

Medicaid and CHIP National Summary of Renewal Outcomes – May 2023 Data

August 2023

National Summary of Renewal Outcomes

- This National Summary of Renewal Outcomes provides an overview of Medicaid and Children’s Health Insurance Program (CHIP) data on states’ progress resuming their regular processes for renewing individuals’ coverage after the end of the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition.
- States are required to submit specific metrics about Medicaid and CHIP renewals initiated and completed for a cohort in a given month using the “Unwinding Eligibility and Enrollment Data Reporting Template” (Unwinding Data Report).
- The data in this summary include metrics required by the Consolidated Appropriations Act, 2023 (CAA, 2023), as well as other state-reported data and calculations that provide additional context to understand renewal outcomes.
- For more information on this data set as well as methodologies and limitations, see the Data Sources and Metrics Definitions Overview under the [“Understanding the Data” tab](#).
- State-specific notes for the data can be found in the [Medicaid and CHIP CAA Reporting Metrics](#).
- Additional data are available at [Medicaid.gov/unwinding-data](https://www.Medicaid.gov/unwinding-data).

Context and Data Notes:

Understanding Renewal Timelines & Reporting

- **Medicaid and CHIP renewal outcomes are reported by cohort.** States report outcomes for all individuals in the month in which renewals for the cohort are due, even if some renewals were completed in a prior month.
- **States began unwinding in February, March, April 2023** by initiating their first cohort of renewals.
- **The length of states' renewal process varies.** Most states take between 45 and 90 days to complete renewals for a cohort. As a result, states are completing renewals on different schedules and will report outcomes in different months.
- **As of May 31, 2023, 37 states had completed at least one full cohort** of unwinding-related renewals. Data in this summary document represent the outcomes of renewals in these 37 states only.
- States had flexibility in how to distribute Medicaid and CHIP renewals during the unwinding period, and nearly half of states (22) elected to prioritize renewals for some or all individuals identified by the state as likely ineligible for Medicaid and/or CHIP.
- For more information on state renewal timelines and prioritization of renewals, please [see 2023 State Timelines for Initiating Unwinding-Related Renewals](#).

Context and Data Notes: Interpreting Renewal Outcomes

- Multiple factors, including state-adopted mitigations and other strategies may influence renewal outcomes and reporting in a state. For example:
 - States with an *ex parte* mitigation strategy that uses data sources to complete a renewal after a form is sent may report those renewals as completed based on the return of a renewal form and underreport the number of individuals renewed on an *ex parte* basis
 - Some states are temporarily holding some or all procedural terminations as a mitigation strategy to ensure compliance with federal renewal requirements or voluntarily implemented a strategy to delay procedural terminations to conduct additional outreach. These states may report zero procedural terminations and/or a significantly higher share of pending renewals at the end of a reporting month.
 - Some states have restored eligibility for people initially found ineligible due to systems or other errors. This is frequently not identifiable in the data
- Reviewers should consider these factors, states' distribution and prioritization of renewals, and other information when interpreting renewal outcomes and comparing information across states. Data limitations in the [Medicaid and CHIP CAA Reporting Metrics](#) provide additional state-specific information.
- For additional information, see:
 - [COVID-19 PHE Unwinding Section 1902\(e\)\(14\)\(A\) Waiver Approvals](#), and
 - [Summary of State Mitigation Strategies for Complying with Medicaid Renewal Requirements](#)

National Summary of Outcomes of Medicaid and CHIP Unwinding-Related Renewals Due in May 2023

For 36 states reporting at least one full cohort of unwinding-related renewals in May 2023	Number	Percent of beneficiaries due for renewal in the reporting month
Total number of beneficiaries due for renewal in the reporting month	3,980,211	100.0%
Beneficiaries due for renewal in the reporting month whose coverage was renewed	1,675,250	42.1%
Renewed for Medicaid/CHIP on an <i>ex parte</i> basis (based on available information)	983,065	24.7% (58.7% of total renewed)
Renewed for Medicaid/CHIP based on return of a renewal form	692,185	17.4% (41.3% of total renewed)
Beneficiaries due for renewal in the reporting month whose coverage was terminated	1,497,437	37.6%
Determined ineligible for Medicaid and CHIP based on the return of a renewal form	341,838	8.6% (22.8% of total terminated)
Terminated from Medicaid/CHIP for a procedural or administrative reason	1,155,599	29.0% (77.2% of total terminated)
Beneficiaries due for renewal in the reporting month whose renewal was pending at the end of the month	807,524	20.3%

These data represent the outcome of renewals due in May 2023 (effective June 1, 2023) in 36 states that had completed at least one full cohort of unwinding-related renewals as of May 31: AK, AR, AZ, CO, CT, DC, DE, FL, GA, HI, IA, ID, IN, KS, KY, MD, ME, MT, ND, NE, NH, NM, NV, OH, OK, PA, RI, SC, SD, TX, UT, VA, VT, WA, WV, and WY. Numbers and percentages may not sum due to rounding. MA reports the dispositions of renewals completed in the reporting period. Therefore, the state is unable to report the number of pending renewals to CMS, and MA's data is excluded from the national totals.
