PROVIDER QUALIFICATIONS – PERSONAL ASSISTANCE SERVICES

Nebraska Medicaid covers personal assistance services providers who meet requirements that include being age 19 or older; being capable of recognizing signs of distress in client and knowing how to access available emergency resources if a crisis situation occurs; understanding and accepting responsibility for the client's safety and property; and having the knowledge, experience, and/or skills necessary to perform the task(s).

Personal Assistance Services will be provided in accordance with, and meet the requirements of 42 CFR 440.167.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

When services which are reimbursed per a fee schedule, except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers. Except for Clinical Laboratory services and Injectable Drugs, the agency's rates were set as of July 1, 2023, and are effective for services on or after that date. All rates are published at: http://dhhs.ne.gov/Pages/Medicaid-Provider-Rates-and-Fee-Schedules.aspx. From the landing page, scroll down to the fee schedule for the specific program.

The fee schedule amounts for Injectables are based on 100% Medicare Drug fee schedule. The Department shall update the Injectables Fee Schedule using the most current calendar update as published by the Centers for Medicare and Medicaid Services. Injectable medications approved by the Medicaid Medical Director but not included on the Medicare Drug Fee Schedule will be reimbursed at the estimated acquisition cost (EAC) used to reimburse pharmacy claims.
The agency's fee schedule rate was set as of July 1, 2023 and is effective for services provided on or after that date.
Payment methods for each service are defined in Attachment 4.19-B, Methods and Standards for Establishing Payment Rates, as referenced below.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Nebraska
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

Payment for Outpatient Hospital and Emergency Room Services: For services provided on or after July 1, 2023, the Department pays for outpatient hospital and emergency services with a rate which is the product of:

1. Ninety percent (93%) of the cost-to-charges ratio from the hospital's latest Medicare cost report (Form CMS-2552-89, Pub. 15-II, Worksheet C); multiplied by
2. The hospital's submitted charges on Form CMS-1450 (UB-04).

The effective date of the cost-to-charges percentage is the first day of the month following the Department's receipt of the cost report.

Providers shall bill outpatient hospital and emergency room services on Form CMS-1450 (UB-04) in a summary bill format. Providers shall not exceed their usual and customary charges to non-Medicaid patients when billing the Department.

Exception: All outpatient clinical laboratory services must be itemized and identified with the appropriate HCPCS procedure codes. The Department pays for clinical laboratory services based on the fee schedule determined by Medicare.

Payment for Outpatient Hospital and Emergency Room Services Provided by Critical Access Hospitals: Effective for cost reporting periods beginning after July 1, 2016, payment for outpatient services of a CAH is one hundred percent (100%) of the reasonable cost of providing the services, as determined under applicable Medicare principles of reimbursement, except that the following principles do not apply: the lesser of costs or charges (LCC) rule and the reasonable compensation equivalent (RCE) limits for physician services to providers. Nebraska Medicaid will adjust interim payments to reflect elimination of any fee schedule methods for specific services, such as laboratory services, that were previously paid for under those methods. Payment for these and other outpatient services will be made at one hundred percent (100%) of the reasonable cost of providing the services. Professional services must be billed by the physician or practitioner using the appropriate physician/practitioner provider number, not the facility's provider number. To avoid any interruption of payment, Nebraska Medicaid will retain and continue to bill under existing provider numbers until new CAH numbers are assigned.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Nebraska
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

Payment to Hospital-Affiliated Ambulatory Surgical Centers: The Department pays for services provided in an HAASC according to Payment for Outpatient Hospital and Emergency Room Services, unless the HAASC is a Medicare-participating ambulatory surgical center (ASC). If the HAASC is a Medicare-participating ASC, payment is made at the rate established by Medicaid for the appropriate group of procedures.

Approval of Payment for Emergency Room Services: At least one of the following conditions must be met before the Department approves payment for use of an emergency room:

1. The patient is evaluated or treated for a medical emergency, accident, or injury;
2. The patient's evaluation or treatment in the emergency room results in an approved inpatient hospital admission (the emergency room charges must be displayed on the inpatient claim as charges and included in the inpatient per diem); or
3. The patient is referred by a physician or licensed nurse practitioner such as for allergy shots or when traveling (a written referral by the physician or licensed nurse practitioner must be attached to the claim).

The facility should review emergency room services and determine whether services provided in the emergency room constitute an emergency and bill accordingly.
When the facility or the Department determine services are non-emergent, the room fee for non-emergent services provided in an emergency room will be disallowed to 50 percent of the applicable ratio of cost-to-charges. All other Medicaid allowable charges incurred in this type visit will be paid at ninety-three percent (93%) of the ratio of cost-to-charges.

Diagnostic and Therapeutic Services: The payment rate for diagnostic and therapeutic services includes payment for services required to provide the service. Extra charges, such as stat fees, call-back fees, specimen handling fees, etc., are considered administrative expenses and are included in the payment rate.

Payment to a New Hospital for Outpatient Services: Payment to a new hospital (an operational facility) will be made at the statewide average ratio of cost to charges for Nebraska hospitals as of July 1 of that year as determined by the Department. This payment is retrospective for the first reporting period for the facility. This ratio will be used until the Department receives the hospital's initial cost report. The Department shall cost-settle claims for Medicaid-covered services which are paid by the Department using the statewide average ratio of cost to charges. The cost settlement will be the lower of cost or charges as reflected on the hospital's cost report (i.e., the Department's payment must not exceed the upper limit of the provider's charges for services).

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Nebraska

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

Upon the Department's receipt of the hospital's initial Medicare cost report, the Department shall no longer consider the hospital to be a "new hospital" for payment of outpatient services. The Department shall determine the ratio of cost to charges from the initial cost report and shall use that ratio to prospectively pay for outpatient services.

Payment to An Out-of-State Hospital for Outpatient Services: Payment to an out-of-state hospital for outpatient services will be made based on the statewide average ratio of cost to charges times ninety-three percent (93%) for all Nebraska hospitals for that fiscal year as of July 1 of that year.

Payment for Telehealth Services: Payment for telehealth services is set at the Medicaid rate for the comparable in-person service.

Payment for Telehealth Transmission Costs: Payment for telehealth transmission costs is set at the lower of: (1) the provider's submitted charge; or (2) the maximum allowable amount.

The Department reimburses transmission costs for the line charges when directly related to a covered telehealth service. The transmission must be in compliance with the quality standards for real time, two-way interactive audio-visual transmission as set forth in state regulations, as amended.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

OUTPATIENT HOSPITAL SERVICES

Nebraska Medicaid pays for covered psychiatric partial hospitalization services at the lower of:

1. The provider's submitted charge; or
2. The allowable amount for that procedure code in the Nebraska Medicaid Mental Health and Substance Use Fee Schedule in effect for that date of service. The allowable amount is indicated in the fee schedule as:
   a. The unit value multiplied by the conversion factor;
   b. The invoice cost (indicated as "IC" in the fee schedule);
   c. The maximum allowable dollar amount; or
   d. The reasonable charge for the procedure as determined by the Medicaid Division (indicated as "BR" - by report or "RNE" - rate not established - in the fee schedule). When a code is without a modifier and is notated as BR/RNE, the code is manually priced to mirror the current year Medicare rate. In the absence of the Medicare rate, the rate is determined as the average of available rates from other states.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of psychiatric partial hospitalization services. The agency's fee schedule rate was set as of July 1, 2023 and is effective for psychiatric partial hospitalization services provided on or after that date. All rates are published on the agency's website at http://dhhs.ne.gov/Pages/Medicaid-Provider-Rates-and-Fee-Schedules.aspx. From the landing page, scroll down to the fee schedule for the specific program and year.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Nebraska
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

Payment for Telehealth Services: Payment for the professional service performed by the distant site practitioner (i.e., where the expert physician or practitioner is physically located at time of telehealth encounter) will be equal to what would have been paid without the use of telehealth. If a core service is provided via telehealth and the center/clinic is the distant site, the FQHC will be reimbursed at the PPS or the APM encounter rate (whichever was chosen at the time of the service). Non FQHC services provided via telehealth would not be eligible for PPS/APM payment. Non-FQHC services will be paid according to the Nebraska Medicaid Physician and Mental Health and Substance Use Fee Schedule, as authorized elsewhere in the plan.

Payment for Telehealth Transmission Costs: Payment for telehealth transmission is set at the lower of: (1) the provider's submitted charge; or (2) the maximum allowable amount.

The Department reimburses transmission costs for line charges when directly related to a covered telehealth service. The provider must be in compliance with the standards for real time, two way interactive audiovisual transmission as set forth in state regulations, as amended.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of Telehealth services. Telehealth transmission cost and originating site fee are found on the Physician and Mental Health and Substance Use Fee Schedules, as authorized elsewhere in the plan.

The agency's fee schedule rate was set as of July 1, 2023 and is effective for telehealth transmission cost and originating site services provided on or after that date. State Nebraska

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

FREESTANDING BIRTH CENTER SERVICES

Nebraska Medicaid providers of birthing center services are reimbursed based on a fee schedule as follows:

a. Payment for birthing center services provided by a participating, licensed birthing center is limited to the allowable rates established by Nebraska Medicaid.
b. The fee schedule established by Nebraska Medicaid is based upon a review of Medicaid fees paid by other states;
c. The birthing center and the birth attendant must bill separately for the services provided by each. The birthing center may bill only for facility services outlined elsewhere in this state plan.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of freestanding birthing center services.
