Baltimore, Maryland 21244-1850

June 30, 2022

Jennifer Strohecker
Director
Utah Division of Medicaid and Health Financing
Department of Health
PO Box 143101
Salt Lake City, UT 84101

Dear Ms. Strohecker:

The Centers for Medicare & Medicaid Services (CMS) is approving Utah's request for a five-year extension of the demonstration now entitled "Medicaid Reform 1115 Demonstration" (Project Nos. 11-W-00145/8 and 21-W-00054/8), formerly known as the "Primary Care Network" demonstration, in accordance with section 1115(a) of the Social Security Act (the Act). This approval is effective from July 1, 2022 through June 30, 2027. CMS's approval is subject to the limitations specified in the attached expenditure authorities and Special Terms and Conditions (STCs). The state may deviate from Medicaid state plan requirements only to the extent those requirements have been listed as not applicable to expenditures under the demonstration.

CMS is approving the extension with the following changes, detailed below: (1) sunseting the authority for "Current Eligibles" Medicaid eligibility group on December 31, 2023, to allow the state up to 18 months to transition to providing the Current Eligibles with full state plan benefits; (2) eliminating, by December 31, 2023, the disparity between the benefits provided to childless adult beneficiaries in the Adult Expansion Population Medicaid eligibility group and adults with children in the same group; the state will have up to 18 months to take the necessary actions to align the benefit packages so that the entire Adult Expansion Population will have uniform, state plan benefits; and (3) removing authority for and language addressing Demonstration Population I since this eligibility group is empty and any individuals who would qualify for this group are covered in the Adult Expansion Population.

The following changes to the demonstration will be implemented upon the effective date of this extension approval.

Changing the Name

The state requested to change the name of the demonstration from “Primary Care Network” to the “Utah Medicaid Reform 1115 Demonstration.”

Sunsetting the Current Eligibles

Currently, the demonstration allows for slightly reduced benefits for beneficiaries who are ages 19-64, not blind or disabled, and who qualify as members of the parent/caretake relative (PCR), transitional medical assistance (TMA), or Medically Needy population, known as the “Current Eligibles.” The benefits for this population are slightly reduced below state plan benefits, including by not providing the 19 & 20-year olds with early and periodic screening, diagnosis, and treatment (EPSDT) services. The state received approval of this benefit design in 2002 to create savings to be used to fund Demonstration Population I (non-disabled individuals ages 19-64, otherwise not eligible for Medicaid, with incomes at or below 95 percent of the federal poverty level (FPL) (effectively 100 percent with the five percent income disregard)). However, the demonstration expenditure authority for Demonstration Population I expired on April 1, 2019, and the state has transitioned former beneficiaries of that demonstration population to the Adult Expansion Population or another population for which they are eligible. Accordingly, demonstration savings no longer are required to support expenditures for Demonstration Population I, making the reduced benefit design for the Current Eligibles population unnecessary. In order to provide a transition time for the state to handle system changes and beneficiary notifications, the extension approval will provide Utah through December 31, 2023 to move the Current Eligibles population fully into the state plan; the STCs will sunset this population after that date.

Sunsetting the Disparity of Benefits in the Adult Expansion Population

When Utah chose to amend this demonstration to cover the new adult population created by the Affordable Care Act, the state sought to align the benefits of all adults with children who receive Medicaid coverage, so *adults with children* who enrolled in the Adult Expansion Population have received the same reduced benefit package as parent/caretaker relatives who are enrolled in the Current Eligibles demonstration population. This population does not receive non-emergency medical transportation (NEMT), but does receive EPSDT services. *Childless adults* in the Adult Expansion Population, however, have received full state plan benefits. CMS and the state have agreed to end this disparity in benefits based on parental status. Therefore, consistent with the transition of all parent/caretaker relatives in the Current Eligibles population to full state plan coverage, the state also will align the benefit package available to both childless adults and adults with children in the Adult Expansion Population to provide full state plan benefits to this entire population by December 31, 2023. This includes providing this population with NEMT.

Remove the Language for Demonstration Population I

As of April 1, 2019, the state no longer had expenditure authority for Demonstration Population I, which previously covered adults, ages 19-64, who were not otherwise eligible for Medicaid before the state expanded Medicaid to adults with incomes up to 133 percent of the FPL. Beneficiaries enrolled in this population received limited benefits, primarily for preventive and primary care services. After the state created the Adult Expansion Group through this demonstration, all enrollees in Demonstration Population I moved to the Adult Expansion Population. CMS does not believe the demonstration authorities should continue to address this

population, since it no longer has any enrollees and has been made obsolete by the Adult Expansion Population.

Technical Changes

Technical changes to this extension approval include adding the benefit for routine patient costs for items and services furnished in connection with participation in qualifying clinical trials to the Alternative Benefit Plans (ABP). Since the state did not expand through state plan authority, but rather through demonstration authority, the ABPs are contained in the demonstration and the ABPs located in the STC attachments had to be updated with this new benefit. This benefit, which is specified in section 1905(a)(30) of the Act, is required to be covered pursuant to sections 1902(a)(10)(A) and 1937(b)(5) of the Act, as amended by Division CC, Title II, Section 210 of the Consolidated Appropriations Act, 2021 (Public Law 116-260), *see* the April 13, 2022 State Medicaid Director Letter, “[UPDATED: Mandatory Medicaid Coverage of Routine Patient Costs Furnished in Connection with Participation in Qualifying Clinical Trials.](#)”¹ In addition, a STC for home and community-based service (HCBS) reporting is being added to ensure the state submits a Quality Improvement Strategy (QIS) for the housing-related services and supports (HRSS) amendment that was approved in March 2022.

Pending Amendment Requests

The state has a number of pending amendment requests, which CMS is not acting on with this extension approval. CMS does note that, in the state’s extension request, the state requested continued authority for the prior community engagement program, implementation of which previously was paused due to the public health emergency for COVID-19. In a letter sent to Utah on August 10, 2021, CMS withdrew the community engagement authorities and is not re-approving those authorities in this extension approval.

Monitoring and Evaluation

Consistent with CMS requirements for section 1115 demonstrations, and as outlined in the demonstration extension STCs, the state is required to conduct systematic monitoring of the various demonstration components, per applicable CMS guidance and technical assistance. Such monitoring will support tracking the state’s progress on achieving milestones and/or goals applicable to the various demonstration components. For example, per the STCs, the state will continue reporting metrics data that will support tracking the state’s trajectory in meeting its SUD and SMI program milestones and goals. Furthermore, with this extension, in addition to monitoring enrollment and access to care, the state will undertake robust reporting of quality of care and health outcomes metrics aligned with the demonstration’s policy composition and objectives, to be reported for all demonstration populations as well as stratified by key demographic subpopulations of interest. The state also will be required to track beneficiary participation, screening, receipt of referrals and social services over time under the HRSS program component as well as adoption of information technology infrastructure to support data sharing between the state or partner entities administering the demonstration and social services organizations.

¹ <https://www.medicaid.gov/federal-policy-guidance/downloads/smd21005.pdf>

Furthermore, under the STCs and consistent with current CMS guidance, Utah will develop for the demonstration extension period a rigorous Evaluation Design using robust data sources and sound analytic approaches that will support a comprehensive and meaningful evaluation of the demonstration to assess whether the demonstration components are effective in producing the desired outcomes for its beneficiaries, as well as for providers and the state's overall Medicaid program. The demonstration evaluation must outline and address well-crafted hypotheses and research questions for all key demonstration policy components that support understanding the demonstration's impact on beneficiary coverage, access to and quality of care, and health outcomes, as well as its effectiveness in achieving the demonstration's policy goals and objectives. For example, hypotheses for the SUD component of the demonstration must support an assessment of the demonstration's success in achieving the core goals of the program through addressing, among other outcomes, initiation and compliance with treatment, utilization of health services in appropriate care settings, and reductions in key outcomes such as deaths due to overdose. Likewise, hypotheses for the SMI/SED component of the demonstration must relate to, for example, utilization and length of stay in emergency departments, reductions in preventable readmissions to acute care hospitals and residential settings, availability of crisis stabilization services, and care coordination.

Evaluation hypotheses for the HRSS component of the demonstration must focus on areas such as severity and mitigation of beneficiaries' social needs, utilization of preventive and routine care, utilization of hospital and institutional care, and beneficiary physical and mental health outcomes. The state must analyze coverage, access to primary care, avoidance of inappropriate care utilization, reductions in uncompensated care, and health outcomes to understand the effectiveness of the Adult Expansion and employer-sponsored insurance (ESI) demonstration components. For the other components of the demonstration, the state must—as applicable—develop and test hypotheses in alignment with program goals that support analyzing demonstration effects on enrollment rates, uninsurance rates, access to primary care, access to mental health care, rates of emergency department visits (emergent and non-emergent), and access to dental services. The evaluation must also provide an assessment of the state's process for winding down the Current Eligibles population, and any potential lessons thereof. In addition, the state must also conduct a demonstration cost assessment to include, but not limited to, administrative costs of demonstration implementation and operation, Medicaid health services expenditures, and provider uncompensated care costs.

To better understand whether implementation of certain key demonstration policies happened as envisioned during the demonstration design process and whether specific factors acted as facilitators of—and barriers to—implementation, the state is strongly encouraged to undertake a robust process/implementation evaluation. The implementation evaluation can inform the state's crafting and selection of testable hypotheses and research questions for the demonstration's outcome and impact evaluations and provide context for interpreting the findings. In addition, CMS underscores the importance of the state undertaking a well-designed beneficiary survey to assess, for instance, beneficiary understanding of the various demonstration policy components, including the housing-related support services, and beneficiary experiences with access to and quality of care.

Finally, the state’s monitoring and evaluation must accommodate data collection and analyses stratified by key subpopulations of interest—to the extent feasible—to inform a fuller understanding of existing disparities in access and health outcomes, and how the demonstration’s various policies might support reducing any such inequities.

Consideration of Public Comments

To increase the transparency of demonstration projects, sections 1115(d)(1) and (2) of the Act direct the Secretary to issue regulations providing for two periods of public comment on a state’s application for a section 1115 demonstration that would result in an impact on eligibility, enrollment, services, cost-sharing, or financing. The first comment period occurs at the state level before submission of the section 1115 application, and the second comment period occurs at the federal level after the application is received by the Secretary. As enacted by the Affordable Care Act (ACA), and incorporated under section 1115(d)(2)(A) and (C) of the Act, comment periods should be “sufficient to ensure a meaningful level of public input,” but the statute imposed no additional requirement on the states or the Secretary to provide an individualized response to address those comments, as might otherwise be required under a general rulemaking. Accordingly, the implementing regulations issued in 2012 provide that CMS will review and consider all comments received by the deadline, but will not provide individualized written responses to public comments (42 CFR 431.416(d)(2)).

CMS posted the extension request for public comment at the federal level on Medicaid.gov from September 21, 2021 to October 21, 2021 and received 16 comments. The majority of the comments expressed concern over the demonstration’s limits on some adult benefits, which includes some beneficiaries not being required to receive NEMT or EPDST coverage. A couple of comments opposed requiring Adult Expansion Population beneficiaries to enroll in an ESI program if an affordable one is available. A few commenters opposed the use of IMD expenditure authority to allow the state to receive reimbursement when beneficiaries with a SUD or SMI receive short-term inpatient treatment and that receiving federal financial participation (FFP) for providing these services is not a valid experiment under section 1115 demonstration authority.

With this extension, the state will phase out the benefit limits on adults, the benefit packages that vary based on parental status, and the not applicables of NEMT and EPSDT, as many stakeholders have advocated. and approved in many states. CMS believes that mandatory enrollment in qualifying ESI for beneficiaries in the Adult Expansion Population is consistent with the objectives of Medicaid, as this requirement is approvable under the state plan, as specified in section 1906(a) of the Act.

CMS is continuing to approve the IMD expenditure authority for beneficiaries who are short-term residents in an IMD primarily to receive treatment for a SUD or SMI, consistent with the

policy we have outlined in the State Medicaid Director Letters (SMDL) 17-003² and 18-011³, CMS has concluded that it can provide 1115(a)(2) expenditure authority to allow states to receive FFP when delivering Medicaid services in an IMD.

We have authority to approve the SUD and SMI IMD authority under our expenditure authority set forth at section 1115(a)(2) of the Act. Section 1115(a)(2) of the Act grants the Secretary the authority, in the context of a demonstration project under section 1115(a), to provide federal matching in state expenditures that would not otherwise be federally matchable under the terms of section 1903. Specifically, with respect to state expenditures under a section 1115 “demonstration project which, in the judgment of the Secretary, is likely to assist in promoting the objectives of [Medicaid],” expenditures that would “not otherwise” be matchable under section 1903 may “be regarded as expenditures under the State plan or plans approved under such title, or for administration of such State plan or plans . . . as may be appropriate.” This “expenditure authority” has been exercised by the Secretary for decades to conduct demonstration projects that provide coverage for individuals or services that could not otherwise be covered under a state’s Medicaid state plan. This has allowed the Secretary to expand eligibility for benefits to individuals who would not otherwise be eligible, and for services that would not otherwise be covered. This interpretation has been upheld in court as a valid exercise of the Secretary’s demonstration authority under section 1115. For example, federal courts have upheld demonstration projects that covered individuals under section 1115(a)(2) who would not otherwise be eligible for coverage and imposed cost-sharing obligations on these individuals that would not be permissible under the Medicaid statute. *Spry v. Thompson*, 487 F.3d 1272 (9th Cir. 2007); *Wood v. Betlach*, No. CV-12-08098, 2013 WL 3871414 (D. Ariz. July 26, 2013)

To the concerns that it does not view receiving FFP for beneficiaries receiving treatment in an IMD as a valid experiment, CMS has determined that Utah’s request serves a research and demonstration purpose as outlined in the SMDLs 17-003 and 18-011. As noted above, testing the benefits of covering individuals and services that could not otherwise be covered promotes the coverage objective of Medicaid, and helps states and CMS gather information to inform any potential legislation.

Other Information

CMS’s approval of this extension is conditioned upon compliance with the enclosed set of expenditure authorities and the STCs defining the nature, character and extent of anticipated federal involvement in the demonstration. The award is subject to our receiving your acknowledgement of the award and acceptance of these STCs within 30 days of the date of this letter.

TITLE: Utah Medicaid Reform 1115 Demonstration

AWARDEE: Utah Department of Health and Human Services

Title XIX Costs Not Otherwise Matchable Authority

Under the authority of section 1115(a)(2) of the Social Security Act (the Act), expenditures made by the state for the items identified below (which would not otherwise be included as matchable expenditures under section 1903) shall, for the period of this demonstration, from July 1, 2022 through June 30, 2027, be regarded as matchable expenditures under the state's Medicaid Title XIX state plan. The expenditure authorities listed below promote the objectives of title XIX.

- 1. Current Eligibles.** Expenditures for optional services not covered under Utah's state plan or beyond the state plan's service limitations and for cost-effective alternative services, to the extent those services are provided in compliance with the federal managed care regulations at 42 CFR 438 *et seq.* This expenditure authority terminates no later than December 31, 2023.
- 2. Demonstration Population III.** Expenditures for premium subsidies related to providing 12 months of guaranteed eligibility to subsidize the employee's share of the costs of the health insurance premium for employer sponsored insurance (ESI) to non-disabled and non-elderly low-income workers age 19 through 64 with incomes above 133 percent of the federal poverty level (FPL), but at or below 200 percent of the FPL, as well as their spouses and their children, age 19 through 26, who are enrolled in their parents' ESI plan, who are not otherwise eligible for Medicaid, as described in the Special Terms and Condition (STCs). This population is subject to cost-sharing requirements established by the ESI plan.
- 3. Demonstration Population V.** Expenditures for premium subsidies related to providing up to a maximum of 18 months of eligibility to subsidize the employee's share of the costs of the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA) premium for COBRA continuation of coverage to non-disabled and non-elderly low-income workers age 19 through 64 with incomes above 133 percent of the FPL, but at or below 200 percent of the FPL, as well as their spouses, who are not otherwise eligible for Medicaid, as described in the STCs. This population is subject to cost-sharing requirements established by the ESI plan.
- 4. Individuals who are Blind or Disabled.** Expenditures for dental benefits for individuals who are blind or disabled and who are eligible for Medicaid, as described in the STCs.

5. **Individuals who are Aged.** Expenditures for dental benefits for individuals who are age 65 and older, and are eligible for Medicaid, as described in the STCs.
6. **Former Foster Care Youth from Another State.** Expenditures to extend eligibility for full Medicaid state plan benefits to former foster care youth who are defined as individuals under age 26, that were in foster care under the responsibility of a state other than Utah or tribe in such other state on the date of attaining 18 years of age or such higher age as the state has elected for termination of federal foster care assistance under title IV-E of the Act, were ever enrolled in Medicaid, and are now applying for Medicaid in Utah.
7. **Targeted Adults.** Expenditures to provide state plan coverage to certain individuals, age 19 through 64, without dependent children, who have incomes at zero percent of the FPL (effectively up to five percent with the five percent income disregard), as described in these STCs. Expenditures to provide dental benefits for individuals in this expenditure population who are receiving substance use disorder (SUD) treatment. Expenditures for state plan coverage for individuals who have been determined eligible as a Targeted Adult for continued benefits during any periods within a twelve-month eligibility period when these individuals would be found ineligible if subject to redetermination (continuous eligibility).
8. **Substance Use Disorder.** Expenditures for otherwise covered services furnished to otherwise eligible individuals who are primarily receiving treatment and withdrawal management services for SUD who are short-term residents in facilities that meet the definition of an institution for mental diseases (IMD).
9. **Adult Expansion Population.** Expenditures to provide coverage to adults, age 19 through 64, who are not Current Eligibles, and have household income at or below 133 percent of the FPL, as described in the STCs. Members of the Adult Expansion Population who are childless/non-custodial parents receive state plan Alternative Benefit Package (ABP) coverage as specified in the STCs and Attachment L, while members of the Adult Expansion Population who are custodial parents/caretaker relatives receive the ABP benefit package specified in the STCs and Attachment K to the STCs. No later than January 1, 2024, all beneficiaries in the Adult Expansion Population will receive the same full state plan ABP coverage, as outlined in Attachment L in the STCs.
10. **Mandatory Employer Sponsored Insurance.** Expenditures to provide premium assistance and wrap around benefits to the Adult Expansion Population beneficiaries who are enrolled in ESI plans.
11. **Intensive Stabilization Services Program.** Expenditures to provide an assessment and service package including state plan behavioral services and home and community-based respite and non-medical transportation services reimbursed using a daily bundled rate during the first eight weeks of the 16-week intensive stabilization program for Medicaid eligible children/youth in state custody or at risk of being placed in state custody experiencing significant emotional and/or behavioral challenges.

12. Residential and Inpatient Treatment for Individuals with Serious Mental Illness.

Expenditures for services furnished to eligible individuals age 21 through 64 who receive treatment for a serious mental illness (SMI) and who are short-term residents in facilities that meet the definition of an IMD.

Title XIX Requirements Not Applicable to the Demonstration Eligible Populations

All requirements of the Medicaid program expressed in law, regulation, and policy statement not expressly identified as not applicable to these expenditure authorities shall apply to the demonstration for the remaining period of this demonstration.

1. Amount, Duration, and Scope of Services and Comparability **Section 1902(a)(10)(B)**

- a. To enable the state to vary the amount, duration, and scope of services offered to individuals by demonstration group, with the exception of Former Foster Care Youth from another state to whom state plan services will be provided.
- b. To enable the state to vary the amount, duration, and scope of services to individuals in the Targeted Adults, blind, aged, and disabled expenditure populations.
- c. To enable the state to provide housing related services and supports (HRSS) to eligible members of the Targeted Adult population.
- d. To enable the state to include additional benefits, such as behavioral health, case management, and health education not otherwise available, to Medicaid beneficiaries who are enrolled in a managed care delivery system.
- e. To enable the state, through December 31, 2023, to vary the amount, duration, and scope of services offered to individuals in the Adult Expansion Population demonstration, based on whether the individual is a custodial parent/caretaker or not a custodial parent/caretaker.
- f. To enable the state to provide intensive stabilization services (ISS) to Medicaid eligible children/youth under age 21 in state custody or at risk of state custody experiencing significant emotional and behavioral challenges.
- g. To enable the state to provide a benefit package consisting only of ESI and COBRA premium subsidies to Populations III and V.

2. Retroactive Eligibility **Section 1902(a)(34)**

To permit the state not to provide retroactive eligibility for individuals in Demonstration Populations III and V.

3. Statewideness/Uniformity **Section 1902(a)(1)**

To enable the state to provide differing types of managed care plans in certain geographical areas of the state for Title XIX populations affected by this demonstration.

4. Freedom of Choice **Section 1902(a)(23)(A)**

To enable the state to restrict freedom of choice of providers for Title XIX populations affected by this demonstration.

5. Early Periodic Screening, Diagnosis, and Treatment (EPSDT) **Section 1902(a)(43)**

Through December 31, 2023, to enable the state not to cover certain services required to treat a condition identified during an EPSDT screening. This not applicable applies to individuals age 19 and 20 in Title XIX populations who are not part of the Adult Expansion Population. This not applicable does not apply to blind and disabled enrollees who receive dental benefits through the demonstration.

6. Methods of Administration **Section 1902(a)(4) insofar as it incorporates 42 CFR 431.53**

Through December 31, 2023, to the extent necessary to relieve the state of the responsibility to assure non-emergency medical transportation to and from providers for beneficiaries with dependent children enrolled the Adult Expansion Population, except that this requirement nevertheless shall apply with respect to those eligible for EPSDT services.

7. Compliance with ABP requirements **Section 1902(a)(10)(A)(i)(VIII) insofar as it incorporates section 1902(k), and sections 1902(k) and 1903(i)(26) insofar as they incorporate section 1937 and 42 CFR 440.390**

Through December 31, 2023, to permit federal financial participation (FFP) to be provided in expenditures to the extent that non-emergency medical transportation (NEMT) is not covered for certain beneficiaries for whom its assurance would otherwise be required.

Title XXI Costs Not Otherwise Matchable

Under the authority of section 1115(a)(2) of the Act as incorporated into Title XXI by section 2107(e)(2)(A), state expenditures described below, shall, for the period of this demonstration, July 1, 2022 through June 30, 2027, and to the extent of the state's available allotment under section 2104 of the Act, be regarded as matchable expenditures under the state's Title XXI plan. All requirements of Title XXI will be applicable to such expenditures for Demonstration Population VI, described below, except those specified below as not applicable to these expenditure authorities.

- 1. COBRA Children (Demonstration Population VI).** Expenditures to provide premium assistance and benefits specified in the STCs, to children up to age 19 with family income up to and including 200 percent of the FPL who would meet the definition of a targeted low-income child except for continuation of coverage in accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), Pub. L. 99-272. Such expenditures

are authorized without regard to the funding limitation under section 2105(c)(2) of the Act. Moreover, the Title XXI requirements listed below do not apply to the benefits for this population.

Title XXI Requirements Not Applicable to Children’s Health Insurance Program (CHIP) Expenditure Authorities for Demonstration Population VI

1. General Requirements, and Eligibility Screening Requirements **Section 2102**

The state child health plan does not have to reflect the demonstration population. Eligibility screening is not required to exclude eligibility for individuals enrolled in continuation coverage pursuant to COBRA.

2. Restrictions on Coverage and Eligibility to Targeted Low-Income Children **Section 2103 and 2110**

Coverage and eligibility are not restricted to targeted low-income children, to the extent that it includes individuals enrolled under continuation coverage pursuant to COBRA.

3. Qualified Employer Sponsored Coverage **Section 2105(c)(10)**

To permit the state to offer a premium assistance subsidy that does not meet the requirements of section 2105(c).

4. Cost Sharing Exemption for American Indian/Alaskan Native (AI/AN) Children **Section 2102**

To the extent necessary to permit AI/AN children who are in all CHIP populations affected by this demonstration, and whose benefits are limited to premium assistance, to be charged premiums and/or cost sharing by the plans in which they are enrolled.

5. Benefit Package Requirements **Section 2103**

To permit the state to offer a benefit package for all CHIP populations affected by this demonstration that is limited to premium assistance.

6. Cost Sharing **Section 2103(e)**

To the extent necessary to permit all CHIP populations affected by this demonstration, whose benefits are limited to premium assistance, to have cost sharing imposed by employer-sponsored insurance plans.

CENTERS FOR MEDICARE & MEDICAID SERVICES

SPECIAL TERMS AND CONDITIONS

NUMBER: 11-W-00145/8 (Title XIX)
21-W-00054/8 (Title XXI)
TITLE: Utah Medicaid Reform 1115 Demonstration
AWARDEE: Utah Department of Health and Human Services

1. PREFACE

The following are the Special Terms and Conditions (STCs) for Utah’s Medicaid Reform 1115 Demonstration Waiver (hereinafter referred to as “demonstration”) to enable the Utah Department of Health and Human Services (hereinafter “state”) to operate this demonstration. The Centers for Medicare & Medicaid Services (CMS) has granted expenditure authorities authorizing federal matching of demonstration costs not otherwise matchable, which are separately enumerated. The STCs set forth conditions and limitations on the expenditure authorities and describe in detail the nature, character, and extent of federal involvement in the demonstration and the state’s obligations to CMS related to the demonstration. These STCs neither grant additional expenditure authorities, nor expand upon those separately granted. The STCs are effective from July 1, 2022 through June 30, 2027, unless otherwise specified. The STCs have been arranged into the following subject areas:

1. Preface
2. Program Description and Objectives
3. General Program Requirements
4. Eligibility
5. Benefits
6. Enrollment and Implementation
7. Cost Sharing
8. Delivery Systems
9. Federal Medical Assistance Percentage
10. Substance Use Disorder Program
11. Intensive Stabilization Services Program
12. Serious Mental Illness Program
13. Housing Related Services and Supports Program
14. General Reporting Requirements
15. General Financial Requirements Under Title XIX
16. Monitoring Budget Neutrality for the Demonstration
17. Evaluation of the Demonstration

Additional attachments have been included to provide supplementary information and guidance for specific STCs.

Attachment A.	Developing the Evaluation Design
Attachment B.	Preparing the Interim and Summative Evaluation Reports
Attachment C:	Implementation Plan <i>[reserved]</i>
Attachment D:	SUD Implementation Plan
Attachment E.	SMI/SED Implementation Plan
Attachment F.	Monitoring Protocol <i>[reserved]</i>
Attachment G.	SUD Monitoring Protocol <i>[reserved]</i>
Attachment H.	SMI/SED Monitoring Protocol <i>[reserved]</i>
Attachment I.	Evaluation Design <i>[reserved]</i>
Attachment J.	Intensive Stabilization Services Claiming Methodology Protocol
Attachment K.	Non-Traditional Benefit Package
Attachment L.	Traditional Benefit Package
Attachment M.	Modified Adjusted Gross Income (MAGI) Conversion Table
Attachment N.	Claiming Methodologies

2. PROGRAM DESCRIPTION AND OBJECTIVES

Utah’s demonstration is a statewide section 1115 demonstration, originally approved in 2002, to provide additional benefits to Medicaid beneficiaries, as well as provide demonstration coverage or premium subsidies for some populations that do not qualify for Medicaid. The demonstration has historically allowed for slightly reduced benefits for parent/caretaker relatives (PCR), medically needy adults, age 19-64, and the transitional medical assistance (TMA) population who are not aged, blind, or disabled (Current Eligibles). Through the demonstration, in January 2020 the state expanded Medicaid to adults with incomes up to 133 percent of the federal poverty level (FPL) exclusively through the demonstration; this is called the Adult Expansion Population. Beneficiaries in the Adult Expansion Population with incomes above 100 percent of the FPL who have access to affordable employer sponsored insurance (ESI) are required to enroll in the ESI program. The state wraps benefits and cost-sharing so beneficiaries receive all Medicaid benefits they are entitled to and do not have cost-sharing above Medicaid state plan levels.

Through the demonstration, the state also covers Targeted Adults, who are adults without children with income at zero percent of the FPL who meet one of the following criteria: (1) chronically homeless; (2) involved in the justice system and in need of substance use or mental health treatment; or (3) needing substance use or mental health treatment.

The demonstration offers ESI (Demonstration Population III), or Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA) (Demonstration Population V) premium subsidies for state qualified insurance plan. Individuals, their spouses, and their children, ages 19 through 26, who have household incomes above 133 percent of the FPL up to and including 200 percent of the FPL are eligible to enroll in the ESI or COBRA programs. In addition, Children’s Health Insurance Program (CHIP) eligible children with household income up to 200 percent of the FPL can elect ESI or COBRA premium subsidies as an alternative to direct coverage, provided the ESI or COBRA coverage meets the minimum benefit requirements. The state provides dental wrap around benefits through direct CHIP coverage if dental is not offered in the child’s ESI or COBRA plan.

Before the state expanded Medicaid, the state covered an expansion population at regular Federal Medical Assistance Percentage (FMAP) consisting of adults not otherwise eligible for Medicaid with incomes up to 95 percent of the FPL (effectively 100 percent of the FPL with the five percent disregard) called Demonstration Population I. This expansion population had a choice of the primary/preventative care program (Demonstration Population I), premium subsidies for ESI, or premium subsidies for COBRA. The authority for this population ended as of April 1, 2019 and all members of the population moved into the Adult Expansion Group. As of this extension, the language for this population has been removed.

The demonstration also authorizes dental benefits for beneficiaries who are over age 65, have disabilities, or are blind Medicaid beneficiaries, as well as state plan dental benefits to Targeted Adults who receive substance use disorder (SUD) treatment. In addition, all Medicaid beneficiaries, age 21 through 64, have access to Medicaid services while residing in an institution for mental diseases (IMD) for SUD or serious mental illness (SMI) short-term residential stays. The demonstration also provides full state plan coverage for former foster care youth who were enrolled in Medicaid upon “aging out” of foster care in another state or tribe and are now applying for Medicaid as a resident in Utah. The demonstration also provides intensive stabilization services (ISS) to Medicaid eligible children and youth under age 22 in state custody or those at risk of being placed in state custody who are experiencing significant emotional and/or behavioral challenges.

The demonstration also allows Utah to provide housing support services as described in section 1915(i) of the Social Security Act, such as tenancy support services, community transition services, and supportive living services to beneficiaries in the Targeted Adult population under the demonstration who are experiencing homelessness, housing, food or transportation insecurity, interpersonal violence or trauma.

During the extension period, of July 1, 2022 through June 30, 2027, the state seeks to achieve the following goals:

- Provide health care coverage for low-income Utahns eligible under the demonstration who would not otherwise have access to, or be able to afford, health care coverage;
- Improve beneficiary health outcomes and quality of life;
- Lower the uninsured rate of low income Utahns;
- Provide continuity of coverage for individuals eligible under the demonstration;
- Increase access to primary care;
- Reduce uncompensated care provided by Utah hospitals;
- Reduce barriers to health care and housing, an important social determinant of health;
- Increase the utilization of preventive dental services, while reducing emergency dental procedure costs;
- Improve access to services across the continuum of care;
- Provide for better care coordination for individuals transitioning to community-based care
- Reduce the utilization of emergency departments and inpatient hospital settings for treatment where utilization is preventable or medically inappropriate; and
- Reduce the overdose death rate.

3. GENERAL PROGRAM REQUIREMENTS

- 3.1. **Compliance with Federal Non-Discrimination Statutes.** The state must comply with all applicable federal statutes relating to non-discrimination. These include, but are not limited to, the Americans with Disabilities Act (ADA) of 1990, Title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973 (Section 504), and the Age Discrimination Act of 1975, and section 1557 of the Patient Protection and Affordable Care Act (Section 1557).
- 3.2. **Compliance with Medicaid and Children’s Health Insurance Program (CHIP) Law, Regulation, and Policy.** All requirements of the Medicaid and CHIP programs expressed in federal law, regulation, and policy statement, not expressly waived or identified as not applicable in the waiver and expenditure authority documents (of which these terms and conditions are part), apply to the demonstration.
- 3.3. **Changes in Medicaid and CHIP Law, Regulation, and Policy.** The state must, within the timeframes specified in federal law, regulation, or written policy, come into compliance with any changes in law, regulation, or policy affecting the Medicaid or CHIP programs that occur during this demonstration approval period, unless the provision being changed is expressly waived or identified as not applicable. In addition, CMS reserves the right to amend the STCs to reflect such changes and/or changes as needed without requiring the state to submit an amendment to the demonstration under STC 3.7. CMS will notify the state 30 business days in advance of the expected approval date of the amended STCs to allow the state to provide comment. Changes will be considered in force upon issuance of the approval letter by CMS. The state must accept the changes in writing.
- 3.4. **Impact on Demonstration of Changes in Federal Law, Regulation, and Policy.**
 - a. To the extent that a change in federal law, regulation, or policy requires either a reduction or an increase in federal financial participation (FFP) for expenditures made under this demonstration, the state must adopt, subject to CMS approval, modified budget neutrality agreement for the demonstration as necessary to comply with such change as well as an allotment neutrality worksheet as necessary to comply with such change. The trend rates for the budget neutrality agreement are not subject to change under this subparagraph. Further, the state may seek an amendment to the demonstration (as per STC 3.7 of this section) as a result of the change in FFP.
 - b. If mandated changes in the federal law require state legislation, unless otherwise prescribed by the terms of the federal law, the changes must take effect on the earlier of the day such state legislation becomes effective, or on the last day such legislation becomes effective, or on the last date such legislation was required to be in effect under the law, whichever is sooner.
- 3.5. **State Plan Amendments.** The state will not be required to submit title XIX or title XXI state plan amendments (SPA) for changes affecting any populations made eligible solely through

the demonstration. If a population eligible through the Medicaid or CHIP state plan is affected by a change to the demonstration, a conforming amendment to the appropriate state plan is required, except as otherwise noted in these STCs. In all such cases, the Medicaid and CHIP state plans govern.

- 3.6. **Changes Subject to the Amendment Process.** Changes related to eligibility, enrollment, benefits, beneficiary rights delivery systems, cost sharing, sources of non-federal share of funding, budget neutrality, and other comparable program elements must be submitted to CMS as amendments to the demonstration. All amendment requests are subject to approval at the discretion of the Secretary of Health and Human Services in accordance with section 1115 of the Act. The state must not implement changes to these elements without prior approval by CMS either through an approved amendment to the Medicaid or CHIP state plan or amendment to the demonstration. Amendments to the demonstration are not retroactive and no FFP of any kind, including for administrative or medical assistance expenditures, will be available for changes to the demonstration that have not been approved through the amendment process set forth in STC 3.7 below, except as provided in STC 3.3.
- 3.7. **Amendment Process.** Requests to amend the demonstration must be submitted to CMS for approval no later than 120 calendar days prior to the planned date of implementation of the change and may not be implemented until approved. CMS reserves the right to deny (or delay approval of) a demonstration amendment based on non-compliance with these STCs, including but not limited to the failure by the state to submit required elements of a complete amendment request as described in this STC, and failure by the state to submit required reports and other deliverables according to the deadlines specified therein. Amendment requests must include, but are not limited to, the following:
 - a. An explanation of the public process used by the state, consistent with the requirements of STC 3.12. Such explanation must include a summary of any public feedback received and identification of how this feedback was addressed by the state in the final amendment request submitted to CMS;
 - b. A detailed description of the amendment, including impact on beneficiaries, with sufficient supporting documentation;
 - c. A data analysis which identifies the specific “with waiver” impact of the proposed amendment on the current budget neutrality agreement. Such analysis must include current total computable “with waiver” and “without waiver” status on both a summary and detailed level through the current approval period using the most recent actual expenditures, as well as summary and detailed projections of the change in the “with waiver” expenditure total as a result of the proposed amendment, which isolates (by Eligibility Group) the impact of the amendment;
 - d. An up-to-date CHIP allotment worksheet, if necessary;
 - e. The state must provide updates to existing demonstration reporting and quality and evaluation plans. This includes a description of how the evaluation design and annual

progress reports will be modified to incorporate the amendment provisions, as well as the oversight, monitoring and measurement of the provisions.

- 3.8. **Extension of the Demonstration.** If the state intends to request an extension of the demonstration, it must apply to CMS from the Governor or Chief Executive Officer of the state in accordance with the requirements of 42 CFR §431.412(c). If the state does not intend to request an extension of a demonstration beyond the period authorized in these STCs, it must submit a phase-out plan consistent with the requirements of STC 3.9.
- 3.9. **Demonstration Phase-Out.** The state may only suspend or terminate this demonstration in whole, or in part, consistent with the following requirements.
 - a. Notification of Suspension or Termination. The state must promptly notify CMS in writing of the reason(s) for the suspension or termination, together with the effective date and a transition and phase-out plan. The state must submit a notification letter and a draft transition and phase-out plan to CMS no less than 6 months before the effective date of the demonstration's suspension or termination. Prior to submitting the draft transition and phase-out plan to CMS, the state must publish on its website the draft transition and phase-out plan for a 30-day public comment period. In addition, the state must conduct tribal consultation in accordance with STC 3.12, if applicable. Once the 30-day public comment period has ended, the state must provide a summary of the issues raised by the public during the comment period and how the state considered the comments received when developing the revised transition and phase-out plan.
 - b. Transition and Phase-out Plan Requirements. The state must include, at a minimum, in its phase-out plan the process by which it will notify affected beneficiaries, the content of said notices (including information on the beneficiary's appeal rights), the process by which the state will conduct administrative reviews of Medicaid or CHIP eligibility prior to the termination of the demonstration for the affected beneficiaries, and ensure ongoing coverage for eligible beneficiaries, as well as any community outreach activities the state will undertake to notify affected beneficiaries, including community resources that are available.
 - c. Transition and Phase-out Plan Approval. The state must obtain CMS approval of the transition and phase-out plan prior to the implementation of transition and phase-out activities. Implementation of transition and phase-out activities must be no sooner than 14 calendar days after CMS approval of the transition and phase-out plan.
 - d. Transition and Phase-out Procedures. The state must comply with all applicable notice and fair hearing requirements found in 42 CFR 435.917 and 42 CFR part 431 subpart E. If a beneficiary in the demonstration requests a hearing before the date of action, the state must maintain benefits as required in 42 CFR 431.230. In addition, the state must redetermine eligibility for all affected beneficiaries in order to determine if they qualify for Medicaid eligibility under a different eligibility category prior to termination, 42 CFR 435.916. For individuals determined ineligible for Medicaid, the state must determine potential eligibility for other insurance

affordability programs and comply with the procedures set forth in 42 CFR 435.1200(e).

- e. Exemption from Public Notice Procedures 42.CFR Section 431.416(g). CMS may expedite the federal and state public notice requirements under circumstances described in 42 CFR section 431.416(g).
- f. Enrollment Limitation during Demonstration Phase-Out. If the state elects to suspend, terminate, or not to extend this demonstration, during the last 6 months of the demonstration, enrollment of the new individuals into the demonstration must be suspended. The limitation of enrollment into the demonstration does not impact the state's obligation to determine Medicaid eligibility in accordance with the approved Medicaid state plan.
- g. Federal Financial Participation (FFP). If the project is terminated or any relevant waivers suspended by the state, FFP must be limited to normal closeout costs associated with the termination or expiration of the demonstration including services, continued benefits as a result of beneficiaries' appeals and administrative costs of disenrolling beneficiaries.

- 3.10. **Withdrawal of Waiver or Expenditure Authority.** CMS reserves the right to withdraw waivers and/or expenditure authorities at any time it determines that continuing the waiver or expenditure authorities would no longer be in the public interest or promote the objectives of title XIX and title XXI. CMS will promptly notify the state in writing of the determination and the reasons for the withdrawal, together with the effective date, and afford the state an opportunity to request a hearing to challenge CMS' determination prior to the effective date. If a waiver or expenditure authority is withdrawn, FFP is limited to normal closeout costs associated with terminating the waiver or expenditure authority, including services, continued benefits as a result of beneficiary appeals, and administrative costs of disenrolling beneficiaries.
- 3.11. **Adequacy of Infrastructure.** The state will ensure the availability of adequate resources for implementation and monitoring of the demonstration, including education, outreach, and enrollment; maintaining eligibility systems; compliance with cost sharing requirements; and reporting on financial and other demonstration components.
- 3.12. **Public Notice, Tribal Consultation, and Consultation with Interested Parties.** The state must comply with the state notice procedures as required in 42 CFR section 431.408 prior to applying to extend the demonstration. For applications to amend the demonstration, the state must comply with the state notice procedures set forth in 59 Fed. Reg. 49249 (September 27, 1994) prior to submitting such request. The state must also comply with the Public Notice Procedures set forth in 42 CFR 447.205 for changes in statewide methods and standards for setting payment rates.

The state must also comply with tribal and Indian Health Program/Urban Indian Organization

consultation requirements at section 1902(a)(73) of the Act, 42 CFR 431.408(b), State Medicaid Director Letter #01-024, or as contained in the state's approved Medicaid State Plan, when any program changes to the demonstration, either through amendment as set out in STC 3.7 or extension, are proposed by the state.

- 3.13. **Federal Financial Participation (FFP).** No federal matching funds for expenditures for this demonstration, including for administrative and medical assistance expenditures, will be available until the effective date identified in the demonstration approval letter, or if later, as expressly stated within these STCs.
- 3.14. **Administrative Authority.** When there are multiple entities involved in the administration of the demonstration, the Single State Medicaid Agency must maintain authority, accountability, and oversight of the program. The State Medicaid Agency must exercise oversight of all delegated functions to operating agencies, managed care organizations (MCOs), and any other contracted entities. The Single State Medicaid Agency is responsible for the content and oversight of the quality strategies for the demonstration.
- 3.15. **Common Rule Exemption.** The state must ensure the only involvement of human subjects in research activities authorized and/or required by this demonstration is for projects conducted by or subject to the approval of CMS, and that are designed to study, evaluate, or otherwise examine the Medicaid or CHIP program—including public benefit or service programs, procedures for obtaining Medicaid or CHIP benefits or services, possible changes in or alternatives to Medicaid or CHIP programs and procedures, or possible changes in methods or levels of payment for Medicaid benefits or services. CMS has determined that this demonstration, as represented in these approved STCs, meets the requirements for exemption from the human subject research provisions of the Common Rule set forth in 45 CFR 46.104(d)(5).

4. ELIGIBILITY

- 4.1. **Eligibility Criteria.** Mandatory and optional Medicaid state plan populations derive their eligibility through the Medicaid state plan, and are subject to all applicable Medicaid laws and regulations in accordance with the Medicaid state plan, except as expressly not applied and as described in these STCs.
- 4.2. **Use of Eligibility Methodologies.** Any Medicaid state plan amendments to the eligibility standards and methodologies for these eligibility groups will apply to this demonstration. These state plan eligible beneficiaries are included in the demonstration for access to additional benefits not described in the state plan. Expansion groups which are not eligible under the state plan and are eligible only for benefits under this demonstration are subject to all Medicaid requirements except as expressly not applied in this demonstration, or expressly listed as not applicable to the specific expansion group. These requirements include determination of financial eligibility using MAGI-based methodologies (and exceptions for non-MAGI based methodologies, as appropriate) in the same manner as for populations eligible under the Medicaid state plan.

Demonstration eligible populations are not otherwise eligible for Medicaid through the state plan, and are only covered under Medicaid through the section 1115 demonstration.

4.3. **Eligibility Groups.** The demonstration is comprised of the following Eligibility Groups.

- a. Current Eligibles are the following individuals, whose eligibility is derived from the state plan, but whose coverage is affected by the demonstration: 1) adults age 19 and above who are eligible through section 1925 and 1931 of the Act, including those eligible through any liberalized section 1931 criteria already in the state plan; 2) adults age 19 through 64 who are medically needy and not aged, blind, or disabled. Individuals who are pregnant are excluded, through the 60th day postpartum. Expenditures on current eligibles are considered demonstration expenditures for purposes of calculation of demonstration budget neutrality. There is no enrollment limit for this group. This demonstration eligibility group will be terminated no later than December 31, 2023 and this state plan population will receive benefits via the state plan after that date.
- b. Demonstration Population III is comprised of working adults, age 19 through 64, their spouses, and their children who are ages 19 through 26, with countable gross family incomes above 133 percent of the FPL up to and including 200 percent of the FPL, who are U.S. citizens/qualified non-citizen, are residents of Utah, are not otherwise eligible for Medicaid, Medicare, or Veterans benefits, have no other health insurance, and participate in an approved ESI plan where the employee's cost to participate in the plan is at least five percent of the household's countable income.
- c. Demonstration Population V consists of adults age 19 through 64 with countable gross family income above 133 percent of the FPL up to and including 200 percent of FPL, are U.S. citizens or qualified non-citizen, are resident(s) of Utah, do not qualify for Medicaid, Medicare, or Veterans benefits, have no other health insurance, and would otherwise be eligible as a member of Demonstration Population III (except that the eligible individual or custodial parent/caretaker is able to enroll in COBRA continuation coverage based on any qualifying event rather than a qualifying ESI plan, and that COBRA-eligibles are not subject to the requirement that an employer subsidize at least 50 percent of the premium cost for the employee's health coverage).
- d. Current Eligible CHIP Children is comprised of children up to age 19 with family income up to and including 200 percent of the FPL who would meet the definition of a targeted low-income child. These children are eligible for the CHIP, but the children's parents have elected to receive premium subsidies for the employee's share of the cost of ESI instead of receiving CHIP direct coverage. There is no enrollment cap applied to this population. These children can opt back into direct coverage at any time.
- e. Demonstration Population VI is comprised of children up to age 19 with family income up to and including 200 percent of the FPL who would meet the definition of a targeted low-income child. These children can opt into direct coverage at any time.

There is no enrollment cap applied to this population. Demonstration Population VI is subdivided into two groups:

- i. COBRA-Eligible Children: A child that meets the definition of a targeted low-income child eligible under Title XXI who is eligible and able to enroll in COBRA continuation coverage based on any qualifying event. These children are eligible for CHIP, but the child's parents have elected to receive premium subsidies for the employee's share of the cost of COBRA continuation of coverage instead of receiving CHIP direct coverage.
 - ii. COBRA Continuation Children: A child that meets the definition of a targeted low-income child except for receipt of continuation coverage in accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), Pub. L. 99-272, and who elect to receive such premium subsidies.
- f. The Targeted Adults are comprised of adults, ages 19-64, with incomes at zero percent of the FPL (effectively five percent of the FPL with the five percent disregard) and no dependent children, who meet one of the following additional criteria:
- i. Be chronically homeless, defined as:
 - 1. An individual who has been continuously homeless for at least 12 months or on at least four separate occasions in the last three years (totaling at least 12 months); and has a diagnosable substance use disorder, serious mental illness, developmental disability, post-traumatic stress disorder, cognitive impairments resulting from a brain injury, or chronic physical illness or disability;
 - 2. An individual living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter for a total of six months within a 12-month period; and has a diagnosable substance use disorder or serious mental health disorder. At the option of the state, these criteria may be expanded to include individuals with a diagnosable developmental disability, post-traumatic stress disorder, cognitive impairments resulting from a brain injury, or chronic physical illness or disability;
 - 3. An individual who is a victim of domestic violence who is living or residing in a place not meant for human habitation, a safe haven or in an emergency shelter; or
 - 4. An individual currently living in supportive housing who has previously met the definition of chronically homeless as specified in paragraphs (i)(1), (i)(2), or (i)(3), above.
 - ii. Involved in the criminal justice system and in need of substance use or mental health treatment, defined as:

1. An individual who has complied with and substantially completed a substance use disorder treatment program while they were incarcerated in jail or prison, including Tribal jails (requirements regarding the type and length of qualifying programs will be established in the Utah Administrative Code);
2. An individual who is court ordered to receive substance abuse or mental health treatment by a district court or Tribal court;
3. An individual on probation or parole with serious mental illness and/or serious substance use disorder;
4. An individual discharged from the Utah State Hospital who was admitted to the civil unit of the hospital in connection with a criminal charge, or admitted to the forensic unit due to a criminal offense with which the individual was charged or of which the individual was convicted; or
5. Individual involved with a Drug Court or Mental Health Court, including Tribal courts, related to a criminal charge or conviction.

iii. Needing substance use or mental health treatment, defined as:

1. An individual receiving General Assistance from the Department of Workforce Services (DWS), who has been diagnosed with a substance use or mental health disorder; or
2. An individual recently discharged from the Utah State Hospital who was civilly committed, to be further specified in the Utah Administrative Code.

g. Former Foster Care Youth from Another State are defined as individuals under age 26, who were in foster care under the responsibility of a state other than Utah or a tribe in such other state when they turned 18 (or such higher age as the state has elected for termination of federal foster care assistance under title IV-E of the Act), were ever enrolled in Medicaid, are now applying for Medicaid in Utah, and are not otherwise eligible for Medicaid.

Beginning January 1, 2023, the Former Foster Care Youth from Another State population will include individuals who otherwise meet the definition and turned age 18 on December 31, 2022, or earlier. Individuals who turn age 18 on January 1, 2023, or later, and who qualify as a Former Foster Care Youth, will be eligible under the state plan.

h. Adult Expansion Population is comprised of adults, ages 19 through 64, who are not Current Eligibles, who are U.S. citizens/qualified non-citizens, are residents of Utah, and have household income at or below 133 percent of the FPL. To remain eligible for Medicaid, beneficiaries in this eligibility group who have access to ESI are required to enroll in a qualified ESI plan, as defined by the state.

- i. Intensive Stabilization Services (ISS) Population is comprised of children/youth under age 21, whose eligibility is derived from the state plan, and are experiencing significant emotional and/or behavioral challenges while in state custody or are at risk of being placed in state custody.

5. BENEFITS

5.1. **Minimum for Current Eligibles.** Current Eligible adults enrolled in the demonstration receive most of the services covered under Utah’s state plan according to the limitations specified in the state plan, except as modified below. This benefit package is reduced from that available under the state plan in accord with changes detailed in Table 1. Any changes that would result in coverage limitations that are more restrictive than those listed in Table 1, or less restrictive than both Table 1 and the corresponding section of the Medicaid state plan, must be submitted as a demonstration amendment. If the state were to amend its Medicaid state plan to provide benefit limitations that are more restrictive than those listed in Table 1 (including elimination of any of the listed services), the revised state plan would determine the benefit. The state must notify the Project Officer of all planned changes to benefits for Current Eligibles, and provide an updated budget neutrality analysis with each such notification that shows the likely effect of the planned changes. CMS reserves the right to determine whether a change in benefits under the state plan that impacts this demonstration and effects budget neutrality for the demonstration would warrant an amendment. The state may not amend its Medicaid state plan to provide a Benchmark Benefit under section 1937 of the Act to Current Eligibles, or any subset of Current Eligibles, so long as this demonstration is in effect. By January 1, 2024, Current Eligibles will no longer be enrolled in the demonstration and receive all benefits in accordance with the state plan.

Table 1. Benefits for Current Eligibles and for Members of the Adult Expansion Population who are Custodial Parents/Caretaker Relatives that are Different than State Plan Covered Services and Limitations	
Service	Special Limitations for Current Eligibles
Hospital Services	Additional surgical exclusions. Refer to the Administrative Rule UT Admin Code R414-200 Non-Traditional Medicaid Health Plan Services and the Coverage and Reimbursement Code Lookup.
Vision Care	One eye examination every 12 months; No eye glasses.
Physical Therapy	Visits to a licensed PT professional (limited to a combination of 16 visits per policy year for PT and OT)
Occupational Therapy	Visits to a licensed OT professional (limited to a combination of 16 visits per policy year for PT and OT)
Speech and Hearing Services	Hearing evaluations or assessments for hearing aids are covered, Hearing aids covered only if hearing loss is congenital
Private Duty Nursing	Not covered
Medical Supplies and Medical Equipment	Same as traditional Medicaid with exclusions. (See Utah Medicaid Provider Manual, Non-Traditional Medicaid Plan)
Organ Transplants	The following transplants are covered: kidney, liver, cornea, bone marrow, stem cell, heart and lung (includes organ donor)
Long Term Care	Not covered

Transportation Services	Ambulance (ground and air) for medical emergencies only (non-emergency transportation, including bus passes, is not covered)
Dental	Dental services are not covered, with exceptions.

Note: This table is for illustrative purposes only and does not limit the state’s ability to change the state plan benefits through State Plan Amendments.

5.2. Benefit Definition for Premium Subsidies

- a. For Adults and Adult Children in Demonstration Populations III and V – Premium Subsidy. The sole benefit provided to persons eligible for premium subsidies (through ESI or COBRA coverage) is assistance in paying the employee’s, individual’s, or family’s share of the monthly premium cost of qualifying insurance plans.
- b. For Children in Demonstration (Current Eligible CHIP Children and Demonstration Populations VI) – Premium Subsidy. The primary benefit provided to children eligible for premium subsidies (through ESI or COBRA coverage) is assistance in paying the child’s share of the employee’s, individual’s, or family’s share of the monthly premium cost of qualifying insurance plans.
 - i. Dental benefits for children will be offered through two paths. If the health benefit package that is available to a child through qualified premium subsidies coverage includes dental benefits, the child's premium subsidies will be approximately equivalent to the per-child-per-month cost under the Title XXI state plan including dental costs. However, if a child does not receive dental benefits through the qualified premium subsidy plan, the state’s minimum dental coverage for children is set by legislation, and is benchmarked to the coverage of the largest private carrier. In this case, the coverage is the same as direct coverage.
- c. Minimum Coverage. Utah will ensure that all participating premium subsidy insurance plans cover well- baby/well-child care services, age-appropriate immunizations, and emergency care. The state will also ensure children receive physician visits, hospital inpatient, and pharmacy benefits, at a minimum. To be a “qualified plan” the plans must meet the criteria established in Utah Administrative Code R414-320-2 (12).
- d. Additional Benefits. Benefits furnished by qualified premium subsidy insurance plans are not benefits under this demonstration; the only benefit under this demonstration is premium subsidies. Qualified plans are not restricted from offering additional benefits, at the option of the plan, which may vary by the plan to which the individual or family has access.

- 5.3. **Choice of Benefit Plans.** An eligible individual or family may enroll in any qualified insurance plan that meets the requirements specified in state rules and is provided by their employer or to which they have access through COBRA.

- 5.4. **Premium Subsidy Determination.** Demonstration Population III, V, and VI beneficiaries will receive premium subsidies, under the following conditions:
- a. In accordance with the enrollment and implementation procedures as defined in Section 6, the state will provide an eligible and enrolled individual or family with a premium subsidy.
 - b. For children, the premium subsidy amount for participating plans must not exceed the maximum amount of the participant's share of the premium:
 - i. For ESI plans –
 1. Children = \$120 per enrollee per month with state wrap around dental benefits
 2. Children = \$140 per enrollee per month if the plan provides dental benefits comparable to those offered through direct state coverage
 - ii. For COBRA plans –
 1. Children = \$120 per enrollee per month with state wrap around dental benefits
 2. Children = \$140 per enrollee per month if the plan provides dental benefits comparable to those offered through direct state coverage.
 - c. Adjustments for Health Care Inflation. For adults enrolled in the premium subsidy programs, the state may increase the maximum amount per month through the state's rulemaking process as long as it does not exceed the without waiver ceiling amount established in the budget neutrality calculation of estimated service expenditures and the subsidy amount found in Utah Administrative Code R414-320-16.
 - d. For demonstration populations III and V, the maximum premium subsidy will be determined by the amounts found in Utah Administrative Code R414-320-16. Any future changes to decrease the maximum premium subsidy amount must be approved by CMS through an amendment to the demonstration in accordance with the process outlined in STC 3.7.
 - e. The premium subsidy will be paid directly to the individual/family up to the maximum amount specified in STC 5.4(b) (d).
- 5.5. **Dental Benefit for Enrollees who are Blind or Disabled.** All individuals who are blind or disabled, 18 and older, who are enrolled in the state plan under Section 1902(a)(10)(C) of the Act and 42 CFR 435.322, 435.324 and 435.330, will receive dental benefits that are defined in the Utah Medicaid Provider Manual, Dental Services.
- 5.6. **Dental Benefit for Enrollees who are Aged.** All individuals who are age 65 and older, and are eligible for Medicaid, who are eligible to enroll in the state plan under Section

1902(a)(10)(C) of the Act and 42 CFR 435.320 and 435.330, will receive dental benefits that are defined in the Utah Medicaid Provider Manual, Dental Services.

- 5.7. **Targeted Adults.** Beneficiaries enrolled in this eligibility category will receive full Medicaid state plan benefits. Beneficiaries that are enrolled in this eligibility category and receiving SUD treatment will receive dental benefits that are defined in the Utah Medicaid Provider Manual, Dental Services, and if needed, porcelain or porcelain-to-metal crowns.
- 5.8. **Former Foster Care Youth from Another State.** Beneficiaries enrolled in this eligibility category will receive full Medicaid state plan benefits.
- 5.9. **Adult Expansion Population.** By January 1, 2024, all beneficiaries in the Adult Expansion Population will receive the same benefits, regardless of parental status. The benefits the beneficiaries receive after this date are described in Attachment L. Before this date, beneficiaries in this category will receive benefits as follows:
 - a. Custodial Parents/Caretaker Relatives enrolled in this eligibility category will receive the same benefits as Current Eligibles, the non-traditional benefits, which are outlined in Table 1 and Attachment K. These beneficiaries will receive benefits as described in Attachment K. Utah has fully aligned the non-traditional benefit package with the Medicaid state plan except for those benefits limitations listed under table 1. The state has ensured all requirements of section 1937 of the Act are met including the inclusion of coverage for the ten categories of essential health benefits (EHBs). The non-traditional benefit package does not differ in amount, duration or scope from Medicaid state plan benefits, except to the extent that it includes coverage required under section 1937 of the Act that is not included under the state plan and the benefit limitations listed under Table 1. Any changes to this coverage must be approved through a future amendment to the demonstration.
 - b. Childless Adults/Non-custodial Parents enrolled in this eligibility category will receive full Medicaid state plan benefits, the traditional benefits, as outlined in Attachment L. These beneficiaries will receive benefits as described in Attachment L. Utah has fully aligned its traditional benefit package with the Utah Medicaid state plan while ensuring all requirements of section 1937 of the Act are met, including the inclusion of coverage for the ten categories of EHBs. The traditional benefit package does not differ in amount, duration or scope from Medicaid State plan benefits, except to the extent that it includes coverage required under section 1937 of the Act that is not included under the state plan. Any changes to this coverage must be approved through a future amendment to the demonstration.
 - c. With respect to the coverage described in STC 5.9 (a) and (b), the non-traditional benefits and traditional benefits provided to specified categories of beneficiaries within the Adult Expansion Population, Utah assures that these benefit packages comport with the requirements of section 1937 of the Act, except as limitations discussed in this STC, and specifically makes the following assurances:

- i. Utah assures that all services in the EHB benchmark plan used to define the benefit package have been accounted for throughout the Alternative Benefits Plan (ABP) 5 charts found in Attachments I and J and Utah assures the accuracy of all information in ABP 5 depicting amount, duration and scope parameters of services authorized in the currently approved Medicaid State Plan.
- ii. Utah assures Early Periodic Screening, Diagnosis, and Treatment (EPSDT) services will be provided to individuals under 21 years of age who are covered under the traditional and non-traditional benefit packages.
- iii. Utah assures that it does not apply any financial requirement or treatment limitation to mental health or SUD benefits in any classification that is more restrictive than the predominant financial requirement or treatment limitation of that type applied to substantially all medical/surgical benefits in the same classification.
- iv. Utah assures that it is not imposing limits on habilitative services and devices that are more stringent than limits on rehabilitative services (42 CFR 440.347(d) and 45 CFR 156.115(a)(5)(iii)). Further, Utah assures that it will not impose combined limits on habilitative and rehabilitative services and devices.
- v. Utah assures that substituted benefits are actuarially equivalent to the benefits they replaced from the EHB benchmark plan used to define EHB benefits, and that the state has actuarial certification for substituted benefits available for CMS inspection if requested by CMS.
- vi. Utah assures that individuals will have access to services in Rural Health Clinics (RHC) and Federally Qualified Health Centers (FQHC) as defined in subparagraphs (B) and (C) of section 1905(a)(2) of the Social Security Act. Utah assures that payment for RHC and FQHC services is made in accordance with the requirements of section 1902(bb) of the Social Security Act.
- vii. Utah assures that it will comply with the requirement of section 1937(b)(5) of the Act by ensuring that the benefit package includes at least the EHBs as described in section 1302(b) of the Patient Protection and Affordable Care Act.
- viii. Utah assures that it will comply with the mental health and substance use disorder parity requirements of section 1937(b)(6) of the Act by ensuring that the financial requirements and treatment limitations applicable to mental health or substance use disorder benefits comply with the requirements of section 2705(a) of the Public Health Service Act in the same manner as such requirements apply to a group health plan.
- ix. Utah assures that it will comply with section 1937(b)(7) of the Act by ensuring that benefits provided to beneficiaries include, for any individual

described in section 1905(a)(4)(C), medical assistance for family planning services and supplies in accordance with such section.

- x. Utah assures necessary medical transportation (emergency and non-emergency) for the Adult Expansion Population beneficiaries who receive the traditional benefits in accordance with 42 CFR 431.53 and necessary emergency transportation for the Adult Expansion Population beneficiaries who receive the non-traditional benefits, except that Utah assures necessary medical transportation (emergency and non-emergency) for Adult Expansion Population beneficiaries who are eligible for EPSDT services.
 - xi. Utah assures, in accordance with 42 CFR 440.347(a) and 45 CFR 156.115(a)(4), that it will provide benefits that include preventive services identified at 45 CFR 147.130.
 - xii. Utah assures that, for each benefit provided under the benefit packages that is not provided through managed care, it will use the payment methodology in its approved state plan for the benefit.
 - xiii. Utah assures that prescription drug coverage is the same as under the approved Medicaid State Plan for prescribed drugs.
 - xiv. Utah assures that when it pays for outpatient prescription drugs covered under the benefit packages, it meets the requirements of section 1927 of the Act and implementing regulations at 42 CFR 440.345.
 - xv. Utah assures that when conducting prior authorization of prescription drugs for Adult Expansion Population beneficiaries receiving the traditional and non-traditional benefit packages, it complies with prior authorization program requirements in section 1927(d)(5) of the Act.
 - xvi. The state assures it will comply with section 1115 Public Notice and Tribal Consultation requirements in STC 3.12 before amending benefits, include in public notice, the method for assuring compliance with 42 CFR 440.345 related to full access to EPSDT services and a description of the method for complying with the provisions of the amendments made by section 5006(e) of the American Recovery and Reinvestment Act of 2009.
- d. Mandatory ESI Enrollees. Beneficiaries in this eligibility group that are eligible to enroll in a qualified ESI plan (as described in STC 4.3(h)), are required to enroll in that plan and will be reimbursed for the full amount of the beneficiary's share of the monthly premium cost of the qualified ESI plan. In order to ensure the beneficiary receives Medicaid benefits, wrap-around benefits will be provided through a fee-for-service (FFS) delivery system.

- 5.10. **Behavioral Health Benefits.** The Adult Expansion Population and Current Eligibles will receive the following benefits that are the equivalent of (b)(3) services authorized under the state's 1915(b) Prepaid Mental health Plan (PMHP) waiver:

- a. Psychoeducational services (mental health rehabilitation);
- b. Personal services;
- c. Respite care; and
- d. Supportive living services (mental health services in residential treatment settings).

5.11. **Intensive Stabilization Services (ISS) Program.** Beneficiaries enrolled in this eligibility category will receive state plan and home and community-based crisis stabilization services during the first eight -weeks of the intensive program on a FFS basis using a daily bundled rate. The benefits included in the daily bundled rate are detailed in Table 2.

Table 2. Benefits for Intensive Stabilization Services Program	
Bundled Crisis Stabilization Service	State Plan or Non-State Plan Services
Psychiatric Diagnostic Evaluation	State Plan Service
Mental Health Assessment by a Non-Mental Health Therapist	State Plan Service
Psychotherapy with Patient and/or Family Member	State Plan Service
Family Psychotherapy with Patient Present and Family Member Psychotherapy without Patient Present	State Plan Service
Group Psychotherapy and Multiple Family Group Psychotherapy	State Plan Service
Psychotherapy for Crisis	State Plan Service
Psychotherapy with Evaluation and Management (E/M) Services	State Plan Service
Therapeutic Behavioral Services	State Plan Service
Psychosocial Rehabilitative Services	State Plan Service
Peer Support Services	State Plan Service
Case/Care Management	State Plan Service
Non-emergency medical transportation	State Plan Service
Non-medical transportation	Currently Not Covered in State Plan
Respite	Currently Not Covered in State Plan

6. ENROLLMENT AND IMPLEMENTATION

6.1. General Requirements

- a. Unless otherwise specified in these STCs, all processes for eligibility, enrollment, redeterminations, terminations, appeals, etc. must comply with federal law and regulations governing Medicaid and CHIP.

- b. Any individual who is denied eligibility in any health coverage program authorized under this demonstration must receive a notice from the state that gives the reason for denial, and includes information about the individual's right to appeal.

6.2. Enrollment in ESI Premium Subsidies (Demonstration Populations III and Current Eligible CHIP Children).

- a. Adults with incomes above 133 percent, up to and including 200 percent of the FPL who meet all other requirements for Demonstration Population III will be given the option to receive premium subsidies for ESI.
- b. Families with dependent children that are eligible for CHIP may elect to have their children receive premium subsidies for ESI, instead of receiving CHIP coverage. However, children may opt back into direct coverage at any time.
- c. The state must establish and maintain procedures (which may be done through rulemaking) that will:
 - i. Ensure that at least one adult family member is employed, that the employer offers health insurance as a benefit, that the benefit qualifies for the premium subsidy, and that the employee elects to participate and maintains participation in the ESI plan for all individuals receiving subsidies from the state;
 - ii. Provide written information prior to enrollment explaining the differences in benefits and cost sharing between CHIP coverage and ESI coverage, so that they can make an informed choice (if the individual is eligible for CHIP);
 - iii. Ensure the consent of the responsible adult family member to receiving ESI premium subsidies instead of coverage through CHIP (if the individual is eligible for CHIP);
 - iv. Allow children to opt out of ESI and begin receiving CHIP coverage at any time, with an immediate effective date upon request;
 - v. Obtain regular documentation, and verify at least quarterly, that the individual or family continues to be enrolled in ESI coverage and the individual's/family's share of the premium;
 - vi. Require clients to notify the Utah Department of Health and Human Services within ten days if they change their ESI plan, there is a change in the amount of their premium, or their ESI coverage is terminated;
 - vii. Ensure that the total amount of subsidies provided to an individual or family does not exceed the amount of the employee's financial obligation toward their ESI coverage;

- viii. Provide for recovery of payments made for months in which the individual or family did not receive ESI coverage. The federal share must be returned within the timeframes established in statute and regulations; and
- ix. Provide for a redetermination of eligibility at least once every 12 months.

6.3. Enrollment in Utah COBRA Premium Subsidy Program

- a. Adults with incomes above 133 percent up to and including 200 percent of the FPL who meet all other requirements for Demonstration Population V will be given the option to receive premium subsidies for COBRA.
- b. Families with dependent children that are eligible for CHIP, and whose children have lost COBRA-eligible ESI coverage, may elect to have their children receive premium subsidies for COBRA coverage, instead of receiving CHIP coverage.
- c. The state may offer premium subsidies for COBRA coverage to all adults and children who are receiving COBRA coverage. COBRA premium subsidies may be offered to adults and children who would be eligible for CHIP, if uninsured. The state must establish and maintain procedures (which may be done through rulemaking) that will:
 - i. Ensure that at least one adult family member is eligible for COBRA continuation coverage, that the COBRA benefit qualifies for the COBRA premium subsidy, and that the eligible individual elects to participate and maintains participation in the COBRA plan for all individuals receiving COBRA subsidies from the state;
 - ii. Provide written information prior to enrollment explaining the differences in benefits and cost sharing between CHIP coverage and COBRA coverage, so that they can make an informed choice (if the individual is eligible for CHIP);
 - iii. Ensure the consent of the responsible adult family member to receiving COBRA premium subsidies instead of coverage through CHIP (if the individual is eligible for CHIP);
 - iv. Allow children to opt out of the Utah COBRA Premium Subsidy Program and begin receiving CHIP coverage at any time; with an immediate effective date upon request.
 - v. Obtain regular documentation, and verify at least quarterly, that the individual or family continues to be enrolled in COBRA coverage and the individual's/family's share of the premium. Verification may include the use of the Coverage Election Notice, forms developed by the state, and use of inter-agency administrative databases such as eFILE;
 - vi. Require clients to notify the Utah Department of Health within 10 days if there is a change in the amount of their premium or their COBRA coverage is terminated;

- vii. Ensure that the total amount of the Utah COBRA Premium Subsidy Program subsidy(ies) provided to an individual or family does not exceed the amount of the former employee's financial obligation toward their COBRA coverage
- viii. Provide for recovery of payments made for months in which the individual or family did not receive COBRA coverage. The federal share must be returned within the timeframes established in statute and regulations; and
- ix. Provide for a review of benefits on a timeframe consistent with anticipated changes in COBRA coverage or premiums and a redetermination of eligibility at least once every 12 months.

6.4. **Disenrollment from the Premium Subsidy Programs.** If an individual/family is involuntarily disenrolled from a demonstration premium subsidy program, such as when a participating plan no longer meets the established state criteria or the individual meets the eligibility criteria for direct Medicaid coverage:

- a. There is no sanction period before a child, who has been involuntarily disenrolled from a premium subsidy program, could be enrolled in CHIP.
- b. Children involuntarily disenrolled from premium subsidies will be seamlessly enrolled in the CHIP program. Utah CHIP will ensure that there is no break in coverage.

6.5. **Interaction with Medicaid.** For individuals eligible for Demonstration Populations III (ESI adults) and V (COBRA adults), the state will offer opportunities for these individuals to enroll in direct Medicaid coverage if they are later determined to be eligible for such coverage.

- a. Individuals may at any time apply for Medicaid, and if determined eligible, be enrolled in direct coverage.
- b. At least every 12 months, the state must remind each individual by mail, an eligibility redetermination, or other comparable means that he or she is entitled to apply for Medicaid and provide directions on how to initiate an application. In particular, the reminder must point out that the participant is likely to qualify for Medicaid if pregnant.

6.6. **Enrollment in Dental Benefits.** There is no separate enrollment process required for individuals who are aged, blind or, disabled and otherwise enrolled in the state plan, or Targeted Adults who are receiving SUD treatment, to receive dental services through this demonstration.

6.7. **Targeted Adults Enrollment.**

- a. Individuals applying for Medicaid will be screened for eligibility in other Medicaid programs before being enrolled in the Targeted Adults eligibility group.

- b. This state has 12 -month continuous eligibility and the state will provide for a redetermination of eligibility at least once every 12 months. Within a beneficiary's 12-month eligibility period, the state's eligibility system automatically identifies Targeted Adults with household incomes above 133 percent of the FPL. The beneficiary will remain a Targeted Adult for the remaining 12-month eligibility period, but expenditures made during the time the beneficiary is over income will have the claims submitted to receive the state's regular FMAP, instead of newly eligible enhanced FMAP. The state will report on the percentage for which they submit regular claims under this group on the quarterly and annual monitoring reports.
- c. The Targeted Adults group or any subset of this group may be closed to new enrollment at the state's election. If this eligibility group is closed to new enrollment, the state will stop taking applications. Applications will not be held over for a new enrollment period. However, closing enrollment does not preclude individuals from being enrolled in the Adult Expansion Population, which is always open for enrollment.
- d. The state will provide continuous benefits for a period of 12 months to the Targeted Adults. Changes during this period will not affect a beneficiary's benefits with the exception of the following reasons:
 - i. Moving out of state;
 - ii. Death;
 - iii. Determined eligible for another Medicaid eligibility category;
 - iv. Fraud; or
 - v. Client request.
- e. All eligibility criteria, including income, will be considered at the time of the individual's annual eligibility redetermination to determine if the individual continues to meet eligibility for Medicaid.

6.8. **Adult Expansion Population.** Individuals do not have to undergo a separate process to enroll and receive coverage in this population and there is no enrollment cap on this population.

- a. **Beneficiary Enrollment Requirements.** The state may mandatorily enroll members of the Adult Expansion Population into UMIC managed care organizations (MCO) for delivery of their physical and behavioral health services in the five urban counties in the state (Davis, Salt Lake, Utah, Washington, and Weber), except as provided in paragraph (e) of this STC. Further, the state may mandatorily enroll members of the Adult Expansion Population in an ACO and a PMHP, for beneficiaries residing in the remaining eight counties (Box Elder, Cache, Iron, Morgan, Rich, Summit, Tooele, and Wasatch) in which beneficiaries are not enrolled into UMIC.

- b. **Auto-Assignment.** If a beneficiary does not choose a managed care plan (UMIC MCO or ACO/PHMP) within the time frames defined in (b)(iii), he or she may be auto-assigned to a managed care plan. When possible, the auto assignment algorithm shall take into consideration the beneficiary's history with a primary care provider, and when applicable, the beneficiary's history with a managed care plan. If this is not possible, the state will equitably distribute beneficiaries among managed care plan as specified in this STC.
- i. Beneficiaries who are newly enrolling in the Adult Expansion Population and residing in a mandatory managed care county (either a UMIC MCO or ACO/PMHP model) will receive a pending managed care plan selection that will be placed on the beneficiary's case using a "round robin" method, consistent with the auto-assignment standards described in the previous paragraph, so that each managed care plan receives approximately the same number of new cases.
 - ii. Returning Medicaid beneficiaries will have their previous managed care plan reinstated if it has been less than two years since they were enrolled in managed care. If it has been more than two years or if their previous managed care plan is no longer available for enrollment, their pending assignment will be based on the "round robin" method, after taking into consideration the beneficiary's history with a primary care provider.
 - iii. All beneficiaries subject to mandatory enrollment into managed care will receive a letter that informs them of the need to select a plan(s) and that if they do not respond within 10 days, the state will assign a plan(s). If a beneficiary (including beneficiaries with special health care needs) contacts the state and indicates that he or she has a current primary or specialty provider, the state will assist the member in selecting a plan(s) that includes that provider in its network. After 10 days, if a member has not responded, the system-assigned (i.e., pending) plan(s) will be the member's plan(s).
- c. **Open Enrollment Period.** An open enrollment period will be held for beneficiaries from mid-May to mid-June each year, during which such beneficiaries may select a different available managed care plan for enrollment.
- d. **Enrollment Exemptions.** The following populations are exempt from mandatorily enrolling in UMIC MCO or ACO and PMHP:
- i. Utah Medicaid beneficiaries residing in the Utah State Hospital or the Utah State Developmental Center;
 - ii. Beneficiaries with presumptive eligibility;
 - iii. Individuals enrolled in the Healthy Outcomes Medical Excellence (HOME) program;
 - iv. Medicaid members enrolled in Utah's Buyout Program; and

v. Adult Expansion Population beneficiaries mandatorily enrolled in ESI.

e. **Enrollment Exemption Process.** The state will allow a beneficiary not to enroll in or to disenroll from a managed care plan and to enroll in a FFS delivery system, or to switch from a managed care plan to another available managed care plan, in the event that enrollment in the current managed care plan or in any available managed care plan, as applicable, would not meet the beneficiary's health care needs and there is a reasonable expectation that the beneficiary's health would suffer if he or she were not permitted to switch to a different available managed care plan or enroll in FFS delivery. Exemption requests must be submitted for approval to the state Medicaid agency.

f. **Disenrollment.** The state allows enrollees to make a request to disenroll from/transfer between managed care plan plans or enroll in FFS as described in STC 6.8(e). The determination must be made no later than the first day of the second month following the month in which the enrollee or a plan files the request with the state. If determination is not made within this time frame, the request is deemed approved.

6.9. **Mandatory ESI Enrollment.** For beneficiaries in the Adult Expansion Population who are required to enroll in a qualified ESI plan as specified in STC 4.3(h), access to and enrollment in a qualified ESI plan and the beneficiary's premium amount will be verified at initial application, every three months, and at annual recertification.

6.10. **Intensive Stabilization Services (ISS) Enrollment.** The intensive stabilization services teams (clinician and ISS staff will screen and request authorization/approval for ISS for Medicaid eligible children/youth who are experiencing significant emotional and/or behavioral challenges based on medical necessity, acuity, and need.

7. COST SHARING

7.1. **Cost Sharing.** Cost sharing must comply with Medicaid requirements that are set forth in statute, regulation and policies, including exemptions from cost-sharing set forth in 42 CFR §447.56(a), and be reflected in the state plan. Standard Medicaid exemptions from cost-sharing set forth in 42 CFR §447.52(b) applies to the demonstration.

7.2. **Demonstration Populations III and Current Eligible CHIP Children in ESI and Demonstration Populations V and VI in COBRA.** Adults and children of families that choose premium subsidies will have cost sharing requirements (including the out-of-pocket maximum) as set by their qualified plan. Children who choose to receive coverage through premium subsidies will be charged cost sharing amounts set by their ESI or COBRA coverage and will not be limited to the Title XXI five percent out-of-pocket family income maximum. All other cost sharing, including co-payments, and co-insurance, are set by the qualified plan and the responsibility of the participant.

7.3. **Cost Sharing for Certain American Indian/Alaskan Native Eligibles.** American Indian/Alaskan Native beneficiaries enrolled in the demonstration are subject to cost sharing exemptions of section 5006 of the American Recovery Reinvestment Act of 2009 (and are

not required to pay premiums or cost sharing for services received through the Indian health care system). American Indian/Alaskan Native beneficiaries who have received a service or referral from an Indian Health Care Provider are exempt from premiums/enrollment fees and cost sharing as described at 42 CFR 447.56(a). Those who are eligible to receive services or a referral through an Indian Health Care Provider are also exempt from premiums and enrollment fees.

- 7.4. **Enrollment Fee.** The state must not impose an enrollment fee on any demonstration populations.

8. DELIVERY SYSTEMS

- 8.1. **Comprehensive Service Delivery System.** Utah's MCOs, ACOs, and PMHPs must provide a comprehensive service delivery system that provides the full array of benefits and services offered under the program for which the relevant organization or plan has contracted to provide coverage. This includes the integration of a participant's physical health and behavioral health needs as further articulated by the delivery system requirements set forth below.
- 8.2. **Compliance with Managed Care Regulations.** The state, its MCOs and any subcontractor delegated to perform activities under the managed care contract, must comply with the managed care regulations published in 42 CFR part 438, except as expressly waived or specified as not applicable to an expenditure authority.
- 8.3. **Description of Managed Care Program.** Under terms of this demonstration, the state is authorized to provide managed medical assistance benefits through managed care delivery systems, consistent with regulations in 42 CFR part 438. The state may mandatorily enroll Current Eligibles, Targeted Adults, Adult Expansion Population to receive the health care benefits pursuant to Section 6 of the STCs.
- 8.4. **Managed Care Contracts.** In accordance with managed care regulations published at 42 CFR part 438, CMS requires that the state must submit MCO contracts to CMS for review and approval to ensure compliance with beneficiary informational requirements, quality outcome provisions, and other applicable federal requirements. The state must provide CMS with a minimum of 90 days to review and approve contracts and/or any changes to contracts. The state must submit any supporting documentation deemed necessary by CMS. CMS reserves the right, as a corrective action, to withhold FFP (either partial or full) for the demonstration, until the requirements of this STC are met or any identified deficiency in a contract is corrected.
- 8.5. **ESI and COBRA Delivery Systems.** Demonstration Populations III through VI will receive services through the delivery systems provided by their respective qualified plan for ESI or COBRA premium subsidies.

8.6. Dental Services.

- a. The state will deliver services through a fee-for-service (FFS) payment model and contract with entities to provide dental services to the blind and disabled population.
 - i. The state will enter into agreements with the single state agency to transfer an amount equal to the program's non-federal share of the cost of providing dental services to the population described in STC 5.5 & 5.6 above through an intergovernmental transfer (IGT) consistent with section 1903(w)(6)(A) of the Act. Only units of government are eligible to contribute the nonfederal share through an IGT and the IGT funds will be derived from state or local tax revenue. No payment under this demonstration may be dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity.
 - ii. The contracted entities must guarantee access statewide.
- b. The state will deliver services through an FFS payment model and contract with entities to provide dental services to the Targeted Adults who are receiving SUD treatment. The state must ensure that contracted entities:
 - i. Have demonstrated experience working with beneficiaries who are being treated for both a SUD and a major oral health disease;
 - ii. Operate a program, targeted at the individuals described in STC 8.6(b) above, that has demonstrated effectiveness in providing dental services to such individuals who are receiving SUD treatment, as reflected in a peer-reviewed evaluation or study; and
 - iii. Enter into agreements with the single state agency to transfer an amount equal to the program's non-federal share of the cost of providing dental services to the population described above through an IGT consistent with section 1903(w)(6)(A) of the Act. Only units of government are eligible to contribute the nonfederal share through an IGT and the IGT funds will be derived from state or local tax revenue. No payment under this demonstration may be dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity; and
 - iv. Can guarantee access to care statewide.
- c. The state will deliver dental services to the aged population through an FFS payment model and by contracting with an entity that:
 - i. Operates a program for aged individuals that has demonstrated, through a peer-reviewed evaluation, the effectiveness of providing dental treatment to those individuals;
 - ii. Enters into agreements with the single state agency to transfer an amount equal to the program's non-federal share of the cost of providing dental

services to the population described in STC 5.6 above through an IGT consistent with section 1903(w)(6)(A) of the Act. Only units of government are eligible to contribute the nonfederal share through an IGT and the IGT funds will be derived from state or local tax revenue. No payment under this demonstration may be dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity; and

iii. Can guarantee access to care statewide.

8.7. **Intensive Stabilization Services (ISS) Delivery System.** ISS will be delivered during the first eight weeks of the intensive program on a FFS basis using a daily bundled rate. Please refer to Attachment J: Intensive Stabilization Services Program Claiming Methodology Protocol.

9. FEDERAL MEDICAL ASSISTANCE PERCENTAGE (FMAP)

9.1. The state will receive the enhanced Federal Medical Assistance Percentage (FMAP) for the Adult Expansion Population, as well as the Targeted Adults, who are newly eligible within the meaning of section 1905(y)(2)(A) of the Act. As part of the standard 1115 demonstration process, Utah may request to amend the demonstration, including coverage for the Adult Expansion Population, if the enhanced FMAP for the newly eligible beneficiaries in this population changes.

9.2. For beneficiaries who are members of the Adult Expansion Population and Targeted Adults, the state will make an individual income-based determination for purposes of the enhanced FMAP methodology by comparing individual income to the relevant converted income eligibility standards in effect on December 1, 2009, and included in the MAGI Conversion Plan approved by CMS on December 20, 2019. In general, and subject to any adjustments described in this STC under the enhanced FMAP methodology, the expenditures of individuals with incomes below the relevant converted income standards for the applicable subgroup are considered as those for which the enhanced FMAP is not available. The relevant MAGI-converted standards for each population group in the Adult Expansion Population and Targeted Adults are described in Attachment M.

9.3. **Claiming Methodology.** For purposes of claiming federal funding at the appropriate FMAP for the populations transitioned to the Adult Expansion Population, the determination of which beneficiaries qualify for enhanced FMAP methodology as a newly eligible adult shall be determined pursuant to a claiming methodology deliverable found in Attachment N.

9.4. **Resource Proxy Adjustment.** The state has elected not to apply a resource proxy adjustment to a population group(s) that was subject to a resource test that was applicable on December 1, 2009.

9.5. **Enrollment Cap Adjustment.** The state has elected to not apply an enrollment cap adjustment.

- 9.6. **Special Circumstances and Other Adjustments to the Adult Group FMAP Methodology.** The state has elected to not apply a special circumstances adjustment.
- 9.7. **Expansion State Designation.** The state does not meet the definition of expansion state in 42 CFR 433.204(b) and therefore does not qualify for temporary 2.2 percentage point increase in FMAP under 42 CFR 433.10(c)(7).
- 9.8. **Assurances.** The state assures the following:
 - a. The application of the enhanced FMAP claiming methodology will not affect the timing or approval of any individual’s eligibility for Medicaid.
 - b. The application of the enhanced FMAP claiming methodology will not be biased in such a manner as to inappropriately establish the numbers of, or medical assistance expenditures for, individuals determined to be newly or not newly eligible.

10. SUBSTANCE USE DISORDER

10.1. **Opioid Use Disorder (OUD)/Substance Use Disorder (SUD) Program.** The demonstration benefit package for Medicaid members includes OUD/SUD treatment services, including services provided in residential and inpatient treatment settings that qualify as an Institution for Mental Disease (IMD), which are not otherwise matchable expenditures under section 1903 of the Act. The state is eligible to receive FFP for Medicaid members residing in IMDs under the terms of this demonstration for coverage of medical assistance and OUD/SUD benefits that would otherwise be matchable if the beneficiary were not residing in an IMD as CMS approved the state’s Implementation Plan on November 9, 2017. Under this demonstration, beneficiaries have access to high quality, evidence-based OUD and other SUD treatment services ranging from acute withdrawal management to on-going chronic care for these conditions in cost-effective settings while also improving care coordination and care for comorbid physical and mental health conditions.

The coverage of OUD/SUD residential treatment and withdrawal management in IMDs expands Utah’s current SUD benefit package available to all Medicaid members as outlined in Table 3. Room and board costs are not considered allowable costs for residential treatment service providers unless they qualify as inpatient facilities under section 1905(a) of the Act.

Table 3. Utah OUD/SUD Benefits Coverage with Expenditure Authority		
SUD Benefit	Medicaid Authority	Expenditure Authority
Early Intervention (Screening, Brief Intervention and Referral to Treatment)	State plan (Individual services covered)	
Outpatient Therapy (Individual; Group; Family; Collateral)	State plan (Individual services covered)	
Intensive Outpatient Program	State plan (Individual services covered)	

Partial Hospitalization Treatment (including Day Treatment for children/youth under the age of 21)	State plan (Individual services covered)	
Residential Treatment	State plan (Individual services covered)	Services provided to individuals in IMDs
Withdrawal Management	State plan	Services provided to individuals in IMDs
Medication-Assisted Treatment (MAT)	State plan	Services provided to individuals in IMDs
Peer Support (including Parent/Family Peer Support)	State plan	Services provided to individuals in IMDs
Crisis Intervention (including Mobile Crisis)	State plan (Individual services covered)	
Residential Crisis Stabilization	State plan (Individual services covered)	Services provided to individuals in IMDs

10.2. **SUD Implementation Plan.** The state’s SUD Implementation Plan, initially approved for the period from November 1, 2017 through June 30, 2022, remains in effect for the approval period from July 1, 2022 through June 30, 2027, and is affixed to the STCs as Attachment D. Any future modifications to the approved SUD Implementation Plan will require CMS approval. Failure to progress in meeting the milestone goals agreed upon by the state and CMS will result in a funding deferral.

The approved SUD Implementation Plan describes the strategic approach and detailed project implementation plan, including timetables and programmatic content where applicable, for meeting the following milestones which reflect the key goals and objectives of this SUD demonstration project:

- a. **Use of Evidence-based SUD-specific Patient Placement Criteria:** Establishment of a requirement that providers assess treatment needs based on SUD-specific, multidimensional assessment tools, such as the American Society of Addiction Medicine (ASAM) Criteria or other comparable assessment and placement tools that reflect evidence-based clinical treatment guidelines within 12-24 months of OUD/SUD program demonstration approval;
- b. **Patient Placement:** Establishment of a utilization management approach such that beneficiaries have access to SUD services at the appropriate level of care and that the interventions are appropriate for the diagnosis and level of care, including an independent process for reviewing placement in residential treatment settings within 12-24 months of demonstration approval;
- c. **Use of Nationally Recognized SUD-specific Program Standards to Set Provider Qualifications for Residential Treatment Facilities:** Currently, residential treatment service providers must be a licensed organization, pursuant to the residential service provider qualifications described in Utah Administrative Code

R501 Residential Treatment Programs. The state will establish residential treatment provider qualifications in licensure, policy or provider manuals, managed care contracts or credentialing, or other requirements or guidance that meet program standards in the ASAM Criteria or other comparable, nationally recognized, SUD-specific program standards regarding in particular the types of services, hours of clinical care, and credentials of staff for residential treatment settings within 12-24 months of demonstration approval;

- d. **Standards of Care:** Establishment of a provider review process to ensure that residential treatment providers deliver care consistent with the specifications in the ASAM Criteria or other comparable, nationally recognized SUD program standards based on evidence-based clinical treatment guidelines for types of services, hours of clinical care, and credentials of staff for residential treatment settings within 12-24 months of demonstration approval;
- e. **MAT Standards of Care:** Establishment of a requirement that residential treatment providers offer MAT on-site or facilitate access to MAT off-site within 12-24 months of demonstration approval;
- f. **Sufficient Provider Capacity at Critical Levels of Care including MAT:** An assessment of the availability of providers in the key levels of care throughout the state, or in the regions of the state participating under this demonstration, including those that offer MAT within 12 months of SUD program demonstration approval;
- g. **Implementation of Comprehensive Treatment and Prevention Strategies to Address Opioid Abuse and OUD:** Implementation of opioid prescribing guidelines along with other interventions to prevent prescription drug abuse and expand access to naloxone;
- h. **SUD Health IT Plan:** Implementation of the milestones and metrics as detailed in STC 10.2; and
- i. **Improved Care Coordination and Transitions:** Establishment and implementation of policies to ensure residential and inpatient facilities link beneficiaries with community-based services and supports following stays in these facilities within 24 months of demonstration approval.

10.3. **SUD Health Information Technology (Health IT).** The state provided CMS with an assurance that it has a sufficient health IT infrastructure/“ecosystem” at every appropriate level (i.e. state, delivery system, health plan/MCO and individual provider) to achieve the goals of the demonstration—or it will submit to CMS a plan to develop the infrastructure/capabilities. This “SUD Health IT Plan,” is included as a section of the state’s SUD Implementation Plan (see STC 10.2). The SUD Health IT Plan details the necessary health IT capabilities in place to support beneficiary health outcomes to address the SUD goals of the demonstration. The plan also identifies areas of SUD health IT ecosystem improvement.

- a. The SUD Health IT section of the Implementation Plan includes implementation milestones and dates for achieving them (see Attachment D).
- b. The SUD Health IT Plan must align with the state’s broader State Medicaid Health IT Plan (SMHP) and, if applicable, the state’s Behavioral Health (BH) “Health IT” Plan.
- c. The SUD Health IT Plan describes the state’s goals, each DY, to enhance the state’s prescription drug monitoring program (PDMP).¹
- d. The SUD Health IT Plan addresses how the state’s PDMP enhances ease of use for prescribers and other state and federal stakeholders.² This also includes plans to include PDMP interoperability with a statewide, regional or local Health Information Exchange. Additionally, the SUD Health IT Plan describes ways in which the state will support clinicians in consulting the PDMP prior to prescribing a controlled substance—and reviewing the patients’ history of controlled substance prescriptions— prior to the issuance of a Controlled Substance Schedule II (CSII) opioid prescription.
- e. The SUD Health IT Plan describes the state’s capabilities to leverage a master patient index (or master data management service, etc.) in support of SUD care delivery, as applicable. Additionally, the SUD Health IT Plan must describe current and future capabilities regarding PDMP queries—and the state’s ability to properly match patients receiving opioid prescriptions with patients in the PDMP. The state will also indicate current efforts or plans to develop and/or utilize current patient index capability that supports the programmatic objectives of the demonstration.
- f. The SUD Health IT Plan describes how the activities described in (a) through (e) above will: (a) support broader state and federal efforts to diminish the likelihood of long-term opioid use directly correlated to clinician prescribing patterns³ and (b) ensure that Medicaid does not inappropriately pay for opioids—and that states implement effective controls to minimize the risk.
- g. In developing the Health IT Plan, states shall use the following resources.

¹ Prescription drug monitoring programs (PDMP) are electronic databases that track controlled substance prescriptions in states. PDMPs can provide health authorities timely information about prescribing and patient behaviors that contribute to the “opioid” epidemic and facilitate a nimble and targeted response.

² *Ibid.*

³ Shah, Anuj, Corey Hayes and Bradley Martin. *Characteristics of Initial Prescription Episodes and Likelihood of Long-Term Opioid Use — United States, 2006–2015*. MMWR Morb Mortal Wkly Rep 2017;66.

- i. States may use resources at Health IT.Gov (<https://www.healthit.gov/playbook/opioid-epidemic-and-health-it/>) in “Section 4: Opioid Epidemic and Health IT.”
 - ii. States may also use the CMS 1115 Health IT resources available on “Medicaid Program Alignment with State Systems to Advance HIT, HIE and Interoperability” at <https://www.medicaid.gov/medicaid/data-and-systems/hie/index.html>. States should review the “1115 Health IT Toolkit” for health IT considerations in conducting an assessment and developing their Health IT Plans.
 - iii. States may request from CMS technical assistance to conduct an assessment and develop plans to ensure they have the specific health IT infrastructure with regards to PDMP plans and, more generally, to meet the goals of the demonstration.
- h. The state includes in its SUD Monitoring Protocol (see STC 14.6) an approach to monitoring its SUD Health IT Plan which includes performance metrics provided by CMS or State defined metrics to be approved in advance by CMS.
 - i. The state will monitor progress, each DY, on the implementation of its SUD Health IT Plan in relationship to its milestones and timelines—and report on its progress to CMS in an addendum to its Annual Monitoring Reports (see STC 14.8).
 - j. The state shall advance the standards identified in the ‘Interoperability Standards Advisory—Best Available Standards and Implementation Specifications’ (ISA) in developing and implementing the state’s SUD Health IT policies and in all related applicable State procurements (e.g., including managed care contracts) that are associated with this demonstration.
 - i. Wherever it is appropriate, the state must require that contractors providing services paid for by funds authorized under this demonstration shall adopt the standards, referenced in 45 CFR Part 170.
 - ii. Wherever services paid for by funds authorized by this demonstration are not addressed by 45 CFR Part 170 but are addressed by the ISA, the state should require that contractors providing such services adopt the appropriate ISA standards.

11. INTENSIVE STABILIZATION SERVICES (ISS) PROGRAM

- 11.1. **Overview.** This program provides ISS to Medicaid eligible children and youth under age 21 in state custody or those at risk of being placed in state custody who are experiencing significant emotional and/or behavioral challenges. It is intended to support Utah’s System of Care, which is a customized service approach to keep families safely together while effectively helping children with emotional and/or behavioral health needs thrive in their homes, schools, and communities.

- 11.2. **Operations.** The program is administered through the Utah Department of Health and Human Services (DHHS). The state is contracting with Regional Administrators throughout the state to serve 29 counties. The Regional Administrators are responsible to subcontract with ISS teams who will screen the Medicaid children/youth based on medical necessity, acuity, and need to authorize ISS using this daily bundled rate. The ISS providers are all Medicaid enrolled providers.
- 11.3. **Eligibility.** Medicaid eligible children/youth under age 21, whose eligibility is derived from the state plan, and are experiencing significant emotional and/or behavioral challenges while in state custody or are at risk of being placed in state custody.
- a. **Target Group.** The ISS program is available to Medicaid enrolled child/youth under age 21, who meet the following needs-based criteria that would otherwise be allowable under a 1915(i) state plan amendment (SPA).
 - b. **Needs-Based Criteria.** The Medicaid enrolled child/youth is assessed using the ISS Utah Family and Children Engagement Tool (UFACET) evaluation. The Medicaid enrolled child/youth must have a rating of at least “2” or higher indicating the need for assistance with at least one of the following significant emotional and/or behavioral challenges that impair the child’s ability to focus and control impulsive behaviors that affect their ability to control or regulate emotions to the point where it interferes with their daily lives and relationships and negatively affects performance at school, work and/or home: short attention span, impulsiveness, aggression, self-injurious behaviors, risk of harm to others, fighting withdrawal, excessive fear or anxiety, hostility, irritability uncooperative, oppositional, and non-compliant with rules or authority figures.

And the child/youth must also meet at least one of the following risk factors:

- i. A history of receiving services, or at risk of receiving services, from one or more DHS agencies (child welfare, juvenile justice, service for people with disabilities, mental health or substance abuse, and/or the courts). At risk of receiving services may include one or more of the following:
 1. The child has juvenile court charges;
 2. The child has been on probation previously;
 3. The child/family has an open child protection investigation;
 4. The child is in the process of eligibility determination for disability services;
 5. The child has received inpatient psychiatric services and/or has been referred to the Pediatric program at the Utah State Hospital; or
 6. The child has a mental health condition or substance abuse history.
- ii. At risk of being placed into the custody of a state agency, which includes one of the following:

1. The child is on probation or has sufficient juvenile court charges that the judge is considering placement with the Department for community placement or secure care;
 2. The child/family has an open in-home services case with the Division of Child and Family Services based on a finding of dependency, or a child protection investigation, and placement of the child(ren) in protective custody is being recommended;
 3. The child has been in custody previously under similar circumstances;
 4. The child is in the process of eligibility determination for disability services and the family is struggling to provide care for them;
 5. The child has a serious mental health condition or substance use history and the family is struggling to continue care for them;
 6. The child has experienced significant disorders post adoption; or
 7. The child has experienced multiple failed private placements.
- iii. At risk of reverting back to a higher level of care due to behavioral or emotional concerns;
 - iv. Has been involved in the Juvenile Competency process;
 - v. Has been frequently utilizing hospital emergency services to manage behavioral, developmental, and/or mental health challenges; or
 - vi. Has been referred to the DHS High Level Staffing Committee.

11.4. **Benefits.** This program provides both state plan behavioral health services and home and community-based services (HCBS) that are not currently authorized through the state plan. The state plan services included in the daily bundled rate are outlined in Table 2 and the service benefits, limitations, and provider qualifications are specified in the state plan. The HCBS provided include:

- a. **Service name:** Respite
 - i. **Service Description:** Services provided to Medicaid children/youth on a short-term basis due to the absence of, or need for relief for the persons who normally provide care for the Medicaid child/youth. Respite may be delivered in multiple periods of duration such as partial hour, hourly, daily without overnight, or daily with overnight. Respite may be provided in the Demonstration participant's home, a DHHS licensed group home, or another community-based setting approved by DHHS.
 - ii. **Service Limits:** Room and board costs will not be paid when services are provided in the Demonstration participant's home or place of residence. The service will be approved if it complies with DHHS respite policies.

iii. **Provider Specifications:** Providers must meet qualifications as specified by DHHS and must be a Medicaid enrolled provider.

b. **Service name:** Non-Medical Transportation

i. **Service Description:** This transportation service will be provided to Medicaid children/youth that are determined by the Care Manager to be in need of short-term transportation to and/or from a non-medical activity that is an integral part of the youth's individualized service plan where there are no other feasible transportation options. Coverage of transportation for the primary caregiver is provided when the primary caregiver is accompanying the child. These nonmedical services could include, but are not limited to, recreational activities, youth training sessions, transitioning youth services, after-school programs not associated with a youth's Individual Education Plan (IEP), and parent support services that include the child.

ii. **Service Limits:** This service must be a part of a comprehensive individualized service plan developed by a Care Manager and requires prior authorization. The youth must be currently authorized and receiving care management services. Frequency and duration of service must be supported by a needs assessment and included in the participant's individualized service plan. This service must be provided in a community setting and is not to be used in a residential or hospital setting.

iii. **Provider Specifications:** Providers and their staff must meet minimum levels of education, experience, and training as delineated by DHHS and the provider and staff must be enrolled as a Utah Medicaid provider.

11.5. **Delivery System.** As of November 25, 2019, the intensive stabilization services (ISS) will be delivered during the first eight weeks of the intensive program on a FFS basis using a daily bundled rate. Please refer to Attachment H: Intensive Stabilization Services Program Claiming Methodology Protocol.

11.6. **Additional Delivery System Requirements: HCBS Not Authorized through the State Plan.** The following additional delivery system requirements apply to all the HCBS services in this demonstration.

a. **Demonstration Participant Protections.** The state will assure that children and youth are afforded linkages to protective services (e.g., Ombudsman services, Protection and Advocacy, Division of Child Protection and Permanency) through all service entities. The state will also develop and implement a process for community-based providers to conduct efficient, effective, and economical background checks on all prospective employees/providers with direct physical access to enrollees.

b. **Fair Hearings.** All enrollees must have access to the state fair hearing process as required by 42 CFR 431 Subpart E.

- c. **Conflict of Interest.** The state agrees that the entity that authorizes the services is external to the agency or agencies that provide the HCB services. The state also agrees that appropriate separation of assessment, treatment planning and service provision functions are incorporated into the state's conflict of interest policies.
- d. **Approved Quality Improvement Strategy.** The state is required to work with CMS to develop approvable performance measures within 90 days following approval of the 1115 for the following waiver assurances (i through vi below):
 - i. **Administrative Authority:** A performance measure should be developed and tracked for any authority that the State Medicaid Agency (SMA) delegates to another agency, unless already captured in another performance measure.
 - ii. **Eligibility based on 1115 Requirements:** A performance measure should be developed that tracks eligibility for the Intensive Stabilization Services (ISS) Program that meets the section 1115 requirements.
 - iii. **Qualified Providers:** The state must have performance measures that track that providers meet licensure/certification standards and that non-certified providers are monitored to meet state requirements.
 - iv. **Service Plan:** The state must demonstrate it has designed and implemented an effective system for reviewing the adequacy of service plans for the Medicaid children/youth receiving ISS. Performance measures are required to demonstrate service plans address all assessed needs and personal goals, that services are delivered in accordance with the service plan including type, scope, amount, duration, and frequency specified in the service plan, and for choice of non-state plan HCBS services.
 - v. **Health and Welfare:** The state must demonstrate it has designed and implemented an effective system for assuring HCBS participants health and welfare. The state must have performance measures that track that on an ongoing basis it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death; that an incident management system is in place that effectively resolves incidents and prevents further singular incidents to the extent possible; that state policies and procedures for the use or prohibition of restrictive interventions are followed; and, that the state establishes overall health care standards and monitors those standards based on the responsibility of the service provider.
 - vi. **Financial Accountability:** The state must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of HCBS. The state must have performance measures that track that it provides evidence that claims are coded and paid for in accordance for services rendered. The state will audit rates used by each provider to ensure they are consistent with the approved rate methodology.

- e. The state will submit a report to CMS following receipt of an Evidence Request letter and report template from the Division of HCBS Operations and Outreach (DHCBSO) no later than 21 months prior to the end of the approved demonstration extension period which includes evidence on the status of the HCBS quality assurances and measures that adheres to the requirements outlined in the March 12, 2014, CMS Informational Bulletin, Modifications to Quality Measures and Reporting in §1915(c) Home and Community-Based Waivers. Following receipt of the state’s evidence report, the DHCBSO will issue a DRAFT report to the state and the state will have 90 days to respond. Upon receipt of the state’s response, DHCBSO will review the evidentiary report to determine whether the assurances have been met and will issue a FINAL report to the state within 60 days. This information could be captured in the section 1115 Summative Evaluation Report detailed in STC 17.8.
- f. The state must report annually the deficiencies found during the monitoring and evaluation of the HCBS waiver assurances, an explanation of how these deficiencies have been or are being corrected, as well as the steps that have been taken to ensure that these deficiencies do not reoccur. The state must also report on the number of substantiated instances of abuse, neglect, exploitation and/or death, the actions taken regarding the incidents and how they were resolved. Submission is due no later than 6 months following the end of the demonstration year. This information could be included in the Annual Monitoring Reports submitted for this section 1115 demonstration, detailed in STC 14.8.

12. SERIOUS MENTAL ILLNESS PROGRAM AND BENEFITS

- 12.1. **SMI/SED Program Benefits.** Since CMS’s approval of the SMI/SED Implementation Plan, beneficiaries have had access to the full range of otherwise covered Medicaid services, including SMI treatment services. SMI services range in intensity from short-term acute care in inpatient settings for SMI, to ongoing chronic care for such conditions in cost-effective community-based settings. The state worked to improve care coordination and care for co-occurring physical and behavioral health conditions. The state must achieve a statewide average length of stay of no more than 30 days in IMD treatment settings for beneficiaries receiving coverage through this demonstration’s SMI Program, to be monitored pursuant to the SMI/SED Monitoring Protocols outlined in STC 14.6 below.
- 12.2. **SMI/SED Implementation Plan.** The state’s SMI/SED Implementation Plan, initially approved for the period from December 16, 2020 through June 30, 2022, remains in effect for the approval period from July 1, 2022 through June 30, 2027, and is affixed to the STCs as Attachment E. Any future modifications to the approved SMI/SED Implementation Plan will require CMS approval. Failure to progress in meeting the milestone goals agreed upon by the state and CMS will result in a funding deferral.

The approved SMI/SED Implementation Plan describes the strategic approach and detailed project implementation plan, including timetables and programmatic content where applicable, for meeting the following milestones which reflect the key goals and objectives of this SMI/SED demonstration project:

a. Ensuring Quality of Care in Psychiatric Hospitals and Residential Settings.

- i. Hospitals that meet the definition of an IMD in which beneficiaries receiving demonstration services under the SMI/SED program are residing must be licensed or approved as meeting standards for licensing established by the agency of the state or locality responsible for licensing hospitals prior to the state claiming FFP for services provided to beneficiaries residing in a hospital that meets the definition of an IMD. In addition, hospitals must be in compliance with the conditions of participation set forth in 42 CFR Part 482 and either: a) be certified by the state agency as being in compliance with those conditions through a state agency survey, or b) have deemed status to participate in Medicare as a hospital through accreditation by a national accrediting organization whose psychiatric hospital accreditation program or acute hospital accreditation program has been approved by CMS.
- ii. Residential treatment providers that meet the definition of an IMD in which beneficiaries receiving demonstration services under the SMI/SED program are residing must be licensed, or otherwise authorized, by the state to primarily provide treatment for mental illnesses. They must also be accredited by a nationally recognized accreditation entity prior to the state claiming FFP for services provided to beneficiaries residing in a residential facility that meets the definition of an IMD.
- iii. Establishment of an oversight and auditing process that includes unannounced visits for ensuring participating psychiatric hospitals and residential treatment settings meet state licensure or certification requirements as well as a national accrediting entity's accreditation requirements;
- iv. Use of a utilization review entity (for example, a managed care organization or administrative service organization) to ensure beneficiaries have access to the appropriate levels and types of care and to provide oversight to ensure lengths of stay are limited to what is medically necessary and only those who have a clinical need to receive treatment in psychiatric hospitals and residential treatment settings are receiving treatment in those facilities;
- v. Establishment of a process for ensuring that participating psychiatric hospitals and residential treatment settings meet applicable federal program integrity requirements, and establishment of a state process to conduct risk-based screening of all newly enrolling providers, as well as revalidation of existing providers (specifically, under existing regulations, the state must screen all newly enrolling providers and reevaluate existing providers pursuant to the rules in 42 CFR Part 455 Subparts B and E, ensure providers have entered into Medicaid provider agreements pursuant to 42 CFR 431.107, and establish rigorous program integrity protocols to safeguard against fraudulent billing and other compliance issues);
- vi. Implementation of a state requirement that participating psychiatric hospitals and residential treatment settings screen beneficiaries for comorbid physical

health conditions and SUDs and demonstrate the capacity to address comorbid physical health conditions during short-term stays in residential or inpatient treatment settings (e.g., with on-site staff, telemedicine, and/or partnerships with local physical health providers).

b. Improving Care Coordination and Transitions to Community-Based Care.

- i. Implementation of a process to ensure that psychiatric hospitals and residential treatment facilities provide intensive pre-discharge, care coordination services to help beneficiaries transition out of those settings into appropriate community-based outpatient services, including requirements that facilitate participation of community-based providers in transition efforts (e.g., by allowing beneficiaries to receive initial services from a community-based provider while the beneficiary is still residing in these settings and/or by engaging peer support specialists to help beneficiaries make connections with available community-based providers and, where applicable, make plans for employment);
- ii. Implementation of a process to assess the housing situation of a beneficiary transitioning to the community from psychiatric hospitals and residential treatment settings and to connect beneficiaries who may experience homelessness upon discharge or who would be discharged to unsuitable or unstable housing with community providers that coordinate housing services, where available;
- iii. Implementation of a requirement that psychiatric hospitals and residential treatment settings have protocols in place to ensure contact is made by the treatment setting with each discharged beneficiary within 72 hours of discharge and to help ensure follow-up care is accessed by individuals after leaving those facilities by contacting the individuals directly and, as appropriate, by contacting the community-based provider they were referred to;
- iv. Implementation of strategies to prevent or decrease the length of stay in emergency departments among beneficiaries with SMI or SED (e.g., through the use of peer support specialists and psychiatric consultants in EDs to help with discharge and referral to treatment providers);
- v. Implementation of strategies to develop and enhance interoperability and data sharing between physical, SUD, and mental health providers, with the goal of enhancing coordination so that disparate providers may better share clinical information to improve health outcomes for beneficiaries with SMI or SED.

c. Increasing Access to Continuum of Care Including Crisis Stabilization Services.

- i. Establishment of a process to annually assess the availability of mental health services throughout the state, particularly crisis stabilization services, and updates on steps taken to increase availability;

- ii. Commitment to implementation of the SMI/SED Financing Plan described in STC12.4;
- iii. Implementation of strategies to improve the state’s capacity to track the availability of inpatient and crisis stabilization beds to help connect individuals in need with that level of care as soon as possible;
- iv. Implementation of a requirement that providers, plans, and utilization review entities use an evidence-based, publicly available patient assessment tool, preferably endorsed by a mental health provider association (e.g., LOCUS or CASII) to determine appropriate level of care and length of stay.

d. Earlier Identification and Engagement in Treatment and Increased Integration

- i. Implementation of strategies for identifying and engaging individuals, particularly adolescents and young adults, with SMI/SED in treatment sooner, including through supported employment and supported education programs;
- ii. Increasing integration of behavioral health care in non-specialty care settings, including schools and primary care practices, to improve identification of SMI/SED conditions sooner and improve awareness of and linkages to specialty treatment providers;
- iii. Establishment of specialized settings and services, including crisis stabilization services, focused on the needs of young people experiencing SMI or SED.

12.3. **SMI/SED Health Information Technology (Health IT) Plan.** The Health IT Plan is intended to apply only to those State Health IT functionalities impacting beneficiaries within this demonstration and providers directly funded by this demonstration. The state has provided CMS with an assurance that it has a sufficient health IT infrastructure/“ecosystem” at every appropriate level (i.e. state, delivery system, health plan/MCO and individual provider) to achieve the goals of the demonstration. The state submitted to CMS a Health IT Plan, and was included as a section of the SMI/SED Implementation Plan (see STC 12.2) to develop the infrastructure/capabilities of the state’s health IT infrastructure.

The Health IT Plan details the necessary health IT capabilities in place to support beneficiary health outcomes to address the SMI/SED goals of the demonstration. The plan(s) will also be used to identify areas of health IT ecosystem improvement. The Plan must include implementation milestones and projected dates for achieving them, and must be aligned with the state’s broader State Medicaid Health IT Plan (SMHP) and, if applicable, the state’s Behavioral Health (BH) IT Health Plan.

The state includes in its SMI/SED Monitoring Protocol (see STC 14.6) an approach to monitoring its SMI Health IT Plan which will include performance metrics to be approved in advance by CMS.

The state monitors progress, each DY, on the implementation of its SMI/SED Health IT Plan in relationship to its milestones and timelines—and report on its progress to CMS in in an addendum to its Annual Report (see STC 14.8).

As applicable, the state should advance the standards identified in the ‘Interoperability Standards Advisory – Available Standards and Implementation Specifications’ (ISA) in developing and implementing the state’s SMI/SED Health IT policies and in all related applicable state procurements (e.g. including managed care contracts) that are associated with this demonstration.

Where there are opportunities at the state- and provider-level (up to and including usage in MCO or ACO participation agreements) to leverage federal funds associated with a standard referenced in 45 CFR 170 Subpart B, the state should use the federally-recognized standards, barring another compelling state interest.

Where there are opportunities at the state- and provider-level to leverage federal funds associated with a standard not already referenced in 45 CFR 170 but included in the ISA, the state should use the federally-recognized ISA standards, barring no other compelling state interest.

Components of the Health IT Plan include:

- a. The Health IT Plan describes, as applicable, the state’s capabilities to leverage a master patient index (or master data management service, etc.) in support of SED/SMI care delivery. The state also indicated efforts to develop and/or utilize current patient index capability that supports the programmatic objectives of the demonstration.
 - i. The Health IT Plan describes the state’s current and future capabilities to support providers implementing or expanding Health IT functionality in the following areas: 1) Referrals, 2) Electronic care plans and medical records, 3) Consent, 4) Interoperability, 5) Telehealth, 6) Alerting/analytics, and 7) Identity management.
 - ii. In developing the Health IT Plan, the state should have used the following resources:
 1. States may use federal resources available on Health IT.Gov (<https://www.healthit.gov/topic/behavioral-health>) including but not limited to “Behavioral Health and Physical Health Integration” and “Section 34: Opioid Epidemic and Health IT” (<https://www.healthit.gov/playbook/health-information-exchange/>).
 2. States may also use the CMS 1115 Health IT resources available on “Medicaid Program Alignment with State Systems to Advance HIT, HIE and Interoperability” at <https://www.medicaid.gov/medicaid/data-and-systems/hie/index.html>. States should review the “1115 Health IT

Toolkit” for health IT considerations in conducting an assessment and developing their Health IT Plans.

3. States may request from CMS technical assistance to conduct an assessment and develop plans to ensure they have the specific health IT infrastructure with regards to electronic care plan sharing, care coordination, and behavioral health-physical health integration, to meet the goals of the demonstration.

12.4. **SMI/SED Financing Plan.** As part of the SMI/SED Implementation Plan referred to in STC 12.2, the state submitted a financing plan for approval by CMS. The SMI Financing Plan is incorporated into the STCs as part of the Implementation Plan in Attachment E and, may only be altered with CMS approval. Components of the SMI/SED Financing Plan include:

- a. A plan to increase the availability of non-hospital, non-residential crisis stabilization services, including but not limited to the following: services made available through crisis call centers, mobile crisis units, coordinated community response services that includes law enforcement and other first responders, and observation/assessment centers; and
- b. A plan to increase availability of ongoing community-based services such as intensive outpatient services, assertive community treatment, and services delivered in integrated care settings;
- c. A plan to ensure the on-going maintenance of effort (MOE) on funding outpatient community-based services to ensure that resources are not disproportionately drawn into increasing access to treatment in inpatient and residential settings at the expense of community-based services.

12.5. **Availability of FFP for the SMI/SED Services Under Expenditure Authority #11.** FFP is only available for services provided to beneficiaries during short term stays in an IMD to receive acute care for a primary diagnosis of SMI or SED. The state may claim FFP for services furnished to beneficiaries during IMD stays of up to 60 days, as long as the state shows at its midpoint assessment that it is meeting the requirement of a 30 day or less average length of stay (ALOS) for beneficiaries residing in an IMD who are receiving covered services in an IMD. Demonstration services furnished to beneficiaries whose stays in IMDs exceed 60 days are not eligible for FFP under this demonstration. If the state cannot show that it is meeting the 30 day or less ALOS requirement within one standard deviation at the mid-point assessment, the state may only claim FFP for services furnished to beneficiaries during IMD stays of up to 45 days until such time that the state can demonstrate that it is meeting the 30 day or less ALOS requirement. The state will ensure that medically necessary services are provided to beneficiaries that have stays in excess of 60 days—or 45 days, as relevant.

12.6. **Unallowable Expenditures Under the SMI Expenditure Authority.** In addition to the other unallowable costs and caveats already outlined in these STCs, the state may not receive

FFP under any expenditure authority approved under this demonstration for any of the following:

- a. Room and board costs for residential treatment service providers unless they qualify as inpatient facilities under section 1905(a) of the Act.
- b. Costs for services furnished to beneficiaries who are residents in a nursing facility as defined in section 1919 of the Act that qualifies as an IMD.
- c. Costs for services furnished to beneficiaries who are involuntarily residing in a psychiatric hospital or residential treatment facility by operation of criminal law.
- d. Costs for services provided to beneficiaries under age 21 residing in an IMD unless the IMD meets the requirements for the “inpatient psychiatric services for individuals under age 21” benefit under 42 CFR 440.160, 441 Subpart D, and 483 Subpart G.

13. HOUSING RELATED SERVICES AND SUPPORTS PROGRAM

- 13.1. **Overview.** This program provides housing related services and supports (HRSS) in the form of tenancy support, community transition and supportive living services to beneficiaries experiencing homelessness, food, or transportation insecurity, or interpersonal violence and trauma.
- 13.2. **Eligibility.** HRSS are available to Medicaid beneficiaries, ages 19 – 64, who are members of the Targeted Adult under the demonstration as defined in STC 4.3(f)4.
 - a. **Target Group.** The HRSS program is available to Medicaid beneficiaries in the Targeted Adult population.
 - b. **Needs-Based Criteria and Risk Factors.** Beneficiaries in the Targeted Adult population must meet one needs-based criteria and one risk factor, as described in Table 4. Community transition services are not a state plan benefit and will be provided to all beneficiaries in the Targeted Adult population who meet the following criteria/risk factors.

Table 4. Needs Based Criteria and Risk Factors	
Needs Based Criteria	
<ul style="list-style-type: none"> ● Requires improvement stabilization, or prevention of deterioration of functioning (including ability to live independently without support) resulting from the presence of a diagnosable substance use disorder, serious mental illness, developmental disability, cognitive impairment or behavioral impairment resulting from dementia, brain injury or other medically-based behavior condition/disorder; ● Requires assistance with one or more Activities of Daily Living (ADLs) one of which may be body care, verbal queuing or hands on assistance. 	
Risk Factors	

- Living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter continuously for at least 12- months, or on at least 4 separate occasions in the last 3 years;
- Currently living in supportive housing, but who has previously met the definition of chronically homeless defined in STC 4.3(f)(i)4;
- Successfully completed a substance use disorder treatment program while incarcerated in jail or prison, including a tribal jail;
- Was admitted to (and discharged from) the Utah State Hospital due to an alleged criminal offense;
- Has been involved in a Drug Court or Mental Health Court, including tribal courts;
- Receives General Assistance from the Utah Department of Workforce Services,
- Was civilly committed to (and discharged from) the Utah State Hospital.

13.3. **Benefits.** The following HRSS the state will provide include:

- a. **Tenancy Support Service.** The following services will be provided by Medicaid enrolled providers certified by the state per Administrative rule R523-7-4).
 - i. Tenant screening and housing assessment to identify housing preferences (e.g., housing type, location, living alone or with someone else, roommate identification, type of accommodations needed, etc.) barriers to successful tenancy, identification of housing transition and retention barriers.
 - ii. Development of an individualized housing support plan to address identified barriers and establish goals to address each issue, identification of providers/services required to meet the established goal.
 - iii. Development of a housing support crisis plan to identify prevention and early intervention services when housing is jeopardized.
 - iv. Participation in planning meetings to assist beneficiaries with the development of a housing support and crisis plan to address existing or recurring housing retention barriers.
 - v. Assistance with the housing application process, including application/documentation completion and submission.
 - vi. Assistance with completing reasonable accommodation requests.
 - vii. Assistance with the housing search process
 - viii. Identification of resources to cover housing expenses (e.g., rental application fees, security deposits, moving costs, furnishings, adaptive aids, environmental modifications, and other one-time expenses,
 - ix. Ensuring the living environment is safe and move-in ready.
 - x. Connecting beneficiaries to education and training on tenant and landlord rights, and responsibilities.

- xi. Providing eviction risk reduction services (e.g., conflict resolution skills, coaching, role-playing and communication strategies targeted towards resolving disputes with landlords and neighbors)
 - 1. Communicating with landlords and neighbors to reduce the risk of eviction.
 - 2. Addressing biopsychosocial behaviors that put housing at risk;
 - 3. Providing ongoing support with activities related to household management
- xii. Assistance with the housing voucher/subsidy application and recertification processes.

Beneficiaries with Serious Mental Illness (SMI) have access to Targeted Case Management (TCM) services under Utah’s Medicaid state plan. Targeted Adults with a serious mental illness who receive benefits on a fee for service basis and are not enrolled in a Prepaid Mental Health Plan (PMHP) will have access to Tenancy Support Services if they cannot otherwise access Targeted Case Management services. To ensure there is no duplication of services, the state will review and authorize requests for tenancy support services through the demonstration only after verifying that Targeted Case Management services are not being provided.

b. **Community Transition Services.** Services provided to assist eligible beneficiaries to secure, establish, and maintain a safe and healthy living environment. This service is available to individuals moving from an institution, a congregate living arrangement, beneficiaries moving from a more restrictive to a less restrictive community setting, or beneficiaries who are homeless, or those who are unsafely housed or lack secure housing. Services include:

- i. One-time purchase of essential household items and moving expenses required to occupy and use a community domicile, including furniture, window coverings, food preparation items, and bed/bath linens; services necessary for the individual’s health and safety such as pest eradication and one-time cleaning prior to occupancy; moving expenses; necessary home accessibility adaptations; and activities to assess, arrange and procure necessary resources. Services needed to establish basic living arrangements in a community setting, including kitchen, bathroom and cleaning equipment/goods.
- ii. Payment of a security deposit when a member moves into a new residence and it is required for a beneficiary to obtain a lease. To address the complex social determinants of health needs of individuals enrolled in the Targeted Adult Population, the state will impose a maximum of no more than two security deposit payments per beneficiary during the five-year demonstration approval period to help individuals who have transitioned into a community-based living arrangement and subsequently lose the community residence.

- iii. One-time non-refundable fees to submit rental applications, establish utility and other services, such as pest eradication, that are essential to the operation of the residence.

Services are furnished when determined reasonable and necessary, when identified in a member's housing support plan, and when the beneficiary is unable to secure funding/items from other sources. Entities coordinating the purchase of equipment or supplies or paying deposits or other set-up fees for Medicaid members must be enrolled Medicaid providers that are: Housing authorities, public or private not-for-profit service organizations, faith-based organizations, state or local departments and agencies, units of local governments or homeless services providers (who provide housing/homeless services to individuals and/or families who are experiencing homelessness or are at risk of becoming homeless).

- c. **Supportive Living Services.** Services designed to link beneficiaries to decent, safe, affordable community-based housing and assist beneficiaries remain in the housing unit. Entities providing Supported Living services for Medicaid members must be Medicaid enrolled providers.

Coordinated services may include the following, excluding room and board costs:

- i. Routine medical care, medication management, health and wellness education, nutritional counseling, home health aides and personal care services.
- ii. Mental health screening and assessments, counseling, psychiatric services, clubhouses, peer services and assertive community treatments.
- iii. Substance abuse services relapse prevention, counseling, intensive outpatient services, medication assisted treatment, detoxification, residential services and formal/informal (Alcoholic Anonymous/Narcotics Anonymous) recovery support services.
- iv. Independent living services, including financial management, entitlement assistance, cooking and meal preparation training and mediation training.
- v. General supportive services such as case management, community support, peer support, crisis intervention and non-medical transportation.

Targeted Adults are not enrolled with the Prepaid Mental Health Plans (PMHPs) or one of the Utah Medicaid Integrated Care (UMIC) plans for their behavioral health services, and receive these benefits on a fee for service basis. Because these services are not otherwise available through Medicaid state plan or 1915(b)(3), all otherwise eligible Targeted Adults would receive supportive living services under the demonstration.

- 13.4. **Quality Improvement Strategy.** The state must have an approved Quality Improvement Strategy and is required to develop performance measures to address the following requirements:
- a. Service plans: a) address assessed needs of HRSS participants; b) are updated annually; and c) document choice of services and providers.
 - b. Eligibility Requirements: a) an assessment for HRSS eligibility is provided to all applicants for whom there is reasonable indication that HRSS services may be needed in the future; b) the processes and instruments described in the approved program for determining HRSS eligibility are applied appropriately; and c) the HRSS benefit eligibility of enrolled individuals is reassessed at least annually or if more frequent, as specified in the approved program.
 - c. Providers meet required qualifications.
 - d. Settings meet the home and community-based setting requirements as specified in the benefit and in accordance with 42 CFR 441.710(a)(1) and (2).
 - e. The SMA retains authority and responsibility for program operations and oversight.
 - f. The SMA maintains financial accountability through payment of claims for services that are authorized and furnished to HRSS participants by qualified providers.
 - g. The state identifies, addresses, and seeks to prevent incidents of abuse, neglect, and exploitation.
 - h. The state must also describe the process for systems improvement as a result of aggregated discovery and remediation activities.

The state must annually report the actual number of unduplicated individuals served and the estimated number of individuals for the following year. Additional reporting requirements pertaining to the HRSS component is included in Section 14, and the state must integrate information outlined in STC 13.4 through its demonstration monitoring reports, further discussed below.

14. GENERAL REPORTING REQUIREMENTS

- 14.1. **Deferral for Failure to Submit Timely Demonstration Deliverables.** CMS may issue deferrals in accordance with 42 CFR part 430 subpart C, in the amount of \$5,000,000 (\$5M) per deliverable (federal share) when items required by these STCs (e.g., required data elements, analyses, reports, design documents, presentations, and other items specified in these STCs (hereafter singly or collectively referred to as “deliverable(s)”) are not submitted timely to CMS or found to not be consistent with the requirements approved by CMS. A deferral shall not exceed the value of the federal amount for the demonstration period. The state does not relinquish its rights provided under 42 CFR part 430 subpart C to challenge any CMS finding that the state materially failed to comply with the terms of this agreement.

The following process will be used: 1) Thirty (30) days after the deliverable was due if the state has not submitted a written request to CMS for approval of an extension as described in subsection (b) below; or 2) thirty days after CMS has notified the state in writing that the deliverable was not accepted for being inconsistent with the requirements of this agreement and the information needed to bring the deliverable into alignment with CMS requirements:

- a. CMS will issue a written notification to the state providing advance notification of a pending deferral for late or non-compliant submissions of required deliverables.
- b. For each deliverable, the state may submit a written request for an extension to submit the required deliverable that includes a supporting rationale for the cause(s) of the delay and the state's anticipated date of submission. Should CMS agree to the state's request, a corresponding extension of the deferral process can be provided. CMS may agree to a corrective action plan submitted by the state as an interim step before applying the deferral, if the state proposes a corrective action plan in the state's written extension request.
- c. If CMS agrees to an interim corrective plan in accordance with subsection (b), and the state fails to comply with the corrective action plan or, despite the corrective action plan, still fails to submit the overdue deliverable(s) with all required contents in satisfaction of the terms of this agreement, CMS may proceed with the issuance of a deferral against the next Quarterly Statement of Expenditures reported in Medicaid Budget and Expenditure System/State Children's Health Insurance Program Budget and Expenditure System (MBES/CBES) following a written deferral notification to the state.
- d. If the CMS deferral process has been initiated for state non-compliance with the terms of this agreement for submitting deliverable(s), and the state submits the overdue deliverable(s), and such deliverable(s) are accepted by CMS as meeting the standards outlined in these STCs, the deferral(s) will be released
- e. As the purpose of a section 1115 demonstration is to test new methods of operation or service delivery, a state's failure to submit all required reports, evaluations, and other deliverables will be considered by CMS in reviewing any application for an extension, amendment, or for a new demonstration.

14.2. **Deferral of Federal Financial Participation (FFP) from IMD claiming for Insufficient Progress Toward Milestones.** Up to \$5,000,000 in FFP for services in IMDs may be deferred if the state is not making adequate progress on meeting the milestones and goals as evidenced by reporting on the milestones in the Implementation Plan and the required performance measures in the Monitoring Protocol agreed upon by the state and CMS. Once CMS determines the state has not made adequate progress, up to \$5,000,000 will be deferred in the next calendar quarter and each calendar quarter thereafter until CMS has determined sufficient progress has been made

14.3. **Submission of Post-Approval Deliverables.** The state must submit all deliverables as stipulated by CMS and within the timeframes outlined within these STCs.

- 14.4. **Compliance with Federal Systems Updates.** As federal systems continue to evolve and incorporate additional 1115 reporting and analytics functions, the state will work with CMS to:
- a. Revise the reporting templates and submission processes to accommodate timely compliance with the requirements of the new systems;
 - b. Ensure all 1115, T-MSIS, and other data elements that have been agreed to for reporting and analytics are provided by the state; and
 - c. Submit deliverables to the appropriate system as directed by CMS.
- 14.5. **Implementation Plan.** The state is required to submit an Implementation Plan to cover certain key policies being tested under this demonstration, including those approved through future demonstration amendments. The state will be expected to provide additional details not captured in the STCs regarding implementation of those demonstration policies. At a minimum, the Implementation Plan must include definitions and parameters of key policies, and describe the state’s strategic approach to implementing the policies, including timelines for meeting milestones associated with these key policies, as applicable.

Depending on the implementation timeline of specific policies approved within the demonstration and timing of any future amendment approval, the due date for such an Implementation Plan will be determined collaboratively between CMS and the state. In general, the due date for the draft Implementation Plan for a specific policy shall be no later than 90 days of the approval of any such policies. The state must submit a revised Implementation Plan within 60 calendar days after receipt of CMS’s comments. Once determined complete by CMS, the Implementation Plan will be incorporated into the STCs, as Attachment C.

- 14.6. **SUD and SMI/SED Monitoring Protocols.** The state must submit a Monitoring Protocol for each of the SUD and SMI/SED programs authorized by this demonstration within 150 calendar days after approval of this demonstration extension. The SUD and SMI/SED Monitoring Protocols must be developed in cooperation with CMS and is subject to CMS approval. The state must submit a revised Monitoring Protocol within 60 calendar days after receipt of CMS’s comments. Once approved, the SUD and SMI/SED Monitoring Protocols will be incorporated into the STCs, as Attachment D and E, respectively. Progress on the performance measures identified in the SUD and SMI/SED Monitoring Protocols must be reported via the Quarterly and Annual Monitoring Reports. Components of the SUD and SMI/SED Monitoring Protocols include, as appropriate:
- a. An assurance of the state’s commitment and ability to report information relevant to each of the program implementation areas (listed in STCs 10.2 and 12.2), information relevant to the state’s SMI Financing Plan described in Attachment E, and information relevant to the state’s Health IT Plans described in STCs 10.3 and 12.3;

- b. A description of the methods of data collection and timeframes for reporting on the state's progress on required measures as part of the General Reporting Requirements described in Section 14 of the demonstration; and
- c. A description of baselines and targets to be achieved by the end of the demonstration. Where possible, baselines will be informed by state data, and targets will be benchmarked against performance in best practice settings.

14.7. **Monitoring Protocol for Other Policies.** The state must submit to CMS a Monitoring Protocol, addressing components of the demonstration not covered by the SUD and SMI/SED Monitoring Protocols, no later than 150 calendar days after approval of the demonstration. The state must submit a revised Monitoring Protocol within 60 days after receipt of CMS's comments. Once approved, the Monitoring Protocol will be incorporated in the STCs. Depending on the implementation timeline of specific policies within the demonstration and any future amendment approval, the due date for such Monitoring Protocol will be determined collaboratively between CMS and the state.

At a minimum, the Monitoring Protocol will affirm the state's commitment to conduct Quarterly and Annual Monitoring Reports in accordance with CMS's guidance and technical assistance and using CMS-provided reporting templates, if applicable. Any proposed deviations from CMS's guidance should be documented in the Monitoring Protocol. The Monitoring Protocol will describe the quantitative and qualitative elements on which the state will report through Quarterly and Annual Monitoring Reports. For policies where CMS provides states with a suite of quantitative monitoring metrics (e.g., those could be among the performance metrics as described in STC 14.8 below), the state will be required to calculate and report such metrics leveraging the technical specifications provided by CMS. The Monitoring Protocol will specify the methods of data collection and timeframes for reporting on the state's progress as part of the Quarterly and Annual Monitoring Reports. For the qualitative elements (e.g., operational updates as described in STC 14.8 below), CMS will provide the state with guidance on narrative and descriptive information which will supplement the quantitative metrics on key aspects of the demonstration policies. The quantitative and qualitative elements will comprise the state's Quarterly and Annual Monitoring Reports.

14.8. **Monitoring Reports.** The state must submit three (3) Quarterly Monitoring Reports and one (1) Annual Monitoring Report each DY. The fourth-quarter information that would ordinarily be provided in a separate Quarterly Monitoring Report should be reported as distinct information within the Annual Monitoring Report. The Quarterly Monitoring Reports are due no later than 60 calendar days following the end of each demonstration quarter. The Annual Monitoring Report (including the fourth-quarter information) is due no later than 90 calendar days following the end of the DY. The state must submit a revised Monitoring Report within 60 calendar days after receipt of CMS's comments, if any. The reports will include all required elements as per 42 CFR 431.428, and should not direct readers to links outside the report. Additional links not referenced in the document may be listed in a Reference/Bibliography section. The Quarterly and Annual Monitoring Reports must follow the framework to be provided by CMS, which will be organized by milestones. The

framework is subject to change as monitoring systems are developed/evolve, and will be provided in a structured manner that supports federal tracking and analysis.

- a. Operational Updates. The operational updates will focus on progress towards meeting the milestones. Additionally, per 42 CFR 431.428, the Monitoring Reports must document any policy or administrative difficulties in operating the demonstration. The reports shall provide sufficient information to document key challenges, underlying causes of challenges, and how challenges are being addressed. The discussion should also include any issues or complaints identified by beneficiaries; lawsuits or legal actions; unusual or unanticipated trends; legislative updates; and descriptions of any public forums held. In addition, monitoring reports should describe key achievements, as well as the conditions and efforts to which these successes can be attributed. Monitoring reports should also include a summary of all public comments received through post-award public forums regarding the progress of the demonstration.
- b. Performance Metrics. The performance metrics will provide data to demonstrate how the state is progressing towards meeting the demonstration's milestones and/or goals and must cover all key policies under this demonstration. Additionally, per 42 CFR 431.428, the Monitoring Reports must document the impact of the demonstration on beneficiaries' outcomes of care, quality and cost of care, and access to care. This may also include the results of beneficiary satisfaction surveys, and if conducted, grievances and appeals. For example, the state must continue reporting metrics data that will support tracking the state's trajectory in meeting its SUD and SMI program milestones and goals. Furthermore, in addition to monitoring enrollment and access to care, the state must undertake robust reporting of quality of care and health outcomes metrics aligned with the demonstration's policy composition and objectives, to be reported for all demonstration populations as well as stratified by key demographic subpopulations of interest. The state must track beneficiary participation, screening, receipt of referrals and social services over time under the HRSS program component as well as adoption of information technology infrastructure to support data sharing between the state or partner entities administering the demonstration and social services organizations. The required monitoring and performance metrics must be included in the monitoring reports, and will follow the framework provided by CMS to support federal tracking and analysis.
- c. Budget Neutrality and Financial Reporting Requirements. Per 42 CFR 431.428, the Monitoring Reports must document the financial performance of the demonstration. The state must provide an updated budget neutrality workbook with every Monitoring Report that meets all the reporting requirements for monitoring budget neutrality set forth in the General Financial Requirements section of these STCs, including the submission of corrected budget neutrality data upon request. In addition, the state must report quarterly and annual expenditures associated with the populations affected by this demonstration on the Form CMS-64. Administrative costs should be reported separately.

- d. Evaluation Activities and Interim Findings. Per 42 CFR 431.428, the Monitoring Reports must document any results of the demonstration to date per the evaluation hypotheses. Additionally, the state shall include a summary of the progress of evaluation activities, including key milestones accomplished, as well as challenges encountered and how they were addressed.
- e. SMI Health IT and SUD Health IT. The state will include a summary of progress made in regards to SMI and SUD Health IT requirements outlined in STCs 10.3 and 12.3.

14.9. **SUD and SMI/SED Mid-Point Assessment(s)**. The state must conduct an independent Mid-Point Assessment by June 30, 2025. This timeline will allow for the Mid-Point Assessment Report to capture approximately the first two-and-a-half years of demonstration program data, accounting for data run-out and data completeness. In addition, if applicable, the state should use the prior approval period experiences as context, and conduct the Mid-Point Assessment in light of the data from any such prior approval period(s). In the design, planning, and conduction of the Mid-Point Assessment, the state must require that the independent assessor consult with key stakeholders including, but not limited to: representatives of managed care organizations (MCO), SUD and SMI treatment providers, beneficiaries, and other key partners.

The state must require that the assessor provide a Mid-Point Assessment Report to the state that includes the methodologies used for examining progress and assessing risk, the limitations of the methodologies, its determinations and any recommendations. The state must provide a copy of the Mid-Point Assessment Report to CMS no later than 60 calendar days after June 30, 2025 and the state must brief CMS on the report. The state must submit a revised Mid-Point Assessment Report within 60 calendar days after receipt of CMS's comments, if any.

For milestones and measure targets at medium to high risk of not being achieved, the state must submit to CMS modifications to the SUD and SMI/SED Implementation Plans, the SMI Financing Plan, and the SUD and SMI/SED Monitoring Protocols for ameliorating these risks. Modifications to the applicable Implementation Plan, Financing Plan, and Monitoring Protocols are subject to CMS approval. Elements of the Mid-Point Assessment include:

- a. An examination of progress toward meeting each milestone and timeframe approved in the SUD and SMI/SED Implementation Plans, the SMI/SED Financing Plan, and toward meeting the targets for performance measures as approved in the SUD and SMI/SED Monitoring Protocols;
- b. A determination of factors that affected achievement on the milestones and performance measure gap closure percentage points to date;
- c. A determination of selected factors likely to affect future performance in meeting milestones and targets not yet met and information about the risk of possibly missing those milestones and performance targets;

- d. For milestones or targets at medium to high risk of not being met, recommendations for adjustments in the state’s SMI/SED Implementation Plan or SMI/SED Financing Plan or to pertinent factors that the state can influence that will support improvement; and
- e. An assessment of whether the state is on track to meet the budget neutrality requirements.

14.10. **Corrective Action Plan Related to Monitoring.** If monitoring indicates that demonstration features are not likely to assist in promoting the objectives of Medicaid, CMS reserves the right to require the state to submit a corrective action plan to CMS for approval. A state corrective action plan could include a temporary suspension of implementation of demonstration programs in circumstances where monitoring data indicate substantial and sustained directional change inconsistent with demonstration goals, such as substantial and sustained trends indicating increased difficulty accessing services. A corrective action plan may be an interim step to withdrawing waivers or expenditure authorities, as outlined in STC 3.10. CMS will withdraw an authority, as described in STC 3.10, when metrics indicate substantial and sustained directional change inconsistent with the state’s demonstration goals, and the state has not implemented corrective action. CMS further has the ability to suspend implementation of the demonstration should corrective actions not effectively resolve these concerns in a timely manner.

14.11. **Close-Out Report.** Within 120 calendar days after the expiration of the demonstration, the state must submit a draft Close-Out Report to CMS for comments.

- a. The Close-Out Report must comply with the most current guidance from CMS
- b. In consultation with CMS, and per guidance from CMS, the state will include an evaluation of the demonstration (or demonstration components) that are to phase out or expire without extension along with the Close-Out Report. Depending on the timeline of the phase-out during the demonstration approval period, the evaluation requirement may be satisfied through the Interim and/or Summative Evaluation Reports stipulated in 17.7 and 17.8, respectively.
- c. The state will present to and participate in a discussion with CMS on the Close-Out report.
- d. The state must take into consideration CMS’s comments for incorporation into the final Close-Out Report.
- e. The final Close-Out Report is due to CMS no later than thirty (30) days after receipt of CMS’s comments.
- f. A delay in submitting the draft or final version of the Close-Out Report may subject the state to penalties described in STC 14.1.

14.12. **Monitoring Calls.** CMS will convene periodic conference calls with the state.

- a. The purpose of these calls is to discuss ongoing demonstration operation, to include (but not limited to) any significant actual or anticipated developments affecting the demonstration. Examples include implementation activities, trends in reported data on metrics and associated mid-course adjustments, enrollment and access, budget neutrality, and progress on evaluation activities.
 - b. CMS will provide updates on any pending actions, as well as federal policies and issues that may affect any aspect of the demonstration.
 - c. The state and CMS will jointly develop the agenda for the calls.
- 14.13. **Post Award Forum.** Pursuant to 42 CFR 431.420(c), within six (6) months of the demonstration’s implementation, and annually thereafter, the state must afford the public with an opportunity to provide meaningful comment on the progress of the demonstration. At least thirty (30) days prior to the date of the planned public forum, the state must publish the date, time and location of the forum in a prominent location on its website. The state must also post the most recent annual report on its website with the public forum announcement. Pursuant to 42 CFR 431.420(c), the state must include a summary of the comments in the Monitoring Report associated with the quarter in which the forum was held, as well as in its compiled Annual Monitoring Report.

15. GENERAL FINANCIAL REQUIREMENTS UNDER TITLE XIX

- 15.1. **Allowable Expenditures.** This demonstration project is approved for expenditures applicable to services rendered during the demonstration approval period designated by CMS. CMS will provide FFP for allowable demonstration expenditures only so long as they do not exceed the pre-defined limits as specified in these STCs.
- 15.2. **Unallowable Expenditures.** In addition to the other unallowable costs and caveats already outlined in these STCs, the state may not receive FFP under any expenditure authority approved under this demonstration for any of the following:
- a. Room and board costs for residential treatment service providers unless they qualify as inpatient facilities under section 1905(a) of the Act.
 - b. Costs for services provided in a nursing facility as defined in section 1919 of the Act that qualifies as an IMD.
 - c. Costs for services provided to individuals who are involuntarily residing in a psychiatric hospital or residential treatment facility by operation of criminal law.
 - d. Except as noted in STC 12.6 costs for services provided to beneficiaries under age 21 residing in an IMD unless the IMD meets the requirements for the “inpatient psychiatric services for individuals under age 21” benefit under 42 CFR 440.160, 441 Subpart D, and 483 Subpart G.

- 15.3. **Standard Medicaid Funding Process.** The standard Medicaid funding process will be used for this demonstration. The state will provide quarterly expenditure reports through the Medicaid and CHIP Budget and Expenditure System (MBES/CBES) to report total expenditures for services provided under this demonstration following routine CMS-37 and CMS-64 reporting instructions as outlined in section 2500 of the State Medicaid Manual. The state will estimate matchable demonstration expenditures (total computable and federal share) subject to the budget neutrality expenditure limit and separately report these expenditures by quarter for each federal fiscal year on the form CMS-37 for both the medical assistance payments (MAP) and state and local administration costs (ADM). CMS shall make federal funds available based upon the state's estimate, as approved by CMS. Within thirty (30) days after the end of each quarter, the state shall submit form CMS-64 Quarterly Medicaid Expenditure Report, showing Medicaid expenditures made in the quarter just ended. If applicable, subject to the payment deferral process, CMS shall reconcile expenditures reported on form CMS-64 with federal funding previously made available to the state, and include the reconciling adjustment in the finalization of the grant award to the state.
- 15.4. **Extent of Federal Financial Participation for the Demonstration.** Subject to CMS approval of the source(s) of the non-federal share of funding, CMS will provide FFP at the applicable federal matching rate for the demonstration as a whole for the following, subject to the budget neutrality expenditure limits described in section XI:
- a. Administrative costs, including those associated with the administration of the demonstration;
 - b. Net expenditures and prior period adjustments of the Medicaid program that are paid in accordance with the approved Medicaid state plan; and
 - c. Medical assistance expenditures and prior period adjustments made under section 1115 demonstration authority with dates of service during the demonstration approval period; including those made in conjunction with the demonstration, net of enrollment fees, cost sharing, pharmacy rebates, and all other types of third-party liability.
- 15.5. **Sources of Non-Federal Share.** As a condition of demonstration approval, the state certifies that the non-federal share is obtained from permissible state and/or local funds that, unless permitted by law, are not other federal funds. The state further certifies that such funds must not be used to match any other federal grant or contract, except as permitted by law. CMS approval of this demonstration does not constitute direct or indirect approval of any underlying source of non-federal share or associated funding mechanisms and all sources of non-federal funding must be compliant with section 1903(w) of the Act and applicable regulations. In addition, CMS reserves the right to prohibit the use of any sources of non-federal share funding that it determines impermissible.
- a. If requested, the state must submit for CMS review and approval documentation of any sources of non-federal share that would be used to fund the demonstration.

- b. If CMS determines that any funding sources are not consistent with applicable federal regulations, the state must address CMS's concerns within the time frames allotted by CMS.
- c. Without limitation, CMS may request information about the non-federal share sources for any amendments that CMS determines may financially impact the demonstration.

15.6. **State Certification of Funding Conditions.** As a condition of demonstration approval, the state certifies that the following conditions for non-federal share funding of demonstration expenditures have been met:

- a. Units of state or local government, including health care providers that are units of state or local government, certify that state or local monies have been expended as the non-federal share of funds under the demonstration.
- b. To the extent the state utilizes certified public expenditures (CPE) as the funding mechanism for the state share of title XIX payments, including expenditures authorized under a section 1115 demonstration, the state must obtain CMS approval for a cost reimbursement methodology. This methodology must include a detailed explanation of the process, including any necessary cost reporting protocols, by which the state would identify those costs eligible under title XIX (or under section 1115 authority) for purposes of certifying public expenditures.
- c. To the extent the state utilizes CPEs as the funding mechanism to claim federal match for expenditures under the demonstration, governmental entities to which general revenue funds are appropriated must certify to the state the amount of such state or local monies that are allowable under 42 CFR 433.51 to satisfy demonstration expenditures. If the CPE is claimed under a Medicaid authority, the federal matching funds received cannot be used as the non-federal share needed to receive other federal matching funds under 42 CFR 433.51(c). The entities that incurred the cost must also provide cost documentation to support the state's claim for federal match.
- d. The state may use intergovernmental transfers (IGT) to the extent that such funds are derived from state or local revenues and are transferred by units of government within the state. Any transfers from units of government must be made in an amount not to exceed the non-federal share of title XIX payments.
- e. Under all circumstances, health care providers must retain 100 percent of the reimbursement for claimed expenditures. Moreover, consistent with 42 CFR 447.10, no pre-arranged agreements (contractual, voluntary, or otherwise) may exist between health care providers and state and/or local governments to return and/or redirect to the state any portion of the Medicaid payments. This confirmation of Medicaid payment retention is made with the understanding that payments that are the normal operating expenses of conducting business, such as payments related to taxes, including health care provider-related taxes, fees, business relationships with governments that are unrelated to Medicaid and in which there is no connection to

Medicaid payments, are not considered returning and/or redirecting a Medicaid payment.

- 15.7. **Financial Integrity for Managed Care and Other Delivery Systems.** As a condition of demonstration approval, the state attests to the following, as applicable:
- a. All risk-based managed care organization, prepaid inpatient health plan (PIHP), and prepaid ambulatory health plan (PAHP) payments, comply with the requirements on payments in 42 CFR §438.6(b)(2), 438.6(c), 438.6(d), 438.60 and/or 438.74, as applicable.
 - b. For non-risk-based PIHPs and PAHPs, arrangements comply with the upper payment limits specified in 42 CFR §447.362, and if payments exceed the cost of services, the state will recoup the excess and return the federal share of the excess to CMS.
- 15.8. **Requirements for Health Care Related Taxes and Provider Donations.** As a condition of demonstration approval, the state attests to the following, as applicable:
- a. All health care-related taxes as defined by Section 1903 (w)(3)(A) of the Social Security Act and 42 CFR § 433.55 are broad-based as defined by Section 1903 (w)(3)(B) of the Social Security Act and 42 CFR § 433.68 (c).
 - b. All health care-related taxes are uniform as defined by Section 1903 (w)(3)(C) of the Social Security Act and 42 CFR § 433.68 (d).
 - c. If the health care-related tax is either not broad-based or not uniform, the state has applied for and received a waiver of the broad-based and/or uniformity requirements as specified by 1903 (w)(3)(E)(i) of the Social Security Act and 42 CFR § 433.72.
 - d. The tax does not contain a hold harmless arrangement as described by Section 1903 (w)(4) of the Social Security Act and 42 CFR § 433.68 (f).
 - e. All provider related-donations as defined by 42 CFR § 433.52 are bona fide as defined by Section 1903 (w)(2)(B) of the Social Security Act, 42 CFR § 433.66, and 42 CFR § 433.54.
- 15.9. **Program Integrity.** The state must have processes in place to ensure there is no duplication of federal funding for any aspect of the demonstration. The state must also ensure that the state and any of its contractors follow standard program integrity principles and practices including retention of data. All data, financial reporting, and sources of non-federal share are subject to audit.
- 15.10. **Medicaid Expenditure Groups (MEG).** MEGs are defined for the purpose of identifying categories of Medicaid or demonstration expenditures subject to budget neutrality, components of budget neutrality expenditure limit calculations, and other purposes related to monitoring and tracking expenditures under the demonstration. The Master MEG Chart (Table 5) provides a master list of MEGs defined for this demonstration.

Table 5: Master MEG Chart					
MEG	To Which BN Test Does This Apply?	WOW Per Capita	WOW Aggregate	WW	Brief Description
Current Eligibles	Main Budget Neutrality	X		X	See Expenditure Authority #1
Adult Expansion Population	Hypo	X		X	See Expenditure Authority #9
Mandatory ESI for Adult Expansion	Hypo	X		X	See Expenditure Authority #10
Targeted Adults	Hypo	X		X	See Expenditure Authority #7
Dental – Targeted Adults	Hypo	X		X	See Expenditure Authority #7
Dental - Blind & Disabled Adults	Hypo	X		X	See Expenditure Authority #4
Dental - Aged	Hypo	X		X	See Expenditure Authority #5

SUD	Hypo	X		X	See Expenditure Authority #8
SMI	Hypo	X		X	See Expenditure Authority #12
Intensive Support Services	Hypo	X		X	See Expenditure Authority #11
ESI/COBRA	Hypo	X		X	See Expenditure Authority #2 & #3
HRSS	Hypo	X		X	See STC #13

15.11. **Reporting Expenditures and Member Months.** The state must report all demonstration expenditures claimed under the authority of title XIX of the Act and subject to budget neutrality each quarter on separate forms CMS-64.9 WAIVER and/or 64.9P WAIVER, identified by the demonstration project number assigned by CMS (11-W-00145/8). Separate reports must be submitted by MEG (identified by Waiver Name) and Demonstration Year (identified by the two-digit project number extension). Unless specified otherwise, expenditures must be reported by DY according to the dates of service associated with the

expenditure. All MEGs identified in the Master MEG Chart as WW must be reported for expenditures, as further detailed in the MEG Detail for Expenditure and Member Month Reporting table below. To enable calculation of the budget neutrality expenditure limits, the state also must report member months of eligibility for specified MEGs.

- a. Cost Settlements. The state will report any cost settlements attributable to the demonstration on the appropriate prior period adjustment schedules (form CMS-64.9P WAIVER) for the summary sheet line 10b, in lieu of lines 9 or 10c. For any cost settlement not attributable to this demonstration, the adjustments should be reported as otherwise instructed in the State Medicaid Manual. Cost settlements must be reported by DY consistent with how the original expenditures were reported.
- b. Premiums and Cost Sharing Collected by the State. The state will report any premium contributions collected by the state from demonstration enrollees quarterly on the form CMS-64 Summary Sheet line 9D, columns A and B. In order to assure that these collections are properly credited to the demonstration, quarterly premium collections (both total computable and federal share) should also be reported separately by DY on form CMS-64 Narrative, and on the Total Adjustments tab in the Budget Neutrality Monitoring Tool. In the annual calculation of expenditures subject to the budget neutrality expenditure limit, premiums collected in the demonstration year will be offset against expenditures incurred in the demonstration year for determination of the state's compliance with the budget neutrality limits.
- c. Pharmacy Rebates. Because pharmacy rebates are included in the base expenditures used to determine the budget neutrality expenditure limit, the state must report the portion of pharmacy rebates applicable to the demonstration on the appropriate forms CMS-64.9 WAIVER and 64.9P waiver for the demonstration, and not on any other CMS-64.9 form (to avoid double counting). The state must have a methodology for assigning a portion of pharmacy rebates to the demonstration in a way that reasonably reflects the actual rebate-eligible pharmacy utilization of the demonstration population, and which identifies pharmacy rebate amounts with DYs. Use of the methodology is subject to the approval in advance by the CMS Regional Office, and changes to the methodology must also be approved in advance by the Regional Office. Each rebate amount must be distributed as state and federal revenue consistent with the federal matching rates under which the claim was paid.
- d. Administrative Costs. The state will separately track and report additional administrative costs that are directly attributable to the demonstration. All administrative costs must be identified on the forms CMS-64.10 WAIVER and/or 64.10P WAIVER. Unless indicated otherwise on the Master MEG Chart table, administrative costs are not counted in the budget neutrality tests; however, these costs are subject to monitoring by CMS.
- e. Member Months. As part of the Quarterly and Annual Monitoring Reports described in section 14.8, the state must report the actual number of “eligible member months” for all demonstration enrollees for all MEGs identified as WOW Per Capita in the

Master MEG Chart table above, and as also indicated in the MEG Detail for Expenditure and Member Month Reporting table below. The term “eligible member months” refers to the number of months in which persons enrolled in the demonstration are eligible to receive services. For example, a person who is eligible for three months contributes three eligible member months to the total. Two individuals who are eligible for two months, each contribute two eligible member months, for a total of four eligible member months. The state must submit a statement accompanying the annual report certifying the accuracy of this information.

- f. Budget Neutrality Specifications Manual. The state will create and maintain a Budget Neutrality Specifications Manual that describes in detail how the state will compile data on actual expenditures related to budget neutrality, including methods used to extract and compile data from the state’s Medicaid Management Information System, eligibility system, and accounting systems for reporting on the CMS-64, consistent with the terms of the demonstration. The Budget Neutrality Specifications Manual will also describe how the state compiles counts of Medicaid member months. The Budget Neutrality Specifications Manual must be made available to CMS on request.

Table 6: MEG Detail for Expenditure and Member Month Reporting

MEG (Waiver Name)	Detailed Description	Exclusions	CMS-64.9 Line(s) To Use	How Expend. Are Assigned to DY	MAP or ADM	Report Member Months (Y/N)	MEG Start Date	MEG End Date

15.12. **Demonstration Years.** Demonstration Years (DY) for this demonstration are defined in the Demonstration Years table below.

Demonstration Year	Start Date to End Date	Duration
Demonstration Year 21	July 1, 2022 to June 30, 2023	12 months
Demonstration Year 22	July 1, 2023 to June 30, 2024	12 months
Demonstration Year 23	July 1, 2024 to June 30, 2025	12 months
Demonstration Year 24	July 1, 2025 to June 30, 2026	12 months
Demonstration Year 25	July 1, 2026 to June 30, 2027	12 months

15.13. **Budget Neutrality Monitoring Tool.** The state must provide CMS with quarterly budget neutrality status updates, including established baseline and member months data, using the Budget Neutrality Monitoring Tool provided through the Performance Metrics Database and Analytics (PMDA) system. The tool incorporates the “Schedule C Report” for comparing demonstration’s actual expenditures to the budget neutrality expenditure limits described in section XI. CMS will provide technical assistance, upon request.

15.14. **Claiming Period.** The state will report all claims for expenditures subject to the budget neutrality agreement (including any cost settlements) within two years after the calendar quarter in which the state made the expenditures. All claims for services during the demonstration period (including any cost settlements) must be made within two years after the conclusion or termination of the demonstration. During the latter two-year period, the state will continue to identify separately net expenditures related to dates of service during the operation of the demonstration on the CMS-64 waiver forms in order to properly account for these expenditures in determining budget neutrality.

15.15. **Future Adjustments to Budget Neutrality.** CMS reserves the right to adjust the budget neutrality expenditure limit:

- a. To be consistent with enforcement of laws and policy statements, including regulations and letters, regarding impermissible provider payments, health care related taxes, or other payments, CMS reserves the right to make adjustments to the budget neutrality limit if any health care related tax that was in effect during the base year, or provider-related donation that occurred during the base year, is determined by CMS to be in violation of the provider donation and health care related tax provisions of section 1903(w) of the Act. Adjustments to annual budget targets will reflect the phase out of impermissible provider payments by law or regulation, where applicable.
- b. To the extent that a change in federal law, regulation, or policy requires either a reduction or an increase in FFP for expenditures made under this demonstration. In this circumstance, the state must adopt, subject to CMS approval, a modified budget

neutrality agreement as necessary to comply with such change. The modified agreement will be effective upon the implementation of the change. The trend rates for the budget neutrality agreement are not subject to change under this STC. The state agrees that if mandated changes in the federal law require state legislation, the changes shall take effect on the day such state legislation becomes effective, or on the last day such legislation was required to be in effect under the federal law.

- c. The state certifies that the data it provided to establish the budget neutrality expenditure limit are accurate based on the state's accounting of recorded historical expenditures or the next best available data, that the data are allowable in accordance with applicable federal, state, and local statutes, regulations, and policies, and that the data are correct to the best of the state's knowledge and belief. The data supplied by the state to set the budget neutrality expenditure limit are subject to review and audit, and if found to be inaccurate, will result in a modified budget neutrality expenditure limit.

16. MONITORING BUDGET NEUTRALITY FOR THE DEMONSTRATION

- 16.1. **Limit on Title XIX Funding.** The state will be subject to limits on the amount of federal Medicaid funding the state may receive over the course of the demonstration approval. The budget neutrality expenditure limits are based on projections of the amount of FFP that the state would likely have received in the absence of the demonstration. The limit may consist of a Main Budget Neutrality Test, and one or more Hypothetical Budget Neutrality Tests, as described below. CMS' assessment of the state's compliance with these tests will be based on the Schedule C CMS-64 Waiver Expenditure Report, which summarizes the expenditures reported by the state on the CMS-64 that pertain to the demonstration.
- 16.2. **Risk.** The budget neutrality expenditure limits are determined on either a per capita or aggregate basis. If a per capita method is used, the state is at risk for the per capita cost of state plan and hypothetical populations, but not for the number of participants in the demonstration population. By providing FFP without regard to enrollment in the demonstration for all demonstration populations, CMS will not place the state at risk for changing economic conditions; however, by placing the state at risk for the per capita costs of the demonstration populations, CMS assures that the demonstration expenditures do not exceed the levels that would have been realized had there been no demonstration. If an aggregate method is used, the state accepts risk for both enrollment and per capita costs
- 16.3. **Calculation of the Budget Neutrality Limits and how They Are Applied:** To calculate the budget neutrality limits for the demonstration, separate annual budget limits are determined for each DY on a total computable basis. Each annual budget limit is the sum of one or more components: per capita components, which are calculated as a projected without-waiver PMPM cost multiplied by the corresponding actual number of member months, and aggregate components, which project fixed total computable dollar expenditure amounts. The annual limits for all DYs are then added together to obtain a budget neutrality limit for the entire demonstration period. The federal share of this limit will represent the maximum amount of FFP that the state may receive during the demonstration period for the

types of demonstration expenditures described below. The federal share will be calculated by multiplying the total computable budget neutrality expenditure limit by the appropriate Composite Federal Share.

- 16.4. **Impermissible DSH, Taxes, or Donations.** CMS reserves the right to adjust the budget neutrality ceiling to be consistent with enforcement of laws and policy statements, including regulations and letters regarding impermissible provider payments, health care related taxes, or other payments (if necessary adjustments must be made). CMS reserves the right to make adjustments to the budget neutrality limit if any health care related tax that was in effect during the base year, or provider-related donation that occurred during the base year, is determined by CMS to be in violation of the provider donation and health care related tax provisions of section 1903(w) of the Social Security Act. Adjustments to annual budget targets will reflect the phase out of impermissible provider payments by law or regulation, where applicable.
- 16.5. **Main Budget Neutrality Test.** The Main Budget Neutrality Test allows the state to show that demonstration waivers granted have not resulted in increased costs to Medicaid, and that federal Medicaid “savings” have been achieved sufficient to offset the additional projected federal costs resulting from expenditure authority. The table below (Table 8) identifies the MEGs that are used for the Main Budget Neutrality Test. MEGs designated as “WOW Only” or “Both” are components used to calculate the budget neutrality expenditure limit. MEGs that are indicated as “WW Only” or “Both” are counted as expenditures against the budget neutrality expenditure limit. In addition, any expenditures in excess of limit from Hypothetical Budget Neutrality Tests count as expenditures under the Main Budget Neutrality Test. The Composite Federal Share for this test is calculated based on all MEGs indicated as “Both.”

Table 8: Main Budget Neutrality Test								
MEG	PC or Agg *	WOW Only, WW Only, or Both	Trend Rate	DY 21 PMPM	DY 22 PMPM	DY 23 PMPM	DY 24 PMPM	DY 25 PMPM
Current Eligibles	PC	Both	3.3%	\$628.81	\$649.69	n/a	n/a	n/a
*PC = Per Capita; Agg = Aggregate								

- 16.6 **Hypothetical Budget Neutrality.** When expenditure authority is provided for coverage of populations or services that the state could have otherwise provided through its Medicaid state plan or other title XIX authority (such as a waiver under section 1915 of the Act), CMS considers these expenditures to be “hypothetical;” that is, the expenditures would have been eligible to receive FFP elsewhere in the Medicaid program. For these hypothetical expenditures, CMS makes adjustments to the budget neutrality test which effectively treats

these expenditures as if they were for approved Medicaid state plan services. Hypothetical expenditures, therefore, do not necessitate savings to offset the otherwise allowable services. This approach reflects CMS’s current view that states should not have to “pay for,” with demonstration savings, costs that could have been otherwise eligible for FFP under a Medicaid state plan or other title XIX authority; however, when evaluating budget neutrality, CMS does not offset non-hypothetical expenditures with projected or accrued savings from hypothetical expenditures. That is, savings are not generated from a hypothetical population or service. To allow for hypothetical expenditures, while preventing them from resulting in savings, CMS currently applies a separate, independent Hypothetical Budget Neutrality Tests, which subject hypothetical expenditures to pre-determined limits to which the state and CMS agree, and that CMS approves, as a part of this demonstration approval. If the state’s WW hypothetical spending exceeds the supplemental test’s expenditure limit, the state agrees (as a condition of CMS approval) to offset that excess spending by savings elsewhere in the demonstration or to refund the FFP to CMS.

The table (Table 9) below identifies the MEGs that are used for the Hypothetical Budget Neutrality Test. MEGs that are designated “WOW Only” or “Both” are the components used to calculate the budget neutrality expenditure limit. The Composite Federal Share for the Hypothetical Budget Neutrality Test is calculated based on all MEGs indicated as “WW Only” or “Both.” MEGs that are indicated as “WW Only” or “Both” are counted as expenditures against this budget neutrality expenditure limit. Any expenditures in excess of the limit from Hypothetical Budget Neutrality Test are counted as WW expenditures under the Main Budget Neutrality Test.

Table 9: Hypothetical Neutrality								
MEG	PC or Agg *	WOW Only, WW Only, or Both	Trend Rate	DY 21 PMPM	DY 22 PMPM	DY 23 PMPM	DY 24 PMPM	DY 25 PMPM
Adult Expansion Population	PC	Both	4.7%	\$651.40	\$682.02	\$714.07	\$747.63	\$782.77
Mandatory ESI for Adult Expansion	PC	Both	5.3%	\$266.22	\$280.33	\$295.19	\$310.84	\$327.31
Targeted Adults	PC	Both	5.5%	\$1,177.22	\$1,242.97	\$1,310.28	\$1,382.35	\$1,458.38
Dental – Targeted Adults	PC	Both	5.3%	\$40.57	\$42.72	\$44.98	\$47.36	\$49.87
Dental - Blind & Disabled Adults	PC	Both	4.8%	\$21.08	\$22.09	\$23.15	\$24.26	\$25.42
Dental - Aged	PC	Both	3.4%	\$34.00	\$35.16	\$36.36	\$37.60	\$38.88

Former Foster Care Youth From Another State	PC	Both	5.2%	\$1,679.32	\$1,766.64	\$1,858.51	\$1,955.15	\$2,056.82
SUD	PC	Both	5.2%	\$4,468.94	\$4,701.32	\$4,945.79	\$5,202.97	\$5,473.52
SMI	PC	Both	5.3%	\$14,998.93	\$15,793.87	\$16,630.95	\$17,512.39	\$18,400.55
Intensive Support Services	OPC	Both	4.2%	\$2,501.79	\$2,606.87	\$2,716.36	\$2,830.45	\$2,949.33
ESI/COBRA	PC	Both	5.2%	\$247.15	\$260.00	\$273.52	\$287.74	\$302.70
HRSS	PC	Both	5.3%	\$7,318.35	\$7,706.22	\$8,114.65	\$8,544.73	\$8,997.60
*PC = Per Capita; Agg = Aggregate								

16.7 **Composite Federal Share.** The Composite Federal Share is the ratio that will be used to convert the total computable budget neutrality limit to federal share. The Composite Federal Share is the ratio calculated by dividing the sum total of FFP received by the state on actual demonstration expenditures during the approval period by total computable demonstration expenditures for the same period, as reported through MBES/CBES and summarized on Schedule C. Since the actual final Composite Federal Share will not be known until the end of the demonstration’s approval period, for the purpose of interim monitoring of budget neutrality, a reasonable estimate of Composite Federal Share may be developed and used through the same process or through an alternative mutually agreed to method. Each Main or Hypothetical Budget Neutrality Test has its own Composite Federal Share, as defined in the paragraph pertaining to each particular test.

16.8 **Exceeding Budget Neutrality.** CMS will enforce the budget neutrality agreement over the life of the demonstration approval period, which extends from DY 21 through DY 25. The Main Budget Neutrality Test may incorporate net savings from the immediately prior demonstration period of DY 16 through DY 20 (but not from any earlier approval period). If at the end of the demonstration approval period the budget neutrality limit has been exceeded, the excess federal funds will be returned to CMS. If the demonstration is terminated prior to the end of the demonstration period, the budget neutrality test will be based on the time period through the termination date.

16.9 **Mid-Course Correction.** If at any time during the demonstration approval period CMS determines that the demonstration is on course to exceed its budget neutrality expenditure limit, CMS will require the state to submit a corrective action plan for CMS review and approval. CMS will use the threshold levels in the table below (Table 10) as a guide for determining when corrective action is required.

Table 10: Main Budget Neutrality Test Mid-Course Correction Calculations		
Demonstration Year	Cumulative Target Definition	Percentage
DY21	Cumulative budget neutrality limit plus:	2.0 percent
DY21 through DY22	Cumulative budget neutrality limit plus:	1.5 percent
DY21 through DY23	Cumulative budget neutrality limit plus:	1.0 percent
DY21 through DY24	Cumulative budget neutrality limit plus:	0.5 percent
DY21 through DY25	Cumulative budget neutrality limit plus:	0.0 percent

17. EVALUATION OF THE DEMONSTRATION

- 17.1. **Cooperation with Federal Evaluators.** As required under 42 CFR 431.420(f), the state shall cooperate fully and timely with CMS and its contractors in any federal evaluation of the demonstration or any component of the demonstration. This includes, but is not limited to, commenting on design and other federal evaluation documents and providing data and analytic files to CMS, including entering into a data use agreement that explains how the data and data files will be exchanged, and providing a technical point of contact to support specification of the data and files to be disclosed, as well as relevant data dictionaries and record layouts. The state shall include in its contracts with entities who collect, produce or maintain data and files for the demonstration, that they shall make such data available for the federal evaluation as is required under 42 CFR 431.420(f) to support federal evaluation. The state may claim administrative match for these activities. Failure to comply with this STC may result in a deferral being issued as outlined in STC 14.1.
- 17.2. **Independent Evaluator.** Upon approval of the demonstration, the state must use an independent party to conduct an evaluation of the demonstration to ensure that the necessary data is collected at the level of detail needed to research the approved hypotheses. The independent party must sign an agreement to conduct the demonstration evaluation in an independent manner in accord with the CMS-approved draft Evaluation Design. When conducting analyses and developing the evaluation reports, every effort should be made to follow the approved methodology. However, the state may request, and CMS may agree to, changes in the methodology in appropriate circumstances.
- 17.3. **Draft Evaluation Design.** The state must submit, for CMS comment and approval, a draft Evaluation Design no later than 180 calendar days after the approval of the demonstration. The draft Evaluation Design must be developed in accordance with Attachment A

(Developing the Evaluation Design) of these STCs, CMS’s evaluation design guidance for SUD and SMI/SED, and any other applicable CMS evaluation guidance and technical assistance for the demonstration’s other policy components. The Evaluation Design must also be developed in alignment with CMS guidance on applying robust evaluation approaches, including establishing valid comparison groups and assuring causal inferences in demonstration evaluations. The draft Evaluation Design also must include a timeline for key evaluation activities, including the deliverables outlined in STCs 17.7 and 17.8.

For any amendment to the demonstration, the state will be required to update the approved Evaluation Design to accommodate the amendment component. The amended Evaluation Design must be submitted to CMS for review no later than 180 calendar days after CMS’s approval of the demonstration amendment. Depending on the scope and timing of the amendment, in consultation with CMS, the state may provide the details on necessary modifications to the approved Evaluation Design via the monitoring reports. The amendment Evaluation Design must also be reflected in the state’s Interim (as applicable) and Summative Evaluation Reports, described below.

- 17.4. **Evaluation Design Approval and Updates.** The state must submit a revised draft Evaluation Design within 60 calendar days after receipt of CMS’s comments. Upon CMS approval of the draft Evaluation Design, the document will be included as an attachment to these STCs. Per 42 CFR 431.424(c), the state will publish the approved Evaluation Design within 30 days of CMS approval. The state must implement the Evaluation Design and submit a description of its evaluation progress in each of the Monitoring Reports. Once CMS approves the Evaluation Design, if the state wishes to make changes, the state must submit a revised Evaluation Design to CMS for approval if the changes are substantial in scope; otherwise, in consultation with CMS, the state may include updates to the Evaluation Design in monitoring reports.
- 17.5. **Evaluation Questions and Hypotheses.** Consistent with Attachments A and B (Developing the Evaluation Design and Preparing the Interim and Summative Evaluation Reports) of these STCs, the evaluation deliverables must include a discussion of the evaluation questions and hypotheses that the state intends to test. In alignment with applicable CMS evaluation guidance and technical assistance, the evaluation must outline and address well-crafted hypotheses and research questions for all key demonstration policy components that support understanding the demonstration’s impact and also its effectiveness in achieving the goals. For example, hypotheses for the SUD component of the demonstration must support an assessment of the demonstration’s success in achieving the core goals of the program through addressing, among other outcomes, initiation and compliance with treatment, utilization of health services in appropriate care settings, and reductions in key outcomes such as deaths due to overdose. Hypotheses for the SMI/SED component of the demonstration must relate to, for example, utilization and length of stay in emergency departments, reductions in preventable readmissions to acute care hospitals and residential settings, availability of crisis stabilization services, and care coordination.

Evaluation hypotheses for the HRSS component of the demonstration must focus on areas such as severity and mitigation of beneficiaries’ social needs, utilization of preventive and

routine care, utilization of hospital and institutional care, and beneficiary physical and mental health outcomes. The state must analyze coverage, access to primary care, avoidance of inappropriate care utilization, reductions in uncompensated care, and health outcomes to understand the effectiveness of the Adult Expansion and employer-sponsored insurance (ESI) demonstration components. For the other components of the demonstration, the state must—as applicable—develop and test hypotheses in alignment with program goals that support analyzing demonstration effects on enrollment rates, uninsurance rates, access to primary care, access to mental health care, rates of emergency department visits (emergent and non-emergent), and access to dental services. The evaluation must also provide an assessment of the state’s process for winding down the Current Eligibles population, and any potential lessons thereof. In addition, the state must also conduct a demonstration cost assessment to include, but not limited to, administrative costs of demonstration implementation and operation, Medicaid health services expenditures, and provider uncompensated care costs.

In addition, the state must use findings from hypothesis tests aligned with other demonstration goals and cost analyses together to assess the demonstration’s effects on the fiscal sustainability of the state’s Medicaid program.

To better understand whether implementation of certain key demonstration policies happened as envisioned during the demonstration design process and whether specific factors acted as facilitators of—and barriers to—implementation, the state is strongly encouraged to undertake a robust process/implementation evaluation. The implementation evaluation can inform the state’s crafting and selection of testable hypotheses and research questions for the demonstration’s outcome and impact evaluations and provide context for interpreting the findings. The hypothesis testing should include, where possible, assessment of both process and outcome measures. The evaluation must study outcomes, such as likelihood of enrollment and enrollment continuity, and various measures of access, utilization, and health outcomes, as appropriate and in alignment with applicable CMS evaluation guidance and technical assistance, for the demonstration policy components. Proposed measures should be selected from nationally-recognized sources and national measures sets, where possible. Measures sets could include CMS’s Core Set of Health Care Quality Measures for Children in Medicaid and CHIP, Consumer Assessment of Health Care Providers and Systems (CAHPS), the Core Set of Health Care Quality Measures for Medicaid-Eligible Adults and/or measures endorsed by National Quality Forum (NQF). CMS underscores the importance of the state undertaking a well-designed beneficiary survey to assess, for instance, beneficiary understanding of the various demonstration policy components, including the housing related support services, and beneficiary experiences with access to and quality of care.

Furthermore, the evaluation must accommodate data collection and analyses stratified by key subpopulations of interest (e.g., by sex, age, race/ethnicity, and/or geography)—to the extent feasible—to inform a fuller understanding of existing disparities in access and health outcomes, and how the demonstration’s various policies might support bridging any such inequities.

- 17.6. **Evaluation Budget.** A budget for the evaluations must be provided with the draft Evaluation Designs. It will include the total estimated cost, as well as a breakdown of estimated staff,

administrative and other costs for all aspects of the evaluations such as any survey and measurement development, quantitative and qualitative data collection and cleaning, analyses and report generation. A justification of the costs may be required by CMS if the estimates provided do not appear to sufficiently cover the costs of the design or if CMS finds that the designs are not sufficiently developed, or if the estimates appear to be excessive.

- 17.7. **Interim Evaluation Report.** The state must submit an Interim Evaluation Report for the completed years of the demonstration, and for each subsequent extension of the demonstration, as outlined in 42 CFR 431.412(c)(2)(vi). When submitting an application for an extension of the demonstration, the Interim Evaluation Report should be posted to the state's website with the application for public comment.
- a. The Interim Evaluation Report will discuss evaluation progress and present findings to date as per the approved evaluation design.
 - b. For demonstration authority or any components within the demonstration that expire prior to the overall demonstration's expiration date, and depending on the timeline of expiration / phase-out, the Interim Evaluation Report may include an evaluation of the authority, to be collaboratively determined by CMS and the state.
 - c. If the state is seeking to extend the demonstration, the draft Interim Evaluation Report is due when the application for extension is submitted, or one year prior to the end of the demonstration, whichever is sooner. If the state is not requesting an extension for a demonstration, an Interim Evaluation Report is due one year prior to the end of the demonstration.
 - d. The state must submit the revised Interim Evaluation Report 60 calendar days after receiving CMS's comments on the draft Interim Evaluation Report. Once approved by CMS, the state must post the final Interim Evaluation Report to the state's Medicaid website within 30 calendar days.
 - e. The Interim Evaluation Report must comply with Attachment B (Preparing the Evaluation Report) of these STCs.
- 17.8. **Summative Evaluation Report.** The state must submit a draft Summative Evaluation Report for the demonstration's current approval period within 18 months of the end of the approval period represented by these STCs. The draft Summative Evaluation Report must be developed in accordance with Attachment B (Preparing the Evaluation Report) of these STCs, and in alignment with the approved Evaluation Design.
- a. Unless otherwise agreed upon in writing by CMS, the state shall submit a revised Summative Evaluation Report within 60 calendar days of receiving comments from CMS on the draft.
 - b. The state must submit a revised Summative Evaluation Report sixty (60) calendar days after receiving CMS's comments on the draft Summative Evaluation Report.

Once approved by CMS, the state must post the final Summative Evaluation Report to the state's Medicaid website within 30 calendar days.

- 17.9. **Corrective Action Plan Related to Evaluation.** If evaluation findings indicate that demonstration features are not likely to assist in promoting the objectives of Medicaid, CMS reserves the right to require the state to submit a corrective action plan to CMS for approval. These discussions may also occur as part of an extension process when associated with the state's Interim Evaluation Report, or as part of the review of the Summative Evaluation Report. A corrective action plan could include a temporary suspension of implementation of demonstration programs, in circumstances where evaluation findings indicate substantial and sustained directional change inconsistent with demonstration goals, such as substantial and sustained trends indicating increased difficulty accessing services. This may be an interim step to withdrawing waivers or expenditure authorities, as outlined in STC 3.10. CMS further has the ability to suspend implementation of the demonstration should corrective actions not effectively resolve these concerns in a timely manner.
- 17.10. **State Presentations for CMS.** CMS reserves the right to request that the state present and participate in a discussion with CMS on the Evaluation Design, the interim evaluation, and/or the summative evaluation.
- 17.11. **Public Access.** The state shall post the final documents (e.g., Implementation Plans, Monitoring Protocols, Monitoring Reports, Mid-Point Assessment Reports, Close Out Report, approved Evaluation Design, Interim Evaluation Report, and Summative Evaluation Report) on the state's Medicaid website within 30 days of approval by CMS.
- 17.12. **Additional Publications and Presentations.** For a period of twenty-four (24) months following CMS approval of the final reports, CMS will be notified prior to presentation of these reports or their findings, including in related publications (including, for example, journal articles), by the state, contractor, or any other third party directly connected to the demonstration. Prior to release of these reports, articles or other publications, CMS will be provided a copy including any associated press materials. CMS will be given thirty (30) days to review and comment on publications before they are released. CMS may choose to decline to comment or review some or all of these notifications and reviews.

Attachment A: Developing the Evaluation Design

Introduction

Both state and federal governments need rigorous quantitative and qualitative evidence to inform policy decisions. To that end, for states that are testing new approaches and flexibilities in their Medicaid programs through section 1115 demonstrations, evaluations are crucial to understand and disseminate information about these policies. The evaluations of new initiatives seek to produce new knowledge and direction for programs and inform Medicaid policy for the future. While a narrative about what happened during a demonstration provides important information, the principal focus of the evaluation of a section 1115 demonstration should be obtaining and analyzing data. Evaluations should include findings about the process (e.g., whether the demonstration is being implemented as intended), outcomes (e.g., whether the demonstration is having the intended effects on the target population), and impacts of the demonstration (e.g., whether the outcomes observed in the targeted population differ from outcomes in similar populations not affected by the demonstration).

Submission Timelines

There is a specified timeline for the state’s submission of its draft Evaluation Design and subsequent evaluation reports. The graphic below depicts an example of this timeline for a 5-year demonstration. In addition, the state should be aware that section 1115 evaluation documents are public records. The state is required to publish the Evaluation Design to the state’s website within thirty (30) calendar days of CMS approval, as per 42 CFR 431.424(e). CMS will also publish a copy to the Medicaid.gov website.

Expectations for Evaluation Designs

CMS expects Evaluation Designs to be rigorous, incorporate baseline and comparison group assessments, as well as statistical significance testing. Technical assistance resources for constructing comparison groups and identifying causal inferences are available on Medicaid.gov: <https://www.medicaid.gov/medicaid/section-1115-demonstrations/1115-demonstration-monitoring-evaluation/1115-demonstration-state-monitoring-evaluation-resources/index.html>. If

the state needs technical assistance using this outline or developing the Evaluation Design, the state should contact its demonstration team.

All states with section 1115 demonstrations are required to conduct Interim and Summative Evaluation Reports, and the Evaluation Design is the roadmap for conducting these evaluations. The roadmap begins with the stated goals for the demonstration, followed by the measurable evaluation questions and quantifiable hypotheses, all to support a determination of the extent to which the demonstration has achieved its goals. When conducting analyses and developing the evaluation reports, every effort should be made to follow the approved methodology. However, the state may request, and CMS may agree to, changes in the methodology in appropriate circumstances.

The format for the Evaluation Design is as follows:

- A. General Background Information;
- B. Evaluation Questions and Hypotheses;
- C. Methodology;
- D. Methodological Limitations;
- E. Attachments.

A. General Background Information – In this section, the state should include basic information about the demonstration, such as:

1. The issue/s that the state is trying to address with its section 1115 demonstration and/or expenditure authorities, the potential magnitude of the issue/s, and why the state selected this course of action to address the issue/s (e.g., a narrative on why the state submitted an 1115 demonstration proposal).
2. The name of the demonstration, approval date of the demonstration, and period of time covered by the evaluation.
3. A description of the population groups impacted by the demonstration.
4. A brief description of the demonstration and history of its implementation, and whether the draft Evaluation Design applies to an amendment, extension, renewal, or expansion of, the demonstration.
5. For renewals, amendments, and major operational changes: a description of any changes to the demonstration during the approval period; the primary reason or reasons for the change; and how the Evaluation Design was altered or augmented to address these changes.

B. Evaluation Questions and Hypotheses – In this section, the state should:

1. Identify the state’s hypotheses about the outcomes of the demonstration, and discuss how the evaluation questions align with the hypotheses and the goals of the demonstration.
2. Address how the hypotheses and research questions promote the objectives of Titles XIX and/or XXI.

Describe how the state’s demonstration goals are translated into quantifiable targets for improvement, so that the performance of the demonstration in achieving these targets can be measured.

4. Include a Driver Diagram to visually aid readers in understanding the rationale behind the cause and effect of the variants behind the demonstration features and intended outcomes. A driver diagram, which includes information about the goals and features of the demonstration, is a particularly effective modeling tool when working to improve health and health care through specific interventions. A driver diagram depicts the relationship between the aim, the primary drivers that contribute directly to achieving the aim, and the secondary drivers that are necessary to achieve the primary drivers for the demonstration. For an example and more information on driver diagrams: <https://innovation.cms.gov/files/x/hciatwoaimsdrrrs.pdf>.

C. Methodology – In this section, the state is to describe in detail the proposed research methodology. The focus is on showing that the evaluation meets the prevailing standards of scientific and academic rigor, that the results are statistically valid and reliable, and that it builds upon other published research, using references where appropriate.

This section also provides evidence that the demonstration evaluation will use the best available data. The state should report on, control for, and make appropriate adjustments for the limitations of the data and their effects on results, and discuss the generalizability of results. This section should provide enough transparency to explain what will be measured and how, in sufficient detail so that another party could replicate the results. Table A below is an example of how the state might want to articulate the analytic methods for each research question and measure.

Specifically, this section establishes:

1. *Methodological Design* – Provide information on how the evaluation will be designed. For example, whether the evaluation will utilize pre/post data comparisons, pre-test or post-test only assessments. If qualitative analysis methods will be used, they must be described in detail.
2. *Target and Comparison Populations* – Describe the characteristics of the target and comparison populations, incorporating the inclusion and exclusion criteria. Include information about the level of analysis (beneficiary, provider, or program level), and if populations will be stratified into subgroups. Additionally, discuss the sampling methodology for the populations, as well as support that a statistically reliable sample size is available.
3. *Evaluation Period* – Describe the time periods for which data will be included.
4. *Evaluation Measures* – List all measures that will be calculated to evaluate the demonstration. The state also should include information about how it will define the

numerators and denominators. Furthermore, the state should ensure the measures contain assessments of both process and outcomes to evaluate the effects of the demonstration during the period of approval. When selecting metrics, the state shall identify opportunities for improving quality of care and health outcomes, and controlling cost of care. The state also should incorporate benchmarking and comparisons to national and state standards, where appropriate.

Include the measure stewards (i.e., the organization(s) responsible for the evaluation data elements/sets by “owning”, defining, validating, securing, and submitting for endorsement, etc.) Proposed health measures could include CMS’s Core Set of Health Care Quality Measures for Children in Medicaid and CHIP, Consumer Assessment of Health Care Providers and Systems (CAHPS), the Initial Core Set of Health Care Quality Measures for Medicaid-Eligible Adults and/or measures endorsed by National Quality Forum. Proposed performance metrics can be selected from nationally recognized metrics, for example from sets developed by the Center for Medicare and Medicaid Innovation or for meaningful use under Health Information Technology.

5. *Data Sources* – Explain from where the data will be obtained, describe any efforts to validate and clean the data, and discuss the quality and limitations of the data sources. If the state plans to collect primary data (i.e., data collected specifically for the evaluation), include the methods by which the data will be collected, the source of the proposed questions and responses, and the frequency and timing of data collection. Additionally, copies of any proposed surveys must be provided to CMS for approval before implementation.
6. *Analytic Methods* – This section includes the details of the selected quantitative and/or qualitative analysis measures that will adequately assess the effectiveness of the demonstration. This section should:
 - a. Identify the specific statistical testing which will be undertaken for each measure (e.g., t-tests, chi-square, odds ratio, ANOVA, regression).
 - b. Explain how the state will isolate the effects of the demonstration from other initiatives occurring in the state at the same time (e.g., through the use of comparison groups).
 - c. Include a discussion of how propensity score matching and difference-in-differences designs may be used to adjust for differences in comparison populations over time, if applicable.
 - d. Consider the application of sensitivity analyses, as appropriate.
7. *Other Additions* – The state may provide any other information pertinent to the Evaluation Design for the demonstration.

Table A. Example Design Table for the Evaluation of the Demonstration

Research Question	Outcome measures used to address the research question	Sample or population subgroups to be compared	Data Sources	Analytic Methods
Hypothesis 1				
Research question 1a	-Measure 1 -Measure 2 -Measure 3	-Sample e.g. All attributed Medicaid beneficiaries -Beneficiaries with diabetes diagnosis	-Medicaid fee-for-service and encounter claims records	-Interrupted time series
Research question 1b	-Measure 1 -Measure 2 -Measure 3 -Measure 4	-Sample, e.g., PPS patients who meet survey selection requirements (used services within the last 6 months)	-Patient survey	Descriptive statistics
Hypothesis 2				
Research question 2a	-Measure 1 -Measure 2	-Sample, e.g., PPS administrators	-Key informants	Qualitative analysis of interview material

D. Methodological Limitations – This section provides more detailed information about the limitations of the evaluation. This could include limitations about the design, the data sources or collection process, or analytic methods. The state should also identify any efforts to minimize these limitations. Additionally, this section should include any information about features of the demonstration that effectively present methodological constraints that the state would like CMS to take into consideration in its review.

CMS also recognizes that there may be certain instances where a state cannot meet the rigor of an evaluation as expected by CMS. In these instances, the state should document for CMS why it is not able to incorporate key components of a rigorous evaluation, including comparison groups and baseline data analyses. For example, if a demonstration is long-standing, it may be difficult for the state to include baseline data because any pre-test data points may not be relevant or comparable. Other examples of considerations include:

1. When the demonstration is:
 - a. Non-complex, unchanged, or has previously been rigorously evaluated and found to be successful; or
 - b. Could now be considered standard Medicaid policy (CMS published regulations or guidance).

2. When the demonstration is also considered successful without issues or concerns that would require more regular reporting, such as:

- a. Operating smoothly without administrative changes;
- b. No or minimal appeals and grievances;
- c. No state issues with CMS-64 reporting or budget neutrality; and
- d. No Corrective Action Plans for the demonstration.

E. Attachments

- 1) **Independent Evaluator.** This includes a discussion of the state’s process for obtaining an independent entity to conduct the evaluation, including a description of the qualifications that the selected entity must possess, and how the state will assure no conflict of interest. Explain how the state will assure that the Independent Evaluator will conduct a fair and impartial evaluation and prepare objective Evaluation Reports. The Evaluation Design should include a “No Conflict of Interest” statement signed by the independent evaluator.
- 2) **Evaluation Budget.** A budget for implementing the evaluation shall be provided with the draft Evaluation Design. It will include the total estimated costs, as well as a breakdown of estimated staff, administrative, and other costs for all aspects of the evaluation. Examples include, but are not limited to: the development of all survey and measurement instruments; quantitative and qualitative data collection; data cleaning and analyses; and reports generation. A justification of the costs may be required by CMS if the estimates provided do not appear to sufficiently cover the costs of the draft Evaluation Design, if CMS finds that the draft Evaluation Design is not sufficiently developed, or if the estimates appear to be excessive.
- 3) **Timeline and Major Milestones.** Describe the timeline for conducting the various evaluation activities, including dates for evaluation-related milestones, including those related to procurement of an outside contractor, if applicable, and deliverables. The final Evaluation Design shall incorporate milestones for the development and submission of the Interim and Summative Evaluation Reports. Pursuant to 42 CFR 431.424(c)(v), this timeline should also include the date by which the Final Summative Evaluation Report is due.

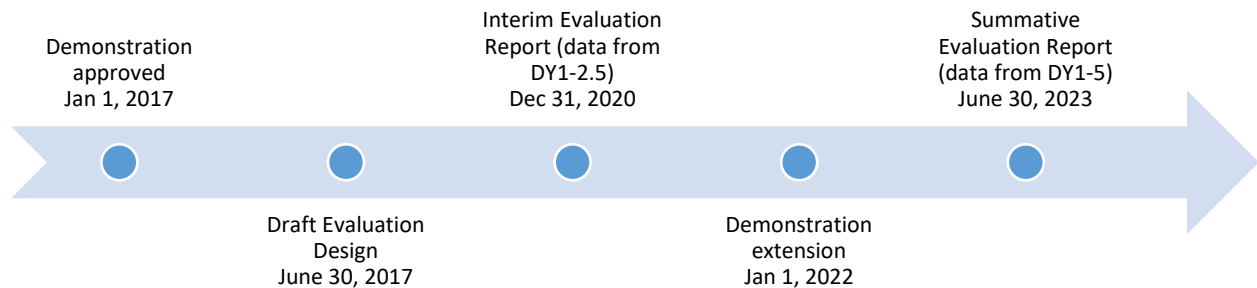

Attachment B: Preparing the Interim and Summative Evaluation Reports

Introduction

Both state and federal governments need rigorous quantitative and qualitative evidence to inform policy decisions. To that end, for states that are testing new approaches and flexibilities in their Medicaid programs through section 1115 demonstrations, evaluations are crucial to understand and disseminate information about these policies. The evaluations of new initiatives seek to produce new knowledge and direction for programs and inform Medicaid policy for the future. While a narrative about what happened during a demonstration provides important information, the principal focus of the evaluation of a section 1115 demonstration should be obtaining and analyzing data. Evaluations should include findings about the process (e.g., whether the demonstration is being implemented as intended), outcomes (e.g., whether the demonstration is having the intended effects on the target population), and impacts of the demonstration (e.g., whether the outcomes observed in the targeted population differ from outcomes in similar populations not affected by the demonstration).

Submission Timelines

There is a specified timeline for the state’s submission of Evaluation Designs and Evaluation Reports. These dates are specified in the demonstration Special Terms and Conditions (STCs). The graphic below depicts an example of a deliverables timeline for a 5-year demonstration. In addition, the state should be aware that section 1115 evaluation documents are public records. In order to assure the dissemination of the evaluation findings, lessons learned, and recommendations, the state is required to publish the Interim and Summative Evaluation Reports to the state’s website within thirty (30) calendar days of CMS approval, as per 42 CFR 431.424(d). CMS will also publish a copy to the Medicaid.gov website.

Expectations for Evaluation Reports

All states with Medicaid section 1115 demonstrations are required to conduct evaluations that are valid (the extent to which the evaluation measures what it is intended to measure), and reliable (the extent to which the evaluation could produce the same results when used repeatedly). The already-approved Evaluation Design is a map that begins with the demonstration goals, then transitions to the evaluation questions, and to the specific hypotheses, which will be used to investigate whether the demonstration has achieved its goals. When conducting analyses and developing the evaluation reports, every effort should be made to follow

the methodology outlined in the approved Evaluation Design. However, the state may request, and CMS may agree to, changes in the methodology in appropriate circumstances.

When submitting an application for extension, the Interim Evaluation Report should be posted on the state's website with the application for public comment. Additionally, the Interim Evaluation Report must be included in its entirety with the application submitted to CMS.

CMS expects Interim and Summative Evaluation Reports to be rigorous, incorporate baseline and comparison group assessments, as well as statistical significance testing. Technical assistance resources for constructing comparison groups and identifying causal inferences are available on Medicaid.gov: <https://www.medicaid.gov/medicaid/section-1115-demonstrations/1115-demonstration-monitoring-evaluation/1115-demonstration-state-monitoring-evaluation-resources/index.html>. If the state needs technical assistance using this outline or developing the evaluation reports, the state should contact its demonstration team.

Intent of this Attachment

Title XIX of the Social Security Act (the Act) requires an evaluation of every section 1115 demonstration. In order to fulfill this requirement, the state's evaluation report submissions must provide comprehensive written presentations of all key components of the demonstration, and include all required elements specified in the approved Evaluation Design. This Attachment is intended to assist states with organizing the required information in a standardized format and understanding the criteria that CMS will use in reviewing the submitted Interim and Summative Evaluation Reports.

Required Core Components of Interim and Summative Evaluation Reports

The Interim and Summative Evaluation Reports present research and findings about the section 1115 demonstration. It is important that the reports incorporate a discussion about the structure of the Evaluation Design to explain the goals and objectives of the demonstration, the hypotheses related to the demonstration, and the methodology for the evaluation. The evaluation reports should present the relevant data and an interpretation of the findings; assess the outcomes (what worked and what did not work); explain the limitations of the design, data, and analyses; offer recommendations regarding what (in hindsight) the state would further advance, or do differently, and why; and discuss the implications on future Medicaid policy.

- A. The format for the Interim and Summative Evaluation reports is as follows: Executive Summary;
- B. General Background Information;
- C. Evaluation Questions and Hypotheses;
- D. Methodology;
- E. Methodological Limitations;
- F. Results;
- G. Conclusions;
- H. Interpretations, and Policy Implications and Interactions with Other State Initiatives;
- I. Lessons Learned and Recommendations; and
- J. Attachment(s).

- A. Executive Summary** – A summary of the demonstration, the principal results, interpretations, and recommendations of the evaluation.
- B. General Background Information about the Demonstration** – In this section, the state should include basic information about the demonstration, such as:
1. The issue/s that the state is trying to address with its section 1115 demonstration and/or expenditure authorities, how the state became aware of the issue, the potential magnitude of the issue, and why the state selected this course of action to address the issues.
 2. The name of the demonstration, approval date of the demonstration, and period of time covered by the evaluation.
 3. A description of the population groups impacted by the demonstration.
 4. A brief description of the demonstration and history of the implementation, and if the evaluation is for an amendment, extension, renewal, or expansion of, the demonstration.
 5. For renewals, amendments, and major operational changes: A description of any changes to the demonstration during the approval period; whether the motivation for change was due to political, economic, and fiscal factors at the state and/or federal level; whether the programmatic changes were implemented to improve beneficiary health, provider/health plan performance, or administrative efficiency; and how the Evaluation Design was altered or augmented to address these changes. Additionally, the state should explain how this Evaluation Report builds upon and expands earlier demonstration evaluation findings (if applicable).
- C. Evaluation Questions and Hypotheses** – In this section, the state should:
1. Identify the state’s hypotheses about the outcomes of the demonstration, and discuss how the goals of the demonstration align with the evaluation questions and hypotheses.
 2. Address how the research questions / hypotheses of this demonstration promote the objectives of Titles XIX and XXI.
 3. Describe how the state’s demonstration goals were translated into quantifiable targets for improvement, so that the performance of the demonstration in achieving these targets could be measured.
 4. The inclusion of a Driver Diagram in the Evaluation Report is highly encouraged, as the visual can aid readers in understanding the rationale behind the demonstration features and intended outcomes.
- D. Methodology** – In this section, the state is to provide an overview of the research that was conducted to evaluate the section 1115 demonstration, consistent with the approved Evaluation Design. The Evaluation Design should also be included as an attachment to the report. The focus is on showing that the evaluation builds upon other published research, (using references), meets the prevailing standards of scientific and academic rigor, and the results are statistically valid and reliable.

An Interim Evaluation Report should provide any available data to date, including both quantitative and qualitative assessments. The Evaluation Design should assure there is appropriate data development and collection in a timely manner to support developing an Interim Evaluation Report.

This section provides the evidence that the demonstration evaluation used the best available data and describes why potential alternative data sources were not used. The state also should report on, control for, and make appropriate adjustments for the limitations of the data and their effects on results, and discuss the generalizability of results. This section should provide enough transparency to explain what was measured and how, in sufficient detail so that another party could replicate the results. Specifically, this section establishes that the approved Evaluation Design was followed by describing:

- 1) *Methodological Design* – Whether the evaluation included an assessment of pre/post or post-only data, with or without comparison groups, etc.
- 2) *Target and Comparison Populations* – Describe the target and comparison populations, describing inclusion and exclusion criteria.
- 3) *Evaluation Period* – Describe the time periods for which data will be collected.
- 4) *Evaluation Measures* – List the measures used to evaluate the demonstration and their respective measure stewards.
- 5) *Data Sources* – Explain from where the data were obtained, and efforts to validate and clean the data.
- 6) *Analytic Methods* – Identify specific statistical testing which was undertaken for each measure (t-tests, chi-square, odds ratio, ANOVA, regression, etc.).
- 7) *Other Additions* – The state may provide any other information pertinent to the evaluation of the demonstration.

E. Methodological Limitations – This section provides sufficient information for discerning the strengths and weaknesses of the study design, data sources/collection, and analyses.

F. Results – In this section, the state presents and uses the quantitative and qualitative data to demonstrate whether and to what degree the evaluation questions and hypotheses of the demonstration were addressed. The findings should visually depict the demonstration results, using tables, charts, and graphs, where appropriate. This section should include findings from the statistical tests conducted.

G. Conclusions – In this section, the state will present the conclusions about the evaluation results. Based on the findings, discuss the outcomes and impacts of the demonstration and identify the opportunities for improvements. Specifically, the state should answer the following questions:

1. In general, did the results show that the demonstration was/was not effective in achieving the goals and objectives established at the beginning of the demonstration?
 - a. If the state did not fully achieve its intended goals, why not?
 - b. What could be done in the future that would better enable such an effort to more fully achieve those purposes, aims, objectives, and goals?

H. Interpretations, Policy Implications and Interactions with Other State Initiatives – In this section, the state will discuss the section 1115 demonstration within an overall Medicaid context and long-range planning. This should include interrelations of the demonstration with other aspects of the state’s Medicaid program, interactions with other Medicaid demonstrations, and other federal awards affecting service delivery, health outcomes and the cost of care under Medicaid. This section provides the state with an opportunity to provide interpretations of the data using evaluative reasoning to make judgments about the demonstration. This section should also include a discussion of the implications of the findings at both the state and national levels.

I. Lessons Learned and Recommendations – This section of the evaluation report involves the transfer of knowledge. Specifically, it should include potential “opportunities” for future or revised demonstrations to inform Medicaid policymakers, advocates, and stakeholders. Recommendations for improvement can be just as significant as identifying current successful strategies. Based on the evaluation results, the state should address the following questions:

1. What lessons were learned as a result of the demonstration?
2. What would you recommend to other states which may be interested in implementing a similar approach?

J. Attachment(s)

- 1) Evaluation Design: Provide the CMS-approved Evaluation Design

Attachment C: Implementation Plan
[To be incorporated after CMS approval]

Attachment D: SUD Implementation Plan

**State of Utah SUD
1115 Waiver
Implementation Plan**

Division of Medicaid and Health Financing
Utah Department of Health

Table of Contents

Overview	4
Milestone 1- Access to Critical Levels of Care for SUDs	5
Milestone 2- Use of Evidence –based SUD Specific Patient Placement Criteria	14
Milestone 3- Use of Nationally Recognized SUD Specific Program Standards to set Provider Qualifications for Residential Facilities	17
Milestone 4- Sufficient Provider Capacity at Critical Levels of Care including MAT	19
Milestone 5- Implementation of Comprehensive Strategies to Address Prescription Drug Abuse and Opioid Use Disorders	23
Milestone 6- Improved Care and Coordination between Levels of Care	29
Grievance and Appeals	33

Overview

The Utah Department of Health (DOH) was created in 1981 to protect the public’s health by preventing avoidable illness, injury, disability and premature death; assuring access to affordable, quality health care; promoting healthy lifestyles; and monitoring health trends and events. The Utah Department of Health is the designated Medicaid single state agency pursuant to Title 26, Chapter 1 of the Utah Code Annotated. The Division of Medicaid and Health Financing (DMHF) is the agency authorized to administer Utah’s Medicaid program.

The Division of Substance Abuse and Mental Health (DSAMH) is authorized under Utah Code Annotated (UCA) §62A-15-103 as the single state authority in Utah. It is charged with ensuring a comprehensive continuum of substance use and mental health disorder services are available throughout the state. In addition, DSAMH is tasked with ensuring that public funds are spent appropriately.

According to the annual report from the Division of Substance Abuse and Mental Health, Department of Human Services, State of Utah, 134,764 adults in the state were classified as needing treatment for alcohol and/or drug dependence or abuse in 2015. For youth in grades 6 through 12, 11,804 are in need of treatment for drug and/or alcohol dependence or abuse. Seventy four percent (74%) of all adults treated by the public system are Medicaid eligible. If amendment # 15 (Attachment 9) is approved by CMS the percentage of adults needing SUD services who are Medicaid eligible will increase. At the same time 46% of all youth receiving treatment in the public system are Medicaid eligible.

Utah, like other states, is trying to address a significant increase in opioid use. According to a report recently published by the Utah Department of Health, from 2012-2014 Utah ranked 4th in the U.S. for drug poisoning deaths. Every month, 49 Utahans die as a result of a drug overdose.

In 2014, 32.3% of Utah adults reported using at least one prescribed opioid pain medication during the preceding 12 months, an increase of 55.3% since 2008.

Furthermore, the prevalence of Utah adults who reported using prescription opioids that had not been prescribed to them increased 77.8% from 2008 (1.8%) to 2014 (3.2%). In 2012, Utah ranked 15th highest in the nation for high-dose opioid prescribing. A number of factors have contributed to the increase and widespread availability of prescription opioids. In the early 1990s, physicians were urged to be more attentive in identifying and aggressively treating pain. In addition, the pharmaceutical industry aggressively marketed the use of prescription opioids to providers. Consequently, opioid pain relievers, such as oxycodone and hydrocodone, gained widespread acceptance. Health care professionals prescribed opioid pain relievers more frequently as part of patient care. The increase in prescription pain medication prescribing resulted in these medicines being kept in home medicine cabinets, providing in an increased opportunity for theft or misuse. Utah needs to use all available options in a continuum of care to treat this health care crisis in our state.

MILESTONE 1: Access to Critical Levels of Care for SUD Substance Use Disorder Delivery System

The Utah public mental health and substance abuse system provides an array of services that assure an effective continuum of care. Under the administrative direction of DSAMH, the counties and their local mental health authority (LMHA) are given the responsibility to provide mental health and substance use disorder services to its citizens. Counties set the priorities to meet local needs and submit an annual local area plan to DSAMH describing what services they will provide with State, Federal, and County money. State and Federal funds are allocated to a county or group of counties based on a formula established by DSAMH.

In Utah, a continuum of services has been designed to address the full spectrum of substance use problems. Treatment services are based on the American Society of Addiction Medicine (ASAM) Patient Placement Criteria.

Comprehensive Benefit Design

Utah administers a comprehensive evidence-based MH/SUD benefit that offers a full continuum of care. Treatment services are based on the American Society of Addition Medicine (ASAM) Patient Placement Criteria. Effective July 1, 2017, Utah added coverage for SBIRT (Screening, Brief Intervention and Referral to Treatment) as a state plan covered service.

The following table provides an overview of each ASAM level of care with current Utah Medicaid coverage along with proposed changes:

ASAM Level of Care	Title	Description	Provider	Existing Medicaid Service Y/N	New Medicaid Service Y/N
0.5	Early Intervention	Screening, Brief Intervention and Referral for Treatment (SBIRT)	Managed care or Fee for Services provider	Y as of July 1, 2017	

1	Outpatient Services	Less than 9 hours of services /week (adults); Less than 6 hours /week adolescents) for recovery or motivational enhancement therapies/strategies, MAT, TCM	DHS/OL Certified Outpatient Facilities	Y	
2.1	Intensive Outpatient Services	9 or more hours of service/week (adults); 6 or more hours /week (adolescents) to treat multi-dimensional instability, MAT, TCM	DHS/OL Certified Outpatient Facilities	Y	
2.5	Day Treatment/ Psychosocial Rehabilitation Services	20 or more hours of service/week for multi-dimensional instability, not requiring 24 hour care, MAT, TCM	DHS/OL Certified Outpatient Facilities	Y	
3.1	Clinically Managed Low-Intensity Residential Services	24 hour structure with trained personnel; at least 5 hours of clinical service/week and prepare for outpatient treatment, MAT, TCM	DHS/OL Licensed and DHS/ASAM Designated Residential Providers	Y	

3.3	Clinically Managed Population Specific High Intensity Residential Services	24 hour structure with trained counselors to stabilize multi-dimensional imminent danger; Less intense milieu; and group treatment for those with cognitive or other impairments unable to use fill active milieu or therapeutic community and prepare for outpatient treatment, MAT, TCM	DHS/OL Licensed and DHS/ASAM Designated Residential Providers	Y	
3.5	Clinically Managed High Intensity Residential Services	24 hour care with trained counselors to stabilize multi-dimensional imminent danger and prepare for outpatient treatment, MAT, TCM	DHS/OL Licensed and DHS/ASAM Designated Residential Providers	Y	
3.7	Medically Monitored Intensive Inpatient Services	24 hour nursing care with physician availability for significant problems in Dimensions 1, 2 or 3. 16 hour/day counselor availability, MAT, TCM	Chemical Dependency Recovery Hospitals; Hospital, Free Standing Psychiatric Hospitals	Y	
4	Medically Managed Intensive Inpatient	24 hour nursing care and daily physician care for severe unstable problems in Dimensions 1, 2 or 3. Counseling available to engage patient in treatment	Chemical Dependency Recovery Hospitals; Hospital, Free Standing Psychiatric Hospitals	Y	

OTP	Opioid Treatment Program	Daily or several times weekly opioid agonist medication and counseling to maintain multidimensional stability for those with severe opioid use. MAT includes methadone, Suboxone, Naltrexone	DHS/OL Licensed OTP Maintenance Providers, Licensed Prescribers	Y	
-----	--------------------------	--	---	---	--

Table Two- ASAM Criteria for Withdrawal Services

Level of Withdrawal Management	<u>Level</u>	<u>Description</u>	<u>Provider</u>	Existing Medicaid Service Y/N	New Medicaid Service Y/N
Ambulatory Withdrawal Management Without Extended on-Site Monitoring	1-WM	Mild withdrawal with daily or less than daily outpatient supervision	DHS/OL Certified Outpatient Facility w/ Detox Certification; Physician, licensed prescriber; or OTP for opioids	N	Y
Ambulatory Withdrawal Management with Extended On-site Monitoring	2-WM	Moderate withdrawal management and support and supervision; at night has supportive family or living situation	DHS/OL Certified Outpatient Facility w/ Detox Certification; Licensed Prescriber; or OTP for Opioids	Y	
Clinically Managed Residential Withdrawal Management	3.2-WM	Moderate withdrawal, but needs 24 hour support to complete withdrawal management and increase likelihood of continuing treatment or recovery	DHS/OL Licensed Residential Facility w/ Detox Certification; Physician, Licensed Prescriber; Ability to Promptly Receive Step-downs	N	Y

Utah currently covers the discrete individual services if an individual is eligible for Medicaid and is in residential treatment for ASAM level 3.1, 3.3, 3.5 and 3.7 levels of

care. Utah's waiver allows Medicaid to cover services provided for ASAM level 3.1, 3.3, 3.5 and 3.7 on a per diem basis for all Medicaid eligible populations in facilities with 17 or more beds. Each of the ASAM levels of care will be addressed in more detail to describe current coverage, future coverage, and a timeline for implementation of any proposed changes. In addition, the Utah Medicaid Provider Manual, Rehabilitative Mental Health and Substance Abuse Disorder Services will be updated to reflect each ASAM level of care covered by Utah Medicaid. This update will be completed by July 1, 2018.

Residential treatment

Services for Adolescents and Youth with an SUD

Access to substance abuse treatment is especially important for the millions of children who live with at least one parent who is dependent on alcohol or an illicit drug. Utah provides coverage to all children under the age of 21 for screening, vision, dental, hearing, and other medically necessary health care services to treat, correct, or ameliorate illnesses and conditions discovered, regardless of whether the service is covered in the Utah Medicaid State Plan, as required by Early and Periodic screening, Diagnostic, and Treatment (EPSDT). This benefit extends to all substance abuse treatment identified through the ASAM continuum of care, including residential and inpatient treatment.

Level of Care: 0.5 (Early Intervention)

Current State:

Utah Medicaid provides coverage for several individual services around early intervention, including smoking cessation counseling and screening, brief intervention, and referral to treatment (SBIRT). These services are available to all Utah Medicaid members without prior authorization.

Future State:

No changes are expected.

Summary of Actions Needed:

None

Level of Care: 1.0 (Outpatient Services)

Current State:

Utah Medicaid reimburses for outpatient treatment (OT) as a service available through on a fee for services basis and through Utah's Prepaid Mental Health Plans. Coverage, code and billing details can be found in the Utah Medicaid Provider Manual for Rehabilitative Mental Health and Substance Use Disorder Services.

<https://medicaid.utah.gov/Documents/manuals/pdfs/Medicaid%20Provider%20Manuals/Rehabilitative%20Mental%20Health%20And%20Substance%20Use%20Disorder%20Services/RehabMentalHealthSubAbuse7-17.pdf>

Future State:

No changes are expected

Summary of Actions Needed:

None

Level of Care: 2.1 (Intensive Outpatient Services)

Current State:

Utah Medicaid reimburses for intensive outpatient treatment (IOT) as a service available through on a fee for services basis and through Utah's Prepaid Mental Health Plans. Coverage, code and billing details can be found in the Utah Medicaid Provider Manual for

Rehabilitative Mental Health and Substance Use Disorder Services.

<https://medicaid.utah.gov/Documents/manuals/pdfs/Medicaid%20Provider%20Manuals/Rehabilitative%20Mental%20Health%20And%20Substance%20Use%20Disorder%20Services/RehabMentalHealthSubAbuse7-17.pdf>

Future State:

No changes are expected

Summary of Actions Needed:

None

Level of Care: 2.5 (Day Treatment/Psychosocial Rehabilitation Services/ Partial Hospitalization)

Current State:

Utah Medicaid covers Day Treatment/Psychosocial Rehabilitation Services for all members as a service available through on a fee for services basis and through Utah’s Prepaid Mental Health Plans. Coverage, code and billing details can be found in the Utah Medicaid Provider Manual for Rehabilitative Mental Health and Substance Use Disorder Services.

<https://medicaid.utah.gov/Documents/manuals/pdfs/Medicaid%20Provider%20Manuals/Rehabilitative%20Mental%20Health%20And%20Substance%20Use%20Disorder%20Services/RehabMentalHealthSubAbuse7-17.pdf>

Future State:

No immediate changes are expected.

Summary of Actions Needed:

None

Level of Care: 3.1 / 3.5 (Clinically Managed Low-Intensity Residential / Clinically Managed High-Intensity Residential)

Current State:

Residential treatment for substance abuse disorders can be provided within institutions for mental disease (IMDs). An IMD is defined as a hospital, nursing facility, or other institution of more than 16 beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services. Federal law prohibits federal financial participation (FFP) from going to IMDs for individuals aged 21 through 64. One of the primary goals of the 1115 SUD waiver is to waive this restriction and allow IMDs to provide treatment to all Utah Medicaid members, including inpatient and residential treatment.

Utah Medicaid currently covers the discrete individuals services provided to Medicaid members who are in a residential treatment facility at ASAM level 3.1 or 3.5 with no more than 16 beds.

Future State:

Utah Medicaid determined a per diem rate to pay for residential treatment for substance use disorder. Therefore upon approval of Utah’s amendment to its 1115 waiver and Utah’s SUD Implementation Plan, Level 3.1 (clinically managed low-intensity residential) and Level 3.5 (clinically managed high-intensity residential) will be reimbursable in a facility with 17 or more beds (IMD) for all Utah Medicaid populations (fee-for-service and managed care).

The State will reimburse residential programs based on a bundled per diem payment. The bundled rate methodology for both Level 3.1 and 3.5 residential services will initially be based around a mix of current discrete services Medicaid eligible individuals receive while in a residential treatment setting. Only facilities that have been designated by the Division of Substance Abuse and Mental Health (DSAMH) as a Level 3.1 or Level 3.5 residential facility will receive reimbursement from Utah Medicaid. The development of improved certification requirements and ASAM designation for these facilities will be addressed under a later section of the implementation plan.

Summary of Action Items:

- MMIS system modifications (including finalizing coding)
- Update the Utah provider manual, “Rehabilitative Mental Health and Substance Abuse Disorder Services” to reflect coverage based on ASAM Levels of care for 3.1, 3.3, 3.5 and 3.7.
- Provider notification and training

Action Implementation Timeline

- Develop rate methodology for residential treatment- COMPLETE
- MMIS system modifications (including finalizing coding)- November 1, 2017
- Provider notification and training- Beginning November 2, 2017
- Coverage and Reimbursement for ASAM levels of care 3.1/3.5 on a per diem basis in a facility with 17 or more beds (IMD) will be available immediately upon approval the Utah’s SUD Implementation Plan.
- Update the Utah provider manual, “Rehabilitative Mental Health and Substance Abuse Disorder Services” to reflect coverage based on ASAM Levels of care for 3.1, 3.3, 3.5 and 3.7 by March 31, 2018.

Level of Care: 3.7 (Medically Monitored Intensive Inpatient / Medically Managed Intensive Inpatient) Withdrawal Management Services (Inpatient Detoxification)

Current State

Utah Medicaid currently covers the discrete individual services provided to Medicaid members who are in a residential treatment facility at ASAM level 3.7 with no more than 16 beds.

Utah Medicaid has established a methodology to pay for residential treatment for substance use disorder. Therefore upon approval of Utah’s amendment to its 1115 waiver Level 3.7 (Medically Monitored Intensive Inpatient) will be reimbursable for all populations (fee-for-service and managed care).

The State will reimburse residential programs based on a bundled per diem payment. The bundled rate methodology for Level 3.7 will initially be based around a mix of current discrete services Medicaid eligible individuals receive while in a residential treatment setting.

Only facilities that have been designated by the Division of Substance Abuse and Mental Health (DSAMH) as a Level 3.7 residential facility will receive reimbursement from Utah Medicaid. The development of improved certification requirements and ASAM designation for these facilities will be addressed under a later section of the implementation plan.

Summary of Action Items:

- MMIS system modifications (including finalizing coding)
- Update provider manuals
- Provider notification and training

Action Implementation Timeline

- Develop rate methodology for residential treatment- COMPLETE
- MMIS system modifications (including finalizing coding)- November 1, 2017
- Provider notification and training- Beginning November 2, 2017
- Coverage and Reimbursement for ASAM levels of care 3.7 on a per diem basis will be available immediately upon approval the Utah’s SUD Implementation Plan.
- Update the Utah provider manual, “Rehabilitative Mental Health and Substance

Abuse Disorder Services” to reflect coverage based on ASAM Levels of care for 3.1, 3.3, 3.5 and 3.7 by March 31, 2018.

Future State:

No changes are expected

Summary of Actions Needed:

None

Sub Support Service – Addiction Recovery Management Services

Current State:

Utah currently covers addiction recovery management services. Please see the Utah Medicaid Provider Manual for Rehabilitative Mental Health and Substance Use Disorder Services.

<https://medicaid.utah.gov/Documents/manuals/pdfs/Medicaid%20Provider%20Manuals/Rehabilitative%20Mental%20Health%20And%20Substance%20Use%20Disorder%20Services/RehabMentalHealthSubAbuse7-17.pdf>

Future State:

No changes are expected

Summary of Actions Needed:

None

MILESTONE 2. Use of Evidence –based SUD Specific Patient Placement

Criteria

Patient Assessments

The Utah State Division of Substance Abuse and Mental Health (DSAMH) requires that the Local Authority Substance Use and Mental Health Providers complete the following (1) Biopsychosocial Assessment (2) ASAM Patient Placement Criteria and (3) Screening for substance use disorder, mental health and suicide risk. However, DSAMH does not require one specific multi-dimensional tool. The assessment should be ongoing, strength based, and comprehensive to identify individual strengths and needs. These requirements are found in the DSAMH Division

Directives: https://dsamh.utah.gov/pdf/contracts_and_monitoring/Divison_Directives_FY_17_Final.pdf.

In addition, Utah Administrative Rule R523-4 requires: “Assessments shall identify the individual's level of motivation for treatment and implement strategies to increase engagement and need for clinically appropriate Mental Health Disorder services and/or Substance Use Disorder services in the following modified ASAM Patient Placement Criteria dimensions:

- (a) Risk of acute psychosis, intoxication/withdrawal;
- (b) Biomedical conditions or complications;
- (c) Emotional, behavioral, or cognitive conditions;

- (d) Readiness to change;
 - (e) Relapse, continued use or continued problem potential; and
 - (f) Recovery environment.
- (3) The assessment shall include relevant information on:
- (a) The individual's psychosocial function, substance use including tobacco/nicotine, mental and physical health, and other factors, such as educational experiences, trauma history, cultural issues, legal involvement, and family relationships that are relevant to the purpose of the assessment;
 - (b) Strengths, resiliencies, natural supports, interests of the individual, and an evaluation of the individual's unique abilities;
 - (c) Developmental and functional levels, social, emotional, communication abilities and strengths, and independent living skills;
 - (d) Cognitive, social, and affective development; family, peer, and intimate relationships; trauma; current or past emotional, physical or sexual abuse; suicidality; and safety;
 - (e) Collateral information from other sources that are relevant to the individual's situation and provides insight into the issues in Subsection R523-4-6(2)(a) through (2)(d).
- (4) The assessment shall include a diagnosis when clinically indicated.
- (5) Based on the screening and the assessment, the assessor shall make recommendations regarding the needed level of care and services to address the identified clinical needs.
- (6) The levels of care and array of services shall be based on the ASAM.”

DSAMH conducts annual monitoring site visits to all county local authority treatment programs in which clinical records and client placement is reviewed. Our monitoring tools and reports are online at: <https://dsamh.utah.gov/provider-information/contracts-monitoring/>.

Retention in treatment is the factor most consistently associated with positive client outcomes. The appropriate length of a treatment varies based on the needs of the individual. However, the National Institute of Drug Addiction (NIDA) states: “Participation in residential or outpatient treatment for less than 90 days is of limited effectiveness and treatment lasting significantly longer is recommended for maintaining positive outcomes. For methadone maintenance, 12 months is considered a minimum, and some individuals with opioid use disorders continue to benefit from methadone maintenance for many years.” Just like treatment for any other chronic disease, addiction treatment must be of sufficient duration to succeed. Client progress over a short period of time should not be seen as a “cure.” Likewise, relapse should not be a reason to discontinue care. Programs should employ multiple strategies to engage and retain clients. Successful programs offer continuing care, and use techniques that have been proven to enhance client motivation. It is also important to recognize that multiple episodes of treatment may be necessary.

Future State:

All providers will be trained on ASAM criteria

Summary of Actions Needed:

Ongoing provider training on ASAM criteria

Action Implementation Timeline

- Provider education will continue to be provided on ASAM Criteria by the Division of Substance Abuse and Mental Health throughout 2017 and 2018

Independent Third Party

Once an eligible licensed professional completes a psychosocial assessment for individuals needing substance abuse treatment, those findings must be reviewed by an independent third party that has the necessary competencies to use the ASAM Patient Placement Criteria to assure the findings were correct.

The Division of Substance Abuse and Mental Health is responsible for monitoring and oversight of the public behavioral health system. DSAMH conducts annual, on-site monitoring of each Local Authority in the public behavioral health system. The monitoring visits are required by Utah Code and are intended to measure contract compliance, use of evidence-based practices, as well as ensure a cohesive, strategic direction for the state and to assure individuals are receiving services at the appropriate level of care.

In addition, if a Medicaid member is enrolled in a PMHP for their SUD services, the PMHP is responsible to assure the findings from a psychosocial assessment is correct for their enrollee. PMHPs may also implement utilization review in the form of prior authorization of services.

Future State:

Utah Medicaid does not currently require prior authorization for residential treatment based on ASAM Levels of Care for fee for service members. Utah Medicaid will need to establish a utilization review process based on ASAM criteria to assure that all residential placement for fee for service members are appropriate. In addition, Utah Medicaid needs to review PMHP contract language to assure this requirement is clear. Each entity will be allowed to utilize any evidence-based system for clinical guidelines that incorporates the medical criteria required for an individual to meet an ASAM level of care.

Summary of Actions Needed:

This requirement will be formalized in Medicaid policy and Managed Care contracts. Procedures need to be established and implemented for fee for service members.

Action Implementation Timeline:

- Medicaid policy will be clarified by July, 1, 2018
- PMHP contracts clarified no later than July 1, 2018.
- Utah Medicaid will establish and implement procedures to review placements for appropriate ASAM level of care for fee for service members by July 1, 2018

Milestone 3: Use of Nationally Recognized SUD-specific Program Standard to Set Provider Qualifications for Residential Treatment Facilities**Certification of Residential Facilities**

Utah through the Division of Substance Abuse and Mental Health established provider qualification requirements for residential treatment providers in their licensure standards, or other guidance that mirror the description of good quality residential treatment services in the ASAM Criteria or other nationally recognized SUD-specific program standards, <https://rules.utah.gov/publicat/code/r501/r501-19.htm>. In addition, counties that contract for residential services have detailed contracts with providers based on ASAM Criteria.

The Office of Licensing audits to these guidelines. DSAMH conducts annual monitoring site visits to Local Authorities reviewing Policy and Procedures, licensures, schedules, clinical documents. Copies of DSAMH monitoring tools and reports can be found at: <https://dsamh.utah.gov/provider-information/contracts-monitoring/>.

Future State:

Utah Medicaid will have a process established to certify private residential treatment facilities based on ASAM criteria who may provide services to Medicaid fee for service members.

Summary of Actions Needed:

Utah Medicaid will need to establish and implement a process to certify private residential treatment facilities based on ASAM criteria who provide services to Medicaid fee for service members. In addition, PMHP contracts language regarding this requirement should be reviewed to determine if changes to the contract to support this milestone are necessary.

Action Implementation Timeline

- Utah Medicaid will establish and implement a process to certify private residential treatment facilities based on ASAM criteria who provide services to Medicaid fee for service members no later than July 1, 2018.
- The Utah Division of Substance Abuse and Mental Health and the Office of Licensing will implement a process to certify public and private non-profit residential treatment facilities based on ASAM criteria who provide services to Medicaid fee for service members no later than December 31, 2018.
- PMHP contracts language regarding this requirement will be reviewed and modified if appropriate by July 1, 2018.
- Administrative rule making will be promulgated to support this milestone with an effective date of July 1, 2018.
- An addendum to the Utah Medicaid Provider Agreement will be implemented to gather information on ASAM levels of care provided by private residential treatment providers by March 31, 2018.

MILESTONE 4- Sufficient Provider Capacity at Critical Levels of Care including for Medication Assisted Treatment

Network Development Plan

Overall Strategy- Addiction Treatment Services Providers

Network adequacy is a critical concern for the success of the 1115 SUD waiver. DSAMH certifies all mental health and addiction providers in Utah. In addition, SUD professionals are licensed by the Utah Division of Occupational and Professional Licensing. Finally residential treatment programs are licensed by the Division of Licensing, Utah Department of Human Services.

Local Substance Abuse authorities are responsible to provide SUD treatment to the residents of their county. Community mental health centers and their contracted providers are the core of public SUD services in Utah. The DSAMH monitors the Local authorities to assure appropriate access to care for county residents. In addition, the DMHF and DSMH are working with several private non-profit residential treatment providers to expand their capacity to provide treatment to Medicaid members in need of residential treatment. The state anticipates there will be at least 240 residential treatment beds available by July 1, 2018. DSAMH also prepared an inventory of additional residential treatment providers across the state who can provide treatment if the need arises.

The DSAMH works closely with the Local Mental Health and Substance Abuse Authorities to ensure

there are a sufficient number of providers in the community to provide access to outpatient services. In addition, HSAG, Utah Medicaid contracted external quality review organization (EQRO) also conducts an assessment of the adequacy of provider networks for Medicaid contracted managed care entities. The Local MH/SA Authorities contract with Utah Medicaid as PIHPs or PAHPs pursuant to Utah's 1915(b) Prepaid Mental Health Waiver.

Future State:

The inventory of providers prepared by DSAMH does not identify providers by ASAM level of care nor identify if the provider is accepting new patients. The State may have a total of 240 residential treatment beds from private non-profit providers by July 1, 2018.

Summary of Actions Needed:

The DSAMH provider inventory needs to be updated to identify providers by ASAM level of care and whether or not providers are accepting new patients.

DMHF and DSAMH will continue to work together to assure Medicaid members in need of SUD treatment services have access to care.

Action Implementation Timeline:

- DSAMH will update their provider inventory referred to above to include information on the providers at each ASAM level of care and whether or not the provider is accepting new patients by September 2018.
- DMHF and DSAMH will meet on an annual basis to evaluate the adequacy of access to SUD providers for the entire continuum of care on an annual basis beginning May 2018.

Program Integrity Safeguards

Utah Medicaid complies with all required provider screening and enrollment requirements as outlined in *42 CFR 455, Subpart E*.

Risk-Based Screening

Each provider is subject to pre-enrollment screening. Providers are categorized by risk level - limited, moderate, or high - using the Centers for Medicare & Medicaid Services (CMS) guidelines for risk determination. The risk level assignment of an individual provider may be increased at any time as a result of a payment suspension, an overpayment, Office of Inspector General (OIG) exclusion within the past 10 years, or at the discretion of the State pursuant to Utah Administrative Code R. In these instances, the provider is notified by the State, and the new risk level will apply to processing enrollment-related transactions. Providers who are enrolling (including changes of ownership) or revalidating are screened according to their assigned risk levels. Providers assigned to the high-risk category are required to pass a national fingerprint-based criminal background check in order to enroll or remain enrolled with the Utah Medicaid. All individuals who have at least 5% ownership or controlling interest in the enrolling business entity are required to have criminal background checks. The requirement also applies to individual practitioners who have been assigned to the high-risk category. The criminal background check requires affected individuals to submit to fingerprinting. When fingerprints are taken, a confirmation number is provided. Individuals being fingerprinted should be sure to record the confirmation number, as they will need this information when completing the IHCP provider enrollment application. Individuals who have had fingerprint-based federal criminal background checks for the IHCP within the last six months do not need to repeat the process for a new enrollment; the confirmation number of the prior fingerprinting is acceptable, as long as it was conducted within six months of submission. Individuals are responsible for the cost of the fingerprinting. It is important to follow instructions carefully, or it may be necessary to be fingerprinted.

Utah Medicaid may deny or terminate an individual's or entity's eligibility to participate as a Medicaid provider in the state of Utah if the agency finds that the provider or a person owning, directly or indirectly, at least 5% of the enrolling/enrolled entity has been convicted of any offense (including guilty pleas and adjudicated pretrial diversions) that the agency determines is inconsistent with the best

interest of Utah Medicaid members or the Medicaid program. The following list includes examples of offenses that may demonstrate that a provider is not eligible for participation. This list is not exhaustive. Felony crimes against persons, such as murder, rape, assault, and other similar violent crimes.

- Financial crimes, such as extortion, embezzlement, income tax evasion, insurance fraud, and other crimes of criminal neglect, misconduct, or fraud
- A criminal offense that may subject members to an undue risk of harm
- Sexual misconduct that may subject members to an undue risk of harm
- A crime involving a controlled substance
- Abuse or neglect of a child or adult
- A crime involving the use of a firearm or other deadly weapon
- Crimes directly related to the provider's ability to provide services under the Medicaid Program

In addition, Utah Medicaid may implement administrative sanction against a provider who abuse or improperly apply the program pursuant to Utah Administrative Code R414- 22.

Provider Revalidation

The Centers for Medicare & Medicaid Services (CMS) requires state Medicaid programs to revalidate provider enrollments at intervals not to exceed every five years. The CMS revalidation requirement for durable medical equipment (DME) and home medical equipment (HME) providers, including pharmacy providers with DME or HME specialty enrollments, is more frequent, at intervals not to exceed every three years.

Utah Medicaid providers receive notification letters when it is time to recredential their enrollments. Notification with instructions for revalidating are sent 90 and 60 days in advance of the revalidation deadline. Notices are mailed to the Service Location address indicated on the provider's service location profile. Providers with multiple service locations must revalidate the enrollment of each service location. Providers that fail to submit revalidation paperwork in a timely manner will be disenrolled from participation in Utah Medicaid.

After disenrollment, the provider will need to submit a new Utah Medicaid Provider Enrollment Application and all Documents to reenroll with Utah Medicaid.

Disenrollment with subsequent re-enrollment may result in a gap in the provider's eligibility.

Provider Agreements

Before participating with Utah Medicaid, all substance abuse providers must have a signed Provider Agreement with Utah Medicaid pursuant to *42 CFR 431.107*. All providers on a PMHPs provider panel must also be enrolled directly with the Utah Medicaid program. In addition the provider is credentialed by the plan and enter into a contract with the PMHP.

Billing and Compliance Issues

As part of the Provider Agreement, providers agree to disclose information on ownership and control, information related to business transactions, information on changes in ownership, and information on persons convicted of crimes. In addition to DMHF, the Utah Office of Inspector General for Medicaid Services has responsibility for overseeing the integrity of all Medicaid payments issued by the State for services on behalf of all Medicaid-eligible beneficiaries as well as referring cases of suspected fraud to the Utah Office of the Attorney General, Medicaid Fraud Control Unit. Additionally, each of Utah Medicaid MCEs are contractually obligated to have administrative procedures that detail the manner in which each will detect fraud and abuse, including the operation of special investigation units (SIUs). The MCE SIUs meet regularly with the OIG and MFCU address program integrity issues. The MCEs are also contractually obligated to provide reports to Utah Medicaid on their activities.

Providers can find out how to enroll with Utah Medicaid at

<https://medicaid.utah.gov/become-medicaid-provider>

Benefit Management

All Utah ACOs and PMHPs are required by contract to provide the same benefits as Utah's fee for service Medicaid program in accordance with Article 4 of the contract.

Future State:

No changes are expected.

Summary of Actions Needed:

None

MILESTONE 5: Implementation of Comprehensive Strategies to Address Prescription Drug Abuse and Opioid Use Disorders

Level of Care: OTS (Opioid Treatment Services)

Current State:

Utah Medicaid currently provides coverage for opioid treatment program (OTP) services, including the daily administration of methadone. Methadone programs are licensed by the Department of Human Services. Methadone is only administered by licensed clinics, which bill Utah Medicaid directly on a fee for service basis for any Medicaid member, even those enrolled in managed care. Methadone is a carved out service for managed care.

Methadone providers are enrolled as Utah Medicaid Providers or as an ordering, prescribing, or referring provider in accordance with Section 6401 of the Patient Protection and Affordable Care Act.

Utah Administrative Rule R523-4 requires that "All individuals with alcohol and/or opioid disorders shall be educated and screened for the potential use of medication-assisted treatment." In addition, the DSAMH Directives require that, "

Local Substance Abuse Authority treatment programs . . .

- ii. Evaluate all clients who are opioid or alcohol dependent for the use of Medication Assisted Treatment (MAT) within the first 10 days of services and document the results of the assessment. Educate the client about MAT options; when clinically indicated and the client is amenable:
 - a. Include the use of MAT in the treatment plan, and
 - b. Either provide MAT as part of the treatment, or
 - c. Refer the individual for MAT.

Some Local Authority Residential Providers have a physician in their program that can provide MAT (Buprenorphine) to contracted residential treatment providers. In addition, they coordinate closely with the Utah State Opioid Treatment Providers who provide MAT to residential programs on or off site. In Utah, the illegal use of prescription drugs has reached epidemic proportions.

- An average of 21 Utahns die as a result of prescription opioids (pain killers) each month
- Opioids contribute to approximately three out of four drug overdose deaths
- The number of prescription opioid deaths decreased from 301 in 2014 to 278 in 2015

Over the last decade, prescription pain medications have been responsible for more drug deaths in Utah than all other drugs combined. However, coordinating with multiple partners and focusing prevention and intervention efforts has resulted in Utah seeing a decrease in opioid related deaths by

7.6% in one

year <https://www.health.utah.gov/vipp/pdf/RxDrugs/PrescribingPracticeInUtah.pdf>. DSAMH collaborates with the Department of Health to increase access to naloxone, a drug that reverses opiate overdose, and to increase efforts to prevention abuse and misuse. Following the Strategic Prevention Framework, prevention efforts include coalition work, changing laws, and strategic use of evidence-based prevention programs. DSAMH has been actively involved in numerous state initiatives designed to reduce the impact of opioid abuse:

- Use Only As Directed (UOAD) began in 2007 in collaboration with the Utah Department of Health, Department of Human Services, Law Enforcement, and private industry. This statewide campaign focuses on safe use, storage, and disposal of prescription medications. Since 2013, Intermountain Healthcare has been an active partner. In August 2016, Intermountain Healthcare and UOAD launched a new campaign at McKay Dee Hospital, showing that every day, 7,000 prescriptions are filled in Utah.

- The Center for Disease Control released a revised set of Prescriber Guidelines in 2016. The guidelines outline appropriate prescribing protocols in an effort to decrease the over prescribing of opioids for non-cancer incidences.

- Take Back Events—semi-annual event collecting thousands of pounds of unused and expired medications.

Successful treatment may include:

- Detoxification (the process by which the body rids itself of a drug)
- Behavioral counseling, medication (for opioid, tobacco, or alcohol addiction)
 - Evaluation and treatment for co-occurring mental health issues such as depression and anxiety with long-term follow-up to prevent relapse.

In 2016 Utah published a comprehensive report, “Opioid Prescribing Practices in Utah.” This report was a partner publication of the Utah Department of Health and Utah Department of Commerce, Division of Occupational and Professional Licensing. The following Utah Department of Health programs contributed to this report: Center for Health Data and Informatics, Department of Technology Services, Executive Director’s Office, Health Informatics Program, Office of Health Care Statistics, and Violence and Injury Prevention Program. The report outlines Utah’s efforts to establish prescribing guidelines consistent with the CDC Guidelines. The report can be found at: <https://www.health.utah.gov/vipp/pdf/RxDrugs/PrescribingPracticeInUtah.pdf>

A range of care with a tailored treatment program and follow-up options can be crucial to success. Treatment should include both medical and mental health services as needed. Follow-up care may include community- or family-based recovery support systems. Medication Assisted Treatment (MAT) is a safe and effective strategy for reducing opioid use and the risk of overdose. Currently, there are three MAT medications approved by the FDA for the treatment of opioid dependence: methadone, buprenorphine and naltrexone. These medications are used in combination with counseling and behavioral therapies, to provide a “whole-patient” approach. People may safely take medications used in MAT for months, years, several years, or even a lifetime. Plans to stop a medication must always be discussed with a doctor. Methadone works by changing how the brain and nervous system respond to pain. It lessens the painful symptoms of opiate withdrawal and blocks the euphoric effects of opioids. By law, methadone used to treat opiate-use disorder can only be dispensed through an Opioid Treatment Programs (OTP) certified by the Substance Abuse and Mental Health Services Administration (SAMHSA), regulated by the Drug Enforcement Agency (DEA), Licensed by Department of Human Services and accredited by one of the major healthcare accreditation entities. There are 14 OTP providers in the State of Utah. Utah’s OTP’s provide safe and effective treatment that includes regular counseling sessions, drug testing, and medication assisted treatment and recovery support. In 2015, 3,495 individuals sought assistance at the OTP clinics in Utah.

Buprenorphine is the first medication to treat opioid dependency that is permitted to be prescribed or dispensed in physician offices, significantly increasing treatment access. Like methadone, buprenorphine suppresses and reduces cravings for the abused drug. Buprenorphine is prescribed as part of a comprehensive treatment plan that includes counseling and participation in social support programs. SAMHSA has developed an online prescriber locator: samhsa.gov/medication-assistedtreatment/physician-program-data/treatmentphysician-locator.

Strategies to Address Prescription Drug Abuse / Opioid Use Disorder

DSAMH assisted in passing Legislation related to Naloxone education and distribution. DSAMH also works closely with the Utah Department of Health (UDOH), Utah Naloxone and other stakeholders to increase access to Naloxone. DSAMH has provided funding to the Department of Public Safety, the Utah Department of Corrections and the Utah Department of Health for projects related to naloxone training, purchase and distribution.

DSAMH will also provide funding to the University of Utah's Utah Naloxone Project. Information about this project can be found at: <http://www.utahnaloxone.org/>. In addition, DSAMH will provide funds to support 13 local Naloxone training and distribution entities contracted with UDOH. In addition, the 2018 DSAMH Directives includes the following requirement: "Local Substance Abuse Authority treatment programs shall provide Naloxone education, training and assistance to individuals with opioid use disorders and when possible to their families, friends, and significant others." DSAMH will monitor to ensure this requirement is met during annual site visits.

Prior Authorization Criteria

Utah Medicaid's prior authorization criteria for pharmacy can be found on the Utah Medicaid website at <https://medicaid.utah.gov/pharmacy/prior-authorization>

Prescribing Guidelines

DSAMH participated with the UDOH and the Utah Medical Association (UMA) in the development of the Utah Clinical Guidelines on Prescribing Opioids published in 2008. DSAMH worked again with UDOH and the UMA to update these guidelines in 2016.

ADDITIONAL INFORMATION

Weber Human Services (WHS) and Davis

Behavioral Health received funding from Intermountain Healthcare to provide medication assisted treatment and counseling for individuals with opioid dependence from prescription drugs that may have also led to current heroin use. Since its beginning, 120 clients have been served in the Opioid Community Collaborative. Currently, in Salt Lake County, a pilot project was legislatively funded in FY15 offering clients coming out of jail or prison with the option of using Vivitrol in coordination with treatment. Salt Lake County Behavioral Health Services launched this project in September 2015 and has served 205 clients to date. The average length of stay in the program is 3-4 months.

Salt Lake County anticipates ongoing growth and increased participation and length of stay in the program. Syringe Exchange Programs (SEP) also known as syringe services programs (SSPs), needle exchange programs (NEPs), and needle-syringe programs (NSPs), are community-based programs that provide access to sterile needles and syringes free of charge. The programs also facilitate safe disposal of used needles and syringes. SEPs are an effective component of a comprehensive, integrated approach to HIV and hepatitis C prevention among people who inject drugs. Most SEPs offer other prevention materials and services, such as HIV/HCV education; overdose prevention, including Naloxone distribution; referral to substance abuse treatment programs; and counseling and testing for HIV and hepatitis C.

Syringe exchange programs became legal in Utah in 2016, the day Utah Governor Gary Herbert signed House Bill 308 into law. The bill went into effect May 2016, and states that agencies in Utah "may operate a syringe exchange program in the state to prevent the transmission of disease and reduce morbidity and mortality among individuals who inject drugs and those individuals' contacts." HB 308 does not fund syringe exchange programs in Utah, it only provides guidelines and reporting

requirements and follows the restrictions of federal funding.

Naloxone (Narcan®) is a life-saving prescription medication used as an antidote to opioid overdose. Naloxone has mainly been used in the past in the hospital or by emergency medical personnel. However, Naloxone kits are now available for patients to use for emergency treatment of overdoses at home. In 2016, the executive director of the Utah Department of Health signed a statewide standing order allowing to dispense Naloxone, without a prior prescription, to anyone at increased risk of experiencing or witnessing an overdose. Through this standing order, anyone can purchase Naloxone without a prescription. DSAMH has worked to provide Naloxone kits and training to first responders, as well as all Adult Probation & Parole agents, and individuals in the community.

Drug Courts

Individuals with a substance use disorder are disproportionately represented in our criminal justice system. Evidence indicates that approximately 80% of individuals in the criminal justice system meet the definition of substance use involvement and between one-half to two-thirds meet diagnostic criteria for substance abuse or dependence.

Drug courts are special court dockets designed to treat individuals with substance use disorders and provide them the tools they need to change their lives. The drug court judge serves as the leader of a multidisciplinary team of professionals, which commonly includes a program coordinator, prosecuting attorney, defense attorney, probation or community supervision officer, and treatment representatives. Drug Courts provide an alternative to incarceration. Eligible participants for these programs have a moderate-to-severe substance use disorder, are charged with non-violent, drug-related offenses, such as possession or sale of a controlled substance, or another offense caused or influenced by drug use, such as theft or forgery to support a drug addiction, and who are at substantial risk for reoffending, commonly referred to as high-risk and high-need offenders. To effectively work with this population, Drug Courts provide intensive supervision and treatment services in a community environment. Successful completion of the program results in expunged charges, vacated or reduced sentences, or rescinded probation.

DSAMH funds 45 drug courts throughout the state of Utah; 25 adult felony drug courts, 15 family dependency drug courts, and 5 juvenile drug courts. In fiscal year 2016, Utah's drug court program served 2084 individuals, the majority of whom participated in the adult felony drug court program. DSAMH and partner agencies (the Administrative Office of the Courts and the Department of Corrections) work to improve quality assurance and monitoring processes of the program. In addition to conducting annual site visits and biennial certifications of the courts, DSAMH has partnered with the National Center of State Courts to conduct process and outcome evaluations at select Utah Drug Courts, once completed new performance measurements will be developed and implemented throughout the state to help insure best practice standards are followed.

Future State:

Utah Medicaid will implement a coverage policy to limit opioid prescriptions for dental procedures to 3 days without prior authorization

Summary of Actions Needed:

Draft policy and administrative rule
Submit rule for public comment
Publish policy and notify providers and pharmacies

Action Implementation Timeline

- Draft policy and rule by March 1, 2018
- Notify providers and pharmacies in June and July 2018 Medicaid Information Bulletin
- Implement coverage policy that limits opioid prescriptions for dental procedures to three (3) days by July 1, 2018.

Milestone 6 Improved Care Coordination and Transitions between Levels of Care

Transitions of Care

Current State

Appropriate management of transition of care is critical to the success of the individual in overcoming their SUD. Several of Utah's residential treatment providers also provide a full continuum of outpatient SUD services.

Future State:

Utah will add an addendum to the Utah Provider agreement for enrolled residential treatment providers that outlines a specific requirement that the provider is responsible to assure appropriate transitions of care either by providing this service directly or coordinating the provision of this service with another provider.

Utah plans to amend the Utah Provider Manuals for, Targeted Case Management for Individuals with Serious Mental Illness, to include Substance Use Disorder. In addition, Utah will amend the Utah Provider Manual for Hospital services. Both manuals will clearly state the requirement for residential and inpatient treatment facilities to coordinate and facilitate transition of Medicaid member to community based services and supports following a stay at a facility.

In addition, Utah will modify the language in its Prepaid Mental Health Plan (PMHP) contracts in section 10.3 Coordination and Continuity of Care to specify the same requirements as stated in revised policy.

Summary of Actions Needed:

Utah will amend provider manuals and managed care contracts.

Providers and Managed Care Contractors will need to be notified and trained regarding the state's transitions of care requirement.

Action Implementation Timeline

- Utah will amend provider manuals and the PMHP contracts by July 1, 2018
- Providers will be notified of this change in the May, June and July 2018 Medicaid information Bulletin.

ADDITIONAL INFORMATION

Case Management

Case management is a central highlight of community mental health work, both in teams and individually working with people with mental illness and/or substance use disorders to help achieve their goals. Case Management is a mandated service in Utah, and the Local Mental Health and Substance Use Authorities are responsible to provide case management in their local areas. Case management provides four critical functions often referred to using the acronym CALM (Connecting, Advocating, Linking and Monitoring): connecting with the individual, advocating for the individual, linking and planning for services, and monitoring service provision.

Providers of case management services also provide skill development services, personal services, as well as psychosocial rehab groups. DSAMH has improved the quality of case managers through a certification process that has proven to be successful. DSAMH is also working with the local homeless service providers to develop a certification program with basic standards for all providers serving individuals that are homeless.

DSAMH developed preferred practices for case management, including a training manual, and an exam with standards to promote, train, and support the practice of case management and service coordination in behavioral healthcare. In SFY 2016, DSAMH has certified 184 case managers compared to 176 in SFY 15, for a total of 650 certified case managers.

Crisis Intervention Team (CIT)

The Crisis Intervention Team (CIT) Program is an innovative model of community policing that involves partnerships between law enforcement, the mental health system, and advocacy groups. CIT provides law enforcement personnel with specialized crisis intervention training to assist a person experiencing a mental health or SUD crisis, which improves officer and consumer safety, and redirects individuals with mental illness from the judicial system to the health care system. This training includes a 40-hour course that is completed in a one-week session. DSAMH has partnered with CIT Utah Inc. and its board of directors to provide statewide law enforcement training and support. In this partnership, law enforcement personnel who take the 40 hour training and pass a state test will achieve the CIT certification. A total of 127 law enforcement agencies have sent representatives to the CIT Academies. For more information, visit the CIT website: CIT-Utah.com.

Certified Peer Support Specialists (CPSS)

Peer Support Specialists are adults in recovery from a substance use or mental health disorder that are fully integrated members of a treatment team. They provide highly individualized services in the community and promote client self-determination and decision-making.

CPSS also provide essential expertise and consultation to the entire treatment team to promote a culture in which each client's point of view and preferences are recognized, understood, respected, and integrated into treatment, rehabilitation, and community self-help activities. Since the program's inception, 488 individuals have been certified by DSAMH as CPSS. DSAMH currently contracts with Utah State University, Optum Health and the Salt Lake City Veteran Affairs Medical Center to provide standardized training across the state. Utah State University has developed or is developing additional special population peer support training modules for Youth-In-Transition (age 16-25), Refugee, Native American and Hispanic populations. To date, 122 CPSS have received Youth-In-Transition Training.

Trauma-informed Approach

Most individuals with substance use disorders and mental illness are also dealing with trauma. Between 34% and 53% of people with a severe mental illness report childhood physical/sexual abuse. A Center for Substance Abuse Treatment publication states that as many as two-thirds of women and men in treatment for substance abuse report experiencing childhood abuse or neglect. Child abuse, sexual assault, military combat, domestic violence, and a host of other violent incidents help shape the response of the people we serve. Adverse childhood experiences are strongly related to development and prevalence of a wide range of health problems, including substance abuse and mental illness. Over time people exposed to trauma adopt unhealthy coping strategies that lead to substance use, disease, disability and social problems, and premature mortality.

Since 2012, DSAMH embarked on several statewide efforts to implement the Trauma-Informed Approach in public and private programs, by providing training; organizational evaluation and consultation; policy implementation and partnering with local and national organizations. Some of these initiatives and training events are listed below:

1. Ongoing Organizational Evaluation,

Consultation, Training and Technical Assistance on the Trauma-Informed Approach, provided by Gabriella Grant, M.A., Director for the California Center of Excellence for Trauma-Informed Care for CABHI Grantees, Volunteers of America, DSAMH and other groups.

2. Utah Trauma Academy: October 31, November 4, 2016 for 110 public and private providers. The Utah Trauma Academy was developed and provided by Gabriella Grant and several local trauma experts. The Utah Trauma Academy was based on the Victim Academy developed by the Office of Victims of Crimes at the Department of Justice.

3. Implementation of the Trauma-Informed Approach: DHS, DSAMH and several public and private providers have started the process for implementing a Trauma-Informed Approach in their practices.

Future State:

No changes are expected.

Summary of Actions Needed:

None

Grievances and Appeals

Utah Medicaid members and providers receive notice of any adverse action pursuant to 42 CFR 341 Part E. In addition, all managed care entities contracted with the Utah Medicaid program must comply with the grievance and appeals provisions of 42 CFR 438 Part F. Finally all state Medicaid fair hearings are conducted in accordance with Title 63G Chapter 4 Utah Code Annotated, Utah Administrative Procedures Act and Utah Administrative Code R414-4, Administrative Hearing Procedure.

https://le.utah.gov/xcode/Title63G/Chapter4/63G-4.html?v=C63G-4_1800010118000101.

<https://rules.utah.gov/publicat/code/r410/r410-014.htm>.

Future State:

Utah Administrative Code and internal procedures are consistent with recent changes to federal regulations.

Summary of Actions Needed:

Utah Medicaid will review 42 CFR 431 Part E and 42 CFR 438 Part F once again to assure Utah Code reflects the requirements of current federal regulation.

Action Implementation Timeline

- Utah Medicaid will conduct a review of current administrative code and federal regulations to determine any needed updates by November 30, 2017.
- Utah Medicaid will implement any necessary changes to administrative code and internal procedures by March 31, 2018

Attachment E: SMI/SED Implementation Plan

Section 1115 SMI/SED Demonstration Implementation Plan

Overview: The implementation plan documents the state’s approach to implementing SMI/SED demonstrations. It also helps establish what information the state will report in its quarterly and annual monitoring reports. The implementation plan does not usurp or replace standard CMS approval processes, such as advance planning documents, verification plans, or state plan amendments.

This template only covers SMI/SED demonstrations. The template has three sections. Section 1 is the uniform title page. Section 2 contains implementation questions that states should answer. The questions are organized around six SMI/SED reporting topics:

1. Milestone 1: Ensuring Quality of Care in Psychiatric Hospitals and Residential Settings
2. Milestone 2: Improving Care Coordination and Transitioning to Community-Based Care
3. Milestone 3: Increasing Access to Continuum of Care, Including Crisis Stabilization Services
4. Milestone 4: Earlier Identification and Engagement in Treatment, Including Through Increased Integration
5. Financing Plan
6. Health IT Plan

State may submit additional supporting documents in Section 3.

Implementation Plan Instructions: This implementation plan should contain information detailing state strategies for meeting the specific expectations for each of the milestones included in the State Medicaid Director Letter (SMDL) on “Opportunities to Design Innovative Service Delivery Systems for Adults with [SMI] or Children with [SED]” over the course of the demonstration. Specifically, this implementation plan should:

1. Include summaries of how the state already meets any expectation/specific activities related to each milestone and any actions needed to be completed by the state to meet all of the expectations for each milestone, including the persons or entities responsible for completing these actions; and
2. Describe the timelines and activities the state will undertake to achieve the milestones.

The tables below are intended to help states organize the information needed to demonstrate they are addressing the milestones described in the SMDL. States are encouraged to consider the evidence-based models of care and best practice activities

SMDL in developing their demonstrations.

The state may not claim FFP for services provided to Medicaid beneficiaries residing in IMDs, including residential treatment facilities, until CMS has approved a state's implementation plan.

Memorandum of Understanding: The state Medicaid agency should enter into a Memorandum of Understanding (MOU) or another formal agreement with its State Mental Health Authority, if one does not already exist, to delineate how these agencies will work with together to design, deliver, and monitor services for beneficiaries with SMI or SED. This MOU should be included as an attachment to this Implementation Plan.

State Point of Contact: Please provide the contact information for the state's point of contact for the implementation plan.

Name and Title: Jennifer Meyer-Smart
Telephone Number: 385-215-4725
Email Address: jmeyersmart@utah.gov

1. Title page for the state’s SMI/SED demonstration or SMI/SED components of the broader demonstration

The state should complete this transmittal title page as a cover page when submitting its implementation plan.

State	<i>Utah</i>
Demonstration name	<i>Utah 1115 Primary Care Network Demonstration</i>
Approval date	<i>Enter approval date of the demonstration as listed in the demonstration approval letter.</i>
Approval period	<i>Enter the entire approval period for the demonstration, including a start date and an end date.</i>
Implementation date	<i>Enter implementation date(s) for the demonstration.</i>

2. Required implementation information, by SMI/SED milestone

Answer the following questions about implementation of the state’s SMI/SED demonstration. States should respond to each prompt listed in the tables. Note any actions that involve coordination or input from other organizations (government or non-government entities). Place “NA” in the summary cell if a prompt does not pertain to the state’s demonstration. Answers are meant to provide details beyond the information provided in the state’s special terms and conditions. Answers should be concise, but provide enough information to fully answer the question.

This template only includes SMI/SED policies.

Prompts	Summary
SMI/SED. Topic 1. Milestone 1: Ensuring Quality of Care in Psychiatric Hospitals and Residential Settings	
<p><i>To ensure that beneficiaries receive high quality care in hospitals and residential settings, it is important to establish and maintain appropriate standards for these treatment settings through licensure and accreditation, monitoring and oversight processes, and program integrity requirements and processes. Individuals with SMI often have co-morbid physical health conditions and substance use disorders (SUDs) and should be screened and receive treatment for commonly co-occurring conditions particularly while residing in a treatment setting. Commonly co-occurring conditions can be very serious, including hypertension, diabetes, and substance use disorders, and can also interfere with effective treatment for their mental health condition. They should also be screened for suicidal risk.</i></p> <p><i>To meet this milestone, state Medicaid programs should take the following actions to ensure good quality of care in psychiatric hospitals and residential treatment settings.</i></p>	
Ensuring Quality of Care in Psychiatric Hospitals and Residential Treatment Settings	
<p>1.a Assurance that participating hospitals and residential settings are licensed or otherwise authorized by the state primarily to provide mental health treatment; and that residential treatment facilities are accredited by a nationally recognized accreditation entity prior to participating in Medicaid</p>	<p>Current State: In accordance with Utah Administrative Code R432-101 Specialty Hospital, all psychiatric facilities must be licensed and certified through the Utah Bureau of Health Facility Licensing and Certification. Residential Treatment Programs are required to be licensed through the Utah Office of Licensing.</p> <p>Hospitals: Utah’s Bureau of Health Facility Licensing and Certification has established licensing and certification requirements for psychiatric hospitals. Participating psychiatric hospitals will be licensed and approved by the Bureau of Health Facility Licensing and Certification.</p> <p>Through the state survey process psychiatric hospitals are required to meet 42 CFR part 482. The Division of Licensing and Certification uses the State Operations Manual survey guidelines for psychiatric hospitals. The enrollment process and requirements for psychiatric hospitals are posted on the Division’s external website.</p>

	<p>Residential Treatment Programs: The Utah Department of Human Services, Office of Licensing licenses residential treatment programs. R501-19 details the requirements a program must meet to be licensed and includes regulations for specialized treatment services for substance abuse treatment, services for children and youth, and services for people with disabilities.</p>
	<p>Future Status: Utah will continue operation of current requirements for hospitals. The State will develop methodologies for enrollment of residential treatment programs that include verification of accreditation by a national accreditation association.</p>
	<p>Summary of Actions Needed: The Medicaid Provider Enrollment process will be updated to require submission of verification of accreditation by a national accreditation association. In addition, all necessary system program changes needed in order to enroll residential treatment programs with the appropriate identifier. (Timeline: 6-12 months)</p>

Prompts	Summary
<p>1.b Oversight process (including unannounced visits) to ensure participating hospital and residential settings meet state’s licensing or certification and accreditation requirements</p>	<p>Current Status: Currently the Utah Department of Health Facility Licensing, Certification, and Resident Assessment may conduct administrative inspections on a routine basis for any licensed facility.</p> <p>Hospitals: R432-3-4 requires:</p> <ul style="list-style-type: none"> (1) The Department (Utah Department of Health Facility Licensing, Certification, and Resident Assessment) or its designee may, upon presentation of proper identification, inspect each licensed health care facility or agency as necessary to determine compliance with applicable laws, rules and federal regulations. (2) Each licensed health care facility or agency must: <ul style="list-style-type: none"> (a) allow authorized representatives of the Department immediate access to the facility or agency, including access to all staff and patients; and (b) make available and permit photocopying of facility records and documents by, or on behalf of, the Department as necessary to ascertain compliance with applicable laws, rules and federal regulations. Copies become the responsibility and property of the Department. <p>In addition, current state law allows for on site, unannounced visits to ascertain compliance with licensure requirements</p> <p>Residential Treatment Center: Utah code states: 62A-2-118. Administrative inspections.</p> <ul style="list-style-type: none"> (1) The office may, for the purpose of ascertaining compliance with this chapter, enter and inspect on a routine basis the facility of a licensee. (2) Before conducting an inspection under Subsection (1), the office shall, after identifying the person in charge: <ul style="list-style-type: none"> (a) give proper identification; (b) request to see the applicable license; (c) describe the nature and purpose of the inspection; and (d) if necessary, explain the authority of the office to conduct the inspection and the penalty for refusing to permit the inspection as provided in Section 62A-2-116. (3) In conducting an inspection under Subsection (1), the office may, after meeting the requirements of Subsection (2): <ul style="list-style-type: none"> (a) inspect the physical facilities; (b) inspect and copy records and documents;

	<p>(c) interview officers, employees, clients, family members of clients, and others; and (d) observe the licensee in operation.</p> <p>(4) An inspection conducted under Subsection (1) shall be during regular business hours and may be announced or unannounced.</p> <p>(5) The licensee shall make copies of inspection reports available to the public upon request.</p> <p>(6) The provisions of this section apply to on-site inspections and do not restrict the office from contacting family members, neighbors, or other individuals, or from seeking information from other sources to determine compliance with this chapter.</p> <p>Future Status: Utah will continue operation of current requirements.</p> <p>Summary of Actions Needed: None</p>
<p>1.c Utilization review process to ensure beneficiaries have access to the appropriate levels and types of care and to provide oversight on lengths of stay</p>	<p>Current Status: Under Utah Administrative Code R432-101, Specialty Hospital-Psychiatric, psychiatric hospitals as well as residential treatment programs are to complete admission assessments to determine if the level of care provided is the least restrictive environment for the beneficiary. Discharge assessments are also to be performed in order to verify medical necessity and if the beneficiary no longer meets medical necessity criteria, discharge to a lower level of care should be completed.</p> <p>Hospitals: Prior to admission, Utah Medicaid’s managed care plans require an assessment of the beneficiary in order to appropriately place the beneficiary. Beneficiaries may be referred to a different level of care based on the information gathered in the assessment. The managed care plans then monitor treatment of the beneficiary throughout the hospital stay to ensure that the facility is the least restrictive setting appropriate for their needs.</p> <p>Additionally, hospital must be in compliance with 42 CFR 482.30 which in part states, “The hospital must have in effect a utilization review (UR) plan that provides for review of services furnished by the institution and by members of the medical staff to patients entitled to benefits under the Medicare and Medicaid programs.”</p> <p>Also, Utah Administrative Code R432-101-17 Admission and Discharge states:</p>

	<p>3(a) The facility shall assess and screen all potential patients prior to admission and admit a patient only if it determines that the facility is the least restrictive setting appropriate for their needs. The pre-screening process shall include an evaluation of the patient's past criminal and violent behavior.</p> <p>(4) The patient shall be discharged when the hospital is no longer able to meet the patient's identified needs, when care can be delivered in a less restrictive setting, or when the patient no longer needs care.</p> <p>Residential Treatment Programs: Prior to admission in a residential treatment facility, Utah Medicaid’s managed care plans require an assessment of the beneficiary to ensure the beneficiary is appropriately placed. Beneficiaries may be referred to a different level of care based on the information gathered in the assessment. The managed care plans then monitor treatment of the beneficiary throughout the residential stay to ensure that the facility is the least restrictive setting appropriate for their needs.</p> <p>Additionally, Utah Administrative Code R532-4-6 Standards for Substance Use and Mental Health Disorder Screening and Assessment requires that an assessment be made “prior to admission to a clinical treatment level of care” and that the assessment uses a screening instrument that “has been evaluated and found reliable and valid by the scientific community”. Additionally, the assessment shall “provide the basis for a treatment plan, and establish a baseline measure for use in evaluating a patient's response to treatment”.</p> <p>Future Status: Utah will continue operation of current requirements.</p> <p>Summary of Actions Needed: None</p>
<p>1.d Compliance with program integrity requirements and state compliance assurance process</p>	<p>Current Status: In order to receive reimbursement under Medicaid, participating psychiatric hospitals and residential treatment programs must be enrolled to participate in Utah Medicaid. Provider enrollment processes fully comply with 42 CFR Part 455 Subparts B&E. Utah’s managed care plans have been reimbursing IMDs as an in lieu of service and are only permitted to contract with Utah Medicaid screened and enrolled providers, the State is currently screening and revalidating this provider type.</p> <p>Future Status: Continued operation of current requirements.</p>

	<p>Summary of Actions Needed: No action needed at this time.</p>
<p>I.e State requirement that psychiatric hospitals and residential settings screen beneficiaries for co-morbid physical health conditions, SUDs, and suicidal ideation, and facilitate access to treatment for those conditions</p>	<p>Current Status: In accordance with 42 CFR 482.61, Utah Administrative Code requires both hospitals and residential treatment programs to screen and assess all beneficiaries for co-morbid conditions, including mental health disorders, suicidal ideations, physical health conditions, and substance use disorder screening.</p> <p>Hospitals: Utah Administrative Code R432-101-20 Inpatient Services requires that upon admission:</p> <p>(a) A physician or qualified designee shall make an assessment of each patient's physical health and a preliminary psychiatric assessment within 24 hours of admission. The history and physical exam shall include appropriate laboratory work-up, a determination of the type and extent of special examinations, tests, or evaluations needed, and when indicated, a thorough neurological exam.</p> <p>(b) A psychiatrist or psychologist or qualified designee shall make an assessment of each patient's mental health within 24 hours of admission. A written emotional or behavioral assessment of each patient shall be entered in the patient's record.</p> <p>Additionally, hospitals must comply with 42 CFR 482.62(c). “Standard: Availability of medical personnel. Doctors of medicine or osteopathy and other appropriate professional personnel must be available to provide necessary medical and surgical diagnostic and treatment services. If medical and surgical diagnostic and treatment services are not available within the institution, the institution must have an agreement with an outside source of these services to ensure that they are immediately available or a satisfactory agreement must be established for transferring patients to a general hospital that participates in the Medicare program.”</p> <p>Residential Treatment Programs: Utah Administrative Code R523-4-6 Standards for Substance Use and Mental Health Disorder Screening and Assessment, requires using screening instruments for mental health/substance use disorders. Additionally, the initial assessment is required to:</p> <p>(a) Determine the adult's eligibility for treatment, provide the basis for a treatment plan, and establish a baseline measure</p>

	<p>for use in evaluating a patient's response to treatment.</p> <p>(b) Identify comorbid medical and psychiatric conditions and diagnosis and to determine how, when and where they will be addressed;</p> <p>(c) Identify communicable diseases and address them as needed;</p> <p>(d) Evaluate the adult's level of physical, psychological and social functioning or impairment;</p> <p>(e) Assess the adult's access to social supports, family, friends, employment, housing, finances and legal problems; and</p> <p>(f) Determine the adult's readiness to participate in treatment.</p>
	<p>Future Status: Utah will continue operation of current requirements.</p>
	<p>Summary of Actions Needed: None</p>

Prompts	Summary
<p>1.f Other state requirements/policies to ensure good quality of care in inpatient and residential treatment settings.</p>	<p>Current Status: According to Utah Administrative Code R432-101-11, both hospitals and residential treatment programs are required to “have a well-defined quality assurance plan designed to improve the delivery of patient care through evaluations of the quality of patient care services and resolution of identified problems”. This rule further requires all providers maintain a “Plan for Patient Care Services”, which is a “written plan that ensures the care, treatment, rehabilitation, and habitation services provided are appropriate to the needs of the patient population service and the severity of the disease, condition, impairment, or disability”. The Plan for Patient Care services must be kept up to date and all corrective actions and meeting minutes must be presentable upon request by the State.</p>
	<p>Future Status: Utah will continue operation of current requirements.</p>
	<p>Summary of Actions Needed: None</p>
<p>SMI/SED. Topic 2. Milestone 2: Improving Care Coordination and Transitioning to Community-Based Care</p>	
<p><i>Understanding the services needed to transition to and be successful in community-based mental health care requires partnerships between hospitals, residential providers, and community-based care providers. To meet this milestone, state Medicaid programs, must focus on improving care coordination and transitions to community-based care by taking the following actions.</i></p>	
<p>Improving Care Coordination and Transitions to Community-based Care</p>	
<p>2.a Actions to ensure psychiatric hospitals and residential settings carry out intensive pre-discharge planning, and include community-based providers in care transitions.</p>	<p>Current Status: Both residential treatment centers and hospitals are required by Utah administrative code to have transfer and discharge policy in place in order for beneficiaries to be provided with the necessary aftercare and follow up services following discharge.</p> <p>Hospital: All Medicaid-enrolled psychiatric hospitals, including the participating IMD facilities, are required to comply with all applicable CMS Conditions of Participation (COP), including but not limited to 42 CFR 482.43, which establishes minimum discharge planning requirements aligned with this milestone. Additionally, Utah Administrative Code R432-101-17(4)(c) requires that, “Discharge planning shall be coordinated with the patient, family, and other parties or agencies (e.g. community-based providers) who are able to meet the</p>

	<p>patient's needs.”</p> <p>Residential Treatment Centers: R501-2-6(7) Transfer and Discharge</p> <p>a. a discharge plan shall identify resources available to consumer.</p> <p>b. the plan shall be written so it can be understood by the consumer or legally responsible party.</p> <p>c. whenever possible the plan shall be developed with consumers participation, or legally responsible party if necessary. The plan shall include the following:</p> <ol style="list-style-type: none"> 1) reason for discharge or transfer, 2) adequate discharge plan, including aftercare planning, 3) summary of services provided, 4) evaluation of achievement of treatment goals or objectives, 5) signature and title of staff preparing summary, and 6) date of discharge or transfer. <p>d. The program shall have a written policy concerning unplanned discharge.</p>
	<p>Future Status: Utah will continue operation of current requirements.</p>
	<p>Summary of Actions Needed: None</p>
<p>2.b Actions to ensure psychiatric hospitals and residential settings assess beneficiaries’ housing situations and coordinate with housing services providers when needed and available.</p>	<p>Current Status: Utah’s psychiatric hospitals and mental health residential centers provide care of the highest quality, which includes a comprehensive discharge plan. Utah’s managed care plans work closely with psychiatric hospitals and mental health residential programs to ensure comprehensive discharge plans. The psychiatric hospitals and mental health residential programs, in coordination with Utah’s managed care plans, assess beneficiaries’ housing situations and coordinate with housing services providers when needed and available” as part of the best practices for care coordination. The requirement for case management and care coordination is mandated in the managed care contracts between Utah Medicaid and its contracted managed care plans.</p> <p>Future Status: Utah will continue operation of current requirements.</p>

	Summary of Actions Needed: None
--	---

Prompts	Summary
<p>2.c State requirement to ensure psychiatric hospitals and residential settings contact beneficiaries and community-based providers through most effective means possible, e.g., email, text, or phone call within 72 hours post discharge</p>	<p>Current Status: Utah’s managed care plans attempt to contact members as a follow up for all emergency departments and inpatient discharges within 72 hours. The care managers also reach out to members when they discharge from residential treatment programs to help the beneficiary arrange a follow up appointment. This effort is specifically done to improve the seven day follow up measure, but the care manager outreach will almost always happen within 72 hours</p>
	<p>Future Status: Utah will add specific requirements in our managed care contracts to reflect this requirement</p>
	<p>Summary of Actions Needed: Add this requirement to the next amendment to applicable managed care contracts Timeline: July 2021 contract amendment</p>
<p>2.d Strategies to prevent or decrease lengths of stay in EDs among beneficiaries with SMI or SED prior to admission</p>	<p>Current Status: Utah is committed to preventing or decreasing ED and inpatient stays. By providing beneficiaries the proper services and interventions when needed, beneficiaries receive better care and more cost effective services. This minimizes the need for more costly services such as ED visits. Utah Medicaid recently implemented several strategies to prevent or reduce ED visits and inpatient admission in psychiatric hospitals or residential treatment programs.</p> <p>In the 2020 Utah General Session H.B. 32, Crisis Services Amendments was passed. H.B. 32 expanded the mobile crisis outreach team grant program, funded behavioral health receiving centers, and created the Behavioral Health Crisis Response Commission. Utah already has a statewide Crisis Line, Mobile Crisis Outreach Teams, and Assertive Community Treatment teams. These crisis services are designed to prevent ED and inpatient stays.</p> <p>Utah also has the Clinically Managed Residential Withdrawal Pilot. This pilot allows for beneficiaries to receive social detoxification services, also known as withdrawal management, as a covered service. Many beneficiaries that access social detoxification services are dually diagnosed with a substance use disorder and a mental health disorder. Social detoxification prevents ED and inpatient psych stays by allowing beneficiaries to have a level of care appropriate for their current needs instead of going to an ED or inpatient stay to withdraw. Additionally, beneficiaries will have case managers at the detox center to assess them and guide them into outpatient mental health services appropriate for their needs.</p> <p>Utah adopted the Crisis Now model for implementation and expansion of crisis services. In 2019, Utah established a statewide crisis line in which all crisis calls statewide are routed through one line. The Utah crisis</p>

	<p>line then serves to direct individuals into other appropriate care including warm hand offs for additional assessment to local behavioral health providers, to dispatch Mobile Crisis Outreach Teams based in communities throughout the state, or to higher levels of care when needed. As crisis stabilization services are built the crisis line will be able to provide direct referrals into those facilities as well.</p>
	<p>Future Status: Utah will continue operation of current requirements.</p>
	<p>Summary of Actions Needed: None</p>
<p>2.e Other State requirements/policies to improve care coordination and connections to community-based care</p>	<p>Current Status: Utah Medicaid services are operated predominantly through Managed Care Plans. On January 1, 2020, Utah Medicaid implemented four new Integrated Managed Care Plans. The Utah Medicaid Integrated Care (UMIC) plans manage both physical and behavioral health benefits for the Adult Expansion population. Prior to this time, Utah had separate physical health and behavioral health plans only. The UMIC plans are able to provide more holistic care to the beneficiaries. By using integrated care, the care managers in the UMIC plans can help beneficiaries get needed care more easily and efficiently. Non-integrated care plans are unable to see the whole person. Since these plans are new to Utah, outcome data is still being gathered. However, nationally integrated care has proven to be a benefit to the beneficiary, reduced ED stays, and inpatient stays.</p> <p>Future Status: Utah will continue operation of current requirements.</p> <p>Summary of Actions Needed: None</p>

Prompts	Summary
SMI/SED. Topic 3. Milestone 3: Increasing Access to Continuum of Care, Including Crisis Stabilization Services	
<i>Adults with SMI and children with SED need access to a continuum of care as these conditions are often episodic and the severity of symptoms can vary over time. Increased availability of crisis stabilization programs can help to divert Medicaid beneficiaries from unnecessary visits to EDs and admissions to inpatient facilities as well as criminal justice involvement. On-going treatment in outpatient settings can help address less acute symptoms and help beneficiaries with SMI or SED thrive in their communities. Strategies are also needed to help connect individuals who need inpatient or residential treatment with that level of care as soon as possible. To meet this milestone, state Medicaid programs should focus on improving access to a continuum of care by taking the following actions.</i>	
Access to Continuum of Care Including Crisis Stabilization	
3.a The state’s strategy to conduct annual assessments of the availability of mental health providers including psychiatrists, other practitioners, outpatient, community mental health centers, intensive outpatient/partial hospitalization, residential, inpatient, crisis stabilization services, and FQHCs offering mental health services across the state, updating the initial assessment of	<p>Current Status: In partnership with local partners, Utah Medicaid completed the initial assessment on September 30th 2020. Some important results are the lack of IMD facilities available to beneficiaries, the need to increase crisis response in rural areas, and the need to increase crisis receiving centers throughout the state.</p> <p>Future Status: Utah Medicaid commits to conducting an availability assessment annually and will discuss any improvements that need to be made in ongoing assessments and reports.</p>

<p>the availability of mental health services submitted with the state's demonstration application. The content of annual assessments should be reported in the state's annual demonstration monitoring reports.</p>	<p>Summary of Actions Needed: Utah will complete the next annual assessment of the availability of mental health providers by September 30th, 2021.</p>
--	---

Prompts	Summary
3.b Financing plan	<p>Current Status: See Topic 5 for information on the State’s financing plan.</p>
	<p>Future Status: See Topic 5 for information on the State’s financing plan.</p>
	<p>Summary of Actions Needed: See Topic 5 for information on the State’s financing plan.</p>
3.c Strategies to improve state tracking of availability of inpatient and crisis stabilization beds	<p>Current Status: Currently each organization, with inpatient and crisis stabilization beds, manages their own bed availability and capacity. Anyone seeking a bed has to inquire with each organization individually.</p>
	<p>Future Status: The Utah Behavioral Health Availability Platform is a search engine developed from the Juvare EMSResource© platform. Mental health inpatient bed availability will be the initial focus, followed by substance use disorder residential programs and social detoxification centers along the Wasatch front. Emergency room staff, participating inpatient units, call centers (including the University of Utah), and mobile crisis teams will be able to access the search engine, with bed availability updated twice per day.</p> <p>The kickoff for the platform is planned for January 2021.</p>
	<p>Summary of Actions Needed: Implementation of the platform – January 2021 Monitor with DSAMH the Utah Behavioral Health Availability Platform’s progress. Timeline: Ongoing</p>
3.d State requirement that providers use a widely recognized, publicly available patient assessment tool to determine appropriate level of care and length of stay	<p>Current Status: Utah Medicaid uses InterQual Criteria, an evidence-based clinical decision support tool, to determine appropriate level of care and length of stays.</p> <p>Utah Medicaid requires its managed care plans by contract to use evidence based practice guidelines consistent with current standards of care. They are required to ensure decisions on utilization management are based on the best practice guidelines. Although managed care plans are already using a tool as discussed above, the contracts currently do not have</p>

	<p>a specific requirement to use an assessment tool.</p>
	<p>Future Status: Add to contracts for managed care plans to use a “widely recognized, publicly available patient assessment tool to determine appropriate level of care and length of stay”.</p>
	<p>Summary of Actions Needed:</p> <ol style="list-style-type: none"> 1. Modify managed contracts to include a requirement that they must use a “widely recognized, publicly available patient assessment tool to determine appropriate level of care and length of stay”. 2. Follow up with managed care plans to ensure they are requiring the utilization of a patient assessment tool (Timeline: 6-12 months)

Prompts	Summary
<p>3.e Other state requirements/policies to improve access to a full continuum of care including crisis stabilization</p>	<p>Current Status: Utah Medicaid is currently working to implement a SAMHSA model of Crisis Receiving and Stabilization Services model called Utah Behavioral Health Receiving Centers. Utah Medicaid is working to add this service as part of the Medicaid State Plan.</p>
	<p>Future Status: Continue the State Plan amendment process. Pending CMS approval, the amendment will take affect 1/1/2021.</p>
	<p>Summary of Actions Needed: Follow through with needed action steps to ensure completion of the State Plan amendment process. (Timeline: 3-6 months)</p>
<p>SMI/SED. Topic_4. Milestone 4: Earlier Identification and Engagement in Treatment, Including Through Increased Integration</p>	
<p><i>Critical strategies for improving care for individuals with SMI or SED include earlier identification of serious mental health conditions and focused efforts to engage individuals with these conditions in treatment sooner. To meet this milestone, state Medicaid programs must focus on improving mental health care by taking the following actions.</i></p>	
<p>Earlier Identification and Engagement in Treatment</p>	
<p>4.a Strategies for identifying and engaging beneficiaries with or at risk of SMI or SED in treatment sooner, e.g., with supported employment and supported programs</p>	<p>Current Status: All of Utah’s county behavioral health authorities are required to ask during intake if the individual is employed, unemployed, on disability etc. This includes use of the specific question - "Are you interested in looking for work/school". If the individual answers that they are interested, there is an automatic referral to the Individual Placement and Support (IPS) Supported Employment teams. Anyone can be referred whether they want full-time, part-time, volunteer, or education.</p> <p>Additionally, all county behavioral health authorities have a functional assessment tool, usually given by a case manager, and generally provided within the first few treatment sessions. The needs assessment scale, usually the Daily Living Activities Functional Assessment (DLA-20). This tool reviews how well someone is functioning across multiple domains from self-care, independent activities of daily living, health practices, etc. It identifies strengths and weaknesses, and becomes part of a treatment plan with referrals to case management, skills training, peer support, day programs, and engagement of community resources when needed.</p> <p>Utah’s Division of Substance Abuse and Mental Health (DSAMH) requires that treatment plans are updated regularly, reviewing goals and determining if there are new or more emergent issues that should be the focus of treatment and</p>

	<p>care. DSAMH also has the ability to audit treatment plans to ensure quality of care.</p> <p>DSAMH also oversees First Episode Psychosis (FEP) programming targeting individuals ages 15-26 who are experiencing the first signs of psychosis. These programs are available in four areas throughout Utah, with additional training being offered across the State. FEP services focus on a Coordinated Specialty Care (CSC) model that allows for individuals who are seeking services to receive a range of necessary services including individual therapy, family therapy, medication management, case management, and peer support services. CSC services are also provided to individuals throughout their communities to ensure their services are more accessible.</p> <p>All of the county-based behavioral health authorities provide early intervention services for children and youth. These services included early childhood services, school based behavioral health, and family peer support services. Each of these services allow for earlier identification and access to care for children and their families.</p> <p>Future Status: Utah will continue operation of current requirements.</p> <p>Summary of Actions Needed: None</p>
<p>4.b Plan for increasing integration of behavioral health care in non-specialty settings to improve early identification of SED/SMI and linkages to treatment</p>	<p>Current Status: On January 1, 2020 Utah Medicaid implemented integrated managed care plans. These plans, called Utah Medicaid Integrated Care (UMIC), combine physical and behavioral benefits under one payor. This allows for improved case management and care coordination. By having a more complete view of a member's needs the managed care plan's care coordinators can identify earlier SED/SMI concerns that may be arising for a member. After identifying a need for intervention, the care coordinators can help a member get the proper care for their unique needs.</p> <p>The Utah Division of Substance Abuse and Mental Health manages early intervention services for children and youth. These services are provided through the Local Authority Behavioral Health system and are focused on providing early access to care in non-traditional settings. These settings include partnerships with local education agencies and other health care providers. Through partnerships with schools, the local authority system is able to improve identification of SED and provides more access to services for children earlier in life.</p> <p>With support of a federal grant DSAMH is implementing the Utah- Promoting Integration of Primary</p>

	<p>and Behavioral Health Care (U-PIPBHC) Program. The U-PIPBHC program will provide mental and physical health services, substance abuse treatment and psychiatric consultation. In addition, DSAMH continues to work with the Association of Utah Community Health to integrate community health center services for physical health and local behavioral health centers services.</p>
	<p>Future Status: Utah will continue operation of current requirements.</p>
	<p>Summary of Actions Needed: None</p>

Prompts	Summary
<p>4.c Establishment of specialized settings and services, including crisis stabilization, for young people experiencing SED/SMI</p>	<p>Current Status: Utah Department of Human Services (DHS) oversees the Stabilization and Mobile Response (SMR) program. This program provides children, youth, and family's specific crisis intervention and stabilization strategies. These crisis intervention and stabilization strategies help teach skills to improve family functioning, create plans that prepare for and prevent future challenges, prevent the need for out-of-home services, and equip families with ongoing resources and support in home and community based settings. SMR currently operates in two DHS regions of the state and is currently planning to expand to two more regions with the goal of becoming statewide.</p> <p>DHS also operates Juvenile Receiving Centers (JCR) under the Division of Juvenile Justice in twelve communities across the state in order to prevent at-risk youth from entering the justice or child welfare systems. JRCs operate in conjunction with the Division of Juvenile Justice Services' (DJJS) Youth Services Model and allow for a safe environment for adolescents to be taken when they are not appropriate for other services. Here they are assessed and referred for other services throughout the community, including those services provided by community based mental health centers.</p> <p>Future Status: DHS will continue to work to implement SMR statewide. It is anticipated that SMR will expand to the Salt Lake region by January of 2021 and into the Eastern region by mid-year 2021. The expansion into the final parts of the state will occur when funding becomes available.</p> <p>DHS will continue to push integration and more robust behavioral health services into Juvenile Receiving Centers. DJJS recently partnered with a local county mental health provider to integrate services into a Juvenile Receiving Center and there are plans to expand this model into other counties across Utah to continue to provide more integrated behavioral health services to youth who are accessing services through these means.</p> <p>Summary of Actions Needed: SMR will expand to the Salt Lake region by January of 2021 and into the Eastern region by mid-year 2021</p>
<p>4.d Other state strategies to increase earlier identification/engagement, integration, and specialized programs for young people</p>	<p>Current Status: The Utah Department of Human Services and Division of Substance Abuse and Mental Health oversees programming to increase early intervention strategies including preschool based programming for youth with co-occurring mental health and autism spectrum disorder needs. There are currently five programs operating throughout Utah. Each of these programs operates under different names. They provide services to youth ages 2-8 who are in need of co-occurring mental</p>

	<p>health and autism/developmental needs.</p> <p>Utah’s Department of Human Services also uses the System of Care’s High-Fidelity Wraparound (HFW) model, through this model and working with DSAMH, Utah is able to work with family advocacy and peer led organizations to provide high fidelity wraparound services and family and youth peer support services. These services are meant to provide early intervention for the youth and their families, and to help navigate the complex mental health system.</p> <p>Early childhood programs are also provided through Utah’s Department of Child and Family Services with partnerships with local family support centers that provide mental health services and crisis nursery services. School based services are also provided in conjunction with county behavioral health authorities and schools to increase early engagement and access to services.</p>
	<p>Future Status:</p> <p>Early childhood training needs have been identified to help build out more robust mental health services and partnerships between agencies that serve children. These early childhood training needs include a consultation and competency model that will provide training to providers who serve younger children (0-5) throughout their communities. These trainings are meant for both clinical and non-clinical professionals and will increase the overall capacities throughout local communities.</p> <p>Ongoing efforts to increase partnerships and services with schools and Local Authorities. Currently there are partnerships with over 350 local schools throughout Utah. For the future, it is anticipated that these partnerships will continue to grow based on need in local areas with new schools being added yearly.</p> <p>Youth in Transition services and training opportunities are also being developed. DSAMH leads a State Youth In Transition team that meets monthly and are working on a health disparities project and creating a strategic plan.</p>
	<p>Summary of Actions Needed:</p> <p>Within the next 12 months, the Department of Human Services will enter into a contract for an early childhood competencies and consultation program that will include training for Local Authorities and their community partners.</p> <p>Within 18 months, DSAMH and the Local Authorities will continue to partner with the Utah State Board of Education and Local Education Agencies to increase the local involvement for services, including increasing access to telehealth services and in person services that will be provided in local schools. A full school based implementation manual will also be completed in that timeframe.</p>

Prompts	Summary
SMI/SED.Topic 5. Financing Plan	
<i>State Medicaid programs should detail plans to support improved availability of non-hospital, non-residential mental health services including crisis stabilization and on-going community-based care. The financing plan should describe state efforts to increase access to community-based mental health providers for Medicaid beneficiaries throughout the state, including through changes to reimbursement and financing policies that address gaps in access to community-based providers identified in the state’s assessment of current availability of mental health services included in the state’s application.</i>	
<p>5.a Increase availability of non-hospital, non-residential crisis stabilization services, including services made available through crisis call centers, mobile crisis units, observation/assessment centers, with a coordinated community crisis response that involves collaboration with trained law enforcement and other first responders.</p>	<p>Current Status</p> <p>Utah adopted the Crisis Now model for implementation and expansion of crisis services. In 2019, Utah established a statewide crisis line in which all crisis calls statewide are routed through one line. The Utah crisis line then serves to direct individuals into other appropriate care including warm hand offs for additional assessment to local behavioral health providers, to dispatch Mobile Crisis Outreach Teams based in communities throughout the state, or to higher levels of care when needed. As crisis stabilization services are built the crisis line will be able to provide direct referrals into those facilities as well.</p> <p>Utah Medicaid recently added Assertive Community Treatment and Mobile Crisis Outreach Teams to the State Plan. Utah Medicaid also submitted a SPA to receive approval for bundled daily rates for services provided at a Crisis Receiving Center or a mental health residential treatment program.</p> <p>Utah currently either operates or is in the process of implementing several crisis services related initiatives.</p> <ol style="list-style-type: none"> 1. Crisis Line: Currently any individual in Utah can access crisis services via the Utah Crisis Line, which is funded by a mix of county and state funds. 2. Mobile Crisis Outreach Team (MCOT): The four urban counties/Local Authorities in Utah have been operating MCOT teams. Seven additional rural/frontier Local Authorities will begin operating MCOT services in FY21. These are funded via a mix of state general funds, local funds, and Medicaid reimbursement. 3. Stabilization and Mobile Response (SMR)- in three regions, currently in the works to expand to one additional region, 4. Crisis Receiving Centers: Four Local Authorities will be standing up crisis receiving centers between FY 21 and FY23. These will be funded by state general funds with a plan to add a bundled rate to the Utah State Plan. 5. Sub-Acute.

	<p>Future Status Utah will add Crisis Receiving Centers and mental health residential treatment as a bundled rate to the State Plan</p> <ol style="list-style-type: none"> 1. Sustainable funding plan for crisis line: Plan will be submitted to the Utah Crisis Commission by Summer 2021. 2. Expand MCOT statewide: Goal of even additional rural/frontier local Authorities will begin operating MCOT services by January 1, 2021 pending sustainable funding plan approved and adopted. 3. Expand SMR statewide: Goal of SMR to be in four regions by Spring of 2021 dependent on funding. 4. Crisis stabilization centers- modified for rural areas: goal of a stepped rollout of a minimum of one center implementing services annually beginning SFY22. 5. Increased crisis prevention strategies including access to robust outpatient care/services. Ongoing in partnership with behavioral health workforce expansion plans. 6. Engagement and partnership with police dispatch to divert non-public safety calls from law enforcement into the crisis system 7. Continue to address workforce capacity through the Utah Medical Education Council. This multi stakeholder group is in the process of compiling a Mental Health Workforce Report to identify needs and gaps in the workforce <p>Summary of Actions Needed</p> <ol style="list-style-type: none"> 1. On January 1, 2021, pending CMS approval, Utah will add Crisis Receiving Centers and mental health residential treatment as a bundled rate to the State Plan. 2. By December 2020, Utah will finalize administrative rule governing Crisis Receiving Centers. 3. Sustainable funding plan for crisis line: Plan will be submitted to the Utah Crisis Commission by Summer 2021. 4. Expand MCOT statewide: Goal of statewide MCOT by July 1, 2022 pending sustainable funding plan approved
--	--

	<p>and adopted.</p> <ol style="list-style-type: none"> 5. Expand SMR statewide: Goal of SMR to be in four regions by Spring 2021 dependent on funding. 6. Crisis stabilization centers- modified for rural areas: goal of a stepped rollout of a minimum of one center implementing services annually beginning SFY22. 7. Increased crisis prevention strategies including access to robust outpatient care/services. Ongoing in partnership with behavioral health workforce expansion plans. Ongoing. 8. Engagement and partnership with police dispatch to divert non-public safety calls from law enforcement into the crisis system. Ongoing. 9. Continue to address workforce capacity through the Utah Medical Education Council. This multi stakeholder group is in the process of compiling a Mental Health Workforce Report to identify needs and gaps in the workforce. Ongoing.
<p>5.b Increase availability of on-going community-based services, e.g., outpatient, community mental health centers, partial hospitalization/day treatment, assertive community treatment, and services in integrated care settings such as the Certified Community Behavioral Health Clinic model.</p>	<p>Current Status: Utah currently offers a comprehensive continuum of community-based mental health services. Outpatient, partial hospitalization, and residential mental health treatment services have been part of the Utah State Plan since 1987. The state continuously monitors access to mental health services through its managed care plans, external quality reviews, and through the Utah Department of Substance Abuse and Mental Health (DSAMH).</p> <p>Managed care plans are required to follow 42 CFR 438.68 Network adequacy standards. In accordance with 42CFR 438.358, Utah Medicaid contracts with an external quality organization to validate the managed care plans for network adequacy for the preceding 12 months.</p> <p>Utah Code 62A-15-103 assigns responsibility to DSAMH to work with the county behavioral health authorities to conduct annual program audits and reviews to ensure adequate plans and community based services are available throughout Utah. DSAMH is required to review the Local Authority Area Plans annually and audit each county behavioral health authority to these plans.</p>

	<p>In 2019, Utah Medicaid began reimbursing for the Assertive Community Treatment (ACT) model of care. Utah currently has one ACT team at SAMHSA fidelity with plans to expand to more teams.</p> <p>On January 1 2020, Utah Medicaid implemented four new integrated managed care plans. These plans cover both physical health behavioral health services. Through these new integrated plans, beneficiaries are able to receive care management in a more complete manner.</p>
	<p>Future Status</p> <p>DSAMH will continue to monitor county behavioral health authorities to ensure provision of mandated services including issuing Division Directives and requiring annual Area Plans as well as annual audits. DSAMH will work with key stakeholders to identify gaps in services including workforce shortages and partner on strategies to build out increased access to a continuum of community based services.</p> <p>DSAMH will continue to expand access to ACT services and AOT services. An additional ACT team in SLCO will launch FY21 (current year) and an AOT team will launch in Weber county</p>
	<p>Summary of Actions Needed</p> <p>2020 Utah will finalize the Utah administrative rule governing ACT Teams.</p> <p>The state will require an annual plan by each Local Mental Health Authority that outlines the local plan for service delivery to high acuity clients and will provide support to build out AOT and/or ACT services when clinical need arises.</p>

Prompts	Summary
SMI/SED. Topic 6. Health IT Plan	
<p><i>As outlined in State Medicaid Director Letter (SMDL) #18-011, “[s]tates seeking approval of an SMI/SED demonstration ... will be expected to submit a Health IT Plan (“HIT Plan”) that describes the state’s ability to leverage health IT, advance health information exchange(s), and ensure health IT interoperability in support of the demonstration’s goals.”¹ The HIT Plan should also describe, among other items, the:</i></p> <ul style="list-style-type: none"> ● <i>Role of providers in cultivating referral networks and engaging with patients, families and caregivers as early as possible in treatment; and</i> ● <i>Coordination of services among treatment team members, clinical supervision, medication and medication management, psychotherapy, case management, coordination with primary care, family/caregiver support and education, and supported employment and supported education.</i> <p><i>Please complete all Statements of Assurance below—and the sections of the Health IT Planning Template that are relevant to your state’s demonstration proposal.</i></p>	
Statements of Assurance	
<p>Statement 1: Please provide an assurance that the state has a sufficient health IT infrastructure/ecosystem at every appropriate level (i.e. state, delivery system, health plan/MCO and individual provider) to achieve the goals of the demonstration. If this is not yet the case, please describe how this will be achieved and over what time period</p>	<p>The State assures that it has a sufficient health IT infrastructure to achieve the goals of the demonstration. The State has an established health IT infrastructure that is based on the goal to improve interoperability across the continuum of care on behalf of all beneficiaries. The State’s health IT infrastructure includes achieving goals that will improve health outcomes, facilitate access, simplify care, and reduce the overall costs of healthcare. In order to achieve these goals, the State utilizes the State Medicaid Health Information Technology Plan (SMHP), an incentive based program that encourages hospitals and providers to utilize Electronic Healthcare Technology in order to improve outcomes for beneficiaries.</p> <p>Currently the state utilizes the Clinical Health Information Exchange (cHIE), which has been accredited through the Electronic Healthcare Network Accreditation Commission. The cHIE is the state-designated Health Information Exchange platform that allows providers and MCOs to collect and connect patient data within one main system throughout the state of Utah. https://uhin.org/solutions/use-cases/clinical-use-cases/</p>

¹ See SMDL #18-011, “Opportunities to Design Innovative Service Delivery Systems for Adults with a Serious Mental Illness or Children with a Serious

Emotional Disturbance.” Available at <https://www.medicaid.gov/federal-policy-guidance/downloads/smd18011.pdf>.

Prompts	Summary
<p>Statement 2: Please confirm that your state’s SUD Health IT Plan is aligned with the state’s broader State Medicaid Health IT Plan and, if applicable, the state’s Behavioral Health IT Plan. If this is not yet the case, please describe how this will be achieved and over what time period.</p>	<p>Utah confirms that the State’s Behavioral Health IT Plan aligns with the State’s Broader State Medicaid Health IT Plan and other State health IT plans.</p> <p>Utah’s Prescription Drug Monitoring Program (PDMP) is called the Controlled Substance Database (CSD). Utah’s CSD is part of the PMP Interconnect (PMPi), in conjunction with Appriss Health and the National Association of Board of Pharmacy that enables the secure sharing of PMP data across states and systems. InterConnect includes a ‘smart hub’ routing methodology and rules engine to enforce interstate sharing permissions.</p> <p>Utah also has a contract with Utah Health Information Network (UHIN) as part of the SUD Health IT Plan goals. Through UHIN, the cHIE is utilized by providers and managed care plans as stated above. The goal of the cHIE is to decrease over utilization of services, reduce hospital readmissions, provide quality reports, track and monitor transient patient populations, identify gaps in care, and gather data for HEDIS measures.</p>
<p>Statement 3: Please confirm that the state intends to assess the applicability of standards referenced in the Interoperability Standards Advisory (ISA)² and 45 CFR 170 Subpart B and, based on that assessment, intends to include them as appropriate in subsequent iterations of the state’s Medicaid Managed Care contracts. The ISA outlines relevant standards including but not limited to the following areas: referrals, care plans, consent, privacy and security, data transport and encryption, notification, analytics and identity management.</p>	<p>Utah Medicaid will be in compliance with the standards set forth in 45 CFR 170 Subpart B.</p> <p>In addition, Utah Medicaid added this requirement as part of the July 1, 2020 amendments to the Managed Care Plan’s contracts requiring the plans to implement the standards referenced in the Interoperability Standards Advisory (ISA)² and 45 CFR 170 Subpart B by July 1, 2021.</p>

² Available at <https://www.healthit.gov/isa/>.

Prompts	Summary
	<p>To assist states in their health IT efforts, CMS released SMDL #16-003 which outlines enhanced federal funding opportunities available to states “for state expenditures on activities to promote health information exchange (HIE) and encourage the adoption of certified Electronic Health Record (EHR) technology by certain Medicaid providers.” For more on the availability of this “HITECH funding,” please contact your CMS Regional Operations Group contact.³</p> <p>Enhanced administrative match may also be available under MITA 3.0 to help states establish crisis call centers to connect beneficiaries with mental health treatment and to develop technologies to link mobile crisis units to beneficiaries coping with serious mental health conditions. States may also coordinate access to outreach, referral, and assessment services—for behavioral health care--through an established “No Wrong Door System.”⁴</p>
Closed Loop Referrals and e-Referrals (Section 1)	
<p>1.1 Closed loop referrals and e-referrals from physician/mental health provider to physician/mental health provider</p>	<p>Current State: It is not a consistent practice to use the EHR to execute e-referrals and closed loop referrals between mental health providers.</p> <p>Future State: Describe the future state of the health IT functionalities outlined below: The future state will be determined following feedback from surveys by providers and managed care plans to determine a need for closed loop referrals. Based on the results of the survey, the State will develop a plan for closed loop referrals if determined necessary.</p> <p>Summary of Actions Needed: The State (DSAMH and UDOH) will develop a survey to assess the need for developing a standard process to conduct closed loop referrals. Once the survey has been developed, it will be distributed to the appropriate providers and managed care plans for completion. (Timeline: 18-24 months)</p>

³ See SMDL #16-003, “Availability of HITECH Administrative Matching Funds to Help Professionals and Hospitals Eligible for Medicaid EHR Incentive Payments Connect to Other Medicaid Providers.” Available at <https://www.medicaid.gov/federal-policy-guidance/downloads/smd16003.pdf>.

⁴ Guidance for Administrative Claiming through the “No Wrong Door System” is available at <https://www.medicaid.gov/medicaid/finance/admin-claiming/no-wrong-door/index.html>.

Prompts	Summary
1.2 Closed loop referrals and e-referrals from institution/hospital/clinic to physician/mental health provider	<p>Current State: As stated above, there is no current method or standard for closed loop referrals using the EHR to refer beneficiaries from an institution/hospital/clinic.</p>
	<p>Future State: The State will conduct a survey to determine the number of mental health providers who utilize closed loop referrals or e-referrals.</p>
	<p>Summary of Actions Needed: The State (DSAMH and UDOH) will develop a survey to assess the need for developing a standard process to conduct closed loop referrals. Once the survey has been developed, it will be distributed to the appropriate providers and managed care plans for completion. (Timeline: 18-24 months)</p>
1.3 Closed loop referrals and e-referrals from physician/mental health provider to community based supports	<p>Current State: There is no current method or standard for closed loop referrals using the EHR to refer beneficiaries from physicians to community based providers.</p>
	<p>Future State: The State will conduct a survey to determine the number of mental health providers who utilize closed loop referrals or e-referrals.</p>
	<p>Summary of Actions Needed: The State (DSAMH and UDOH) will develop a survey to assess the need for developing a standard process to conduct closed loop referrals. Once the survey has been developed, it will be distributed to the appropriate providers and community based support programs for completion. (Timeline: 18-24 months)</p>
Electronic Care Plans and Medical Records (Section 2)	

<p>2.1 The state and its providers can create and use an electronic care plan</p>	<p>Current State: Electronic care plans are used as a means to create a plan of care for beneficiaries by providers. While it is common practice for providers to utilize an electronic care plan for treatment, there is no standardized programming or reporting established by the State.</p> <p>According to ONC Health IT statistics from 2017, 97% of Utah’s acute care hospitals have adopted certified EHRs. In the physician community, 94% have adopted an EHR, with 85% using a certified EHR that meets the requirements for meaningful use. Almost 1200 unique providers participated in Utah’s Promoting Interoperability incentive program attesting that they have adopted a certified EHR. This encompasses a wide range of providers in major health systems, mid-size clinics, FQHCs and smaller independent practices. Particularly within the major health organizations in Utah, accessing shared care plans between different health providers in the same system should be fairly simple.</p>
	<p>Future State: Although EHR adoption levels in Utah are quite high, the state scores much lower when it comes to sending, receiving, and integrating patient health information from outside sources in settings beyond the hospital setting. There is room for improvement in these areas and providers need to understand the benefit of sharing this information outside of the walls of their own organizations (when clinically necessary.)</p>
	<p>Summary of Actions Needed: Partner with UHIN to understand what options are available to the behavioral health community. Conduct outreach and education to encourage the sharing of care plans and the efficiencies that are gained when everyone is on the same page. (Timeline: 18-24 months)</p>

Prompts	Summary
<p>2.2 E-plans of care are interoperable and accessible by all relevant members of the care team, including mental health providers</p>	<p>Current State: As mentioned previously, Utah has implemented Utah Medicaid Integrated Care (UMIC) to manage both physical and behavioral health for beneficiaries throughout the state. Under these managed care plans, the e-plans of care are available to all relevant providers, including behavioral health providers.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: No further action needed at this time.</p>
<p>2.3 Medical records transition from youth-oriented systems of care to the adult behavioral health system through electronic communications</p>	<p>Current State: Currently in the Local Authority Behavioral Health system, transitions of care for youth to adult records within the agency are communicated by both EHR facilitated electronic communications and secured email. Transitions from youth systems to adults systems outside of the agency are managed via secure email.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None</p>
<p>2.4 Electronic care plans transition from youth-oriented systems of care to the adult behavioral health system through electronic communications</p>	<p>Current State: Currently in the Local Authority Behavioral Health system, electronic care plans for transitions of care for youth to adult records within the agency are communicated by both EHR facilitated electronic communications and secured email. Transitions from youth systems to adults systems outside of the agency are managed via secure email.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None.</p>

Prompts	Summary
<p>2.5 Transitions of care and other community supports are accessed and supported through electronic communications</p>	<p>Current State: Currently in the Local Authority Behavioral Health system transitions of care for community supports within the agency are communicated by both EHR facilitated electronic communications and secured email. Transitions of care outside of the agency are managed via secure email.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None</p>
<p>Consent - E-Consent (42 CFR Part 2/HIPAA) (Section 3)</p>	
<p>3.1 Individual consent is electronically captured and accessible to patients and all members of the care team, as applicable, to ensure seamless sharing of sensitive health care information to all relevant parties consistent with applicable law and regulations (e.g., HIPAA, 42 CFR part 2 and state laws)</p>	<p>Current State: Currently half of the local authority providers capture individual consent electronically in a way that is accessible to the care team in order to share protected health information.</p>
	<p>Future State: The state will continue to assess the need for change and update Health IT functionalities as needed.</p>
	<p>Summary of Actions Needed: The state will require an annual plan from each of the local authority providers that includes a plan for care coordination including communicating consent and will make changes as needed. DSAMH already implements the requirements for annual plans and UDOH will work with providers to ensure this is in place. (Timeline: 6-18 months)</p>
<p>Interoperability in Assessment Data (Section 4)</p>	
<p>4.1 Intake, assessment and screening tools are part of a structured data capture process so that this information is interoperable with the rest of the HIT ecosystem</p>	<p>Current State: Currently half of the Local Authority Behavioral Health providers utilize the cHIE and only one authority uses it to capture intake, assessment, and screening tools. However, all are able to capture within their organizations EHR.</p>
	<p>Future State: The state will continue to assess the need for change and update Health IT functionalities as needed.</p>

	<p>Summary of Actions Needed:</p>
--	--

The state will require an annual plan from each of the local authority providers that includes a plan for capturing intake, screening and assessment tools and will make changes as needed. DSAMH already implements the requirements for annual plans and UDOH will work with providers to ensure this is in place.

(Timeline: 6-18 months)

Prompts	Summary
Electronic Office Visits – Telehealth (Section 5)	
5.1 Telehealth technologies support collaborative care by facilitating broader availability of integrated mental health care and primary care	<p>Current State: Telehealth technologies are available in all of the Local Authority Behavioral Health systems. These systems allow for better access to care and communication between providers for more integrated approaches. Multiple authorities involved in integrated healthcare systems also utilize telehealth technologies to ensure broader integrated care access.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None.</p>
Alerting/Analytics (Section 6)	
6.1 The state can identify patients that are at risk for discontinuing engagement in their treatment, or have stopped engagement in their treatment, and can notify their care teams in order to ensure treatment continues or resumes (Note: research shows that 50% of patients stop engaging after 6 months of treatment ⁵)	<p>Current State: It is not a common practice for the State to collect data and identify beneficiaries that are at risk for discontinuing engagement in treatment or have stopped engaging in treatment entirely. It is also not a practice of the State to notify care teams and managers of a beneficiary’s disengagement in treatment.</p>
	<p>Future State: The future state will be developed based on feedback from surveying enrolled Utah care providers.</p>
	<p>Summary of Actions Needed: The State will work with DSAMH to develop a survey to identify a target population and assess the need for developing a standard process to identify patients who are at risk of disengagement from treatment and what roles the care teams may play in re-engaging the member in treatment. Once the survey has been developed, it will be distributed to the appropriate providers and community based support programs for completion. The State will then analyze the results and develop next steps based on the data. (Timeline: 18-24 months)</p>

Prompts	Summary
<p>6.2 Health IT is being used to advance the care coordination workflow for patients experiencing their first episode of psychosis</p>	<p>Current State: In the Local Authority Behavioral Health system, the entire care team providing services for an individual experiencing a first episode of psychosis utilizes the EHR in accessing records to coordinate care among the team.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None</p>
Identity Management (Section 7)	
<p>7.1 As appropriate and needed, the care team has the ability to tag or link a child’s electronic medical records with their respective parent/caretaker medical records</p>	<p>Current State: Currently no organizations in the Local Authority Behavioral Health system link children's records with parent caregiver records.</p>
	<p>Future State: No actions have been planned around this activity.</p>
	<p>Summary of Actions Needed: None</p>
<p>7.2 Electronic medical records capture all episodes of care, and are linked to the correct patient</p>	<p>Current State: Currently all Local Authority Behavioral Health providers utilize an EHR that allows all services provided by employees of the agency which includes all types of providers, including prescriber, therapist and case management/Peer Support , etc...to capture all episodes of care of any given patient.</p>
	<p>Future State: The State will continue with the current state.</p>
	<p>Summary of Actions Needed: None</p>

[To be incorporated after CMS approval]

Attachment J: Intensive Stabilization Services (ISS) for Children/Youth Claiming Methodology Protocol

Introduction

The Special Terms and Conditions (STCs) of Utah's Section 1115(a) Demonstration #11-W-00145/8 approved by the Centers for Medicare and Medicaid Services (CMS) on November 25, 2019, includes expenditure authority for Utah's ISS Medicaid Eligible Children/Youth Program. The ISS Program is a specific set of state plan and home and community-based services provided during the first eight-weeks of the intensive program to support a customized service approach to keep families together while effectively helping children with emotional and/or behavioral needs thrive in their homes, schools, and communities resulting in reduced visits to the emergency room, psychiatric hospitalizations, and residential treatment services. These services are provided on a FFS basis using a daily bundled rate. Accordingly, Utah Medicaid established the protocols herein to define the claimable expenditures.

Intensive Stabilization Services (ISS) for Children/Youth Bundled Rate

Only those providers that meet the criteria set forth in STC 74 may be reimbursed for ISS. A description of the services included in the bundled rate is located at Table 2c. A provider may not receive separate reimbursement for ISS for the same individual for which the bundled rate was claimed. Medicaid providers delivering other Medicaid-covered services outside of the service bundle may bill in accordance with the state's Medicaid billing procedures. A provider must provide at least one of the services included in the bundle within the service payment unit in order to bill the daily bundled rate. The following provides a description of how the rate methodology was developed.

The ISS bundled rate is based on a similar Department of Health and Human Services program, Families First, which is an intensive in-home services program. The Families First rate is \$100 per hour. The Department of Human Services conducted an in depth review of the Family First Rate in 2015. The cost inputs included: number of families served; average number of hours of services provided per family; actual face to face time, and indirect staff time. Families First had calculated the anticipated number of hours of service per week per family and then adjusted the number of service hours based on the percentage of families anticipated to complete the program. A sample of 20 cases from the Division of Child and Family Services, Juvenile Court and the Division of Juvenile Justice Services was used. Based on the sampling, the state calculated the average number of hours provided per family per week. The assumption was that a family would receive 48-52 face-to-face hours to complete the Families First program. The state then reviewed the billable hours per family and took the total costs divided by billable hours to calculate the cost of providing services, which was \$80 per hour in 2015 and \$90 per hour in 2016. Given the single year projected jump of \$10, the state felt a rate of \$100 was reasonable. The general breakdown of calculations:

For FYE 2015, \$80 per hour (\$1,802,045 in total costs divided by 22,454 hours)
Hours were calculated at 436 families served x 51.5 billable hours per family = 22,454 hours.

For FYE 2016, \$90 per hour (\$2,374,701 in total program costs divided by 26,368 hours)
Hours were calculated at 512 families served x 51.5 billable hours per family = 26,368 hours.

Since ISS are also intensive in-home services, the Families First rate is being used as a proxy for \$100 per hour. The ISS bundle rate was based on the assumption that a family would receive an average of 42 face-to-face hours to complete the Stabilization Services program. The state examined and considered provider costs, which included: employee's level of education, training and experience; fringe benefits; administrative costs; and on-going training. The eight weeks of the ISS program include:

Week 1: 7.5 hours @\$100
Week 2: 7.5 hours @\$100
Week 3: 6 hours @\$100
Week 4: 6 hours @\$100
Week 5: 4.5 hours @\$100
Week 6: 4.5 hours @\$100
Week 7: 3 hours @\$100
Week 8: 3 hours @\$100
Grand Total \$4,200

Providers will submit an invoice to ISS Teams for services provided. The ISS Teams will make appropriate payment to the provider. Any discrepancies will be resolved before payment is issued to the provider and payment is received from the Medicaid agency to the sister agency, Department of Human Services. The ISS Teams will audit the service provider(s) quarterly to ensure compliance with all stabilization service requirements and reconcile billings with documentation of services. States can only report expenditures for which all supporting documentation is available (i.e. date of service, name of recipient, Medicaid identification number), in readily reviewable form, which has been compiled and is immediately available when the claim for expenditures is filed on the CMS-64.

The state will conduct an annual review of the actual provision of services paid under the bundled rate to ensure that beneficiaries receive the types, quantity, and intensity of services required to meet their medical needs and ensure the rates remain economic and efficient based on the services that are actually provided as part of the bundle. The rate does not include costs related to room and board or any other unallowable facility cost, or other non-covered Medicaid services.

Utah Medicaid's 1115 Primary Care Network Demonstration Waiver waives federal Institution for Mental Disease (IMD) exclusions for licensed SUD residential treatment programs with 17 or more beds. This means that licensed SUD residential treatment programs with 17 or more beds are eligible for Medicaid reimbursement. This also means that Medicaid members age 22 through 64 in these larger programs are now eligible for Medicaid reimbursement. SUD residential treatment in these programs means face-to-face services that are a combination of Medically Necessary Services. Services are provided according to each Medicaid member's ASAM assessment and treatment plan and are provided to treat the individual's documented SUD.

These programs are responsible to ensure appropriate transitions to other levels of outpatient SUD services either by directly providing the level of care needed or by coordinating the transition to the needed level of care with another provider.

Add

6. Essential Health Benefit: Prescription drugs

Benefit Provided:

Coverage is at least the greater of one drug in each U.S. Pharmacopeia (USP) category and class or the same number of prescription drugs in each category and class as the base benchmark.

Inpatient Hospitalization: Duplication

Source:

Base Benchmark

Remove

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health Benefits:

Covered under Secretary Approved 1115 Waiver as Inpatient Hospital Services in EHB3. Medicaid Limitations: 1. The lower of the Western Region Professional Activities Study at the 50th percentile or the State

of Utah's 50th percentile will be established as the upper limit of length of stay as a utilization control for the most frequent single cause of admission. These criteria will be used to evaluate the length of stay in hospitals that are not under the DRG payment system.

2. Need for an extension of length of stay must be justified by a physician, and reauthorization must be obtained from the Medicaid Agency for hospitals that are not under the DRG payment system.

3. Inpatient hospital psychiatric counseling services provided under personal supervision, rather than directly by the physician, are not provided in all hospitals in the state, and therefore, are non-covered services.

4. Inpatient hospital care for treatment of alcoholism and/or drug dependency is not a service provided in all hospitals in the state, and therefore, the service is limited to acute care for detoxification only.

5. Procedures determined to be cosmetic, experimental, or of unproven medical value, are non-covered services.

6. Organ transplant services are limited to those procedures for which selection criteria have been approved and documented in ATTACHMENT 3.1-E.

7. Abortion services, except as covered under ATTACHMENT 3.1-A, (Attachment #5a).

8. Selected medical and surgical procedures are limited by federal regulation and require review, special consent, and approval.

Base Benchmark: The following are Exclusions of the policy:

1. Ineligible Surgical Procedures or related Complications.

2. Treatment programs for enuresis or encopresis.

3. Services or items primarily for convenience, contentment, or other non-therapeutic purpose, such as: guest trays, cots, telephone calls, shampoo, toothbrush, or other personal items.

4. Occupational therapy or other therapies for activities of daily living, academic learning, vocational or life skills, developmental delay, unless authorized by PEHP for the treatment of Autism.

5. Care, confinement or services in a nursing home, rest home or a transitional living facility, community

- reintegration program, vocational rehabilitation, services to re-train self care, or activities of daily living.
6. Recreational therapy.
 7. Autologous (self) blood storage for future use.
 8. Organ or tissue donor charges, except when the recipient is an eligible Member covered under a PEHP plan, and the transplant is eligible.
 9. Nutritional analysis or counseling, except in conjunction with diabetes education, anorexia, bulimia, or as covered under the Affordable Care Act Preventive Services.
 10. Custodial Care and/or maintenance therapy.
 11. Take-home medications., unless legally required and approved by PEHP.
 12. Mastectomy for gynecomastia.
 13. Any eligible Surgical Procedure when performed in conjunction with other ineligible Surgery.
 14. Breast reduction.
 15. Tests and treatment for infertility.
 16. Blepharoplasty (or other eyelid Surgery).
 17. All facility claims related to a Hospital stay when the Member is discharged against medical advice.
 18. Sclerotherapy of varicose veins.
 19. Microphlebectomy (stab phlebectomy).
 20. Blood clotting factor.
 21. Inpatient or outpatient dental hospitalization.

<p>Scope Limit: None</p>		
<p>Other: Directly Observed Therapy (DOT)/Behavior Modification services will provide for directly observed administration of tuberculosis medication, which means the direct observation of patients swallowing anti-tuberculosis medication. Recipients must be assessed as medically appropriate for DOT based upon the recipient's risk of non-adherence to medication regimen necessary to cure and prevent the spread of an infectious, potentially fatal disease which may not respond to conventional therapies. Services shall be furnished five or more days per week, unless otherwise ordered by the physician in the recipient's plan of care. This service is provided in accordance with a therapeutic goal in the plan of care. The plan of care will include a behavior modification program to aid in establishing a pattern of adherence to treatment. The behavior modification program will be developed on an individual basis based on the patients history of non-compliance. Daily monitoring of adherence and behavior modification is necessary to ensure completion of the prescribed drug therapy, since inconsistent or incomplete treatment is likely to lead to drug resistance or reactivation, posing a major threat to the public health. DOT includes security services designed to encourage completion of medically necessary regimens of prescribed drugs by certain non-compliant TB infected individuals on an outpatient basis.</p>

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

1. The lower of the Western Region Professional Activities Study at the 50th percentile or the State of Utah's 50th percentile will be established as the upper limit of length of stay as a utilization control for the most frequent single cause of admission. These criteria will be used to evaluate the length of stay in hospitals that are not under the DRG payment system.
2. Need for an extension of length of stay must be justified by a physician, and reauthorization must be obtained from the Medicaid Agency for hospitals that are not under the DRG payment system.
3. Inpatient hospital psychiatric counseling services provided under personal supervision, rather than directly by the physician, are not provided in all hospitals in the state, and therefore, are non-covered services.
4. Inpatient hospital care for treatment of alcoholism and/or drug dependency is not a service provided in all hospitals in the state, and therefore, the service is limited to acute care for detoxification only.
5. Procedures determined to be cosmetic, experimental, or of unproven medical value, are non-covered services.
6. Organ transplant services are limited to those procedures for which selection criteria have been approved and documented in ATTACHMENT 3.1-E in the Utah State Plan.
7. Abortion services, except as covered under ATTACHMENT 3.1-A, (Attachment #5a) in the Utah State Plan.
8. Selected medical and surgical procedures are limited by federal regulation and require review, special consent, and approval.
9. Reconstructive surgery is covered when performed to correct deformity resulting from disease, trauma, congenital anomaly, or previous therapeutic intervention.

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

Utah Medicaid's 1115 Primary Care Network Demonstration Waiver waives federal Institution for Mental Disease (IMD) exclusions for licensed SUD residential treatment programs with 17 or more beds. This means that licensed SUD residential treatment programs with 17 or more beds are eligible for Medicaid reimbursement. This also means that Medicaid members age 22 through 64 in these larger programs are now eligible for Medicaid reimbursement.

SUD residential treatment in these programs means face-to-face services that are a combination of Medically Necessary Services. Services are provided according to each Medicaid member's ASAM assessment and treatment plan and are provided to treat the individual's documented SUD. These programs are responsible to ensure appropriate transitions to other levels of outpatient SUD services either by directly providing the level of care needed or by coordinating the transition to the needed level of care with another provider.

Alternative Benefit Plan

6. Essential Health Benefit: Prescription drugs

Benefit Provided:

Coverage is at least the greater of one drug in each U.S. Pharmacopeia (USP) category and class or the same number of prescription drugs in each category and class as the base benchmark.

- Prescription Drug Limits (Check all that apply.):
- Limit on days supply
 - Limit on number of prescriptions
 - Limit on brand drugs
 - Other coverage limits
 - Preferred drug list

Authorization:

Yes

Provider Qualifications:

State licensed

Coverage that exceeds the minimum requirements or other:

The State of Utah's ABP prescription drug benefit plan is the same as under the approved Medicaid State Plan for prescribed drugs.

Specialized services for mentally ill individuals means the services from an individualized plan of care that:

- a. Are prescribed only for persons experiencing an acute episode of serious mental illness, which necessitates supervision of trained mental health personnel;
- b. Are developed and supervised by an interdisciplinary team, which includes a physician and qualified mental health professionals;
- c. Are directed toward reducing behavioral symptoms and improving his or her level of independent functioning level that permits reduction in the intensity of mental health services; and
- d. Are usually limited to inpatient psychiatric hospital care and care in an institution for mental diseases. Certain individuals, as applicable, are not precluded from receiving such services in a nursing facility

Directly Observed Therapy (DOT)/Behavior Modification services will provide for directly observed administration of tuberculosis medication, which means the direct observation of patients swallowing anti-tuberculosis medication. Recipients must be assessed as medically appropriate for DOT based upon the recipient's risk of non-adherence to medication regimen necessary to cure and prevent the spread of an infectious, potentially fatal disease which may not respond to conventional therapies. Services shall be furnished five or more days per week, unless otherwise ordered by the physician in the recipient's plan of care. This service is provided in accordance with a therapeutic goal in the plan of care. The plan of care will include a behavior modification program to aid in establishing a pattern of adherence to treatment. The behavior modification program will be developed on an individual basis based on the patients history of non-compliance. Daily monitoring of adherence and behavior modification is necessary to ensure completion of the prescribed drug therapy, since inconsistent or incomplete

treatment is likely to lead to drug resistance or reactivation, posing a major threat to the public health. DOT includes security services designed to encourage completion of medically necessary regimens of prescribed drugs by certain non-compliant TB infected individuals on an outpatient basis.

Attachment N: Claiming Methodologies

METHODOLOGY FOR IDENTIFICATION OF APPLICABLE FMAP RATES

The State will determine the appropriate FMAP rate for expenditures for individuals enrolled in the adult group described in 42 CFR 435.119 and receiving benefits in accordance with 42 CFR Part 440 Subpart C. The adult group FMAP methodology consists of two parts: an individual-based determination related to enrolled individuals, and as applicable, appropriate population-based adjustments.

Part 1 – Adult Group Individual Income-Based Determinations

For individuals eligible in the adult group, the state will make an individual income-based determination for purposes of the adult group FMAP methodology by comparing individual income to the relevant converted income eligibility standards in effect on December 1, 2009, and included in the MAGI Conversion Plan (Part 2) approved by CMS on December 20, 2019. In general, and subject to any adjustments described in this attachment, under the adult group FMAP methodology, the expenditures of individuals with incomes below the relevant converted income standards for the applicable subgroup are considered as those for which the newly eligible FMAP is not available. The relevant MAGI-converted standards for each population group in the new adult group are described in Table 1.

Table 1: Adult Group Eligibility Standards and FMAP Methodology Feature

Covered Populations Within New Adult Group		Applicable Population Adjustment			
Population Group	Relevant Population Group Income Standard	Resource Proxy	Enrollment Cap	Special Circumstances	Other Adjustments
	For each population group, indicate the lower of: <ul style="list-style-type: none"> • The reference in the MAGI Conversion Plan (Part 2) to the relevant income standard and the appropriate cross-reference, or • 133% FPL. If a population group was not covered as of 12/1/09, enter "Not covered".	Enter "Y" (Yes), "N" (No), or "NA" in the appropriate column to indicate if the population adjustment will apply to each population group. Provide additional information in corresponding attachments.

**Part 2 – Population-based Adjustments to the Newly Eligible Population
Based on Resource Test, Enrollment Cap or Special Circumstances**

A. Optional Resource Criteria Proxy Adjustment (42 CFR 433.206(d))

1. The State:

- Applies a resource proxy adjustment to a population group(s) that was subject to a resource test that was applicable on December 1, 2009.
- Does NOT apply a resource proxy adjustment (Skip items 2 through 3 and go to Section B).

Table 1 indicates the group or groups for which the state applies a resource proxy adjustment to the expenditures applicable for individuals eligible and enrolled under 42 CFR 435.119. A resource proxy adjustment is only permitted for a population group(s) that was subject to a resource test that was applicable on December 1, 2009.

The effective date(s) for application of the resource proxy adjustment is specified and described in Attachment 2.

2. Data source used for resource proxy adjustments:

The State:

- Applies existing state data from periods before January 1, 2014.
- Applies data obtained through a post-eligibility statistically valid sample of individuals.

Data used in resource proxy adjustments is described in Attachment 2.

3. Resource Proxy Methodology: Attachment 2 describes the sampling approach or other methodology used for calculating the adjustment.

B. Enrollment Cap Adjustment (42 CFR 433.206(e))

1.

- An enrollment cap adjustment is applied by the state (complete items 2 through 4).
- An enrollment cap adjustment is not applied by the state (skip items 2 through 4 and go to Section C).

2. Attachment 3 describes any enrollment caps authorized in section 1115 demonstrations as of December 1, 2009, that are applicable to populations that the State covers in the eligibility group described at 42 CFR 435.119 and received full benefits, benchmark benefits, or benchmark equivalent benefits as determined by CMS. The enrollment cap or caps are as specified in the applicable section 1115 demonstration special terms and conditions as confirmed by CMS, or in

alternative authorized cap or caps as confirmed by CMS. Attach CMS correspondence confirming the applicable enrollment cap(s).

3. The State applies a combined enrollment cap adjustment for purposes of claiming FMAP in the adult group:
 - Yes. The combined enrollment cap adjustment is described in Attachment 3
 - No.
4. Enrollment Cap Methodology: Attachment 3 describes the methodology for calculating the enrollment cap adjustment, including the use of combined enrollment caps, if applicable.

C. Special Circumstances (42 CFR 433.206(g)) and Other Adjustments to the Adult Group FMAP Methodology

1. The State:
 - Applies a special circumstances adjustment(s).
 - Does not apply a special circumstances adjustment.
2. The State:
 - Applies additional adjustment(s) to the adult group FMAP methodology (complete item 3).
 - Does not apply any additional adjustment(s) to the adult group FMAP methodology (skip item 3 and go to Part 3).
3. Attachment 4 describes the special circumstances and other proxy adjustment(s) that are applied, including the population groups to which the adjustments apply and the methodology for calculating the adjustments.

Part 3 – One-Time Transitions of Previously Covered Populations into the New Adult Group

A. Transitioning Previous Section 1115 and State Plan Populations to the New Adult Group

- Individuals previously eligible for Medicaid coverage through a section 1115 demonstration program or a mandatory or optional state plan eligibility category will be transitioned to the new adult group described in 42 CFR 435.119 in accordance with a CMS-approved transition plan and/or a section 1902(e)(14)(A) waiver. For purposes of claiming federal funding at the appropriate FMAP for the populations transitioned to new adult group, the adult group FMAP methodology is applied pursuant to and as described in Attachment 5, and where applicable, is subject to any special circumstances or other adjustments described in Attachment 4.
- The State does not have any relevant populations requiring such transitions.

Part 4 - Applicability of Special FMAP Rates

A. Expansion State Designation

The State:

- Does NOT meet the definition of expansion state in 42 CFR 433.204(b). (Skip section B and go to Part 5)
- Meets the definition of expansion state as defined in 42 CFR 433.204(b), determined in accordance with the CMS letter confirming expansion state status, dated _____

B. Qualification for Temporary 2.2 Percentage Point Increase in FMAP.

The State:

- Does NOT qualify for temporary 2.2 percentage point increase in FMAP under 42 CFR 433.10(c)(7).
- Qualifies for temporary 2.2 percentage point increase in FMAP under 42 CFR 433.10(c)(7), determined in accordance with the CMS letter confirming eligibility for the temporary FMAP increase, dated _____. The State will not claim any federal funding for individuals determined eligible under 42 CFR 435.119 at the FMAP rate described in 42 CFR 433.10(c)(6).

Part 5 - State Attestations

The State attests to the following:

- A. The application of the adult group FMAP methodology will not affect the timing or approval of any individual's eligibility for Medicaid.
- B. The application of the adult group FMAP methodology will not be biased in such a manner as to inappropriately establish the numbers of, or medical assistance expenditures for, individuals determined to be newly or not newly eligible.

ATTACHMENTS

Not all of the attachments indicated below will apply to all states; some attachments may describe methodologies for multiple population groups within the new adult group. Indicate those of the following attachments which are included with this attachment:

- Attachment 1 – Conversion Plan Standards Referenced in Table 1
- Attachment 2 – Resource Criteria Proxy Methodology
- Attachment 3 – Enrollment Cap Methodology

Attachment 4 – Special Circumstances Adjustment and Other Adjustments to the Adult Group FMAP Methodology

Attachment 5 – Transition Methodologies

approved MAGI Conversion Plan.

Attachment 5

Utah Adult Medicaid FMAP, Eligibility and Transition Plan Populations Transitioning from Utah's 1115 Waiver to the New Adult Group

Population and MAGI Eligibility Levels	Enhanced FMAP Post Transition	Traditional FMAP Post Transition
Adult Expansion up to 95% FPL	X	
Non-institutionalized Disabled Persons up to 102% FPL		X
Targeted Adults up to 5% FPL and up to 133% FPL during continuous eligibility period	X	
Targeted Adults above 133% FPL during continuous eligibility period		X
Demonstration Population III & V (Utah's Premium Partnership for Health Insurance-UPP) up to 133% FPL	X	
Targeted Adults Dental ("TAD") up to 5% FPL and up to 133% FPL during continuous eligibility period	X	
Targeted Adults Dental ("TAD") above 133% FPL during continuous eligibility period		X
Mandatory Employer Sponsored Insurance for Adult Expansion up to 95% FPL	X	
Mandatory Employer Sponsored Insurance for Non-institutionalized Disabled Persons up to 102% FPL		X

Withdrawal Management for Adult Expansion up to 95% FPL and Targeted Adults up to 133% FPL	X	
Withdrawal Management for non-Adult-Expansion; non-Targeted Adults groups; and Targeted Adults above 133% FPL during continuous eligibility period		X
Substance Use Disorder for Adult Expansion up to 95% FPL and Targeted Adults up to 133% FPL	X	
Substance Use Disorder for non-Adult Expansion; non-Targeted Adults groups; and Targeted Adults above 133% FPL during continuous eligibility period		X

Under the 1115 Waiver, Utah covers seven demonstration populations that will transition to the new adult group.

- Adult Expansion individuals with income at or below 95% of FPL who are not part of the 1115 “Current Eligibles Demonstration Population” - These individuals currently receive a traditional or non-traditional state plan benefits equivalent to the ABPs.
- Targeted Adult (TAM) individuals with income at or below 5% of FPL and income at or below 133% of FPL during continuous eligibility period - These individuals currently receive traditional state plan benefits equivalent to the ABP. They will retain 12-month continuous eligibility, as allowed under the 1115 waiver.
- Targeted Adults Dental (“TAD”) with income at or below 5% of FPL and income at or below 133% of FPL during continuous eligibility period.
- Demonstration Population III & V (UPP) with income at or below 133% FPL- These individuals currently receive premium assistance to help pay for the individual’s or family’s share of the monthly premiums costs of employer sponsored insurance or COBRA. These individuals will receive a traditional or non-traditional state plan benefits equivalent to the ABPs.
- Mandatory Employer Sponsored Insurance for Adult Expansion up to 95% FPL.
- Withdrawal Management for Adult Expansion up to 95% FPL and Targeted Adults up to 133% FPL
- Substance Use Disorder for Adult Expansion up to 95% FPL and Targeted Adults up to 133% FPL

This eligibility transition will be completed administratively and will be effective January 1, 2020. Eligibility under the 1115 Waiver had already been determined using MAGI methodology so no MAGI conversion is necessary. The transition will be seamless for the member and there will be no disruption in coverage. Members will be sent a notice advising them of the change in their coverage to the more robust benefit package under the ABP, when applicable. Members will be advised of their appeal rights.
