Other (Third Party Recovery)	NO	YES	YES	N/A	N/A	NO	YES	Data source matching occurs to identify individuals that haven't self-identified. Paper documentation is only required when an individual indicates that they've been injured.

\* States must check electronic data sources determined useful to verify income in accordance with 42 CFR 435.948 but can be done post-enrollment.

If the information obtained from electronic data sources and the information provided by or on behalf of the individual are both above, at or below the applicable income standard, the State must determine the applicant eligible or ineligible for Medicaid/CHIP. (NOTE: this option is prepopulated for the state and is not an option that can be changed).

\*\* States must follow statute, regulations, and guidance for verification of SSN, citizenship and immigration status including obtaining such information through the federal data services hub if available.

\*\*\* States must accept self-attestation of pregnancy unless they have information that is not reasonably compatible with such attestation.

Section D. Additional Verification Questions

	Question	Response
1	If paper documentation is required when a data source is not available or the information obtained from a data source is not reasonably compatible with the information provided by or on behalf of the individual, briefly describe how the state determined that establishing and using an electronic data source was not effective, considering such factors as cost and program integrity in accordance with 42 CFR 435.952(c):	<p>The state is accepting self-attestation without additional verification for some factors of eligibility. For those that it doesn't, the state utilizes all available data sources, including back up sources for citizenship. We only request paper documentation when electronic data is not available or is inconsistent with the attestation and does not meet the reasonable compatibility standard when relevant. We believe this strikes the appropriate balance of ensuring program integrity while promoting a streamlined process that minimizes the use of paper verifications.</p> <p>HIV Status and Breast and Cervical Cancer Treatment Program Eligibility: There are no reliable electronic data sources for medical diagnosis. Therefore MA will require paper verification post eligibility for individuals whose eligibility for the state's 1115 Demonstration programs, HIV-Family Assistance and Breast and Cervical Cancer Treatment Program, depends in part on these factors.</p>
2	Please describe how the state uses PARIS?	Massachusetts uses PARIS to compare eligibility with other state Medicaid programs.
3	Please indicate (YES) or (NO) if the State intends to request Secretarial approval to solely use alternative data sources for financial verification other than those listed in 42 CFR 435.948 (Numbers 1-8 in Section B-1).	NO

4	<p>Please indicate (YES) or (NO) if the State intends to request Secretarial approval to use a mechanism other than the federal data services hub for information that is available through the hub.</p>	NO
	<p>If (YES), please submit a letter to CMS requesting such approval describing how the the state meets the following requirements:</p> <ol style="list-style-type: none"> <li>1) Reduces administrative costs and burdens on both individuals and the State,</li> <li>2) Maximizes accuracy and minimizes delay,</li> <li>3) Meets the requirements related to confidentiality, disclosure, maintenance and use of information, and</li> <li>4) Promotes coordination with other insurance affordability programs.</li> </ol>	
5	<p>Describe any additional MAGI-based eligibility verification policies and procedures that have not been covered in this verification plan (optional):</p>	

Section A. Additional Comments

If data matches fail, are not reasonably compatible, or are not available, then Massachusetts will require post-enrollment paper verifications within 90 days. An individual may only receive benefits during a post-enrollment verification period once per year, except if the individual has a change in circumstance resulting in a change of eligibility from QHP to Medicaid/CHIP, or if the individual becomes pregnant.

This process was authorized through MassHealth's 1115 waiver on October 1 2013.

Additional Other Categories:

HIV+ Status (applies to ACA expansion adult group for richer benefit and to applicable 1115 waiver program for HIV+ individuals) - NO to self-attestation accepted without additional verification, YES to self-attestation accepted with post-enrollment verification, NO to electronic data sources used, NO to ask for explanation from the individual, YES to paper documentation required from the individual.

Breast or Cervical Cancer Certification Status (applies to ACA expansion adult group for richer benefit and to 1115 waiver BCCTP Program for those with income between 133 and 250% FPL) - NO to self-attestation accepted without additional verification, YES to self-attestation accepted with post-enrollment verification, NO to electronic data sources used, NO to ask for explanation from the individual, YES to paper documentation required from the individual.

As authorized under Section 1902(e)(14)(A) of the Act, MA received approval from CMS on March 31, 2014 to extend the Provisional Eligibility period for applicants with verification inconsistencies (for eligibility factors noted in Section A) an additional 90 days. This authority applies to provisional coverage for individuals who apply for coverage by June 30, 2014.

Section B2. Additional Comments

Section C. Additional Comments

Medicaid and CHIP are part of one program called MassHealth. With regards to waiting periods and the associated exceptions, MA plans to file a state plan amendment to eliminate waiting periods for CHIP (consistent with CMS final eligibility rule released in July). MA intends to submit SPA before end of 2013.
