

Medicaid Section 1115 Substance Use Disorder Demonstrations Monitoring Protocol Template

PRA Disclosure Statement - This information is being collected to assist the Centers for Medicare & Medicaid Services in program monitoring of Medicaid Section 1115 Substance Use Disorder Demonstrations. This mandatory information collection (42 CFR § 431.428) will be used to support more efficient, timely and accurate review of states’ SUD 1115 demonstrations monitoring reports submissions to support consistency of monitoring and evaluation of SUD 1115 Demonstrations, increase in reporting accuracy, and reduce timeframes required for monitoring and evaluation. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. The OMB control number for this project is **0938-1148 (CMS-10398 #57)**.” If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Title page for the state’s substance use disorder (SUD) demonstration or the SUD component of the broader demonstration

The state should complete this title page as part of its SUD monitoring protocol. Definitions for certain rows are provided below the table. The Performance Metrics Database and Analytics (PMDA) system will populate some rows of the table. The state should complete the rest of the table. The state can revise the demonstration goals and objectives if needed. PMDA will use this information to populate part of the title page of the state’s monitoring reports.

Medicaid Section 1115 SUD Demonstrations Monitoring Protocol – Part B Version 5.0

[Nevada] [Demonstration name – Nevada’s Treatment of Opioid Use Disorders (OUDs) and Substance Use Disorders (SUDs) Transformation Project Section 1115 Demonstration Waiver]

State	Nevada
Demonstration name	Nevada’s Treatment of Opioid Use Disorders (OUDs) and Substance Use Disorders (SUDs) Transformation Project Section 1115 Demonstration Waiver
Approval period for section 1115 demonstration	January 1, 2023 – December 31, 2027
SUD demonstration start date^a	January 1, 2023
Implementation date of SUD demonstration, if different from SUD demonstration start date^b	August 1, 2023
SUD (or if broader demonstration, then SUD-related) demonstration goals and objectives	<p>The Demonstration’s goals and objectives will increase access to critical substance use treatment levels of care that are currently not funded within the Nevada Medicaid program. With increased access to a full continuum of substance use treatment, Medicaid beneficiaries will be able to receive the appropriate treatment needed at a time when a beneficiary is determined to need an American Society of Addiction Medicine (ASAM) residential/inpatient level of care within an IMD. In addition, Nevada will address these goals and milestones throughout the 1115 SUD Demonstration Waiver:</p> <ul style="list-style-type: none"> - Increase rates of identification, initiation, and engagement in treatment for SUD; - Increase adherence to and retention in treatment; - Reduce overdose deaths, particularly those due to opioids; - Reduce utilization of emergency departments and inpatient hospital settings for treatment where the utilization is preventable or medically inappropriate through improved access to other continuum of care services; - Fewer readmissions to the same or higher level of care where the readmission is preventable or medically inappropriate; - Improve access to care for physical health conditions among beneficiaries with SUD; - Increase adherence to treatment for parenting individuals who will have their children with them in the transitional and residential IMD setting; - Increase access to medical and community-based services in pregnant and parenting individuals in an IMD; and - Allow for care coordination of services resulting in a better care transition upon discharge

^a **SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state’s STCs at time of SUD demonstration approval. For example, if the state’s STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

Medicaid Section 1115 SUD Demonstrations Monitoring Protocol – Part B Version 5.0

[Nevada] [Demonstration name – Nevada’s Treatment of Opioid Use Disorders (OUDs) and Substance Use Disorders (SUDs) Transformation Project Section 1115 Demonstration Waiver]

^b **Implementation date of SUD demonstration:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

2. Acknowledgement of narrative reporting requirements

- The state has reviewed the narrative questions in the Monitoring Report Template provided by CMS and understands the expectations for quarterly and annual monitoring reports. The state will provide the requested narrative information (with no modifications).

3. Acknowledgement of budget neutrality reporting requirements

- The state has reviewed the Budget Neutrality Workbook (which can be accessed via PMDA – see Monitoring Protocol Instructions for more details) and understands the expectations for quarterly and annual monitoring reports. The state will provide the requested budget neutrality information (with no modifications).

4. Retrospective reporting

The state is not expected to submit metrics data until after monitoring protocol approval, to ensure that data reflects the monitoring plans agreed upon by CMS and the state. Prior to monitoring protocol approval, the state should submit quarterly and annual monitoring reports with narrative updates on implementation progress and other information that may be applicable, according to the requirements in its STCs.

For a state that has monitoring protocols approved after one or more initial quarterly monitoring report submissions, it should report metrics data to CMS retrospectively for any prior quarters (Qs) of the section 1115 SUD demonstration that precede the monitoring protocol approval date. A state is expected to submit retrospective metrics data—provided there is adequate time for preparation of these data—in its second monitoring report submission that contains metrics. The retrospective monitoring report for a state with a first SUD demonstration year (DY) of less than 12 months, should include data for any baseline period Qs preceding the demonstration, as described in Part A of the state’s monitoring protocols. (See Appendix B of the Monitoring Protocol Instructions for further instructions on determining baseline periods for first SUD DYs that are less than 12 months.) If a state needs additional time for preparation of these data, it should propose an alternative plan (i.e., specify the monitoring report that would capture the data) for reporting retrospectively on its section 1115 SUD demonstration.

In the monitoring report submission containing retrospective metrics data, the state should also provide a general assessment of metrics trends from the start of its demonstration through the end of the current reporting period. The state should report this information in Part B of its monitoring report submission (Section 3: Narrative information on implementation, by milestone and reporting topic). This general assessment is not intended to be a comprehensive description of every trend observed in the metrics data. Unlike other monitoring report submissions, for instance, the state is not required to describe all metric changes (+ or - greater than 2 percent). Rather, the assessment is an opportunity for a state to provide context on its retrospective metrics

data and to support CMS’s review and interpretation of these data. For example, consider a state that submits data showing an increase in the number of medication-assisted treatment (MAT) providers (Metric #14) over the course of the retrospective reporting period. This state may decide to highlight this trend for CMS in Part B of its monitoring report (under Milestone 4) by briefly summarizing the trend and explaining that during this period, a grant supporting training for new MAT providers throughout its state was implemented.

For further information on how to compile and submit a retrospective monitoring report, the state should review Section B of the Monitoring Report Instructions document.

- The state will report retrospectively for any Qs prior to monitoring protocol approval as described above, in the state’s second monitoring report submission that contains metrics after monitoring protocol approval.
- The state proposes an alternative plan to report retrospectively for any Qs prior to **monitoring protocol approval**: *Insert narrative description of proposed alternative plan for retrospective reporting. Regardless of the proposed plan, retrospective reporting should include retrospective metrics data and a general assessment of metric trends for the period. The state should provide justification for its proposed alternative plan.*
