

FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

* - When "state" is referenced throughout this template it is defined as either a state or a territory.

***Disclosure**. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.

State/Territory: AK

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Courtney O King

CHIP Program Name(s): All, Denali KidCare

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2019 **(Note: Federal Fiscal Year 2019 starts 10/1/2018 and ends 9/30/2019)**

Contact Person/Title: Courtney O King

Address: 4501 Business Park Blvd, Building L

City: Anchorage State: AK Zip: 99503

Phone: 907-334-2653 Fax: _____

Email: courtney.king@alaska.gov

Submission Date: 12/23/2019

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state's CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., [500] are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
 YES
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Section II Program's Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state's general strategic objectives and performance goals.

Section IIA: Enrollment And Uninsured Data

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated Number Ever Enrolled Year) in your state's 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2018	FFY 2019	Percent change FFY 2018-2019
CHIP Medicaid Expansion Program	19747	18695	-5.33
Separate Child Health Program	0	0	

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**
N/A – For FFY 2019, the enrollment number, 18,695, is preliminary and will be updated to reflect the three months of retroactivity by 1/31/2019.
2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	18	3.4	8.0	1.5
1998 - 2000	17	3.3	7.7	1.5
2000 - 2002	12	2.0	5.8	1.0
2002 - 2004	12	2.0	5.9	1.0
2003 - 2005	10	2.2	5.3	1.1
2004 - 2006	9	2.0	4.9	1.1
2005 - 2007	8	2.0	4.4	1.1
2006 - 2008	9	2.0	4.8	1.1
2007 - 2009	10	2.0	5.0	1.1
2008 - 2010	11	1.0	5.7	.6
2009 - 2011	12	3.0	6.1	.8
2010 - 2012	13	2.0	6.4	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	7	2.0	3.8	1.0
2014	8	2.0	4.4	.9
2015	8	1.0	3.9	.7
2016	7	1.0	3.5	.7
2017	7	2.0	3.5	.9
2018	6	2.0	3.4	.8
Percent change 2017 vs. 2018	-14.3%	N/A	-2.9%	N/A

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**
- B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. **[7500]**
 American Indian/Alaska Native children in the ACS survey are considered uninsured.

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

[7500]

B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.

[7500]

C. What are the limitations of the data or estimation methodology?

[7500]

D. How does your state use this alternate data source in CHIP program planning?

[7500]

Enter any Narrative text related to Section IIA below. **[7500]**

Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2017 and FFY 2018) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2019).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.

Additional instructions for completing each row of the table are provided below.

A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- **New/revised:** Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- **Continuing:** Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- **Discontinued:** Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

C. Status of Data Reported:

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional:** Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2019.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final:** Check this box if the data you are reporting are considered final for FFY 2019.
- **Same data as reported in a previous year’s annual report:** Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

D. Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

HEDIS® Version:

Please specify HEDIS® Version (example 2016). This field must be completed only when a user selects the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

E. Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

F. Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded). The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

G. Deviations from Measure Specification

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

H. Date Range: available for 2019 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

I. Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

J. Explanation of Progress:

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2020, 2021 and 2022. Based on your recent performance on the measure (from FFY 2017 through 2019), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

K. Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

Alaska uses the CAHPS PCMH CG creating a “pseudo practice” from the Medicaid Administrative claims data and we have practices consisting of CHCs and pediatric practices that participate with the DHSS with their patient populations of adults and children so we have comparative data and have in the past used the data at the state and practice levels in collaboration with our Title V sister agency and the Alaska Primary Care Association to begin to satisfy the CHIPRA state level reporting requirement utilizing. The CAHPS PCMH survey results reported in FFY 2019 are from the 2018 Fall fielding of the survey.

The CAHPS PCMH CG sample at the state-level was drawn from a sample frame from all the children enrolled in Medicaid, Title XIX and XXI funded.

At the time of writing this section of the report, the Department and contractor completed the fielding of the 2018 fall survey, which will be reported in the FFY 19 MACPro and CARTS. Sample frames from the “pseudo-practice” were drawn from both the adult and children/adolescent Medicaid administrative claims data, meaning the samples are being drawn for both adults and children once again. Adults were added back in the sample frame by leadership for the FFY2017 reporting year, after being removed from the sample frame in 2014 and reported in FFY 2015 CARTS. Given the health care reform work under Alaska SB 74, the survey is under consideration as a performance metric. The Access domain of the CAHPS PCMH CG is used to monitor access in the CMS Rate and Access Review Plan, a FFS requirement as part of the managed care regulations.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

Within the CAHPS PCMH CG survey, Medicaid and CHIP work with Title V, Women Children’s and Family Health (WCFH) collaboratively. Medicaid has incorporated bot the Child and Adolescent Health Measurement Initiative (CAMHI) screening tool to determine which children have special health care needs and children with chronic conditions (CCC) module into this survey making it hybrid so as to stratify results by C&YSHCNs. In addition, we worked with the evaluator on the WCFH HRSA Systems Integration Grant for C&YSHCNs to cross walk the CSHCNs standards to the CAHPS PCMH CG alongside the work that was done on this by AMCHIP.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

Alaska has also added several questions to the CAHPS PCMH CG to address shared decision making and care coordination which was done in our CHIPRA quality demonstration with Oregon and West Virginia. Lastly beginning with the fall 2016 fielding in Alaska, WCFH and Medicaid/CHIP have added questions to the CAHPS PCMH CG asking about whether providers are asking patients about adverse childhood experience (ACEs) for a baseline assessment in addition to adding several position health questions and resiliency questions upon recommendation from the Executive Director of the Child and Adolescent Health Measurement Initiative (CAMHI) at John Hopkins.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program’s performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

N/A

Enter any Narrative text related to Section IIB below. [7500]

Section III: Assessment of State Plan and Program Operation

Please reference and summarize attachments that are relevant to specific questions

Please note that the numbers in brackets, e.g., [7500] are character limits in the CHIP Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

There were no changes to outreach strategies during FFY 2019.

Alaska DHSS continues to partner with the CMS Connecting Kids to Coverage grantees in Alaska.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

Denali KidCare branding has been effective in the state over the years. The Department continues to partner with government agencies and local governments such as Tribal health organizations and Tribes to assist with effective administration of the Medicaid program through outreach and enrollment and other Medicaid administrative claiming activities. 2016 was the first full year of Tribal Medicaid Administrative Claiming (TMAC) utilizing the new TMAC methodology approved in 2015 and the AK DHSS continued TMAC in FFY 2018. TMAC rebasing of costs was approved by CMS in late FFY 18 effective with FFY 19 Q1 claims.

As in most of the states, what AK DHSS learned the year after implementation of the M-CHIP back in 2000 is that word-of-mouth is the most effective outreach strategy.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

The optimal best practices is to have the state employed regional outreach specialists, FTEs, in DPA Field Operations where currently the outreach and enrollment function is housed within the Department; however, the Department has not employed outreach specialists since 2002.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes

No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

In FFY 19, we continued to collaborate with Tribal health organizations targeting Native children.

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]** 80.7

(Identify the data source used). **[7500]**

Appendix to Health Affairs article referenced below:

Haley JM, Kenney GM, Wang R, Lynch V, Buettgens M.

Medicaid/CHIP participation reached 93.7 percent among eligible children in 2016. Health Aff (Millwood). 2018;37(8).

SOURCE Authors' analysis of data for 2016 from the American Community Survey (ACS), Integrated Public Use Microdata Series.

NOTES Eligibility for and participation in Medicaid/CHIP (Children's Health Insurance Program) are defined in the text. Estimates reflect edits for apparent misclassified coverage on the ACS. Confidence intervals for state estimates are available upon request from the authors.

While the Health Affairs article referenced above states that, in 2016, all Medicaid/CHIP programs with the exception of 5 states (Alaska, Indiana, North Dakota, Texas and Utah) reached over 90 percent of their target population of children, the footnotes below help clarify the classification of AI/AN children in some of those states and the effects on participation. For Alaska, understanding these clarifications is helpful when questions about the AI/AN health coverage and association with uninsurance surface. Even given an associated boost in participation if AI/AN coverage is considered as health insurance, Alaska remains at the lower end of state participation rates.

The associated footnote from Health Affairs article related to children's participation and the AI/AN uninsurance issue in the ACS data is pasted immediately below:

17 Estimates of participation are sensitive to the treatment of use of the Indian Health Service (IHS). By

convention, exclusive reliance on the IHS is considered being uninsured. Children's participation rates for 2016 would be 3–10 percentage points higher in five states if using the IHS were classified as having coverage, with the results being 80.7 percent in Alaska, 93.4 percent in Montana, 83.2 percent in North Dakota, 91.2 percent in Oklahoma, and 91.8 percent in South Dakota.

The 80.7 percent in AK and the other rates that follow above are before adding in the 3-10% higher range referenced in paragraph immediately above.

Section IIIB: Substitution of Coverage (Crowd-out)

Please answer the following questions as they apply to your state's program (some questions are not applicable to Medicaid expansion programs.) Medicaid expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A. Please include percent calculations in your responses when applicable and requested.

1. Does your separate CHIP program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No
 Yes
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**
4. List all exemptions to imposing the period of uninsurance **[1000]**

Please answer questions 5, 7, 8 (and 6 and 9 if applicable) regardless of the response the state provided to question 1.

5. Does your program match prospective enrollees to a database that details private insurance status?

- No
 Yes
 N/A

6. If answered yes to question 5, what database? **[1000]**

Medicaid TPR database is used by the Division of Health Care Services to identify third party resources once applicants are enrolled.

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]**

a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)*100]? **[5]**

8. Do you track the number of individuals who have access to private insurance?

- Yes
 No

9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

The Division of Public Assistance (DPA) does not track the percentage of Denali KidCare applicants that are found to already have Medicaid (Title XIX Medicaid) or the percentage of Denali KidCare applicants or total applicants (Medicaid and Denali KidCare) that are found to have other group health coverage; however, it does track this information related to Medicaid and M-CHIP recipients.

Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?

- Yes
 No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]**
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]**

2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.

- Conducts follow-up with clients through caseworkers/outreach workers
 Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**
Two notices are sent prior to disenrolling children from the program.

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]**
Just over 90% of our MAGI Medicaid cases are in our new eligibility system, ARIES. The first renewal due notice is sent to the household approximately 45 days before the end of the certification period. The second notice is sent approximately 24 days before the end of the certification period, if a renewal form has not yet been received.

- Other, please explain: [500]

(continuation from prior line) ARIES is programmed to send a pre-populated renewal form to the household approximately 45 days prior to the end of the certification period to make the renewal process easier. If DPA does not receive the form back from the household, we will attempt to determine continued eligibility using electronic data. ARIES continues to issue Medicaid benefits monthly for most MAGI Medicaid categories until an eligibility determination is made.

- 3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. [7500]

Programming ARIES to continue MAGI Medicaid benefits until DPA makes an eligibility decision at the end of the certification period has been the most successful strategy for retaining children in Medicaid/CHIP.

Section IIIC: Subpart B: Eligibility Data

Table 1. Data on Denials of Title XXI Coverage in FFY 2019

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2019. Please enter the data requested in the table below and the template will tabulate the requested percentages. If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage		100
a. Total number of procedural denials		
b. Total number of eligibility denials		
i. Total number of applicants denied for title XXI and enrolled in title XIX		
<input type="checkbox"/> (Check here if there are no additional categories)		
c. Total number of applicants denied for other reasons Please indicate:		

- 2. Please describe any limitations or restrictions on the data used in this table:

The 100% denial rate is an error and likely because we haven't had data to enter over the last several years. The Division of Public Assistance has not been able to provide the denial information.

Definitions:

- 1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2019. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2019 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).

- b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2019 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
- c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2019.

Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	16763	100%			
2. Total number of children screened for redetermination for title XXI	9901	59.06	100%		
3. Total number of children retained in title XXI after the redetermination process	5891	35.14	59.5		
4. Total number of children disenrolled from title XXI after the redetermination process	4010	23.92	40.5	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures	155			3.87	
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria	2217			55.29	100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/>)					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/>)					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/>)					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/>)					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)	1638			40.85	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

For question 3, we report the total number of individuals who were on a case where a review was completed and who had continuous benefits from their first benefit month in FFY 2019 until the end of FFY 2019.

For question 4, we report the total number of individuals who were on a case where a review was completed and who did not have continuous benefits from their first benefit month until the end of FFY 2019

Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state

uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	58425	100%			
2. Total number of children screened for redetermination for title XIX	16806	28.77	100%		
3. Total number of children retained in title XIX after the redetermination process	14969	25.62	89.07		
4. Total number of children disenrolled from title XIX after the redetermination process	1837	3.14	10.93	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures	113			6.15	
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria	1041			56.67	100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/>)					
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/>)					
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)	683			37.18	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

For question 3, DPA reported the total number of individuals who were on a case where a review was completed and who had continuous benefits from their first benefit month in FFY 2018 until the end of FFY 2019.

For question 4, DPA reported the total number of individuals who were on a case where a review was completed and who did not have continuous benefits from their first benefit month until the end of FFY 2019.

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

The measure is designed to capture continuity of coverage for a cohort of children in title XIX and title XXI for 18 months of enrollment. This means that reporting spans two CARTS reports over two years, with enrollment status at 6 months being reported in the first reporting year, and 12 and 18 month enrollment status reported in the second reporting year. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

The FFY 2019 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018. For the FFY 2018 report, States only reported on lines 1-4a of the tables. **In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a.** The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

Instructions: For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2019 report you will enter data on lines 5-7a related to the 12-month enrollment status of children identified on line 1. You will also enter data on lines 8-10a related to the 18-month enrollment status of children identified on line 1. **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

Note that all data must sum correctly in order to save and move to the next page. The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so when data are added or modified at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for in line 1 "All Children Ages 0-16" over the entire 18 month period. **Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.**

Table 3 a. Duration Measure of Children Enrolled in Title XIX

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

Definitions:

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

- 6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
 - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.

- 7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
 - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
 - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.

- 8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019

- 9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.

- 10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from XIX.

Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Definitions:

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018

3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.

4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.

5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.

7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
 - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
 - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.

8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019

9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
 - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

More information related to question 2, Section IIIC: Subpart A: Eligibility Renewal and Retention above.

Another strategy being utilized within the DPA related to eligibility to streamline and simplify the renewal process to retain eligible children in Medicaid/CHIP is the E-14 waiver.

Alaska is currently approved for a Medicaid waiver that allows the Division of Public Assistance (DPA) to renew MAGI Medicaid eligibility for 12 months using the gross income calculated for the SNAP recertification. This means that DPA staff do not have to apply to special MAGI Medicaid income counting rules and do not have to verify any Medicaid specific eligibility requirements. With approximately 31% of our Medicaid households also receiving SNAP benefits, this waiver simplifies the renewal process and helps retain eligible children in CHIP.

We are unable to complete tables 3a & 3b. This measure requires that we identify a cohort and follow the Medicaid coverage of this cohort for a 12 and 18 month period. Our eligibility system does not allow for flagging a cohort so it would have to be recreated. Unfortunately, for 2019 a high volume of backlog applications meant that it was impossible to re-create the cohort in order to follow the recipients' Medicaid status

Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year? If the state checks N/A for this question because no cost sharing is required, please skip to Section IIIE.

a. Cost sharing is tracked by:

Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

- Health Plan(s)
 State
 Third Party Administrator
 N/A (No cost sharing required)
 Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?
 Yes
 No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

N/A

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

N/A

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

Yes
 No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

Yes
 No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

N/A

Enter any Narrative text related to Section IIID below. **[7500]**

Section IIIE: Employer sponsored insurance Program (including Premium Assistance)

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.
 No, skip to Program Integrity subsection.

Check all that apply and complete each question for each authority

- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))
 Additional Premium Assistance Option under CHIP state plan (2105(c)(10))
 Section 1115 Demonstration (Title XXI)

2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

4. What benefit package does the ESI program use? **[7500]**

5. Are there any minimum coverage requirements for the benefit package?

- Yes
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes
 No

7. Are there limits on cost sharing for children in your ESI program?

- Yes
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
- No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

Number of adults ever-enrolled during the reporting period

Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2019.

Children
Parents

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
Children	% of FPL [5]	% of FPL [5]
Parents	% of FPL [5]	% of FPL [5]

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes
- No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes
- No

22. Can you cap enrollment for your program?

- Yes
- No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text related to Section III E below. **[7500]**

Section III F: Program Integrity

COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

(1) prevention:

Yes

No

(2) investigation:

Yes

No

(3) referral of cases of fraud and abuse?

Yes

No

Please explain: **[7500]**

Do managed health care plans with which your program contracts have written plans?

Yes

No

Please Explain: **[500]**

2. For the reporting period, please report the

Number of fair hearing appeals of eligibility denials

Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Provider Billing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

Enter any Narrative text related to Section III F below. **[7500]**

Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Individuals Enrolled for at Least 90 Continuous Days ¹	0						
Total Enrollees Receiving Any Dental Services ² [7]	0						
Total Enrollees Receiving Preventive Dental Services ³ [7]	0						

¹ **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

² **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

³ **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services ⁴ [7]	0						

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth⁵? [7]

2. Does the state provide supplemental dental coverage?

- Yes
 No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section III G below. [7500]

⁴ **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

⁵ **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
 - Entire population not covered
 - Partial population not coveredExplain the partial population not covered:
- Data not available
 - Explain why data not available
 - Budget constraints
 - Staff constraints
 - Data inconsistencies/accuracyPlease explain:
 - Data source not easily accessibleSelect all that apply:
 - Requires medical record review
 - Requires data linkage which does not currently exist
 - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

Definition of Population Included in the Survey Sample:

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

The denominator includes all children enrolled in Medicaid funded under Titles XIX and XXI. As explained in previous years, the template does not provide adequate choices to answer the above question.

Which Version of the CAHPS® Survey was Used?

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain: CAHPS 3.0 PCMH

Which Supplemental Item Sets were Included in the Survey?

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain: The CCC screener is incorporated, the PCMH set and other CMS/AHRQ approved questions with input from NCQA related to care coordination and shared decision making and the CAHMI Screener (MCH C&YSHCNs screener questions) to identify children with chronic conditions were included per our PI, Dr. Charles Gallia, with the CHIPRA children's quality demonstration, TCHIC.

DHSS added ACEs and positive health/resiliency questions from the NSCH at the recommendation of Dr. Christina Bethel, CAHMI.

Which Administrative Protocol was Used to Administer the Survey?

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain: The CAHPS PCMH C&G protocol with the added CAHMI screener questions for C&YSHCNs was approved by CMS, AHRQ and NCQA. The 2018 CAHPS PCMH C&G survey that was fielded in fall 2018 is being reported in the CARTS 2017.

Enter any Narrative text related to Section IIIH below. **[7500]**

Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2019. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

Benefit Costs	2019	2020	2021
Insurance payments			
Managed Care			
Fee for Service	33269899	38260384	43999441
Total Benefit Costs	33269899	38260384	43999441
(Offsetting beneficiary cost sharing payments)			
Net Benefit Costs	\$ 33269899	\$ 38260384	\$ 43999441

Administration Costs	2019	2020	2021
Personnel			
General Administration	3696655	4251153	4888826
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other (e.g., indirect costs)			
Health Services Initiatives			
Total Administration Costs	3696655	4251153	4888826
10% Administrative Cap (net benefit costs ÷ 9)	3696655	4251154	4888827

	2019	2020	2021
Federal Title XXI Share	32530568	32521326	37399524
State Share	4435986	9990211	11488743
TOTAL COSTS OF APPROVED CHIP PLAN	36966554	42511537	48888267

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

No, Alaska did not experience a short fall in CHIP funds in FFY19.

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2019		\$
2020		\$
2021		\$

A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2019	22190	\$1499
2020	25297	\$1512
2021	28838	\$1526

Enter any Narrative text related to Section IV below. **[7500]**
The average cost is based on FFY 19 CHIP enrollment.

Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

Alaska's economy has been in recession since 2015, primarily as a result of falling oil prices. Successive administrations have had to grapple with declining revenues and attempt to identify new sources of revenue to sustain state government; for example using Permanent Fund earnings to reduce the gap between revenues and state expenditures. This has not necessarily proven popular with the electorate.

A gubernatorial election was held during November 2018, resulting in a change of administration. Republicans Michael Dunleavy and Kevin Meyer took office in as Governor and Lieutenant Governor, respectively. Governor Dunleavy appointed Adam Crum as Commissioner of the Department of Health and Social Services (DHSS). Medicaid and CHIP fall under the Alaska DHSS which is the single state agency for Medicaid.

The new administration inherited a budget deficit of \$1.6 billion. Strictly in order to meet the statutory deadline, the Governor initially submitted the previous administration's proposed budget of \$11.5 billion but made clear that he felt this was unsustainable and based on an unrealistic forecast of oil prices in the current market. His revised budget submitted in February 2019 included cuts totaling \$1.6 billion and affected many departments including DHSS, with proposed major reductions in Medicaid. The legislative session in FFY 19 was a difficult one, as legislators were concerned about the adverse consequences of such deep cuts to Alaskans' health, safety and the overall economy. Ultimately, a less severe budget was enacted, with savings of \$350 million in state spending, and some of the initial cuts have subsequently been reversed. Nonetheless, DHSS still had to absorb considerable budget cuts. Fortunately eligibility for the CHIP program was not directly impacted by the cuts; however there is ongoing concern about the economic outlook and the potential for further budget reductions and how they may affect access to health care for low income families.

Alaska's CHIP, Title XXI, is a Medicaid expansion CHIP and the Medicaid services provided to CHIP funded children enrolled in Medicaid also fall under the Medicaid EPSDT service provision and are the same services offered to children funded under regular Medicaid, Title XIX. With the maintenance of effort (MoE) protection in the CHIP laws passed in early 2018, for the most part, children's health coverage has been secured through 2027.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

The greatest challenge to our program has been ongoing budgetary pressure to keep state spending flat and continue to look for costs savings, while simultaneously maintaining quality and access to services. This process has been ongoing since 2016 through the Medical Assistance Reform Program established under Senate Bill 74.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

1. There has been a modest upward trend in M-CHIP enrollment during the reporting period.

2. Quality improvement in AK Medicaid PCPs' work with their child patient populations asking about adverse childhood experiences (ACEs) and positive health and resiliency questions. This is conducted via a CAHPS PCMH CG survey fielded annually with the children enrolled in

Medicaid and CHIP and with participating pediatric practices and community health centers in Alaska (this also satisfies the CHIPRA CAHPS requirement).

3. During the reporting period DHSS received approval from CMS for both components (Substance Use Disorder and Behavioral Health) of its Section 1115 Demonstration waiver application. The objectives of this waiver project include increasing system flexibility, providing a broader range of alternative services to fill service gaps and reduce reliance on crisis services. These measures, especially when combined with an increase of 26% in claims for services delivered via telehealth during the reporting period compared with the previous year, should result in decreasing costs (for example, by reducing transportation expenses including for out of state residential treatment), and deliver more efficient and quality care. We will be closely monitoring progress in conjunction with our contracted Administrative Services Organization.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

No changes are specifically planned to Alaska's M-CHIP; the impacts of Alaska Medicaid Redesign projects, outlined below, on children's coverage and access in Medicaid/CHIP will be monitored for quality of care and patient experience using some of the CMS child core set of quality measures.

The following Medicaid redesign projects are Department priorities:

Alaska Medicaid Redesign – 2016 Legislature – Senate Bill 74 - Implementation:

- 1115 DHSS Medicaid Redesign - Behavioral Health Medicaid Waiver approved by CMS

1. Objectives –(1) increase system flexibility; (2) provide a broader range of alternative services to fill service gaps; (3) reduce reliance on crisis services; (4) contract with an ASO to offer improved system of care management

- Coordinated Care Demonstration Contracts

1. Providence Family Medicine Center - Provider Based Reform Model - Anchorage

Enter any Narrative text related to Section V below. **[7500]**
