Medicaid Section 1115 Substance Use Disorder & Serious Mental Illness and Serious Emotional Disturbance Demonstrations Monitoring Report Template

Note: PRA Disclosure Statement to be added here

1. Title page for the state's substance use disorder (SUD) and serious mental illness and serious emotional disturbance (SMI/SED) demonstrations or the SUD and SMI/SED components of the broader demonstration

This section collects information on the approval features of the state's section 1115 demonstration overall, followed by information for the SUD and SMI/SED components. The state completed this title page as part of its SUD and SMI/SED monitoring protocol(s). The state should complete this table using the corresponding information from its CMS-approved monitoring protocol(s) and submit this as the title page of all monitoring reports. The content of this table should stay consistent over time. Definitions for certain rows are below the table.

	Overall section 1115 demonstration
State	District of Columbia
Demonstration name	Behavioral Health Transformation
Approval period for section 1115 demonstration	01/01/2020 - 12/31/2024
Reporting period	04/01/2023 - 06/30/2023
	SUD demonstration
SUD component start date ^a	01/01/2020
Implementation date of SUD component, if different from SUD component start date ^b	
SUD-related demonstration goals and objectives	The goal of the demonstration is for the District to maintain and enhance access to opioid use disorder (OUD) and other substance use disorder (SUD) services; and continue delivery system improvements to provide more coordinated and comprehensive treatment for Medicaid beneficiaries with SUD. This demonstration authorizes the District to receive federal financial participation (FFP) for delivering high-quality, clinically appropriate treatment to beneficiaries diagnosed with SUD and receiving treatment while they are short-term residents in settings that qualify as Institutions for Mental Diseases (IMDs). This demonstration also complements the District's efforts to implement models of care that are focused on increasing supports for individuals outside of institutions, in home and community-based settings (HCBS), to improve their access to SUD services at varied levels of intensity, and to combat OUD and other SUDs among District residents.
SUD demonstration year and quarter	SUD DY4Q2

	SMI/SED demonstration
SMI/SED component demonstration start date ^a	01/01/2020
Implementation date of SMI/SED component, if different from SMI/SED component start date ^b	
SMI/SED-related demonstration goals and objectives	The goal of this demonstration is for the District to maintain and enhance access to mental health services and continue delivery system improvements to provide more coordinated and comprehensive treatment for Medicaid beneficiaries with serious mental illness (SMI) and serious emotional disturbance (SED). This demonstration authorizes the District to receive federal financial participation (FFP) for delivering high-quality, clinically appropriate treatment to beneficiaries diagnosed with SMI and receiving treatment while they are short-term residents in settings that qualify as Institutions for Mental Diseases (IMD). This demonstration also complements the District's efforts to implement models of care that are focused on increasing supports for individuals outside of institutions, in home and community-based settings (HCBS) to improve their access to SMI/SED services at varied levels of intensity.
SMI/SED demonstration year and quarter	SMI/SED DY4Q2

^a **SUD and SMI/SED demonstration components start dates:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state's STCs at time of SUD and SMI/SED demonstration component approvals. For example, if the state's STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD or SMI/SED demonstration component. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

^b **Implementation date of SUD and SMI/SED demonstration components:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

2. Executive summary

There were some significant changes in the SUD and SMI/SED metrics, as detailed below.

The end of the federal Medicaid continuous coverage requirement and the federal COVID-19 public health emergency during the period of this monitoring report mark the beginning of a significant shift in the broader Medicaid environment and the District will be monitoring effects on this demonstration.

3. Narrative information on implementation, by milestone and reporting topic

A. SUD component

Promp	t	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
1.	Assessment of need and qualification for SUD se	ervices		
1.1	Metric trends			
1.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to assessment of need and qualification for SUD services.		#2 Medicaid Beneficiaries with Newly Initiated SUD Treatment/ Diagnosis	There was a 15% increase in the number of beneficiaries with newly initiated SUD treatment/diagnosis between DY3 Q4 ($10/1/22-12/31/22$) and DY4 Q1 ($1/1/23-3/31/23$). We attribute the increase this quarter to the design of the measure.
1.2	Implementation update			
1.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 1.2.1.a The target population(s) of the demonstration	X		
	1.2.1.b The clinical criteria (e.g., SUD diagnoses) that qualify a beneficiary for the demonstration	Х		
1.2.2	The state expects to make other program changes that may affect metrics related to assessment of need and qualification for SUD services.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
2.	Access to Critical Levels of Care for OUD and	other SUDs (Miles	stone 1)	
2.1	Metric trends		1	
2.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 1.		 #6 Any SUD Treatment #7 Early Intervention #8 Outpatient Services #9 Intensive Outpatient and Partial Hospitalization Services 	 DHCF calculates the following changes that were less or more than 2% between DY3 Q4 (10/1/22-12/31/22) and DY4 Q1 (1/1/23-3/31/23). We partially attribute the changes below to lagged billing by SUD providers. DHCF re-ran the prior quarter's data to compare to the current quarter and found that some of the utilization increases disappear. Some metrics continue to show an increase (though smaller), and we attribute this to a rebound in utilization after multiple quarters of decline. Any SUD treatment increased by 4%. Outpatient services increased by 11%. Residential and inpatient services
	Implementation update		 #10 Residential and Inpatient Services #22 Continuity of Pharmacotherapy for Opioid Use Disorder 	 increased by 3%. There was a 100% increase in the number of beneficiaries receiving early intervention services and a 43% decrease in the number of beneficiaries receiving intensive outpatient and partial hospitalization services. We attribute these changes to small numbers. DHCF calculates a 31% decline in the continuity of pharmacotherapy for opioid use disorder between CY21 and CY22. We attribute this change to a delay in Methadone billing among SUD providers.

Promp	ot		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
2.2.1	operation	d to the demonstration design and nal details, the state expects to make the g changes to: Planned activities to improve access to SUD treatment services across the continuum of care for Medicaid beneficiaries (e.g., outpatient services, intensive outpatient services, medication-assisted treatment, services in intensive residential and inpatient settings, medically supervised withdrawal management)	Х		
	2.2.1.b	SUD benefit coverage under the Medicaid state plan or the Expenditure Authority, particularly for residential treatment, medically supervised withdrawal management, and medication-assisted treatment services provided to individual IMDs	Х		
2.2.2		expects to make other program changes affect metrics related to Milestone 1.	Х		

Promp		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
3.	Use of Evidence-based, SUD-specific Patient Pla	cement Criteria ((Milestone 2)	
3.1	Metric trends			
3.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 2.	Х		
3.2	Implementation update			
3.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 3.2.1.a Planned activities to improve providers' use of evidence-based,	Х		
	SUD-specific placement criteria3.2.1.bImplementation of a utilization management approach to ensure (a) beneficiaries have access to SUD services at the appropriate level of care, (b) interventions are appropriate for the diagnosis and level of care, or (c) use of independent process for reviewing placement in residential treatment settings	X		
3.2.2	The state expects to make other program changes that may affect metrics related to Milestone 2.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
4.	Use of Nationally Recognized SUD-specific Prog (Milestone 3)	ram Standards to	o Set Provider Quali	fications for Residential Treatment Facilities
4.1	Metric trends			
4.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 3.	Х		
Milesto reporti	There are no CMS-provided metrics related to one 3. If the state did not identify any metrics for ng this milestone, the state should indicate it has no to report.			
4.2	Implementation update			
4.2.1	 Compared to the demonstration design and operational details, the state expects to make the following changes to: 4.2.1.a Implementation of residential treatment provider qualifications that meet the ASAM Criteria or other nationally recognized, SUD-specific program standards 	X		
	4.2.1.b Review process for residential treatment providers' compliance with qualifications.	Х		
	4.2.1.c Availability of medication-assisted treatment at residential treatment facilities, either on-site or through facilitated access to services off site	Х		
4.2.2	The state expects to make other program changes that may affect metrics related to Milestone 3.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
5.	Sufficient Provider Capacity at Critical Levels o	f Care including	for Medication Assis	sted Treatment for OUD (Milestone 4)
5.1	Metric trends			
5.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 4.	Х		
5.2	Implementation update			
5.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: Planned activities to assess the availability of providers enrolled in Medicaid and accepting new patients across the continuum of SUD care.	X		
5.2.2	The state expects to make other program changes that may affect metrics related to Milestone 4.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
6.	Implementation of Comprehensive Treatment a	nd Prevention St	rategies to Address	Opioid Abuse and OUD (Milestone 5)
6.1	Metric trends			
6.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 5.		#18 Use of Opioids at High Dosage in Persons Without Cancer (OHD-AD)	DHCF calculates a 33% increase in the use of opioids at high dosage in persons without cancer between CY21 and CY22. We attribute this change to small numbers as the percentage point increase was only 1.5 percentage points, from 4.5% to 6%. There are various processes in place for MCOs and DHCF to monitor opioid usage.
6.2	Implementation update		·	
6.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 6.2.1.a Implementation of opioid prescribing guidelines and other interventions related to prevention of OUD	X		
	6.2.1.b Expansion of coverage for and access to naloxone	Х		
6.2.2	The state expects to make other program changes that may affect metrics related to Milestone 5.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response	
7.	7. Improved Care Coordination and Transitions between Levels of Care (Milestone 6)

9.	Other SUD-related metrics			
9.1	Metric trends			
9.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SUD-related metrics.		#23 Emergency Department Utilization for SUD per 1,000 Medicaid Beneficiaries #24 Inpatient Stays for SUD per 1,000 Medicaid Beneficiaries	 DHCF calculates the following changes that were less or more than 2% between DY3 Q4 (10/1/22-12/31/22) and DY4 Q1 (1/1/23-3/31/23). There was a 14% increase in the rate of ED utilization for SUD per 1,000 beneficiaries. There was a 4% increase in the rate of inpatient stays for SUD per 1,000 beneficiaries. We partially attribute the changes above to lagged billing by SUD providers. DHCF re-ran the prior quarter's data to compare to the current quarter and found that some of the utilization increases, including the rate of inpatient stays, disappear. Some metrics continue to show an increase (though smaller), and we attribute this to a rebound in utilization after multiple quarters of decline.

2.	2. Improving Care Coordination and Transitions to Community-Based Care (Milestone 2)					
2.1	Metric trends					

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
2.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 2.		 #4 30-Day All- Cause Unplanned Readmission Following Psychiatric Hospitalization in an Inpatient Psychiatric Facility (IPF) #7 Follow-up After Hospitalization for Mental Illness: Ages 6-17 (FUH- CH) #8 Follow-up After Hospitalization for Mental Illness: Ages 18 and Older (FUH-AD) #9 Follow-up After Emergency Department Visit for Alcohol and Other Drug Abuse (FUA-AD) 	 DHCF calculated a 7% increase in 30-Day All-Cause Unplanned Readmission Following Psychiatric Hospitalization in an Inpatient Psychiatric Facility between CY 21 and CY 22. DHCF attributes this change to small numbers, as there was only a 1 percentage point increase between the years. As noted in the accompanying data workbook, DHCF applied the FFY2023 CMS Core Set specifications for reporting of Core Set metrics included in the waiver monitoring. Given the many changes to the specifications for SMI metrics #7, #8, and #9 we no longer believed tha it was appropriate to compare data submitted to CMS last year to this year. Instead, we re-ran CY21 data on the FFY2023 CMS Core Set Specifications to analyze the change. The only change greater than 2% between CY21 and CY22 appeared in SMI #7. The percentage of discharges for which the child received a follow-up visit with a mental health practitioner within 7 days after discharge decreased by 4%.

7.1.1	Describe and explain any changes in the mental health service needs of Medicaid beneficiaries with SMI/SED compared to those described in the Initial Assessment of the Availability of Mental Health Services (for example, prevalence and distribution of SMI/SED). Recommended word count is 500 words or less.	Х		
7.1.2	Describe and explain any changes to the organization of the state's Medicaid behavioral health service delivery system compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.3	Describe and explain any changes in the availability of mental health services for Medicaid beneficiaries with SMI/SED in the state compared to those described in the Initial Assessment of the Availability of Mental Health Services. At minimum, explain any changes across the state in the availability of the following services: inpatient mental health services; outpatient and community-based services; crisis behavioral health services; and care coordination and care transition planning. Recommended word count is 500 words or less.	Х		
7.1.4	Describe and explain any changes in gaps the state identified in the availability of mental health services or service capacity while completing the Annual Availability Assessment compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.	Х		
7.1.5	Describe and explain whether any changes in the availability of mental health services have impacted the state's maintenance of effort (MOE) on funding outpatient community-based mental health services. Recommended word count is 500 words or less.	Х		

Prom	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.2	Implementation update			
7.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 7.2.1.a The state's strategy to conduct annual assessments of the availability of mental health services across the state and updates on steps taken to increase availability	Х		
	7.2.1.b Strategies to improve state tracking of availability of inpatient and crisis stabilization beds	Х		

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
8.	Maintenance of effort (MOE) on funding outpat	ient community-l	based mental health	services
8.1	MOE dollar amount			
8.1.1	Provide as a dollar amount the level of state appropriations and local funding for outpatient community-based mental health services for the most recently completed state fiscal year.	Х		
8.2	Narrative information			
8.2.1	Describe and explain any reductions in the MOE dollar amount below the amount provided in the state's application materials. The state should confirm that it did not move resources to increase access to treatment in inpatient or residential settings at the expense of community-based services.	X		

Prom	pt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
9.	SMI/SED financing plan			
9.1	Implementation update			
9.1.1	 Compared to the demonstration design and operational details, the state expects to make the following changes to: 9.1.1.a Increase availability of non-hospital, non-residential crisis stabilization services, including services made available through crisis call centers, mobile crisis units, and observation/assessment centers, with a coordinated community crisis response that involves law enforcement and other first responders 	х		
	9.1.1.b Increase availability of on-going community-based services, e.g., outpatient, community mental health centers, partial hospitalization/day treatment, assertive community treatment, and services in integrated care settings such as the Certified Community Behavioral Health Clinic model	X		

Promp	ts	State has no update to report (place an X)	State response
10.	Budget neutrality		
10.1	Current status and analysis		
10.1.1	Describe the current status of budget neutrality and an analysis of the budget neutrality to date. If the SUD and SMI/SED components are part of a broader demonstration, the state should provide an analysis of the SUD- and SMI/SED-related budget neutrality and an analysis of budget neutrality as a whole.		The DY4Q2 submission is not budget neutral. The District previously communicated to CMS that due to the COVID-19 pandemic and other programmatic changes the per member, per month (PMPM) estimates based on historic data are no longer accurate. Additionally, the large increase in the non-IMD services blended MEG PMPM is the result of incorporating guidance from CMS to exclude more than 50,000 member months representative of \$1 copays from MAT services, which were accounted for in the initial PMPM threshold calculation. The District plans to submit a technical amendment request to address these issues in quarter 4 of FY23.
10.2	Implementation update		
10.2.1	The state expects to make other program changes that may affect budget neutrality.		The District plans to implement changes to the methodologies used to calculate rates for some waiver services in FY24 (Q4 of WY4). Many of these services will also be carved into our managed care contracts. These changes will likely result in rate increases and/or significant shifts from the underlying assumptions used to calculate the current PMPM thresholds. DHCF is in the midst of finetuning these anticipated programmatic changes and is unable to calculate impact at this time.

4. Narrative information on other reporting topics applicable to both SUD and SMI/SED components

Promp	ts	State has no update to report (place an X)	State response
11.	SUD- and SMI/SED-related demonstration operati		
11.1	Considerations	V	
11.1.1	The state should highlight significant SUD and SMI/SED (or if broader demonstration, then SUD- and SMI/SED-related) demonstration components' operations or policy considerations that could positively or negatively affect beneficiary enrollment, access to services, timely provision of services, budget neutrality, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the SUD and SMI/SED demonstration components approved goals or objectives, if not already reported elsewhere in this document. See Monitoring Report Instructions for more detail.		The federal Medicaid continuous coverage requirement ended on March 31, 2023, meaning the District resumed Medicaid eligibility redetermination processes on April 1, 2023. The resumption of Medicaid redeterminations will broadly impact beneficiary enrollment. In addition, the federal COVID-19 public health emergency ended on May 11, 2023, meaning some program flexibilities implemented during the public health emergency also ended. DHCF published an operational plan detailing the impact of these two federal changes.
11.2	Implementation update		
11.2.1	The state experienced challenges in partnering with entities contracted to help implement the demonstration (e.g., health plans, credentialing vendors, private sector providers) and/or noted any performance issues with contracted entities.	Х	
11.2.2	The state is working on other initiatives related to SUD, OUD and/or SMI/SED.		In August 2022, the District received a third State Opioid Response (SOR) grant.

Prompts		State has no update to report (place an X)	State response
S ()	The initiatives described above are related to the SUD and/or SMI/SED demonstration components. The state should note similarities and differences from the SUD and SMI/SED demonstration components).		 The SOR 3 grant complements the 1115 SUD demonstration. The funding allows the District to support behavioral health transformation in several ways: Increase entry points into the system of care (e.g., stabilization and sobering center, satellite Opioid Treatment Programs) Improve the coordination of care for individuals as they move through the system by expanding care management initiatives in the community and at the DC Jail Provide training, technical assistance, coaching, and consultation to SUD providers/health care professionals to increase their ability to address an individual's whole-person needs Implement a coordinated approach at the community level by facilitating key stakeholders in each ward to work collaboratively around harm reduction, prevention, community outreach and education initiatives, and sustainability planning
0	Compared to the demonstration design and operational details, the state expects to make the following changes to:		
1	11.2.4.a How the delivery system operates under the demonstration (e.g., through the managed care system or fee for service)	Х	
1	11.2.4.b Delivery models affecting demonstration participants (e.g., Accountable Care Organizations, Patient Centered Medical Homes)	Х	
1	11.2.4.c Partners involved in service delivery	Х

	<i>SMI/SED-specific:</i> The state Medicaid agency's Memorandum of Understanding (MOU) or other agreement with its mental health services agency	Х	

Promp	ts	State has no update to report (place an X)	State response
12.	2. SUD and SMI/SED demonstration evaluation update		
12.1	Narrative information		
12.1.1	Provide updates on SUD and SMI/SED evaluation work and timeline. The appropriate content will depend on when this monitoring report is due to CMS and the timing for the demonstration. There are specific requirements per 42 Code of Federal Regulations (CFR) § 431.428a(10) for annual reports. See Monitoring Report Instructions for more details.		 In accordance with the District's approved evaluation design: AIR addressed DHCF feedback and questions on the draft interim evaluation report and worked on revisions to the draft interim evaluation report. AIR delivered the first draft of the final interim evaluation report.
12.1.2	Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.	Х	
12.1.3	List anticipated evaluation-related deliverables related to this demonstration and their due dates.	Х	

D	4a	State has no update to report	
Promp 13.	Other demonstration reporting	(place an X)	State response
13.1	General reporting requirements		
13.1.1	The state report ing requirements The state reports changes in its implementation of the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring protocol.	X	
13.1.2	The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.	X	
13.1.3	Compared to the demonstration design and operational details, the state expects to make the following changes to:		
	13.1.3.a The schedule for completing and submitting monitoring reports	Х	
	13.1.3.b The content or completeness of submitted monitoring reports and/or future monitoring reports	Х	
13.1.4	The state identified current or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.	Х	
13.1.5	Provide updates on the results of beneficiary satisfaction surveys, if conducted during the reporting year, including updates on grievances and appeals from beneficiaries, per 42 CFR § 431.428(a)5.	X	

Prompts		State has no update to report (place an X)	State response
13.2	Post-award public forum		
13.2.2	If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held pursuant to 42 CFR § 431.420(c) indicating any resulting action items or issues. A summary of the post-award public forum must be included here for the period during which the forum was held and in the annual monitoring report.	X	

Prompts		State has no update to report (place an X)	State response
14.	Notable state achievements and/or innovations		
14.1	Narrative information		
14.1.1	Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies pursuant to the hypotheses of the SUD and SMI/SED (or if broader demonstration, then SUD- or SMI/SED-related) demonstration components or that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms (e.g., number of impacted beneficiaries).	X	

*The state should remove all example text from the table prior to submission.

Note: Licensee and states must prominently display the following notice on any display of Measure rates:

SUD measures IET-AD, FUA-AD, FUM-AD, and AAP [Metrics #15, 17(1), 17(2), and 32] and SMI/SED measures MPT, FUH-CH, FUH-AD, FUA-AD, FUM-AD, AAP, and APM measures (#13, 14, 15, 16, 17, 18, 7, 8, 9, 10, 26, 29) are Healthcare Effectiveness Data and Information Set (HEDIS®) measures that are owned and copyrighted by the National Committee for Quality Assurance (NCQA). HEDIS measures and specifications are not clinical guidelines, do not establish a standard of medical care and have not been tested for all potential applications. The measures and specifications are provided "as is" without warranty of any kind. NCQA makes no representations, warranties or endorsements about the quality of any product, test or protocol identified as numerator compliant or otherwise identified as meeting the requirements of a HEDIS measure or specification. NCQA makes no representations, warranties, or endorsement about the quality of any organization or clinician who uses or reports performance measures and NCQA has no liability to anyone who relies on HEDIS measures or specifications or data reflective of performance under such measures and specifications.

The measure specification methodology used by CMS is different from NCQA's methodology. NCQA has not validated the adjusted measure specifications but has granted CMS permission to adjust. A calculated measure result (a "rate") from a HEDIS measure that has not been certified via NCQA's Measure Certification Program, and is based on adjusted HEDIS specifications, may not be called a "HEDIS rate" until it is audited and designated reportable by an NCQA-Certified HEDIS Compliance Auditor. Until such time, such measure rates shall be designated or referred to as "Adjusted, Uncertified, Unaudited HEDIS rates."
