## PRA Disclosure Statement.

This information is being collected to assist the Centers for Medicare & Medicaid Services (CMS) in partnership with States with the ongoing management of Medicaid and CHIP programs and policies. This mandatory information collection (42 U.S.C. 1397hh) will be used to help each state meet the statutory requirements at section 2108(a) of the Social Security Act to assess the operation of the State child health plan in each Federal fiscal year and to report the results of the assessment including the progress made in reducing the number of uncovered, low-income children. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #1). The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

## **Program Fees and Policy Changes**

### **Part 1: Medicaid Expansion CHIP Enrollment Fees, Premiums, and Delivery Systems**

## Enrollment and Uninsured Data

### Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

<b>Program</b>	<b>Number of children enrolled in FFY 2019</b>	<b>Number of children enrolled in FFY 2020</b>	<b>Percent change</b>
Medicaid Expansion CHIP	14,723	12,511	-15.024%
Separate CHIP	5,180	4,041	-21.988%

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

Due to the COVID PHE, we are seeing more families and children qualify under other Medicaid categories. Also, to meet the requirements of FCCRA, we have not been terminating coverage of beneficiaries that are no longer eligible.

## Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey.

Year	Number of uninsured children	Margin of error	Percent of uninsured children (of total children in your state)	Margin of error
2015	9,000	2,000	4.3%	1%
2016	5,000	1,000	2.2%	0.5%
2017	6,000	2,000	3%	0.7%
2018	8,000	2,000	3.5%	0.8%
2019	9,000	3,000	4%	1.1%

Percent change between 2018 and 2019
Not Available

2.

Are there any reasons why the American Community Survey estimates wouldn't be a precise representation of the actual number of uninsured children in your state?

Yes

No

3.

Do you have any alternate data source(s) or methodology for measuring the number and/or percent of uninsured children in your state?

Yes

No

4. Is there anything else you'd like to add about your enrollment and uninsured data?

N/A

5.

Optional: Attach any additional documents here.

## Program Outreach

1.

Have you changed your outreach methods in the last federal fiscal year?

Yes

No

2.

Are you targeting specific populations in your outreach efforts?

For example: minorities, immigrants, or children living in rural areas.

Yes

No

3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

We do not measure the effectiveness of outreach activities in any quantifiable method. We provide brochures to schools each year and to other entities if requested. These brochures and word of mouth are the main methods of outreach

4. Is there anything else you'd like to add about your outreach efforts?

N/A

5.

Optional: Attach any additional documents here.

## Eligibility, Enrollment, and Operations

### Substitution of Coverage

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

- Yes
- No
- N/A

2.

Do you match prospective CHIP enrollees to a database that details private insurance status?

Yes

No

N/A

999

%

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

N/A

6.

Optional: Attach any additional documents here.

# Eligibility, Enrollment, and Operations

## Renewal, Denials, and Retention

### Part 1: Eligibility Renewal and Retention

1.

Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?

This question should only be answered in respect to Separate CHIP.

Yes

No

N/A

2.

In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

Yes

No

3.

Do you send renewal reminder notices to families?

Yes

No

4. What else have you done to simplify the eligibility renewal process for families?

N/A

5. Which retention strategies have you found to be most effective?

No evaluation has been completed.

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?

We have not measured the effectiveness of retention strategies.

7. Is there anything else you'd like to add that wasn't already covered?

N/A

## Part 2: CHIP Eligibility Denials (Not Redetermination)

1.

How many applicants were denied CHIP coverage in FFY 2020?

Don't include applicants being considered for redetermination - this data will be collected in Part 3.

2.

How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.

3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

4.

How many applicants were denied CHIP coverage for other reasons?

5. Did you have any limitations in collecting this data?

Data is not available for this information.

Table: CHIP Eligibility Denials (Not Redetermination)

This table is auto-populated with the data you entered above.

Denied for procedural reasons	Not Answered	Not Answered
Denied for eligibility reasons	Not Answered	Not Answered
Denials for other reasons	Not Answered	Not Answered

### Part 3: Redetermination in CHIP

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in CHIP in FFY 2020?

2.

Of the eligible children, how many were then screened for redetermination?

3.

How many children were retained in CHIP after redetermination?

4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

**Computed:**

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.

4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

Data is not available for this information.

## Part 4: Redetermination in Medicaid

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in Medicaid in FFY 2020?

2.

Of the eligible children, how many were then screened for redetermination?

3.

How many children were retained in Medicaid after redetermination?

4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

**Computed:**

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to an income that was too high and/or eligibility in CHIP instead.

4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

Data is not available for this information.

## Part 5: Tracking a CHIP cohort (Title XXI) over 18 months

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

## Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

## **Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months**

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

## **Eligibility, Enrollment, and Operations**

### **Cost Sharing (Out-of-Pocket Costs)**

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles, coinsurance, and copayments.

1.

Does your state require cost sharing?

Yes

No

## **Eligibility, Enrollment, and Operations**

### **Employer Sponsored Insurance and Premium Assistance**

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1.

Does your state offer ESI including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI demonstration?

Yes

No

## **Eligibility, Enrollment, and Operations**

### **Program Integrity**

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1.

Do you have a written plan with safeguards and procedures in place for the prevention of fraud and abuse cases?

Yes

No

2.

Do you have a written plan with safeguards and procedures in place for the investigation of fraud and abuse cases?

Yes

No

3.

Do you have a written plan with safeguards and procedures in place for the referral of fraud and abuse cases?

Yes

No

4. What safeguards and procedures are in place for the prevention, investigation, and referral of fraud and abuse cases?

The program integrity unit works cases based on reasonable suspicion. This can be done by receiving tips from email, phone, other agencies, or by our own data analytics. If reasonable suspicion of FWA exists, the Unit will request a referral to MFCU by using a referral document approved through our memorandum of understanding with MFCU. Upon acceptance of the referral, DSS and MFCU work together to resolve the case by making a recovery of at risk dollars, provider education, or prosecution.

5.

Do the Managed Care plans contracted by your Separate CHIP program have written plans with safeguards and procedures in place?

Yes

No

### Dental Benefits

Tell us about the children receiving dental benefits in your Separate CHIP program. Include children who are receiving full benefits and those who are only receiving supplemental dental benefits. Include the unduplicated number of children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

### Note on age groups

Children should be in age groups based on their age on September 30th, the end of the federal fiscal year (FFY). For example, if a child turns three years old on September 15th, the child should be included in the "ages 3-5" group. Even if the child received dental services on September 1st while they were still two years old, all dental services should be counted as their age at the end of the FFY.

1.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-18 years) instead.

Yes

No

2.

How many children were enrolled in Separate CHIP for at least 90 continuous days during FFY 2020?

1	117	457	764	900	485

#### Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100-D9999 (or equivalent CDT codes D0100-D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

4.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received at least one preventative dental care service during FFY 2020?

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18
1	117	457	764	900	485

## Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim. All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

5.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received dental treatment services during FFY 2020?

This includes orthodontics, periodontics, implants, oral and maxillofacial surgery, and other treatments.

Ages 0-1	Ages 1-2	Ages 3-5	Ages 6-9	Ages 10-14	Ages 15-18
0	9	120	298	336	188

## Dental treatment service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D2000-D9999 (or equivalent CDT codes D2000-D9999 or equivalent CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services) based on an unduplicated paid, unpaid, or denied claim.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

6.

How many children in the "ages 6-9" group received a sealant on at least one permanent molar tooth during FFY 2020?

200

#### Sealant codes and definitions

The sealant on a permanent molar tooth is provided by a dental professional for whom placing a sealant is within their scope of practice. It's defined by HCPCS code D1351 (or equivalent CDT code D1351) based on an unduplicated paid, unpaid, or denied claim. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, and 31, and additionally - for states covering sealants on third molars ("wisdom teeth") - teeth numbered 1, 16, 17, and 32.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

7.

Do you provide supplemental dental coverage?

Yes

No

8. Is there anything else you'd like to add about your dental benefits? If you weren't able to provide data, let us know why.

### CAHPS Survey Results

Children's Health Insurance Program Reauthorization Act (CHIPRA) requires that all CHIP programs submit survey results from the Consumer Assessment of Healthcare Providers and Systems (CAHPS). The survey assesses your CHIP program quality and customer satisfaction.

1.

Did you collect the CAHPS survey?

Yes

No

### Part 2: You collected the CAHPS survey

Since you collected the CAHPS survey, please complete Part 2.

1.

Upload a summary report of your CAHPS survey results.

This is optional if you already submitted CAHPS raw data to the AHRQ CAHPS database. Submit results only for the CHIP population, not for both Medicaid (Title XIX) and CHIP (Title XXI) together. Your data should represent children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

### **Eligibility, Enrollment, and Operations**

#### **Health Services Initiative (HSI) Programs**

All states with approved HSI program(s) should complete this section.

States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1.

Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

Even if you're not currently operating the HSI program, if it's in your current approved CHIP State Plan, please answer "yes."

Yes

No

# **State Plan Goals and Objectives**

## **Part 1: Tell us about your goals and objectives**

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different.

Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.

1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

Achieve a measurable reduction in the number of uninsured children in South Dakota beginning in July 1, 1998.

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal

Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP in the last federal fiscal year.

The number of children enrolled in CHIP in the last federal fiscal year.

4.

07 / 2019

### End

mm/yyyy

06 / 2020

8.

Which data source did you use?

- Eligibility or enrollment data
- Survey data
- Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

This section of the CHIP report was not completed last year.

10. What are you doing to continually make progress towards your goal?

South Dakota is working towards implementing a new eligibility and enrollment system. This system will provide functionality such as an online application, customer portal, mobile application, online change reporting, and increased electronic interfaces. We believe this will make information more accessible, ease the difficulty of applying for coverage, and reduce churn associated with procedural denials/closures (e.g. information verified electronically reduces the number of adverse actions for failure to provide information). The new system is anticipated to be completed in early 2023.

11. Anything else you'd like to tell us about this goal?

Yes, we plan to maintain this goal.

12.

Do you have any supporting documentation?

Optional

**Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.**

Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)

**Do you have another in this list?**

1. What is the next objective listed in your CHIP State Plan?

You can edit the suggested objective so it matches what's in your CHIP State Plan.

Improve access to quality primary and preventative health care services under Medicaid for approved SCHIP eligible, new Medicaid eligible and previously non-enrolled children on July 1, 1998.

1. Briefly describe your goal for this objective.

For example: In an effort to increase access to care, our goal is to increase the number of children who have visited a primary care physician by 5%.

2.1 - Enroll 95% of all newly approved CHIP-NM children in the South Dakota medical assistance primary care case management program within 1 month of enrollment, beginning July 1, 2000. 2.2 - Ensure each new enrollee receives covered services, cost sharing and EPSDT information at the time that their eligibility is approved. 2.3 Include CHIP-NM eligible children in the quality measurement mechanisms that are used for Medicaid and M-SCHIP including measures of immunization, well child care, adolescent well care, satisfaction and other measures of health care quality. Measures will come from the HCFA 416 report, the Department of Health Immunization tracking system, and the evaluation process used in South Dakota's PRIME managed care program operated under 1915(b) waiver authority. This evaluation process also uses client and provider surveys independent evaluations and clinical studies to report cost effectiveness and quality to CMS for waiver renewal purposes, and annual SCHIP reporting requirements. South Dakota will request the managed care waiver be incorporated into its Medicaid and SCHIP state plans.

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal

Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP who visited a primary care physician in the last federal fiscal year.

8.

Which data source did you use?

- Eligibility or enrollment data
- Survey data
- Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

2.1 - Per standard operating procedure newly approved CHIP-NM recipients are enrolled in the PCCM program within 10 days. In rare instances enrollment in the program may occur outside of this 10 day period. 2.2 - Each CHIP recipient receives a Recipient Handbook that provides this information. 2.3 - The CHIP population is included in the same quality measurements as the Medicaid population.

Table 2: Administrative Costs

This table is auto-populated with the data you entered above.  
 Your total administrative costs cannot be more than 10% of your total CHIP program costs (the sum of your benefit and administrative costs). The 10% administrative cap is calculated by dividing the total benefit costs by 9.

<b>Type</b>	<b>FFY 2020</b>	<b>FFY 2021</b>	<b>FFY 2022</b>
Personnel	0	0	0
General administration	0	0	0
Contractors and brokers	180149	243201	328322

10% administrative cap	3600797.44	4140917.11	4762054.67

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding.

This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2022 will be calculated once the eFMAP rate for 2022 becomes available. In the meantime, these values will be blank.

<b>Type</b>	<b>FFY 2020</b>	<b>FFY 2021</b>	<b>FFY 2022</b>
Total program costs	32972303	38032174	43888434
