Mechanics Protocol*. DPH systems will be required to implement projects under all three domains. DMPHs, given their different demographics, including their size and location, are only required to include a project from a single domain, although they may include additional projects from other domains in their application for consideration. DMPHs may also submit a joint application across DMPHs reflecting a coordinated effort to implement a domain.

There will be a core required set of metrics for each project that will be outlined in Attachment Q: PRIME *Projects and Metrics Protocol* by March 1, 2016. The specific elements will be particular to the project and to the needs of the beneficiaries. Incentive payments will be phased down consistent with the overall PRIME phase down in DY 14 and DY 15. The applications for these projects will need to outline how they will be building infrastructure and alignment designed to support sustainability over the course of the 5 years including how they will sustain project innovations in years DY 14 and DY 15 as PRIME funding is phased down.

- a. **Domain 1: Outpatient Delivery System Transformation and Prevention.** The PRIME funds provide incentive payments to participating PRIME entities that undertake projects that will ensure that patients experience timely access to high-quality, efficient, and patient-centered care. Through these efforts patients will receive appropriate preventive services, early diagnosis and treatment, and will be

supported in improving their ability to care for themselves through access to other needed services including those that support social and well-being needs. In addition, these projects will identify and increase rates of cost-effective standard approaches to prevention services for a select group of high impact clinical conditions and populations (cardiovascular disease, breast, cervical and colorectal cancer, and obesity). They will also aim to reduce disparities and variation in performance of targeted prevention services within their systems. Under this domain, DPH systems will be required to participate in Integration of Physical and Behavioral Health; Ambulatory Care Redesign: Primary Care; Ambulatory Care Redesign: Specialty Care; and must choose one additional project. The menu of projects under this domain include:

- i. Integration of Physical and Behavioral Health (required for DPH systems)
- ii. Ambulatory Care Redesign: Primary Care (required for DPH systems)
- iii. Ambulatory Care Redesign: Specialty Care (required for DPH systems)
- iv. Patient Safety in the Ambulatory Setting
- v. Million Hearts Initiative
- vi. Cancer Screening and Follow-up
- vii. Obesity Prevention and Healthier Foods Initiative

b. **Domain 2: Targeted High-Risk or High-Cost Populations.** The PRIME funds provide incentive payments to participating PRIME entities that undertake projects focused on specific populations that would benefit most significantly from care integration and alignment. Particular attention will be focused on managing and coordinating care during transitions from inpatient to outpatient and post-acute settings, to optimize the care experience and outcomes. Under this domain, DPH systems would be required to participate in Improved Perinatal Care, Care Transitions: Integration of Post-Acute Care and Complex Care Management for High Risk Medical Populations and must choose one additional project. The menu of projects under this domain include:

- i. Improved Perinatal Care (required for DPH systems)
- ii. Care Transitions: Integration of Post-Acute Care (required for DPH systems)
- iii. Complex Care Management for High Risk Medical Populations (Required for DPH systems)
- iv. Integrated Health Home for Foster Children
- v. Transition to Integrated Care: Post Incarceration.
- vi. Chronic Non-Malignant Pain Management
- vii. Comprehensive Advanced Illness Planning and Care

c. **Domain 3: Resource Utilization Efficiency.** The PRIME funds provide incentive payments to participating PRIME entities that undertake projects that will reduce unwarranted variation in the use of evidence-based, diagnostics and treatments (antibiotics, blood or blood products, and high cost imaging studies and pharmaceutical therapies) targeting overuse, misuse, as well as inappropriate underuse of effective interventions. Projects will also eliminate the use of ineffective or harmful targeted clinical services. DPH systems must select at least one of the projects below. The menu of projects under this domain include:

- i. Antibiotic Stewardship
- ii. Resource Stewardship: High Cost Imaging
- iii. Resource Stewardship: Therapies Involving High Cost Pharmaceuticals
- iv. Resource Stewardship: Blood Products.

Project selection for each participating PRIME entity must include an assessment of the number of patients benefiting from, and magnitude of health improvement achievable by, the project selected, pursuant to the PRIME Funding and Mechanics Protocol.

Participating PRIME entities shall not select projects for which the target population is insufficient to accurately measure success and shall not select optional projects to which they are considered “top performers” based on their baseline performance level compared to the project benchmarks identified in the PRIME Funding and Mechanics Protocol. If a participating PRIME entity is ineligible to select a project on the basis of the above criteria, the participating PRIME entity will be required to choose another project from the same domain as necessary to fulfill program minimum project requirements.

- 73. Statewide APM Targets for DPH Systems.** To ensure support for sustainability beyond the demonstration DPH systems must demonstrate, in the aggregate, a shift from a fee for service to value-based managed care payments by 2020. Generally this will be in the form of capitation, though other APMs may be acceptable. APMs must provide payment at the provider level that is, tied to value and quality and provide incentives to clinicians to provide the right care, at the right time, at the right place.
- a. Methodology: PRIME is structured to chart a path towards integrating continuous quality improvement in the underlying structure of the Medi-Cal program. This will be evidenced by an increasing shift of managed care payments for DPH systems towards APMs, which include full or partial capitation of services, risk-pool payments or other risk-sharing arrangements at the provider level for assigned Medi-Cal managed care enrollees.
 - i. In determining whether DPH systems are progressing towards the APM targets stipulated above, the following methodology will be used:
 - A. Determine the total number of unique MCP beneficiaries who either choose or are assigned to all of the participating DPH systems in aggregate for the applicable demonstration year.
 - B. Determine the total number of unique MCP beneficiaries who either choose or are assigned to all participating DPH systems in the aggregate for which the contract between the MCP and DPH system prescribes that a portion of the payment from the MCP to the DPH system is in the form of capitation or some other APM, as described in Attachment R. Both partial and global capitation payments, as well as other accepted forms of risk sharing will be included in calculations to determine aggregate DPH systems progress toward the established thresholds to capture all models of APM utilized. Accepted forms of APM would be classified into four tiers of payment: 1) partial (primary care only); 2) partial-plus (primary care and some specialty care (varies)); 3) global (primary, specialty, ancillary and/or hospital care); and 4) any additional

payment methodologies approved by the state and by CMS as set forth in Attachment R.

C. Divide the result of B by A to determine the percentage met.

- b. Definition of “alternative payment model:” An APM should include the following features:
- i. A defined patient population the DPH system is accountable for, defined through assignment either by DHCS or by a managed care plan.
 - ii. A set of quality accountability metrics that are aligned with the contracted MCPs quality accountability and clinical outcome metrics, but with adjustments to reflect the socioeconomic and demographic characteristics of the populations served by PRIME entities where possible.
 - iii. Some contractual level of risk for cost of care. This accountability does not need to be full risk capitation, but must include a form of risk sharing, incentives or shared savings for reduced cost
 - iv. Models that lack one or more of these three features will not qualify as an APM.
 - v. The above APM targets are intended to inform CMS and DHCS in their oversight function as to the level of success the DPH systems have had in facilitating the adoption of robust APMs for Medi-Cal. DPH systems will be required to commit to contracting with at least one Medi-Cal MCP in the MCP service area that they operate using APM methodologies as part of their PRIME Project Plan by January 1, 2018. If a DPH system is unable to meet this requirement and can demonstrate that it has made a good faith effort to contract with an MCP in the service area that it operates in and a gap in contract period occurs, DHCS has discretion to waive this requirement.

74. Eligible Participating PRIME Entities. DPH systems (which include their affiliated governmental providers and contracted governmental and non-governmental entities where applicable) and DMPHs, that are identified in Attachment D are eligible to receive PRIME incentive payments, subject to each DPH system or DMPH submitting a completed 5-year PRIME Project Plan. Multiple DPH systems operating under common government ownership may be considered a single participating PRIME entity, or may submit separate applications and be treated as separate participating PRIME entities. Multiple DMPHs operating under common government ownership may submit separate applications or a single application, however, a lead DMPH must be identified. Incentive funds shall be disbursed solely to eligible DPH systems or DMPHs. A specified amount of incentive funding will be available annually to each participating PRIME entity based on the metrics approved for that entity or, to the extent that the entity is participating as a DMPH, the metrics approved for the associated DMPHs under common government ownership. The actual receipt of funds will be conditioned on reporting by the entity of progress towards and achievement of the specified metrics approved for the defined population of beneficiaries. Aside from early stage process metrics, awards in later years will be based on per beneficiary measures of improvement. Additional criteria for participation shall be outlined in Attachment II.

a. *Designated Public Hospitals (DPHs).* Twenty-two DPHs operate 17 health and

hospital systems, with one system comprised of four hospitals in Los Angeles County and another system comprised of three hospitals in Alameda County. DPHs are located in mostly urban areas in Northern, Central and Southern California. These hospitals range in size from approximately 160 to 600 beds. DPHs are similar in that they are academic teaching centers providing a broad range of inpatient and outpatient services including specialty care. More than 50 percent of patients served across these health and hospital systems are Medi-Cal beneficiaries or uninsured. DPHs provide 30 percent of all hospital-based care to the Medi-Cal population in the state and operate more than half of the state's trauma centers and more than two-thirds of its burn centers.

- b. *District/Municipal Hospitals (DMPHs)*. There are 39 DMPHs spanning 19 counties across California. DMPHs are heterogeneous, varying significantly in size (from approximately 3 to 500 beds) and in the range of services provided. Many of these hospitals serve rural and semi-rural populations. Approximately 21 percent of patients served at DMPHs are Medi-Cal or uninsured and more than a third of the DMPHs provide over 30 percent of their care to low-income Californians, with some facilities treating as many as 50 percent low-income Californians. DMPHs provide 4 percent of the hospital-based care to the Medi-Cal and uninsured populations in California and 20 percent of the care provided to these populations in rural California.

75. State and Participating PRIME Entity Accountability. Overall PRIME project funding is available up to the amounts specified in Attachment II (PRIME Funding and Mechanics Protocol). PRIME funding is available to participating PRIME entities whose project plans are approved and funded through the process described in these STCs and who meet particular metrics' targets described in their approved PRIME project plans. Such funding is subject to the participating PRIME entities meeting ongoing metrics' targets established pursuant to the PRIME projects and Metrics Protocol (Attachment Q), metrics as described in the STCs and PRIME Funding and Mechanics Protocol (Attachment II). In addition, individual participating PRIME entity achievement of metrics as set forth in the approved PRIME Project Plan must be achieved and maintained for full access to the funding level as specified in the STCs.

- a. The state must achieve APM targets to avoid reductions to PRIME funding. If the state fails to meet the specified APM targets in any given year, the amount of the potential reduction is set as follows:
 - 1) Based on the methodology measuring aggregate adoption of APM described in STC 72, the DPH system portion of the PRIME pool will have 5 percent of the yearly allocated pool amount at risk in DY14, and 5 percent at risk in DY15.
 - 2) Each year's potential reduction will consist of two portions. First, 2.5 percent of the pool amount will be contingent on aggregate adoption of the DY14 and DY15 goals of 55 percent and 60 percent APM adoption, respectively. The other 2.5 percent of the penalty would occur if providers fail to meet the aggregate 55 percent or 60 percent thresholds, and fail to meet a lesser aggregate

APM adoption rate of 45 percent and 50 percent for DY14 and DY15.

The state may choose how to allocate reductions in the PRIME pool to providers, whether uniformly, with more of the reduction targeted to providers that substantially fail to meet targets, or another methodology if desired.

- b. Individual projects are awarded based on the merit of the proposal itself, its support of the overall PRIME goals, and the projected breadth and depth of the impact on Medicaid beneficiaries. Public transparency, a process that allows for community input, including two public meetings, will be part of the state application and review process.

76. Application Process. Five-year PRIME Project Plan. DPH systems must include projects from all three domains and contain the specific elements as required under PRIME Projects and Metrics Protocol. DMPHs, given their different demographics, including their size and location, are only required to include a project from a single domain; DMPHs may include additional projects in their application. DMPHs may also submit a joint application across DMPHs reflecting a coordinated effort to implement a domain.

- a. DHCS will review all 5-year PRIME project plans for final approval according to the following timeline:
 - i. By February 1, 2016, or 30 days after approval of PRIME protocols (whichever is later) each applicant will submit a 5-year PRIME Project plan to DHCS for review. DPH systems will be required to address Domains 1, 2, and 3, and DMPHs will be required to address one domain at a minimum.
 - ii. By March 15, 2016, or 45 days, whichever is later, after the submission of the 5-year PRIME project plans, DHCS will complete its review of the 5-year PRIME Project Plan, and will respond to the applicant in writing with any questions, concerns or problems identified.
 - iii. The participating PRIME entity will respond to any of DHCS' questions and concerns in writing within 3 business days of notification by DHCS.
 - iv. By April 1, 2016, or 60 days, whichever is later, following the submission of the 5-year PRIME project plans, DHCS will take action on the PRIME Project Plan and will approve or disapprove each plan.

77. PRIME Protocols. Specific standards, measures and evaluation guidelines are described in protocols. Specifically, the protocols are described in Attachments II, Q, and S (PRIME Funding and Mechanics Protocol, PRIME Projects and Metrics Protocol, PRIME Evaluation and Monitoring), which accomplish the following:

- a. Detail requirements regarding project metrics (PRIME Projects and Metrics Protocol);
- b. Identify metrics, measurement of the metrics, and a target setting methodology (PRIME Projects and Metrics Protocol);
- c. Provide parameters for establishing the allocation of incentive funding among participating PRIME entities, which may consider size of the facilities, scope of

- d. Finalize payment mechanisms and disbursement of pool funds (PRIME Funding and Mechanics Protocol);
- e. Finalize a State review process that will assure action on the Five-year PRIME Project Plan within 60 days of submission from the participating PRIME entity;
- f. Detail a Five-year PRIME Project Plan modification process (PRIME Projects and Metrics Protocol);
- g. Finalize requirements for reporting (PRIME Funding and Mechanics Protocol);
- h. Describe evaluation requirements for the program (PRIME Evaluation and Monitoring)

78. PRIME Program Objectives and Metrics. Progress towards achieving the goals specified above will be assessed by specific metrics for each project, which are further defined in the PRIME Projects and Metrics Protocol. Metric achievement will be based on documenting achievement on a set of pre-defined metrics through a method that can be audited. These metrics are organized into the following categories:

- a. PRIME Program Objectives: The PRIME projects will be designed in ways that promote health systems participating PRIME entities assuming responsibility for the overall health needs of a population of the Medi-Cal beneficiaries and the low income individuals that they serve, and not simply responding to the patients that arrive at the doors of a hospital. DHCS will approve a defined population for each PRIME project, as described in PRIME Program Funding and Mechanics Protocol.
- b. Integration Across Settings: The PRIME will further the transformation of patient care systems to create strong links between different settings in which care is provided, including inpatient and outpatient settings, institutional and community based settings, and importantly behavioral and physical health providers. The PRIME will support coordination and the provision of care for patients across the spectrum of settings in order to promote health and better outcomes, particularly for populations at risk. The PRIME projects Pool will fund projects that include new and expanded care coordination programs, other evidence based, data driven interventions and programs focused on key health and cost drivers.

PRIME program metrics will reflect this ongoing transformation, creating better alignment between providers and rewarding providers for improved outcomes.

- c. Transition to APM: The transition to APM models in which both partial and global capitation payments and other approved APMS would be included in calculations to determine overall DPH achievement of the established thresholds to capture all models of APM utilized.
- d. PRIME Project Metrics: All participating PRIME entities will produce an interim mid-year and final year report on metric progress specific to the participating PRIME entity's project and its PRIME defined population. Payment for performance on all PRIME metrics will be based on an objective demonstration of improvement over a baseline, using a valid, standardized method. PRIME participating entities that already demonstrate high

performance on project metrics at baseline, must select alternative projects (as defined in PRIME Projects and Metrics Protocol but within the same domain so to fulfill minimum project requirements, if all projects from the domain are not already included under the PRIME Project Plan. Improvement targets will be based on state or national performance benchmarks, whenever available, but with adjustments to reflect the socioeconomic and demographic characteristics of the populations served by PRIME entities where possible.

- e. Standard Metrics: These metrics include both System Transformation and Health and Health Care Improvement metrics, and are national and state vetted metrics. The majority of metrics in this category are National Quality Forum (NQF) endorsed. The remaining have an established measure steward, such as National Committee for Quality Assurance (NCQA) or CMS, who have used rigorous metric vetting processes to establish use of the metrics for performance measurement and financial accountability of performance.
- f. System Transformation Metrics: As detailed in the PRIME Projects and Metrics Protocol, these metrics reflect the processes and infrastructure necessary to build and strengthen high quality, integrated, patient centered delivery systems, including outcomes that reflect overall improvement in systems of care, care coordination, care integration and patient experience.
- g. Health and Health Care Outcome Metrics: As described further in PRIME Projects and Metrics Protocol, these are metrics that reflect improved quality of care, as well as the resulting improved clinical outcomes for each participating entity's PRIME defined population. These metrics will also measure each participating PRIME entity's success in reducing avoidable emergency department and hospital use by its defined population.
- h. Innovative Metrics: As with the Standard Metrics referenced above, this category includes System Transformation Metrics, and Health and Health Care Outcome Metrics. While representing a much smaller proportion of the total PRIME metrics than the Standard Metrics, this category enables participating PRIME entities to demonstrate the transformation of health care towards coordinated, team based, patient centered care, in a manner not afforded by many of the Standard Metrics. As with the Standard Metrics, each PRIME Innovative metric will have only one definition and measure specification across the entire PRIME program. Beginning as reporting only, these metrics will be guided by its PRIME participating entity measure steward and a PRIME Metric Technical Advisory Committee, through a rigorous evaluation and testing process to be developed by DHCS as described in the PRIME Projects and Metrics Protocol. Once through that process, participating PRIME entities will be responsible for improving performance on these metrics. Final approval of all innovative metrics is determined by DHCS, but the final metrics must be provided to CMS for comment before approval.

79. State Supporting Infrastructure. DHCS will provide a state-level infrastructure to support the PRIME. The state-level infrastructure will be implemented incrementally over the five-years of the Demonstration. The state-level infrastructure will include:

- a. Information and Data Sharing. Achieving care integration across Medi-Cal delivery systems is a priority for the state. In particular, since managed care has become the

predominant delivery mode serving 90 percent of all full-scope Medi-Cal members, data linkages and care coordination among MCPs and other partners such as participating PRIME entities is critical. As such, DPHs will be required to strengthen data and information sharing with MCPs under the PRIME. To support this requirement, DHCS will establish data and information sharing guidelines and/or mechanisms, consistent with applicable state and federal data privacy and security law, to provide for timely sharing of beneficiary data, assessment, and treatment information, for purposes of identifying and treating the beneficiary for PRIME and WPC.

b. Medi-Cal Managed Care Health Plans (MCPs). The state must also ensure that its managed care delivery system recognizes and encourages positive system transformation.

The state will develop a draft MCP and DPH APM Activities Plan, consistent with APMs as defined under these STCs and in Attachment R, by January 1, 2017. The document will outline activities that the state will engage in to support MCPs and DPHs in the adoption of APMs, establishing methods for the state to achieve the APM targets as set forth under these STCs. DHCS will share the draft MCP and DPH APM Activities Plan with MCPs, DPHs, and other stakeholders for public comment and feedback. In addition, the state will convene a minimum of one meeting with MCPs and DPHs annually to discuss movement toward use of APMs, share best practices, and discuss successes, challenges and barriers.

DHCS will include in its full-scope managed care contracts language that allows for the implementation of APMs. This language will be required to be included in any participating network provider contract where quality improvement work has been delegated. The language will clarify that APM payments to DPHs are funded through the capitation payments made to MCPs (without separate PRIME funding). MCPs will be required to require DPHs, as a component of an agreement for capitation or other risk-sharing payments, to utilize PRIME projects, goals, and objectives, to assist the MCP in meeting its DHCS required quality metric thresholds; reporting on metrics and performance to the MCP will also be required. DHCS will issue a policy letter that encourages MCPs to adopt APM payment structures for DPHs and other participating network providers, and which provides guidance on the various APM structures that may be implemented including the four tiers as set forth in the PRIME STCs. DHCS will convene meetings with its MCPs to discuss information relating to APMs and promote the sharing of best practices amongst MCPs.

80. **PRIME Transparency.** During the 60 day application/state review process for the PRIME applications, DHCS must have conducted at least two public meetings regarding the state's PRIME Project Plan application approval. The state must utilize teleconferencing or web capabilities to ensure statewide accessibility. The two public meetings must be held on separate dates and must afford the public an opportunity to provide comments.
81. **Administrative Record.** CMS will maintain, and publish on its public Web site, an administrative record that may include, but is not limited to the following:
 - a. The PRIME application from the participating PRIME entities.
 - b. Written public comments sent to the CMS and any CMS responses.

- 82. Submission of Draft Evaluation Design.** The state shall submit a draft PRIME evaluation design to CMS no later than 180 days after the PRIME protocols are approved, including, but not limited to data that the state proposes to be used to evaluate PRIME. The state must employ meaningful state-level standards that align with its managed care approach.
- 83. Submission of Final Evaluation Design.** The state shall provide the Final Evaluation Design within 60 days of receipt of CMS comments of the Draft Evaluation Design. If CMS finds that the Final Evaluation Design adequately accommodates its comments, then CMS will approve the Final Evaluation Design and the final evaluation plan will be included as Attachment S.
- 84. Evaluation Requirements.** The state shall engage the public in the development of its evaluation design. The evaluation design shall incorporate an interim and summative evaluation and will discuss the following requirements as they pertain to each:
- a. The scientific rigor of the analysis;
 - b. A discussion of the goals, objectives and specific hypotheses that are to be evaluated;
 - c. Specific performance and outcomes measures used to evaluate PRIME’s impact;
 - d. How the analysis will support a determination of improved health outcomes and system transformation including better care, better quality, and enhanced value;
 - e. An initial assessment of the collection of REAL (Racial, Ethnicity and Preferred Language) data, and documented efforts to provide culturally competent care and address social determinants of health;
 - f. Data analytic strategy including sources of data, sampling methodology, and how data will be obtained;
 - g. The unique contributions and interactions of other initiatives; and
 - h. How the evaluation and reporting will develop and be maintained.
 - i. The demonstration evaluation will meet the prevailing standards of scientific and academic rigor, as appropriate and feasible for each aspect of the evaluation, including standards for the evaluation design, conduct, and interpretation and reporting of findings.
 - j. The demonstration evaluation will use the best available data; use controls (when available and appropriate for the evaluation design) and adjustments for and reporting of the limitations of data and their effects on results; and discuss the generalizability of results.
 - k. The state shall contract with an independent entity to conduct the evaluation. The evaluation design shall discuss the state’s process for obtaining an independent entity to conduct the evaluation, including a description of the qualifications the entity must possess, how the state will assure no conflict of interest, and a budget for evaluation activities.
- 85. Evaluation Design.** The Evaluation Design shall include the following core components to be approved by CMS:
- a. Specific aims and hypotheses: This includes a statement of the specific research questions and testable hypotheses that address the goals of the demonstration, including:
 - b. Safety net system transformation at the system and state level;
 - c. Accountability for and improvements in health outcomes and other health

- measures at the system and state level; and
- d. Efforts to ensure sustainability of transformation of/in the managed care environment.

The research evaluation questions will be examined using appropriate comparisons. The state and CMS agree that a robust evaluation of PRIME is desired in order to, to the greatest extent possible, determine the causal impacts of PRIME. The state and CMS will work to identify available data sources in order to allow for this type of evaluation, including data sources that would provide the ability to use control and comparison groups, where available, as well as before-and-after studies. The design will include a description of the quantitative and qualitative study design including a rationale for the design selected. The discussion will include a proposed baseline and approach to comparison. The discussion will include approach to benchmarking, and should consider applicability of national and state standards. The application of sensitivity analyses as appropriate shall be considered.

- e. Performance Measures: This includes identification, for each hypothesis, of quantitative and/or qualitative process and/or outcome measures that adequately assess the effectiveness of the Demonstration in terms of cost or cost avoidance impact, change in delivery of care from inpatient to outpatient, quality improvement, and transformation of incentive arrangements. Nationally recognized measures should be used where appropriate. Measures will be clearly stated and described, with the numerator and denominator clearly defined. To the extent possible, the state will incorporate comparisons to national data and/or measure sets. A broad set of metrics will be selected. To the extent possible, metrics will be pulled from nationally recognized metrics such as from the NQF, Center for Medicare and Medicaid Innovation (CMMI), meaningful use under Health Information Technology (HIT), and the Medicaid Core Adult sets, for which there is sufficient experience and baseline population data to make the metrics a meaningful evaluation of the California Medicaid system.
- f. Data Collection: This discussion shall include: A description of the data sources; the frequency and timing of data collection; and the method of data collection. The following shall be considered and included as appropriate:
 - i. Medicaid encounter and claims data in TMSIS,
 - ii. Enrollment data,
 - iii. EHR data, where available
 - iv. Semiannual financial and other reporting data
 - v. Managed care contracting data
 - vi. Consumer and provider surveys, and
 - vii. Other data needed to support performance measurement
- g. Assurances Needed to Obtain Data: The design report will discuss the state's arrangements to assure needed data to support the evaluation design are available
- h. Data Analysis: This includes a detailed discussion of the method of data evaluation, including appropriate statistical methods that will allow for the effects of the PRIME to be isolated, to the extent possible, from other initiatives occurring

in the state. The level of analysis may be at the beneficiary, provider, health plan and program level, as appropriate, and shall include population and intervention-specific stratifications, for further depth and to glean potential non-equivalent effects on different sub-groups. Sensitivity analyses shall be used when appropriate. Qualitative analysis methods shall also be described, if applicable.

- i. Timeline: This includes a timeline for evaluation-related metrics, including those related to procurement of an outside contractor, if applicable, and deliverables.
- j. Evaluator: This includes a discussion of the state's process for obtaining an independent entity to conduct the evaluation, including a description of the qualifications that the selected entity must possess; how the state will assure no conflict of interest, and a budget for evaluation activities.

86. Interim Evaluation Report. The state is required to submit a draft Interim Evaluation Report 90 days following completion of DY 14 of the demonstration. The Interim Evaluation Report shall include the same core components listed above and should be in accordance with the CMS approved evaluation design. CMS will provide comments within 60 days of receipt of the draft Interim Evaluation Report. The state shall submit the final Interim Evaluation Report within 60 days after receipt of CMS' comments.

87. Summative Evaluation Report. The Summative Evaluation Report will include analysis of data from DY 15. The state is required to submit a preliminary summative report in 180 days of the expiration of the demonstration including documentation of outstanding assessments due to data lags to complete the summative evaluation. Within 360 days of the end for DY 15, the state shall submit a draft of the final summative evaluation report to CMS. CMS will provide comments on the draft within 60 days of draft receipt. The state should respond to comments and submit the Final Summative Evaluation Report within 60 days.

The Final Summative Evaluation Report shall include the following core components:

- a. Executive Summary. This includes a concise summary of the goals of the Demonstration, the evaluation questions and hypotheses tested, and key findings, including whether, and to what extent, the evaluators find that PRIME has facilitated sustainable improvements to care outcomes and population health outcomes for Medi-Cal beneficiaries in their systems.
- b. Demonstration Description. This includes a description of the Demonstration programmatic goals and strategies, particularly how they relate to CMS and Medi-Cal 2020 goals.
- c. Study Design. This includes a discussion of the evaluation design employed including specific aims and hypotheses; type of study design; impacted populations; data sources; and data collection; analysis techniques, including methods to determine the causality and attribution of results to PRIME. In addition, limitations of the study will be reported.
- d. Discussion of Findings and Conclusions. This includes a summary of the key findings and outcomes, particularly a discussion of cost or cost avoidance impact, as well as implementation successes, challenges, and lessons learned.

- e. *Policy Implications.* This includes an interpretation of the conclusions; the impact of the demonstration within the public health care system; the state obligations for beneficiaries served by participating PRIME entities; the implications for state and federal health policy; and the potential for successful demonstration strategies to be replicated in other state Medicaid programs.
 - f. *Interactions with Other State Initiatives.* This includes a discussion of this demonstration within an overall Medicaid context and long range planning, and includes interrelations of the demonstration with other aspects of the state's Medicaid program, and interactions with other waivers and other federal awards affecting service delivery, health outcomes and the cost of care under Medicaid.
- 88. State Presentations for CMS.** The state will present to and participate in a discussion with CMS on the final design plan at post approval. The state will present on its interim evaluation report that is described to in STC 84 of this section. The state will present on its summative evaluation in conjunction with STC 85 of this section.
- 89. Public Access.** The state shall post the final approved Evaluation Design, Interim Evaluation Report, and Summative Evaluation Report on the State Medi-Cal website within 30 days of approval by CMS.
- 90. CMS Notification.** For a period of 24 months following CMS approval of the Summative Evaluation Report, CMS will be notified prior to the public release or presentation of these reports and related journal articles, by the state, contractor or any other third party entity contracted for the evaluation. Prior to release of these reports, articles and other documents, CMS will be provided a copy including press materials. CMS will be given 14 days to review and comment on journal articles related to the state's evaluation prior to submission for peer review. CMS may choose to decline some or all of these notifications and reviews.
- 91. Electronic Submission of Reports.** The state shall submit all required plans and reports using the process stipulated by CMS, if applicable.
- 92. Cooperation with Federal Evaluators.** Should CMS undertake an evaluation of the

demonstration or any component of the demonstration, or an evaluation that is isolating the effects of PRIME, the state and its evaluation contractor shall cooperate fully with CMS and its contractors. This includes, but is not limited to, submitting any required data to CMS or the contractor in a timely manner and at no cost to CMS or the contractor.

93. **Cooperation with Federal Learning Collaboration Efforts.** The state will cooperate with improvement and learning collaboration efforts by CMS.
94. **Evaluation Budget.** A budget for the evaluation shall be provided with the evaluation design. It will include the total estimated cost, as well as a breakdown of estimated staff, administrative and other costs for all aspects of the evaluation such as any survey and measurement development, quantitative and qualitative data collection and cleaning, analyses, and reports generation. A justification of the costs may be required by CMS if the estimates provided do not appear to sufficiently cover the costs of the design or if CMS finds that the design is not sufficiently developed.
- a. *Deferral for Failure to Provide Summative Evaluation Reports on Time.* If the state does not timely submit a final report, including all requested analyses and recommendations, the state's expenditure authority for the PRIME pool will be reduced by \$500,000. The state may seek, and CMS may grant, relief from this reduction, if needed.
95. **PRIME Implementation Monitoring.** The state must ensure that it is operating its PRIME program according to the requirements of the governing STCs. In order to demonstrate adequate implementation monitoring towards the completion of these requirements, the state will submit the following:
- a. A description of PRIME monitoring activities indicating how the state will monitor compliance with demonstration requirements in the implementation of this demonstration, including monitoring and performance reporting templates. The standard reporting mechanism is subject to review and approval by CMS.
96. **PRIME Monitoring Activities.** As part of the Attachment S, the state will submit its plan for how it will meet the PRIME internal monitoring requirements. The monitoring protocol should provide, at a minimum, the following information:
- a. The monitoring activities aligned with the PRIME deliverables as well as the CMS evaluation design to ensure that entities participating in the PRIME process are accountable for the necessary product and metrics and other deliverables for the PRIME.
- b. The state shall make the necessary arrangements to assure that the data needed from the participating PRIME entities including deliverables, measurement and reporting are available as required by the CMS approved monitoring protocol.
- c. The state shall identify areas within the state's internal PRIME process where corrective action, or assessment of fiscal or non-fiscal penalties may be imposed for the participating PRIME entities, should the state's internal PRIME process or any CMS monitoring process not be administered in accordance with state or federal guidelines.
- d. The monitoring protocol and reports shall be posted on the state Medi-Cal website within 30 days of submission to CMS.

- 97. PRIME Quarterly Progress Reports.** The state must submit progress reports in the format specified by CMS, no later than 60-days following the end of each quarter. The first PRIME quarterly reports will be due by June 1, 2016, or 60 days, whichever is later, after the end of the quarter first ending after approval of the STCs. The intent of these reports is to present the state’s analysis and the status of the various operational areas. These quarterly reports must include, but are not limited to the following reporting elements:
- a. Summary of all PRIME public engagement activities, including, but not limited to the activities required by CMS;
 - b. Summary of updates on state activities, such as changes to state policy and procedures; and
 - c. Evaluation activities and interim findings.
- 98. Annual Onsite with CMS.** In addition to regular monitoring calls, the state shall on an annual basis present to and participate in a discussion with CMS on implementation progress of the demonstration including progress toward the goals, and key challenges, achievements and lessons learned.
- 99. Rapid Cycle Assessments.** DHCS shall submit to CMS guidelines for use of rapid cycle quality improvement in PRIME projects, as appropriate
- 100. Demonstration Years.** For purposes of PRIME, demonstration years shall be as follows:

- DY 11 July 1, 2015 – June 30, 2016
- DY 12 July 1, 2016 – June 30, 2017
- DY 13 July 1, 2017 – June 30, 2018
- DY 14 July 1, 2018 – June 30, 2019
- DY 15 July 1, 2019 – June 30, 2020

PRIME Pool payments shall be based on a PRIME demonstration year that extends from July 1 through June 30 (“PRIME DY”). Payments can be earned and disbursed based on mid-year and year-end achievements.

- 101. Monitoring.** The state will be actively involved in ongoing monitoring of PRIME projects, including but not limited to the following activities.
- a. Review of metric target achievement. Two times per year, participating PRIME entities seeking payment under the PRIME program shall submit reports to the state demonstrating progress on each of their projects as measured by project-specific metrics and targets achieved during the reporting period. The reports shall be submitted using the standardized reporting mechanism approved by the state and CMS. Based on the reports, the state will calculate the incentive payments for the progress achieved according to the approved PRIME Project Plan, in accordance with the established criteria as set forth in Attachment II. The participating PRIME entities shall have available for review by the state or CMS, all supporting data and back-up documentation. These reports will serve as the basis for authorizing incentive payments to participating providers for achievement of PRIME metrics. The reports will be due in accordance with the

following:

- i. Interim Mid-Year Report: Reporting on metrics through December 31. The report and request for payment is due March 31, with payment occurring no later than April 30. For PRIME DY 11 only, the submission of the Five-year PRIME Project Plan will constitute the submission of the Interim Mid-Year Report.
- ii. Final Year- End Report: Reporting on metrics through June 30. The report and request for payment is due September 30, with payment occurring no later than October 31.
- iii. Notwithstanding the deadlines in i and ii, in the event of misreported or insufficient data, DHCS reporting and payment deadlines with respect to a participating PRIME entity may be extended by up to 60 days until its reports are adequately corrected for approval for payment. If the data is not fixed and payment is not made within that extended time frame, the participating provider will not receive any PRIME payment for the period in question.

Except with respect to the PRIME DY 11 Mid-Year Report, the reports must be submitted using the standardized reporting mechanism approved by CMS. DHCS must use this documentation in support of PRIME Pool payments made on the MBES/CBES 64.9 Waiver form. For PRIME DY11, approval of the Five-year PRIME project plans will be considered an appropriate metric and serve in-lieu of the mid-year report and will equal up to 25 percent of the PRIME DY 11 total annual amount for which a participating PRIME entity is eligible.

- b. Intergovernmental Transfers. Within 30 days of submission of the mid-year and final year-end report by participating PRIME entities, DHCS will issue requests to the entities for intergovernmental transfer amounts necessary for the nonfederal share of applicable incentive payments. DPH systems or DMPHs, or their affiliated public agencies, will make intergovernmental transfer of funds to DHCS in the amount specified within 7 days of receiving the DHCS request. Upon receipt of the intergovernmental transfers, DHCS will draw the federal funding and pay both the non-federal and federal shares of the payment to lead DPH systems or DMPHs as applicable. If the intergovernmental transfers are made within the requested timeframe, the incentive payment will be paid within 14 days after the transfers are made, but in no event shall payment be made later than the dates specified in a. above. In the event of misreported or insufficient data, DHCS will not be bound to the 30 day payment timeline with respect to a participating PRIME entity until its reports are adequately corrected for approval for payment, consistent with (a)(iii) above. In the event federal approval is not obtained, DHCS must return the IGT funds to the transferring entities within 14 days.
- c. Learning collaboratives. As part of this demonstration, the state will work in collaboration with participating PRIME entities to support regular learning

collaboratives, which will be a required activity for all participating PRIME entities, and may be organized by the goals of PRIME or by the specific PRIME projects as described in the PRIME Funding and Mechanics Protocol (Attachment II). Learning collaboratives are forums for participating PRIME entities to share best practices and get assistance with implementing their PRIME projects. Learning collaboratives should primarily be focused on learning (through exchange of ideas at the front lines) rather than teaching (i.e. large conferences), but the state should coordinate with participating PRIME entities to organize at least one face-to-face statewide collaborative meeting a year. Learning collaboratives should be supported by a web site to help participating PRIME entities share ideas and simple data over time (which should not need to be developed from scratch). In addition, the collaboratives should be supported by individuals with training in quality improvement who can answer practical questions about implementation and harvest good ideas and practices that they systematically spread to others.

- d. *Application, review, oversight, and monitoring database.* The state will ensure that there is a well maintained and structured database, containing all required elements of the PRIME project plans; including metrics, targets, valuation, and achievement; public comment on project plans; generations of reports, containing the required elements of PRIME reporting and payments and summaries of PRIME project plans submissions, scoring, approval/denial, milestone achievement, and payments that can be accessed by the public.

102. Financial Requirements applying to PRIME payments generally.

- a. Funding for DPH systems (total computable) shall not exceed \$6.531 billion over five years with the following annual limits:

- DY 11 - \$1.4 billion
- DY 12 - \$1.4 billion
- DY 13 - \$1.4 billion
- DY 14 - \$1.26 billion
- DY 15 - \$1.071 billion

- b. Funding for DMPHs (total computable) shall not exceed \$933 million over five years with the following annual limits:

- DY 11 - \$200 million
- DY 12 - \$200 million
- DY 13 - \$200 million
- DY 14 - \$180 million
- DY 15 - \$153 million

- c. A specified amount of incentive funding will be available semi-annually to each participating PRIME entity for each approved project based on its progress or achievement of the metric targets approved for the project. The actual receipt of funds will be conditioned on reporting by the entity of progress towards and

achievement of the specified targets to DHCS. Each participating PRIME entity will be individually responsible for progress towards and achievement of the targets for its projects within applicable domains in order to receive its potential incentive funding from the PRIME Sub-Pool, pursuant to the procedures specified in Attachment II (PRIME Funding and Mechanics Protocol). The inability of one participating PRIME entity to meet a specified target will not preclude another participating PRIME entity's receipt of incentive payment for achievement of a separate target.

- d. PRIME shall also include mechanisms that recognize the ability of a participating PRIME entity to earn a reduced incentive payment based on proportionate achievement that is at least 50 percent of a designated target as set forth in Attachment II (PRIME Funding and Mechanics Protocol).
- e. Notwithstanding the annual limits set forth in a. above, participating PRIME entities will have the opportunity to recapture unused or unclaimed PRIME pool payments as detailed in Attachment II (PRIME Funding and Mechanics Protocol).
- f. Incentive payments will be based on the incentive payment amounts that are specified in each participating PRIME entity's approved five-year PRIME Project Plan, and not to the specific costs or resources involved in implementing the specific projects.
- g. Incentive payment amounts will be phased down as necessary consistent with the overall PRIME phase down in DY 14 and DY 15.
- h. *PRIME Payments Are Not Direct Reimbursement for Expenditures or Payments for Services.* Payments from the PRIME Pool are intended to support and reward participating entities for improvements in the delivery system that support the simultaneous pursuit of improving the experience of care, improving the health of populations, and reducing per capita costs of health care, and are unrestricted revenue once disbursed. The payments are not direct reimbursement for expenditures incurred by participating entities in implementing reforms. The payments are not reimbursement for health care services that are recognized under these Special Terms and Conditions or under the State plan. PRIME incentive payments should not be considered patient care revenue and should not be offset against the certified public expenditures incurred by government-operated health care systems and their affiliated government entity providers for health care services, disproportionate share hospital payments or administrative activities as defined under these Special Terms and Conditions and/or under the State plan. The payments do not offset payment amounts otherwise payable to and by MCPs for Medi-Cal beneficiaries, or supplant provider payments from MCPs.

The non-federal share of payments under PRIME shall be funded by voluntary intergovernmental transfers made by the participating PRIME entities and/or

applicable governmental agencies. The funding entity shall certify that the funds transferred qualify for federal financial participation pursuant to 42 C.F.R. part 433 subpart B, and are not derived from impermissible sources such as recycled Medicaid payments, federal money excluded from use as State match, impermissible taxes, and non-bona fide provider-related donations. The State must have permissible sources for the non-federal share of PRIME expenditures, which may include permissible Intergovernmental Transfers (IGTs) from government-operated entities and state funds. Sources of non-federal funding shall not include provider taxes or donations impermissible under section 1903(w), impermissible intergovernmental transfers from providers, or federal funds received from federal programs other than Medicaid (unless expressly authorized by federal statute to be used for claiming purposes, and the federal Medicaid funding is credited to the other federal funding source). For this purpose, federal funds do not include PRIME payments, patient care revenue received as payment for services rendered under programs such as the Designated State Health Programs, Medicare, or Medicaid.

- i. The state must inform CMS of the funding of all PRIME payments to providers through a quarterly payment report to be submitted to CMS within 60 days after the end of each quarter, as required under STC 96 of this section. This report must identify the applicable transferring entities and transfer amounts associated with the quarterly payments made.
- j. The state will ensure that any lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of Medicaid services available under the state plan or this demonstration. The preceding sentence is not intended to preclude the state from modifying the Medicaid benefit through the state plan amendment process.
- k. The state may not claim FFP for PRIME Payments to a participating PRIME entity until the state have concluded that the participating PRIME entity has met the relevant performance indicated for the payment. Participating PRIME entity reports must contain sufficient data and documentation to allow the state and CMS to determine if the specified metric targets have been fully met, and participating PRIME entities must have available for review by the state or CMS, upon request, all supporting data and back-up documentation. FFP will be available only for payments pursuant to an approved PRIME Project Plan.
- l. Semi-annually, when the State makes PRIME Payments and claims FFP, appropriate supporting documentation will be made available for CMS to determine the appropriate amount of the payments. This documentation should be used to support claims made for FFP for PRIME Payments that are made on the CMS-64.9 Waiver forms.

It should be noted that federal funding for PRIME payments is limited in any phase of the demonstration period to the amounts set forth in this demonstration

authority, subject to all of the reductions that may be applied based on incomplete achievement of PRIME Plan metrics, even if the state expenditures for PRIME payments exceed the amount for which federal funding is available.

103. Finalize PRIME Protocols. Within the 60 days following the approval of the Demonstration, CMS and the State will, through a collaborative process, develop and finalize the PRIME Projects and Metrics Protocol (Attachment Q) and PRIME Program Funding and Mechanics Protocol (future Attachment II). The state may not accept a PRIME application until after CMS formally approval of these protocols.

104. Deliverables Schedule.

Due Date/Submission Date	Activity/Deliverable
December 31, 2015	CMS approves STCs
60 days post Demonstration approval	CMS and CA approve PRIME attachments
February 1, 2016 (or 30 days post approval of PRIME attachments, whichever is later)	State accepts PRIME project plan applications from eligible PRIME entities
45 days post submission of PRIME Project Plans	State will complete its review of the applications and issue questions, concerns or problems to the PRIME entity applicant
60 days post submission of PRIME Project Plans	State will take action of the PRIME Project applications to approve or disapprove
During the 60 day period between PRIME Project Plan Submission and State Approval/Disapproval	During the 60 day application/state review process for the PRIME applications, DHCS must have conducted at least two public meetings regarding the state's PRIME Project Plan application approval
June 1, 2016	State submits its first quarterly report
April and October (Twice a year)	State Distributes PRIME Project Plan incentive payments to PRIME participating entities
90 days following completion of demonstration Year 14	State submits Draft Interim Evaluation report
180 days after the expiration of the demonstration	State submits preliminary Summative Evaluation report
360 days after the expiration of the demonstration	State submits Draft Final Summative Evaluation report
Quarterly Deliverables – Quarterly Report (60 days after end of the quarter)	
1st Quarter- June 1st	
2nd Quarter- September 1st	
3rd Quarter- December 1st	
4th Quarter – March 3rd	

C. Dental Transformation Initiative

- 105. Special Terms and Conditions for Dental Transformation Initiative** Under the Medi-Cal program, dental services are provided to approximately 5.5 million child Medi-Cal beneficiaries ages twenty (20) and under. Services are provided via two (2) delivery systems – Fee-for-Service (FFS) and Dental Managed Care (DMC). The Department of Health Care Services (DHCS, Department) conducts oversight of the FFS contractor(s) and six (6) dental managed care contracts in the DMC system.

DHCS facilitates access to oral health services for the FFS and DMC delivery systems in multiple ways, including through telephone service centers and correspondence controls for beneficiaries and providers; conducting beneficiary and provider outreach and education; implementing strategies for monitoring and augmenting provider network adequacy and beneficiary utilization; and providing regular reports to the Legislature, stakeholders, and federal and State government entities. All data and measurement reporting associated with the Dental Transformation Initiative (DTI) will be based on an annual reporting period by Program Year (PY).

The Medi-Cal Dental program aims to improve the beneficiary's experience so individuals can consistently and easily access high quality dental services supportive of achieving and maintaining good oral health; to implement effective, efficient, and sustainable health care delivery systems; to maintain effective, open communication, and engagement with our stakeholders; and to hold DHCS and our providers, plans, and partners accountable for performance and health outcomes. The Department employs performance measures in both delivery systems to gauge the effectiveness of contractor and State efforts. To aid in this performance monitoring, the Department utilizes a public Medi-Cal dental dashboard populated with performance measures posted on the Department's website, regular system reports, and ad hoc queries to the various databases. Benchmarks and quality and access criteria for the DMC and FFS delivery systems are designed to provide programmatic goals and expectation levels for contractors. Additionally, there are contractual checks targeted at ensuring access to care for the beneficiaries, encouraging provider participation, and holding the contractor(s) responsible for being active and proactive participants in ensuring the delivery of medically necessary dental services to the Medi-Cal beneficiary population.

106. DTI PROGRAM and FUNDING OVERVIEW The DTI will be funded at a maximum of \$148 million annually, except as provided below, for five (5) years totaling a maximum of \$740 million (DTI Pool). To the extent any of the funds associated with the DTI are not fully expended in a given PY, those remaining prior PY funds may be available for DTI payments in subsequent years, notwithstanding the annual limits stated above. The program will include three (3) domains: preventive services, caries risk assessment and management, and continuity of care, in addition to making funding available for local pilots that address one (1) or more of these three (3) domains. Specific incentive payments within each domain will be furnished to qualified providers, along with messaging and education to providers and beneficiaries about programs and efforts in their local communities. The Department intends to allow DTI participation from providers in both the FFS and DMC delivery systems beginning in PY 1 and as outlined in these STCs. The Department will make DTI incentive payments directly to contracted service office locations that participate

in the FFS and/or DMC delivery systems that qualify for DTI incentive payments. The service office location is the business or pay-to address where services are rendered by the provider (which may be an individual, partnership, group, association, corporation, institution, or entity that provides dental services). Incentive payments shall be issued to the service office

location based on the services rendered at the location and compliance with the criteria enumerated in the STCs.

Incentive payments from the DTI Pool are intended to support and reward participating service office locations for achievements within one (1) or more of the project domains set forth herein. The incentive payments are not considered direct reimbursement for dental services under the State Plan. The non-federal share for DTI incentive payments shall be derived from expenditures associated with those Designated State Health Programs set forth in STC 31.

107. Domain 1: Increase Preventive Services Utilization for Children

In alignment with the CMS Oral Health Initiative, this program aims to increase the statewide proportion of children ages one (1) through twenty (20) enrolled in Medi-Cal who receive a preventive dental service in a given year. The Department's goal is to increase the utilization amongst children enrolled in the FFS and DMC dental delivery systems by at least ten (10) percentage points over a five (5) year period. The Department will commit to re-assessing the goal annually throughout the Demonstration period and increase said percentage, if appropriate, based on the success of the domain. For example, the 2014 rate for the state using the Form CMS-416 methodology was 37.84 percent of children. Thus, if this rate remained the same for the demonstration baseline year, the ten (10) percentage point improvement goal for this five (5) year demonstration would be to increase this rate to 47.84 percent of children statewide. DHCS will use the CMS 416 methodology for reporting purposes, but will pay out incentives using unrestricted eligibility criteria.

DHCS will offer payments as financial incentives for dental service office locations to increase delivery of preventive oral care to Medi-Cal children, and to maintain preventive oral care for children who previously received that service. As of September 2015, there are 5,370 service office locations across California that participate in the Medi-Cal Dental Program. DHCS will stage a messaging campaign to explain the new incentive program to the provider community and to generate interest among beneficiaries. DHCS will leverage existing contract provisions specific to provider and beneficiary outreach to operationalize the commitments of these STCs.

- a. Program Criteria. The incentive program will provide semi-annual incentive payments to dental provider service office locations that provide preventive services to an increased number of Medi-Cal children, as determined by the Department. Eligible providers will receive payments based on them achieving an increased number of Medi-Cal children who received eligible preventive dental services, as compared to a baseline pre-determined by the Department. Providers who render preventive services to a number of children that meets or exceeds a Department pre-determined number of beneficiaries, by county, would qualify for the incentive payment. Further, the program will also disburse incentive payments to providers

who were not previously participating in Medi-Cal and rendering preventive services, but who do so during the demonstration, on the condition that they meet or exceed the provision of services based on the Department pre-determined number of beneficiaries, by county, needed to be served to achieve the goal. Safety net clinics would also be eligible for these incentives and would be supplied with incentive payments separate and apart from their Prospective Payment System (PPS) or Memorandum of Agreement (MOA) rates for Federally Qualified Health Centers/Rural Health Centers and Tribal Health Centers, respectively. Each safety net clinic office location would be considered a dental service office location for purposes of this domain.

The Department will determine the number of additional beneficiaries to be served in order to achieve the goal of ten (10) percentage point utilization increase statewide. That number will be distributed across counties based the county's proportional expected contribution to the statewide utilization increase. For example, if the number of child Medi-Cal beneficiaries in County A account for thirty (30) percent of the statewide Medi-Cal children population, and 100 users are necessary to increase the statewide utilization by ten (10) percentage points, then County A service office locations will need to serve an additional thirty (30) beneficiaries. If County A needs to serve thirty (30) additional beneficiaries and there are ten (10) service office locations enrolled in the program, that goal of thirty (30) additional users would then be equitably distributed across the number of service office locations in the county; therefore, each service office location in County A would need to see three (3) additional users to qualify for the incentive payment. The same Departmental-established per service office location goal, by county, would apply to both current and newly enrolled providers.

Each service office location will receive credit towards meeting or exceeding the Department pre-determined goal for every child to which they provide a preventive service within frequency limitations regardless of whether that child is a previously established patient of that service office location. However, service office locations will only be paid incentive payments on preventive services provided to those beneficiaries they provide services to once they have met the Department established goal.

- b. Responsibilities of Providers** Service office locations are expected to continue to follow claiming and billing guidelines of the Medi-Cal Dental Program and to adhere to requirements of this incentive program.
- c. Performance Metrics** The Department will calculate a baseline measure of the rate of children's utilization of preventive services statewide and for each county, within the Medi-Cal FFS and DMC dental delivery systems, with a goal of increasing the statewide utilization of preventive services for children by at least ten (10) percentage points over five (5) years. The Department will also calculate the number of service locations that are providing preventive services to an increased number of children. The baseline year will consist of data from the most recent complete year preceding implementation of the waiver. Beneficiary utilization and service office location participation will be reassessed on an annual basis thereafter.

The first metric that will be used for monitoring domain success is the percentage of beneficiaries who received any preventive dental service during the measurement period, which is calculated as follows:

- i. Numerator: Number of unduplicated children ages one (1) through twenty (20) enrolled in Medi-Cal for at least ninety (90) continuous days who received any Medi-Cal covered preventive dental service (D1000-D1999) in the measurement period.
- ii. Denominator: Number of unduplicated children ages one (1) through twenty (20) enrolled in Medi-Cal for at least ninety (90) continuous days during the measurement period.
- iii. The second metric that will be used is claims data to determine the number of service office locations in each county that are providing preventive dental services to children, compared to the number of these locations in the baseline year.
- iv. A third metric will track statewide the number and percentage change of Medicaid participating dentists providing preventive dental services to at least ten (10) Medicaid-enrolled children in the baseline year, and in each subsequent measurement year.

d. State Oversight, Monitoring, and Reporting

- i. Program Integrity: To ensure program integrity, the Department will perform annual assessments of service utilization, billing patterns and shifts in enrollment for anomalies that may be indicators of fraud, waste or abuse. The Department is required to ensure that all claims submitted for adjudication are handled in a timely manner. Any suspicious claim activity is tracked through the program's Surveillance Utilization Review System (SURS) to prevent fraud and abuse.
- ii. Monitoring Plan/Provisions: To measure the impact on the utilization of preventive services, there will be monitoring of actively participating service office locations and monitoring of preventive services utilization statewide and by county via claims utilization.
- iii. Reporting of Activity: The Department will be responsible for reporting on data and quality measures to CMS on an annual basis in the demonstration annual report. A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable PY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable PY. Content will include, but not be limited to:
 - i. A detailed description of how DHCS has operationalized this domain, including information about which entities (DHCS, MCOs, dental vendor, others) have responsibility for the components of this domain;
 - ii. The number of individual incentives paid, and the total amount expended, under this domain in the current PY;
 - iii. A plan (awareness plan) that describes (a) how the Department has generated awareness of the availability of incentives for providing preventive dental services to children, including steps taken to increase awareness of the DTI among dental as well as primary care providers, and (b) how the Department has generated awareness among enrollees of the availability of, the importance of, and how to access preventive dental services

for children. Specific approaches will break out for example, age groupings, rural and urban residents, or primary language and should be developed in conjunction with interested dental and children’s health stakeholders.

- iv. An annual analysis of whether the awareness plan has succeeded in generating the necessary utilization, by subgrouping, to meet the goals of this domain, and a description of changes to the awareness plan to address any identified deficiencies;
- v. Data describing the use of preventive dental services and, separately, other dental services, and expenditures on preventive dental services and, separately, other dental services;
- vi. A discussion of the extent to which the metrics described for this domain are proving to be useful in understanding the effectiveness of the activities undertaken in the domain;
- vii. An analysis of changes in cost per capita;
- viii. A descriptive analysis of any program integrity challenges generated by this domain and how those challenges have been, or will be, addressed; and
- ix. A descriptive analysis of the overall effectiveness of the activities in this domain in meeting the intended goals, any lessons learned, and any adjustments recommended.

e. Incentives DHCS may earn additional demonstration authority, up to a maximum of \$10 million, to be added to the DTI Pool for use in paying incentives to qualifying providers under DTI, by achieving higher performance improvement, as indicated in the below table:

PY	Target	\$1 million in additional demonstration authority for achieving:	\$2 million in additional demonstration authority for achieving:
1	+ two (2) percentage points over baseline year	Not Applicable	+ three (3) or more percentage points over baseline year
2	+ four (4) percentage points over baseline year	+5 or more percentage points over the baseline	+ six (6) or more percentage points over baseline year
3	+ six (6) percentage points over baseline year	+7.5 or more percentage points over the baseline	+ nine (9) or more percentage points over baseline year
4	+ eight (8) percentage points over baseline year	+10 or more percentage points over the baseline	+ twelve (12) or more percentage points over baseline year

5	+ ten (10) percentage points over baseline year	+12.5 or more percentage points over the baseline	+ fifteen (15) or more percentage points over baseline year
---	---	---	---

- f. Financing The incentive payment for preventive services will equate to a payment of approximately seventy-five (75) percent above the Schedule of Maximum Allowances (SMA) for all preventive services provided to the children above the Department pre-determined threshold for the number of beneficiaries served, subject to the annual funding limits contained herein and any annual limit applicable to this specific domain. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable PY, except as provided for in STC 105.
- g. Evaluation The results of this project will be used to determine if provider incentive payments are an effective method by which to encourage service office locations to provide preventive dental services to more Medi-Cal children and to what extent an incentive payment is an effective method for increasing Medi-Cal provider participation which could then impact better access to care for children.

108. Domain 2: Caries Risk Assessment and Disease Management Pilot

This four (4) year domain will only be available initially to dentists in pilot counties that elect and are approved by the Department to participate in the program. The Department will begin this effort as a pilot in select counties and will then seek to implement on a statewide basis if the pilot is determined to be successful and subject to the availability of funding under the DTI Pool. If successful, DHCS will consider expansion no sooner than nine (9) months following the end of PY 2. Through this effort, Medi-Cal dentists voluntarily participating in the domain will be eligible to receive incentive payments for performing pre-identified treatment plans for children based upon the beneficiary’s risk level as determined by the dentist via a caries risk assessment (CRA) which will include motivational interviewing and use of antimicrobials, as indicated. The pre-identified treatment plans will be generated by the Department, and will correspond to the varying degrees of caries risk — low, moderate, and high. Pilot counties will be identified and selected by the Department through an analysis of counties with a high percentage of restorative services, a low percentage of preventive services, and indication of likely participation by enrolled service office locations.

Dentists must first complete a CRA to determine the appropriate treatment plan for a child, and report the results of the CRA to DHCS on a claim. Once the risk level and the treatment plan have been determined, the beneficiary may be eligible for increased frequency limitations on prophylaxis, topical fluoride varnish, and exams.

The key elements of this model are to formally assess and manage caries risk, and to emphasize the provision of preventive services in lieu of more invasive and costly procedures.

- a. Program Criteria The incentive program will only be available for services performed on child beneficiary's age six (6) and under. The pre-identified treatment plans will be composed of the following procedures: CRA (which will globally include support for behavior change through motivational interviewing and nutritional counseling, and for disease management through use of antimicrobials, application of topical fluoride varnish, toothbrush prophylaxis, and exams will be permitted for children evaluated and determined to be a particular caries risk level with frequency limitations in a twelve (12) month period, as follows: "high risk" children will be authorized to visit their provider four (4) times; "moderate risk" children will be authorized to visit three (3) times; and "low risk" children two (2) times. Dentists will receive payment for completion of a CRA and the corresponding treatment plan within the designated time frame.
- b. Responsibilities of Providers Dentists participating in the domain must opt-in by completing a no-cost Department recognized training program (which could be developed in partnership with California Dental Association, as an example) and submitting verification documentation. Authorized training programs and acceptable documentation will be posted on the Medi-Cal Dental website. The Department will have an annual "open enrollment" for the domain in pilot counties and in additional counties when and if this domain is expanded beyond the pilot counties.
- c. Performance Metrics The following procedures will be incorporated in the Department-determined treatment plans for child beneficiaries: CRA (which will globally include behavior modification through motivational interviewing and nutritional counseling, as well as antimicrobials), application of topical fluoride varnish, toothbrush prophylaxis, and exams. Increased frequencies for toothbrush prophylaxis, fluoride varnish, and exams will be permitted for children evaluated and determined to be at a particular caries risk level with frequency limitations in a twelve (12) month period, as follows: "high risk" will be authorized to visit their provider four (4) times; "moderate risk" children will be authorized to visit three (3) times; and "low risk" children two (2) times.

The baseline year will consist of collecting data statewide for the most recent state fiscal year preceding implementation of the domain. The Department will collect data and report on the following performance measures, broken down by age ranges under one (1), one (1) through two (2), three (3) through four (4), and five (5) through six (6):

- i. Number of, and percentage change in, restorative services;
- ii. Number of, and percentage change in, preventive dental services;
- iii. Utilization of CRA CDT codes and reduction of caries risk levels (not

- available in the baseline year prior to the Waiver implementation);
- iv. Change in use of emergency rooms for dental related reasons among the targeted children for this domain (use of the ER for dental trauma will be excluded from this analysis if a claims-based methodology for doing so is identified); and
- v. Change in number and proportion of children receiving dental surgery under general anesthesia.

The Department will also track and report on, for children in age ranges under one (1), one (1) through two (2), three (3) through four (4), and five (5) through six (6), the utilization rates for restorative procedures against preventive services to determine if the domain has been effective in reducing the number of restorations being performed. Because preventive services do not yield immediate effects, the Department will be required to collect data on these performance measures at annual intervals for a number of years to determine correlation and statistical significance. The Department will inform CMS of the number of additional years this data will be collected and reported no later than the end of PY 1.

The Department will also track and report on the utilization of CRA and treatment plan service to monitor utilization and domain participation.

d. State Oversight, Monitoring, and Reporting

- i. Program Integrity: To ensure program integrity, the Department will perform annual assessments of service utilization, billing patterns and shifts in enrollment for anomalies that may be indicators of fraud, waste or abuse. The Department is required to ensure all claims submitted for adjudication are handled in a timely manner. Any suspicious claim activity is tracked through the program's SURS to prevent fraud and abuse.
- ii. Monitoring Plan/Provisions: To measure the impact on the utilization of CRA and management of childhood caries, there will be quarterly monitoring of actively participating service office locations and monitoring of CRA and treatment plans in each participating county.
- iii. Reporting of Activity: The Department will be responsible for reporting on data and quality measures to CMS on an annual basis in the demonstration annual report. A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable PY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable PY. Content will include, but not be limited to:
 - A. A detailed description of how DHCS has operationalized this domain, including information about which entities (DHCS, MCOs, dental vendor, others) have responsibility for the components of this domain;
 - B. The number of individual incentives paid and the total amount expended under this domain, by county, in the current DY;
 - C. A descriptive assessment of the impact of this domain on the targeted

children (broken out by age ranges under one (1), one (1) through two (2), three (3) through four (4), and five (5) through six (6)) for the following:

- 1) Provision of CRAs;
- 2) Provision of dental exams;
- 3) Use of preventive dental services;
- 4) Expenditures on preventive dental services;
- 5) Use of dental treatment services;
- 6) Expenditures on dental treatment services;
- 7) Use of dental-related general anesthesia; and
- 8) Expenditures on dental-related general anesthesia and facility costs.

- D. A discussion of the extent to which the metrics described for this domain are proving to be useful in understanding the effectiveness of the activities undertaken in the domain;
- E. An analysis of changes in cost per capita;
- F. A descriptive analysis of any program integrity challenges generated by this domain and how those challenges have been, or will be, addressed; and
- G. A descriptive analysis of the overall effectiveness of the activities in this domain in meeting the intended goals, any lessons learned, and any adjustments recommended.

- e. Financing Dentists participating in the domain will be authorized to perform an increased number of services per year in accordance with the pre-identified treatment plan options based upon caries risk level, and are eligible to receive an incentive payment under this program for each additional service not currently covered under the California State Plan and frequency limitations listed in the Manual of Criteria. Subject to the annual funding limits contained herein and any annual limit applicable to this specific domain, qualifying service office locations will receive an incentive payment for providing each of these additional services. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable PY, except as provided for in STC 105.
- f. Evaluation The results of this project will be used to determine if this provider incentive program is effective in encouraging providers to perform a CRA for the targeted population and to ensure completion of the appropriate treatment plan for the management of childhood caries, if the utilization of emergency room visits for dental issues among the targeted children declines, if expenditures of emergency room visits non-traumatic dental issues among targeted children declines, and if the utilization of and expenditures (including anesthesia and facility fees) for the targeted children receiving dental related general anesthesia declines.

109. Domain 3: Increase Continuity of Care

To encourage the continuity of care within the beneficiary population, an incentive payment

would be paid to service office locations who have maintained continuity of care through providing examinations for their enrolled child beneficiaries, age twenty (20) and under over the course of this Waiver. The Department will begin this effort as a pilot in select counties and will then seek to implement on a statewide basis if the pilot is determined to be successful and subject to the availability of funding under the DTI Pool. If successful, DHCS will consider expansion no sooner than nine (9) months following the end of PY 2.

- a. Program Criteria This incentive program will be available to service office locations that provide examinations (D0120, D0150, or D0145) to an enrolled Medi-Cal child for two (2), three (3), four (4), five (5), and six (6) year continuous periods. The incentive will be a flat payment for providing continuity of care to the beneficiary. Incentive payments will be made annually.
- b. Responsibilities of Providers Service office locations are expected to continue to follow claim and billing guidelines of the Medi-Cal Dental Program and to adhere to requirements of this incentive program.
- c. Performance Metrics The baseline year will be based on data from the most recent complete state fiscal year. Using claims data, DHCS will determine the number of beneficiaries who have remained with their same service office location for two (2), three (3), four (4), five (5), and six (6) year continuous periods following the establishment of the baseline year throughout the demonstration period. The metric described above is calculated as follows:
 - i. Numerator: Number of children age twenty (20) and under who received an examination from the same service office location with no gap in service for two (2), three (3), four (4), five (5), and six (6) year continuous periods from the baseline.
 - ii. Denominator: Number of children age twenty (20) and under enrolled in the delivery system during the measurement periods.
 - iii. This measure is similar to the Dental Quality Alliance measure Usual Source of Services, with the exception that the Department would incent over a longer continuous period.
- d. State Oversight, Monitoring, and Reporting
 - i. Program Integrity: To ensure program integrity, the Department will perform annual assessments of service utilization, billing patterns, and shifts in enrollment for anomalies that may be indicators of fraud, waste or abuse. The Department is required to ensure all claims submitted for adjudication are handled in a timely manner. Any suspicious claim activity is tracked through the program's SURS to prevent fraud and abuse.
 - ii. Monitoring Plan/Provisions: To measure the impact on the continuity of care, there will be annual monitoring of the performance measure, usual source of care by service office location.
 - iii. Reporting of Activity: The Department will be responsible for reporting on data and quality measures to CMS on an annual basis in the demonstration annual report. A preliminary report will be delivered only to CMS for internal review six

(6) months following the end of the applicable PY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY. Content will include, but not be limited to:

- A. A detailed description of how DHCS has operationalized this domain, including information about which entities (DHCS, MCOs, dental vendor, others) have responsibility for the components of this domain;
 - B. The number of individual incentives paid and the total amount expended under this domain, by county, in the current DY;
 - C. A descriptive assessment of the impact of this domain on provision of the following to targeted children
 1. Dental exams;
 2. Use of and expenditures on preventive dental services; and
 3. Use of and expenditures on other dental services.
 - D. A discussion of the extent to which the metrics described for this domain are proving to be useful in understanding the effectiveness of the activities undertaken in the domain;
 - E. An analysis of change in cost per capita;
 - F. A descriptive analysis of any program integrity challenges generated by this domain and how those challenges have been, or will be, addressed; and
 - G. A descriptive analysis of the overall effectiveness of the activities in this domain in meeting the intended goals, any lessons learned, and any adjustments recommended.
- e. Financing Subject to the annual funding limits contained herein and any annual limit applicable to this specific domain, incentive payment amounts will be made available in tiers based on the length of time a beneficiary maintains continuity of care with the same service office location. Tier one (1) payments will be provided on a per-child basis for beneficiaries who receive at least two (2) examinations from the same service office location for two (2) consecutive years. In each subsequent year, the dollar amount of the incentive payment for an exam of the same child within that period would be increased. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable PY, except as provided for in STC 105.
- f. Evaluation The results of this project will be used to determine if incentive payments are effective in promoting continuity of care for the targeted children under this domain.

110. Local Dental Pilot Program

Local dental pilot projects (LDPPs) will address one (1) or more of the three (3) domains through alternative programs, potentially using strategies focused on rural areas including local case management initiatives and education partnerships. DHCS will require local pilots to have broad-based provider and community support and collaboration including Tribes and Indian health programs, with incentives related to goals and metrics that contribute to the overall goals of the Department in any of the domains specified above. DHCS will solicit proposals once at the beginning of the demonstration and shall review,

approve, and make payments for LDPPs in accordance with the requirements outlined in Attachment JJ; a maximum of fifteen (15) LDPPs shall be approved. DHCS will work in collaboration with the CMS in the development of evaluation criteria for the LDPPs.

The Department will begin this effort as pilots in select counties and will then, subject to the availability of funding under the DTI Pool, seek to implement on a statewide basis any pilot that is determined to be successful. DHCS will evaluate the pilots and consider expansion no sooner than nine (9) months following the end of PY 2.

- a. Program Criteria. DHCS intends to review, approve, and make incentive payments available to pilots that target an identified population of Medi-Cal eligible child beneficiaries in accordance with the requirements established jointly by the Department and CMS and deemed appropriate to fulfill specific strategies linked to one (1) or more of the domains delineated above. The specific strategies, target populations, payment methodologies, and participating entities shall be proposed by the entity submitting the application for participation and included in the submission to the Department. DHCS shall approve only those applications that meet the requirements to further the goals of one (1) or more of the three (3) dental domains. Each pilot application shall designate a responsible county, Tribe, Indian Health Program, UC or CSU campus as the entity that will coordinate the pilot. DHCS reserves the right to suspend or terminate a pilot at any time if the enumerated goals are not met. The application process is outlined in Attachment JJ.
- b. Responsibility of Providers. The responsibility of the providers would be contingent upon the design of the pilot program being proposed as outlined in Attachment JJ.
- c. Performance Metrics. Performance metrics for each pilot shall mirror the metrics delineated in this STC document.
- d. State Oversight, Monitoring, and Reporting
 - i. The Department shall designate someone within the Department as the person with primary responsibility for oversight of the pilots.
 - ii. The Department shall routinely monitor the progress made by the responsible county of the accepted dental pilot proposal.
 - iii. Reporting requirements shall be delineated in the submitted proposals.
 - iv. The Department will ensure that the terms of the proposal are abided by. The Department will be responsible for reporting on the pilots to CMS on an annual basis in the demonstration annual report.
 - v. A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable DY.
 - vi. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY. Content will include, but not be limited to:
 - A. A detailed description of how DHCS has operationalized this aspect of the demonstration, including the solicitation and selection process;
 - B. The number of pilot projects funded and the total amount expended

under this domain in the current DY;

- C. A description of the pilot projects selected for award; including but not limited to their specific strategies, target populations, payment methodologies, annual budget, and expected duration, the performance metrics with which they will be measured; as well as the goals they intend to achieve;
 - D. An assessment of the pilot projects selected for award, including their performance and outcomes, replicability, any challenges encountered, actions undertaken to address those challenges, as well as information on payments made to each pilot project by the Department;
 - E. A descriptive assessment of the impact of this aspect of the demonstration on achieving the goals in domains one (1) through three (3); and
 - F. A descriptive analysis of any program integrity challenges generated by this aspect of the demonstration, and how those challenges have been, or will be, addressed.
- e. Financing. DHCS will issue payments to pilot providers only on the basis of an approved application pursuant to (a) above. No single pilot may receive more than twenty-five (25) percent of the annual funding amounts listed in STC 105. The incentive funding available for payments will not exceed the amount apportioned from the DTI pool to this domain for the applicable PY, except as provided for in STC 105.
- f. Evaluation Local dental pilot projects will be evaluated consistent with the performance metrics of the aforementioned dental domains and the goals outlined in the individual proposals. DHCS reserves the right to suspend or terminate a pilot at any time if the enumerated goals are not met.

D. Whole Person Care Pilots

- 111. Whole Person Care Pilots.** The overarching goal of the Whole Person Care (WPC) Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots will provide an option to a county, a city and county, a health or hospital authority, or a consortium of any of the above entities serving a county or region consisting of more than one county, or a health authority, to receive support to integrate care for a particularly vulnerable group of Medi-Cal beneficiaries who have been identified as high users of multiple systems and continue to have poor health outcomes. Through collaborative leadership and systematic coordination among public and private entities, WPC Pilot entities will identify target populations, share data between systems, coordinate care real time, and evaluate individual and population progress – all with the goal of providing comprehensive coordinated care for the beneficiary resulting in better health outcomes.

The investment in this localized effort will build and strengthen relationships, and improve collaboration among participating WPC Pilot entities. The results of these WPC Pilots will also provide learnings for potential future local efforts beyond the term of this

waiver. The specific strategies, target populations, payment methodologies, and participating entities shall be established by the entity submitting the application in consultation with participating entities. Each WPC Pilot is intended to be in operation from the date of approval through the end of the demonstration. Additional funds for existing WPC Pilots or new WPC Pilots may be approved by the state after the initial application period if additional funds are available. DHCS will issue guidance to WPC Pilot Lead Entities in the form of guidance and policy letters to implement the Pilot program and structure, as needed.

- 112. Whole Person Care Pilot Programs Target Population(s).** WPC Pilots shall identify high-risk, high-utilizing Medi-Cal beneficiaries in the geographic area that they serve and assess their unmet need. WPC Pilots must define their target populations and interventions to provide integrated services to high users of multiple systems. The target population shall be identified through a collaborative data approach to identify common patients who frequently access urgent and emergent services often times across multiple systems. Target populations may include but are not limited to individuals:
- a. with repeated incidents of avoidable emergency use, hospital admissions, or nursing facility placement;
 - b. with two or more chronic conditions;
 - c. with mental health and/or substance use disorders;
 - d. who are currently experiencing homelessness; and/or
 - e. individuals who are at risk of homelessness, including individuals who will experience homelessness upon release from institutions (hospital, sub-acute care facility, skilled nursing facility, rehabilitation facility, IMD, county jail, state prisons, or other)

Individuals who are not Medi-Cal beneficiaries may participate in approved WPC Pilots, but funding in support of services provided to such individuals is not eligible for Federal financial participation. These individuals shall only be included in the Pilot at the discretion of the WPC Pilot and as approved during the application process. The non-Federal funds expended providing services to individuals who are not Medi-Cal beneficiaries may exceed the funding limits described in STCs 125 and 126.

- 113. WPC Strategies.** WPC Pilots shall include specific strategies to:
- a. Increase integration among county agencies, health plans, and providers, and other entities within the participating county or counties that serve high-risk, high-utilizing beneficiaries and develop an infrastructure that will ensure local collaboration among the entities participating in the WPC Pilots over the long term;
 - b. Increase coordination and appropriate access to care for the most vulnerable Medi-Cal beneficiaries;
 - c. Reduce inappropriate emergency and inpatient utilization;
 - d. Improve data collection and sharing amongst local entities to support ongoing case management, monitoring, and strategic program improvements in a sustainable fashion;
 - e. Achieve targeted quality and administrative improvement benchmarks;
 - f. Increase access to housing and supportive services (optional); and
 - g. Improve health outcomes for the WPC population.

114. Whole Person Care Pilot Payments. Subject to the funding limits in STCs 125 and 126, DHCS shall review, approve, and make payments for WPC Pilots in accordance with the requirements in these WPC STCs. WPC Pilot payments shall be paid in accordance with STCs 125 and 126. WPC Pilot payments shall support 1) infrastructure to integrate services among local entities that serve the target population; 2) services not otherwise covered or directly reimbursed by Medi-Cal to improve care for the target population such as housing components; and 3) other strategies to improve integration, reduce unnecessary utilization of health care services, and improve health outcomes.

115. Housing and Supportive Services. WPC Pilots may target the focus of their Pilot on individuals at risk of or are experiencing homelessness who have a demonstrated medical need for housing or supportive services. In these instances, WPC Pilots would include local housing authorities, local Continuum of Care (CoCs) programs, community based organizations, and others serving the homeless population as entities collaborating and participating in the WPC Pilot. Housing interventions may include:

- a. Tenancy-based care management services. Tenancy-based care management supports to assist the target population in locating and maintaining medically necessary housing. These services may include individual housing transition services, such as individual outreach and assessments; individual housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching; and housing-related collaborative activities, such as services that support collaborative efforts across public agencies and the private sector that assist WPC entities in identifying and securing housing for the target population.
- b. County Housing Pools. WPC Pilot entities may include contributions to a county-wide housing pool (Housing Pool) that will directly provide needed support for medically necessary housing services, with the goal of improving access to housing and reducing churn in the Medicaid population. The Housing Pool may be funded through WPC Pilot funds or direct contributions from community entities. These services may include those identified in the June 26, 2015 CMCS Informational Bulletin, "Coverage of Housing-Related Activities and Services for Individuals with Disabilities". State or local government and community entity contributions to the Housing Pool are separate from Federal financial participation funds, and may be allocated to fund support for long-term housing, including rental housing subsidies. The Housing Pool may leverage local resources to increase access to subsidized housing units. The Housing Pool may also incorporate a financing component to reallocate or reinvest a portion of the savings from the reduced utilization of health care services into the Housing Pool. As applicable to an approved WPC Pilot, WPC investments in housing units or housing subsidies including any payment for room and board are not eligible for Federal financial participation. Room and board would not include those housing –related activities or services recognized as reimbursable under CMS policy.

116. Lead and Participating Entities. DHCS will accept applications for WPC Pilots from a county, a city and county, a health or hospital authority, or a consortium of any of the above entities serving a county or region consisting of more than one county. Each WPC Pilot application shall designate a “Lead Entity” that will be either a county agency, designated public hospital as identified in Attachment D or district municipal public hospital as identified in Attachment D that will coordinate the WPC Pilot and be the single point of contact for DHCS.

The WPC Pilot application shall identify other entities that shall participate in the WPC Pilot. Participating entities must include a minimum of one Medi-Cal managed care health plan (MCP) operating in the geographic area of the WPC Pilot to work in partnership with the Lead Entity when implementing the Pilot specific to Medi-Cal managed care beneficiaries. Participating entities shall also include both the health services and specialty mental health agencies or department, and at least one other public agency or departments, which may include county alcohol and substance use disorder programs, human services agencies, public health departments, criminal justice/probation entities, and housing authorities (regardless of how many of these fall under the same agency head within a county.) WPC Pilots must also include at least two other key community partners that have significant experience serving the target population within the participating county or counties geographic area such as physician groups, clinics, hospitals, and community-based organizations. If a Lead Entity cannot reach agreement with a required participant, it may request an exception to the requirement.

117. Whole Person Care Pilot Beneficiary Participation. Receipt of WPC Pilot services is voluntary and eligible beneficiaries must opt-in to the Pilot; they may also opt out at any time. Lead Entities may identify an enrollment cap for the Pilot during the application approval process. A Lead Entity must notify the State within 90 days prior to imposing an enrollment cap and obtain approval to do so. Lead Entities must develop wait lists when a cap is imposed.

118. WPC Pilot Application Process

- a. Timing. Lead Entities shall submit WPC Pilot applications to DHCS by May 15, 2016, or 45 days after DHCS issues the WPC Pilot Request for Application (RFA), whichever is later. Additional funds for existing WPC Pilots or applications for new WPC Pilots may be accepted by the state after the initial application period if additional funds are available. The state shall establish a process to consider additional funding and applications in consultation with CMS. All initial applicant requirements separate from timelines would remain applicable.
- b. Application Contents. WPC Pilot applications must include:
 - i. Identification of the WPC Pilot Lead Entity;
 - ii. Identification of participating entities including a description of each and the role in the WPC Pilot;
 - iii. A background description of the geographic area in which the WPC Pilot will operate and the need for the WPC Pilot;

- iv. A general description of the WPC Pilot, its structure, and how it will address the needs of the target population;
- v. A collaboration plan that describes how communication amongst participating entities and the Lead Entity will occur, how integration will be promoted and silos minimized, details about how decisions will be made in consultation with the WPC Pilot participating entities, and a schedule of regular meetings that will be convened;
- vi. A description of the methodology used to identify the target population(s), including data analyses and a needs assessment of the target population;
- vii. A description of services that will be available to beneficiaries under the WPC Pilot including medical, behavioral, social and non-medical services;
- viii. A description of how care coordination will be implemented administratively including what each participating entity will be responsible for and how they will link to other participating entities, as appropriate, to provide wrap around care coordination to the beneficiary;
- ix. Detail of the specific interventions, including how Plan-Do-Study-Act will be incorporated to modify and learn from the interventions during the WPC Pilot;
- x. A description of how data sharing will occur between the entities including what data will be shared with which entity and how infrastructure and sharing will evolve over the life of the demonstration;
- xi. A description of other strategies that will be implemented to achieve the goals of the WPC Pilot;
- xii. Performance measures for each type of participating entity and the WPC Pilot itself, including short-term process measures and ongoing outcome measures; these measures should be grouped by Demonstration Year and include an annual target benchmark;
- xiii. Transferring entity(ies) of the non-federal share for payments under the WPC Pilot;
- xiv. A plan for the Lead Entity to conduct ongoing monitoring of the WPC Pilot participating entities and make subsequent adjustments should any issues be identified. This should include a process to provide technical assistance, impose corrective action, and termination from the Pilot, if poor performance is identified and continues;
- xv. A plan for data collection, reporting, and analysis ongoing of the Pilot's interventions, strategies, and participant health outcomes letters of support from participating providers and other relevant stakeholders in the geographic area where the WPC Pilot will operate;
- xvi. Letters of participation agreement from WPC participating entities
- xvii. A financing structure including a description of WPC Pilot payments, how they will be distributed, and any financing or savings arrangements;
- xviii. A funding diagram illustrating the flow of requested funds from DHCS to the Lead Entity and participating entities;
- xix. A total requested annual dollar amount, which shall specify budgeted pre-set payment amounts for each element for which funding is proposed including: infrastructure, baseline data collection, interventions, and outcomes, such that a specific dollar amount is linked in each year to specific deliverables, e.g, the

performance of specific activities, interventions, supports and services, and/or outcomes. Budgets should not include costs for services reimbursable with Medi-Cal or other federal funding resources. Available funding in PYs 1 and 2 may be weighted more heavily towards infrastructure design, and baseline data collection, assessment and development activities;

- xx. A description of any requirement exceptions requested;
- xxi. An estimated number of beneficiaries to be served annually; and
- xxii. A proposed enrollment cap, if applicable.

c. DHCS & CMS Review Process DHCS will review all WPC Pilot applications according to the following guidelines and timeline:

- i. The selection criteria for WPC Pilot applications must be submitted for CMS approval before the state approves any applications. CMS shall approve or provide clarifying questions to DHCS in response to the submitted criteria within fifteen (15) business days of receipt.
- ii. DHCS shall approve applications that meet the requirements of these WPC STCs and that further the goals of the WPC Pilot.
- iii. By April 1, 2016, or within 90 days following CMS approval of WPC Pilot Requirements and Metrics Attachment MM, WPC Pilot Requirements and Application Process , Attachment HH, and WPC Reporting and Evaluation, Attachment GG, whichever is later, DHCS will publish via an RFA the application process, detailed timelines, and selection criteria. The criteria shall include sufficient detail to allow applicants to understand what makes a strong application.
- iv. DHCS shall review each application to verify that it conforms to the relevant requirements as described in Attachment HH (WPC Pilot Requirements and Application Process) and meet the selection criteria in the RFA. Within 60 days after submission of the application, DHCS will complete its review of the application, and will respond to the WPC Pilot Lead Entity in writing with any questions, concerns or problems identified. The Lead Entity will respond to DHCS' questions and concerns in writing within 5 business days.
- v. Within 30 days after submission of final responses to questions about the application, DHCS will take action on the application and promptly notify the applicant and CMS of that decision. No WPC Pilot shall be awarded more than 30 percent of the total funding available in a given year unless additional funds are available after all initial awards are made and approval is provided by DHCS through an application process.
- vi. Within 10 days of DHCS' notification to CMS of DHCS approval of WPC Pilot applications, CMS shall notify DHCS of any concerns or questions regarding final approval.

119. Lead Entity Agreement. The WPC Pilot Lead Entity shall enter into an agreement with DHCS which specifies general requirements of the WPC Pilot including a data sharing agreement.

- 120. Learning Collaboratives.** The WPC Pilot Lead Entity shall agree to help develop and participate in regular learning collaboratives to share best practices among Pilot entities. The state will provide CMS its plan for holding learning collaboratives, and give CMS the opportunity to comment.
- 121. Termination.** DHCS may suspend or terminate a WPC Pilot if corrective action has been imposed and persistent poor performance continues.
- a. The state must develop a termination procedure protocol for CMS comment.
 - b. The state must also include in its protocol the requirements and process by which the WPC Pilot Lead Entity will notify affected beneficiaries in the event a WPC Pilot is suspended or terminated, including the content of said notices.
- 122. Progress Reports.** The WPC Pilot shall submit mid-year and annual reports in a manner specified by DHCS. The WPC Pilot payments shall be contingent on timely submission of the mid-year and annual reports.
- 123. Universal and Variant Metrics.** DHCS will categorize Pilots, as appropriate, and will create a list of category-specific performance metrics that the WPC Pilot entities in each category must report mid-year and annually, with reporting to start no later than one year following Pilot implementation after completion of any start-up period. Metrics may be reported partially during the initial implementation period due to data lags. These metrics will allow DHCS to measure progress consistently across Pilots, and allow flexibility for reflecting the variety of strategies. These will be sent to CMS for approval before Pilot applications are accepted. WPC Pilots will report on additional metrics which may vary between Pilots. These metrics will be approved through the application process and will be specific to the structure of the Pilot and target population. Metrics will be described in Attachment GG.
- 124. Mid-Point and Final Evaluations.** Comprehensive mid-point and final evaluations will be conducted for WPC Pilot sites as described in Attachment GG. The mid-point evaluation will be due to DHCS one year prior to the expiration of the Demonstration, and the final evaluation will be due to DHCS no later than six months following the expiration of the Demonstration. The purpose of the evaluations will be to understand the extent to which the WPC Pilot interventions:
- a. Improve coordination across participating entities including data and information sharing;
 - b. Improve beneficiary health outcomes;
 - c. Reduce avoidable utilization of emergency and inpatient services (ED, hospital and psychiatric inpatient);
 - d. Increase access to social services;
 - e. Improve care coordination across participating entities;
 - f. Improve housing stability, if applicable;
- 125. WPC Pilot Protocols.**
- a. Within 60 days of CMS approval of the terms and conditions for Medi-Cal 2020, CMS and the State will, through a collaborative process, develop and finalize WPC Pilot

Requirements and Metrics, WPC Pilot Requirements and Application Process, and WPC Reporting and Evaluation. These documents will be incorporated into the STCs as Attachments MM, HH, and, GG respectively).

- b. After the state has received a Pilot application, but prior to the state's approval of any proposal, the state will submit to CMS its proposed list of Variant Metrics. CMS reserves the right to propose additional metrics. The Universal and Variant Metrics approved by CMS (including measure specifications) will be incorporated into a revised WPC Reporting and Evaluation (Attachment GG). The state may not approve any application prior to CMS approval of the revised Attachment GG.

126. WPC Pilot Payment Structure For purposes of the WPC Pilots, the WPC Pilot year shall begin on January 1 and end on December 31. Beginning in PY1 until the end of the Demonstration, up to \$300 million in Federal financial participation shall be made available to fund the WPC Pilots as described in the WPC Pilot Special Terms and Conditions and Attachment HH.

127. WPC Pilot Payments Payments from the WPC Pool are available to approved Lead Entities. Funding from the WPC Pool (total computable) shall not exceed \$3 billion in the aggregate over five years.

- a. Each WPC Lead Entity or other entities as specified in the approved WPC Pilot application will provide the non-federal share of payment through an intergovernmental transfer (IGT). The funding entity shall certify that the funds transferred qualify for federal financial participation pursuant to 42 C.F.R. part 433 subpart B, and are not derived from impermissible sources such as recycled Medicaid payments, federal money excluded from use as state match, impermissible taxes, and non-bona fide provider-related donations. The state must have permissible sources for the non-federal share of WPC expenditures, which may include permissible IGTs from government-operated entities and state funds. Sources of non-federal funding shall not include provider taxes or donations impermissible under section 1903(w), impermissible intergovernmental transfers from providers, or federal funds received from federal programs other than Medicaid (unless expressly authorized by federal statute to be used for claiming purposes, and the federal Medicaid funding is credited to the other federal funding source). For this purpose, federal funds do not include PRIME payments, patient care revenue received as payment for services rendered under programs such as the Designated State Health Programs, Medicare, or Medicaid.
- b. Funding for PY1 shall be made available to approved applications. Funding will support the initial identification of the target population, and other coordination and planning activities necessary to submit a successful application. Funding for PY1 shall be distributed and shall not exceed 300 million dollars in Federal funds.
- c. Funding for PY2 through PY5 shall be made available based on the activities and interventions described in the approved WPC Pilot application. This amount may not exceed the total budget for each year as it appears in the approved application.

- d. Notwithstanding the annual limits set forth in STCs 125 and 126, in the event that the number of approved WPC Pilots results in unallocated funding for a given Demonstration year, participating Lead Entities may submit applications to the state in a manner and timeline specified by DHCS proposing that the remaining funds be carried forward into the following PY, or to expand Pilot services or enrollment for which such unallocated funding will be made available. Additional applicants not approved during the initial application process may also submit an application for consideration.
- e. If a selected applicant fails to substantially comply with any of the terms of the approved application, DHCS may terminate the contract and redirect remaining funds to other selected applicants or to other applicants whose programs were not previously selected for funding.
- f. Payments for WPC Pilots are based on the approved WPC amounts and will be contingent upon specific deliverables, e.g., encounters or persons served, the performance of specific activities, interventions, supports and services, or achievement of Pilot outcomes, as described in the approved WPC application. WPC Pilot Lead Entities will be accountable to DHCS and CMS to demonstrate that WPC Pilot funds were received for the interventions and in the manner agreed upon. The annual progress reports must document how the Lead Entity satisfied the requirements for receiving funding for each component as described in the application. If the Lead Entity cannot demonstrate completion of a deliverable or outcome as described in the application DHCS shall withhold or recoup the WPC funds linked to that deliverable.
- g. WPC Pilot Payments Are Not Direct Reimbursement for Expenditures or Payments for Services. Payments from the WPC Pool are intended to support WPC Pilots for infrastructure and non-Medicaid covered interventions that support increased integration among county agencies, health plans, and providers, and other entities within the participating county or counties, increased coordination and appropriate access to care for the most vulnerable, and improved data collection and sharing among local entities to support ongoing case management, monitoring, and strategic program improvements. The payments are not direct reimbursement for expenditures incurred by participating entities in implementing reforms. WPC Pilot payments are not for services otherwise reimbursable under the Medi-Cal program, and therefore providers may continue to bill Medi-Cal and/or the Medi-Cal managed care plan for all State Plan covered services. The WPC Pilot payments are not reimbursement for health care services that are recognized under these Special Terms and Conditions or under the State plan. WPC Pilot payments should not be considered patient care revenue and should not be offset against the certified public expenditures incurred by government-operated health care systems and their affiliated government entity providers for health care services, disproportionate share hospital payments or administrative activities as defined under these Special Terms and Conditions and/or under the State plan. The payments do not offset payment amounts otherwise payable to and by MCPs for Medi-Cal beneficiaries, or supplant provider payments from MCPs

X. DRUG MEDI-CAL ORGANIZED DELIVERY SYSTEM

128. Drug Medi-Cal Eligibility and Delivery System. The “Drug Medi-Cal Organized Delivery System (DMC-ODS)” is a Pilot program to test a new paradigm for the organized delivery of health care services for Medicaid eligible individuals with substance use disorder (SUD). The DMC-ODS will demonstrate how organized substance use disorder care increases the success of DMC beneficiaries while decreasing other system health care costs. Critical elements of the DMC-ODS Pilot include providing a continuum of care modeled after the American Society of Addiction Medicine (ASAM) Criteria for substance use disorder treatment services, increased local control and accountability, greater administrative oversight, creates utilization controls to improve care and efficient use of resources, evidence based practices in substance abuse treatment, and increased coordination with other systems of care. This approach is expected to provide the beneficiary with access to the care and system interaction needed in order to achieve sustainable recovery.

129. Drug Medi-Cal Definitions

- a. Delivery System The DMC-Organized Delivery System is a Medi-Cal benefit in counties that choose to opt into and implement the Pilot program. Any county that elects to opt into DMC-ODS services shall submit an implementation plan to the State for approval by DHCS and CMS pursuant to Attachment Z. Upon approval of the implementation plan, the State shall enter into an intergovernmental agreement with the County to provide or arrange for the provision of DMC-ODS services through a Prepaid Inpatient Hospital Plan (PIHP) as defined in 42 CFR 438.2 DMC-ODS shall be available as a Medi-Cal benefit for individuals who meet the medical necessity criteria and reside in a county that opts into the Pilot program. Upon approval of an implementation plan, the State will enter into an intergovernmental agreement with the county to provide DMC-ODS services. The county will, in turn, contract with DMC certified providers or offer county-operated services to provide all services outlined in the DMC-ODS. Counties may also contract with a managed care plan to provide services. Participating counties with the approval from the State may develop regional delivery systems for one or more of the required modalities or request flexibility in delivery system design. Counties may act jointly in order to deliver these services.
- b. Short-Term Resident Any beneficiary receiving residential services pursuant to DMC-ODS, regardless of the length of stay, is a “short-term resident” of the residential facility in which they are receiving the services.
- c. Tribal and Indian Health Providers A description of how the Tribal operated and urban Indian health providers, as well as American Indians and Alaska Natives Medi-Cal beneficiaries, will participate in the program through a Tribal Delivery System will be outlined in Attachment BB following approval of this amendment. The provisions in Attachment BB will be consistent with the authorities in the Indian Health Care Improvement Act (including the statutory exemption from state

or local licensure or recognition requirements at Section 1621(t) of the Indian Health Care Improvement Act) and will be developed in consultation with the California tribes, and Tribal and Urban Indian health programs located in the state, consistent with the Tribal Consultation SPA and the CMS Tribal Consultation Policy.

- d. DMC-ODS Program Medical Criteria In order to receive services through the DMC-ODS, the beneficiary must be enrolled in Medi-Cal, reside in a participating county and meet the following medical necessity criteria:
- i. Must have one diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM) for Substance-Related and Addictive Disorders with the exception of Tobacco-Related Disorders and Non-Substance-Related Disorders; or be assessed to be at risk for developing substance use disorder (for youth under 21).
 - ii. Must meet the ASAM Criteria definition of medical necessity for services based on the ASAM Criteria.
 - iii. If applicable, must meet the ASAM adolescent treatment criteria. As a point of clarification, beneficiaries under age 21 are eligible to receive Medicaid services pursuant to the Early Periodic Screening, Diagnostic and Treatment (EPSDT) mandate. Under the EPSDT mandate, beneficiaries under age 21 are eligible to receive all appropriate and medically necessary services needed to correct and ameliorate health conditions that are coverable under section 1905(a) Medicaid authority. Nothing in the DMC-ODS Pilot overrides any EPSDT requirements.
- e. DMC-ODS Determination of Medicaid Eligibility Determination of who may receive the DMC-ODS benefit will be performed as follows:
- i. Medicaid eligibility must be verified by the county or county contracted provider. When the county contracted provider conducts the initial eligibility verification, it will be reviewed and approved by the county prior to payment for services, unless the individual is eligible to receive services from tribal health programs operating under the Indian Self Determination and Education Assistance Act (ISDEAA – Pub.L. 93-638, as amended) and urban Indian organizations operating under title V of the IHCA. If so eligible, the determination will be conducted as set forth in the Tribal Delivery System - Attachment BB to these STCs.
 - ii. The initial medical necessity determination for the DMC-ODS benefit must be performed through a face-to-face review or telehealth by a Medical Director, licensed physician, or Licensed Practitioner of the Healing Arts (LPHA) as defined in Section 3(a). After establishing a diagnosis, the ASAM Criteria will be applied to determine placement into the level of assessed services.
 - iii. Medical necessity qualification for ongoing receipt of DMC-ODS is determined at least every six months through the reauthorization

process for individuals determined by the Medical Director, licensed physician or LPHA to be clinically appropriate; except for NTP services which will require reauthorization annually.

- f. Grievances and Appeals Each County shall have an internal grievance process that allows a beneficiary, or provider on behalf of the beneficiary, to challenge a denial of coverage of services or denial of payment for services by a participating County. The Department of Health Care Services will provide beneficiaries access to a state fair hearing process.
 - i. The grievance and appeals process for the Tribal Delivery System will be outlined in Attachment BB.

130. DMC-ODS Benefit and Individual Treatment Plan (ITP) Standard DMC services approved through the State Plan Benefit will be available to all beneficiaries in all counties.

- a. Beneficiaries that reside in a Pilot County will receive DMC-ODS benefits in addition to other state plan services. County eligibility will be based on the MEDs file.
- b. In counties that do not opt into the Pilot, beneficiaries receive only those drug and substance use disorder treatment services outlined in the approved state plan (including EPSDT).
- c. Beneficiaries receiving services in counties which do not opt into the Pilot will not have access to the services outlined in the DMC-ODS.
- d. The benefits and ITP for the Tribal Delivery System will be discussed in Attachment BB.

Table ONE: State Plan and DMC-ODS Services Available to DMC-ODS Participants (with Expenditure Authority and Units of Service)

DMC-ODS Service	Current State Plan	Allowable 1905(a) services – not covered in State Plan*	Costs Not Otherwise Matchable (CNOM)	Units Of Service
Early Intervention (Note: SBIRT services are paid for and provided by the managed care plans or by fee-for-service primary care providers.)	x (preventive service; physician services)			Annual screen, up to 4 brief interventions
Outpatient Drug Free	x (rehab services)			Counseling: 15 min increments

Intensive Outpatient	x (rehab services)			per day
Partial Hospitalization		X		Diagnosis-related Group (DRG)/Certified Public Expenditures (CPE)
Withdrawal management General Acute Care Hospital (VID, INVID) (non-IMD)	x inpatient services			DRG/CPE
CDRH/Free Standing Psych (IMD)			x	DRG/CPE
Residential (perinatal, non-IMD)	x (rehab services)			Per day/bed rate
(all pop., non-IMD)		X		Per day/bed rate
(IMD)			<u>x</u>	Per day/bed rate
NTP	x (rehab services)			Per day dosing; 10 minute increments

DMC-ODS Service	Current State Plan	Allowable 1905(a) services – not covered in State Plan*	Costs Not Otherwise Matchable (CNOM)	Units Of Service
Additional MAT (drug products)	x (pharmacy)			Drug cost
(physician services)	x (physician services; rehab)			Per visit
Recovery Services		x		Counseling: 15 min increments
Case Management	x (TCM)	x**		15 min increments
Physician Consultation				15 min increments

*Allowable 1905(a) services are all Medicaid services that can be covered upon CMS approval in a State Plan.

**TCM is not available state-wide as per 1915(g) and is not currently covered in all counties.

The following services (Tables TWO and THREE) must be provided, as outlined in Table FOUR, to all eligible DMC-ODS beneficiaries for the identified level of care as follows.

DMC-ODS benefits include a continuum of care that ensures that clients can enter SUD treatment at a level appropriate to their needs and step up or down to a different intensity of treatment based on their responses.

Table TWO: ASAM Criteria Continuum of Care Services and the DMC-ODS System

ASAM Level of Care	Title	Description	Provider
0.5	Early Intervention	Screening, Brief Intervention, and Referral to Treatment (SBIRT)	Managed care or fee- for-service
1	Outpatient Services	Less than 9 hours of service/week (adults); less than 6 hours/week (adolescents) for recovery or motivational enhancement therapies/strategies	DHCS Certified Outpatient Facilities
2.1	Intensive Outpatient Services	9 or more hours of service/week (adults); 6 or more hours/week (adolescents) to treat multidimensional instability	DHCS Certified Intensive Outpatient Facilities
2.5	Partial Hospitalization Services	20 or more hours of service/week for multidimensional instability not requiring 24-hour care	DHCS Certified Intensive Outpatient Facilities
3.1	Clinically Managed Low-Intensity Residential Services	24-hour structure with available trained personnel; at least 5 hours of clinical service/week and prepare for outpatient treatment.	DHCS Licensed and DHCS/ASAM Designated Residential Providers
3.3	Clinically Managed Population-Specific High-Intensity Residential Services	24-hour care with trained counselors to stabilize multidimensional imminent danger. Less intense milieu and group treatment for those with cognitive or	DHCS Licensed and DHCS/ASAM Designated Residential Providers

ASAM Level of Care	Title	Description	Provider
		other impairments unable to use full active milieu or therapeutic community and prepare for outpatient treatment.	
3.5	Clinically Managed High-Intensity Residential Services	24-hour care with trained counselors to stabilize multidimensional imminent danger and prepare for outpatient treatment. Able to tolerate and use full milieu or therapeutic community	DHCS Licensed and DHCS/ASAM Designated Residential Providers

3.7	Medically Monitored Intensive Inpatient Services	24-hour nursing care with physician availability for significant problems in Dimensions 1, 2, or 3. 16 hour/day counselor availability	Chemical Dependency Recovery Hospitals; Hospital, Free Standing Psychiatric hospitals
4	Medically Managed Intensive Inpatient Services	24-hour nursing care and daily physician care for severe, unstable problems in Dimensions 1, 2, or 3. Counseling available to engage patient in treatment	Chemical Dependency Recovery Hospitals, Hospital; Free Standing Psychiatric hospitals
OTP	Opioid Treatment Program	Daily or several times weekly opioid agonist medication and counseling available to maintain multidimensional stability for those with severe opioid use disorder	DHCS Licensed OTP Maintenance Providers, licensed prescriber

Table THREE: ASAM Criteria Withdrawal Services
(Detoxification/Withdrawal Management) and the
DMC-ODS System

Level of Withdrawal Management	Level	Description	Provider
Ambulatory withdrawal management without extended on-site monitoring	1-WM	Mild withdrawal with daily or less than daily outpatient supervision.	DHCS Certified Outpatient Facility with Detox Certification; Physician, licensed prescriber; or OTP for opioids.
Ambulatory withdrawal management with extended on-site monitoring	2-WM	Moderate withdrawal with all day withdrawal management and support and supervision; at night has supportive family or living situation.	DHCS Certified Outpatient Facility with Detox Certification; licensed prescriber; or OTP.
Clinically managed residential withdrawal management	3.2-WM	Moderate withdrawal, but needs 24-hour support to complete withdrawal management and increase likelihood of continuing treatment or	DHCS Licensed Residential Facility with Detox Certification; Physician, licensed prescriber; ability to promptly receive step-downs

Level of Withdrawal Management	Level	Description	Provider
			from acute level 4.
Medically monitored inpatient withdrawal management	3.7-WM	Severe withdrawal, needs 24-hour nursing care & physician visits; unlikely to complete withdrawal management without medical monitoring.	Hospital, Chemical Dependency Recovery Hospitals; Free Standing Psychiatric hospitals; ability to promptly receive step-downs from acute level 4

Medically managed intensive inpatient withdrawal management	4-WM	Severe, unstable withdrawal and needs 24-hour nursing care and daily physician visits to modify withdrawal management regimen and manage medical instability.	Hospital, sometimes ICU, Chemical Dependency Recovery Hospitals; Free Standing Psychiatric hospitals
---	------	---	--

Counties are required to provide the following services outlined in the chart below. Upon State approval, counties may implement a regional model with other counties or contract with providers in other counties in order to provide the required services.

TABLE FOUR: Required and Optional DMC-ODS Services

Service	Required	Optional
Early Intervention (SBIRT)	<ul style="list-style-type: none"> • (Provided and funded through FFS/managed care) 	
Outpatient Services	<ul style="list-style-type: none"> • Outpatient (includes oral naltrexone) • Intensive Outpatient 	<ol style="list-style-type: none"> 1. Partial Hospitalization
Residential	<ul style="list-style-type: none"> • At least one ASAM level of service initially • All ASAM levels (3.1, 3.3, 3.5) within three years • Coordination with ASAM Levels 3.7 and 4.0 (provided and funded through FFS/managed care) 	<ul style="list-style-type: none"> • Additional levels
NTP	<ul style="list-style-type: none"> • Required (includes buprenorphine, naloxone, disulfiram) 	
Withdrawal Management	<ul style="list-style-type: none"> • At least one level of service 	<ul style="list-style-type: none"> • Additional levels
Additional Medication Assisted Treatment		<ul style="list-style-type: none"> • Optional
Recovery Services	<ul style="list-style-type: none"> • Required 	
Case Management	<ul style="list-style-type: none"> • Required 	
Physician Consultation	<ul style="list-style-type: none"> • Required 	

The continuum of care for SUD services outlined in Tables TWO and THREE are modeled after the levels identified in the ASAM Criteria. While counties will be responsible for the oversight and implementation of most of the levels in the continuum, a few of the levels (Early Intervention Services, Partial Hospitalization and Levels 3.7 and 4.0 for Residential and Withdrawal Management) are overseen and funded by other sources not under the DMC-ODS.

These services are contained in the DMC-ODS Pilot in order to show the entire continuum of care of SUD services available to California's MediCal population.

- 131. Early Intervention Services** (ASAM Level 0.5) Screening, brief intervention and referral to treatment (SBIRT) services are provided by non-DMC providers to beneficiaries at risk of developing a substance use disorder.
- a. SBIRT services are not paid for under the DMC-ODS system.
 - b. SBIRT services are paid for and provided by the managed care plans or by fee- for-service primary care providers.
 - c. SBIRT attempts to intervene early with non- addicted people, and to identify those who do have a substance use disorder and need linking to formal treatment.

Referrals by managed care providers or plans to treatment in the DMC-ODS will be governed by the Memorandum of Understanding (MOU) held between the participating counties and managed care plans. The components of the MOUs governing the interaction between the counties and managed care plans related to substance use disorder will be included as part of the counties' implementation plan and waiver contracts.

- d. The components of Early Intervention are:
 - a. Screening: Primary Care physicians screen adults ages 18 years or older for alcohol misuse.
 - b. Counseling: Persons engaged in risky or hazardous drinking receive brief behavioral counseling interventions to reduce alcohol misuse and/or referral to mental health and/or alcohol use disorder services, as medically necessary.
 - c. Referral: Managed Care Plans and fee-for-service primary care providers will make referrals from SBIRT to the county for treatment through the DMC-ODS.

- 132. Outpatient Services** (ASAM Level 1) Counseling services are provided to beneficiaries (up to 9 hours a week for adults, and less than 6 hours a week for adolescents) when determined by a Medical Director or Licensed Practitioner of the Healing Arts to be medically necessary and in accordance with an individualized client plan. Services can be provided by a licensed professional or a certified counselor in any appropriate setting in the community. Services can be provided in-person, by telephone or by telehealth.

- a. The Components of Outpatient Services are:
 - i. Intake: The process of determining that a beneficiary meets the medical necessity criteria and a beneficiary is admitted into a substance use disorder treatment program. Intake includes the evaluation or analysis of substance use disorders; the diagnosis of substance use disorders; and the assessment of treatment needs to provide medically necessary services. Intake may include a physical examination and laboratory testing necessary for substance use disorder treatment.
 - ii. Individual Counseling: Contacts between a beneficiary and a therapist or

counselor. Services provided in-person, by telephone or by telehealth qualify as Medi-Cal reimbursable units of service, and are reimbursed without distinction.

- iii. **Group Counseling:** Face-to-face contacts in which one or more therapists or counselors treat two or more clients at the same time with a maximum of 12 in the group, focusing on the needs of the individuals served.
- d. **Family Therapy:** The effects of addiction are far-reaching and patient's family members and loved ones also are affected by the disorder. By including family members in the treatment process, education about factors that are important to the patient's recovery as well as their own recovery can be conveyed. Family members can provide social support to the patient, help motivate their loved one to remain in treatment, and receive help and support for their own family recovery as well.
- e. **Patient Education:** Provide research based education on addiction, treatment, recovery and associated health risks.
- f. **Medication Services:** The prescription or administration of medication related to substance use treatment services, or the assessment of the side effects or results of that medication conducted by staff lawfully authorized to provide such services and/or order laboratory testing within their scope of practice or licensure.
- g. **Collateral Services:** Sessions with therapists or counselors and significant persons in the life of the beneficiary, focused on the treatment needs of the beneficiary in terms of supporting the achievement of the beneficiary's treatment goals. Significant persons are individuals that have a personal, not official or professional, relationship with the beneficiary.
- h. **Crisis Intervention Services:** Contact between a therapist or counselor and a beneficiary in crisis. Services shall focus on alleviating crisis problems. "Crisis" means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. Crisis intervention services shall be limited to the stabilization of the beneficiary's emergency situation.
- i. **Treatment Planning:** The provider shall prepare an individualized written treatment plan, based upon information obtained in the intake and assessment process. The treatment plan will be completed upon intake and then updated every subsequent 90 days unless there is a change in treatment modality or significant event that would then require a new treatment plan. The treatment plan shall include:
 - A. A statement of problems to be addressed,
 - B. Goals to be reached which address each problem
 - C. Action steps which will be taken by the provider and/or beneficiary to accomplish identified goals,
 - D. Target dates for accomplishment of action steps and goals, and a description of services including the type of counseling to be provided and the frequency thereof.

- E. Treatment plans have specific quantifiable goal/treatment objectives related the beneficiary's substance use disorder diagnosis and multidimensional assessment.
- F. The treatment plan will identify the proposed type(s) of interventions/modality that includes a proposed frequency and duration.
- G. The treatment plan will be consistent with the qualifying diagnosis and will be signed by the beneficiary and the Medical Director or LPHA.
- j. Discharge Services: The process to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

133. Intensive Outpatient Treatment (ASAM Level 2.1) structured programming services are provided to beneficiaries (a minimum of nine hours with a maximum of 19 hours a week for adults, and a minimum of six hours with a maximum of 19 hours a week for adolescents) when determined by a Medical Director or Licensed Practitioner of the Healing Arts to be medically necessary and in accordance with an individualized client plan. Lengths of treatment can be extended when determined to be medically necessary. Services consist primarily of counseling and education about addiction-related problems. Services can be provided by a licensed professional or a certified counselor in any appropriate setting in the community. Services can be provided in-person, by telephone or by telehealth.

- a. The Components of Intensive Outpatient are (see Outpatient Services for definitions):
 - i. Intake
 - ii. Individual and/or Group Counseling
 - iii. Patient Education
 - iv. Family Therapy
 - v. Medication Services
 - vi. Collateral Services
 - vii. Crisis Intervention Service
 - viii. Treatment Planning
 - ix. Discharge Services

134. Partial Hospitalization (ASAM Level 2.5) services feature 20 or more hours of clinically intensive programming per week, as specified in the patient's treatment plan. Level 2.5 partial hospitalization programs typically have direct access to psychiatric, medical, and laboratory services, and are to meet the identified needs which warrant daily monitoring or management but which can be appropriately addressed in a structured outpatient setting. Providing this level of service is optional for participating counties.

135. Residential Treatment (ASAM Level 3) is a non-institutional, 24-hour non- medical, short-term residential program that provides rehabilitation services to beneficiaries with a substance use disorder diagnosis when determined by a Medical Director or Licensed

Practitioner of the Healing Arts as medically necessary and in accordance with an individualized treatment plan. Residential services are provided to non-perinatal and perinatal beneficiaries. These services are intended to be individualized to treat the functional deficits identified in the ASAM Criteria. In the residential treatment environment, an individual's functional cognitive deficits may require treatment that is primarily slower paced, more concrete and repetitive in nature. The daily regimen and structured patterns of activities are intended to restore cognitive functioning and build behavioral patterns within a community. Each beneficiary shall live on the premises and shall be supported in their efforts to restore, maintain and apply interpersonal and independent living skills and access community support systems. Providers and residents work collaboratively to define barriers, set priorities, establish goals, create treatment plans, and solve problems. Goals include sustaining abstinence, preparing for relapse triggers, improving personal health and social functioning, and engaging in continuing care.

- a. Residential services are provided in a DHCS, or for adolescents Department of Social Services, licensed residential facilities that also have DMC certification and have been designated by DHCS as capable of delivering care consistent with ASAM treatment criteria.
- b. Residential services can be provided in facilities of any size.
- c. The length of residential services range from 1 to 90 days with a 90-day maximum for adults and 30-day maximum for adolescents; unless medical necessity authorizes a one-time extension of up to 30 days on an annual basis. Only two non-continuous 90-day regimens will be authorized in a one-year period. The average length of stay for residential services is 30 days. Peri-natal clients may receive a longer length of stay based on medical necessity. Peri-natal clients may receive lengths of stay up to the length of the pregnancy and postpartum period (60 days after the pregnancy ends.)
- d. Residential Services for Adults- Residential services for adults may be authorized for up to 90 days in one continuous period. Reimbursement will be limited to two non-continuous regimens for adults in any one-year period (365 days). One extension of up to 30 days beyond the maximum length of stay of 90 days may be authorized for one continuous length of stay in a one-year period (365 days)
- e. Residential Services for Adolescents Residential services for adolescents may be authorized for up 30 days in one continuous period. Reimbursement will be limited to two non-continuous 30-day regimens in any one-year period (365 days). One extension of up to 30 days beyond the maximum length of stay may be authorized for one continuous length of stay in a one-year period (365 days).
- f. One ASAM level of Residential Treatment Services is required for approval of a county implementation plan in the first year. The county implementation plan must demonstrate ASAM levels of Residential Treatment Services (Levels 3.1-3.5) within three years of CMS approval of the county implementation plan and state-county intergovernmental agreement (managed care contract per federal definition). The county implementation plan must describe coordination for ASAM Levels 3.7 and 4.0.
- g. The components of Residential Treatment Services are (see Outpatient Services for definitions):

- i. Intake
- ii. Individual and Group Counseling
- iii. Patient Education
- iv. Family Therapy
- v. Safeguarding Medications: Facilities will store all resident medication and facility staff members may assist with resident's self-administration of medication.
- vi. Collateral Services
- vii. Crisis Intervention Services
- viii. Treatment Planning
- ix. Transportation Services: Provision of or arrangement for transportation to and from medically necessary treatment.
- x. Discharge Services

136. Withdrawal Management (Levels 1, 2, 3.2, 3.7 and 4 in ASAM) services are provided in a continuum of WM services as per the five levels of WM in the ASAM Criteria when determined by a Medical Director or Licensed Practitioner of the Healing Arts as medically necessary and in accordance with an individualized client plan. Each beneficiary shall reside at the facility if receiving a residential service and will be monitored during the detoxification process. Medically necessary habilitative and rehabilitative services are provided in accordance with an individualized treatment plan prescribed by a licensed physician or licensed prescriber, and approved and authorized according to the state of California requirements.

The components of withdrawal management services are:

- a. Intake: The process of admitting a beneficiary into a substance use disorder treatment program. Intake includes the evaluation or analysis of substance use disorders; the diagnosis of substance use disorders; and the assessment of treatment needs to provide medically necessary services. Intake may include a physical examination and laboratory testing necessary for substance use disorder treatment.
- b. Observation: The process of monitoring the beneficiary's course of withdrawal. To be conducted as frequently as deemed appropriate for the beneficiary and the level of care the beneficiary is receiving. This may include but is not limited to observation of the beneficiary's health status.
- c. Medication Services: The prescription or administration related to substance use disorder treatment services, or the assessment of the side effects or results of that medication, conducted by staff lawfully authorized to provide such services within their scope of practice or license.
- d. Discharge Services: The process to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

137. Opioid (Narcotic) Treatment Program (ASAM OTP Level 1) services are provided in NTP licensed facilities. Medically necessary services are provided in accordance with an individualized treatment plan determined by a licensed physician or licensed prescriber

and approved and authorized according to the State of California requirements. NTPs/OTPs are required to offer and prescribe medications to patients covered under the DMC-ODS formulary including methadone, buprenorphine, naloxone and disulfiram.

- a. A patient must receive at minimum fifty minutes of counseling sessions with a therapist or counselor for up to 200 minutes per calendar month, although additional services may be provided based on medical necessity.
- b. The components of Opioid (Narcotic) Treatment Programs are (see Outpatient Treatment Services for definitions):
 - i. Intake
 - ii. Individual and Group Counseling
 - iii. Patient Education
 - iv. Medication Services
 - v. Collateral Services
 - vi. Crisis Intervention Services
 - vii. Treatment Planning
 - viii. Medical Psychotherapy: Type of counseling services consisting of a face-to-face discussion conducted by the Medical Director of the NTP/OTP on a one-on-one basis with the patient.
 - ix. Discharge Services

138. Additional Medication Assisted Treatment (ASAM OTP Level 1) includes the ordering, prescribing, administering, and monitoring of all medications for substance use disorders. Medically necessary services are provided in accordance with an individualized treatment plan determined by a licensed physician or licensed prescriber.

- a. Opioid and alcohol dependence, in particular, have well-established medication options.
- b. The current reimbursement mechanisms for medication assisted treatment (MAT) will remain the same except for the following changes for opt-in counties: buprenorphine, naloxone and disulfiram will be reimbursed for onsite administration and dispensing at NTP programs; additionally, physicians and licensed prescribers in DMC programs will be reimbursed for the ordering, prescribing, administering, and monitoring of medication assisted treatment.
- c. The components of Additional Medication Assisted Treatment are ordering, prescribing, administering, and monitoring of medication assisted treatment.
- d. The goal of the DMC-ODS for MAT is to open up options for patients to receive MAT by requiring MAT services in all opt-in counties, educate counties on the various options pertaining to MAT and provide counties with technical assistance to implement any new services. These medications are available through the DMC- ODS and outside of Drug Medi-Cal programs. Further details explaining the financing and availability of MAT services in the Medi-Cal system are contained in Attachment CC.
- e. Counties may also choose to utilize long-acting injectable naltrexone in allowable DMC facilities under this optional provision. Long-acting injectable naltrexone will be reimbursed for onsite administration and physicians and licensed prescribers in DMC-ODS programs will be reimbursed for the ordering, prescribing, administering and monitoring.

- f. Counties that choose to provide long-acting injectable naltrexone through this option must cover the non-federal share cost. While a treatment authorization request will not be required at the State level, under this option the county may choose to implement an approval process at the county level.

- 139. Recovery Services:** Recovery services are important to the beneficiary's recovery and wellness. As part of the assessment and treatment needs of Dimension 6, Recovery Environment of the ASAM Criteria and during the transfer/transition planning process, beneficiaries will be linked to applicable recovery services. The treatment community becomes a therapeutic agent through which patients are empowered and prepared to manage their health and health care. Therefore, treatment must emphasize the patient's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to patients. Services are provided as medically necessary.
- a. Beneficiaries may access recovery services after completing their course of treatment whether they are triggered, have relapsed or as a preventative measure to prevent relapse.
 - b. Recovery services may be provided face-to-face, by telephone, or by telehealth with the beneficiary and may be provided anywhere in the community.
 - c. The components of Recovery Services are:
 - i. Outpatient counseling services in the form of individual or group counseling to stabilize the beneficiary and then reassess if the beneficiary needs further care;
 - ii. Recovery Monitoring: Recovery coaching, monitoring via telephone and internet;
 - iii. Substance Abuse Assistance: Peer-to-peer services and relapse prevention;
 - iv. Education and Job Skills: Linkages to life skills, employment services, job training, and education services;
 - v. Family Support: Linkages to childcare, parent education, child development support services, family/marriage education;
 - vi. Support Groups: Linkages to self-help and support, spiritual and faith-based support;
 - vii. Ancillary Services: Linkages to housing assistance, transportation, case management, individual services coordination.
- 140. Case Management:** Counties will coordinate case management services. Case management services can be provided at DMC provider sites, county locations, regional centers or as outlined by the county in the implementation plan; however, the county will be responsible for determining which entity monitors the case management activities. Services may be provided by a Licensed Practitioner of the Healing Arts or certified counselor.
- a. Counties will be responsible for coordinating case management services for the SUD client. Counties will also coordinate a system of case management services with physical and/or mental health in order to ensure appropriate level

- of care.
- b. Case management services are defined as a service that assist a beneficiary to access needed medical, educational, social, prevocational, vocational, rehabilitative, or other community services. These services focus on coordination of SUD care, integration around primary care especially for beneficiaries with a chronic substance use disorder, and interaction with the criminal justice system, if needed.
- c. Case management services may be provided face-to-face, by telephone, or by telehealth with the beneficiary and may be provided anywhere in the community.
- d. Case management services include:
 - i. Comprehensive assessment and periodic reassessment of individual needs to determine the need for continuation of case management services;
 - ii. Transition to a higher or lower level SUD of care;
 - iii. Development and periodic revision of a client plan that includes service activities;
 - iv. Communication, coordination, referral and related activities;
 - v. Monitoring service delivery to ensure beneficiary access to service and the service delivery system;
 - vi. Monitoring the beneficiary's progress;
 - vii. Patient advocacy, linkages to physical and mental health care, transportation and retention in primary care services; and,
 - viii. Case management shall be consistent with and shall not violate confidentiality of alcohol or drug patients as set forth in 42 CFR Part 2, and California law.

141. Physician Consultation Services include DMC physicians' consulting with addiction medicine physicians, addiction psychiatrists or clinical pharmacists. Physician consultation services are not with DMC-ODS beneficiaries; rather, they are designed to assist DMC physicians with seeking expert advice on designing treatment plans for specific DMC-ODS beneficiaries.

- a. Physician consultation services are to support DMC providers with complex cases which may address medication selection, dosing, side effect management, adherence, drug-drug interactions, or level of care considerations.
- b. Counties may contract with one or more physicians or pharmacists in order to provide consultation services. Physician consultation services can only be billed by and reimbursed to DMC providers.

142. Intersection with the Criminal Justice System: Beneficiaries involved in the criminal justice system often are harder to treat for SUD. While research has shown that the criminal justice population can respond effectively to treatment services, the beneficiary may require more intensive services. Additional services for this population may include:

- a. Eligibility: Counties recognize and educate staff and collaborative partners that Parole and Probation status is not a barrier to expanded Medi-Cal substance use disorder treatment services if the parolees and probationers are eligible. Currently incarcerated inmates are not eligible to receive FFP for DMC-ODS

- services.
- b. Lengths of Stay: Counties may provide extended lengths of stay for withdrawal and residential services for criminal justice offenders if assessed for need (e.g. up to 6 months residential; 3 months FFP with a one-time 30-day extension if found to be medically necessary and if longer lengths are needed, other county identified funds can be used).
- c. Promising Practices: Counties utilize promising practices such as Drug Court services.

143. DMC-ODS Provider Specifications The following requirements will apply to DMC-ODS staff:

- a. Professional staff must be licensed, registered, certified, or recognized under California State scope of practice statutes. Professional staff shall provide services within their individual scope of practice and receive supervision required under their scope of practice laws. Licensed Practitioner of the Healing Arts includes: Physician, Nurse Practitioners, Physician Assistants, Registered Nurses, Registered Pharmacists, Licensed Clinical Psychologist (LCP), Licensed Clinical Social Worker (LCSW), Licensed Professional Clinical Counselor (LPCC), and Licensed Marriage and Family Therapist (LMFT) and licensed-eligible practitioners working under the supervision of licensed clinicians.
- b. Non-professional staff shall receive appropriate on-site orientation and training prior to performing assigned duties. Non-professional staff will be supervised by professional and/or administrative staff.
- c. Professional and non-professional staff are required to have appropriate experience and any necessary training at the time of hiring.
- d. Registered and certified alcohol and other drug counselors must adhere to all requirements in the California Code of Regulations, Title 9, Chapter 8.

144. Responsibilities of Counties for DMC-ODS Benefits

The responsibilities of counties for the DMC-ODS benefit shall be consistent with each county's intergovernmental agreement with DHCS, and shall include that counties do the following.

- a. Selective Provider Contracting Requirements for Counties: Counties may choose the DMC providers to participate in the DMC-ODS. DMC certified providers that do not receive a county contract cannot receive a direct contract with the State in counties which opt into the Pilot. If a county does not participate in the Pilot or is removed from participation in the Pilot by the State, the county will continue to cover state plan services.
- b. Access: Each county must ensure that all required services covered under the DMC-ODS Pilot are available and accessible to enrollees of the DMC-ODS. NTP services are an important modality within the continuum of care. Counties are required to provide this service. Access to medically necessary NTP services cannot be denied for DMC-ODS eligible beneficiaries. Eligible DMC-ODS beneficiaries will receive medically necessary services at a DMC certified NTP provider. All DMC-ODS services, including Medi-Cal NTP services, shall be furnished with reasonable promptness in accordance with

federal Medicaid requirements and as specified in the county implementation plan and state/county intergovernmental agreement (managed care contracts per federal definition). Medical attention for emergency and crisis medical conditions must be provided immediately. If the DMC-ODS network is unable to provide services, the county must adequately and timely cover these services out-of-network for as long as the county is unable to provide them.

- c. All counties must ensure that beneficiaries who live in an opt-out county, but receive NTP services in an opt-in county do not experience a disruption of services. The opt-out county will claim state plan expenditures for the reimbursement made to the out-of-county NTP providers in accordance with the approved state plan methodology for services furnished to beneficiaries. No persons eligible for DMC-ODS services, including Medi-Cal funded NTP treatment services, will be placed on waiting lists for such services due to budgetary constraints.
- d. The DMC-ODS Pilot program is administered locally by each demonstration county and each county provides for, or arranges for, substance use disorder treatment for Medi-Cal beneficiaries. Access cannot be limited in any way when counties select providers. Access to State Plan services must remain at the current level or expand upon implementation of the Pilot. The county shall maintain and monitor a network of appropriate providers that is supported by contracts with subcontractors and that is sufficient to provide adequate access to all services covered under this Pilot. Access for this purpose is defined as timeliness to care as specified below. In establishing and monitoring the network, the county must consider the following:
 - i. Require its providers to meet Department standards for timely access to care and services as specified in the county implementation plan and state-county intergovernmental agreements (managed care contracts per federal definition). Medical attention for emergency and crisis medical conditions must be provided immediately.
 - ii. The anticipated number of Medi-Cal eligible clients.
 - iii. The expected utilization of services, taking into account the characteristics and substance use disorder needs of beneficiaries.
 - iv. The expected number and types of providers in terms of training and experience needed to meet expected utilization.
 - v. The number of network providers who are not accepting new beneficiaries.
 - vi. The geographic location of providers and their accessibility to beneficiaries, considering distance, travel time, means of transportation ordinarily used by Medi-Cal beneficiaries, and physical access for disable beneficiaries.

145. Medication Assisted Treatment Services: Counties must describe in their implementation plan how they will guarantee access to medication assisted treatment

services.

- a. Counties currently with inadequate access to medication assisted treatment services must describe in their implementation plan how they will provide the service modality.
- b. Counties are encouraged to increase medication assisted treatment services by exploring the use of the following interventions:
 - i. Extend NTP/OTP programs to remote locations using mobile units and contracted pharmacies which may have onsite counseling and urinalysis.
 - ii. Implement medication management protocols for alcohol dependence including naltrexone, disulfiram, and acamprosate. Alcohol maintenance medications may be dispensed onsite in NTPs/OTPs or prescribed by providers in outpatient programs.
 - iii. Provide ambulatory alcohol detoxification services in settings such as outpatient programs, NTPs/OTPs, and contracted pharmacies.
- c. Selection Criteria and Provider Contracting Requirements: In selecting providers to furnish services under this Pilot, counties must:
 - i. Must have written policies and procedures for selection and retention of providers that are in compliance with the terms and conditions of this amendment and applicable federal laws and regulations.
 - ii. Apply those policies and procedures equally to all providers regardless of public, private, for-profit or non-profit status, and without regard to whether a provider treats persons who require high-risk or specialized services.
 - iii. Must not discriminate against persons who require high-risk or specialized services.
 - iv. May contract with providers in another state where out-of-state care or treatment is rendered on an emergency basis or is otherwise in the best interests of the person under the circumstances.
 - v. Select only providers that have a license and/or certification issued by the state that is in good standing.
 - vi. Select only providers that, prior to the furnishing of services under this pilot, have enrolled with, or revalidated their current enrollment with, DHCS as a DMC provider under applicable federal and state regulations, have been screened in accordance with 42 CFR 455.450(c) as a “high” categorical risk prior to furnishing services under this pilot, have signed a Medicaid provider agreement with DHCS as required by 42 CFR 431.107, and have complied with the ownership and control disclosure requirements of 42 CFR 455.104. DHCS shall deny enrollment and DMC certification to any provider (as defined in Welfare & Institutions Code section 14043.1), or a person with ownership or control interest in the provider (as defined in 42 CFR 455.101),

that, at the time of application, is under investigation for fraud or abuse pursuant to Part 455 of Title 42 of the Code of Federal Regulations, unless DHCS determines that there is good cause not to deny enrollment upon the same bases enumerated in 42 CFR 455.23(e) If a provider is under investigation for fraud or abuse, that provider shall be subject to temporary suspension pursuant to Welfare & Institutions Code section 14043.36. Upon receipt of a credible allegation of fraud, a provider shall be subject to a payment suspension pursuant to Welfare & Institutions Code section 14107.11 and DHCS may thereafter collect any overpayment identified through an audit or examination. During the time a provider is subject to a temporary suspension pursuant to Welfare & Institutions Code section 14043.36, the provider, or a person with ownership or control interest in the provider (as defined in 42 CFR 455.101), may not receive reimbursement for services provided to a DMC-ODS beneficiary. A provider, shall be subject to suspension pursuant to Welfare and Institutions Code section 14043.61 if claims for payment are submitted for services provided to a Medi-Cal beneficiary by an individual or entity that is ineligible to participate in the Medi-Cal program. A provider will be subject to termination of provisional provider status pursuant to Welfare and Institutions Code section 14043.27 if the provider has a debt due and owing to any government entity that relates to any federal or state health care program, and has not been excused by legal process from fulfilling the obligation. Only providers newly enrolling or revalidating their current enrollment on or after January 1, 2015 would be required to undergo fingerprint- based background checks required under 42 CFR 455.434.

- vii. Select only providers that have a Medical Director who, prior to the delivery of services under this pilot, has enrolled with DHCS under applicable state regulations, has been screened in accordance with 42 CFR 455.450(a) as a “limited” categorical risk within a year prior to serving as a Medical Director under this pilot, and has signed a Medicaid provider agreement with DHCS as required by 42 CFR 431.107.
- viii. Counties may contract individually with licensed LPHAs to provide services in the network.
- ix. Must not discriminate in the selection, reimbursement, or indemnification of any provider who is acting within the scope of their certification.
- x. Must enter into contracts with providers that they have selected to furnish services under this pilot program. All contracts with providers must include the following provider requirements:
 - A. Services furnished to beneficiaries by the provider under this amendment are safe, effective, patient-centered, timely,

culturally competent, efficient and equitable, as defined by the Institute of Medicine;

- B. Possess the necessary license and/or certification;
 - C. Maintain a safe facility by adhering to the state licensing and certification regulations;
 - D. Maintain client records in a manner that meets state and federal standards;
 - E. Shall meet the established ASAM criteria for each level of residential care they provide and receive an ASAM Designation, for residential services only, prior to providing Pilot services;
 - F. Be trained in the ASAM Criteria prior to providing services;
 - G. Meet quality assurance standards and any additional standards established by the county or other evaluation process; and
 - H. Provide for the appropriate supervision of staff.
- xi. If a county elects to contract with a managed care plan to furnish services under this pilot, the contract must ensure that any provider furnishing services under this pilot on behalf of the managed care plan meets all of the requirements that apply to a provider (and any Medical Director) that is selected by a county under this section to furnish services under this Pilot.

146. Contract Denial: Counties shall serve providers that apply to be a contract provider but are not selected a written decision including the basis for the denial.

- a. County Protest: Any solicitation document utilized by counties for the selection of DMC providers must include a protest provision.
 - i. Counties shall have a protest procedure for providers that are not awarded a contract.
 - ii. The protest procedure shall include requirements outlined in the State/County contract.
 - iii. Providers that submit a bid to be a contract provider, but are not selected, must exhaust the county's protest procedure if a provider wishes to challenge the denial to the Department of Health Care Services (DHCS). If the county does not render a decision within 30 calendar days after the protest was filed with the county, the protest shall be deemed denied and the provider may appeal the failure to DHCS.
- b. DHCS Appeal Process: A provider may appeal to DHCS as outlined in Attachment Y.

147. Authorization: Counties must provide prior authorization for residential services within 24 hours of the prior authorization request being submitted by the provider. Counties will review the DSM and ASAM Criteria to ensure that the beneficiary meets the requirements for the service. Counties shall have written policies and procedures for processing requests for initial and continuing authorization of services. Counties are to have a mechanism in place to ensure that there is consistent application of review criteria for authorization

decisions and shall consult with the requesting provider when appropriate. Counties are to meet the established timelines for decisions for service authorization. Counties are required to track the number, percentage of denied and timeliness of requests for authorization for all DMC-ODS services that are submitted, processed, approved and denied. This prior authorization for residential services is compliant with the Medicaid-applicable parity requirements established by the Mental Health Parity and Addiction Equity Act. Non-residential services shall not require prior authorization.

- a. County Implementation Plan: Counties must submit to the State a plan on their implementation of DMC-ODS. The State will provide the template for the implementation plan, which is included here as Attachment Z. Counties cannot commence services without an implementation plan approved by the state and CMS. Counties must also have an executed State/County intergovernmental agreement (managed care contract per federal definition) with the county Board of Supervisors and approved by CMS. County implementation plans must ensure that providers are appropriately certified for the services contracted, implementing at least two evidenced based practices, trained in ASAM Criteria, and participating in efforts to promote culturally competent service delivery.
- b. One ASAM level of Residential Treatment Services is required for approval of a county implementation plan in the first year. The county implementation plan must demonstrate ASAM levels of Residential Treatment Services (Levels 3.1- 3.5) within three years of CMS approval of the county implementation plan and state-county intergovernmental agreement (managed care contract per federal definition). The county implementation plan must describe coordination for ASAM Levels 3.7 and 4.0.
- c. Upon CMS approval of the implementation plan and an executed contract, counties will be able to bill prospectively for services provided through this Pilot.
- d. Below is a summary of the requirements that must be submitted with the county implementation plan:

Care coordination strategy

- MOU with managed care plan
- DMC transitions, especially aftercare and recovery supports

<p>Service descriptions</p> <ul style="list-style-type: none"> • Withdrawal Management • Outpatient • Intensive Outpatient • NTP/OTP • Additional MAT • Residential • Recovery Services • Case Management • Physician Consultation • Two evidence-based practices • Any optional services (including partial hospitalization)
<p>Provider network development plan</p> <ul style="list-style-type: none"> • By service • With timeline pegged to specified timeliness standard • Network adequacy requirements (will vary by county)
<p>Phase-in description for a one-year provisional period*</p> <ul style="list-style-type: none"> • By service • With timeline and deliverables pegged to timeliness measure

*Only applies to counties unable to meet all mandatory requirements.

- 148. Provisional Option:** For counties that are unable to comply fully with the mandatory requirements upon implementation of this Pilot, at the time of approval by DHCS and CMS, there exists the option for a one-year provisional period. A one year-provisional option will provide counties the opportunity to participate in the DMC-ODS Pilot while taking the necessary steps to build system capacity, provide training, ensure appropriate care coordination, and implement a full network of providers as described in the Pilot.
- a. In order to apply for the one-year provisional option, a county must include with their implementation plan a strategy for coming into full compliance with the terms of this Pilot. Specifically, each county must describe the steps it will take to provide all required DMC-ODS services that it cannot provide upon initial DMC-ODS implementation. The county will assure that all DMC-ODS services will be available to beneficiaries (whether the services are provided in-network, out-of-network, or using telehealth) while meeting the timeliness requirement during the course of the one-year probation option.
 - b. At least sixty (60) days prior to the expiration of the one-year provisional period, counties must resubmit their revised implementation plans for renewal. The plans will describe how the county has implemented the requirements which they originally could not provide. DHCS and CMS will review the revised implementation plans, in conjunction with the state and county monitoring reports as described in Sections 5 and 6 of this amendment, to assess if the county is progressing towards complying fully with the terms of this Pilot. If a county originally awarded a one-year provisional option is able to fully comply with the terms of this Pilot upon

renewal, they will be eligible to receive approval to participate in the remainder of the Pilot. If a county originally awarded a one-year provisional option is not able to fully comply with the terms of this Pilot, DHCS and CMS may approve a renewal pursuant to a Corrective Action Plan (CAP). The CAP will describe how the county will continue to implement its phase-in approach pursuant to its implementation plan, and will assure that all DMC-ODS services are available to beneficiaries in the interim (whether the services are provided are in-network, out-of-network, or using telehealth) within the timeliness requirement.

- 149. State-County Intergovernmental Agreement (Managed Care Contract per federal definition):** DHCS will require a State-County intergovernmental agreement (managed care contract per federal definition) to be signed between the state and the county in opt-in counties, subject to CMS approval. The intergovernmental agreement will provide further detailed requirements including but not limited to access, monitoring, appeals and other provisions. Access standards and timeliness requirements that are specified and described in the county implementation plans will be referenced in the state/county intergovernmental agreements (managed care contract per federal definition). CMS will review and approve the State-County intergovernmental agreement (managed care contract per federal definition) to ensure that the DMC-ODS program is operated in a manner that reduces the risk of fraud and abuse to the maximum extent feasible.
- 150. Coordination with DMC-ODS Providers:** Counties will include the following provider requirements within their contracts with the providers.
- a. **Culturally Competent Services:** Providers are responsible to provide culturally competent services. Providers must ensure that their policies, procedures, and practices are consistent with the principles outlined and are embedded in the organizational structure, as well as being upheld in day-to-day operations. Translation services must be available for beneficiaries, as needed.
 - b. **Medication Assisted Treatment:** Providers will have procedures for linkage/integration for beneficiaries requiring medication assisted treatment. Provider staff will regularly communicate with physicians of clients who are prescribed these medications unless the client refuses to consent to sign a 42 CFR part 2 compliant release of information for this purpose.
 - c. **Evidenced Based Practices:** Providers will implement at least two of the following evidenced based treatment practices (EBPs) based on the timeline established in the county implementation plan. The two EBPs are per provider per service modality. Counties will ensure the providers have implemented EBPs. The State will monitor the implementation of EBP's during reviews. The required EBP include:
 - i. **Motivational Interviewing:** A client-centered, empathic, but directive counseling strategy designed to explore and reduce a person's ambivalence toward treatment. This approach frequently includes other problem solving or solution-focused strategies that build on clients' past successes.

- ii. **Cognitive-Behavioral Therapy:** Based on the theory that most emotional and behavioral reactions are learned and that new ways of reacting and behaving can be learned.
- iii. **Relapse Prevention:** A behavioral self-control program that teaches individuals with substance addiction how to anticipate and cope with the potential for relapse. Relapse prevention can be used as a stand-alone substance use treatment program or as an aftercare program to sustain gains achieved during initial substance use treatment.
- iv. **Trauma-Informed Treatment:** Services must take into account an understanding of trauma, and place priority on trauma survivors' safety, choice and control.
- v. **Psycho-Education:** Psycho-educational groups are designed to educate clients about substance abuse, and related behaviors and consequences. Psycho-educational groups provide information designed to have a direct application to clients' lives; to instill self-awareness, suggest options for growth and change, identify community resources that can assist clients in recovery, develop an understanding of the process of recovery, and prompt people using substances to take action on their own behalf.

- 151. Beneficiary Access Number:** All counties shall have a 24/7 toll free number for prospective beneficiaries to call to access DMC-ODS services. Oral interpretation services must be made available for beneficiaries, as needed.
- 152. Beneficiary Informing:** Upon first contact with a beneficiary or referral, counties shall inform beneficiaries about the amount, duration and scope of services under this waiver in sufficient detail to ensure that the beneficiaries understand the benefits to which they are entitled.
- 153. Care Coordination:** Counties' implementation plans and state/county contracts (managed care contracts per federal definition) will describe their care coordination plan for achieving seamless transitions of care. Counties are responsible for developing a structured approach to care coordination to ensure that beneficiaries successfully transition between levels of SUD care (i.e. withdrawal management, residential, outpatient) without disruptions to services. In addition to specifying how beneficiaries will transition across levels of acute and short-term SUD care without gaps in treatment, the county will describe in the implementation plan and state/county intergovernmental agreement (managed care contracts per federal definition) how beneficiaries will access recovery supports and services immediately after discharge or upon completion of an acute care stay, with the goal of sustained engagement and long-term retention in SUD and behavioral health treatment.
- a. The county implementation plan and state/county intergovernmental agreement (managed care contract per federal definition) will indicate whether their care transitions approach will be achieved exclusively through case management services or through other methods. The county implementation plan and state/county intergovernmental agreement (managed care contract per federal definition) will indicate which beneficiaries receiving SUD

- services will receive care coordination.
- b. The participating county shall enter into a memorandum of understanding (MOU) with any Medi-Cal managed care plan that enrolls beneficiaries served by the DMC-ODS. This requirement can be met through an amendment to the Specialty Mental Health Managed Care Plan MOU. The components of the MOUs governing the interaction between the counties and managed care plans related to substance use disorder will be included as part of the counties' implementation plan. If upon submission of an implementation plan, the managed care plan(s) has not signed the MOU(s), the county may explain to the State the efforts undertaken to have the MOU(s) signed and the expected timeline for receipt of the signed MOU(s). Any MOU shall be consistent with the confidentiality provisions of 42 CFR Part 2.
 - c. The following elements in the MOU should be implemented at the point of care to ensure clinical integration between DMC-ODS and managed care providers:
 - i. Comprehensive substance use, physical, and mental health screening, including ASAM Level 0.5 SBIRT services;
 - ii. Beneficiary engagement and participation in an integrated care program as needed;
 - iii. Shared development of care plans by the beneficiary, caregivers and all providers;
 - iv. Collaborative treatment planning with managed care;
 - v. Delineation of case management responsibilities;
 - vi. A process for resolving disputes between the county and the Medi-Cal managed care plan that includes a means for beneficiaries to receive medically necessary services while the dispute is being resolved;
 - vii. Availability of clinical consultation, including consultation on medications;
 - viii. Care coordination and effective communication among providers including procedures for exchanges of medical information;
 - ix. Navigation support for patients and caregivers; and
 - x. Facilitation and tracking of referrals between systems including bidirectional referral protocols.

154. Integration with Primary Care: DHCS is committed to participate in the Medicaid Innovation Accelerator Program initiative for substance use disorder, specifically in the Targeted Learning Opportunity topics on primary care and SUD integration.

DHCS is embarking on a strategy to integrate physical and behavioral health care services delivered to beneficiaries in order to improve health outcomes for beneficiaries with SUD and reduce costs in the Medi-Cal program. DHCS will explore options for identifying the best integration strategy upon approval of this waiver amendment and

will commit to specifying an integration approach by April 1, 2016. DHCS will produce a concept design for an integrated care model by October 1, 2016, with the goal of implementing physical and behavioral health integration by April 1, 2017.

- 155. ASAM Designation for Residential Providers:** In order to enroll in Medi-Cal and bill for services under the auspices of this waiver, all residential providers must be designated to have met the ASAM requirements described in STC 134. DHCS will develop a designation program by July 1, 2015 to certify that all providers of Adult and Adolescent Level 3.1-3.5 Residential/Inpatient Services are capable of delivering care consistent with ASAM criteria. As part of this designation program, DHCS will use an existing tool or develop a tool that includes the elements that define each sublevel of Level 3 services for Levels 3.1- 3.5, develop standard program audit materials and protocols, and implement the ASAM designation program. The timeline for this designation program is outlined in an attachment and will be technically amended after the program has been developed.
- 156. Services for Adolescents and Youth:** At a minimum, assessment and services for adolescents will follow the ASAM adolescent treatment criteria. In addition, the state will identify recovery services geared towards adolescents, such as those described in the January 26, 2015 CMS Informational Bulletin “Coverage for Behavioral Health Services for Youth with Substance Use Disorder”.
- 157. DMC-ODS State Oversight, Monitoring, and Reporting.**
 - a. **Monitoring Plan:** The State shall maintain a plan for oversight and monitoring of DMC- ODS providers and counties to ensure compliance and corrective action with standards, access, and delivery of quality care and services. The state/county intergovernmental agreement (managed care contracts per federal definition) will require counties to monitor providers at least once per year, and the state to monitor the counties at least once per year through the External Quality Review Organizations (EQRO). If significant deficiencies or significant evidence of noncompliance with the terms of this waiver, the county implementation plan or the state/county intergovernmental agreement are found in a county, DHCS will engage the county to determine if there challenges that can be addressed with facilitation and technical assistance. If the county remains noncompliant, the county must submit a corrective action plan (CAP) to DHCS. The CAP must detail how and when the county will remedy the issue(s). DHCS may remove the county from participating in the Pilot if the CAP is not promptly implemented.
 - b. **Timely Access.** The state must ensure that demonstration counties comply with network adequacy and access requirements, including that services are delivered in a culturally competent manner that is sufficient to provide access to covered services to Medi-Cal population. Providers must meet standards for timely access to care and services, considering the urgency of the service needed. Access standards and timeliness requirements that are specified and described in the county implementation plans will be referenced in the state/county intergovernmental agreements (managed care contract per federal definition). Medical attention for emergency and crisis medical conditions must be provided immediately.

- c. **Program Integrity.** The State has taken action to ensure the integrity of oversight processes and will continue to closely monitor for any wrongdoing that impacts the DMC-ODS. The State will continue to direct investigative staff, including trained auditors, nurse evaluators and peace officers to continue to discover and eliminate complex scams aimed at profiting from Medi-Cal. Efforts include extensive mining and analyzing of data to identify suspicious Drug Medi-Cal providers; designating DMC providers as “high” risk which requires additional onsite visits, fingerprinting and background checks (except for county providers); and regulations that strengthen DMC program integrity by clarifying the requirements and responsibilities of DMC providers, DMC Medical Directors, and other provider personnel. In conducting site visits of providers seeking to furnish services under this Pilot, the State shall conduct a site visit monitoring review of every site through which the provider furnishes such services. In addition, providers that have not billed DMC in the last 12 months have been and will continue to be decertified. Counties are required to select and contract with providers according to the requirements specified in section 4(iv) of this amendment

The State will ensure that the counties are providing the required services in the DMC- ODS, including but not limited to the proper application of the ASAM Criteria, through the initial approval in the county implementation plan and through the ongoing county monitoring. The State will conduct a state monitoring review for residential facilities to provide an ASAM designation prior to facilities providing Pilot services. This review will ensure that the facility meets the requirements to operate at the designated ASAM level (as explained in 4(k)).

- d. **Reporting of Activity:** The State will report activity consistent with the Quarterly and Annual Progress Reports as set forth in this Waiver, Section IV, General Reporting Requirements. Such oversight, monitoring and reporting shall include all of the following:
- i. Enrollment information to include the number of DMC-ODS beneficiaries served in the DMC-ODS program.
 - ii. Summary of operational, policy development, issues, complaints, grievances and appeals. The State will also include any trends discovered, the resolution of complaints and any actions taken or to be taken to prevent such issues, as appropriate.
 - iii. Number of days to first DMC-ODS service at appropriate level of care after referral
 - iv. Existence of a 24/7 telephone access line with prevalent non-English language(s)
 - v. Access to DMC-ODS services with translation services in the prevalent non- English language(s)
 - vi. Number, percentage and time period of authorization requests approved or denied
- e. **Triennial Reviews:** During the triennial reviews, the State will review the status of the Quality Improvement Plan and the county monitoring activities. This review will include the counties service delivery system, beneficiary protections, access to services, authorization for services, compliance with regulatory and contractual

requirements of the waiver, and a beneficiary records review. This triennial review will provide the State with information as to whether the counties are complying with their responsibility to monitor their service delivery capacity. The counties will receive a final report summarizing the findings of the triennial review and if out of compliance, the county must submit a plan of correction (POC) within 60 days of receipt of the final report. The State will follow-up with the POC to ensure compliance.

158.DMC-ODS County Oversight, Monitoring and Reporting. The intergovernmental agreement with the state and counties that opt into the waiver must require counties to have a Quality Improvement Plan that includes the county's plan to monitor the service delivery, capacity as evidenced by a description of the current number, types and geographic distribution of substance use disorder services. For counties that have an integrated mental health and substance use disorders department, this Quality Improvement Plan may be combined with the Mental Health Plan (MHP) Quality Improvement Plan.

- a. The county shall have a Quality Improvement committee to review the quality of substance use disorders services provided to the beneficiary. For counties with an integrated mental health and substance use disorders department, the county may use the same committee with SUD participation as required in the MHP contract.
- b. The QI committee shall recommend policy decisions; review and evaluate the results of QI activities; institute needed QI actions, ensure follow-up of QI process and document QI committee minutes regarding decisions and actions taken. The monitoring of accessibility of services outlined in the Quality Improvement Plan will at a minimum include:
 - i. Timeliness of first initial contact to face-to-face appointment
 - ii. Timeliness of services of the first dose of NTP services
 - iii. Access to after-hours care
 - iv. Responsiveness of the beneficiary access line
 - v. Strategies to reduce avoidable hospitalizations
 - vi. Coordination of physical and mental health services with waiver services at the provider level
 - vii. Assessment of the beneficiaries' experiences
 - viii. Telephone access line and services in the prevalent non-English languages.
- c. Each county's QI Committee should review the following data at a minimum on a quarterly basis since external quality review (EQR) site reviews will begin after county implementation. These data elements will be incorporated into the EQRO protocol.
 - i. Number of days to first DMC-ODS service at appropriate level of care after referral
 - ii. Existence of a 24/7 telephone access line with prevalent non-English language(s)
 - iii. Access to DMC-ODS services with translation services in the prevalent

- non- English language(s)
 - iv. Number, percentage of denied and time period of authorization requests approved or denied
- d. Counties will have a Utilization Management (UM) Program assuring that beneficiaries have appropriate access to substance use disorder services; medical necessity has been established and the beneficiary is at the appropriate ASAM level of care and that the interventions are appropriate for the diagnosis and level of care. Counties shall have a documented system for collecting, maintaining and evaluating accessibility to care and waiting list information, including tracking the number of days to first DMC-ODS service at an appropriate level of care following initial request or referral for all DMC- ODS services.
- e. Counties will provide the necessary data and information required in order to comply with the evaluation required by the DMC-ODS.

159.DMC-ODS Financing For claiming federal financial participation (FFP), Counties will certify the total allowable expenditures incurred in providing the DMC- ODS waiver services provided either through county-operated providers (based on actual costs, consistent with a cost allocation methodology if warranted), contracted fee-for-service providers or contracted managed care plans (based on actual expenditures). For contracted FFS providers, counties will propose county-specific rates except for the NTP/OTP modality and the State will approve or disapprove those rates. NTP/OTP reimbursement shall be set pursuant to the process set forth in Welfare and Institutions Code Section 14021.51. All NTP/OTP providers contracting with counties shall provide their county with financial data on an annual basis. This data is to be collected for the purpose of setting the rates after the expiration of the waiver. The DHCS Rates Setting Workgroup shall propose a recommended format for this annual financial data and the State will approve a final format. Counties shall provide this financial data to the DHCS Rates Setting Workgroup upon its request. The provision in the Welfare and Institutions Code, Section 14124.24(h)) remains in effect and NTPs/OTPs will not be required to submit cost reports to the counties for the purpose of cost settlement.

- a. If during the State review process, the State denies the proposed rates, the county will be provided the opportunity to adjust the rates and resubmit to the State. The State will retain all approval of the rates in order to assess that the rates are sufficient to ensure access to available DMC-ODS waiver services. Rates will be set in the State and County intergovernmental agreement. For contracted managed care plans, counties will reimburse the managed care organizations the contracted capitation rate. A CMS-approved CPE protocol, based on actual allowable costs, is required before FFP associated with waiver services is made available to the state. This approved CPE protocol (Attachment AA) must explain the process the State will use to determine costs incurred by the counties under this demonstration.
- b. Only state plan DMC services will be provided prior to the DHCS and CMS approval of the State/County intergovernmental agreement (managed care

- contract per federal definition) and executed by the County Board of Supervisors. State plan DMC services will be reimbursed pursuant to the state plan reimbursement methodologies until a county is approved to begin DMC-ODS services.
- c. SB 1020 (Statutes of 2012) created the permanent structure for 2011 Realignment. It codified the Behavioral Health Subaccount which funds programs including Drug Medi- Cal. Allocations of Realignment funds run on a fiscal year of October 1-September 30. The monthly allocations are dispersed to counties from the State Controller's Office. The Department of Finance develops schedules, in consultation with appropriate state agencies and the California State Association of Counties (CSAC), for the allocation of Behavioral Health Subaccount funds to the counties. The base has not yet been set, as the State assesses the expenditures by county for these programs. The state will continue to monitor the BH subaccount and counties to ensure that SUD is not artificially underspent.
 - d. Subject to the participation standards and process to be established by the State, counties may also pilot an alternative reimbursement structure, including but not limited to, for a DMC-ODS modality if both the provider of that modality and the county mutually and contractually agree to participate. This may include use of case rates. The State and CMS will have the final approval of any alternative reimbursement structure pilot proposed by the county, and such pilot structure must continue to meet the terms and conditions expressed herein, including but not limited to, the rate approval process described above.

160.DMC-ODS Evaluation Through an existing contract with DHCS, University of California, Los Angeles, (UCLA) Integrated Substance Abuse Programs will conduct an evaluation to measure and monitor the outcomes from the DMC-ODS Waiver. The design of the DMC-ODS evaluation will focus on the four key areas of access, quality, cost, and integration and coordination of care. Specifically, the data collection, reporting and analysis strategy for this waiver program will be designed to assess:

- a. The impact of providing intensive outpatient SUD services in the community;
- b. The effectiveness of drug based SUD treatments;
- c. The impact of providing residential SUD services;
- d. Whether the length of stay of residential SUD services affects the impact of such services; and
- e. 5) Whether the residential treatment methods affect the impact of such services.

These impacts will be assessed in terms of beneficiary access, health care costs, outcomes and service utilization, and will utilize a comparison between comparable populations in opt-in counties and other counties. The measurement strategy will track readmission rates to the same level of SUD care or higher, emergency department utilization and inpatient hospital utilization. The measurement strategy will also evaluate successful care transitions to outpatient care, including hand-offs between levels of care within the SUD continuum as well as linkages with primary care upon discharge.

California will utilize the SUD data system currently in place known as the California Outcomes Measurement System (CalOMS). CalOMS captures data from all SUD treatment providers which receive any form of government funding. The CalOMS data set, along with additional waiver specific data, will enable the State to evaluate the effectiveness of the DMC-ODS. The design of the evaluation is contained in Attachment DD, UCLA Evaluation. The state will submit the complete design of the evaluation within 60 days of the approval of the amendment.

One of the focuses of the first year of the evaluation will be that each opt-in county has an adequate number of contracts with NTP providers, access to NTP services has remained consistent or increased and that no disruption to NTP services has occurred as a result of the DMC-ODS.

161. Federal 42 CFR 438 and other Managed Care Requirements

- a. Any entity that receives a prepayment from the state to provide services to beneficiaries will be considered by federal definition, a managed care plan and held to all federal 42 CFR 438 requirements and requirements in this section. Accordingly, counties participating in this DMC-ODS Pilot program will be considered managed care plans. CMS will waive the following 438 requirement(s):
 - i. 438.310-370 (External Quality Review Organizations, or EQROs). Opt-in counties will include in their implementation plan a strategy and timeline for meeting EQR requirements. EQR requirements must be phased in within 12 months of having an approved implementation plan. EQRO monitoring visits will begin in March 2016 in Phase One counties and Phase Two counties will begin in September 2016. By January 2017, the EQRO will begin monitoring all Pilot counties phased into the DMC-ODS.
 - ii. Implementation cannot begin prior to CMS review and approval of the State/County intergovernmental agreement (managed care plan contracts per federal definition).
 - iii. At least sixty (60) days prior to CMS contract approval the state shall submit for each opt-in county the applicable network adequacy requirements as part of the county implementation plan. CMS concurrence with standards is required.
 - iv. At least sixty (60) days prior to CMS contract approval the state shall provide all deliverables necessary to indicate compliance with network adequacy requirements.

XI. Negative Balance

- 162. Repayment of Payment Management System (PMS) Negative Account Balances:** As of November 20, 2015, the total of all Medicaid and CHIP negative subaccount balances through Federal Fiscal Year 2013 for the State of California is **\$1,277,770,233**. In order to bring the accounts into balance, the State shall do the following:
- a. Issue Resolution. CMS and State shall work collaboratively to resolve outstanding issues, including action on deferred plan amendments, other open deferrals, delayed CMS-64 certifications, delayed certified public expenditure reconciliations, positive PMS account balances through FY 2013, the False Claim Act reduction, and overpayment of third party liability collections. By January 31, 2016, CMS and State will:
 - i. Identify and document outstanding issues;
 - ii. Prioritize list; and
 - iii. Create timeline for resolution of each issue by January 31, 2017.
 - b. Repayment Process.
 - i. Negative Account Balances - For any negative account balances unresolved as of January 31, 2017, CMS will issue a demand letter to the state identifying the final negative account balance amount and the state's right to appeal. CMS and the state will develop a repayment schedule in attachment PP that ensures repayment of any remaining amount of the negative account balances identified through Federal Fiscal Year 2013 through even quarterly installments, plus interest, over the life of the waiver. Additional repayment requirements are identified in section C through H below.
 - ii. Deferred Claims - For any deferred claims 1) not paid by CMS by January 31, 2017, 2) for which the state has drawn federal financial participation (FFP) from its PMS account, and 3) for which the state has not returned all drawn FFP to its PMS account by January 31, 2017, CMS shall proceed by disallowance in accordance with 42 CFR 430 Subpart C. The state may request a repayment schedule in accordance with 42 CFR 430 Subpart C. This repayment is not subject to the provisions of subsection C through H below.
 - c. Repayment Period Interest. Interest will accrue, at the Current Value of Funds Rate (CVFR) published by the U.S. Department of Treasury, from February 1, 2017 until the entire principle amount is repaid in full. Each payment will be applied first to accrued interest and then to principal. After each payment, interest will continue to accrue on the remaining principal balance until the debt is paid in full or otherwise resolved by CMS. CMS will adjust the repayment schedule to reflect any changes to the CVFR during the repayment schedule.
 - d. Source of Repayment Funds. The funding source of repayment cannot be derived from federal funds, including any Medicaid or CHIP funds available to the state in FY 2014 or later PMS accounts.

- e. Mechanism of Repayment. The quarter payment amount due or payment in full may be sent via FedWire (preferred), Automated Clearing House (ACH), or check – specific instructions for FedWire or ACH may be obtained from your state’s Division of Payment Management representative. The quarter payment amount due or in payment full via check should be made payable to: “The Department of Health and Human Services” and sent to the following address:

HHS Program Support Center
P. O. Box 530231
Atlanta, GA 30353-0231

Please include your PMS account number and a brief description explaining the nature of the return. Please include a copy of this STC along with your payment.

- f. PMS Draws for Deferred FFP. When CMS issues a deferral of claims for FFP to the state in accordance with the timelines set forth in 42 CFR 430.40, the state must immediately return the deferred FFP to the applicable PMS subaccount while the deferral is being resolved. After CMS reviews the deferred claims, CMS will determine the allowability of the claims. If CMS determines that a deferred claims are allowable under federal requirements, CMS will release the deferred funds to the appropriate PMS subaccount and will notify California that the funds are available for draw.
- g. Adjustments to Repayment Schedule. The state may request a recalculation of the repayment schedule from CMS if the state decides to make accelerated repayment installments. CMS will also adjust and reissue the repayment schedule to reflect any positive Medicaid grant awards issued that reduce the outstanding negative account balance amounts in any of the following PMS subaccounts:
 - i. FY 2009 and Prior MT
 - ii. XIX-MAP11
 - iii. XIX-ADM11
 - iv. HIT-ADM11
 - v. ARRA-EXT INC-FMAPEXTN
 - vi. XIX-MAP12
 - vii. XIX-ADM12
 - viii. HIT-IMP12
 - ix. HIT-IMP13
- h. Cash Management Improvement Act (CMIA) Agreement. The Repayment of Payment Management System (PMS) Negative Account Balances section of these STCs does not preclude action by other federal agencies, including the United States Department of Treasury resulting from a violation of the CMIA agreement between the State of California and the United States Department of Treasury.

XII. Global Payment Program

163. Global Payment Program for Public Health Care Systems

- a. California will operate a global payment program (GPP) to assist public health care systems (PHCS) that provide health care for the uninsured. The GPP is meant to focus on value, rather than volume, of care provided. The purpose is to support PHCS for their key role in providing services to California's remaining uninsured and to promote the delivery of more cost-effective and higher-value care to the uninsured. Promoting more cost-effective and higher value care means that the payment structure will reward the provision of care in more appropriate venues, rather than through the emergency department or through inpatient hospital settings. The State will test a new approach to assist PHCS, and will evaluate the success of the GPP for potentially broader application.
- b. Under the GPP, participating PHCS will receive GPP payments that will be calculated using a value-based point methodology that incorporates factors that shift the overall delivery of services for the uninsured to more appropriate settings and reinforce structural changes to the care delivery system that will improve the options for treating both Medicaid and uninsured patients. The methodology for setting service values will incorporate measures of value for the patient in conjunction with the recognition of costs to the health care system. Care being received in appropriate settings will be valued relatively higher than care given in inappropriate care settings for the type of illness.
- c. Payments will not exceed the limits in Attachment EE but may be less if the thresholds are not achieved. Services will be grouped into categories that reflect where care is being provided. Within each category services will be grouped into tiers of similar service intensity. This will assist in modifying relative values of services, so that their long term value is incorporated and no longer an externality. Service tiers across categories that aim to provide the same end result would have relative values of generally equivalent care. The intent of this framework is to provide flexibility in provision of services while encouraging a broad shift to more cost-effective care that is person-centered.
- d. The total amount available for the GPP is a combination of portion the state's DSH allotment that would otherwise be allocated to the PHCS and the amount associated with the Safety Net Care Uncompensated Care Pool under the Bridge to Reform demonstration.

164. Entities Eligible to Receive Global Payments

Payments under the GPP are available for PHCS that are comprised of a designated public hospital (DPH) identified in Attachment C that agrees to participate in the GPP and the DPH's affiliated and contracted providers (collectively, for purposes of the GPP only, Public Health Care System or "PHCS"). For purposes of the GPP, multiple DPHs and their affiliated and contracted providers may comprise a single PHCS in accordance with criteria established and set forth in Attachment EE (GPP Funding and Mechanics Protocol). DHCS shall identify to CMS all PHCS that will participate in the GPP. A list of Public Health Care Systems is set forth in Attachment C.

165. General Overview of Global Payments

- a. Global payments shall be available based on a GPP program year that aligns with the state fiscal year from July 1 through June 30 (“GPP PY”). The first GPP PY is for the period July 1, 2015 through June 30, 2016.
- b. An annual GPP budget for each participating PHCS shall be established in accordance with the parameters set forth in Attachment EE (GPP Funding and Mechanics Protocol). The aggregate GPP budget among participating PHCS shall not exceed the total computable amount of GPP funds available in a given GPP PY, as established by the limits set forth in STC 167.
- c. PHCS shall be required to provide a threshold amount of care, measured in points, to earn their entire annual GPP budget amount. Points for services will be assigned in a manner that incorporates measures of value for the patient and that achieves other programmatic goals, as set forth in Attachment FF Valuation of Services.
- d. Each PHCS annual threshold point amount is determined through a baseline analysis, accounting for factors such as its historical and projected volume, cost and mix of services to the uninsured and estimated need, determined in accordance with Attachment FF. These thresholds will ensure that PHCS only receive full GPP payments if the PHCS provides levels of services to the uninsured population necessary to meet its threshold that has been set based on the level of services that would otherwise have been provided to the uninsured. For purposes of the GPP, care will be considered uninsured for individuals for whom there is no source of third party coverage for the specific service furnished by the PHCS. Furthermore, an individual will not be considered uninsured with regard to a non-traditional service (as identified in Attachment FF, GPP Valuation Methodology Protocol) he or she receives from the PHCS if the individual has a source of third party coverage for the category of service for which the non-traditional service is being used as a substitute.
- e. Interim GPP payments shall be made to PHCS on a quarterly basis, calculated as 25% of the PHCS’s annual global budget. Within nine months following the end of each GPP PY, the State shall reconcile interim payments to the amount earned for services as established by the reports submitted in accordance with f. below.
- f. Attachment EE (GPP Funding and Mechanics Protocol) sets forth a reporting schedule by which each PHCS will report its actual services provided under the GPP, the corresponding points valuation, and the payments due. The report shall at least include the GPP-related services furnished by the PHCS during the applicable year, reported by category, tier, and type, and shall serve as the basis for reconciling interim GPP payments with final amounts due. As payments for services under the GPP are based on point value, no cost reconciliation protocol will apply. PHCS shall not be subject to the reporting requirements of 42 C.F.R. Section 447.299.

- g. The full amount of a PHCS global budget shall be payable to the PHCS if it meets or exceeds its designated threshold for a given GPP PY. In the event a PHCS does not achieve or exceed its threshold for a given GPP PY, the PHCS's GPP payment shall equal its global budget as reduced by the proportion by which it fell short of its threshold.
- h. The State, in accordance with procedures set forth in Attachment EE (GPP Funding and Mechanics Protocol), shall redistribute unearned GPP funds that were available in a given GPP PY amongst other PHCS that have exceeded their respective threshold for that year.
- i. The non-federal share of GPP payments will be provided by PHCS through intergovernmental transfers (IGT), subject to the requirements of STC 188 (Sources of Non-Federal Share) below. Upon receipt of the IGTs, DHCS will draw the federal funding and pay both the non-federal and federal shares of the applicable GPP payments in accordance with the requirements and schedules described herein and in Attachment EE (GPP Funding and Mechanics Protocol). In the event GPP payments are recouped upon reconciliation, DHCS will repay the corresponding federal share to CMS in accordance with federal regulations at 42 CFR 430.30, et seq.
- j. GPP payments determined annually for each eligible PHCS, after accounting for finalization of the applicable DSH allotment and subparagraphs g and h as applicable, represent the final amounts available for that GPP PY.

166. Valuation of Services.

- a. Services under the GPP shall be valued in accordance with the methodology set forth in Attachment FF (GPP Valuation Methodology). The valuation methodology allows for the continuation of services provided by Public Health Care Systems that were reimbursed under the previous Demonstration's DSH and SNCP structure, while encouraging more cost-effective and innovative care where appropriate. Point values shall also be developed for those innovative or alternative services where there is currently little to no reimbursement. The valuation methodology reflects the following programmatic goals:
 - i. Facilitate a shift away from the previous cost-based payment that was restricted to mostly hospital settings and subject to prolonged periods of cost reconciliation;
 - ii. Broaden the settings in which Public Health Care Systems receive payment for services furnished to the uninsured, and encourages Public Health Care Systems to provide greater primary and preventive services, as well as to create access to alternative modalities such as telehealth, group visits and health coaching;
 - iii. Emphasize coordinated care and alternative modalities by recognizing the higher value of access to primary care, ambulatory care, and other core components of care management, as compared to the higher cost of avoidable emergency room visits and acute care hospital stays;

- iv. Recognize the value of services that typically are not directly or separately reimbursed by Medicaid or other payors (“non-traditional” services), and that substitute or complement services for which payment is typically available upon provision of the service (“traditional” services).
- b. All services eligible for points under the GPP are grouped into the four categories described below in STC 168:

Services within the categories are further stratified into tiers based on similar service intensity, activity and/or effort. Relative point values are assigned to tiers for purposes of reporting and generating payments.
- c. The valuation methodology incorporates a phased approach in which traditional services, over the course of the Demonstration term, reflect reduced point values. High intensity services will continue to be recognized for their value and importance, including recognition in the point system that emergency room visits and inpatient stays may be necessary and appropriate.
- d. Relative values will be initially set based on cost and then adjusted to a limited degree based on other measures of value, in order to assist in maintaining accountability for the amount of services provided compared to the funding Public Health Care Systems receive. Higher relative value points may be assigned to services, including non-traditional services that help promote one or more of the objectives from the list below; however, the relative point value of services, except for those services for which cost information is not readily available, such as non-traditional services, may not vary from their initial cost-based amounts by more than 40 percent at any time during the GPP.
 - i. Timeliness and convenience of service to patient;
 - ii. Increased access to care;
 - iii. Earlier intervention;
 - iv. Appropriate resource use for a given outcome;
 - v. Health and wellness services that result in improved patient decisions and overall health status;
 - vi. Potential to mitigate future costs;
 - vii. Preventive services;
 - viii. Likelihood of bringing a patient into an organized system of care;
 - ix. Additional criteria, to be designed by the state;
- e. In GPP PYs in which point revaluation has occurred, point revaluation must be calibrated so that the overall impact would not lead to any PHCS receiving additional total points in any given GPP PY if its utilization and the mix of services provided remained the same as in the baseline period used to determine the designated threshold.

- f. The exact methodology for assigning points to the services will be provided for CMS approval in Attachment FF. The methodology will require CMS approval before it can be implemented. If the state proposes to change point valuations or add new services, it must obtain CMS approval before they may be implemented in the program.
- g. PHCS are not required to provide every service identified on Attachment FF (GPP Valuation Methodology), but are allowed the flexibility to provide services, through their global payments budgets and service-related point thresholds, to address local needs.

167. Global Payment Protocols. Within 60 days of CMS approval of the terms and conditions for Medi-Cal 2020, CMS and the State will, through a collaborative process, develop and finalize Global Payment Funding and Mechanic Protocols, and Global Payment Valuation Protocol. These documents will be incorporated into the STCs as Attachments EE and FF, respectively).

168. Funding and Annual Limits

- a. Under this new approach, the state’s existing Disproportionate Share Hospital (DSH) funding for participating PHCS and funding from the UC Pool will be combined to make payments to participating PHCS that incur costs for services to the remaining uninsured. During each GPP PY, FFP will be available for such GPP payment expenditures up to the amount equal to the state’s entire DSH allotment as set forth in section 1923(f) of the Act, adjusted as described in subparagraphs of this STC b and .c below (“Adjusted DSH”), combined with the additional Demonstration UC funding amounts as set forth in subparagraph d below. In order to align DSH amounts with each SFY, the state’s DSH allotment for the federal fiscal year that commences in the SFY will be used.
- b. A portion of California’s DSH allotment shall be set aside for those California DSH facilities that do not participate in the GPP. The amount set aside shall be identified in Attachment EE (GPP Funding and Mechanics Protocol).
- c. In any year to which reductions to California’s DSH allotment are required by section 1923(f)(7) of the Social Security Act, the amount of the DSH allotment attributable to GPP in a given GPP PY shall be reduced consistent with CMS guidelines.
- d. The total computable amount available for the UC component shall equal \$472 million in GPP PY1. For GPP PYs 2 through 5 the UC component will be determined by CMS based upon the information contained in the Independent Report on Uncompensated Care. Such reductions shall be specified by CMS within 60 days of receipt of such report.
Taken together, the total computable annual limits for GPP payments will not exceed the limits set forth below:

GPP PY 1 (SFY 15-16) – Adjusted DSH + \$472 million = approximately \$2.9 billion

GPP PY 2 (SFY 16-17) – Adjusted DSH + UC component

GPP PY 3 (SFY 17-18) – Adjusted DSH + UC component

GPP PY 4 (SFY 18-19) – Adjusted DSH + UC component

GPP PY 5 (SFY 19-20) – Adjusted DSH + UC component

- e. The non-federal share of payments under the GPP shall be funded by voluntary intergovernmental transfers made by PHCS, or governmental agencies affiliated with PHCS. The funding entity shall certify that the funds transferred qualify for federal financial participation pursuant to 42 C.F.R. part 433 subpart B, and are not derived from impermissible sources such as recycled Medicaid payments, federal money excluded from use as State match, impermissible taxes, and non-bona fide provider-related donations. The State must have permissible sources for the non-federal share of GPP expenditures, which may include permissible Intergovernmental Transfers (IGTs) from government-operated entities and state funds. Sources of non-federal funding shall not include provider taxes or donations impermissible under section 1903(w), impermissible intergovernmental transfers from providers, or federal funds received from federal programs other than Medicaid (unless expressly authorized by federal statute to be used for claiming purposes, and the federal Medicaid funding is credited to the other federal funding source). For this purpose, federal funds do not include PRIME payments, patient care revenue received as payment for services rendered under programs such as the Designated State Health Programs, Medicare, or Medicaid.
- f. The state will ensure that any lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of Medicaid services available under the state plan or this demonstration. The preceding sentence is not intended to preclude the state from modifying the Medicaid benefit through the state plan amendment process.

169. Categories. Each service will be assigned into a category by the state that best reflects its characteristics of intensity and area delivered. These categories will assist in determining the point values of individual services. The categories listed below are intended to provide a broad overview of the categories and services. The full description of categories are included in Attachment FF

- a. **Category 1:** Traditional Outpatient - This category includes traditional outpatient services provided by a public hospital system facility:
 - ii. Non-physician practitioner;
 - iii. Traditional, provider-based primary care or specialty care visit;
 - iv. Mental health visit;
 - v. Dental;
 - vi. Public health visit;
 - vii. Post-hospital discharge;
 - viii. Emergency room/Urgent Care;

- ix. Outpatient procedures/surgery, provider performed diagnostic procedures;
- b. **Category 2: Non-Traditional Outpatient** – This category includes non-traditional outpatient encounters, where care is provided by non-traditional providers or in non-traditional settings:
 - x. Community health worker encounters;
 - xi. Health coach encounters;
 - xii. Care navigation;
 - xiii. Health education & community wellness encounters;
- c. **Category 3: Technology-Based Outpatient** – This category includes technology-based outpatient encounters that rely mainly on technology to provide care:
 - xiv. Call line encounters;
 - xv. Texting;
 - xvi. Telephone and email consultations between provider and patient;
 - xvii. Provider-to-provider eConsults for specialty care;
 - xviii. Telemedicine;
- d. **Category 4: Inpatient and Facility Stays** – This category includes traditional inpatient and facility stays by patients:
 - xix. Recuperative/respite care days;
 - xx. Sober center days;
 - xxi. Sub-acute care days;
 - xxii. Skilled nursing facility days;

- 170. Service Threshold** The threshold amounts for each PHCS will initially be constructed using the volume and cost of services occurring in participating providers, and will use the most recent complete state fiscal year data (Base SFY). Point values for each service will be consistent across all providers. The threshold amounts shall be determined in accordance with the methodology set forth in Attachment EE (GPP Funding and Mechanics Protocol), which takes into account the following requirements and factors:
- a. Historic point values for each service category on a per unit of service basis across all Public Health Care Systems, taking into account at a minimum varying methods for identifying units and categories of services, cost per unit, cost trends and service mix;
 - b. Base SFY utilization for each Public Health Care System; and
 - c. Adjustments to account for changes in uninsured service needs since Base SFY, including the coverage expansions resulting from ACA implementation.
 - d. This threshold will require approval by CMS before it can be finalized.
 - i. Thresholds for GPP PY2-PY5 will decline in proportion to reductions in annual limits.
- 171. Penalties for non-compliance** If the state does not timely submit the final report as required in STC 180 below, including all requested analyses and recommendations, the state's expenditure authority for uncompensated care pools will be reduced by \$500,000. The state may seek, and CMS may grant, relief from this reduction, if needed.

- 172. Global Payment Program Protocols** The GPP Funding and Mechanics Protocol (Attachment EE) and a GPP Valuation Methodology Protocol (Attachment FF) set forth in detail the parameters and procedures related to the operation of the GPP.
- 173. Global Payment Program Value Methodology Protocol** includes the following::
- a. The master list of services and activities for which points apply under the GPP and their associated point values, including the placement of services within the categories and tiers and how point values will change over the course of the Demonstration
 - b. Methodology for calculating and modifying the PHCS thresholds.
- 174. The Global Payment Program Funding and Mechanics Protocol** specifies the following:
- a. How PHCS may be defined, including criteria for when multiple DPHs may comprise a single Public Health Care System.
 - b. Methodology for establishing and modifying annual global budgets for each PHCS.
 - c. Technical guidance on how eligible services to the uninsured are defined, accounted for and reported.
 - d. Reporting schedule for PHCS to report services provided under the GPP.
 - e. Transfer of IGTs, interim payment and final payment reconciliation mechanics and schedules.
 - f. Methods for redistributing unused portions of annual global budgets among PHCS that exceeded their point threshold
- 175. Evaluations of provider expenditures and activities under the global payment program.**
- a. The state will conduct two evaluations of provider expenditures and activities under the global payment methodology. The first evaluation (using 24 months of data) will occur at the midpoint of the demonstration. The second will occur as part of the interim evaluation report due at the end of GPP PY 4.
 - b. As the Global Payment Program is testing a new approach to financing care to the remaining uninsured, the two evaluations will monitor the implementation and impact of the demonstration to inform how improvements to the GPP can be made following the expiration of the Demonstration.
 - c. Both evaluations will examine the purpose and aggregate impact of the GPP, care provided by PHCS and patients' experience, with a focus on understanding the benefits and challenges of this innovative payment approach.
 - d. To ensure the GPP is achieving the goals of promoting value, not volume, the evaluations will address by each individual PHCS, at baseline and under the GPP methodology:
 - i. The number of uninsured individuals served
 - ii. The number and types of services provided,
 - iii. Expenditures associated with the services provided,
 - iv. Expenditures that the evaluators estimate were avoided or reduced due to the Global Payment Program. The ratio of the GPP funding to uninsured

uncompensated care cost compared to the ratio in SFY 2014-2015 ratio of SNCP and DSH payments to uninsured uncompensated care cost including how and why the ratio of payment to uninsured uncompensated cost has evolved compared to the prior DSH and SNCP methodologies;

- v. An assessment of the effects of the GPP on care delivery and costs.
 - vi. In determining uncompensated care costs, the evaluations shall be conducted at both the 100 percent and 175 percent UCC levels to account for the recognition of cost levels specific to California in federal law set forth in section 4721(e) of the Balanced Budget Act of 1997 (P.L. 105-33) and in section 607 of the Medicare, Medicaid, and SCHIP Balanced Budget Refinement Act of 1999 (P.L. 106-113).
- e. As part of the evaluation of the overall success of the GPP, in addition to the items above, for the second evaluation only, the evaluation will also examine factors to evaluate the objectives of the GPP program, including the extent to which the GPP encouraged or improved:
- i. Care in more appropriate settings, to ensure that patients are seen in the right place and given the right care at the right time.
 - ii. Changes in resource allocation
 - iii. Improvements in workforce involvement and care team transformation under the demonstration
- f. Both evaluations will include narrative hospital self-assessments of the successes and challenges of the GPP.
- g. The evaluations are not intended to be the basis of funding changes to the Uncompensated Care Pool during the term of the demonstration.

176. Coordination with DSH

- a. To maintain budget neutrality, the state will not make DSH payments and uncompensated care payments to hospitals participating in the GPP that are authorized under the state plan.
- b. Hospitals that meet DSH eligibility criteria and which are not participating within a PHCS may receive DSH payments under the applicable provisions of Attachment 4.19-A of the state plan, as modified pursuant to Attachment NN (DSH Coordination Methodology).

177. Discontinuation of GPP

DHCS may, in consultation with the participating PHCS, discontinue the GPP in any subsequent state fiscal year(s) for the remainder of the Demonstration and revert to financing uncompensated care costs for Medicaid and uninsured patients under the DSH program pursuant to the state plan. DHCS shall notify CMS no later than 30 days prior to the start of the initial state fiscal year for which the GPP will be discontinued. DHCS will follow the appropriate processes as is necessary to facilitate DSH payments to affected PHCS under the State plan.

178. DSH Payments and FFY

The state is not authorized to make a DSH payment under the Medicaid state plan for any hospital for any federal fiscal year (FFY) in which the hospital is eligible for a GPP payment for the corresponding GPP Program Year (PY). Each PY corresponds with the FFY that begins during the PY, except that GPP PY 1 corresponds with FFY 2016. A DSH payment is considered to be made for a FFY if the payment would count against the DSH allotment for that FFY. In the event that the GPP is not authorized for a full PY, the state is prohibited from making duplicate GPP and DSH payments to GPP-eligible hospitals and must submit, subject to CMS approval, a method for allocating GPP and DSH payments to avoid duplication during the affected period

XIII. Uncompensated Care Reporting

179. Independent Report on Uncompensated Care.

The following describe the requirements for two independent reports on uncompensated care.

- a. Description. The state must commission two reports from an independent entity on uncompensated care in the state.
 - i. The first report, due May 15, 2016, will focus on Designated Public Hospitals. The objective of this report will be to support a determination of the appropriate level of Uncompensated Care Pool funding at those providers in years two through five of the demonstration. CMS will provide a formal determination of the funding levels for demonstration years two through five within 60 days of receipt of the complete report.
 - ii. The second report, due June 1, 2017, will focus on uncompensated care, provider payments and financing across hospital providers that serve Medicaid beneficiaries and the uninsured under the current demonstration. The report will include information that will inform discussions about potential reforms that will improve Medicaid payment systems and funding mechanisms and the quality of health care services for California's Medicaid beneficiaries and for the uninsured.

180. The state must assure that \$1,000,000 is available to complete the reports. Funding made available for the reports from non-state entities, such as foundations, would satisfy this requirement even if such funds did not flow through the state.

181. Contents of the Reports. The analysis will be completed in two separate reports.

- a. **The First Report.** The first report must review the impact of the uncompensated care pool on those providers who participate in the UC pool with respect to:
 - i. Uncompensated care provided: The cost of uncompensated care provided to uninsured individuals, distinguishing between costs associated with charity care from those associated with bad debt, and the extent that historical pool payments have addressed these costs.
 - ii. Medicaid provider payment rates;
 - iii. Medicaid beneficiary access; and
 - iv. Role of managed care plans in managing care.

- b. **The Second Report.** The second report will include the elements in subsection (a) of this STC with respect to all Medicaid hospital providers in the state, including data from the first report, and will also include a comparable examination of provider financing for those providers who serve the Medicaid population and the low-income uninsured. In addition, the second report will include:
 - i. The role of the PRIME program for designated public hospital systems.
 - ii. A detailed description and analysis of the current Medicaid hospital payment and financing system, with a major focus on services currently supported with pool funds;
 - iii. The financing of overall uncompensated care in the state and the financing of providers that play a significant role in serving the Medicaid population and the low income uninsured, and the extent to which pool funds are needed to cover uncompensated care;
 - iv. Reporting of how uncompensated care has changed since implementation of the ACA expansion.
 - v. Information to support the goal for public health care systems to become self-sustaining entities that are not reliant on pool funds beyond 2020;
 - vi. Information that will inform discussions about potential reforms that will improve Medicaid payment systems and funding mechanisms and the quality of health care services for California's Medicaid beneficiaries and for the uninsured.
- c. **Both Reports.** Both reports should provide the following information for the hospital providers covered in the respective reports:
 - i. Total hospital system revenue from all payors
 - ii. Total Medicaid revenue (including patient care revenue and all other Medicaid revenue such as demonstration revenue and incentive payments)
 - iii. Total Medicaid patient care revenue
 - iv. Total safety net care pool revenue

All data presented in each report must be submitted to CMS in unlocked Excel worksheets to assist in review of the analysis

Monitoring and Potential Reductions

- a. Monthly monitoring calls with the state will include an update of progress on the report as noted in monitoring section of the STCs.
- b. If the state does not timely submit a final report, including all requested analyses and recommendations, the state's expenditure authority for uncompensated care pools will be reduced by \$500,000. The state may seek, and CMS may grant, relief from this reduction, if needed.

XIV. GENERAL FINANCIAL REQUIREMENTS UNDER TITLE XIX

- 181. Quarterly Reports.** The State will provide quarterly expenditure reports using the form CMS-64 to report total expenditures for services provided under the Medicaid program, and to separately identify expenditures provided through the California’s Medi-Cal 2020 demonstration under section 1115 authority which are subject to budget neutrality. This project is approved for expenditures applicable to services rendered during the demonstration period. The CMS will provide FFP for allowable demonstration expenditures only as long as they do not exceed the pre-defined limits on the costs incurred as specified in Section XI (Monitoring Budget Neutrality).
- 182. Reporting Expenditures under the Demonstration.** In order to track expenditures under this demonstration, California will report demonstration expenditures through the Medicaid and Children's Health Insurance Program Budget and Expenditure System (MBES/CBES), following routine CMS-64 reporting instructions outlined in section 2500 of the State Medicaid Manual (SMM).
- a. All demonstration expenditures claimed under the authority of title XIX of the Act must be reported each quarter on separate CMS-64.9 Waiver and/or 64.9P Waiver forms, identified by the demonstration project number assigned by CMS (including the project number extension, which indicates the demonstration year in which services were rendered or for which capitation payments were made). For monitoring purposes, costs settlements must be recorded on Line 10.b., in lieu of Lines 9 or 10.c. For any other costs settlements (i.e., those not attributable to this demonstration), the adjustments should be reported on Lines 9 and 10.c., as instructed in the SMM. The term “expenditures subject to the budget neutrality cap,” is defined in STC 183.
 - b. For each demonstration year, thirty-three (33) separate Forms CMS-64.9 Waiver and/or 64.9P Waiver must be completed to report expenditures for the following demonstration expenditures. The eligibility groups (EGs) and Demonstration Programs that are used for calculation of the budget neutrality limit described in STC 197 and the specific waiver names to be used to identify these separate Forms CMS-64.9 Waiver and/or 64.9P Waiver are described below.

Eligibility Group (EG) or Demonstration Program (DP)	Demonstration Expenditures	CMS 64 Waiver Form
Urban Family – TPM/GMC	Family & Children – Pre-2013 TPM/GMC counties, excludes those in CCI counties Includes low income pregnant women	A-FamilyU TPM/GMC

Eligibility Group (EG) or Demonstration Program (DP)	Demonstration Expenditures	CMS 64 Waiver Form
Rural Family – TPM/GMC	Family & Children – 2013 managed care expansion non-COHS counties (including San Benito and Imperial counties) Includes low income pregnant women	A-FamilyR TPM/GMC
SPD – TPM/GMC	Seniors & People with Disabilities –Includes partial dual eligibles without Medicare Part A or B; Excludes those in CCI counties.	A-SPD TPM/GMC
Duals - TPM/GMC	Beneficiaries with Medicare Part A and B–excludes those enrolled in CCI counties	A-Duals TPM/GMC
Urban Family – COHS	Family & Children – Pre-2013 expansion COHS counties, excludes those in CCI counties Includes low income pregnant women	A-FamilyU COHS
Rural Family - COHS	Family & Children – 2013 managed care expansion COHS counties Includes low income pregnant women	A-FamilyR COHS
SPD – COHS	Seniors & People with Disabilities –Includes partial dual eligibles without Medicare Part A or B) Excludes those enrolled in CCI counties	A-SPD COHS
Duals - COHS	Beneficiaries with Medicare Part A and B–excludes those enrolled in CCI counties	A-Duals COHS

Eligibility Group (EG) or Demonstration Program (DP)	Demonstration Expenditures	CMS 64 Waiver Form
MLTSS Family – TPM/GMC	Family & Children in TPM/GMC CCI counties Includes low income pregnant women	A-Family TPM/GMC CCI
MLTSS SPDs – TPM/GMC	Seniors & People with Disabilities in TPM/GMC CCI counties	A-SPD TPM/GMC CCI
MLTSS Duals - TPM/GMC	Beneficiaries with Medicare Part A and B in TPM/GMC CCI counties not enrolled in Medi-Connect	A-Duals TPM/GMC CCI
Cal-Medi-Connect - TPM/GMC	Beneficiaries with Medicare Part A and B enrolled in Cal-Medi-Connect in TPM/GMC CCI counties	A-Cal-Medi TPM/GMC CCI
MLTSS Family – COHS	Family & Children receiving MLTSS in COHS CCI counties Includes low income pregnant women	A-Family COHS CCI
MLTSS SPDs - COHS	Seniors & People with Disabilities in COHS CCI counties	A-SPD COHS CCI
MLTSS Duals - COHS	Beneficiaries with Medicare Part A and B in COHS CCI counties not enrolled in Cal-Medi-Connect	A-Duals COHS CCI
Cal-Medi-Connect - COHS	Beneficiaries with Medicare Part A and B enrolled in Cal-Medi-Connect in COHS CCI counties	A-Cal-Medi COHS CCI
CBAS*	Community Based Adult Services	CBAS
New Adult Group*	New adult group (section 1902(a)(10)(A)(i)(VIII) of the Act)	New Adult Group
Global Payment Program for the Remaining Uninsured	Global Payment expenditures	Global

Eligibility Group (EG) or Demonstration Program (DP)	Demonstration Expenditures	CMS 64 Waiver Form
Disproportionate Share Hospital Payments	Continuing DSH not included in Global. Each reported DSH payment must be associated with the appropriate FFY DSH allotment, and with the DY that includes the start date of the FFY for the DSH allotment.	DSH
Public Hospital Redesign and Incentives in Medi-Cal	Domain 1: Outpatient Delivery System Transformation and Prevention	PRIME-Domain 1
	Domain 2: Targeted High-Risk or High-Cost Populations	PRIME-Domain 2
	Domain 3: Resource Utilization Efficiency	PRIME-Domain 3
IHS Uncompensated Care	Uncompensated care payments to IHS and 638 Facilities (IHS)	UC - IHS
Designated State Health Programs	California Children Services - Designated State Health Program	CCS - DSHP
	Genetically Handicapped Persons Program - Designated State Health Program	GHPP – DSHP
	Medically Indigent Adult Long Term Care - Designated State Health Program	MIALTC – DSHP
	Breast & Cervical Cancer Treatment Program - Designated State Health Program	BCCTP – DSHP
	AIDS Drug Assistance Program - Designated State Health Program	ADAP- DSHP
	Workforce Development Programs - Designated State Health Program	Work – DSHP

Eligibility Group (EG) or Demonstration Program (DP)	Demonstration Expenditures	CMS 64 Waiver Form
	Department of Developmental Services - Designated State Health Program	DDS – DSHP
	Prostate Cancer Treatment Program - Designated State Health Program	PCTP-DSHP
DMC-ODS*	Drug Medi-Cal Organized Delivery System	DMC-ODS
Dental Transformation Incentive Program	Dental Transformation Incentive Program expenditures	Dental Trans
Whole Person Care Pilots	Whole Person Care Pilots expenditures	Whole Person

* Note: These expenditures are excluded from the demonstration’s budget neutrality cap, as described below.

- c. Pharmacy Rebates and FQHC Wrap Payments. Pharmacy rebates and wrap payments to federally qualified health centers (FQHC) are excluded from the determination of budget neutrality, and therefore should be reported on the CMS-64.9 Base and/or 64.9P Base forms.
- d. The following table indicates how expenditures will be reported by DY for programs in which the program year may not coincide with a DY. Expenditures for all EGs listed in the table in (b) above that do not appear in the table below must be reported by DY according to the date in which services were rendered or for which capitation payments were made, except that expenditures with service dates between July 1 and December 31, 2015 should be reported for DY 11.

Report for This DY	GPP Payment s by Program Year (PY)	DSH Payment s Subject to FFY DSH Allotment	PRIME Payment s by DY	WPC Payments by PY	DTI Payments by PY	DSHP Spending by SFY
DY 11	PY 1	2016	DY 11	PY 1	PY 1	2016
DY 12	PY 2	2017	DY 12	PY 2	PY 2	2017
DY 13	PY 3	2018	DY 13	PY 3	PY 3	2018
DY 14	PY 4	2019	DY 14	PY 4	PY 4	2019
DY 15	PY 5	2020	DY 15	PY 5	PY 5	2020

- e. For each Demonstration year, a separate Forms CMS-64.21U Waiver and/or 64.21UP Waiver must be completed to report expenditures for the following demonstration

expenditures. The specific waiver names to be used to identify these separate Forms CMS-64.21U Waiver and/or 64.21UP Waiver appear in brackets below:

- i. MCHIP: The CMS 64.21-Waiver form must be completed to report expenditures for the Medicaid expansion demonstration population. [MCHIP].
- f. Reporting member months. Reporting Member Months. The following describes the reporting of member months for demonstration populations.
- i. For the purpose of calculating the budget neutrality expenditure limit and for other purposes, the state must provide to CMS, as part of the Quarterly Report required under paragraph 25, the actual number of eligible member months for each of the EGs described (b) above. The state must submit a statement accompanying the Quarterly Report, which certifies the accuracy of this information. To permit full recognition of “in-process” eligibility, reported counts of member months may be subject to revision.
 - ii. The term “eligible member/months” refers to the number of months in which persons are eligible to receive services. For example, a person who is eligible for 3 months contributes 3 eligible member months to the total. Two individuals who are eligible for 2 months each contribute 2 eligible member months to the total, for a total of 4 eligible member/months.
 - iii. Eligible member months for July through December 2015 will apply to DY 11 under Medi-Cal 2020, and not DY 10 or Bridge to Reform.

183. Expenditures Subject to the Budget Neutrality Cap. For purposes of this section, the term “expenditures subject to the budget neutrality cap” must include all expenditures, identified in STC 195, except for those designated for exclusion (*). All expenditures that are subject to the budget neutrality cap are considered demonstration expenditures and must be reported on Forms CMS-64.9 Waiver and/or 64.9P Waiver, and CMS 64.21 Waiver and/or 64.21P Waiver.

184. Administrative Costs. Administrative costs will not be included in the budget neutrality limit, but the State must separately track and report additional administrative costs that are directly attributable to the Demonstration on Forms 64.10 Waiver and/or 64.10P Waiver.

185. Claiming Period. All claims for expenditures subject to the budget neutrality cap (including any cost settlements) must be made within 2 years after the calendar quarter in which the State made the expenditures. All claims for services during the Demonstration period must be made within 2 years after the conclusion or termination of the Demonstration. During the latter 2 year period, the State must continue to identify separately net expenditures related to dates of service during the operation of the Demonstration on the CMS-64 waiver forms in order to properly account for these expenditures in determining budget neutrality.

186. Standard Medicaid Funding Process. The standard Medicaid funding process must be used during the Demonstration. California must estimate matchable Medicaid expenditures

(total computable and Federal share) subject to the budget neutrality cap and separately report these expenditures by quarter for each Federal fiscal year on Form CMS-37 for both the Medical Assistance Payments (MAP) and State and Local Administration Costs (ADM). CMS shall make Federal funds available based upon the State's estimate, as approved by CMS. Within 30 days after the end of each quarter, the State must submit the appropriate Form CMS-64 quarterly Medicaid expenditure report, showing Medicaid expenditures made in the quarter just ended. CMS will reconcile expenditures reported on the Form CMS-64 with Federal funding previously made available to the State, and include the reconciling adjustment in the finalization of the grant award to the State.

187. Extent of Federal Financial Participation for the Demonstration. Subject to CMS approval of the source(s) of the non-Federal share of funding and in accordance with paragraphs 30 entitled Certified Public Expenditures CMS will provide FFP at the applicable Federal reimbursement rate as outlined below, subject to the limits described in Section XI:

- a. Administrative costs, including those associated with the administration of the California's Medi-Cal 2020 Demonstration.
- b. Net medical assistance payments/expenditures and prior period adjustments paid in accordance with the approved State Plan.
- c. Expenditures associated with expenditure authorities granted for the demonstration.

188. Sources of Non-Federal Share. The state certifies that state and local monies are used as matching funds for the demonstration. The state further certifies that such funds shall not be used as matching funds for any other federal grant or contract, except as permitted by law. All sources of the non-federal share of funding must be compliant with section 1903(w) of the Act and any applicable regulations, i.e., are not derived from impermissible provider taxes or donations or federal funds (unless the other federal funding source by law allows use of federal funds for matching purposes). Further, these sources and distribution of monies involving federal match are subject to CMS approval. Upon review of the sources of the non-federal share of funding and distribution methodologies, any sources deemed unacceptable by CMS shall be addressed within the time frames set by CMS. For non-federal share funding using intergovernmental transfers, the funding entity shall certify that the funds transferred qualify for federal financial participation pursuant to 42 CFR part 433 Subpart B, and are not derived from impermissible sources such as recycled Medicaid payments, federal money excluded from use as state match, impermissible taxes, and non-bona fide provider-related donations. The state must have permissible sources for the non-federal share of demonstration expenditures, which may include CPEs or permissible Intergovernmental Transfers (IGTs) from government-operated entities and state funds. Sources of non-federal funding shall not include provider taxes or donations impermissible under section 1903(w), impermissible intergovernmental transfers from providers, or federal funds received from federal programs other than Medicaid (unless expressly authorized by federal statute to be used for claiming purposes, and the federal Medicaid funding is credited to the other federal funding source). For this purpose, federal funds do not include

PRIME payments, patient care revenue received as payment for services rendered under programs such as the Designated State Health Programs, Medicare, or Medicaid.

189. **Monitoring the Demonstration.** The State will provide CMS with information to effectively monitor the Demonstration, upon request, in a reasonable time frame.
190. **Cost-Claiming.** All costs will be claimed in accordance with OMB Circular A-87 as defined within Attachment F, and any other cost claiming methodologies or protocols approved by CMS under this Demonstration.

XV. GENERAL FINANCIAL REQUIREMENTS UNDER TITLE XXI

191. **Quarterly Expenditure Reports.** The State must report State Plan and Demonstration expenditures using the Medicaid and Children's Health Insurance Program Budget and Expenditure System (MBES/CBES), following the routine CMS MBES system instructions. The State shall report on separate forms, CMS-64.21U Waiver and/or CMS-64.21UP Waiver, for Title XXI Demonstration expenditures for Medicaid Expansion children eligible for title XXI funding. This project is approved for expenditures applicable to services rendered during the Demonstration period. CMS will provide FFP only for allowable Demonstration expenditures that do not exceed the State's available title XXI funding.
192. **Reporting Expenditures Under the Demonstration.** In order to track title XXI expenditures under this Demonstration, the State will report Demonstration expenditures through the MBES/CBES, following routine CMS MBES system instructions. The State will report Title XXI Demonstration expenditures on separate Forms CMS-64.21U Waiver and CMS-64.21UP Waiver, identified by the Demonstration project number assigned by CMS (including project number extension, which indicates the demonstration year in which services were rendered or for which capitation payments were made). Once the appropriate waiver form is selected for reporting expenditures, the State must identify the program code and coverage.
 - a. The State must submit all claims for expenditures related to the Demonstration (including any cost settlements) within 2 years after the calendar quarter in which the State made the expenditures. Furthermore, the State must submit all claims for services during the Demonstration period (including cost settlements) within 2 years after the conclusion or termination of the Demonstration. During the 2-year period, the State must continue to identify separately, on the Form CMS-64, 21, net expenditures related to dates of service during the operation of the Demonstration.
 - b. The State will use standard MCHIP funding process during the Demonstration. The State must estimate matchable MCHIP expenditures on the quarterly Form CMS-37. On a separate CMS-37, the State shall provide updated estimates of expenditures for the Medicaid Expansion Demonstration population. CMS will make Federal funds available based upon the State's estimate, as approved by CMS. Within 30 days after the end of each quarter, the State must submit the

Form CMS-64.21 quarterly CHIP expenditure report. CMS will reconcile expenditures reported on the Form CMS-64.21 with Federal funding previously made available to the State, and include the reconciling adjustment in the finalization of the grant award to the State.

- c. The State will certify State/local monies used as matching funds for the Demonstration and will further certify that such funds will not be used as matching funds for any other Federal grant or contract, except as permitted by Federal law.

193. Limitations on Title XXI Funding. The State will be subject to a limit on the amount of Federal title XXI funding that the State may receive on Demonstration expenditures during the Demonstration period. Federal title XXI funding available for Demonstration expenditures is limited to the State's available allotment, including currently available reallocated funds. Should the State expend its available title XXI Federal funds for the claiming period, no further enhanced Federal matching funds will be available for costs of the approved title XXI separate child health program or Demonstration until the next allotment becomes available.

- a. Total Federal title XXI funds for the State's CHIP program (i.e., the approved title XXI State plan and this Demonstration) are restricted to the State's available allotment and reallocated funds. Title XXI funds (i.e., the allotment or reallocated funds) must first be used to fully fund costs associated with the State plan population. Demonstration expenditures are limited to remaining funds.
- b. Total expenditures for outreach and other reasonable costs to administer the title XXI State plan and the Demonstration that are applied against the State's title XXI allotment may not exceed 10 percent of total title XXI expenditures.

Premium contributions under the Demonstration shall be reported to CMS on Form CMS-21 Waiver, Line 29, in order to assure that the Demonstration is properly credited with premium collections.

If the state exhausts the available title XXI Federal funds in a Federal fiscal year during the period of the demonstration, the State must continue to provide coverage to the approved title XXI State plan separate child health program population and the demonstration population with State funds.

XVI. MONITORING BUDGET NEUTRALITY FOR THE DEMONSTRATION

194. Budget Neutrality Effective Date. All STCs, waivers, and expenditure authorities relating to budget neutrality shall be effective beginning January 1, 2016. Notwithstanding this effective date, expenditures made by California for Safety Net Care Uncompensated Care Pool payments during the temporary extension period of November 1, 2015 through December 31, 2015, and Medicaid service expenditures for managed care populations and

DSHP expenditures from July 1 to December 31, 2015, must be applied against Demonstration Year 11 (DY 11) expenditures.

- 195. Limit on Title XIX Funding.** California will be subject to a limit on the amount of Federal title XIX funding that California may receive on selected Medicaid expenditures during the period of approval of the Demonstration. The selected Medicaid expenditures consist of the expenditures for the range of services included in the managed care contracts and used to develop the without waiver per member per month limits under the Demonstration. The limit will consist of three parts, and is determined by using a per capita cost method combined with an aggregate amount based on the aggregate annual diverted upper payment limit determined for designated public hospitals in California and disproportionate share hospital (DSH) allotments. Spending under the budget neutrality limit is authorized for (1) managed care population expenditures for the following groups – family and children, dual eligibles, and SPD, (2) all spending related to approved expenditure authorities. Budget neutrality expenditure targets are calculated on an annual basis with a cumulative budget neutrality expenditure limit for the length of the demonstration extension (January 2016 through June 2020). Actual expenditures subject to the budget neutrality expenditure limit must be reported by California using the procedures described in the section for General Financial Requirements Under Title XIX. The data supplied by the State to CMS to calculate the annual limits is subject to review and audit, and if found to be inaccurate, will result in a modified budget neutrality expenditure limit. CMS’ assessment of the State’s compliance with these annual limits will be done using the Schedule C report from the MBES/CBES system.
- 196. Risk.** California will be at risk for the per capita cost for demonstration enrollees under this budget neutrality agreement, but not for the number of demonstration enrollees in each of the groups. By providing FFP for all demonstration enrollees, California will not be at risk for changing economic conditions which impact enrollment levels. However, by placing California at risk for the per capita costs for demonstration enrollees, CMS assures that the federal demonstration expenditures do not exceed the level of expenditures that would have occurred had there been no demonstration.
- 197. Budget Neutrality Annual Expenditure Limit.** For each DY, three annual limits are calculated.
- a. Limit A. For each year of the budget neutrality agreement an annual budget neutrality expenditure limit is calculated for each eligibility group (EG) described as follows:
 - i. An annual EG estimate must be calculated as a product of the number of eligible member months reported by the State for that EG under the section entitled General Reporting Requirements, times the appropriate estimated per member per month (PMPM) costs from the table in subparagraph (iii) below.
 - ii. Actual expenditures for the CBAS benefit will be included in the expenditure limit for the demonstration project. The amount of actual expenditures to be included will be the actual cost of providing the CBAS

services (whether provided through managed care or fee-for-service) to the SPD Medicaid-only population and to dual eligible.

- iii. Actual expenditures for the DMC-ODS benefit will be included in the expenditure limit for the demonstration project. The amount of actual expenditures to be included will be the actual cost of providing the DMC-ODS benefit to the eligible population;
- iv. Actual expenditures for the HHP benefit will be included in the expenditure limit for the demonstration project. The amount of actual expenditures to be included will be the actual cost of providing the HHP benefit to the HHP-eligible populations;
- v. The PMPMs for each EG used to calculate the annual budget neutrality expenditure limit for this Demonstration is specified below.

Eligibility Group (EG) ¹	Trend Rate	DY 11 PMPM	DY 12 PMPM	DY 13 PMPM	DY 14 PMPM	DY 15 PMPM ³
State Plan Groups						
Urban Family – TPM/GMC	4.00%	\$196.82	\$204.69	\$212.88	\$221.40	\$230.26

Cal-Medi-Connect - COHS	1.61%	\$663.28	\$673.96	\$684.81	\$695.84	\$707.04
Hypothetical Populations						
CBAS	3.16%	\$1,166.69	\$1,203.56	\$1,241.59	\$1,280.82	\$1,321.30
HHP				\$65.00	\$65.00	\$65.00

Key: TPM = Two Plan Model counties, GMC = Geographic Managed Care counties

¹ The applicable reporting forms for expenditures in each eligibility group are described in STC 182.

² These PMPMs are the trended baseline costs used for purposes of calculating the impact of the hypothetical populations on the overall expenditure limit. As described in paragraph (a)(ii), (a)(iii), and (a)(iv) above, the actual expenditures for these hypothetical populations are included in the budget neutrality limit.

- b. Limit B. The amount of the designated public hospital spending as determined in the chart below. The state is prohibited from changing the reimbursement methodology or amounts of supplemental payments approved in the Medicaid state plan on January 1, 2016 that result in higher overall reimbursement without recalculating the Upper Payment Limit (UPL) for the period of the new or modified payments and adjusting the UPL diversion if necessary.

Total Computable IP Unspent Public Hospital Amounts	
DY 11	\$863,054,068
DY 12	\$863,054,068
DY 13	\$863,054,068
DY 14	\$863,054,068
DY 15	\$863,054,068
5 Year Total	\$4,315,270,340

- c. Limit C. Annual DSH allotments for California, as determined under section 1923(f) of the Act and 42 CFR 447 Subpart E. For each DY, Limit C will be the total California Medi-Cal 2020 Demonstration

computable equivalent of the DSH allotment for the federal fiscal year (FFY) that begins during the DY, calculated using the FMAP in effect for the largest portion of the FFY to which the DSH allotment pertains. For DY 11, Limit C will be the total computable equivalent of the DSH allotment for the FFY 2016.

- d. The annual budget neutrality expenditure limit for the Demonstration as a whole is the sum of limits A, B, and C. The overall budget neutrality expenditure limit for the Demonstration is the sum of the annual budget neutrality expenditure limits. The Federal share of the overall budget neutrality expenditure limit represents the maximum amount of FFP that California can receive for expenditures on behalf of demonstration populations as well as demonstration expenditure authorities under the demonstration programs (GPP, WPC, PRIME, DSHP, IHS, and DTI) described in these STCs.
- e. California must present to CMS for approval MCO contract modifications to include an increase in PMPM amounts due to adjustments associated with the inpatient hospital provider tax. The with waiver and without waiver budget neutrality PMPM limits will be adjusted for each EG with an affected rate due to requirements in the Affordable Care Act based on the increases in contracts, if necessary.
- f. Savings Phase-out: Each DY, the net variance between the without-waiver cost and actual with-waiver cost will be reduced for selected Medicaid population based EGs. The reduced variance, to be calculated as a percentage of the total variance, will be used in place of the total variance to determine overall budget neutrality for the demonstration. (Equivalently, the difference between the total variance and reduced variance could be subtracted from the without-waiver cost estimate.) The formula for calculating the reduced variance is, reduced variance equals total variance times applicable percentage. The percentages for each EG and DY are determined based how long the associated population has been enrolled in managed care subject to this demonstration; lower percentages are for longer established managed care populations. The EGs affected by this provision and the applicable percentages are shown in the table below, except that if the total variance for an EG in a DY is negative, the applicable percentage is 100 percent.

EG	DY 11	DY 12	DY 13	DY 14	DY 15
Urban Family – TPM/GMC	23%	23%	23%	23%	23%
Rural Family – TPM/GMC	100%	100%	100%	90%	80%
SPD – TPM/GMC	100%	90%	80%	70%	60%
Duals - TPM/GMC	23%	23%	23%	23%	23%

EG	DY 11	DY 12	DY 13	DY 14	DY 15

MLTSS SPDs - COHS	100%	100%	100%	90%	80%
MLTSS Duals - COHS	100%	100%	100%	100%	90%
Cal-Medi-Connect - COHS	100%	100%	100%	100%	90%

- 198. 1115A Duals Demo Savings.** When California’s section 1115(a) demonstration is considered for an amendment, renewal, and at the end of the duals demonstration, CMS’ Office of the Actuary (OACT) will estimate and certify actual title XIX savings to date under the duals demonstration attributable to populations and services provided under the 1115(a) demonstration. This amount will be subtracted from the 1115(a) budget neutrality savings approved for the renewal.

Specifically, OACT will estimate and certify actual title XIX savings attributable to populations and services provided under the 1115(a) demonstration following the methodology below.

The actual title XIX savings attributable to populations and services provided under the 1115(a) demonstration are equal to the savings percentage specified in the 1115A duals demonstration MOU multiplied by the 1115A demonstration capitation rate and the number of 1115A duals demonstration beneficiaries enrolled in the 1115(a) demonstration. 1115A Demonstration capitation rate is reviewed by CMS’s Medicare and Medicaid Coordination Office (MPLAN), MPLAN’s contracted actuaries and CMS’ Office of the Actuary (OACT), and was certified by the state’s actuaries. Per the 1115A duals demonstration MOU, the actual Medicaid rate paid for beneficiaries enrolled in the 1115A demonstration is equivalent to the state’s 1115A Medicaid capitation rate minus an established savings percentage (as outlined in the chart below). The state must track the number of member months for every Medicare-Medicaid enrollee (MME) who participates in both the 1115(a) and 1115A demonstration.

The table below provides an illustrative example of how the savings attributable to populations and services provided under the 1115(a) demonstration is calculated

A. 1115A Demonstration Year	B. Medicaid Capitation Rate (hypothetical)	C. Medicaid Savings Percentage Applied Per MOU (average)	D. Savings Per Month (B*C)	E. Member Months of MMEs who participated in 1115A and 1115(a) Demos (estimated)	F. Amount subtracted from 1115(a) BN savings/ margin (D*E)
DY 1	\$1,000 PMPM	1%	\$10 PMPM	1,000	1,000* \$10 PMPM = \$10,000
DY 2	\$1,000 PMPM	2%	\$20 PMPM	1,000	1,000 * \$20 PMPM = \$20,000
DY 3	\$1,000 PMPM	4%	\$40 PMPM	1,000	1,000 * 40 PMPM = \$40,000

In each quarterly report, the state must provide the information in the above-named chart (replacing estimated figures with actual data). Should rates differ by geographic area and/or rating category within the 1115A demonstration, this table should be done for each geographic area and/or rating category. In addition, the state must show the “amount subtracted from the 1115(a) BN savings” in the updated budget neutrality Excel worksheets that are submitted in each quarterly report.

Finally, in each quarterly CMS-64 submission and in each quarterly report, the state must indicate in the notes section: “For purposes of 1115(a) demonstration budget neutrality reporting purposes, the state reports the following information:

- a. Number of Medicare-Medicaid enrollees served under the 1115 duals demonstration = *[Insert number]*
- b. Number of member months = *[Insert number]*
- c. PMPM savings per dual beneficiary enrolled from the 1115A duals demonstration = *[Insert number]*

The State must make the necessary retroactive adjustments to the budget neutrality worksheets to reflect modifications to the rates paid in the 1115A demonstration. This must include any Medicaid payment triggered by the risk corridor, IGTs, or other retroactive adjustments. The State must add additional columns to the chart above in subsequent quarterly reporting to reflect those adjustments.

By December 31, 2016, California must submit to CMS a completed version of the table above, covering the period from the implementation of the 1115A duals demonstration through October 31, 2015, to support OACT estimation and certification of actual title XIX savings attributable to populations and services provided under the 1115(a) demonstration attributable to the 1115A duals demonstration.

- 199. Monitoring of New Adult Group Spending and Opportunity to Adjust Projections.** For each DY, a separate annual budget limit for the new adult group will be calculated as the product of the trended monthly per person cost times the actual number of eligible/member months as reported to CMS by the State under the guidelines set forth in STC 182(f). The trend rates and per capita cost estimates for the new adult group are listed in the table below.

MEG	TREND	DY 11 PMPM	DY 12	DY 13	DY 14	DY 15
New Adult - COHS	3.2%	\$664.73	\$686.00	\$707.95	\$730.61	\$753.99
New Adult – TPM/ GMC	3.2%	\$521.37	\$538.05	\$555.27	\$573.04	\$591.38

- a. If the State’s experience of the take up rate for the new adult group and other factors that affect the costs of this population indicates that the new adult group PMPM limit described above may underestimate the actual costs of medical assistance for the new adult group, the State has the opportunity to submit an adjustment to the PMPM limit, along with detailed expenditure data to justify this, for CMS review without submitting an amendment pursuant to STC 7. In order to ensure timely adjustments to the PMPM limit for a demonstration year, the revised projection must be submitted to CMS by no later than 11 months into the demonstration year for which the adjustment would take effect. Additional adjustments to the PMPM limit may be made pursuant to the process outlined in (d) below.
- b. The budget limit for the new adult group is calculated by taking the PMPM cost projection for the above group in each DY, times the number of eligible member

months for that group and DY, and adding the products together across DYs. The federal share of the budget neutrality cap is obtained by multiplying total computable budget neutrality cap by the federal share.

- c. The State will not be allowed to obtain budget neutrality “savings” from this population. Excess spending for the new adult group does not count against the budget neutrality limit defined in STC 197.
- d. If total FFP reported by the state for the new adult group should exceed the federal share of FFP for the budget limit for the new adult group by more than 3 percent following each demonstration year, the state will submit plan to CMS for further modifying the PMPM limit as appropriate to ensure it is consistent with actual PMPM expenditures for the new adult group. The plan must identify the cause of the discrepancy between the state’s initial estimates and actual costs and must describe a timeline for revising the state’s projections.

- 200. Composite Federal Share Ratios.** The Federal share of the budget neutrality expenditure limit is calculated by multiplying the limit times the Composite Federal Share Ratio. The Composite Federal Share Ratio is the ratio calculated by dividing the sum total of FFP received by California on actual Demonstration expenditures during the approval period, as reported through MBES/CBES and summarized on Schedule C with consideration of additional allowable Demonstration offsets such as, but not limited to premium collections and pharmacy rebates, by total computable Demonstration expenditures for the same period as reported on the same forms.
- 201. Budget Neutrality Monitoring Tool.** The state and CMS will jointly develop a budget neutrality monitoring tool (using a mutually agreeable spreadsheet program) for the state to use for quarterly budget neutrality status updates and other in situations when an analysis of budget neutrality is required. The tool will incorporate the C Report for monitoring actual expenditures subject to budget neutrality. A working version of the monitoring tool will be available for the state’s first Quarterly Progress Report in 2016.
- 202. Enforcement of Budget Neutrality.** CMS shall enforce the budget neutrality agreement over the life of the demonstration extension, which will be from November 1, 2015 through December 31, 2020. The budget neutrality test for the demonstration extension may incorporate net savings from the immediately prior demonstration period of November 1, 2010 through December 31, 2015 (but not from any earlier approval period). To incorporate savings from the November 1, 2010 through December 31, 2015 approval period, California must provide CMS a certified and audited final assessment of budget neutrality for that period in which demonstration expenditures totals are consistent with the amounts reported by the state on the CMS-64 report (as summarized in the C Report). Historical information about the budget neutrality test for California’s 1115 demonstration appears in Attachment LL.
- 203. Exceeding Budget Neutrality.** If the budget neutrality expenditure limit defined in STC 197 has been exceeded at the end of the demonstration extension period (including Savings

Phase-Out), the excess Federal funds must be returned to CMS. If the Demonstration is terminated prior to the end of the budget neutrality agreement, the budget neutrality test shall be based on the time elapsed through the termination date.

XVII. EVALUATION OF THE DEMONSTRATION

- 211. Submission of Draft Evaluation Design.** The state must submit to CMS for approval, within 180 days of the approval date of the Medi-Cal 2020 demonstration and applicable attachments, a draft evaluation design for all elements of the demonstration discussed below, excluding PRIME. At a minimum, the draft design must include a discussion of the goals, objectives, and specific hypotheses, including those that focus specifically on target populations for the demonstration, and more generally on beneficiaries, providers, plans, market areas and public expenditures, as applicable. The updated design should be described in sufficient detail to determine that it is scientifically rigorous including a thoroughly documented data strategy.
- 212. Cooperation with Federal Evaluators.** Should HHS undertake an evaluation of any component of the demonstration, the state shall cooperate, to the greatest extent possible, fully with CMS or the evaluator selected by HHS; in addition, the state shall submit the required data to HHS or its contractor. Requests from HHS for information and data shall be made in a timely manner and provide the state with an adequate timeframe to provide the information as agreed to by CMS and the state.
- 213. Evaluation Design.**
- a. The design should describe how the evaluation and reporting will develop and be maintained to assure its scientific rigor and completion. In summary, the demonstration evaluation will meet all standards of leading academic institutions and academic journal peer review, as appropriate for each aspect of the evaluation, including standards for the evaluation design, conduct, interpretation, and reporting of findings. Among the characteristics of rigor that will be met are the use of best available data; controls for and reporting of the limitations of data and their effects on results; and the generalizability of results.
 - b. The state and CMS agree that a robust evaluation is desired in order to, to the greatest extent possible, determine the causal impacts of the Demonstration. The state and CMS will work to identify available data sources in order to allow for this type of evaluation, including data sources that would provide the ability to use control and comparison groups, where available, as well as before-and-after studies. The design will include a description of the quantitative and qualitative study design including a rationale for the design selected. The discussion will include a proposed baseline and approach to comparison. The discussion will include approach to benchmarking, and should consider applicability of national and state standards. The application of sensitivity analyses as appropriate shall be considered. The evaluation design must include descriptive statistics that reflect the socioeconomic status and demographic composition of those served by the demonstration, and will consider the impact of the demonstration on socioeconomic

and demographic subgroups. The draft evaluation design must include a detailed analysis plan that describes how the effects of the demonstration shall be isolated from other initiatives occurring in the state. The level of analysis may be at the beneficiary, provider, health plan and program level, as appropriate, and shall include population and intervention-specific stratifications, for further depth and to glean potential non-equivalent effects on different sub-groups.

- c. The state shall seek comment from the public on the development of its evaluation design. The submitted design must describe the state's process for seeking comment from the public on the evaluation approach and questions to be addressed.
- d. The updated design must describe the state's process to contract with an independent entity, ensuring no conflict of interest.
- e. The design, including the budget and adequacy of approach, is subject to CMS approval. The budget and approach must be adequate to support the scale and rigor reflected in the paragraph above.
- f. Measures - The draft evaluation design must discuss, for each hypothesis, as applicable, the quantitative and/or qualitative process and/or outcome measures that adequately assess the effectiveness of the demonstration in terms of cost of services and total costs of care, improved health outcomes and system transformation including better care, better quality, and enhanced value, change in delivery of care from inpatient to outpatient, quality improvement, and transformation of incentive arrangements under managed care. Measures will be clearly stated and described, with the numerator and denominator clearly defined, including:
 - i. A description of each outcome measure selected, including clearly defined numerators and denominators, and National Quality Forum (NQF) numbers (as applicable);
 - ii. The measure steward;
 - iii. The baseline value for each measure;
 - iv. The sampling methodology for assessing these outcomes; and
- g. Sources of Measures - CMS recommends that the state use measures from nationally-recognized sources and those from national measures sets (including CMS's Core Set of Children's Health Care Quality Measures for Medicaid and CHIP (Child Core Set), and Core Set of Adult Health Care Quality Measures for Medicaid (Adult Core Set)).
- h. Data Sources - The evaluation design must also discuss the data sources used, including the use of Medicaid encounter data, enrollment data, EHR data, and consumer and provider surveys, when applicable. The evaluation designs proposed for each question may include analysis at the beneficiary, provider, and aggregate program level, as appropriate, and include population stratifications to the extent feasible.
- i. Domains of Focus – The state must at a minimum address the domains and evaluation questions listed below.

- i. SPD Managed Care: State shall include an assessment, using pre-mandatory enrollment as a baseline, of the impact on mandatory managed care on the SPD population, including all significant and notable findings based on all of the data accumulated through the quarterly progress report.
 - 1. Access to care
 - 2. Quality of care
 - 3. Cost of coverage

- ii. Global Payment for the Remaining Uninsured
 - 1. All evaluation questions listed in STC 174 entitled, “Evaluations of provider expenditures and activities under the global payment program,” in the section on Global Payment Program for the Remaining Uninsured.

- iii. Whole Person Care Pilots
 - 1. What did the pilots do to achieve the desired outcomes listed in the paragraph entitled, “Mid-Point and Final Evaluations”? What were the critical differences in the approaches they took?
 - 2. Were the pilots able to show improvement on any of the identified dimensions?
 - 3. What promising practices were identified by the pilots?
 - 4. How will counties ensure that improvements achieved by the pilots are sustained after pilot funding is exhausted?

- iv. CCS Pilots
 - 1. What is the impact of the pilots on providers’ satisfaction with the delivery of and the reimbursement of services?
 - 2. What is the impact of the pilots on amounts expended on CCS services, and the total cost of care?
 - 3. What is the impact of the pilots on children’s access to CCS services?
 - 4. What is the impact of the pilots on the quality of care?
 - 5. What is the impact of the pilots on care coordination?
 - 6. What is the impact of the pilots on clients’ satisfaction?

- v. Dental Transformation Incentive Program
 - 1. How do the benefits of the Dental Transformation Incentive Program compare to the cost of the incentives? Do some portions of the Dental Transformation Incentive Program exhibit a more favorable benefit to cost ratio than others?
 - 2. What promising practices were identified in the county Caries Risk Assessment and Management pilots?
 - 3. What measures can be taken to ensure that the improvements achieved by the Dental Transformation Incentive Program can be sustained after 1115 program funding is exhausted?

214. Final Evaluation Design and Implementation. CMS shall provide comments on the draft design and the draft evaluation strategy within 60 days of receipt, and the state shall submit a final design within 60 days of receipt of CMS' comments. The state must implement the evaluation design, and describe progress relating to the evaluation design in each of the quarterly and annual progress reports.

215. Interim Evaluation Report. Consistent with 42 CFR 431.424(d), the state must submit to CMS an interim evaluation report in conjunction with its request to extend the demonstration, or any portion thereof.

216. Final Evaluation Report. The state must submit to CMS a draft of the evaluation final report by December 31, 2021. The final report must include the following:

- a. An executive summary;
- b. A description of the demonstration, including programmatic goals, interventions implemented, and resulting impact of these interventions;
- c. A summary of the evaluation design employed, including hypotheses, study design, measures, data sources, and analyses;
- d. A description of the population included in the evaluation (by age, gender, race/ethnicity, etc.);
- e. Final evaluation findings, including a discussion of the findings (interpretation and policy context); and
- f. Successes, challenges, and lessons learned.

Attachment C
Global Payment Program Participating Public Health Care Systems

Public Health Care Systems participating in the GPP consist of the following designated public hospitals (DPHs), including any successor or differently named hospital as applicable, and their affiliated and contracted providers. The DPHs are operated by a county, a city and county, University of California, or special hospital authority described in Section 101850 or 101852, *et seq.*, of the California Health & Safety Code.

1. Los Angeles County (LA Co.) health system
 - a. LA Co. Harbor/UCLA Medical Center
 - b. LA Co. Olive View Medical Center
 - c. LA Co. Rancho Los Amigos National Rehabilitation Center
 - d. LA Co. University of Southern California Medical Center
2. Alameda Health System
 - a. Highland Hospital (including the Fairmont and John George Psychiatric facilities)
 - b. Alameda Hospital
 - c. San Leandro Hospital
3. Arrowhead Regional Medical Center
4. Contra Costa Regional Medical Center
5. Kern Medical Center
6. Natividad Medical Center
7. Riverside University Health System -- Medical Center
8. San Francisco General Hospital
9. San Joaquin General Hospital
10. San Mateo County General Hospital
11. Santa Clara Valley Medical Center
12. Ventura County Medical Center

Attachment D
Designated Public Hospital Systems and District/Municipal Public Hospitals
that are Participating PRIME Entities

The following governmental health systems participate in the Public Hospital Redesign and Incentives in Medi-Cal (PRIME) Pool.

I. Designated Public Hospital (DPH) systems

DPH systems include the following designated public hospitals and their affiliated and contracted governmental providers, including any successor or differently named hospital as applicable. The DPHs are operated by a county, a city and county, University of California, or special hospital authority described in Section 101850 or 101852, *et seq.*, of the California Health & Safety Code.

State Government-operated University of California (UC) Hospitals

1. UC Davis Medical Center
2. UC Irvine Medical Center
3. UC San Diego Medical Center
4. UC San Francisco Medical Center
5. UC Los Angeles Medical Center and Santa Monica UCLA Medical Center (aka – Santa Monica UCLA Medical Center & Orthopedic Hospital)

Non-State Government-operated

13. Los Angeles County (LA Co.) health system
 - a. LA Co. Harbor/UCLA Medical Center
 - b. LA Co. Olive View Medical Center
 - c. LA Co. Rancho Los Amigos National Rehabilitation Center
 - d. LA Co. University of Southern California Medical Center
14. Alameda Health System
 - a. Highland Hospital (including the Fairmont and John George Psychiatric facilities)
 - b. Alameda Hospital
 - c. San Leandro Hospital
15. Arrowhead Regional Medical Center
16. Contra Costa Regional Medical Center
17. Kern Medical Center
18. Natividad Medical Center
19. Riverside University Health System -- Medical Center
20. San Francisco General Hospital
21. San Joaquin General Hospital
22. San Mateo County General Hospital
23. Santa Clara Valley Medical Center
24. Ventura County Medical Center

II. District and Municipal Public Hospitals (DMPH)

DMPHs include the following district and municipals public hospitals, including any successor or differently named hospital as applicable. The DMPHs operate in California pursuant to Cal. Health & Safety Code §32000, *et seq.*

Attachment D
Designated Public Hospital Systems and District/Municipal Public Hospitals
that are Participating PRIME Entities

1. Antelope Valley Hospital, Lancaster
2. Bear Valley Community Hospital, Big Bear Lake
3. Coalinga Regional Medical Center, Coalinga
4. Eastern Plumas Health Care, Portol
5. El Camino Hospital, Mountain View
6. El Centro Regional Medical Center, El Centro
7. Hazel Hawkins Memorial Hospital, Hollister
8. Healdsburg District Hospital, Healdsburg
9. Jerold Phelps Community Hospital, Garberville
10. John C. Fremont Healthcare District, Mariposa
11. Kaweah Delta Health Care District, Visalia
12. Kern Valley Healthcare District, Lake Isabella
13. Lompoc Valley Medical Center, Lompoc
14. Mammoth Hospital, Mammoth Lakes
15. Marin General Hospital, Greenbrae
16. Mayers Memorial Hospital District, Fall River Mills
17. Mendocino Coast District Hospital, Fort Bragg
18. Modoc Medical Center, Alturas
19. Northern Inyo Hospital, Bishop
20. Oak Valley Hospital District, Oakdale
21. Palo Verde Hospital, Blythe
22. Palomar Medical Center, Escondido
23. Pioneers Memorial Healthcare District, Brawley
24. Plumas District Hospital, Quincy
25. Pomerado Hospital, Poway
26. Salinas Valley Memorial Healthcare System, Salinas
27. San Bernardino Mountains Community Hospital, Lake Arrowhead
28. San Geronio Memorial Hospital, Banning
29. Seneca Healthcare District, Chester
30. Sierra View District Hospital, Porterville
31. Sonoma Valley Hospital, Sonoma
32. Southern Inyo Hospital, Lone Pine
33. Surprise Valley Health Care District, Cedarville
34. Tahoe Forest Hospital District, Truckee
35. Tehachapi Valley Healthcare District, Tehachapi

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

I. CERTIFIED PUBLIC EXPENDITURES – DETERMINATION OF ALLOWABLE COSTS FOR CCS, GHPP, MIA/LTC, BCCTP, CMSP, EAPC, ADAP, EWC, PCTP, and DDS

A. General Provisions

Program costs, for each program described above, mean the total expenditures incurred in the State Fiscal Year (SFY) ended June 30 from all the funding sources. Allowable DSHP expenditures will be applied against each Demonstration Year using the date of service information from each paid claim.

Net program costs are program costs for health care services only.

DSHP costs, for each program described above, are net program costs funded by the State and/or local funds.

Allowable DSHP costs are DSHP costs for health care services which are allowable under section 1905(a) of the Social Security Act, rendered to the uninsured population.

For the purpose of interim claiming, the estimated program costs for each SFY are the budget amount of Fund Appropriation for the applicable fiscal period that the State and other funding authorities commit to each SOMP. The estimated program cost for each fiscal period is reduced by funding for administrative activities to arrive at estimated net program cost. Estimated net program cost is reduced by budgeted funding from non-State, non-local sources to arrive at estimated DSHP cost. Estimated DSHP cost is multiplied by an interim allocation percentage to arrive at the estimated allowable SNCP cost for the fiscal period.

Costs associated with providing non-emergency services to non-qualified aliens cannot be claimed against the SNCP. To implement this limitation, 13.95 percent of total certified public expenditures for services to uninsured individuals will be treated as expended for non-emergency care to non-qualified aliens. The State will implement this requirement for the following DSHPs:

- CCS, GHPP, CMSP, EAPC, ADAP, EWC, PCTP, and DDS– A 13.95 percent reduction factor is applied to the total certified SNCP expenditures before costs are claimed.
- MIA/LTC and BCCTP - No reduction factor is applied to the total certified SNCP expenditures before costs are claimed. There are no unqualified aliens receiving services under the MIA/LTC program. Expenditures related to non-emergency services for unqualified aliens under the BCCTP will be identified and excluded by aid codes.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

B. Program Description

California Children Services (CCS)

CCS provides diagnostic and treatment services, medical case management, and physical and occupational therapy health care services to children under 21 years of age.

Genetically Handicapped Persons Program (GHPP)

GHPP provides comprehensive health care coverage for persons over 21 years of age with specified genetic disease, including cystic fibrosis, hemophilia, sickle cell diseases and thalassemia, and chronic degenerative neurological diseases.

Medically Indigent Adult Long-Term Care (MIA/LTC)

MIA/LTC provides the medically necessary services required as part of the patient's day-to-day plan of care in the long-term care facility, including pharmacy, support surface and therapies.

Breast and Cervical Cancer Treatment Program (BCCTP)

BCCTP provides cancer treatments for eligible low-income California (CA) residents who are screened by Cancer Detection Program and Family Planning, Access, Care and Treatment (Family PACT).

* Eligibility

CCS: A child under 21 years old with family income of \$40,000 or less is a resident of CA and has out-of-pocket medical expenses expected to be more than 20% of family adjusted gross income.

GHPP: California residents ages 21 years or older have genetic conditions specified in the CA Code of Regulations, Title 17, Section 2932.

MIA/LTC: Individuals age 21 or older and under 65 year of age who do not have linkage to another program and who are US citizens or legal residents and are residing in a Nursing Facility Level A or B.

BCCTP: A CA resident, who is male of any age or any immigration status, a female under 65 years of age with non-citizen or unsatisfactory immigration status, or a female 65 years of age or older, has been screened and found in need of treatment for breast and/or cervical cancer, follow-up care for cancer or precancerous cervical lesions/conditions.

* Funding Sources/Flow

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

CCS, GHPP, MIA/LTC, and BCCTP are State-Only funded programs and funded by the State General Funds. The State fiscal intermediary pays the program claims.

*** DSHP Costs**

CCS, GHPP, MIA/LTC and BCCTP services are Medicaid-like services. The total program costs for each program funded by the State General Fund for the uninsured population will be used to determine allowable DSHP costs for SNCP reimbursement.

*** Report Format**

CCS, GHPP, MIA/LTC, and BCCTP program costs will be compiled from the State fiscal intermediary Paid Claims Data using the specific Aid Codes to identify eligibility and the specific Billing Provider Type to identify the services types by date of services.

AIDS Drug Assistance Program (ADAP)

ADAP, established in 1987, provides prescription drug coverage for the HIV positive uninsured and under-insured individuals who are HIV positive, to ensure that they have access to medication. The Ryan White Comprehensive AIDS Resources Emergency (CARE) Act of 1990 established the ADAP nationally and provides the federal fund (CARE Act Fund) for this program.

*** Eligibility**

HIV-infected individuals who are California residents and 18 years of age or older who:

- Have a Federal Adjusted Gross Income (FAGI) that does not exceed \$50,000;
- Have a valid prescription from a licensed California physician; and
- Have limited or no prescription drug benefits from another source.

Federal and State laws require that ADAP funds be used as the payer of last resort and ensure that ADAP is used only after all other potential payer options are exhausted. ADAP participants with limited prescription drug benefits will be eligible for financial assistance in meeting their out-of-pocket costs or premiums payment assistance. ADAP also pays the Share of Cost for individuals who are Medi-Cal beneficiaries.

*** Funding Sources/Flow**

ADAP is funded by the State General Fund, the Federal fund (CARE Act Fund), and the Special Fund (drug rebate). CDPH is the State's grantee for the federal CARE Act Fund. CDPH is required to meet the annual federal maintenance of effort (MOE) requirements for the grant. Federal CARE Act and Special Funds are deposited into the State General Fund to pay claims. The State pays the program claims.

*** DSHP Costs**

ADAP services are Medicaid-like services except for payments of share of cost for a limited number of ADAP participants. ADAP program costs funded by the State

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

General Fund and Special Fund that are not used for the CARE Act MOE and matching requirements, net of costs incurred for Medi-Cal share of cost payments or costs incurred for individuals who are otherwise insured, will be used to determine allowable DSHP cost for SNCP reimbursement.

*** Report Format**

ADAP program costs will be compiled from ADAP Paid Claims Data by funding sources and the eligible population. Claims data is compiled from CDPH paid claims database.

Every Woman Counts (EWC)

EWC is a cancer detection programs that provides CA low income, uninsured and medically underserved women access to screening, and diagnostic services for breast and cervical cancer. EWC offers multi-faceted, early detection and diagnosis services for breast and cervical cancer, coupled with continuous monitoring to reduce missed or delayed cancer diagnoses. EWC provides the direct services including: (1) screening and diagnostic mammography; (2) clinical breast exams; (3) pelvic exams; (4) case management, including follow-up and referrals for abnormal screens; and (5) cervical cancer screening.

*** Eligibility**

CA female residents with household income at or below 200 percent of the Federal poverty level have no medical insurance coverage for these services or have a high insurance deductible or co-payment and are not getting these services through Medi-Cal or another government-sponsored program. To receive free breast cancer screening services, the individuals must be at least 40 years of ages; to receive free cervical cancer prevention services, the individuals must be at least 25 years of age.

*** Funding Sources/Flow**

EWC is mainly funded by a federal grant from Disease Control and Prevention (CDC), the tobacco tax revenue, including the Breast Cancer Control Account (BCCA) fund and Proposition 99 fund, and State General Fund. At least 60% of EWC's federal CDC grant must be spent on direct services. After meeting this 60 percent obligation, remaining federal grant funds can be spent for program administration. The CDC grant requires MOE in addition to a three to one matching requirement. The program delivers these direct services through a statewide network of medical providers who enroll women into the program and submit claims to EWC to be reimbursed for delivering the clinical services.

*** DSHP Costs**

EWC services are Medicaid-like services. EWC total program costs, which are reduced by any program costs for services provided to individuals with high insurance deductible or co-payment and funded by State General Fund, BCCA fund, and Proposition 99 fund that are not used for CDC MOE and matching requirements, will be used to determine allowable DSHP costs for SNCP reimbursement.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

*** Report Format**

EWC program costs will be compiled from EWC Paid Claim Data by the eligible population. Claims data is compiled from CDPH paid claims database.

Prostate Cancer Treatment Program (PCTP)

PCTP provides prostate cancer early detection, diagnosis, and comprehensive treatment services to low-income and uninsured men to prevent and reduce the devastating effects of prostate cancer. The direct treatment services include brachytherapy, chemotherapy, hormone therapy, orchiectomy, radical retropubic prostatectomy, radiation therapy, transurethral resection of the prostate and active surveillance. In addition to the direct treatment services, PCTP also offers support services, such as psychosocial therapy, nutrition counseling, patient education, incontinence supplies and transportation assistance. PCTP is administered through a contract with the University of California, Los Angeles (UCLA).

*** Eligibility**

CA male residents, who are 18 years old or older with household income at or below 200 percent of the Federal poverty level, have no medical insurance coverage for these services and do not qualify for Medicare or Medi-Cal.

*** Funding Sources/Flow**

PCTP is funded by State General Fund. Eighty seven percent of the total contract funding shall be used for direct patient care. No less than seventy percent of the total contract funding shall be expended on direct patient care treatment, which is defined as funding for fee-for-service providers for Medi-Cal eligible services at established Medi-Cal rate.

*** DSHP Costs**

PCTP services for direct patient care treatment are Medicaid-like services. PCTP is the payer of last resort for men who are not eligible for Medi-Cal or Medicare and have no access to local or county resources. PCTP total program costs incurred for direct patient care treatment will be used to determine allowable DSPH costs for SNCP reimbursement.

*** Report Format**

PCTP program costs will be compiled from PCTP Paid Claim Data by treatment category and by the eligible population.

Department of Developmental Services (DDS)

DDS is responsible under the Lanterman Developmental Disabilities Services Act (Lanterman Act) for ensuring that more than 246,000 people with developmental

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

disabilities receive the services and supports needed to live independent and productive lives. These disabilities include mental retardation, cerebral palsy, epilepsy, autism and related conditions. Services are delivered directly through four state-operated developmental centers and one community facility (Developmental Center Services), and under contract with a statewide network of 21 private, nonprofit regional centers (Community Based Services).

The Lanterman Act establishes an entitlement to services and supports for persons with developmental disabilities and their families that are determined through an individualized planning process that occurs after a series of discussions or interactions among a team of people including the person with a developmental disability, their family (when appropriate), regional center representative(s) and others. The Individual Program Plan (IPP) may include a wide array of services such as: residential, day program and employment, independent and supported living, transportation, behavioral, respite and other family supports, and case management/service coordination. Regional centers are payers of last resort, requiring consumers to access generic resources when available to meet their individual needs.

***Eligibility**

- A person with a developmental disability that originates before an individual attains age 18 years, continues, or can be expected to continue, indefinitely, and constitutes a substantial disability for that individual, as defined in California Welfare and Institutions Code (W&I Code) Section 4512. A developmental disability includes mental retardation, cerebral palsy, epilepsy, autism, and disabling conditions found to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation. It does not include conditions that are solely physical in nature.
- Infants and toddlers (age 0 to 36 months) who have a developmental delay (defined in Section 95014 of CA Government Code) also receive services from DDS.

***Funding Sources/Flows**

DDS Community-Based Services are funded by the following funding sources:

State Funds:

- State General Fund
- Mental Health Services Fund
- California Children and Family Trust Fund (Proposition 10 funding to create a comprehensive and integrated system of information and services to promote early childhood development (from prenatal to age 5) and school readiness, including community health care, quality child care, and education programs for young children)

Federal Funds:

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

- Medicaid (e.g. Home and Community Based Services Waiver (HCBS), Medicaid Administration, Targeted Case Management, 1915(i) State Plan Amendment, and Money Follows the Person Grant)
- Title XX Block Grant (no State match or MOE is required)
- Early Start Program Grant for infants and toddlers age 0 to 36 months
- Foster Grandparents Program (administrative funding supports the volunteer program that establishes person-to-person relationship between low income senior, age 55 years or older, and children with intellectual disabilities)
- Homeland Security Grant (funding to regional centers for equipment, training, and exercise to prevent, respond to, and recover from acts of terrorism and other catastrophic events)

Others:

- Program Development Fund (fees assessed to parents of children under the age of 18 who receive 24-hour out-of-home services purchased with State funds through a regional center)
- Vocational Rehabilitation (funding by HCBS and GF for transportation expenditures)
- Developmental Disabilities Services Account (application fees paid by housing developers to reimburse DDS' costs for review and approval of the housing proposals)

The above represents all funding received by DDS for community-based services.

The federal funds are deposited into the State General Fund as reimbursement for appropriate claims initially paid from the General Fund.

***DSHP Costs**

DDS services to individuals not eligible for Medi-Cal are Medicaid-like services in that they are the same services as State plan approved services and services provided under approved HCBS waivers for Medi-Cal beneficiaries. DDS services applicable to this claiming protocol include uninsured Medicaid-like services provided under Community Based Services to individuals age 3 years and older, including assessment, evaluation and diagnostic services.

Allowable DSHP costs will be the community-based Purchase of Services (POS) expenditures, which exclude administrative expenditures, adjusted for the following exclusions:

DDS community-based POS costs that are not related to Medicaid-like healthcare services, including:

- POS contract costs

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

- Expenditures for Community Placement Plan (funds paid to regional centers for permanent housing placement)
- Expenditures for Medical Facilities (payments to Intermediate Care Facilities and Developmentally Disabled Continuous Nursing Care for services not eligible for Medi-Cal).
- Proposition 10/California & Family Trust Fund expenditures (funds paid to regional centers for development of comprehensive and integrated system of information and services to promote early childhood development and school readiness).

DDS community-based POS costs related to Medicaid-like healthcare services funded by other payers, including:

- Expenditures for Early Start program (including federal funds and State matching/MOE funds)
- Expenditures for services to Medi-Cal beneficiaries (including federal funds, State matching funds, and Vocational Rehabilitation funds)
- Expenditures related to services eligible for Federal Title XX funds
- Program Development Fund

***Report Format**

DDS program costs will be compiled from DDS POS Claims Data file using Eligibility Codes to identify the uninsured population, Budget Codes to identify the funding sources, and Service Codes to identify the eligible services.

C. DSHP Interim Claiming

The purpose of DSHP interim claiming is to provide an interim payment that will approximate the allowable costs for Medicaid-like services in SOMPs that are eligible for FFP through the CPE process.

For each demonstration year, the process of determining the allowable costs eligible for FFP begins with the use of most recently completed Paid Claims Data reports for CCS, GHPP, MIA/LTC, BCCTP, CMSP, EAPC, ADAP, EWC, PCTP, and DDS. The fiscal year covered by the most recently completed Paid Claims Data reports will serve as the prior period.

The net program costs, for each program described above, will be determined by using the most recently completed Paid Claims Data report provided by its governing agency.

The costs from the Paid Claims Data report represent net program costs incurred by the governing agency for medical services and are net of any self-payment or copayments made by or on behalf of the patients.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

Net program costs are reduced by other funding and subsidies made by a federal government, MOE and other matching requirements, or other third party to the program costs to arrive at the computed DSHP costs.

DSHP costs are further reduced by any program costs incurred for payments made for non-Medicaid-equivalent services or payments for services furnished to any individuals who are otherwise insured. The result is the allowable DSHP costs.

An interim allocation percentage is computed by dividing the allowable SNCP costs for each fiscal year by the total DSHP costs from Step 3 computed above.

SFYs 2010-2011 to 2015-2016 DSHP costs will be computed pursuant to the step 3, except for interim claiming purposes, the DSHP costs will be based on budgeted appropriations and funding amounts rather than actual paid claims reports. Interim certified public expenditures of the DSHPs will be equal to the amounts of

SFYs 2010-11 to 2015-2016 DSHP costs in Step 6 multiplied by the interim allocation percentage for the applicable fiscal period computed in step 5 and reduced by 13.95 percent as described in subsection A to account for non-emergency care furnished to non-qualified aliens.

SNCP interim claiming for the federal reimbursement will be made quarterly based on the interim certified public expenditures as computed above.

D. Final Reconciliation of DSHP Interim Claiming

The DSHP interim certified public expenditures will be reconciled based on the actual Paid Claims Data for the applicable fiscal periods as finalized by its governing agencies for each program.

Allowable SNCP costs for each SFY will be computed pursuant to the steps described in subsection C.1 through C.5 above, using actual paid claims reports and actual funding and expenditure amounts for each SFY.

The State will adjust, as necessary, the aggregate amount of interim SNCP funds claimed based on the total certified DSHP expenditures determined under this final reconciliation. If, at the end of the final reconciliation process, it is determined that SNCP funding was over-claimed, the overpayment will be properly credited to the federal government.

II. CERTIFIED PUBLIC EXPENDITURES – DETERMINATION OF ALLOWABLE COSTS FOR CMHS

A. Cost Finding Methodology

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

California counties, which receive federal and state funds for providing public mental health services, are required to submit a fiscal year-end (July to June) Mental Health Cost Report with the Department of Mental Health (DMH) by December 31 following the close of each fiscal year. The cost report forms, cost determination, and allocation methodologies are approved by the State and in compliance with the Federal Medicaid regulations.

County total mental health costs are reported in four primary groups of service categories:

Administrative Costs.

Research & Evaluation Costs.

Utilization Review Costs.

Direct Service Costs.

The eligible SNCP costs are direct service costs funded by the State Realignment Funds and Mental Health Services Act (MHSA) Fund incurred by each county for the furnishing of mental health services allowable under Section 1905(a) of the Social Security Act to uninsured individuals.

The allowable SNCP costs, computed under this Supplement, are limited to the eligible SNCP costs incurred for months of DYs. Allowable SNCP costs claimable under this Supplement should not include any uninsured mental health costs incurred by counties which operate Designated Public Hospitals (DPHs); such uninsured costs are separately addressed in Attachment F - Supplement 4.

Costs associated with providing non-emergency services to non-qualified aliens cannot be claimed against the SNCP. A 13.95 percent reduction factor is applied to the total certified SNCP expenditures before costs are claimed.

B. Summary of Mental Health Cost Report

The Mental Health Cost Report includes:

Detail Cost Report: Detail forms for each legal entity, including county and contract providers.

Summary Cost Report: Aggregate county mental health costs for the Fiscal Year.

Legal entity means each county mental health department or agency and each private provider furnishing public mental health services under contract with the county department or agency.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

Direct service costs are reported by Modes of Service (MS) and Service Functions (SF). MS describes a classification of service types. SF identifies the specific type of service received under a MS.

Allowable SNCP costs are captured by the following MS and SF (which represent specialty mental health services that would be covered by Medi-Cal if furnished to Medi-Cal recipients):

05 (Hospital Inpatient and other 24 Hour Services)
SF 10-18: Local Hospital Inpatient
SF 19: Hospital Administrative Days
SF 20-29: Psychiatric Health Facility
SF 40-49: Adult Crisis Residential
SF 65-79: Adult Residential
10 (Less than 24 Hour Day Treatment Program Services)
SF 20-29: Crisis Stabilization
SF 81-89: Day Treatment Intensive
SF 91-99: Day Rehabilitation
15 (Outpatient Services) All SFs.

The above MS and SF do not include any service that is subject to the Institutions for Mental Diseases (IMDs) exclusion per Section 1905(a) of the Social Security Act.

MH 1901 Schedule B (Worksheet for Units of Service and Revenue by Mode & Service Function)

The individual legal entity's worksheet for units of service by MS and SF codes under the following categories

Medi-Cal Units:

Regular Medi-Cal

Medicare/Medi-Cal Crossover

Enhanced Medi-Cal (Children and Refugees)

Healthy Families

Non Medi-Cal Units

MH 1901 Schedule C (Allocated costs to Mode of Service & Service Function)

The individual legal entity's supporting documentation to distribute the direct service costs to MS and SF.

MH 1960 (Calculation of Program Costs)

The individual legal entity's worksheet to identify the allowable costs for allocation applicable to the four major service categories.

MH 1966 (Allocation of Costs to Service Function – Mode Total)

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

The individual legal entity's worksheet to compute the cost per unit and the allocation costs to SFs. The units of service are derived from MH 1901 Schedule B; the total allocated costs are derived from MH 1901 Schedule C.

MH 1992 (Funding Sources)

The individual legal entity's total mental health costs by funding sources and service categories.

MH 1992 SUM (Summary Funding Sources)

The county total mental health costs (from all reporting legal entities) by funding sources and service categories.

C. DSHP Interim Claiming

The process of determining the allowable SNCP costs eligible for FFP begins with the use of most recently filed Mental Health Cost Report. The period covered by this most recently filed cost report will serve as the base period for interim payment computation.

Cost per unit for each SF will be computed by using the total direct service costs from MH 1901 Schedule C divided by the total units of service from MH 1901 Schedule B.

Non Medi-Cal units of service from MH 1901 Schedule B will be reduced, using additional auditable county and provider records, to determine the uninsured units of service.

Cost per unit will be multiplied by the number of uninsured units of service computed above for each eligible SF to determine the total uninsured costs. If a legal entity has a contract with the county limiting its cost per unit and the contracted cost per unit is lower than the cost per unit computed in the cost report, the lower contracted cost per unit will be used to determine the total uninsured costs for the legal entity.

The total uninsured costs computed above can be trended to current year based on Consumer Price Index (CPI) for U.S City Average by commodity for Hospital and related services.

In order to identify the total uninsured costs funded by the State Realignment Funds and the MHSA Fund, the State will compute the allocation percentage based on funding sources for each direct service MS. By using the Summary Cost Report, MH 1992 SUM, the Realignment Funds and MHSA Funds for each direct service MS will be adjusted to exclude the matching funds used for Short-Doyle/Medi-Cal and Healthy Families FFP.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

The allocation percentage for each direct service MS is the ratio of direct service costs funded by the net State Realignment Funds and MHA Funds computed above to the total direct service costs from all funding sources.

The eligible SNCP costs will be the total trended uninsured costs for each MS computed in step 3 multiplied by the applicable allocation percentage.

Uninsured mental health costs claimable under this Supplement do not include uninsured mental health costs incurred by counties which operate DPHs; those costs are addressed in Attachment F - Supplement 4. Furthermore, any county uninsured mental health costs incurred for other SNCP claiming, , such as the Medicaid Coverage Expansion and the Health Care Coverage Initiative, will be offset against the computed eligible SNCP costs.

The net eligible SNCP costs will be multiplied by the following ratio to determine the allowable SNCP costs:

SFY 2010-11:	67.67% (8 months over 12 months)
SFYs 2011-12 to 2014-15:	100%
SFY 2015-16:	33.33% (4 months over 12 months)

Interim certified public expenditures for CMHS are the allowable SNCP costs computed above reduced by 13.95 percent to account for non-emergency care furnished to non-qualified aliens.

DSHP interim claiming for federal reimbursement will be made quarterly based on the interim certified public expenditures as computed above.

D. Interim and Final Reconciliations of DSHP Interim Claiming

The interim certified public expenditures for CMHS will be first reconciled based on the Mental Health Cost Reports for the applicable fiscal years accepted by DMH.

The interim certified public expenditures for CMHS will also be subsequently reconciled based on Mental Health Cost Reports for the applicable fiscal years as settled and audited by DMH.

Allowable SNCP costs for each SFY will be computed pursuant to the steps described in subsection C, except that the cost report for the applicable SFYs will be used to determine actual expenditures incurred. For DY 10, allowable SNCP costs for the partial period of July 1, 2015 through October 31, 2015 will be computed pursuant to the steps described in subsection C, except that the cost report for the SFY 2015-2016 will be used to determine actual expenditures incurred.

Attachment F
Funding and Reimbursement Protocol
Determination of Allowable Costs to Uninsured Individuals in Designated State Health Programs

If legal entities costs are not fully reimbursed by the county, such as the application of legal entity contract limits, thereby reducing actual expenditures incurred by the county below legal entity costs, such reduction must be proportionately applied to the allowable SNCP costs. The State will adjust, as necessary, the aggregate amount of interim SNCP funds claimed based on the total certified SNCP expenditures determined under this final reconciliation. If, at the end of the final reconciliation process, it is determined that SNCP funding was over-claimed, the overpayment will be properly credited to the federal government.

Any prospective revision to the Medi-Cal mental health cost reports, as approved by CMS, must be incorporated into the mental health cost reporting methodology used in this CPE protocol.

Attachment F – Supplement 1
Funding and Reimbursement Protocol for
Determination of Allowable Costs to Workforce Development Programs in Designated
State Health Programs

The Special Terms and Conditions (STCs) for California’s Bridge to Reform section 1115(a) Medicaid Demonstration, approved by the federal Centers for Medicare and Medicaid Services (CMS) on November 2, 2010, allow the State to use allowable costs in Designated State Health Programs (DSHPs) incurred from November 1, 2015 through December 31, 2020 for federal claiming against the Safety Net Care Pool (SNCP).

DSHPs, as described under this Supplement, have two components, State Only Medical Programs (SOMPs) and Workforce Development Programs (WDPs). WDPs are integral to the successful transition to the era of health care reform. They improve access to healthcare in underserved areas of CA by providing scholarship, loan repayments, and programs to health professional students and graduates who are dedicated to providing direct patient care in those areas. WDPs also provide educational opportunities in health professional training through established state educational institutions and state department programs. WDPs include the following state/local funded programs:

- Office of Statewide Health Planning & Development (OSHPD)
 - Song-Brown Healthcare Workforce Training Program (Song-Brown)
 - Steven M. Thompson Physician Corps Loan Repayment Program (STLRP)
 - Mental Health Loan Assumption Program (MHLAP)

The allowable costs incurred in the WDPs for claiming against the SNCP are the State program expenditures incurred in the months of Demonstration Year (DY) per the STCs.

To determine allowable SNCP costs and the associated SNCP reimbursement when such costs are incurred by the State as certified public expenditures (CPEs), the following steps must be taken to ensure federal financial participation (FFP):

I. CERTIFIED PUBLIC EXPENDITURES – DETERMINATION OF ALLOWABLE COSTS FOR OFFICE OF STATEWIDE HEALTH PLANNING & DEVELOPMENT

A. General Provision

Program costs, for each OSHPD program described above, mean the total expenditures incurred in the State Fiscal Year (SFY) ended June 30 from all the funding sources. Program costs are the expenditures necessary to maintain and support WDPs, including State operation expenditures, loan repayment, and award payments.

Net program costs are program costs for award or loan repayments funded by the State or local only.

Allowable SNCP costs, for each OSHPD program described above, are limited to the net program costs paid in the months of Demonstration Year (DY) per the STCs.

Attachment F – Supplement 1
Funding and Reimbursement Protocol for
Determination of Allowable Costs to Workforce Development Programs in Designated
State Health Programs

For the purpose of interim claiming, the estimated program costs for each SFY are the total budget amount of Fund Appropriation for the applicable fiscal period that the State commits to each OSHPD program. The estimated program cost for each fiscal period is reduced by budgeted funding for State operation costs and from non-State, non-local sources to arrive at the estimated net program cost. The estimated net program cost is multiplied by an interim allocation percentage to arrive at the estimated allowable SNCP cost for the fiscal period.

B. Program Description

Song-Brown Healthcare Workforce Training Program

The Song-Brown Health Care Workforce Training Act (Song-Brown Program), established in 1973, provides financial support to various healthcare education programs with an emphasis on primary care and encourages primary care health professionals to provide healthcare in medically underserved areas.

***Eligibility**

The Song-Brown Program provides award funding to institutions (not individual students) that provide clinical training for Family Practice Residents, Family Nurse Practitioners, Physician Assistants, and Registered Nurses in rural and urban underserved areas. The awards are utilized by the residence programs to develop curriculum, clinical training sites and other necessary expenses to increase the number of health professional training slots in established medical schools. The program encourages universities and primary care health professionals to provide healthcare in medically underserved areas, and provides financial support to family practice residency, nurse practitioner, physician assistant, and registered nurse education programs through CA. It does not help cover resident tuition.

***Funding Source**

The Song-Brown Program is currently funded by the California Health Data and Planning Fund (CHDPF), a special fee charged to CA licensed health facilities, and the State General Fund (GF). The State pays the program claims.

***Report Format**

Song-Brown Program costs will be compiled from the State CalSTARS system, which uses Object of Expenditure Codes, Program Cost Account (PCA), and Category to identify the actual State expenditures for award payments. All costs claimed must be reasonable, allowable, and allocable under OMB Circular A-87.

Steven M. Thompson Physician Corps Loan Repayment Program (STLRP)

The purpose of STLRP is to encourage physicians to practice in medically underserved areas of California by authorizing a plan for repayment of their educational loans. STLRP repays up to \$105,000 in outstanding government or commercial educational

Attachment F – Supplement 1
Funding and Reimbursement Protocol for
Determination of Allowable Costs to Workforce Development Programs in Designated
State Health Programs

loans for expenses incurred for undergraduate education and graduate medical education.

***Eligibility**

Loan repayment awards are available to physicians who hold a full and unrestricted license to practice medicine in CA. Physicians awarded under this program must complete a three years service obligation to practice as a full-time physician in a medically underserved area of CA providing direct patient care.

***Funding Source**

STLRP is funded through \$25 surcharge for renewal of allopathic physician licenses in CA and through the Managed Care Administrative Fines and Penalties Fund.

***Report Format**

STLRP program cost will be compiled from the State CalSTARS system, which uses Object of Expenditure Codes, Program Cost Account (PCA), and Category to identify the actual State expenditures for award payments. All costs claimed must be reasonable, allowable, and allocable under OMB Circular A-87.

Mental Health Loan Assumption Program (MHLAP)

The MHLAP, created by the Mental Health Services Act, encourages mental health providers to practice in underserved locations in CA by authorizing a plan for repayment of some or all of their educational loans in exchange for their services in a designated hard-to-fill/retain position in the Public Mental Health System. Each eligible participant may receive up to \$10,000 award. In no event shall the amount of the award exceed the amount of the participant's outstanding educational debt.

***Eligibility**

Loan repayment awards are available to mental health provides who have a current, full, permanent, unencumbered, unrestricted health provider license, registration, or waiver and work or volunteer in the Public Mental Health System. Award recipients are required to complete a minimum 12 months consecutive or equivalent paid or unpaid service obligation and work or volunteer either full-time or part-time.

***Funding Source**

The MHLAP is funded through the Mental Health Services Act, which receives the funding from special tax revenue to expand mental health services. The annual MHLAP funding is used to administer the programs, including awards, marketing, program operations, and staff.

***Report Format**

MHLAP program cost will be compiled from the State CalSTARS system, which uses Object of Expenditure Codes, Program Cost Account (PCA), and Category to identify

Attachment F – Supplement 1
Funding and Reimbursement Protocol for
Determination of Allowable Costs to Workforce Development Programs in Designated
State Health Programs

the actual State expenditures for award payments. All costs claimed must be reasonable, allowable, and allocable under OMB Circular A-87.

C. DSHP Interim Claiming

The purpose of DSHP interim claiming is to provide an interim payment that will approximate the allowable costs in OSHPD programs that are eligible for FFP through the CPE process.

1. The process of determining the allowable costs eligible for FFP begins with the use of annual budget amount of Funding Appropriation for each OSHPD program described above.
2. The estimated program costs are reduced by program operation costs and other funding and subsidies made by a federal government or other third party to arrive at the net program costs. For the OSHPD Workforce Development Programs, there is no funding other than State funding. Therefore, program operation costs are the only funding reduction needed to arrive at net program costs.
3. The net program costs for each SFY will be multiplied by the following interim allocation percentage to determine the allowable SNCP costs:

SFY 2010-11:	67.67% (8 months over 12 months)
SFYs 2011-12 to 2014-15:	100%
SFY 2015-16:	33.33% (4 months over 12 months)
4. DSHP Interim certified public expenditures for OSHPD programs are the allowable SNCP costs as computed above.
5. SNCP interim claiming for the federal reimbursement will be made quarterly based on the interim certified public expenditures as computed above.

D. Final Reconciliation of DSHP Interim Claiming

The DSHP interim certified public expenditures will be reconciled based on the actual expenditures data for the applicable fiscal periods as finalized by its governing agencies for each program.

Allowable SNCP costs are the net program costs paid in the months of each DY, using actual expenditures reports for each SFY.

The State will adjust, as necessary, the aggregate amount of interim SNCP funds claimed based on the total certified DSHP expenditures determined under this final reconciliation. If, at the end of the final reconciliation process, it is determined that SNCP funding was over-claimed, the overpayment will be properly credited to the federal government.

Attachment F – Supplement 2

Funding and Reimbursement Protocol for Claiming IHS and 638 Facilities Uncompensated Care Payment Methodology

The methodology outlined below has been approved for structuring supplemental payments to IHS and 638 facilities from November 1, 2015 through December 31, 2020 as required by STC **Error! Reference source not found..b.iii**. Using the methodology described below in section (A), the state shall make supplemental payments to Indian Health Service (IHS) and tribal facilities to account for the uncompensated costs of furnishing primary care services between April 5, 2013 and December 31, 2013 to uninsured individuals with incomes up to 133 percent of the Federal Poverty Level (FPL) who are not enrolled in a Low Income Health Program (LIHP). Using the methodology described below in section (A) and (B), the state shall also make supplemental payments to account for the uncompensated costs of furnishing services between April 5, 2013 and December 31, 2014 to individuals enrolled in the Medi-Cal program for benefits that were eliminated from the state plan pursuant to state plan amendment 09-001 and are not covered by Medi-Cal. Costs for optional dental and psychology, that were eliminated through SPA 09-001, but have been added back in through State Plan Amendments are not available for reimbursement through these supplemental payments.

A. Provider Claiming Methodology for services provided Novemeber 1, 2015 through December 31, 2020

1. Participating IHS and tribal 638 facilities shall enter into a billing agent agreement with the California Rural Indian Health Board (CRIHB) consistent with the requirements of 42 C.F.R. 447.10.
2. Participating facilities shall track qualifying uncompensated encounters by utilizing a tracking document or other electronic means to record the following:
 - a. The qualifying Medi-Cal service provided to a Medi-Cal beneficiary;
 - b. Whether the service was provided to an IHS eligible individual; and
 - e. The service date.
3. Qualifying encounters shall not include encounters for which any payment was made under Medi-Cal at the IHS published rate.
4. Participating IHS and tribal 638 facilities shall submit to CRIHB, on a quarterly basis, the number of qualifying uncompensated encounters, broken down by status of individual as IHS-eligible (Indian or Alaskan Native).
5. Participating IHS and tribal 638 facilities shall submit to CRIHB, on a quarterly basis, the amount of third party payments received for Medi-Cal beneficiaries for qualifying uncompensated care. Third party payments received after the end of the quarter shall be reported as a prior period adjustment.
6. CRIHB will process the reports from participating IHS and tribal facilities and submit to DHCS, within 60 working days after the end of each quarter, a Quarterly Summary Aggregate Encounter Report (Exhibit 1.B) specifying the number of qualifying uncompensated encounters for each IHS/Tribal 638 facility,

Attachment F – Supplement 2

Funding and Reimbursement Protocol for Claiming IHS and 638 Facilities Uncompensated Care Payment Methodology

broken down as reported by each facility. The submission will also include a summary page totaling the aggregate qualifying uncompensated encounters as well as the aggregate supplemental payments due based on the applicable IHS encounter rate offset by any third party payments received by each facility for the qualifying uncompensated encounters.

7. In support of the Quarterly Aggregate Encounter Rate, CRIHB shall submit a certification, signed by the Executive Director of CRIHB that the information contained therein is current, complete, and accurate.

State Payment Process

1. The state shall make supplemental payments to each participating facility through CRIHB within 30 days of receipt of each quarterly report, based on the reported uncompensated care costs as calculated by multiplying qualifying uncompensated encounters by the appropriate IHS published rate, offset by any third party payments received by each IHS/Tribal 638 facility for uncompensated encounters involving Medi-Cal beneficiaries, including third party payments reported as a prior period adjustment. If third party payments are reported as a prior period adjustment after the supplemental payment period, the state will offset other Medi-Cal payments to the facility by the amount of such payments.
2. The state shall terminate supplemental payments if the cap for the SNCP is met.
3. The CRIHB must maintain, and upon request provide DHCS, documentation sufficient to support the claims for supplemental payments.
4. CRIHB will disburse the supplemental payments received from the state to each IHS facility in accordance with its agreement with each facility, but no later than 20 business days after receipt from the state.
5. The State may claim federal matching funding for supplemental payments to IHS and tribal 638 at the 100 percent FMAP rate only to the extent that the supplemental payments reflect uncompensated care furnished to IHS eligible individuals.

Attachment F – Supplement 2

**Funding and Reimbursement Protocol for Claiming IHS and 638 Facilities Uncompensated
Care Payment Methodology**

Certification:

I HEREBY CERTIFY THAT:

1. I have examined this statement, for the period from XXX to XXX and that to the best of my knowledge and belief they are true and correct statements prepared from the books and records of the IHS/Tribal 638 facilities and CRIHB.
2. The information contained in this report is current, complete, and accurate.

(Reserved)**

Attachment H Accounting Procedures

The following Accounting Procedures have been developed to ensure that no over claiming of expenditures occur and to provide for accurate reporting of mandated reports as required by CMS for the Demonstration. The Safety Net Financing Division's (SNFD) Hospital Contracts Unit (HCU), within the Inpatient Contract and Monitoring Section (ICMS), is responsible for preparing quarterly and annual reconciliation of program expenditures.

I. STATE-ONLY PROGRAMS - Reserved for State submission of accounting procedures for DY 6-10 DSHPs per paragraph 22.

II. CERTIFIED PUBLIC EXPENDITURES

CPEs are expenditures certified by counties, university teaching hospitals, or other governmental entities within a state, as having been spent on the provision of covered services to Medi-Cal beneficiaries and uninsured individuals. CPEs are eligible for reimbursement at the federal medical assistance percentage in effect on the date the service is provided.

Cost Submission

At least annually, designated public hospitals (DPHs) send to SNFD an estimate of their CPEs for the project (current) year, accompanied by an attestation of the costs. The CPEs are derived from the Medi-Cal 2552-96 cost report, a Workbook developed by SNFD, and other documentation to support the estimated CPEs. These CPEs are used to establish an interim per diem rate of reimbursement for the costs of providing inpatient care to Medi-Cal beneficiaries, and to determine DSH payments, and payments from the SNCP. In addition, the data is used as the basis of a tentative settlement made for inpatient services rendered to Medi-Cal beneficiaries.

1. Review Process

SNFD reviews all data submitted for accuracy and compliance with established procedures, and performs tests for reasonableness. If discrepancies or inconsistencies are identified, SNFD works directly with the DPH staff to resolve issues and correct data.

2. Interim Payment Process

Establish Inpatient Interim Rates

SNFD establishes the inpatient interim rate for each DPH based on the most current filed Medi-Cal 2552-96 and Workbook. SNFD instructs Provider Enrollment Division (PED) to update the Provider Master File (PMF) to reflect the new interim rates. The new interim rates are not retroactive and are applied to all claims for services rendered effective with the update.

Attachment H

Accounting Procedures

Determine Interim Payment

SNFD reviews the most current filed Medi-Cal 2552-96 cost report and Workbook filed by each DPH for the purpose of determining a tentative settlement. The tentative settlement is made to settle on an interim basis all claims paid to date to reflect the difference between the interim rate paid and actual costs. The actual claims paid are based on the most current Medi-Cal claims payment data generated by California's fiscal intermediary. Based on the review and application of the current payment data, SNFD generates a notice of tentative settlement to each DPH that includes schedules supporting the calculation and a copy of the payment data. A copy of the notice is forwarded to A&I for preparation of an action notice authorizing California's fiscal intermediary to pay or recover the tentative settlement amount. California's fiscal intermediary will prepare a Statement of Account Status which will inform the hospital of the date of payment or instructions for repayment.

3. Final Reconciliation Process

The final audit report of the Medi-Cal 2552-96 cost report generated by A&I will be used as the basis for final determination and settlement of the CPEs. SNFD will instruct A&I to prepare an action notice informing California's fiscal intermediary of the final settlement. California's fiscal intermediary will issue a Statement of Account Status which will incorporate the previous tentative settlement and inform the DPH of any further payment or recovery.

III. INTERGOVERNMENTAL TRANSFERS (IGTs)

IGTs are transfers of public funds between governmental entities, such as from a county to the State. One source of the funding used for the transfer is local tax dollars. SNFD reviews the source of funding for each IGT that is proposed by a governmental entity to ensure that it meets state and federal requirements for permissible transfers.

Pre-Transfer

For IGTs used as the non-federal share of DSH payments, DHCS and the State Treasurer's Office (STO) are notified by the county or governmental entity, prior to the transfer of funds to ensure all arrangements are complete.

For IGTs used as the non-federal share of the supplemental payments under the provisions of section 14166.12 of the California Welfare and Institutions (W&I) Code, DHCS, the California Medical Assistance Commission (CMAC), and STO are notified by the county, or governmental entity, prior to the transfer of funds to assure that all arrangements are complete.

Transfer

1. IGTs used as the non-federal share of DSH payments.

Attachment H Accounting Procedures

The amounts of the IGTs are determined by the data submitted to DHCS by the DPHs. Staff of the DSH Payment Unit will coordinate the amount and timing of transfers from the DPHs to STO.

2. IGTs used as the non-federal share of the supplemental payments.
CMAC coordinates with HCU on the amount and timing of IGTs to the STO under the provisions of section 14166.12 of the W&I Code.

Post-Transfer

For all IGTs, the county, or governmental entity, notifies DHCS after the transfer is complete. The transfer is verified and documented, and DHCS deposits the transferred amount into the appropriate funds for payments.

IV. SAFETY NET CARE POOL PAYMENTS

DPHs receive SNCP payments for hospital and clinic costs associated with health care services provided to uninsured individuals.

Payment Processes

The SNFD Program payment computation includes automated verification that the federal SNCP allotment, quarterly interim payments and the total SNCP funding level are not exceeded.

The payment process includes three phases.

Phase One

Four quarterly interim payments are disbursed to hospitals during and immediately after the program year.

Phase Two

Interim reconciliation occurs based on hospital cost reports filed five months after the end of the fiscal year. Appropriate adjustments are made to either distribute an additional payment to a hospital or recover an overpayment amount.

Phase Three

The final reconciliation is based on audited hospital cost reports. Appropriate adjustments are made to either distribute an additional payment to a hospital or recover an overpayment amount.

HCU prepares a payment package for signatures. The package is reviewed by a peer for verification prior to routing to management for signatures. Each package includes:

Attachment H

Accounting Procedures

- (i) A memorandum addressed to the Financial Management Branch Chief requesting authorization for payment.
- (ii) An invoice for the signatures of the Chiefs of ICMS and HCU.
- (iii) A copy of the support documents.

After internal signatures are obtained, HCU will:

- (i) Make a photocopy of payment package for program files.
- (ii) Record data on an internal spreadsheet, (including amount, date paid and annual totals).

The payment packages are submitted to Accounting. Accounting processes the payment request and submits it to SCO. After the payment is made, Accounting will send a claim schedule to HCU for confirmation.

V. DISPROPORTIONATE SHARE HOSPITAL PROGRAM

DHCS disburses \$1.0325 billion of the federal DSH allotment to eligible DPHs and non-designated public hospitals (NDPHs) annually. Hospitals that satisfy federal criteria specified in the Social Security Act and determined by the California Medicaid State Plan (State Plan), are eligible to receive DSH program funding. The State Plan defines DPHs and NDPHs, specifies the funding level, and describes the distribution methodology.

The non-federal share of DSH payments to DPHs is comprised of CPEs and IGTs. DPHs use CPEs to claim DSH funding for up to 100 percent of their uncompensated care costs, and use IGTs to claim DSH funding for up to 175 percent of their uncompensated care costs, as permitted by the Omnibus Budget Reconciliation Act of 1993. By contract, the nonfederal share of DSH payments to NDPHs is the State General Fund.

Annually, the DSH Share Hospital Eligibility Unit submits a DSH Program audit report to CMS as required by the Social Security Act. The DSH Share Hospital Payment Unit (DSHPU) performs a final reconciliation of total DSH hospital-specific payments to ensure that funding provided during and after the project year does not exceed appropriate funding levels established by actual hospital uncompensated care costs, as required by the State Plan.

The DSH Program payment computations include automated verification that the federal DSH allotment, appropriate IGT funds invoiced for DSH payments, and the total DSH Program funding level are not exceeded.

The DSHPU protocol and procedures include quality audits to ensure that correct data is used appropriately and that correct amounts are disbursed to the appropriate hospitals.

Attachment H Accounting Procedures

A. DESIGNATED PUBLIC HOSPITALS

Check Write Memorandum

The DSHPU generates a check write memorandum addressed to California's fiscal intermediary. The check write memorandum specifies the funding period, the payment amount, and the funding source.

The check write memorandum includes a payment authorization notice (PAN) and a memorandum to Accounting. The DSHPU uses a unique PAN sequence number to identify each payment transaction. For payments using IGTs as the non-federal share of the payments, the PAN provides Accounting with authorization to use the federal DSH allotment and IGT funds from the Medicaid Inpatient Adjustment Fund. The memorandum provides instructions for Accounting to draw federal funds using the appropriate non-federal share sources.

Signature Authorization

The DSH Program signature authorization document includes the DSHPU Chief and the DSH Financing & Non-Contract Hospital Recoupment Section Chief.

Payment Process

The payment process for DPHs includes three phases.

Phase One

Four quarterly interim payments are disbursed to hospitals during and immediately after the program year.

Phase Two

Interim reconciliation is based on hospital cost reports filed five months after the end of the fiscal year. Appropriate adjustments are made to either distribute an additional payment to a hospital or recover an overpayment amount.

Phase Three

The final reconciliation is based on audited hospital cost reports. Appropriate adjustments are made to either distribute an additional payment to a hospital or recover an overpayment amount.

EDS prepares the check write computer file for submission to SCO.

B. NON-DESIGNATED PUBLIC HOSPITALS

Check Write Memorandum

Attachment H

Accounting Procedures

The DSHPU generates a check write memorandum addressed to California's fiscal intermediary. The check write memorandum specifies the funding period, the payment amount, and the funding source (50% General Fund and 50% federal DSH allotment).

The check write memorandum includes a PAN and a memorandum to Accounting. The DSHPU uses a unique PAN sequence number to identify each payment transaction. The PAN provides Accounting with authorization to use the General Fund and federal DSH allotment. The memorandum provides instructions for Accounting to draw federal funds using the appropriate non-federal share sources.

Signature Authorization

The DSH Program signature authorization document includes the DSHPU Chief and the DSH Financing & Non-Contract Hospital Recoupment Section Chief.

Payment Process

The payment process for NDPHs includes two phases.

Phase One

During the first phase, interim payments are disbursed to hospitals during and immediately after the program year. Bimonthly payments are made based on tentative data. The first payment of the year is based on the prior year's data. As more current data becomes available, a recalculation is made and payments are adjusted based on current information.

Phase Two

Before the final payment is made, hospitals are given the opportunity to review the data used to calculate payment amounts. Final adjustments to payments are made in this phase after all discrepancies have been resolved. Appropriate adjustments are made to either distribute the final installment or recover any overpayment amounts.

EDS prepares the check write computer file for submission to SCO.

C. PRIVATE HOSPITALS

DHCS disburses approximately \$465 million of DSH replacement funding to eligible private hospitals annually. Hospitals that satisfy federal criteria specified in the Social Security Act and determined by the State Plan, are eligible to receive DSH replacement funding. The State Plan defines private hospitals, specifies the funding level, and describes the funding distribution methodology. In addition to the DSH replacement funding, DSH-eligible private hospitals receive their pro rata share of payments from a defined pool within the annual DSH allotment.

Attachment H Accounting Procedures

Check Write Memorandum

The DSHPU generates a check write memorandum addressed to California's fiscal intermediary. The check write memorandum specifies the funding period, the payment amount, and the funding source (50% General Fund and 50% federal Medicaid funding).

The check write memorandum includes a PAN and a memorandum to Accounting. The DSHPU uses a unique PAN sequence number to identify each payment transaction. The PAN provides Accounting with authorization to use the State General Fund and federal Medicaid funds. The memorandum provides instructions for Accounting to draw federal funds using the appropriate non-federal sources.

Signature Authorization

The DSH Program signature authorization document includes the DSHPU Chief and the DSH Financing & Non-Contract Hospital Recoupment Section Chief.

Payment Process

The payment process for private hospitals includes two phases.

Phase One

During the first phase, interim payments are disbursed to hospitals during and immediately after the program year. Bimonthly payments are made based on tentative data. The first payment of the year is based on the prior year's data. As more current data becomes available, a recalculation is made and payments are adjusted based on current information.

Phase Two

Before the final payment is made, hospitals are given the opportunity to review the data used to calculate payment amounts. Final adjustments to payments are made in this phase after all discrepancies have been resolved. Appropriate adjustments are made to either distribute the final installment or recover an overpayment amount.

EDS prepares the check write computer file for submission to SCO.

VI. PRIVATE HOSPITAL SUPPLEMENTAL PAYMENTS

CMAC negotiates contract amendments with hospitals participating in the Selective Provider Contracting Program (SPCP) to provide acute inpatient hospital care to Medi-Cal patients. Eligible private hospitals receive supplemental payments funded with State General Funds and federal funds.

Attachment H Accounting Procedures

Payment Determination

Approximately two times per year, CMAC forwards to HCU the contract amendments for supplemental payments from the Private Hospital Supplemental Fund. Each contract amendment indicates the amount and date to be paid.

Payment Process

HCU prepares a payment package for signatures. The package is reviewed by a peer for verification prior to routing to management for signatures. Each package includes:

- (i) A memorandum addressed to the Financial Management Branch Chief requesting authorization for payment.
- (ii) An invoice for the signatures of the Chiefs of ICMS and HCU.
- (iii) A copy of the support documents.

After internal signatures are obtained, HCU will:

- (i) Make a photocopy of payment package for program files.
- (ii) Record data on an internal spreadsheet, (including amount, date paid, and annual totals).

The payment packages are submitted to Accounting. Accounting processes the payment request and submits it to SCO. After the payment is made, Accounting will send a claim schedule to HCU for confirmation.

VII. NON-DESIGNATED PUBLIC HOSPITAL SUPPLEMENTAL PAYMENTS

CMAC negotiates contract amendments with hospitals participating in the SPCP to provide acute inpatient hospital care to Medi-Cal patients. Eligible NDPHs receive supplemental payments funded with State General Funds and federal funds.

Payment Determination

Approximately two times per year, CMAC forwards to HCU the contract amendments for supplemental payments from the Non-designated Public Hospital Supplemental Fund. Each contract amendment indicates the amount and date to be paid.

Payment Process

HCU prepares a payment package for signatures. The package is reviewed by a peer for verification prior to routing to management for signatures. Each package includes:

- (i) A memorandum addressed to Financial Management Branch Chief requesting authorization for payment.

Attachment H Accounting Procedures

- (ii) An invoice for the signatures of the Chiefs of ICMS and HCU.
- (iii) A copy of the support documents.

After internal signatures are obtained, HCU will:

- (i) Make a photocopy of payment package for program files.
- (ii) Record data on an internal spreadsheet, (including amount, date paid, and annual totals).

The payment packages are submitted to Accounting. Accounting processes the payment request and submits it to SCO. After the payment is made, Accounting will send a claim schedule to HCU for confirmation.

VIII. DISTRESSED HOSPITAL FUND PAYMENTS

CMAC negotiates contract amendments with participating SPCP hospitals that meet criteria for distressed hospitals. These hospitals must serve a substantial volume of Medi-Cal patients, be a critical component of the Medi-Cal program's health care delivery system, and be facing a significant financial hardship that may impair ability to continue their range of services for the Medi-Cal program.

The non-federal share of distressed hospital fund payments is funded by State Treasury funds that are 20% of the July 2005 balance of the prior supplemental funds (PFSs), accrued interest on the PFSs, and any additional amounts appropriated by the Legislature.

Payment Determination

Approximately two times per year, CMAC forwards to HCU the contract amendments for payments from the Distressed Hospital Fund. Each contract amendment indicates the amount and date to be paid.

Payment Process

HCU prepares a payment package for signatures. The package is reviewed by a peer for verification prior to routing to management for signatures. Each package includes:

- (i) A memorandum addressed to Financial Management Branch Chief requesting authorization for payment.
- (ii) An invoice for the signatures of the Chiefs of ICMS and HCU.
- (iii) A copy of the support documents.

After internal signatures are obtained, HCU will:

- (i) Make a photocopy of payment package for program files.

Attachment H

Accounting Procedures

- (ii) Record data on an internal spreadsheet, (including amount, date paid, and annual totals).

The payment packages are submitted to Accounting. Accounting processes the payment request, and submits it to SCO. After the payment is made, Accounting will send a claim schedule to HCU for confirmation.

IX. CONSTRUCTION/RENOVATION REIMBURSEMENT PROGRAM (SB 1732)

In 1989, Senate Bill (SB) 1732 was enacted to establish the Construction/Renovation Reimbursement Program (also known as the SB 1732 program) (Welfare and Institutions Code 14085.5). Under this program, reimbursement is provided to eligible hospitals for the debt service costs incurred on revenue bonds used to finance eligible hospital construction project(s).

Invoice Submission

Invoices are submitted by participating hospitals to HCU no more than twice each year. The invoices consist of the following:

- (i) A cover letter from the hospital's Chief Financial Officer, or other appropriate representative.
- (ii) A reimbursement request that includes bond debt service payment (principal and/or interest).
- (iii) Support documents verifying payment by the hospital to the debt holder.

Review Process

HCU verifies inclusion and accuracy of all required documents in the invoice package.

Payment Process

HCU calculates reimbursement amounts on a spreadsheet by:

- (i) Determining the amount of debt service paid.
- (ii) Deducting interest earned in the hospital's SB 1732 account.
- (iii) Calculating the reimbursable amount based on the eligible portion of the construction project and the Medi-Cal Utilization Rate percentage.

HCU prepares a reimbursement payment package, which is reviewed and approved by the ICMS Chief, and submits it to California's fiscal intermediary.

HCU sends a notification letter to each eligible hospital and a copy of the notification letter is forwarded to CMAC.

Attachment H Accounting Procedures

California's fiscal intermediary forwards payment requests to SCO and sends copies of the payment requests to HCU.

SCO mails the payment to the hospital.

X. SELECTIVE PROVIDER CONTRACTING PROGRAM

The SPCP was established in 1982 and operated under a two-year section 1915(b) waiver until August 31, 2005. On September 1, 2005, CMS approved the continuation of a restructured SPCP under California's new five-year section 1115 Medi-Cal Hospital/Uninsured Care Demonstration. The SPCP allows DHCS to selectively contract with acute care hospitals to provide inpatient hospital care to Medi-Cal beneficiaries. Under the SPCP, CMAC negotiates contract terms and conditions and per diem rates with participating hospitals on behalf of DHCS. This program has resulted in millions of dollars of savings each year which offset expenditures in this Demonstration to assist in achieving budget neutrality.

The non-federal share of SPCP payments is funded by amounts from the State General Fund.

Contract Process

CMAC forwards proposed contract(s)/amendment(s) to HCU for review. After review, final proposed contracts/amendments are presented at a CMAC meeting for approval by the Commissioners. The approved contracts/amendments are signed by authorized hospital representatives and submitted by CMAC to HCU for processing. The HCU analyst prepares contract/amendment packages for processing and obtains the signature of DHCS's delegated Contract Officer (SNFD Chief) to fully execute the contracts/amendments.

Notification Process

HCU notifies PED of new per diem rates and/or new Current Procedural Terminology codes, revenue codes, and Health Care Procedure Coding System codes, to update the Provider Master File with the hospital-specific information. This file is used by California's fiscal intermediary to process and pay claims submitted by all Medi-Cal providers, including those participating in the SPCP.

Distribution Process

HCU distributes fully executed contracts/amendments to the following:

- (i) Contracted hospital
- (ii) CMAC Executive Director
- (iii) Medi-Cal Field Office
- (iv) A&I

Attachment H
Accounting Procedures

i. CMS-64 QUARTERLY EXPENSE REPORT

After the end of every quarter, Accounting summarizes all payments and claims made relating to the Demonstration during the quarter and sends the summary to SNFD to verify the payment period, amount and funding source. After the confirmation, Accounting prepares and submits the CMS-64 Quarterly Expense Report to CMS.

Attachment I Quarterly Report Guidelines

In accordance with Section, paragraph 20, the State is required to submit quarterly progress reports to CMS. The purpose of the quarterly report is to inform CMS of significant Demonstration activity from the time of approval through completion of the Demonstration. The reports are due to CMS 60 days after the end of each quarter.

The following report guidelines are intended as a framework and can be modified when agreed upon by CMS and the State. A complete quarterly progress report must include the budget neutrality monitoring workbook. An electronic copy of the report narrative and the Microsoft Excel budget neutrality monitoring workbook is provided.

NARRATIVE REPORT FORMAT:

TITLE

Title Line One – State of California Bridge to Health Reform Demonstration 11-W-00193/9)

**Title Line Two - Section 1115 Quarterly Report
Demonstration Reporting Period:**

Example:

Demonstration Year: 6 (9/1/10 - 12/31/10)

Introduction:

Information describing the goal of the Demonstration, what it does, and key dates of approval /operation. (This should be the same for each report.)

Enrollment Information:

Please complete the following table that outlines current enrollment in each HCCI program under the Demonstration. The State should indicate “N/A” where appropriate.

Note:

Monthly enrollment data during the quarter and Demonstration Year to Date by:

- i. County of participation the number of persons in the Medicaid Coverage Expansion Program ([MCE]) who are new recipients and existing recipients by FPL;
- ii. County of participation the number of persons in the HCCI program ([SNCP – HCCI]) who are new recipients and existing recipients by FPL;
- iii. County of participation the number of persons enrolled in the SPD program ([Existing SPD] or [Mandatory SPD]);
- iv. County of participation the number of persons enrolled in the California Children Services Program based on Medi-Cal eligibility ([CCS – State Plan] and DSHP ([CCS – DSHP]); and
- v. County of participation the number of persons participating in DSHP receiving FFP.
- vi. Monthly eligible member-month totals for [LIHP], [Existing SPD], [Mandatory SPD], [CCS – State Plan], and [Families],

Attachment I
Quarterly Report Guidelines

Member-Months: To permit full recognition of “in-process” eligibility, reported member month totals may be revised subsequently as needed. To document revisions to totals submitted in prior quarters, the State must report a new table with revised member month totals indicating the quarter for which the member month report is superseded. The term “eligible member months” refers to the number of months in which persons are eligible to receive services. For example, a person who is eligible for 3 months contributes 3 eligible member months to the total. Two individuals who are eligible for 2 months each contribute 2 eligible member months to the total, for a total of 4 eligible member months.

Demonstration Programs	Month 1	Month 2	Month 3	Quarter	Current Enrollees (to date)
2.					

Outreach/Innovative Activities:

Summarize outreach activities and/or promising practices for the current quarter.

Operational/Policy Developments/Issues:

Identify all significant program developments/issues/problems that have occurred in the current quarter.

Financial/Budget Neutrality Developments/Issues:

Identify all significant developments/issues/problems with financial accounting, budget neutrality, and CMS 64 reporting for the current quarter. Identify the State’s actions to address these issues.

Consumer Issues:

A summary of the types of complaints or problems consumers identified about the program in the current quarter. Include any trends discovered, the resolution of complaints, and any actions taken or to be taken to prevent other occurrences.

Quality Assurance/Monitoring Activity:

Identify any quality assurance/monitoring activity in current quarter.

Enclosures/Attachments:

Identify by title any attachments along with a brief description of what information the document contains.

State Contact(s):

Identify individuals by name, title, phone, fax, and address that CMS may contact should any questions arise.

Attachment I
Quarterly Report Guidelines

The State may also add additional program headings as applicable.

Date Submitted to CMS:

Transitional Inpatient Care Services	Nursing Facility and Transitional Inpatient Care Services	Focus on transition of care from outpatient to inpatient. Inpatient care coordinators, along with providers from varying settings along the care continuum, should provide a safe and quality transition.	X	X	X	X	X	X
Tuberculosis (TB) Related Services	TB Related Services	Covers TB care and treatment in compliance with the guidelines recommended by American Thoracic Society and the Centers for Disease Control and Prevention.						

¹ Optional benefits coverage is limited to only beneficiaries in “Exempt Groups”: 1) beneficiaries under 21 years of age for services rendered pursuant to EPSDT program; 2) beneficiaries residing in a SNF (Nursing Facilities Level A and Level B, including subacute care facilities; 3) beneficiaries who are pregnant; 4) CCS beneficiaries; and 5) beneficiaries enrolled in the PACE. Services include: Chiropractic Services, Acupuncturist, Audiologist and Audiology Services, Optician and Optical Fabricating Lab, Dental*, Speech Pathology, Dentures, Eye glasses.

² Services provided by primary care physicians; psychiatrists; psychologists; licensed clinical social workers; or other specialty mental health provider. Solano County for Partnership Health plan (COHS) covers specialty mental health, and Kaiser GMC covers inpatient, outpatient, and specialty mental health services.

³ Fabrication of optical lenses only covered by CenCal Health.

⁴ Not covered by CenCal

⁵ Only covered for the month of admission and the following month

⁶ Not Covered by CalOptima, Central California Alliance for Health, Partnership HealthPlan of California (Sonoma County Only) and CenCal (San Luis Obispo County Only)

⁷ Only covered in Health Plan of San Mateo and CalOptima

Attachment N

Capitated Benefits Provided in Managed Care

(X = covered by plan. If service is not covered, plan is contractually required to provide care coordination to members)

⁸ Only covered in Health Plan of San Mateo

⁹ Services covered under managed care only in MLTSS Eligible Beneficiary Authorized Counties: Alameda, Los Angeles, Orange, San Bernadino, San Diego, San Mateo, Santa Clara, and Riverside

¹⁰ Benefit coverage is limited to only beneficiaries under 21 years of age for services rendered pursuant to EPSDT program.

¹¹ Health Home Program (HHP) service coverage is limited to only beneficiaries who have full-scope, non-Share-of-Cost, Medi-Cal enrollment, and meet the specific Health Home Program eligibility requirements as specified in the Health Home Program State Plan Amendments (SPAs). HHP services will be provided through the Medi-Cal managed care delivery system to members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal Managed Care Plan (MCP) to receive HHP services as well as all other state plan services that are provided through MCPs. HHP services will not be provided through a FFS delivery system. The HHP-specific provisions of the Medi-Cal 2020 demonstration freedom of choice waiver, and managed care delivery system implementation Medicaid authority, will be in effect consistent with any CMS-approved Health Home Program SPAs - including SPA requirements specific to eligible populations, geographic coverages, approved providers, and any other SPA requirements - for the duration of the Medi-Cal 2020 demonstration.

Attachment T
2013 Managed Care Expansion Monitoring Elements

The following health plan measures will be used after implementation to ensure plans are fulfilling their obligation to provide covered Medi-Cal health services to their members in accordance with State and federal law and will be publicly reported in summary format by health plan and by county. CMS and the state can mutually agree at any time to delete, modify or add new metrics to the monthly report, as determined necessary to improve reporting going forward.

Office of the Ombudsman Calls

Monthly Health Plan Call Center Reports – tracks the types of calls received from Medi-Cal beneficiaries and trends within each plan

Monthly Grievance Reports – tracks what kind of grievances were submitted by Medi-Cal members, how the plan resolved them, and in what timeframe.

Quarterly Provider Network Reports – submitted to both DHCS and DMHC, lists all current providers and track additions and deletions from the last quarterly report.

Health Plans

DHCS currently has an established monitoring and reporting system for its health plans. These monitoring activities are completed regularly to ensure that plans are fulfilling their obligation to provide covered Medi-Cal health services to their members in accordance with State and federal law.

Health Plan Provider Assignments – plans will assign new enrollees within the contractual timeframes and allow member choice of Primary Care Providers.

Continuity of Care requests and outcomes – will be reported to DHCS on a monthly basis and will be used to monitor each plan's ability to continue to provide services without disruption of care.

Time and distance requirements for primary care providers (Geo Access) – used as a component of each plan's continued provider network adequacy review. Plans that show issues with meeting their time and distance standards for the transition must work closely with both the State to show provider access and/or alternative access as part of the monitoring

Attachment T
2013 Managed Care Expansion Monitoring Elements

Health Plan Grievances/Appeals related to access to care – shall include grievances made to the State and shall be evaluated, including evaluating trends, s once the transition begins.

Office of the Ombudsman – health plan members that are experiencing difficulties are able to call the Ombudsman’s office to report these issues, as well as receive help and guidance. DHCS tracks each call that comes in and is able to run reports on what issues are being reported and by which members of the Medi-Cal population.

CRITERIA	METRIC	FREQUENCY	DATA SOURCE	EXPECTED OUTCOME
ENROLLMENT PROVISIONS: To be collected and reported for 6 months after transition				
Objective 1: Transitioning beneficiaries to Medi-Cal managed care will maintain access to health care coverage				
Enrollment status	Number/percent of beneficiaries enrolled in Medi-Cal Managed Care Identify choosers vs. those defaulted (non COHS only) Identify those who were defaulted who were linked (non COHS only)	Monthly ^a	MEDS data	Accurate count of the number of beneficiaries enrolled by health plan and county
MERs(non COHS only)	Number submitted Number approved/denied Number pending/ Number pending for greater than 60 days	Monthly ^a	DHCS tracking system	Number of MERs submitted will trend downward after the transition begins

Attachment T
2013 Managed Care Expansion Monitoring Elements

CRITERIA	METRIC	FREQUENCY	DATA SOURCE	EXPECTED OUTCOME
ACCESS TO HEALTH CARE SERVICES: To be collected and reported for 6 months after transition				
Objective 2: Transitioning beneficiaries will maintain access to medical care through Medi-Cal managed care plans.				
Beneficiaries assigned to a primary care provider (PCP)	Number/percent of beneficiaries assigned to a PCP	Monthly ^a	Continuity of Care (COC) Report from Managed Care Health Plans	100 percent of beneficiaries are assigned to a PCP within 30 days of enrollment.
PCP changes by plan	Number of beneficiaries who change PCP within plan	Monthly ^a		Expect less than 10% after the first quarter of transition
Beneficiaries changing health plan, due to access to care or continuity of care concerns for counties that have two plans	Number/percent of beneficiaries enrolling in a different plan after month 1 and reason for change Compare beneficiaries who were auto-enrolled vs. those who their chose health plan, where applicable	Monthly ^a	Enrollment reports/MEDS data	No more than 10 percent of beneficiaries auto-assigned to a Medi-Cal health plan, change their current health plan due to access to care or continuity of care concerns.
Provider network changes	Additions/deletions of participating providers by plan	Quarterly ^b	Managed Care Health Plans submit quarterly reports	The overall provider network of the plan remains consistent with the network assessed during readiness.
Continuity of Care	Number of continuity of care requests and	Monthly ^a	Managed Care Health Plans	Plans will report all cases of transitioning beneficiaries receiving or requesting continuity

Attachment T
2013 Managed Care Expansion Monitoring Elements

CRITERIA	METRIC	FREQUENCY	DATA SOURCE	EXPECTED OUTCOME
	outcomes for beneficiaries, by plan			of care.
Consumer satisfaction with health plan	Health Plan call center reports for beneficiaries by type of inquiry	Monthly ^a	Managed Care Health Plan Call Center reports submitted	The number of calls and types of calls related to access to care and continuity of care with consideration of the transition taken into account. The expectation is that there will be a decrease each month following the transition.
Grievance reporting	Grievance reports for beneficiaries, by type, resolution and timeframes to resolution	Monthly ^a	Managed Care Health Plans quarterly reports submitted	The number of grievances related to access to care and continuity of care with consideration of the transition taken into account. The expectation is that there will be a decrease each month following the transition. . The plans are able to resolve grievances related to access under required timeframes.
	Office of Ombudsman calls from beneficiaries (including new enrollees), by type and by outcome	Monthly ^a	Call Center Reports	Tracking of calls with reports specific to identified issues and trends, by member category, health plan, and service area Calls related to the 2013 managed care transition will show minimal access to care issues.

Attachment T
2013 Managed Care Expansion Monitoring Elements

CRITERIA	METRIC	FREQUENCY	DATA SOURCE	EXPECTED OUTCOME
PROVIDER CREDENTIALING SCREENING: To be collected and reported for at least 6 months after each transition				
Objective 3: Plans shall follow administrative and management arrangements or procedures, as well as a mandatory compliance plan, which are designed to guard against fraud and abuse				
All cases of suspected fraud and/or abuse	Number of cases of suspected fraud and/or abuse, including 1) Source of complaint, 2) Type of provider, 3) Nature of complaint, 4) Approximate dollars involved, and 5) Legal and administrative disposition of the case.	Monthly ^a	Fraud and Abuse Reporting by Plans	All allegations of suspected fraud should be tracked and triaged by the state.

^aDue 15 days from end of the calendar month. Upon completion of the transition and effective March 1, 2014, these items are due 20 days after the end of the reported calendar month.

^bDue 21 days after close of the quarter

Attachment U
CCI Enrollment Timeline by Population and County

The following dates reflect the earliest date that Coordinated Care Initiative (CCI) enrollment may take effect in each CCI county. CMS and the state can mutually agree at any time to modify this timeline and structure as necessary.

In general, Cal MediConnect enrollment begins no earlier than April 2014 with passive enrollment in San Mateo; and "opt-in" in Riverside, San Bernardino, San Diego and Los Angeles counties. CCI will begin no earlier than April 2014 in Los Angeles, Riverside, San Bernardino, San Diego, and San Mateo and no earlier than January 2015 in Santa Clara counties. Orange County is on hold, until DHCS has completed an audit of CalOptima's Medicaid Plan Orange County. At that time, CMS and the state will update this attachment to establish an appropriate timeline for enrollment in Orange County. Alameda County is also on hold and CMS and the state will update this attachment in the future to establish an appropriate timeline for enrollment in Alameda County.

Start Date	Cal MediConnect (Passive enrollment)				MLTSS (Mandatory enrollment)								
	Full Duals Only				Full Duals in Medi-Cal FFS			Full Duals in Medi-Cal Managed			MSSP	Partial Duals/ Medi-Cal

MLTSS Monitoring Items

The following health plan measures will be used to ensure plans are fulfilling their obligation to provide covered MLTSS services to their members in Coordinated Care Initiative (CCI) counties in accordance with State and federal law and will be publicly reported in summary format by health plan and by county. CMS and the state can mutually agree at any time to delete, modify or add new metrics to the monthly report, as determined necessary to improve reporting going forward.

Criteria	Metric	Frequency	Data Source	Expected Outcome
Enrollment Status	The plan selection and mandatory enrollment numbers and percentages for beneficiaries eligible for Managed Long Term Services and Supports (MLTSS) will be tracked in each MLTSS county.	Monthly	MEDS Data	100 percent of beneficiaries eligible for MLTSS will either make a plan selection, or be passively enrolled in each MLTSS county.
Plan Changes	The number of beneficiaries that changed health plans in Geographic Managed Care and wo-Plan model counties.	Monthly	MEDS Data	The number of plan changes by plan and county will be monitored. No more than 10% auto-assigned to a health plan will change plans due to access to care or continuity of care concerns.
Primary Care Provider Assignment	Number of MLTSS beneficiaries assigned to a Primary Care Provider.	Monthly	Monitoring Report from Health Plans	100% of Medi-Cal only and Partial Duals without Medicare Part B beneficiaries that are mandatorily enrolled or make a plan choice will be assigned a primary care provider within 30 days.

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

A. General Provider Requirements

To become a Medi-Cal Community-Based Adult Services (CBAS) provider, the prospective provider must first obtain an Adult Day Health Care (ADHC) center license, issued by the California Department of Public Health and apply for certification for enrollment in Medi-Cal to the Department of Health Care Services (DHCS) or its designee*. Upon meeting the criteria for certification and Medi-Cal provider enrollment, the ADHC center licensee will be certified as a CBAS provider. This specific waiver provider designation will afford CBAS providers the opportunity to deliver outpatient CBAS center services to eligible Medi-Cal beneficiaries (referred to as CBAS participants) in a community setting.

CBAS providers shall:

1. Meet all applicable licensing and certification, as well as Medi-Cal and waiver program standards, as described or referenced in this document;
2. Adhere to these waiver Standards of Participation (SOPs);
3. Enter into contracts with Medi-Cal managed care plans within the provider's geographic area to provide CBAS center services to Medi-Cal plan members;
4. Provide services in accordance with the CBAS participant's Individual Plan of Care (IPC);
5. Adhere to the documentation, training, and quality assurance requirements identified in the Centers for Medicare and Medicaid Services (CMS)-approved 1115 waiver (#11-W-00193/9), inclusive of all the Special Terms and Conditions (STCs) contained therein; and
6. Demonstrate ongoing compliance with the requirements specified in these SOPs.

*The California Department of Aging (CDA) is DHCS' designated representative for the certification of CBAS providers. Future reference in these SOPs will specify CDA.

B. CBAS Center Services

A CBAS provider shall provide services at the ADHC center, pursuant to a CBAS participant's IPC, developed by the center's multidisciplinary team. These services shall include all of the following, as specified in a CBAS participant's IPC, during a minimum of a four-hour stay at the center. Any length of stay under four hours will not be reimbursed. The CBAS provider is responsible for documenting the provision of at least four hours of CBAS to each participant at the center.

1. Core services: each CBAS participant shall receive ALL of these services on each day of attendance at the center:
 - a. Professional nursing.
 - b. Therapeutic activities.
 - c. Social services and/or personal care services.
 - d. One meal offered per day.

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

2. Additional services: each CBAS participant shall receive the following services as needed and as specified in his/her IPC:
 - a. Physical therapy.
 - b. Occupational therapy.
 - c. Speech therapy.
 - d. Mental health services
 - e. Registered dietitian services.
3. Transportation to and from the center and the participant's place of residence, shall be arranged or provided as needed.

C. Legal Authority and Requirements.

1. CBAS providers shall:
 - a. Deliver services in licensed ADHC centers in accordance with Health and Safety (H&S) Codes under Division 2, Chapter 3.3 and shall provide services in accordance with the California Code of Regulations (CCR), Title 22 under Division 5, Chapter 10 and with the CMS-approved waiver document(s).
 - b. Be certified and enrolled as Medi-Cal providers and shall meet the standards specified in the Welfare and Institutions Codes under Division 9, Chapter 8.7; in the CCR, Title 22 under Division 3, Chapter 5; and as set forth in these SOPs.
 - c. Apply for certification. The application review includes, but is not limited to, evaluation of the provider legal entity and associated individuals to ensure there are no restrictions on their Medi-Cal/Medicaid enrollment status.
 - d. Apply for recertification as Medi-Cal providers at least every 24 months and be subject to an application review as specified in Subsection C.1.c. and an onsite review. The onsite review includes, but is not limited to, evaluation of administrative systems and processes, staffing, and the appropriateness and quality of services delivered. Recertification is contingent upon the provider's demonstration of continuing compliance with standards for participation in the Medi-Cal program.
2. If there is a change in adopted laws or regulations governing the licensing of ADHC centers and/or the certification of CBAS providers, these SOPs shall be interpreted in such a manner as to be in conformance with such laws or regulations.

D. Physical Plant and Health and Safety Requirements.

To ensure the health and safety of the CBAS participants, the physical plant of each center shall conform to the requirements of applicable sections of Title 22 of the CCR as described in part by the following:

1. Physical accommodations – Designed, equipped, and maintained to provide for a safe and healthful environment. Each center shall:
 - a. Comply with state and local building requirements and codes.

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

- b. Be maintained in conformity with the regulations adopted by the State Fire Marshal.
 - c. Have a working, listed telephone number.
 - d. Have a working FAX number.
 - e. Have a working email address.
 - f. Have electronic equipment, including computers and software, adequate to comply with State CBAS reporting requirements.
 - g. Have a working heating and cooling system.
 - h. Have adequate lighting.
 - i. Have appropriate water supply and plumbing.
2. Space Requirements – Demonstrate all of the following, to include but not be limited to:
 - a. Available space sufficient to accommodate both indoor and outdoor activities and store equipment and supplies.
 - b. A multipurpose room large enough for all participants to gather for large group activities and for meals.
 - c. A secluded area that is set aside for participants who require bed rest and privacy during medical treatments or social service interventions.
 - d. Appropriate office area(s).
 3. Maintenance and Housekeeping – Be clean, safe, and in good repair at all times; maintenance shall include provisions for cleaning and repair services.
 4. Safety – Have appropriate protective devices to guard against hazards by means of supervision, instruction, and installation.
 5. Supplies – Maintain sufficient supplies for functional operation and meeting the needs of the participants.
 6. Solid Waste – Provide for the storage and disposal of solid waste according to the standards set forth in Title 22.

E. CBAS Eligibility Determination and Authorization

Eligibility determination and authorization for CBAS shall be determined as specified in the CBAS STCs and as follows:

1. A Treatment Authorization Request (TAR) or other agreed upon authorization document shall be prepared by the CBAS provider and submitted to the managed care plan, or to DHCS for beneficiaries exempt from enrolling in a managed care plan, for each beneficiary seeking CBAS. TARs for CBAS must be supported by the participant's IPC.
2. Reauthorization TARs for CBAS must be submitted to the appropriate reviewer at least every six months, or up to 12 months as specified in the STCs, and must continue to be supported by the participant's IPC.

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

3. Authorization timeframes shall be in accordance with H&S Code 1367.01 and State Medi-Cal regulations and policy.

F. Individual Plan of Care (IPC)

The participant's IPC shall:

1. Be developed by the CBAS center's multidisciplinary team and signed by representatives of each discipline required to participate in the multidisciplinary team assessment.
2. Be the result of a collaborative process among the CBAS provider, the participant, and if applicable, the participant's authorized representative(s) and/or managed care plan.
3. Be signed by either the CBAS provider's physician or the participant's personal health care provider. "Personal health care provider" may include a physician assistant or nurse practitioner within their scope of practice under the appropriate supervision of the physician.
4. Be based on a person-centered planning process and meet the requirements specified in the CBAS STCs.
5. Be based on assessment or reassessment conducted no more than 30 days prior to the start date of the IPC. If the CBAS participant is a Medi-Cal managed care member and the participant's plan requires submission more than 30 days prior to the IPC effective date, the CBAS provider must identify any change in condition requiring IPC amendment prior to implementation and amend it accordingly if a change to the IPC is needed.

G. CBAS Staffing

1. A CBAS provider shall employ or contract with a variety of staff and render required services as described in these SOPs. The staff providing CBAS center services shall meet all licensing requirements as specified in the California Business and Professions Code, as well as these SOPs, as appropriate to the individual staff person. A CBAS provider's staffing requirements shall be based on the provider's hours of service and the average daily attendance (ADA) from the previous three consecutive months. The ADA can also be tied to ADA levels on various days of the week so long as the CBAS provider can demonstrate that the ADA for those days are consistent.
 - a. "Hours of service" means the program hours for the provision of CBAS, which shall be no less than 4 hours excluding transportation. The hours of service shall be defined and posted by the adult day health care center.
2. Professional nursing coverage of the center shall include Registered Nurse (RN) staffing at a ratio of one RN for every 40 participants in ADA, or one RN for the

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

first 40 participants and a half-time Licensed Vocational Nurse (LVN) for every increment of 10 in ADA exceeding 40 participants.

- a. There shall be at least one licensed nurse physically present and performing nursing duties at the center at all times during the center's hours of service during which participants are present. The licensed nurse physically present may be an LVN, providing the LVN is under the supervision of the RN, is working within scope of practice, and the RN is immediately available by phone if needed.
3. Social services staffing must include social workers at a ratio of one medical social worker for every 40 participants in ADA, or one medical social worker for the first 40 participants and a half-time social worker assistant for every increment of 10 in ADA exceeding 40 participants.
 4. The program aide staffing shall be at a ratio of one program aide on duty for up to and including 16 participants
 - a. "On duty" means physically present and performing duties at the center at all times during the center's hours of service in which participants are present.
 - b. Any number of participants up to the next 16 shall require an additional program aide (for example, 17 participants require two program aides).
 5. Participants' needs supersede the minimum staffing requirements specified in these SOPs. The CBAS provider shall be responsible for increasing staffing levels as necessary to maintain the health and safety of all participants and to ensure that services are provided to all participants according to their IPCs.
 6. Physical, occupational, and speech therapy, and mental health services shall be provided at a minimum monthly rate of 20 total therapy hours for each increment of five participants in ADA.

H. Organization and Administration

The CBAS center shall be organized and staffed to carry out the services and other requirements specified in the waiver. Such organization shall include:

1. An administrator and full-time program director. An administrator or program director must be on duty at all times
 - a. "On duty" means physically present and performing duties at the center at all times during the center's hours of service in which participants are present.
 - b. The CBAS provider shall have a written policy for coverage of the administrator and program director during times of absence.
2. Sufficient supportive staff to conduct the CBAS provider's daily business in an orderly manner.

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

3. CBAS staffing that meets the individual professional requirements specified in relevant state laws and regulations and in these SOPs.
4. Financial and accounting records that fully disclose the disposition of all funds.
5. The maintenance of appropriate personnel and CBAS participant health records and personnel records.
6. Ability to comply with State reporting requirements as specified through Provider Bulletins, these SOPs, and as applicable, Medi-Cal managed care plan contract requirements. CBAS providers must report the following:
 - a. Discharge plan at time of disenrollment from the CBAS center:
 - i. Must be reported to CDA for fee-for-service CBAS participants and to the responsible managed care plan for managed care plan members.
 - b. Incident reports:
 - i. All incidents that threaten the welfare, safety, or health of the participant(s) shall be reported to CDA, and, if applicable, the CBAS participant's managed care plan within 48 hours of the incident and documented in writing in the required format. Such documentation shall be available to appropriate CDA/managed care plan staff at all times.
7. Written policies and procedures for center operations and the provision of services to CBAS participants.
8. Emergency Services – Maintenance of updated written procedures for dealing with emergency situations. Such procedures shall include, at a minimum all of the following:
 - a. Use of the local 911 system.
 - b. Appropriately trained personnel; at a minimum, all direct care staff shall be trained in first aid and certified in basic life support.
 - c. Written permission from all CBAS participants for transfer to and treatment by local hospitals or other treatment facilities as needed, which can be provided for in the participation agreement.
9. Grievance Procedures – A written grievance process whereby participants and family/caregivers can report and receive feedback regarding CBAS services.
10. Civil Rights and Confidentiality – Adherence to all laws and regulations regarding civil rights and confidentiality of both participants and CBAS staff. CBAS providers are subject to Federal and State laws regarding discrimination and abuse and the reporting of such, inclusive of the requirements of the Health Insurance Portability and Accountability Act (HIPAA) and the Information Practices Act (IPA).

Attachment W
Community-Based Adult Services (CBAS)
Provider Standards of Participation

11. Quality Control/Quality Assurance – Quality control/quality assurance reviews that are in accordance with the Quality Assurance Plan, as described in the CMS-approved 1115 waiver (#11-W-00193/9).
12. Training Requirements – Training of all direct care CBAS staff regarding the care appropriate to each participant’s diagnoses and his/her individual care needs.

Provision of training to CBAS staff is a requirement to be enrolled in Medi-Cal as a CBAS provider and is not separately reimbursable outside of the CBAS provider’s rate by either Medi-Cal or the Medi-Cal managed care plans.

A Training of CBAS staff shall include an initial orientation for new staff; review of all updated policies and procedures; hands-on instruction for new equipment and procedures; and regular updates on State and Federal requirements, such as abuse reporting and fire safety.

- b. Training shall be conducted and documented on a quarterly basis and shall include supporting documentation on the information taught, attendees, and the qualifications of the instructor(s).

13. Documentation – Maintenance of a health record for each CBAS participant that shall be available to appropriate DHCS/CDA and managed care plan staff for any scheduled or unscheduled visits.

- a. This health record shall include documentation of all services provided and refused, the current IPC, referral requests and outcomes of said referral(s).
- b. Health record documentation shall be maintained in compliance with applicable Federal and State laws and shall be retained by the CBAS provider for a minimum of seven years. Health records shall be stored so as to protect against loss, destruction, or unauthorized use.
- c. The CBAS provider shall maintain administrative records that document compliance with these SOPs.

Attachment X
Drug Medi-Cal Organized Delivery System (DMC-ODS)
Operational Protocol

A primary goal underlying the ASAM Criteria is for the patient to be placed in the most appropriate level of care. For both clinical and financial reasons, the preferable level of care is that which is the least intensive while still meeting treatment objectives and providing safety and security for the patient. The ASAM Criteria is a single, common standard for assessing patient needs, optimizing placement, determining medical necessity, and documenting the appropriateness of reimbursement. ASAM Criteria uses six unique dimensions, which represent different life areas that together impact any and all assessment, service planning, and level of care placement decisions. The ASAM Criteria structures multidimensional assessment around six dimensions to provide a common language of holistic, biopsychosocial assessment and treatment across addiction treatment, physical health and mental health services.

The ASAM Criteria provides a consensus based model of placement criteria and matches a patient's severity of SUD illness with treatment levels that run a continuum marked by five basic levels of care, numbered Level 0.5 (early intervention) through Level 4 (medically managed intensive inpatient services).

There are several ASAM training opportunities available for providers and counties. The ASAM eTraining series educates clinicians, counselors and other professionals involved in standardizing assessment, treatment and continued care. One-on-one consultation is also available to review individual or group cases with the Chief Editor of the ASAM Criteria. Additionally, there is a two-day training which provides participants with opportunities for skill practice at every stage of the treatment process: assessment, engagement, treatment planning, continuing care and discharge or transfer. There are also a variety of webinars available.

At a minimum, providers and staff conducting assessments are required to complete the two e-Training modules entitled "ASAM Multidimensional Assessment" and "From Assessment to Service Planning and Level of Care. A third module entitled, "Introduction to The ASAM Criteria" is recommended for all county and provider staff participating in the Waiver. With assistance from the State, counties will facilitate ASAM provider trainings.

All residential providers must be designated to have met the ASAM requirements and receive a DHCS issued ASAM designation. DHCS will develop a designation program to certify that all providers of Adult and Adolescent Level 3.1-3.5 Residential/Inpatient Services are capable of delivering care consistent with ASAM Criteria. As part of this designation program, DHCS will develop a tool that includes the elements that define each sublevel of Level 3 services for Levels 3.1-3.5, develop standard program monitoring materials and protocols, and implement the ASAM designation program. After developing the protocol and monitoring tool, DHCS will designate all current residential providers which will require initial paperwork and a DHCS designation. DHCS will then fold the ASAM designation process into the initial licensing process so all new residential providers will have an ASAM designation.

Attachment Y
Drug Medi-Cal Organized Delivery System (DMC-ODS)
Department of Health Care Services (DHCS) Appeals Process

1. Following a county's contract protest procedure, a provider may appeal to DHCS if it believes that the county erroneously rejected the provider's solicitation for a contract.
2. A provider may appeal to DHCS, following an unsuccessful contract protest, if the provider meets all objective qualifications and it has reason to believe the county has an inadequate network of providers to meet beneficiary need and the provider can demonstrate it is capable of providing high quality services under current rates, and:
 - A. It can demonstrate arbitrary or inappropriate county fiscal limitations; or
 - B. It can demonstrate that the contract was denied for reasons unrelated to the quality of the provider or network adequacy.
3. DHCS does not have the authority to enforce State or Federal equal employment opportunity laws through this appeal process. If a provider believes that a county's decision not to contract violated Federal or State equal employment opportunity laws, that provider should file a complaint with the appropriate government agency.
4. A provider shall have 30 calendar days from the conclusion of the county protest period to submit an appeal to the DHCS. Untimely appeals will not be considered. The provider shall serve a copy of its appeal documentation on the county. The appeal documentation, together with a proof of service, may be served by certified mail, facsimile, or personal delivery.
5. The provider shall include the following documentation to DHCS for consideration of an appeal:
 - a) County's solicitation document;
 - b) County's response to the county's solicitation document;
 - c) County's written decision not to contract
 - d) Documentation submitted for purposes of the county protest;
 - e) Decision from county protest; and
 - f) Evidence supporting the basis of appeal.
6. The county shall have 10 working days from the date set forth on the provider's proof of service to submit its written response with supporting documentation to DHCS. In its response, the County must include the following documentation: 1) the qualification and selection procedures set forth in its solicitation documents; 2) the most current data pertaining to the number of providers within the county, the capacity of those providers, and the number of beneficiaries served in the county, including any anticipated change in need and the rationale for the change; and 3) the basis for asserting that the appealing Provider should not have been awarded a contract based upon the County's solicitation procedures. The county shall serve a copy of its response, together with a proof of service, to the provider by certified mail, facsimile, or personal delivery.

Attachment Y
Drug Medi-Cal Organized Delivery System (DMC-ODS)
Department of Health Care Services (DHCS) Appeals Process

7. Within 10 calendar days of receiving the county's written response to the provider's appeal, DHCS will set a date for the parties to discuss the respective positions set forth in the appeal documentation. A representative from DHCS with subject matter knowledge will be present to facilitate the discussion.
8. Following the facilitated discussion, DHCS will review the evidence provided and will make a determination.
9. Following DHCS' determination that the county must take further action pursuant to Paragraph 8 above, the county must submit a Corrective Action Plan (CAP) to DHCS within 30 days. The CAP must detail how and when the county will follow its solicitation procedure to remedy the issues identified by DHCS. DHCS may remove the county from participating in the Waiver if the CAP is not promptly implemented. If the county is removed from participating in the Waiver, the county will revert to providing State Plan approved services.
10. The decision issued by DHCS shall be final and not appealable.

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

This document will be used by the Department of Health Care Services (DHCS) to help assess the county's readiness to implement the Drug Medi-Cal Organized Delivery System (DMC-ODS) Waiver and for the counties to determine capacity, access and network adequacy. The tool draws upon the Special Terms and Conditions and the appropriate CFR 438 requirements. DHCS will review and render an approval or denial of the county's participation in the Waiver.

Table of Contents

Part I Plan Questions

This part is a series of questions regarding the county's DMC-ODS program.

Part II Plan Description: Narrative Description of the County's Plan

In this part, the county describes its DMC-ODS program based on guidelines provided by the Department of Health Care Services.

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

PART I
PLAN QUESTIONS

This part is a series of questions that summarize the county's DMC-ODS plan.

1. Identify the county agencies and other entities involved in developing the county plan. (Check all that apply) Input from stakeholders in the development of the county implementation plan is required; however, all stakeholders listed are not required to participate.

- County Behavioral Health Agency
- County Substance Use Disorder Agency
- Providers of drug/alcohol treatment services in the community
- Representatives of drug/alcohol treatment associations in the community
- Physical Health Care Providers
- Medi-Cal Managed Care Plans
- Federally Qualified Health Centers (FQHCs)
- Clients/Client Advocate Groups
- County Executive Office
- County Public Health
- County Social Services
- Foster Care Agencies
- Law Enforcement
- Court
- Probation Department
- Education
- Recovery support service providers (including recovery residences)
- Health Information technology stakeholders
- Other (specify) _____

2. How was community input collected?

- Community meetings
 - County advisory groups
 - Focus groups
 - Other method(s) (explain briefly)
- _____

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

3. Specify how often entities and impacted community parties will meet during the implementation of this plan to continue ongoing coordination of services and activities.

- Monthly
 Bi-monthly
 Quarterly
 Other: _____

Review Note: One box must be checked.

4. Prior to any meetings to discuss development of this implementation plan, did representatives from Substance Use Disorders (SUD), Mental Health (MH) and Physical Health all meet together regularly on other topics, or has preparation for the Waiver been the catalyst for these new meetings?

SUD, MH, and physical health representatives in our county have been holding regular meetings to discuss other topics prior to waiver discussions.

There were previously some meetings, but they have increased in frequency or intensity as a result of the Waiver.

There were no regular meetings previously. Waiver planning has been the catalyst for new planning meetings.

There were no regular meetings previously, but they will occur during implementation.

There were no regular meetings previously, and none are anticipated.

5. What services will be available to DMC-ODS clients under this county plan?

REQUIRED

- Withdrawal Management (minimum one level)
 Residential Services (minimum one level)
 Intensive Outpatient
 Outpatient
 Opioid (Narcotic) Treatment Programs
 Recovery Services
 Case Management
 Physician Consultation

How will these required services be provided?

- All county operated

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

- Some county and some contracted
- All contracted.

OPTIONAL

- Additional Medication Assisted Treatment
- Partial Hospitalization
- Recovery Residences
- Other (specify) _____

6. Has the county established a toll free 24/7 number with prevalent languages for prospective clients to call to access DMC-ODS services?

- Yes (required)
- No. Plan to establish by:_____.

Review Note: If the county is establishing a number, please note the date it will be established and operational.

7. The county will participate in providing data and information to the University of California, Los Angeles (UCLA) Integrated Substance Abuse Programs for the DMC-ODS evaluation.

- Yes (required)
- No

8. The county will comply with all quarterly reporting requirements as contained in the STCs.

- Yes (required)
- No

PART II
PLAN DESCRIPTION (Narrative)

In this part of the plan, the county must describe certain DMC-ODS implementation policies, procedures, and activities.

General Review Notes:

- Number responses to each item to correspond with the outline.

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

- Keep an electronic copy of your implementation plan description. After DHCS reviews your plan description, you may need to make revisions.
- Counties must submit a revised plan to DHCS whenever the county requests to add a new level of service.

Narrative Description

1. Collaborative Process. Describe the collaborative process used to plan DMC-ODS services. Describe how county entities, community parties, and others participated in the development of this plan and how ongoing involvement and effective communication will occur.

Review Note: Stakeholder engagement is required in development of the implementation plan.

2. Client Flow. Describe how clients move through the different levels identified in the continuum of care (referral, assessment, authorization, placement, transitions to another level of care). Describe what entity or entities will conduct ASAM criteria interviews, how admissions to the recommended level of care will take place, how often clients will be re-assessed, and how they will be transitioned to another level of care accordingly. Include the role of how the case manager will help with the transition through levels of care. Also describe if there will be timelines established for the movement between one level of care to another.

Review Note: A flow chart may be included.

3. Beneficiary Access Line. For the beneficiary toll free access number, what data will be collected (i.e: measure the number of calls, waiting times, and call abandonment)?

4. Treatment Services. Describe the required types of DMC-ODS services (withdrawal management, residential, intensive outpatient, outpatient, opioid/narcotic treatment programs, recovery services, case management, physician consultation) and optional (additional medication assisted treatment, recovery residences) to be provided. What barriers, if any, does the county have with the required service levels? Describe how the county plans to coordinate with surrounding opt-out counties in order to limit disruption of services for beneficiaries who reside in an opt-out county.

Review Note: Include in each description the corresponding American Society of Addiction Medicine (ASAM) level, including opioid treatment programs. Names and descriptions of individual providers are not required in this section; however, a list of all contracted providers will be required within 30 days of the waiver implementation date.

6. Coordination with Mental Health. How will the county coordinate mental health services for beneficiaries with co-occurring disorders? Are there minimum initial

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

coordination requirements or goals that you plan to specify for your providers? How will these be monitored? Please briefly describe the county structure for delivering SUD and mental health services. When these structures are separate, how is care coordinated?

7. Coordination with Physical Health. Describe how the counties will coordinate physical health services within the waiver. Are there minimum initial coordination requirements or goals that you plan to specify for your providers? How will these be monitored?

8. Coordination Assistance. The following coordination elements are listed in the STCs. Based on discussions with your health plan and providers, do you anticipate substantial challenges and/or need for technical assistance with any of the following? If so, please indicate which and briefly explain the nature of the challenges you are facing.

- Comprehensive substance use, physical, and mental health screening;
- Beneficiary engagement and participation in an integrated care program as needed;
- Shared development of care plans by the beneficiary, caregivers and all providers;
- Collaborative treatment planning with managed care;
- Care coordination and effective communication among providers;
- Navigation support for patients and caregivers; and
- Facilitation and tracking of referrals between systems.

9. Access. Describe how the county will ensure access to all service modalities. Describe the county's efforts to ensure network adequacy. Describe how the county will establish and maintain the network by addressing the following:

- The anticipated number of Medi-Cal clients.
- The expected utilization of services.
- The numbers and types of providers required to furnish the contracted Medi-Cal services.
- Hours of operation of providers.
- Language capability for the county threshold languages.
- Timeliness of first face-to-face visit, timeliness of services for urgent conditions and access afterhours care.
- The geographic location of providers and Medi-Cal beneficiaries, considering distance, travel time, transportation, and access for beneficiaries with disabilities.

10. Training Provided. What training will be offered to providers chosen to participate in the waiver? How often will training be provided? Are there training topics that the county wants to provide but needs assistance?

Review Note: Include the frequency of training and whether it is required or optional.

Attachment Z
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Implementation Plan

11. Technical Assistance. What technical assistance will the county need from DHCS?

12. Quality Assurance. Describe the quality assurance activities the county will conduct. Include the county monitoring process (frequency and scope), Quality Improvement plan, Quality Improvement committee activities and how counties will comply with CFR 438 requirements. Please also list out the members of the Quality Improvement committee. Also include descriptions of how each of the quality assurance activities will meet the minimum data requirements.

13. Evidence Based Practices. How will the counties ensure that providers are implementing at least two of the identified evidence based practices? What action will the county take if the provider is found to be in non-compliance?

14. Assessment. Describe how and where counties will assess beneficiaries for medical necessity and ASAM Criteria placement. How will counties ensure beneficiaries receive the correct level of placement?

15. Regional Model. If the county is implementing a regional model, describe the components of the model. Include service modalities, participating counties, and identify any barriers and solutions for beneficiaries. How will the county ensure access to services in a regional model (refer to question 7)?

16. Memorandum of Understanding. Submit a signed copy of each Memorandum of Understanding (MOU) between the county and the managed care plans. The MOU must outline the mechanism for sharing information and coordination of service delivery as described in 4(i) of the STCs. If upon submission of an implementation plan, the managed care plan(s) has not signed the MOU(s), the county may explain to the State the efforts undertaken to have the MOU(s) signed and the expected timeline for receipt of the signed MOU(s).

17. Telehealth Services. If a county chooses to utilize telehealth services, how will telehealth services be structured for providers and how will the county ensure confidentiality? (Please note: group counseling services cannot be conducted through telehealth).

18. Contracting. Describe the county's selective provider contracting process. What length of time is the contract term? Describe the local appeal process for providers that do not receive a contract. If current DMC providers do not receive a DMC-ODS contract, how will the county ensure beneficiaries will continue receiving treatment services?

Review Note: A list of all contracted providers (modality, provider, address) must be submitted to DHCS within 30 days of the waiver implementation date and as new

Attachment AA
Drug Medi-Cal Organized Delivery System (DMC-ODS)
County Certified Public Expenditures (CPE) Protocol

Reserved

Attachment BB
Drug Medi-Cal Organized Delivery System (DMC-ODS)
Tribal Delivery System

In order to participate in the DMC-ODS pilot, tribal providers must deliver care consistent with the American Society of Addiction Medicine (ASAM) Criteria, as well as be part of an organized delivery system (ODS) that coordinates care across the continuum specified by the ASAM criteria. Delivering care consistent with the ASAM Criteria is the applicable standard for provider participation in the DMC-ODS pilot. The state must comply with the statutory exemption from state or local licensure or recognition requirements at Section 1621(t) of the Indian Health Care Improvement Act. After approval of this amendment, DHCS will consult with tribal 638 facilities, Urban Indian Health Programs, tribes and stakeholders to develop the specific process for these tribal and Indian health care providers to participate in Medi-Cal and in the DMC-ODS program. All providers participating in the DMC-ODS pilot must comply with quality reporting and monitoring activities.

Attachment CC
Drug Medi-Cal Organized Delivery System (DMC-ODS)
Financing and Availability of Medication Assisted Treatment (MAT) Services

Medications to assist with treatment for substance use disorder are available in the DMC-ODS Pilot and in California’s larger Medi-Cal system. The reimbursements of these medications are detailed in the following table:

MAT Drug Reimbursement Through the DMC-ODS and Medical System

Medication	TAR* Required	Availability
Methadone	No	Only in NTP/OTP
Buprenorphine	Yes, unless provided in an NTP/OTP	Pharmacy Benefit, NTP/OTP
Naltrexone tablets	No	Pharmacy Benefit, ODF DMC Benefit
Naltrexone long-acting injection	Yes	Pharmacy Benefit, Physician Administered Drug
Disulfiram	No	Pharmacy Benefit, NTP/OTP
Acamprosate	Yes	Pharmacy Benefit
Naloxone	No	Pharmacy Benefit; NTP/OTP

*TAR (Treatment Authorization Request)

There are different doors patients in need of Medication Assisted Treatment (MAT) enter the Medi-Cal system in California. Therefore, California makes the medications and the treatment services available in various settings. Depending on the setting the patient is initially diagnosed with a substance use disorder, the administering and dispensing of MAT will vary. If a patient comes through the county system or directly to a Narcotic Treatment Program (NTP), the program is responsible for the prescribing, ordering, and monitoring service. The NTP also dispenses and administrates the MAT and all of this is reimbursed with a bundled rate. If a client is diagnosed by their non-DMC primary care doctor, the prescribing, ordering, and monitoring of the medication occurs during the office visit. After the office visit, the patient will fill the prescription at a pharmacy. Pharmacies are then reimbursed for the medication and dispensing of the medication. In some cases, the physician may administer the drug in the office. This is termed a “physician administered drug” and the physician is reimbursed for the drug and the administration directly. Patients receiving DMC outpatient services may also be prescribed MAT through a physician working at the program. The patient would then fill the prescription at the pharmacy.

Attachment DD
Drug Medi-Cal Organized Delivery System (DMC-ODS)
University of California, Los Angeles (UCLA) Evaluation

DHCS will report the relevant Medicaid Adult and Children's Quality Measures for individuals with SUD (located at <http://www.medicaid.gov/medicaid-chip-program-information/by-topics/quality-of-care/downloads/2015-adult-core-set.pdf> and <http://www.medicaid.gov/medicaid-chip-program-information/by-topics/quality-of-care/downloads/2015-child-core-set.pdf>). These include the Initiation and Engagement of Alcohol and Other Drug Dependence Treatment (NQF #0004). To the extent possible, DHCS will also report the Follow-up after Discharge from the Emergency Department for Mental Health or Alcohol or Other Drug Dependence (NQF #2605) measure and the SUB-3 Alcohol and Other Drug Use Disorder Treatment Provided or Offered at Discharge and SUB-3a Alcohol and Other Drug Use Disorder Treatment at Discharge (NQF #1664) measures.

DHCS and UCLA propose to measure the following domains:

Access

Has access to treatment increased in counties that have opted in to the waiver?
Analyses to be performed by county, race, ethnicity, and gender where possible.

- Availability and use of full required continuum of care (CalOMS-Tx)
- Use of medication assisted treatment (DMC Claims, Medi-Cal claims)
- Number of Admissions (DMC Claims, CalOMS-Tx)
- Numbers and trends by type of service (e.g. NTP) (CalOMS-Tx)
- Penetration rates —, analyzed also by primary drug (alcohol/drug) not by demographics
- Adequacy of network
 - First available appointment (UCLA will call and try to make appointments)
 - Average distance to provider (CalOMS, SMART6i)
 - Time from ASAM assessment to admission (county ASAM data, CalOMS)
 - Newly certified sites (SMART 6i)
 - Residential, detoxification capacity (DATAR)
 - Outpatient capacity (in development)
 - Retention in treatment
- Existence of a 24/ 7 functioning beneficiary access number
- Existence of a 24/7 functioning beneficiary access number in languages other than English
- Availability of services in language other than English
- Availability of provider directory to patients

Quality

Has quality of care improved in counties that have opted in to the waiver?

Attachment DD
Drug Medi-Cal Organized Delivery System (DMC-ODS)
University of California, Los Angeles (UCLA) Evaluation

- Appropriate placement:
 - Percent of individuals receiving ASAM criteria-based assessment prior to an admission in level of care.
 - Comparison of ASAM indicated level of care and actual placement and reasons documented for the difference if they do not match.
 - Use of continuing ASAM assessments, appropriate movement
- Appropriate treatment consistent with level of care after placement:
 - ASAM Audits
 - % of referrals with successful treatment engagement (based on length of stay)
- Successful care transitions
- Successful discharge
 - Discharges against medical advice
- Will need to collect supplemental data from Chemical Dependency Recovery Hospitals and free standing psych, since they do not report to CalOMS-Tx (surveys or interviews, OSHPD data).
- Where possible, collect data from county EBP monitoring, assess adequacy of such monitoring
- Data indicator reports
- Follow-up patient surveys and interviews
 - Patient perceptions of care
- Provider surveys and interviews
 - Quality of care, perceptions of system (other providers), measures of patient centered care.
- Outcome Measures
 - CalOMS, Patient surveys
 - AOD use
 - Social support
 - Living arrangements
 - Employment
 - Quality of Life / Functioning
 - Grievance reports
 - Effectiveness of all levels of care
 - Readmissions to withdrawal management, residential and intensive outpatient treatment
 - Effectiveness of Residential treatment

Attachment DD
Drug Medi-Cal Organized Delivery System (DMC-ODS)
University of California, Los Angeles (UCLA) Evaluation

- Change in health care costs for individuals who receive residential care (pre/post and vs comparable patients placed in other modalities)
 - Change in ED utilization and costs
 - Change in inpatient utilization and costs
 - Change in SUD treatment utilization and costs
 - Are there differences that result from the use of different treatment modalities in health outcomes and/or costs?
 - Are there differences that result from different residential lengths of stay in health outcomes and/or costs?
- Differences in health care costs among patients who receive SUD medications versus patients who do not receive SUD medications

Cost

- Is the waiver cost-effective? Total health costs pre/post waiver implementation among comparable patients

Integration and Coordination of Care

Is SUD treatment being coordinated as intended with primary care, mental health, and recovery support services?

- Existence of required MOUs with
 - bidirectional referral protocols between plans
 - availability of clinical consultation, including consultation on medications, the management of a beneficiary's care, including procedures for the exchanges of medical information and a process for resolving disputes between the county and the Medi-Cal managed care plan that includes a means for beneficiaries to receive medically necessary services while the dispute is being resolved
- Assessment of coordination goals (provider & patient surveys/interviews)
 - Comprehensive substance use, physical, and mental health screening;
 - Beneficiary engagement and participation in an integrated care program as needed;
 - Shared development of care plans by the beneficiary, caregivers and all providers;
 - Care coordination and effective communication among providers;
 - Navigation support for patients and caregivers; and
 - Facilitation and tracking of referrals between systems.
- Quantify referrals to and from primary care and mental health

Medi-Cal 2020: Dental Transformation Incentive Program

Program Purpose and Goals

Within the Medi-Cal 2020 waiver, the Dental Transformation Initiative (DTI) represents a critical mechanism to improve dental health for Medi-Cal children by focusing on high-value care, improved access, and utilization of performance measures to drive delivery system reform. More specifically, this strategy aims to increase the use of preventive dental services for children, prevent and treat more early childhood caries, and increase continuity of care for children.

Given the importance of oral health to the overall health of an individual, California views improvements in dental as critical to achieving overall better health outcomes for Medi-Cal beneficiaries, particularly children. The dental strategies implemented in this pool would be developed and operated by the Department and our Fee-For-Service (FFS) and Dental Managed Care (DMC) contractors.

The DTI will be funded at a maximum of \$148 million annually, except as provided below, for five (5) years totaling a maximum of \$740 million (DTI Pool). To the extent any of the funds associated with the DTI are not fully expended in a given DY, those remaining prior DY funds may be available for DTI payments in subsequent years, notwithstanding the annual limits stated above. The program will include three (3) domains: preventive services, caries risk assessment and management, and continuity of care, in addition to making funding available for local pilots that address one (1) or more of these three (3) domains. Specific incentive payments within each domain will be available to qualified providers, along with messaging and education to providers and beneficiaries about programs and efforts in their local communities. The Department also intends to have participation from providers in both the FFS and DMC delivery systems beginning in DY 1. The Department will make incentive payments directly to contracted service office locations that participate in the FFS and/or DMC delivery systems that qualify for incentive payments. The service office location is the business or pay-to address where services are rendered by the provider (which may be an individual, partnership, group, association, corporation, institution, or entity that provides dental services). Incentive payments shall be issued to the service office location based on the services rendered at the location and compliance with the criteria enumerated in the STCs.

Dental Program Background

The Medi-Cal Dental Program provides services to 5.5 million Medi-Cal child beneficiaries age twenty (20) and under. Dental services are provided through two (2) delivery systems: Medi-Cal Dental FFS, referred to as Denti-Cal, and DMC. Most beneficiaries are served through the dental FFS delivery system. The Department of Health Care Services (DHCS, Department) conducts oversight of the FFS contractor(s) and six (6) DMC contracts. As the expansion of dental benefits continues to cover more Californians, increased monitoring of beneficiary utilization and provider participation is crucial for identifying any access to dental care issues for children enrolled in the Medi-Cal Dental Program.

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

DHCS facilitates access to oral health services for the FFS and DMC delivery systems in multiple ways, including through telephone service centers and correspondence controls for beneficiaries and providers; conducting beneficiary and provider outreach and education; strategies for monitoring and augmenting provider network adequacy and beneficiary utilization; and providing regular reports to the Legislature, stakeholders, and Federal and State government entities. All data and measurement reporting associated with the DTI will be based on an annual reporting period by Demonstration Year (DY).

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

Project 1: Increase Preventive Service Utilization for Children
Required Project

Project Domain	Increase Preventive Services Utilization for Children
Rationale (Evidence base and reasoning behind project idea)	
Based on reports produced by the Department of Health Care Services (DHCS), as of September 2015 the Denti-Cal provider network had 5,370 service office locations across California. DHCS is proposing to incentivize dental provider service office locations to increase preventive oral care to Medi-Cal children.	
Goals/Objectives (Project-specific Triple Aim goals and expected project outcomes)	
<ul style="list-style-type: none"> ➤ Increase the statewide proportion of children ages one (1) through twenty (20) and under enrolled in the Medi-Cal Dental Program and who receive a preventive dental service by ten (10) percentage points over a five (5) year period ➤ Maintain preventive oral care for children who previously received this service <p>The incentive program will provide semi-annual incentive payments to dental provider service office locations that provide preventive services to an increased number of Medi-Cal children, as determined by the Department. Eligible providers will receive payments based on them achieving an increased number of Medi-Cal children who received eligible preventive dental services, as compared to a baseline pre-determined by the Department. Providers who render preventive services to a number of children that meets or exceeds a Department pre-determined number of beneficiaries, by county, would qualify for the incentive payment. Further, the program will also disburse incentive payments to providers who were not previously participating in Medi-Cal and rendering preventive services, but who do so during the demonstration, on the condition that they meet or exceed the provision of services based on the Department pre-determined number of beneficiaries, by county, needed to be served to achieve the goal. Safety net clinics would also be eligible for these incentives and would be supplied with incentive payments separate and apart from their Prospective Payment System (PPS) or Memorandum of Agreement (MOA) rates for Federally Qualified Health Centers/Rural Health Centers and Tribal Health Centers, respectively. Each safety net clinic office location would be considered a dental service office location for purposes of this domain.</p> <p>The Department will determine the number of additional beneficiaries to be served in order to achieve the goal of ten (10) percentage point utilization increase statewide. That number will be distributed across counties based the county’s proportional expected contribution to the statewide utilization increase. For example, if the number of child Medi-Cal beneficiaries in County A account for thirty (30) percent of the statewide Medi-Cal children population, and 100 users are necessary to increase the statewide utilization by ten (10) percentage points, then County A service office locations will need to serve an additional thirty (30) beneficiaries. If County A needs to serve thirty (30) additional beneficiaries and there are ten (10) service office locations enrolled in the program, that goal of thirty (30) additional users would then be equitably</p>	

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

distributed across the number of service office locations in the county; therefore, each service office location in County A would need to see three (3) additional users to qualify for the incentive payment. The same Departmental-established per service office location goal, by county, would apply to both current and newly enrolled providers.

DHCS may earn additional demonstration authority, up to a maximum of \$10 million, to be added to the DTI Pool for use in paying incentives to qualifying providers under DTI, by achieving higher performance improvement, as indicated in the below table:

DY	Target	\$1 million in additional demonstration authority for achieving:	\$2 million in additional demonstration authority for achieving:
1	+ two (2) percentage points over baseline year	Not Applicable	+ three (3) or more percentage points over baseline year
2	+ four (4) percentage points over baseline year	+5 or more percentage points over the baseline	+ six (6) or more percentage points over baseline year
3	+ six (6) percentage points over baseline year	+7.5 or more percentage points over the baseline	+ nine (9) or more percentage points over baseline year
4	+ eight (8) percentage points over baseline year	+10 or more percentage points over the baseline	+ twelve (12) or more percentage points over baseline year
5	+ ten (10) percentage points over baseline year	+12.5 or more percentage points over the baseline	+ fifteen (15) or more percentage points over baseline year

Each service office location will receive credit towards meeting or exceeding the Department pre-determined goal for every child to which they provide a preventive service within frequency limitations regardless of whether that child is a previously established patient of that service office location. However, service office locations will only be paid incentive payments on preventive services provided to those beneficiaries they provide services to once they have met the Department established goal.

The incentive payment for preventive services will equate to a payment of approximately seventy-five (75) percent above the Schedule of Maximum Allowances (SMA) for all preventive services provided to the children above the Department pre-determined threshold for the number of beneficiaries served. This number of beneficiaries is subject to the annual funding limits contained herein and any annual limit applicable to this specific domain. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable DY, except as provided for in the Medi-Cal 2020 Waiver Special Terms and Conditions (STCs).

The results of this project will be used to determine if provider incentive payments are an effective method by which to encourage service office locations to provide medically necessary preventive dental services to more Medi-Cal children and to what extent an incentive payment is an effective method for increasing Medi-Cal provider participation

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

and improving access to care for children. The Department anticipates that increased preventive services will result in decreased long term costs for more invasive procedures, one of the core tenants of the Triple Aim concept.

Core Components

The baseline year will consist of data from the most recent complete year preceding implementation of the waiver. Beneficiary utilization and service office location participation will be reassessed on an annual basis thereafter. The metrics that will be used for monitoring domain success are:

1. Percentage of beneficiaries who received any preventive dental service during the measurement period, which is calculated as follows:

Numerator: Number of unduplicated children ages one (1) through twenty (20) enrolled in Medi-Cal for at least ninety (90) continuous days who received any Medi-Cal covered preventive dental service (D1000-D1999) in the measurement period.

Denominator: Number of unduplicated children ages one (1) through twenty (20) enrolled in Medi-Cal for at least ninety (90) continuous days during the measurement period.
2. Claims data to determine the number of service office locations in each county that are providing preventive dental services to children, compared to number of these locations in the baseline year.
3. Statewide the number and percentage change of Medicaid participating dentists providing preventive dental services to at least ten (10) Medicaid-enrolled children in the baseline year, and in each subsequent measurement year.

A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable DY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY

Projects Metrics

Clinical Event Outcomes

1. Prevention
 - Increase the utilization of children ages one (1) through twenty (20) enrolled in Medi-Cal who receive any preventive dental service, by at least ten (10) percentage points over a five (5) year period.
2. Access to Care
 Increase the number of actively participating providers in each county who provide preventive services.

Medi-Cal 2020: Dental Transformation Incentive Program

Project 2: Caries Risk Assessment and Disease Management Pilot
Required Project

Project Domain	Caries Risk Assessment and Disease Management Pilot
Rationale (Evidence base and reasoning behind project idea)	
<p>Dentists today are embracing a philosophy of prevention and taking proactive measures to prevent and mitigate oral disease. The key elements of this model are to formally assess and manage caries risk and to emphasize the provision of preventive services in lieu of more invasive and costly procedures for Medi-Cal children age six (6) and under enrolled in the Medi-Cal Dental Program.</p> <p>Caries Risk Assessment (CRA) incorporates an evidence-based philosophy which focuses on preventive and intervention therapy based on an individual patient’s caries risk through prevention, intervention, education, and identification. Ultimately, this will enable DHCS to work toward the achievement of the CMS Triple Aim goals by implementing provider incentives based on performing a CRA to identify a child’s risk level, and developing and completing a beneficiary specific treatment plan. Additionally, it will enable the Medi-Cal Dental Program to improve the overall oral health of the enrolled beneficiary population.</p>	
Goals/Objectives (Project-specific Triple Aim goals and expected project outcomes)	
<ul style="list-style-type: none"> ➤ Diagnose early childhood caries and treat it as a chronic disease ➤ Introduce a model that proactively prevents and mitigates oral disease through the delivery of preventative services in lieu of more invasive and costly procedures, aimed at improving the population’s oral health ➤ Track the target population’s utilization of preventive and restorative services <p>This four (4) year domain will only be available initially to dentists in pilot counties that elect and are approved by the Department to participate in the program. The Department will begin this effort as a pilot in select counties and will then seek to implement on a statewide basis if the pilot is determined to be successful and subject to the availability of funding under the DTI Pool. If successful, DHCS will consider expansion no sooner than nine (9) months following the end of DY 2. Through this effort, Medi-Cal dentists voluntarily participating in the domain will be eligible to receive incentive payments for performing pre-identified treatment plans for children based upon the beneficiary’s risk level as determined by the dentist via a caries risk assessment which include motivational interviewing and use of antimicrobials, as indicated. Pilot counties will be identified and selected by the Department through an analysis of counties with a high percentage of restorative services, a low percentage of preventive services, and indication of likely enrolled service office location participation. The incentive program will only be available for services performed on child beneficiaries age six (6) and under.</p> <p>Dentists participating in the domain will be authorized to perform an increased number of services per year in accordance with the pre-identified treatment plan options based</p>	

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

upon caries risk level, and are eligible to receive an incentive payment under this program for each additional service not currently covered under the California State Plan and frequency limitations listed in the Manual of Criteria. Subject to the annual funding limits contained herein and any annual limit applicable to this specific domain, qualifying service office locations will receive an incentive payment for providing each of these additional services. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable DY, except as provided for in the Medi-Cal 2020 Waiver STCs.

The results of this project will be used to determine if this provider incentive program is effective in encouraging providers to perform a CRA for the targeted population and to ensure completion of the appropriate treatment plan for the management of childhood caries, if the utilization of emergency room visits for dental issues among the targeted children declines, if expenditures of emergency room visits non-traumatic dental issues among targeted children declines, and if the utilization of and expenditures (including anesthesia and facility fees) for the targeted children receiving dental related general anesthesia declines.

Core Components

Dentists must first complete a CRA to determine the appropriate treatment plan for a child, and report the results of the CRA to DHCS on a claim. Once the risk level and the treatment plan have been determined, the beneficiary may be eligible for increased frequency limitations on prophylaxis, topical fluoride varnish, and exams. The pre-identified treatment plans will be composed of the following procedures: CRA (which will globally include motivational interviewing, antimicrobials, and behavior modification/nutritional counseling), application of topical fluoride varnish, toothbrush prophylaxis, and exams. Increased frequencies for prophylaxis, fluoride varnish, and exams will be permitted for children evaluated and determined to be at a particular caries risk level with frequency limitations in a twelve (12) month period, as follows: “high risk” will be authorized to visit their provider four (4) times; “moderate risk” children will be authorized to visit three (3) times; and “low risk” children two (2) times. Dentists will receive payment for completion of a CRA as well as each of the following services: application of topical fluoride varnish, toothbrush prophylaxis, and exams at their respective appropriate increased frequency limitations.

The Department will collect data and report on the following performance measures:

1. Number of, and percentage change in, restorative services;
2. Number of, and percentage change in, preventive dental services;
3. Utilization of CRA CDT codes and reduction of caries risk levels (not available in the baseline year prior to the Waiver implementation);
4. Change in use of emergency rooms for dental related reasons among the targeted children for this domain; and
5. Change in number and proportion of children receiving dental surgery under general anesthesia.

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

The Department will also track and report on, for children in age ranges under one (1), one (1) through two (2), three (3) through four (4), and five (5) through six (6), the utilization rates for restorative procedures against preventive services to determine if the domain has been effective in reducing the number of restorations being performed. Because preventive services do not yield immediate effects, the Department will be required to collect data on these performance measures at annual intervals for a number of years to determine correlation and statistical significance. The Department will inform CMS of the number of additional years this data will be collected and reported no later than the end of DY 1.

The Department will also track and report on the utilization of CRA and treatment plan service to monitor utilization and domain participation.

A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable DY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY.

Project Metrics

Clinical Event Outcomes	<ol style="list-style-type: none"> 1. <u>Caries Risk Assessment</u> <ul style="list-style-type: none"> • Increase utilization of CRA CDT codes and monitor movement between risk levels 2. <u>Caries Management</u> <ul style="list-style-type: none"> • Increase ratio of utilization of preventive services versus restorative • Decrease utilization of use of emergency room and oral surgery for dental related reasons among children
-------------------------	--

Medi-Cal 2020: Dental Transformation Incentive Program

Project 3: Increase Continuity of Care
Required Project

Project Domain	Increase Continuity of Care
Rationale (Evidence base and reasoning behind project idea)	
Maintaining a consistent relationship with a primary care dental provider can encourage children and their families to receive regular preventive care and to actively manage their care.	
Goals/Objectives (Project-specific Triple Aim goals and expected project outcomes)	
<p>➤ Increase dental continuity of care among Medi-Cal children enrolled in the Medi-Cal Dental Program</p> <p>The Department will begin this effort as a pilot in select counties and will then seek to implement on a statewide basis if the pilot is determined to be successful and subject to the availability of funding under the DTI Pool. If successful, DHCS will consider expansion no sooner than nine (9) months following the end of DY 2. The results of this project will be used to determine if incentive payments are effective in promoting continuity of care, consistent with the enumerated Triple Aim goals.</p>	
Core Components	
<p>To encourage the continuity of care within the beneficiary population, an incentive payment would be paid to dental provider service office locations who have maintained continuity of care through providing examinations for their enrolled child beneficiaries, age twenty (20) and under for two (2), three (3), four (4), five (5), and six (6) year continuous periods. The incentive will be a flat payment for providing continuity of care to the beneficiary. Incentive payments will be made annually.</p> <p>The baseline year will be based on data from the most recent complete state fiscal year. Using claims data, DHCS will determine the number of beneficiaries who have remained with their same service office location for two (2), three (3), four (4), five (5), and six (6) year continuous periods following the establishment of the baseline year throughout the demonstration period. This will be calculated as follows:</p> <p style="padding-left: 40px;">Numerator: Number of children age twenty (20) and under who received an examination from the same service office location with no gap in service for two (2), three (3), four (4), five (5), and six (6) year continuous periods.</p> <p style="padding-left: 40px;">Denominator: Number of children age twenty (20) and under enrolled in the delivery system during the measurement periods.</p> <p>This measure is similar to the Dental Quality Alliance measure Usual Source of Services, with the exception that the Department would incent over a longer continuous period.</p>

A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable DY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY.

Project Metrics

Clinical Event
Outcomes

1. Continuity of Care
 - Increase utilization of children continuously enrolled in the Medi-Cal Dental Program who received services performed by the same provider in two (2), three (3), four (4), five (5), and six (6) consecutive year periods.

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

Project 4: Local Dental Pilot Programs
Optional Project

Project Domain	Pediatric Oral Disease Prevention, Caries Risk Assessment and Management, and Dental Health Homes
Project Title	Local Dental Pilot Programs (LDPPs)
Rationale (Evidence base and reasoning behind project idea)	
<p>LDPPs shall address one (1) or more of the three (3) domains through alternative programs, potentially using strategies focused on rural areas including local case management initiatives and education partnerships. DHCS will require LDPPs to have broad-based provider and community support and collaboration, including Tribes and Indian health programs, with incentives related to goals and metrics that contribute to the overall goals of the Department in any of the domains specified above.</p>	
Goals/Objectives (Project-specific Triple Aim goals and expected project outcomes)	
<p>Increase dental prevention, caries risk assessment and disease management, and continuity of care among Medi-Cal children.</p> <p>DHCS will solicit proposals once at the beginning of the demonstration and shall review, approve, and make payments for LDPPs in accordance with the requirements as outlined below; a maximum of fifteen (15) LDPPs shall be approved. DHCS will work in collaboration with the CMS in the development of evaluation criteria for the LDPPs.</p> <ol style="list-style-type: none"> a. LDPPs should include the potential for statewide expansion. b. LDPPs shall include specific strategies to meet one (1) or more of the three (3) DTI domains. <ol style="list-style-type: none"> i. Increase preventive services utilization for children; ii. Increase caries risk assessment and disease management; and iii. Increase continuity of care c. LDPPs are intended to target individuals in need of dental services. LDPPs will identify the needs of their population and proposed interventions that would be supported through the LDPP in their application. LDPPs must be complementary and not redundant with the efforts describe in the aforementioned domains. d. The specific strategies, target populations, payment methodologies, and participating entities shall be established by the entity submitting the application. DHCS shall approve applications that meet the requirements as outlined by CMS and the Department established criteria and that further the goals of the DTI. Each LDPP is intended to be in operation from the date of approval through the end of the demonstration. However, DHCS reserves the right to suspend or terminate a LDPP at any time if the enumerated goals are not met, corrective

action has been imposed, and/or poor performance continues.

- e. Financing for LDPPs is contingent upon the structure and design of approved proposals and is limited to a maximum of twenty-five (25) percent of the annual funding limits contained herein and any annual limit applicable to this specific domain. The incentive funding available for payments within this domain will not exceed the amount apportioned from the DTI pool to this domain for the applicable DY, except as provided for in the Medi-Cal 2020 Waiver STCs.

Lead and Participating Entities.

- a. DHCS will accept applications for LDPPs from a county, a city and county, a consortium of counties serving a region consisting of more than one (1) county, a Tribe, an Indian Health program, UC or CSU campus. Each LDPP application shall designate a “lead entity” that will be a county, Tribe, Indian Health Program, UC or CSU campus that will coordinate the LDPP and be the single point of contact for DHCS and CMS.
- b. The LDPP application shall identify other entities that shall participate in the project.

Application Process.

- a. *Timing.* Lead entities shall submit LDPP applications to DHCS no later than 60 days after the applicable protocols are approved.
- b. *Application Contents.* LDPP applications must include:
 - i. identification of a LDPP lead entity;
 - ii. a collaboration plan that includes local partners and details how decisions will be made;
 - iii. a description of the needs assessment that was conducted to identify the target population(s), including the data used;
 - iv. a description of services and care coordination that will be available to beneficiaries under the LDPP;
 - v. a description of how the lead entity and participating providers will be accountable for ensuring that the patient’s receive timely, medically necessary care;
 - vi. detail of the specific interventions, including how a process improvement plan will be incorporated to modify and learn from the interventions during the LDPP;
 - vii. a description of how data sharing will occur between the entities, including what data will be shared with which entities;
 - viii. a description of other strategies and outreach efforts that will be implemented to achieve the goals of the LDPP in the form of an awareness plan;
 - ix. a plan for the lead entity to conduct ongoing monitoring of the LDPP and make subsequent adjustments when issues are identified;
 - x. letters of support from participating providers and other relevant stakeholders indicating their agreement to participate in or support the

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

- LDPP;
- xi. a financing structure including a description of how and to whom LDPP payments will be distributed; and
 - xii. a total requested annual dollar amount, which shall be based on budgeted costs for infrastructure and overall LDPP support and the expected value or impact of the LDPP. Budgets shall exclude costs for services reimbursable with Medi-Cal Dental or other federal funding resources.
- c. *DHCS Review Process.* DHCS will review all LDPP applications according to the guidelines to be established by DHCS and CMS.
- i. DHCS shall review each application for projects to verify that they conform to the relevant requirements and meet the selection criteria as established by DHCS and CMS. DHCS will complete its review of the application, and will respond to the LDPP lead entity in writing with any questions, concerns, or problems identified. The lead entity will respond to DHCS' questions and concerns in writing within five (5) business days.
 - ii. Following the submission of final responses to questions about the application, DHCS will take action on the application and promptly notify the applicant and CMS of that decision.

Termination. DHCS reserves the right to suspend or terminate a LDPP at any time if the enumerated goals are not met, corrective action has been imposed, and/or poor performance continues.

Progress Reports. The LDPP shall submit quarterly and annual reports as agreed upon by DHCS and CMS upon acceptance of the LDPP. Continuation of the LDPP shall be contingent on timely submission of all the required reports.

The Department will begin this effort as a pilot in select counties and will then seek to implement on a statewide basis if the pilot is determined to be successful and subject to the availability of funding under the DTI Pool. If successful, DHCS will consider expansion no sooner than nine (9) months following the end of DY 2.

Core Components

DHCS intends to review, approve, and make incentive payments available to pilots that target an identified population of Medi-Cal eligible child beneficiaries in accordance with the requirements established by the Department and deemed appropriate to fulfill specific strategies linked to one (1) or more of the domains delineated above. The specific strategies, target populations, payment methodologies, and participating entities shall be proposed by the entity submitting the application for participation and included in the submission to the Department. DHCS shall approve only those applications that meet the requirements to further the goals of one (1) or more of the three (3) dental domains. Each pilot application shall designate a responsible county who will coordinate the pilot. DHCS reserves the right to suspend or terminate a pilot at

Attachment JJ
Medi-Cal 2020: Dental Transformation Incentive Program

any time if the enumerated goals are not met, corrective action has been imposed, and/or poor performance continues.

A preliminary report will be delivered only to CMS for internal review six (6) months following the end of the applicable DY. An updated report will be delivered to CMS and published publicly twelve (12) months following the end of the applicable DY.

Project Metrics

Clinical Event Outcomes

Local dental pilot projects will be evaluated consistent with the performance metrics of the aforementioned dental domains and the goals outlined in the individual proposals. DHCS reserves the right to suspend or terminate a pilot at any time if the enumerated goals are not met. Any of the following, or other measures that are closely tied the DTI domains.

Increase Preventive Services Utilization for Children

1. Prevention

- CMS Oral Health Initiative Goal: To increase the utilization of children ages twenty (20) and under enrolled in Medicaid or CHIP who receive any preventive dental service, by ten (10) percentage points over a five (5) year period.

2. Access to Care

- Increase the number of actively participating providers in each county who provide preventive services.

Caries Risk Assessment and Disease Management Pilot

1. Caries Risk Assessment

- Increase utilization of CRA CDT codes and monitor movement between risk levels

2. Caries Management

- Increase ratio of utilization of preventive services versus restorative
- Decrease utilization of use of emergency room and oral surgery for dental related reasons among children

Increase Continuity of Care

1. Continuity of Care

- Increase utilization of children continuously enrolled in the Medi-Cal Dental Program who received services performed by the same provider in two (2), three (3), four (4), five (5), and six (6) consecutive year periods.

**CENTERS FOR MEDICARE & MEDICAID SERVICES
WAIVER AUTHORITY**

NUMBER: 11-W-00193/9

TITLE: California Medi-Cal 2020 Demonstration

AWARDEE: California Health and Human Services Agency

All requirements of the Medicaid program expressed in law, regulation, and policy statement, not expressly waived in this list, shall apply to the Demonstration from the approval date, through December 31, 2020, unless otherwise specified.

Under the authority of section 1115(a) (1) of the Social Security Act (the Act), the following waivers shall enable California to implement the Medi-Cal 2020 Demonstration.

1. Freedom of Choice **Section 1902(a)(23)(A)**

To enable the State to require participants to receive benefits through certain providers and to permit the State to require that individuals receive benefits through managed care providers who could not otherwise be required to enroll in managed care.

To enable the State to provide Health Home Program (HHP) services to only full-scope, non-Share-of-Cost individuals that are enrolled in a Medi-Cal Managed Care Plan and that meet the HHP eligibility requirements specified in the approved HHP State Plan Amendments.

No waiver of freedom of choice is authorized for family planning providers.

2. Disproportionate Share Hospital (DSH) requirements **Section 1902(a)(13)(A)**
(insofar as it incorporates Section 1923)

To exempt the State from making DSH payments, in accordance with Section 1923, to a hospital which qualifies as a disproportionate share hospital during any year for which the Public Health Care System with which the disproportionate share hospital is affiliated receives payment pursuant to the Global Payment Program.

3. Statewideness **Section 1902(a)(1)**

To enable the State to operate the demonstration on a county-by-county basis and to provide managed care plans only in certain geographic areas.

To enable the State to provide Drug Medi-Cal Organized Delivery System (DMC-ODS) services to individuals on a geographically limited basis.

To enable the State to authorize Whole Person Care (WPC) pilots and to provide WPC

services to individuals on a geographically limited basis.

To enable the State to authorize Dental Transformation Incentive (DTI) program pilots and to provide DTI services to individuals on a geographically limited basis.

4. Amount, Duration, and Scope of Services and Comparability Section 1902(a)(10)(B)

To enable the State to provide different benefits for low-income pregnant women between 109 percent up to and including 138 percent of the Federal Poverty Level, as compared to other pregnant women in the same eligibility group.

To enable the State to authorize WPC pilots which may make available certain services, supports or interventions to certain high-risk, vulnerable populations targeted under an approved WPC pilot program that are not otherwise available to all beneficiaries in the same eligibility group.

To enable the State to provide certain services, supports and other interventions to eligible individuals with substance use disorders under the DMC-ODS program that are not otherwise available to all beneficiaries in the same eligibility group.

To enable the State to provide certain services, supports and other interventions to eligible individuals under the DTI program that are not otherwise available to all beneficiaries in the same eligibility group.

Same as Wave 1A Rev

The State of California proposes to amend the Special Terms and Conditions (STCs) of Waiver 11-W-00193/9, California Section 1115 “Medi-Cal 2020” Demonstration (Demonstration Waiver), pursuant to STC paragraph 7. This proposed amendment would allow a freedom of choice waiver to provide Health Home Program (HHP) services through the Medi-Cal managed care delivery system to members enrolled in managed care.

Department of Health Care Services (DHCS) will move forward with California’s HHP State Plan Amendment (SPA) 16-007 as well as a companion 1115 amendment for a freedom of choice waiver to implement the HHP. HHP implementation is currently planned in 29 counties. Additional counties may be added at a later date.

HHP Program Description

The Medicaid Health Home State Plan Option is afforded to states under Section 2703 of the Patient Protection and Affordable Care Act (ACA). States are allowed to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years, and, if a Medicaid health home program is implemented in California, The California Endowment (TCE) has offered to fund the remaining 10 percent of funds (up to \$25 million per year) required for these additional services for that same two-year period. In California, Assembly Bill 361 authorizes DHCS, subject to federal approval, to create an ACA Section 2703 Health Home Program (HHP) for members with chronic conditions.

The HHP will be person-centered, primary care-based and case-managed by a multidisciplinary team. HHP services will be provided through the Medi-Cal managed care delivery system to full-scope, non-Share-of-Cost members enrolled in managed care. Fee-For-Service (FFS) members who meet HHP eligibility criteria may choose to enroll in a Medi-Cal Managed Care Plan (MCP) to receive HHP services as well as all other state plan services that are provided through MCPs. HHP services will not be provided through a FFS delivery system.

Managed care plans (MCPs) will be responsible for the overall administration of the HHP. HHP services and care team providers will be added to the Medi-Cal managed care delivery system. The HHP will be structured as a HHP network with members functioning as a team to provide care coordination. This network includes MCP, one or more Community Based Care Management Entities (CB-CMEs), and linkages to community and social support services. MCPs also have existing relationships with the Medi-Cal specialty mental health plans in each county to facilitate care coordination.

The program assigns care managers, such as nurses or other trained professionals, to help members find the right health care or other services in their communities. HHP services include:

- Comprehensive care management;
- Care Coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and
- Referral to community and social supports.

HHP chronic condition eligibility criteria include the following:

- At least two of the following: Asthma, Chronic Obstructive Pulmonary Disease (COPD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder OR
- Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure OR
- One of the following: Major Depression Disorders, Bipolar Disorder, Psychotic Disorders (including Schizophrenia) OR
- Asthma and a risk of at least one of the following: diabetes, SUD, depression, obesity

The goals for HHP are: improve care coordination; integrate palliative care into primary care delivery; strengthen community linkages; strengthen team-based care, including use of community health workers; improve the health outcomes of HHP members; and wrap increased care coordination around existing care as close to the member's

California's SPA #16-007 is for 11 counties and the population criterion of chronic conditions. More counties and additional population criteria of Serious Mental Illness or Serious Emotional Disturbance will be included in subsequent SPAs to facilitate the planned implementation schedule below:

	Counties	Implementation date for members with eligible chronic physical conditions and SUD	Implementation date for members with SMI
GROUP 1	Del Norte, Humboldt, Lake, Marin, Mendocino, Napa, San Francisco, Shasta, Solano, Sonoma, Yolo	January 1, 2017	July 1, 2017
GROUP 2	Imperial, Lassen, Merced, Monterey, Orange, Riverside, San Bernardino, San Mateo, Santa Clara, Santa Cruz, Siskiyou, Ventura	July 1, 2017	January 1, 2018
GROUP 3	Alameda, Fresno, Kern, Los Angeles, Sacramento, San Diego, Tulare	January 1, 2018	July 1, 2018
