William Gui Woolston  
Medicaid Director  
Connecticut Department of Social Services  
55 Farmington Ave  
Hartford CT, 06105

Dear Mr. Woolston:

The Centers for Medicare & Medicaid Services (CMS) has completed its review of the Substance Use Disorder (SUD) Monitoring Protocol, which is required by Special Terms and Conditions (STC) # 27 of Connecticut's section 1115 demonstration, "Connecticut Substance Use Disorder Demonstration" (Project No: 11-W-00372/1 and 21-W-00069/1). CMS has determined that the Monitoring Protocol, which was submitted on April 21, 2023, meets the requirements set forth in the STCs and, therefore, approves the state's Monitoring Protocol.

The Monitoring Protocol is approved for the demonstration period through March 31, 2027 and is hereby incorporated into the demonstration STCs as Attachment D (see attached). Per 42 CFR 431.424(c), the approved Monitoring Protocol may now be posted to your state's Medicaid website.

We look forward to our continued partnership on the Connecticut Substance Use Disorder section 1115 demonstration. If you have any questions, please contact your CMS demonstration team.

Sincerely,

Monitoring Protocol Template**

*Note: PRA Disclosure Statement to be added here*

**1. Title page for the state’s substance use disorder (SUD) demonstration or the SUD component of the broader demonstration**

*The state should complete this title page as part of its SUD monitoring protocol. Definitions for certain rows are provided below the table. The Performance Metrics Database and Analytics (PMDA) system will populate some rows of the table. The state should complete the rest of the table. The state can revise the demonstration goals and objectives if needed. PMDA will use this information to populate part of the title page of the state’s monitoring reports.*

<sup>a</sup> **SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state’s STCs at time of SUD demonstration approval. For example, if the state’s STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

<sup>b</sup> **Implementation date of SUD demonstration:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

## 2. Acknowledgement of narrative reporting requirements

- The state has reviewed the narrative questions in the Monitoring Report Template provided by CMS and understands the expectations for quarterly and annual monitoring reports. The state will provide the requested narrative information (with no modifications).

## 3. Acknowledgement of budget neutrality reporting requirements

- The state has reviewed the Budget Neutrality Workbook (which can be accessed via PMDA – see Monitoring Protocol Instructions for more details) and understands the expectations for quarterly and annual monitoring reports. The state will provide the requested budget neutrality information (with no modifications).

## 4. Retrospective reporting

The state is not expected to submit metrics data until after monitoring protocol approval, to ensure that data reflects the monitoring plans agreed upon by CMS and the state. Prior to monitoring protocol approval, the state should submit quarterly and annual monitoring reports with narrative updates on implementation progress and other information that may be applicable, according to the requirements in its STCs.

For a state that has monitoring protocols approved after one or more initial quarterly monitoring report submissions, it should report metrics data to CMS retrospectively for any prior quarters (Qs) of the section 1115 SUD demonstration that precede the monitoring protocol approval date. A state is expected to submit retrospective metrics data—provided there is adequate time for preparation of these data—in its second monitoring report submission that contains metrics. The retrospective monitoring report for a state with a first SUD demonstration year (DY) of less than 12 months, should include data for any baseline period Qs preceding the demonstration, as described in Part A of the state’s monitoring protocols. (See Appendix B of the Monitoring Protocol Instructions for further instructions on determining baseline periods for first SUD DYs that are less than 12 months.) If a state needs additional time for preparation of these data, it should propose an alternative plan (i.e., specify the monitoring report that would capture the data) for reporting retrospectively on its section 1115 SUD demonstration.

In the monitoring report submission containing retrospective metrics data, the state should also provide a general assessment of metrics trends from the start of its demonstration through the end of the current reporting period. The state should report this information in Part B of its monitoring report submission (Section 3: Narrative information on implementation, by milestone and reporting topic). This general assessment is not intended to be a comprehensive description of every trend observed in the metrics data. Unlike other monitoring report submissions, for instance, the state is not required to describe all metric changes (+ or - greater than 2 percent). Rather, the assessment is an opportunity for a state to provide context on its retrospective metrics

data and to support CMS’s review and interpretation of these data. For example, consider a state that submits data showing an increase in the number of medication-assisted treatment (MAT) providers (Metric #14) over the course of the retrospective reporting period. This state may decide to highlight this trend for CMS in Part B of its monitoring report (under Milestone 4) by briefly summarizing the trend and explaining that during this period, a grant supporting training for new MAT providers throughout its state was implemented.

For further information on how to compile and submit a retrospective monitoring report, the state should review Section B of the Monitoring Report Instructions document.

- The state will report retrospectively for any Qs prior to monitoring protocol approval as described above, in the state’s second monitoring report submission that contains metrics after monitoring protocol approval.
- The state proposes an alternative plan to report retrospectively for any Qs prior to monitoring protocol approval: *Insert narrative description of proposed alternative plan for retrospective reporting. Regardless of the proposed plan, retrospective reporting should include retrospective metrics data and a general assessment of metric trends for the period. The state should provide justification for its proposed alternative plan.*

\* If the state is not reporting a required subpopulation category (i.e., column F = "N"), enter explanation in corresponding row in column H.

† If the state is reporting on the Dual-eligible status, Criminal Justice status, and OOD population subpopulation categories, the state should use the identification approach as explained in Version 4.0 of the Medicaid Section 1115 Substance Use Disorder Demonstration Monitoring Protocol Instructions.

‡ If the state is planning to phase in the reporting of any of the subpopulation categories, the state should (1) select N in column G and (2) provide an explanation and the report (SUD.DY and Q) in which it will begin reporting the subpopulation category in column H.

**Medicaid Section 1115 SID Demonstrations Monitoring Protocol (Part A) - Reporting Schedule (Version 7.0)**  
 State Demonstration Name Connecticut Substance Use Disorder Demonstration

**Instructions:**

(1) In the reporting periods input table (Table 1), use the prompt in column A to enter the requested information in the corresponding row of column B. All monitoring report names and reporting periods should use the format DY/Q/ or CY and all dates should use the format MM/DD/YYYY with no spaces in the cell. The information entered in these cells will auto-populate the SID demonstration reporting schedule in Table 2. All cells in the input table must be completed in entirety and in the correct format for the standard reporting schedule to be accurately auto-populated.

(2) Review the state reporting schedule (Table 1), the SID demonstration reporting schedule (Table 2). For each of the reporting categories listed in column E, select Y or N in column H. Deviation from standard reporting schedule (VSNP) indicates whether the state plans to report according to the standard reporting schedule. If a state's planned reporting does not match the standard reporting schedule for any quarter and/or reporting category (i.e., column H="Y"), the state should describe these deviations in column I. "Explanation for deviations (if column H="Y")" and use column J. "Proposed deviations from standard reporting schedule," to indicate the SID measurement periods with which it wishes to overwrite the standard schedule (column G). All other columns are locked for editing and should not be altered by the state.

*Valid only for all-tenant demonstration reporting quarters*

**SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the effective date listed in the state's STCs at the time of SUD demonstration approval. For example, if the state's STCs at the time of SUD demonstration approval note that the demonstration is effective January 1, 2020, the state should consider January 1, 2020 to be the start date of the demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration. To generate an accurate reporting schedule, the start date as listed in Table 1 of the "SUD reporting schedule" should align with the first day of a month. If a state's SUD demonstration begins on any day other than the first day of the month, the state should list its start date as the first day of the month in which the effective date occurs. For example, if a state's effective date is listed as January 15, 2020, the state should indicate "01/01/2020" as the start date in Table 1 of the "SUD reporting schedule." <sup>10</sup> Please see Appendix A for more information on determining demonstration quarter timing.

<sup>10</sup> The auto-populated reporting schedule in Table 2 outlines the data the state is expected to report for each demonstration year and quarter. However, states are not expected to begin reporting any metrics data until after monitoring protocol approval. The state should see Section B of the Monitoring Report Instructions for more information on retrospective reporting of data following protocol approval.
