Idaho Department of Health and Welfare
Division of Medicaid
PO Box 8320
Boise, ID 83720-0009

Re: Idaho State Plan Amendment (SPA) 23-0011

Dear Administrator Charron:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) 23-0011. This SPA proposes to revise Idaho's Basic Alternative Benefit Plan to update three existing benefits: Targeted Case Management for At-Risk Children; Community-Based Rehabilitation Services for Adults; and Community-Based Rehabilitation Services for Children.

We conducted our review of your submittal according to statutory requirements in Title XIX of the Social Security Act and implementing regulations. This letter is to inform you that Idaho Medicaid SPA 23-0011 was approved on May 13, 2024, with an effective date of January 1, 2023.

If you have any questions, please contact Courtenay Savage at 312-353-3721 or via email at Courtenay.Savage@cms.hhs.gov.

Sincerely,

James G Scott, Director
Division of Program Operations

See "Other 1937 Benefits" for additional provider types covered beyond the Base Benchmark: Other Licensed Practitioner, Licensed Midwife;

Beneficiaries in the optional pregnant women group may receive EHB and other 1937 services that are pregnancy related as described below:

Idaho covers services that are necessary for the health of the pregnant woman and fetus, or that have become necessary because of the woman having been pregnant and services for other conditions that might complicate the pregnancy. Coverage includes prenatal care, delivery, postpartum care, and family planning services. This coverage includes services for the mother or fetus for other conditions that might complicate the pregnancy include those for diagnoses, illnesses, or medical conditions which might threaten the carrying of the fetus to full term or the safe delivery of the fetus. Pregnancy related services are covered for a postpartum period that begins on the last day of pregnancy and extends through the end of the month in which the 60-day period following termination of pregnancy ends.

Idaho does not cover services for pregnant women that are medically contraindicated during pregnancy or elective procedures for conditions that do not threaten the health of the pregnant woman, the carrying of the fetus to full term, or the safe delivery of the fetus.

Based on the benefits provided this group does not meet Minimum Essential Coverage under section 5000A(f)(1)(E) of the Internal Revenue Code on 1986.

Program Description: Partial Care Treatment; 1905(a)(6) of the Act.

Services are prior authorized, and there is no limitation in amount, duration or scope.

A distinct and organized intensive ambulatory treatment service offering less than twenty-four (24) hour daily care that is reasonable and necessary for the diagnosis or active treatment of the individual's condition, reasonably expected to improve or reduce disability or restore the individual's condition and functional level and to prevent relapse or hospitalization. These services occur through the application of principles of behavior modification for behavior change and structured, goal-oriented group socialization for skill acquisition.

Partial Care is a program of services that include support therapy, medication monitoring, and skills building as appropriate for the individual. Each service must be delivered by a person licensed or certified to deliver those services.

Provider Qualifications
Partial Care treatment may be provided by one of the following contracted licensed or certified professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse

Alternative Benefit Plan

- 3) Physician Assistant
 - 4) Licensed Social Worker
 - 5) Licensed Counselor
 - 6) Licensed Marriage and Family Therapist
 - 7) Providers who hold at least a Bachelor's degree and are Licensed Social Workers
 - 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
 - 9) Registered Nurse
- These licensed practitioners provide supervision to unlicensed practitioners, including certified alcohol and drug counselors.
- Such supervision is included in the State's Scope of Practice Act for the supervising licensed practitioner.
- The licensed practitioner assumes professional responsibility for the services provided by the unlicensed practitioner.

Scope Limit:

IOP services do not include overnight housing.

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

An Intensive Outpatient Program (IOP) can be used to treat mental health conditions or substance use disorders, or can specialize in the treatment of co-occurring mental health and substance-related disorders. IOP is a structured program for participants whose symptoms result in significant personal distress and/or significant psychosocial and environmental issues. IOP provides not only behavioral health treatment, but also the opportunity to practice new skills. Programs for adolescents are offered separately from programs for adults, and each program and its staff must meet the certification and credentialing criteria of the State Medicaid Agency. In compliance with EPSDT, this service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

IOP is appropriate for participants who are experiencing symptoms that can be addressed and managed in a level of care that is less intensive than psychiatric hospitalization but that require a higher level of care than routine outpatient services. The program may function as a step-down option from psychiatric hospitalization, partial hospitalization, or residential treatment, and may also be used to prevent or minimize the need for a more intensive level of treatment.

IOP–Mental Health occurs at a minimum of three (3) days per week, maintaining at least nine (9) hours of service for adults and at least six (6) hours of service for adolescents. IOP–SUDs maintains nine (9) to nineteen (19) hours of service weekly for adults and six (6) to nineteen (19) hours of service for

Alternative Benefit Plan

adolescents. Services are expected to be maintained at this level throughout the duration of the program. However, services may be authorized at a less intense level for fewer hours per week as the participant moves toward discharge until the participant can be safely and appropriately transitioned back into a less intensive level of outpatient care.

IOP services may include any of the following:

- Individual, group, and family psychotherapy and education focused on recovery
- Evidence-informed practices such as group therapy, cognitive behavioral therapy (CBT), motivational interviewing, and multidimensional family therapy
- Psychiatric evaluations and medication management
- Substance use screening and monitoring, if appropriate
- Transition management and discharge planning
- Twenty-four (24) hour crisis coverage
- Initial and ongoing risk assessments

Due to the non-residential nature of the program, IOP services are commonly provided during evenings and on weekends. Because IOP programs have such a different approach and intensity, they are not typically designed to be used for extended duration; instead they rely on an integrated approach using high-frequency contact to increase functioning, monitor and maintain stability, and support recovery. Following the participant's admission to IOP, it is not appropriate for other behavioral health providers to provide services to the participant or bill for services outside the program, with the exception of psychiatric services and medication management. All other services are included in the IOP's per diem rate.

Provider Qualifications

IOP services may be provided by the following contracted professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Marriage and Family Therapist
- 7) Paraprofessionals who hold at least a Bachelor's degree and a current credential from the Psychiatric Rehabilitation Association (i.e., a certificate or certification in psychiatric rehabilitation based upon the primary population with whom the provider works, in accordance with the requirements set by the PRA), and who meet requirements of the State Medicaid Agency
- 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 9) Registered Nurse

The IOP provider is responsible for coordination of care with the participant's primary care provider (PCP) and other behavioral health providers.

Provider Qualifications
The provider's professional training and licensure must include any of the following:

Alternative Benefit Plan

- 1) A doctoral-level psychologist who is licensed to practice independently, and demonstrates sufficient training and experience.
- 2) A psychometrist or psychometrician who administers and scores psychological tests under the supervision of a licensed, doctoral-level psychologist, and whose services are billed by the supervising psychologist.
 - The supervising psychologist must have face-to-face contact with the participant at intake and during the feedback session.
 - The supervising psychologist is also responsible for final test interpretation, report writing, and final signature of approval.
- 3) A master's-degreed behavioral health professional whose licensure specifically allows for provision of psychological testing services.
 - The master's-degreed provider has professional expertise in the types of tests/assessments being administered.
 - The master's-degreed provider is conducting test administration, scoring and interpretation in accordance with licensing standards and psychological testing professional and ethical standards.

Benefit Provided:

Skills Building/CBRS: Adults

Provider Qualifications:

Other

Amount Limit:

None

Duration Limit:

None

Scope Limit:

Limited to adults age eighteen (18) or over who are receiving treatment for a Severe and Persistent Mental Illness (SPMI) or Serious Mental Illness (SMI) and have a functional impairment.

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

The Skills Building/Community Based Rehabilitation Services (CBRS): Adults service focuses on behavioral, social, communication, rehabilitation, and/or basic living skills training to increase a participant's functioning and decrease mental health and/or behavioral symptoms. Skills Building/CBRS addresses an adult's ability to function adaptively in home and community settings. Examples of training areas that may be addressed include self-care, behavior, social decorum, avoidance of exploitation, anger management, budgeting, development of social support networks, and use of community resources.

Delivered pursuant to a written plan of care, Skills Building/CBRS vary in intensity, frequency, and duration in order to support the participant's ability to manage functional difficulties and to realize recovery and resiliency goals.

Skills Building/CBRS is appropriate for adults receiving treatment for a Severe and Persistent Mental Illness (SPMI) or Serious Mental Illness (SMI) when they have been assessed to have at least two (2) significant functional deficits related to the identified SPMI/SMI, and Skills Building/CBRS services are necessary in order for the adult to obtain and/or apply developmentally age-appropriate skills.

The participant's functioning in the following areas will be assessed to determine the training needs to address using Skills Building/CBRS:

- Vocational/educational
- Financial
- Social relationships/support
- Family

Alternative Benefit Plan

- Basic living skills
- Housing
- Community/legal
- Health/medical

Provider Qualifications

Skills Building/CBRS services may be provided by one of the following contracted professionals within the scope of their practice:

Benefit Provided:

Partial Hospitalization, MH and SUDs

Source:

Base Benchmark Small Group

Remove

Authorization:

None

Provider Qualifications:

Other

Amount Limit:

None

Duration Limit:

None

Scope Limit:

Partial Hospitalization services do not include overnight housing.

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

Partial Hospitalization can be used to treat mental health conditions or substance use disorders, or both; i.e., co-occurring conditions. Partial Hospitalization is a facility-based, structured bundle of services for participants whose symptoms result in severe personal distress and/or significant psychosocial and environmental issues. Partial Hospitalization provides not only behavioral health treatment, but also the opportunity to practice new skills. Services for adolescents are offered separately from services for adults, and each program and its staff must meet the certification and credentialing criteria of the State Medicaid Agency. Services must be delivered under the supervision of a licensed physician. In compliance with EPSDT, this service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

Partial Hospitalization is appropriate for participants who are experiencing symptoms that can be addressed and managed in a level of care that is less intensive than psychiatric hospitalization but who require a higher level of care than routine outpatient or other intensive services. This service may function as a step-down option from psychiatric hospitalization or residential treatment, and may also be used to prevent or

Alternative Benefit Plan

minimize the need for a more intensive level of treatment. A participant may be admitted to the program when the participant cannot be safely and appropriately treated in a less restrictive level of care.

Partial Hospitalization, MH and SUDs, is delivered a minimum of twenty (20) hours per week for adults or children/adolescents.

Partial Hospitalization may include any of the following component services of the bundle:

- Individual, group, and family psychotherapy and education focused on recovery
- Evidence-informed practices such as group therapy, cognitive behavioral therapy (CBT), motivational interviewing, and multidimensional family therapy
- Psychiatric evaluations and medication management
- Substance use screening and monitoring, if appropriate
- Transition management and discharge planning
- Twenty-four (24) hour crisis coverage, including response and interventions outside of the program setting
- Initial and ongoing risk assessments
- Prescription drugs

Following the participant's admission to Partial Hospitalization, it is not appropriate for other behavioral health providers to provide services to the participant or bill for services outside the program. All component services in the bundle are included in the bundle's per diem rate.

Provider Qualifications

Partial Hospitalization services may be provided by the following contracted professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 7) Registered Nurse

The Partial Hospitalization provider is responsible for coordination of care with the participant's primary care provider (PCP), IBHP care coordinator, and other behavioral health providers.

Coverage that exceeds the minimum requirements or other:

The State Medicaid Agency covers at least the greater of one (1) drug in each U.S. Pharmacopeia (USP) category and class.

Prior Authorization criteria are developed by the State Medicaid Agency's clinical pharmacists with input from the Medical Director, the Pharmacy and Therapeutics Committee, and the Drug Utilization Review Board. The criteria used to place drugs on prior authorization are based upon safety, efficacy and clinical outcomes as provided by the product labeling of the drug, and quality evidence provided by established drug compendia, and the Drug Effectiveness Review Program.

See "Other 1937 Benefits" for services provided in excess of the Base Benchmark.

Alternative Benefit Plan

7. Essential Health Benefit: Rehabilitative and habilitative services and devices

Collapse All

The state/territory assures that it is not imposing limits on habilitative services and devices that are more stringent than limits on rehabilitative services (45 CFR 156.115(a)(5)(ii)). Further, the state/territory understands that separate coverage limits must also be established for rehabilitative and habilitative services and devices. Combined rehabilitative and habilitative limits are allowed, if these limits can be exceeded based on medical necessity.

Limited to children under age eighteen (18) who have been diagnosed with Serious Emotional Disturbance (SED).

Other:

Behavior Modification and Consultation services emphasize the replacement of problematic or inappropriate behaviors with positive behaviors and increasing the ability of the participant to exhibit more effective and appropriate behaviors. Behavioral strategies are used to teach the participant alternative means to deal with targeted behaviors and the environment to ensure inappropriate behaviors are eliminated and positive behaviors are learned and maintained. Behavior modification providers may provide assistance to help develop or maintain prosocial behaviors at any time and in any setting appropriate to meet the participant’s needs, including home, school, and community. In compliance with EPSDT, this service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

Behavior modification providers focus on social and behavioral skill development by building a participant’s competencies and confidence. These services are individualized and are related to goals identified in the participant’s treatment plan.

Behavior modification services typically include development, implementation and monitoring of a behavioral management plan and other rehabilitation services identified in the behavior management plan. Once the behavior management plan is implemented, behavioral strategies can alter or improve specific behaviors when consistently applied by family members, teachers, and professional therapists working in concert with the participant until the behavior is effectively managed.

After assessment, the resulting behavioral management treatment plan can also include a risk-management or contingency plan developed to address the needs of the participant.

Provider Qualifications

Behavior modification and consultation providers must obtain a nationally recognized certification for providers of services related to behavior analysis and modification. Independently licensed clinicians or Master’s-level clinicians and paraprofessionals who meet supervisory protocol may provide this service.

There are four (4) nationally recognized certifications for providers of services related to behavior analysis and modification:

- Registered Behavioral Technician (RBT)—RBTs must: Be eighteen (18) years old with HS diploma; be supervised by BCaBA, BCBA, or BCBA-D; pass competency assessment and RBT exam.
- Board Certified Assistant Behavior Analyst (BCaBA)—BCaBAs must: Be Bachelor’s level; be supervised by a BCBA or BCBA-D; pass BCaBA exam.
- Board Certified Behavior Analyst (BCBA)—BCBAs must: Be Master’s level; pass BCBA exam; complete supervisor training.
- Board Certified Behavioral Analyst-Doctoral (BCBA-D)—BCBA-Ds must: Hold a Ph.D.; pass BCBA exam; complete supervisor training.

Program Description: Other diagnostic, screening, preventive, and rehabilitative services - 1905(a)(13)(C) of the Act.

Behavioral consultation supports a multi-disciplinary approach to rehabilitative and treatment by consulting with the IEP team during the assessment process for a specific child, performing advanced assessment of the child, coordinating the implementation of the behavior implementation plan and providing ongoing training to the behavioral interventionist and other team members for a child's needs.

Behavioral consultation provides expertise for children with complex needs who are not demonstrating outcomes with behavioral interventions alone. The consultant works with the IEP team and other professionals to develop a positive behavior support plan and provide oversight in carrying out that plan to reduce disability and increase function.

Provider Qualifications

Qualifications for Behavioral Consultation providers are:

- 1) Behavioral consultation must be provided by a professional who has a Doctoral or Master's degree in psychology, education, applied behavioral analysis, or in a related discipline with one thousand five hundred (1,500) hours of relevant coursework or training, or both, in principles of child development, learning theory, positive behavior support techniques, dual diagnosis, or behavior analysis (may be included as part of degree program), and who meets one (1) of the following:
- 2) An individual with an Exceptional Child Certificate as defined by State law.
- 3) An individual with an Early Childhood/Early Childhood Special Education Blended Certificate as defined by State law.
- 4) A Special Education Consulting Teacher as defined by State law.
- 5) An individual with a Pupil Personnel Certificate as defined by State law, excluding a registered nurse or audiologist.
- 6) An occupational therapist who is qualified and registered to practice in Idaho.
- 7) Therapeutic consultation professional who meets the requirements defined by the State Medicaid Agency.

Services provided in the schools must be the same in amount, duration and scope as the services provided in the community.

Individuals delivering services in the schools must adhere to the same provider qualifications as required for individuals delivering services in the community.

Participants are able to choose to receive Medicaid services from the pool of qualified Medicaid providers, which includes school-based and community providers.

Participants through the month of their twenty-first (21st) birthday, pursuant to EPSDT, may receive additional services if determined to be medically necessary and prior authorized by the State Medicaid Agency.

Other:

Behavioral Intervention techniques are used to produce positive meaningful changes in behavior that incorporate functional replacement and reinforcement-based strategies while also addressing any identified rehabilitative skill building needs. These services are provided to participants who exhibit interfering behaviors that impact the independence or abilities of the participant, such as impaired social skills and communication or destructive behaviors. Intervention services may include teaching and coordinating methods of training with family members or others who regularly participate in caring for the eligible participant. Evidence-based or evidence-informed practices are used to promote positive behaviors and learning while reducing interfering behaviors and developing behavioral self-regulation.

Services may include individual or group services. Group services must be provided by one (1) qualified staff providing direct services for two (2) or three (3) individuals. As the number and needs of the participants increase, the participant ratio in the group must be adjusted from three (3) to two (2). Group services should only be delivered when the participant's goals relate to benefiting from group interaction.

Behavioral Intervention may include interdisciplinary training to assist with implementing a participant's health and medication monitoring, positioning and physical transferring, use of assistive equipment, and intervention techniques in a manner that meets the participant's needs. This service is intended to be utilized for collaboration, with the participant present, during the provision of services between a bachelor's-level intervention provider or Master's-level intervention provider and a Speech Language and Hearing Professional (SLP), Physical Therapist (PT), Occupational Therapist (OT), medical professional or behavioral/mental health professional. A bachelor's-level may provide this service if they meet the supervisory protocol required.

Provider Qualifications

Providers who have obtained a nationally recognized certification for services related to applied behavior analysis. Independently licensed clinicians, Master's-level individuals, bachelor's-level individuals, and paraprofessionals who meet supervisory protocol may also provide this service.

Other:

A planning team is responsible for successfully completing a person-centered planning process that will culminate in a person-centered service plan and other treatment plans, as needed, which will be used to inform and guide the ongoing treatment of the participant. Participation on this team, referred to as the Child and Family Team (or CFT), entails collaboration among diverse team members of the family's choosing; i.e., the CFT may include family members, a plan facilitator, the targeted care coordinator, treating clinicians and providers, the primary care physician, MH/SUDs professionals or paraprofessionals, and other persons selected by the family to be involved in the planning and/or delivery of the participant's care.

Planning activities take place within the framework of the CFT Interdisciplinary Team Meeting, which is an in-person or telephonic meeting, with the participant present, focused on developing, monitoring, or modifying a plan of care. In addition, CFT Interdisciplinary Team Meetings provide a forum in which the team can review the effectiveness of current services, assess the participant's progress towards objectives specified in the plans of care, and discuss treatment options and service adjustments for possible inclusion in revisions to planning documents.

The Care Planning benefit is the mechanism that will allow a Medicaid provider—when the provider will be actively involved in the development, implementation, and revision of the services prescribed in the plan(s)—to be reimbursed for attending planning sessions and participating on the CFT. In accordance with the core principles of person-centered planning, CFT Interdisciplinary Team Meetings are held at times and settings identified as convenient for the family.

The Care Planning benefit is limited exclusively to CFT participation. Periodic consultations between providers are considered a routine function of the practitioner, not a direct medical service to the participant, and therefore do not constitute a standalone service eligible for reimbursement.

Provider Qualifications

Medicaid-enrolled providers who are involved in the participant's care and have been selected by the family to serve on the CFT may bill for this service, including the provider types listed below:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Marriage and Family Therapist
- 7) Paraprofessionals who hold at least a Bachelor's degree and a current credential from the Psychiatric Rehabilitation Association (i.e., a certificate or certification in psychiatric rehabilitation based upon the primary population with whom the provider works, in accordance with the requirements set by the PRA), and who meet requirements of the State Medicaid Agency
- 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 9) Registered Nurse

Crisis intervention services are provided face to face 24/7 in the community, school, or home of the participant in order to assess immediate strengths and needs to ensure appropriate services are provided to de-escalate the current crisis and prevent future crisis. Services to the participant's family and others who regularly participate in the participant's life are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery. This work includes the following activities: intervene, coordinate with current services, and provide linkages and referral for follow-up care to participants and families experiencing a psychological, behavioral or emotional crisis. Crisis interventions are intended to address the immediate safety and well-being of the participant and family due to the participant's escalating behaviors that may be creating disruption to the participant's functioning and stability. Crisis interventions are short-term and time-limited as identified by the participant, family, or crisis services provider.

Crisis intervention providers must be trained to deliver direct consultation and clinical evaluation of a child participant who is experiencing a crisis (i.e., being at risk of out-of-home placement, hospitalization, incarceration, physical harm to self or others, family altercations or other emergencies).

Provider Qualifications

Providers who have obtained a nationally recognized certification for services related to applied behavior analysis. Independently licensed clinicians, Master's-level individuals, bachelor's-level individuals, and paraprofessionals who meet supervisory protocol may also provide this service.

Crisis intervention services are provided face to face 24/7 in the community or home of the participant in order to assess immediate strengths and needs to ensure appropriate services are provided to de-escalate the current crisis and prevent future crisis. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

This work includes the following activities: intervene, coordinate with current services, and provide linkages and referral for follow-up care to participants and families experiencing a behavioral health crisis.

Alternative Benefit Plan

Crisis interventions are intended to address the immediate safety and well-being of the participant and family due to the participant’s escalating behaviors that may be creating disruption to the participant’s functioning and stability. Crisis interventions are short-term and time-limited as identified by the participant, family, or crisis services provider.

Crisis intervention specialists will be required to have the capacity to assess, intervene, de-escalate, and produce a stabilization/crisis plan as well as follow up telephonically within twenty-four (24) hours with the participant/participant’s family to assess participant stability and deliver crisis follow-up needs. The result of an outpatient Crisis Intervention is a stabilized participant who remains in the community, a stabilized child participant whose family elects to receive some unplanned respite, or a participant who gets linked with higher level of care or response.

Provider Qualifications

Any providers of this service will be required to obtain certification in Crisis Response and Intervention by the Crisis Prevention Institute (CPI). The team typically includes a Master’s-level clinician (Licensed Marriage and Family Therapist, Licensed Clinical Social Worker, Licensed Master Social Worker, Licensed Professional Counselor or Licensed Clinical Professional Counselor) and a Bachelor’s-level paraprofessional with a degree in a human services field plus CPI certification, supervised by a Master’s-level Clinical Supervisor with CPI certification.

Scope Limit:

None

Other:

Crisis Response is delivered over the telephone, and the service is available 24/7 to help participants cope with a mental health crisis and remain in their own home and community. Crisis Response includes telephone contact with skilled crisis response providers who can furnish assessment and crisis de-escalation through counseling, support, active listening or other telephonic interventions, as well as offer linkage to services and community providers.

The goals of Crisis Response are to ensure the safety and emotional stability of the participant experiencing a mental health crisis, to avoid further deterioration in the participant’s mental status, assist in the development or enhancement of more effective coping skills and support system, raise the participant’s level of functioning, help in obtaining ongoing care by way of outreach to existing support services, community mental health, substance use and/or medical healthcare providers.

On occasion, the crisis response provider may determine that a higher level of intervention is indicated.

Typical circumstances may involve a participant who is determined to be:

- Threatening imminent harm to self or others;
- Severely disoriented or out of touch with reality;
- Functionally or physically impaired;
- Extremely distraught and out of control; or
- Severely impaired by drugs or alcohol.

Alternative Benefit Plan

The presence of these risk factors suggest that the crisis has become a potentially life-threatening situation and a mental health emergency exists. In such cases, the crisis response provider will make contact with emergency responders who can evaluate whether a higher level of care is warranted.

Provider Qualifications

Crisis Response providers are:

- 1) Paraprofessionals who hold at least a Bachelor's degree in a human services field, are certified in their field (Crisis Response and Intervention from the Crisis Prevention Institute), and who meet requirements of the State Medicaid Agency; or
- 2) Master's level clinicians or higher level who are licensed to practice independently in Idaho.

Program Description: Dental services; 1905(a)(10) of the Act.

Other services covered by the State Medicaid Agency, but not covered by the Base Benchmark: Adult Dental Services.

Adult individuals receive all medically necessary preventative and restorative dental services, including:

Preventive dental services:

- Oral exam every twelve (12) months
- Cleaning every six (6) months
- Fluoride treatment every twelve (12) months
- Dental X-rays every twelve (12) months (Full mouth or Panoramic every 36 months)

Restorative Dental Services:

- Medically necessary exams
- Fillings are covered once in a twenty-four (24) month period per tooth/surface
- Simple and surgical extractions
- Endodontic services include therapeutic pulpotomy and pulpa debridement
- Periodontic services include scaling and root planing, full mouth debridement
- Periodontal maintenance is covered up to two (2) visits every twelve (12) months

Dentures:

- Dentures are covered once every seven (7) years.

Limitations may be exceeded if medically necessary.

Exclusions:

Drugs supplied to dental patients for self-administration other than those allowed by applicable State Medicaid Agency rules.

Alternative Benefit Plan

Non-medically necessary cosmetic services.

Limitations:

The State Medicaid Agency may require prior approval for specific elective dental procedures.

Scope Limit:

Available to Medicaid-eligible children who meet Individuals with Disabilities Education Act (IDEA) Part C requirements pursuant to a signed and dated physician referral or recommendation.

Other:

Early Intervention Services (EIS) are Early, Periodic, Screening, Diagnostic and Treatment (EPSDT) services provided to Idaho Medicaid participants through the IDEA Part C Lead Agency. The IDEA Part C Lead Agency is responsible for assessing and treating the developmental needs of infants and toddlers and the needs of the family related to enhancing the child's development. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

An EIS provider is responsible for:

- a. Responding to referrals for assessing and screening Medicaid eligible infants and toddlers for EIS.
- b. Educating families on options for services through the IDEA Part C Lead Agency and providing referrals to other EPSDT providers or community resources.
- c. Participating in the multidisciplinary team's ongoing assessment of the participant and family's resources, priorities, and concerns as related to the needs of the infant or toddler, in the development of integrated goals and outcomes for the Individualized Family Service Plan (IFSP).
- d. Providing EIS in accordance with the IFSP.
- e. Consulting with and training parents and others regarding the provision of the EIS described in the participant's IFSP.

EIS are delivered as part of the statewide comprehensive, coordinated, multidisciplinary interagency system for EIS. The following age-appropriate screenings, evaluations and services are covered when delivered by an early intervention provider:

- a. Developmental, motor, language, social, adaptive, and cognitive functioning testing and interpretation.
- b. Development, review, and implementation of IFSPs.
- c. EIS including therapy services, family training, home care training, and interdisciplinary teaming.

Provider Qualifications:

EIS for infants and toddlers enrolled in Idaho Medicaid are provided by the IDEA Part C Lead Agency (Idaho Infant Toddler Program, or ITP). The ITP must hold a valid Idaho Medicaid EIS provider agreement and comply with all provider screening requirements as specified in Idaho administrative code IDAPA 16.03.09 Medicaid Basic Plan Benefits.

All personnel providing EIS must be employed by or contracted with Idaho ITP, meet the IDEA Part C requirements, and meet all Medicaid regulations. Idaho Code, Title 16, Chapter 1 requires the Idaho ITP to ensure that individuals providing EIS meet Idaho's established certification or licensing standards within the scope of their practice and that they are appropriately and adequately trained. ITP personnel providing EIS include the following professions or disciplines providing the services designated:

- a. Audiologist – Hearing screenings and evaluations
- b. Developmental Specialist – Assessment and services
- c. Family Therapist – Social/emotional assessment and services
- d. Marriage and Family Therapist – Social/emotional assessment and services
- e. Professional Counselor – Social/emotional assessment and services
- f. Occupational Therapist – Occupational therapy assessment and services
- g. Orientation/Mobility Specialist – Assessment and services for vision impaired

Alternative Benefit Plan

- h. Optometrist – Vision assessment
- i. Pediatrician/Physician – Plan development and oversight
- j. Physician Assistant – Plan development and oversight
- k. Nurse Practitioner – Plan development and oversight
- l. Physical Therapist (PT) – Physical therapy assessment and services
- m. Psychologist – Assessments/behavioral health services
- n. Registered Dietitian – Dietary counseling services
- o. Registered Nurse – Nursing services
- p. Licensed Practical Nurse – Nursing services
- q. Social Worker –Service Coordination/Social work services
- r. Clinical Social Worker –Service Coordination/Social work services
- s. Master’s-level Social Worker –Service Coordination/Social work services
- t. Speech-Language Pathologist – Speech-language assessments and therapy services
- u. Teacher for Visually Impaired – Communication skills

Scope Limit:

None

Other:

Family Psychoeducation (FPE) is an approach for partnering with participants and families to treat participants with behavioral health diagnoses. In contrast with family therapy, Family Psychoeducation emphasizes the behavioral health condition as the focus of instruction, not the family. While psychoeducation is a typical component of psychotherapy, it is also an effective service when provided as a targeted service to a single family or group of families. Services to the participant’s family and significant others are for the direct benefit of the participant, in accordance with the participant’s needs and treatment goals identified in the participant’s treatment plan, and for the purpose of assisting in the participant’s recovery.

Rather than a short-term intervention, Family Psychoeducation is a series of meetings that present a pre-established curriculum comprising counseling to families based on the participant's specific medical needs.

Family Psychoeducation can be provided in a multifamily group (two (2) to five (5) families) or in a single-family format. Services provided should be identified on the participant’s plan of care, and driven by the participant’s and family’s goals.

Family Psychoeducation supports the participant/family/caregivers in understanding aspects such as:

- The participant’s symptoms of the behavioral health condition and nature of their specific illness
- The impact symptoms have on the participant's development and functioning across environments
- The components of treatment that are known to be effective for the participant’s specific condition
- The concept of rehabilitation through skill development
- Other important elements of treatment (e.g., Medication and Medication Compliance)

Provider Qualifications

Alternative Benefit Plan

Single-family psychoeducation requires a master's-level, independently licensed clinician (Licensed Marriage and Family Therapist, Licensed Clinical Social Worker, Licensed Master Social Worker, Licensed Professional Counselor or Licensed Clinical Professional Counselor) or a master's-level provider qualified to deliver psychotherapy in a group agency under supervision. In cases where providers are working with a single family having many participants or complex issues, the family could benefit from the involvement of a second facilitator. Multifamily psychoeducation warrants two (2) facilitators; at least one (1) of these will be an independently licensed clinician or or a master's-level provider qualified to deliver psychotherapy in a group agency under supervision. The second facilitator may be a bachelor's-level paraprofessional operating in a group agency under supervision.

Scope Limit:

Limited to children under age eighteen (18) who have been diagnosed with Serious Emotional Disturbance (SED).

Other:

Family Support services are provided to parents of children with SED by another parent (certified as a Peer Support Specialist) with a lived experience raising a child with SED. The Family Support Specialist will assist and support the family in gaining access to services, and help the family become informed consumers of services and self-advocates. Family support may include mentoring, advocating, and educating, provided one-on-one to the family or through family support groups. The Family Support Specialist provides support, information, and resources to families to accomplish the treatment goals being targeted for the participant, and may also work in partnership with the participant's therapist and treatment team to bridge the relationship between the parent and professionals working with their child. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

FSS providers must receive training and certification as a Peer Support Specialist. FSS providers must be supervised by an independently licensed clinician who has direct knowledge and contact with the families receiving the service.

Other:

Habilitative skill building includes techniques used to develop, improve and maintain, to the maximum extent possible, the developmentally-appropriate functional abilities and daily living skills of an individual. These services may include teaching or coordinating methods of training with family members or others who regularly participate in caring for the eligible participant.

Services may include individual or group interventions. Group services must be provided by one (1) qualified staff providing direct services for two (2) or three (3) participants. As the number and needs of the participants increase, the participant ratio in the group must be adjusted from three (3) to two (2). Group services should only be delivered when the participant's goals relate to benefiting from group interaction. Habilitative skill building may include interdisciplinary training to assist with implementing a participant's health and medication monitoring, positioning and physical transferring, use of assistive equipment, and intervention techniques in a manner that meets the participant's needs. This service is intended to be utilized for collaboration, with the participant present, during the provision of services between a bachelor's-level intervention provider or Master's-level intervention provider and a Speech Language and Hearing Professional (SLP), Physical Therapist (PT), Occupational Therapist (OT), medical professional or behavioral/mental health professional. A bachelor's-level may provide this service if they meet the supervisory protocol required.

Provider Qualifications

Providers who have obtained a nationally recognized certification for services related to applied behavior analysis. Independently licensed clinicians, Master's-level individuals, bachelor's-level individuals, and paraprofessionals who meet supervisory protocol may also provide this service.

Peer Support includes Adult Peer Support and Youth Support. Adult Peer Support is a face-to-face recovery support service in which a Certified Peer Support Specialist mentors, guides and coaches the participant to achieve self-identified recovery and resiliency goals. This service is typically delivered to adults with a serious mental illness or co-occurring mental health and substance use disorders who are actively involved in their own recovery process. This specialized support is intended to complement an array of therapeutic services and may be offered before, during, or after mental health treatment has begun to facilitate long-term recovery in the community.

In collaboration with the participant, the Peer Support Specialist will create an individualized recovery plan that reflects the participant's needs and preferences, and describes the participant's individualized goals, interventions, timeframes and measurable results. The recovery plan will be formally reviewed at least every three (3) months.

Components of this service may include:

- Assistance with setting recovery goals, developing a recovery action plan, a relapse plan, solving problems and addressing barriers related to recovery;
- Encouraging self-determination, hope, insight, and the development of new skills;
- Connecting the participant with professional and non-professional recovery resources in the community and helping the participant navigate the service system in accessing resources independently;
- Facilitating activation so that participants may effectively manage their own mental illness or co-occurring conditions, and empowering participants to engage in their own treatment, healthcare and recovery;
- Helping the participant decrease isolation and build a community supportive of the participant establishing and maintaining recovery.

Qualified Adult Peer Support providers must have obtained certification as a Peer Support Specialist. The

Alternative Benefit Plan

Peer Support Specialist is supervised by a competent mental health practitioner.

Youth Support services are provided by younger adults with lived experience of serious emotional disturbance (SED) during childhood/adolescence to assist and support participants in understanding their role in accessing services, and in becoming informed consumers of services and self-advocates. Youth support may include mentoring, advocating, and educating provided through youth support groups. Participants receiving this service will work on goals within their group, which will consist of four (4) or more participants.

In addition to the mandatory SED diagnosis, participants may also have a co-occurring substance-related disorder or developmental disability disorder. This service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

Provider Qualifications
 Youth Support Specialists will meet the following requirements:

1. High school diploma or GED
2. Diagnosed with SED as a young adult
3. Was transitioned out of treatment at least one year ago
4. 21 to 30 years of age (recommended)
5. Completion of certification as a Peer Support Specialist
6. Completion of training for YSS Providers and Youth Group Facilitation required by the IDHW contractor.
7. Successful completion of a nationally based background check
8. The provider's agency will conduct a mandatory Agency Training, and the provider will work under clinical supervision by a competent mental health practitioner.

Idaho Medicaid provides coverage to Medicaid participants for the following drugs or classes of drugs, or their medical uses, which may be excluded from coverage or otherwise restricted under § 1927(d)(2) of the Social Security Act:

- (A) Agents when used for anorexia, weight loss, or weight gain.
- (B) Agents when used to promote fertility.
- (C) Agents when used for cosmetic purposes or hair growth.
- (D) Agents when used for the symptomatic relief of cough and colds.
- (E) Agents when used to promote smoking cessation.
- (F) Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations.
Covered agents include: Injectable vitamin B12 (cyanocobalamin and analogues); vitamin K and analogues; prescription vitamin D and analogues; prescription pediatric vitamin-fluoride preparations; prescription pediatric vitamins, minerals, and fluoride preparations; prenatal vitamins for pregnant or lactating individuals; prescription vitamin D and analogues; prescription folic acid; and oral prescription drugs containing folic acid in combination with vitamin B12 and/or iron salts, without additional ingredients.
- (G) Nonprescription drugs, except, in the case of pregnant women when recommended in accordance with Guideline referred to in section 1905(bb)(2)(A), agents approved by the Food and Drug Administration under the over-the-counter monograph process for purposes of promoting, and when used to promote, tobacco cessation.
Certain prescribed non-prescription products are covered, including: Permethrin; oral iron salts; disposable insulin syringes and needles; insulin; and tobacco cessation products.
- (H) Covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- (I) Barbiturates
- (J) Benzodiazepines
- (K) Agents when used for the treatment of sexual or erectile dysfunction, unless such agents are used to treat a condition, other than sexual or erectile dysfunction, for which the agents have been approved by the Food and Drug Administration.

Additional Excluded Drugs

Drugs are also not covered when the following circumstances apply:

- The participant’s practitioner has written an order for a prescription drug for which federal financial participation is not available.
- The participant’s practitioner has written an order for a prescription drug that is deemed to be experimental or investigational, as defined in Idaho administrative code IDAPA 16.03.09. Medicaid Basic Plan Benefits. Investigational drugs are not a covered service under the Idaho Medicaid pharmacy program. The State Medicaid Agency may consider Medicaid coverage on a case-by-case basis for life-threatening medical illnesses when no other treatment options are available.
- The participant’s practitioner has written an order for a covered outpatient drug for which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- The Idaho Medicaid Pharmacy Program receives a provider reimbursement claim for a covered drug or pharmacy item that requires, but has not received, prior authorization for Medicaid payment.
- The participant is dually eligible for Medicare and Medicaid, and the prescribed drug or drug class is

Alternative Benefit Plan

covered under Medicare Part D. In the case of dual eligibles, the State Medicaid Agency will pay for only those Medicaid-covered drugs not covered under Medicare Part D.

Covered Outpatient Drugs

Medical necessity is the primary determinant of whether a therapeutic agent will be covered. The State Medicaid Agency will cover generic drugs, and also brand drugs when medically necessary and that necessity is adequately documented. If case-specific indications of medical necessity are present, the State Medicaid Agency may also issue prior authorization for otherwise excluded drugs.

Idaho Medicaid maintains a Preferred Drug List (PDL) that identifies the preferred drugs and non-preferred drugs within a therapeutic class. The Director of the State Medicaid Agency makes final decisions regarding drugs' designated preferred or non-preferred status based on therapeutic recommendations from the Pharmacy and Therapeutics Committee and cost analysis from the Idaho Medicaid Pharmacy Program. A brand name drug may be designated as a preferred drug by the State Medicaid Agency if, after consideration of all rebates, the net cost of the brand name drug is less than the cost of the generic equivalent.

The Director of the State Medicaid Agency, acting upon the recommendation of the Pharmacy and Therapeutics Committee, may determine that a non-prescription drug product is covered when the non-prescription product is found to be therapeutically interchangeable with prescription drugs in the same pharmacological class following evidence-based comparisons of efficacy, effectiveness, clinical outcomes, and safety, and the product is deemed by the State Medicaid Agency to be a cost-effective alternative.

Any Idaho Behavioral Health Plan (IBHP) enrollee diagnosed with a behavioral health condition or substance use disorder who is in need of care coordination is eligible to receive this service, including, but not limited to:

1. Adults eighteen (18) and older with serious mental illness and/or substance use disorder; and
2. Children up to age twenty-one (21) with serious emotional disturbance and/or substance use disorder.

Areas of State in which services will be provided: Entire State

Comparability of services: Services are not comparable in amount, duration and scope (§1915(g)(1)).

Alternative Benefit Plan

Definition of services:

Targeted Care Coordination is a service provided to assist IBHP enrollees to gain access to needed medical, social, educational, and other services, in accordance with the provisions of 42 C.F.R. § 440.169. Care coordinators also monitor the participant's progress in treatment, evaluate the effectiveness of services received under multiple providers' treatment/service plans, and track service utilization to guard against any duplication of services. Services may be delivered telephonically.

Care Coordination includes the following assistance:

- Initial assessment and annual reassessment of a participant to determine the need for any medical, educational, social or other services. More frequent reassessments may be conducted if medically necessary.
- Development (and periodic revision) of a care plan.
- Referral and related activities to help an eligible participant obtain needed services, including activities that help link a participant with Medicaid providers.
- Monitoring and follow-up activities to ensure the care plan is implemented and is adequately addressing the participant's needs.

Provider Qualifications:

This service is delivered by a qualified provider as determined by the State Medicaid Agency. Service providers must comply with the limitations of practice imposed by state law, federal regulations, State of Idaho occupational licensing requirements, the provider's professional area of competency, and applicable State Medicaid Agency rules, and qualifying criteria are subject to approval by the State Medicaid Agency.

- Minimum Provider Qualifications for Care Coordination are providers holding at least a Bachelor's degree in a human services field and meeting the requirements of the State Medicaid Agency.

Waiver of Freedom of Choice of Providers

As permitted and authorized under section 1915(b)(4) of the Social Security Act, choice of care coordination providers is waived. Participants will have free choice of providers of other medical care under the state plan.

Freedom of Choice Exception (1915(g)(1) and 42 C.F.R. § 441.18(b)):

Providers are limited to qualified Medicaid providers of care coordination services capable of ensuring that IBHP enrollees diagnosed with a behavioral health condition or substance use disorder receive needed services and coordination of care.

Access to Services. The State assures that:

- Care coordination services will be provided in a manner consistent with the best interests of recipients and will not be used to restrict an participant's access to other services under the plan; [section 1902(a)(19)]
- Participants will not be compelled to receive care coordination services, condition receipt of care coordination services on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of care coordination services; [section 1902(a)(19)]
- Providers of care coordination services do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

Payment (42 C.F.R. § 441.18(a)(4)):

Payment for care coordination services does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

Case Records (42 C.F.R. § 441.18(a)(7)):

The State Medicaid Agency assures that providers maintain case records that document the following for all participants receiving Care Coordination [42 C.F.R. § 441.18(a)(7)]:

- The dates of the care coordination services.

Alternative Benefit Plan

- The name of the provider agency and the person providing the care coordination services.
- The nature, content, and units of the care coordination services received, and whether goals specified in the care plan have been achieved.
- Whether the participant has declined services in the care plan.
- The need for, and occurrences of, coordination with other care coordinators.
- A timeline for obtaining needed services.
- A timeline for reevaluation of the plan.

Limitations:

Care coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in 42 C.F.R. § 440.169 when the care coordination activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual §4302).

Care coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in 42 C.F.R. § 440.169 when the care coordination activities constitute the direct delivery of underlying medical, educational, social, or other services to which a participant has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; and making placement arrangements. (42 C.F.R. § 441.18(c))

Providers of care coordination must deliver the service in a way that precludes conflict of interest, in accordance with 42 C.F.R. § 441.301. Providers of direct services to Medicaid participants, agencies/entities providing direct services, and those who have an interest in or are employed by a provider of direct services cannot also deliver care coordination or person-centered service plan development, except under the circumstances set forth at 42 C.F.R. § 441.301(c)(1)(vi).

FFP is only available for care coordination services if there are no other third parties liable to pay for such services, including as reimbursed under a medical, social, educational, or other program, except for care coordination that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c))

for abuse, neglect, and possible Child Welfare involvement.

Comparability of services:

Services are not comparable in amount, duration and scope (§1915(g)(1)).

Definition of services: 42 C.F.R. § 440.169

Targeted case management services are defined as services furnished to assist individuals, eligible under the State Plan, in gaining access to needed medical, social, educational and other services.

Targeted Case Management: At-Risk Children includes the following assistance:

- Initial comprehensive assessment and annual reassessment of an individual to determine the need for any medical, educational, social or other services. More frequent reassessments may be done if medically necessary. These assessment activities include:

- Taking client history;
- Identifying the individual's needs and completing related documentation;
- Gathering information from other sources such as family participants, medical providers, social workers, and educators (if necessary), to form a complete assessment of the individual.
- Assessments may be performed via home visiting and can include observations such as the presence of vision, hearing, or developmental issues to inform the care plan and facilitate referral to clinical screening

- Development (and periodic revision) of a specific care plan that is based on the information collected through the assessment that:

- Specifies the goals and actions to address the medical, social, educational, and other services needed by the individual, including services for the parent which are for the direct benefit of the child (for example, evidence-informed and evidence-based parenting skills);
- Includes activities such as ensuring the active participation of the eligible individual, and working with the individual (or the individual's authorized health care decision-maker) and others to develop those goals; and
- Identifies a course of action to respond to the assessed needs of the eligible individual.

In the context of this Targeted Case Management target group, a parent is defined as a person who resides with a participant, provides day-to-day care, is authorized to make healthcare decisions, and is:

1. The participant's natural or adoptive parent(s);
2. A person, other than a foster parent, who has been granted legal custody of the participant; or
3. A person who is legally obligated to support the participant.

- Referral and related activities to help an eligible individual obtain needed services, including activities that help link an individual with medical, social, and educational providers or other programs capable of providing needed services to address identified needs and achieve goals specified in the care plan, such as making referrals to providers for needed services and scheduling appointments for the individual, including those for the direct benefit of the child as noted above.

- Monitoring and follow-up activities:

- Activities, and contact, necessary to ensure the care plan is implemented and adequately addressing the individual's needs. These activities, and contact, may be with the individual, his or her family members, providers, other entities or individuals and may be conducted as frequently as necessary; including at least one annual monitoring to assure that the following conditions are met:
 - Services are being furnished in accordance with the individual's care plan;
 - Services in the care plan are adequate; and
 - If there are changes in the needs or status of the individual, necessary adjustments are made to the care plan and service arrangements with providers.
- Monitoring may be performed via home visiting to include review and discussion with the beneficiary/parent regarding progress in treatment and making necessary adjustments to the care plan based

Alternative Benefit Plan

upon such progress and changes in the individual's needs.

Targeted case management may include:

Contacts with non-eligible individuals that are directly related to identifying the needs and supports for helping the eligible individual to access services.

Provider Qualifications

An agency qualified to be a provider of the Targeted Case Management: At-Risk Children benefit:

- 1) is certified in an evidence-based home visiting model approved by the State Medicaid Agency;
- 2) delivers services in accordance with the model in which they are certified;
- 3) is enrolled with the State Medicaid Agency as a Medicaid provider; and
- 4) has been determined to meet all requirements of the State Medicaid Agency.

An individual case manager qualified to be a provider of the Targeted Case Management: At-Risk Children benefit:

- 1) is certified in an evidence-based home visiting model approved by the State Medicaid Agency;
- 2) deliver services in accordance with the model in which they are certified;
- 3) is employed by a qualified agency as identified above; and
- 4) has been determined to meet all requirements of the State Medicaid Agency.

An evidenced-based home visiting model is an intervention in which trained home visitors meet with parents or families with young children to deliver a specified set of services through a specified set of interactions. These are voluntary interventions that are either designed or adapted and tested for delivery in the home. During the visits, home visitors aim to build strong, positive relationships with families to improve child and family outcomes. Services may be delivered on a schedule that is defined or can be tailored to meet family needs. A model has a set of standards that describe how the model is to be implemented. The model elements include one (1) or more of eight (8) outcome domains: child development and school readiness; child health; family economic self-sufficiency; linkages and referrals; maternal health; positive parenting practices; reductions in child maltreatment; and reductions in juvenile delinquency, family violence, and crime.

Freedom of choice (42 C.F.R. § 441.18(a)(1)):

The State Medicaid Agency assures that the provision of case management services will not restrict an individual's free choice of providers in violation of section 1902(a)(23) of the Act.

1. Eligible individuals will have free choice of any qualified Medicaid provider within the specified geographic area identified in this plan.
2. Eligible individuals will have free choice of any qualified Medicaid providers of other medical care under the plan. Access to Services (42 C.F.R. § 441.18(a)(2), 42 C.F.R. § 441.18(a)(3), 42 C.F.R. § 441.18(a)(6)):

The State Medicaid Agency assures that:

- Case management services will be provided in a manner consistent with the best interests of recipients and will not be used to restrict an individual's access to other services under the plan;
- Individuals will not be compelled to receive case management services, condition receipt of case management services on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of case management services;
- Providers of case management services do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

Payment (42 C.F.R. § 441.18(a)(4)):

Payment for case management or targeted case management services under the plan does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

Alternative Benefit Plan

Case Records (42 C.F.R. § 441.18(a)(7)):

The State Medicaid Agency assures that providers maintain case records that document the following for all individuals receiving case management (42 C.F.R. § 441.18(a)(7)):

- The name of the individual
- The dates of the case management services.
- The name of the provider agency and the person providing the case management services.
- The nature, content, and units of the case management services received, and whether goals specified in the care plan have been achieved.
- Whether the individual has declined services in the care plan.
- The need for, and occurrences of, coordination with other case managers.
- A timeline for obtaining needed services.
- A timeline for reevaluation of the plan.

Limitations:

Case management does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in 42 C.F.R. § 440.169 when the case management activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual (SMM) § 4302.F).

Case management does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in 42 C.F.R. § 440.169 when the case management activities constitute the direct delivery of underlying medical, educational, social, or other services to which an eligible individual has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; and making placement arrangements. (42 C.F.R. § 441.18(c))

FFP is only available for case management services or targeted case management services if there are no other third parties liable to pay for such services, including as reimbursement under a medical, social, educational, or other program, except for case management that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c))
