

Medicaid and CHIP National Summary of Renewal Outcomes – November 2023 and National Summary to Date

February 2024

National Summary of Renewal Outcomes

- This National Summary of Renewal Outcomes provides an overview of Medicaid and Children’s Health Insurance Program (CHIP) data on states’ progress resuming their regular processes for renewing individuals’ coverage after the end of the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition.
- States must submit specific metrics about Medicaid and CHIP renewals initiated and completed for a cohort in a given month using the “Unwinding Eligibility and Enrollment Data Reporting Template” (Unwinding Data Report).
- The data in this summary include metrics required by the Consolidated Appropriations Act, 2023 (CAA, 2023), as well as other state-reported data and calculations that provide additional context to understand renewal outcomes.
- For more information on this data set as well as methodologies and limitations, see the Data Sources and Metrics Definitions Overview under the [“Understanding the Data” tab](#).
- State-specific notes for the data can be found in the [Medicaid and CHIP CAA Reporting Metrics](#).
- Additional data are available at [Medicaid.gov/unwinding-data](https://www.Medicaid.gov/unwinding-data).

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **Medicaid and CHIP renewal outcomes are reported by cohort.** States report outcomes for all individuals in the month in which renewals for the cohort are due, even if some renewals were completed in a prior month.
- **States began unwinding in February, March, or April 2023** by initiating their first cohort of renewals.
- **The length of states' renewal process varies.** Most states take between 45 and 90 days to complete renewals for a cohort. As a result, states are completing renewals on different schedules and will report outcomes in different months.
- **As of November 30th, 2023, all states and the District of Columbia had completed at least one full cohort of unwinding-related renewals.**
- States have flexibility in how to distribute Medicaid and CHIP renewals during the unwinding period, and nearly half of states (22) elected to prioritize renewals for some or all individuals identified by the state as likely ineligible for Medicaid and/or CHIP.
- For more information on state renewal timelines and prioritization of renewals, please [see 2023 State Timelines for Initiating Unwinding-Related Renewals](#).

Context and Data Notes: Interpreting Renewal Outcomes

- Multiple factors, including state-adopted mitigations and other strategies, may influence renewal outcomes and reporting in a state. For example:
 - States with an *ex parte* mitigation strategy that uses data sources to complete a renewal after a form is sent may report those renewals as completed based on the return of a renewal form and underreport the number of individuals renewed on an *ex parte* basis.
 - Some states are temporarily holding some or all procedural terminations as a mitigation strategy to ensure compliance with federal renewal requirements or have voluntarily implemented a strategy to delay procedural terminations to conduct additional outreach. These states may report zero procedural terminations and/or a significantly higher share of pending renewals at the end of a reporting month.
 - Some states have restored eligibility for people initially found ineligible due to systems or other errors. This is frequently not identifiable in the data.
- Please consider these factors, states' distribution and prioritization of renewals, and other information when interpreting renewal outcomes and comparing information across states. Data limitations in the [Medicaid and CHIP CAA Reporting Metrics](#) provide additional state-specific information.
- For additional information, see:
 - [COVID-19 PHE Unwinding Section 1902\(e\)\(14\)\(A\) Waiver Approvals](#), and
 - [Summary of State Mitigation Strategies for Complying with Medicaid Renewal Requirements](#)

Context and Data Notes: Holding Procedural Terminations

- Among states that had a cohort of unwinding-related renewals due in the following month(s), these states paused some or all procedural terminations:
 - **March cohort:** Idaho
 - **April cohort:** Idaho, Oklahoma, and Wyoming
 - **May cohort:** Delaware, Kansas, Kentucky, Maine, West Virginia, and Wyoming
 - **June cohort:** Arkansas, District of Columbia, Delaware, Illinois, Iowa, Kansas, Kentucky, Maine, Michigan, Minnesota, Missouri, New Jersey, New York, Oklahoma, South Carolina, West Virginia, and Wyoming
 - **July cohort:** Arkansas, District of Columbia, Delaware, Illinois, Iowa, Kansas, Kentucky, Maine, Michigan, Minnesota, Missouri, New Jersey, New York, Oklahoma, South Carolina, West Virginia, and Wyoming
 - **August cohort:** District of Columbia, Delaware, Illinois, Kansas, Kentucky, Maryland, Maine, Michigan, New Jersey, New York, South Carolina, and Virginia
 - **September cohort:** Alaska, Colorado, District of Columbia, Delaware, Hawaii, Idaho, Illinois, Kansas, Kentucky, Maryland, Maine, Michigan, New Hampshire, New Jersey, New Mexico, Nevada, New York, Oregon, South Carolina, Virginia, Vermont, and West Virginia
 - **October cohort:** Alaska, Colorado, District of Columbia, Delaware, Illinois, Kansas, Kentucky, Maryland, Maine, Michigan, Minnesota, New Hampshire, New Jersey, New Mexico, Nevada, New York, Oregon, Vermont, and West Virginia
 - **November cohort:** Alaska, Colorado, District of Columbia, Delaware, Illinois, Kansas, Kentucky, Maine, Michigan, Minnesota, New Hampshire, New Jersey, New Mexico, Nevada, New York, Oregon, and Vermont
- States report renewal outcomes by cohort in the month the renewal is due. In most states, the effective date for procedural terminations is the beginning of the following month in which the renewal was due (e.g., procedural terminations for renewals due and reported in the month of March would have an effective termination date of April 1).

Notes:

- These data represent the outcomes of renewals due from March-November 2023 in all 50 states plus DC. Total renewals initiated to-date represents data from February-November 2023. Except for renewals initiated, data for MA from May-July 2023 are excluded due to reporting issues. Numbers and percentages may not sum due to rounding.
- Pending renewals to date reflect the sum of total pending renewals at the end of each reporting month and not the cumulative total of pending renewals as of the end of November. States may complete renewals pending in the month after the reporting month. Some states may have reinstated coverage for individuals who were terminated from Medicaid or CHIP in subsequent months. Those reinstatements are not reflected in the data.

Enrollment in Medicaid/CHIP and Marketplace Coverage

Changes in Enrollment in Medicaid/CHIP and the Marketplaces (Millions)

- In the November 2023 reporting period, Medicaid and CHIP enrollment is about 85.8 million and Marketplace enrollment is about 17.5 million.
- Enrollment across these programs (Medicaid, CHIP, and the Marketplaces) has declined by nearly 5.9 million (or about 5.4%) since March 2023 (a decrease by about 8.0 million for Medicaid and CHIP and an increase by about 2.2 million for the Marketplaces).

Medicaid and CHIP Enrollment and Disenrollment, March-November 2023

Month	Total Enrollment	Cumulative Change in Enrollment since February 2020	Cumulative Change in Enrollment since March 2023	Cumulative Disenrollment since February 2023

November 2023	85,815,827*	14,940,758	(8,034,913)	12,357,853

- Total Medicaid and CHIP enrollment declined by approximately 8 million people between March and November 2023.
- There were **10.8 million people disenrolled** from Medicaid and CHIP during the same relevant period, from March to October 2023, * indicating that some individuals may be re-enrolling or newly enrolling in Medicaid or CHIP coverage.

Notes:

- *Medicaid and CHIP disenrollments are effectuated in the subsequent month as are reported (e.g., October disenrollments are effectuated in November)
- Enrollment and disenrollment data are a combination of Medicaid and CHIP enrollment and do not include Basic Health Program (BHP) enrollment

Marketplace Enrollment, March-November 2023

Month	Total Enrollment
March 2023	15,390,817
April 2023	15,545,949
May 2023	15,641,742
June 2023	15,884,568
July 2023	16,129,595
August 2023	16,427,931
September 2023	16,832,610
October 2023	17,157,378
November 2023	17,543,742

- Total **Marketplace enrollment increased by about 2.2 million people** from March to November 2023.
- This includes enrollment for **HealthCare.gov and State-Based Marketplaces.**
- While we know that this total increase in Marketplace enrollment is not solely due to individuals leaving Medicaid and CHIP, monthly unwinding public reporting (available on data.Medicaid.gov) on coverage transitions to the Marketplace is **lagged and likely an undercount of transitions** due to the nature of matching administrative data sets across programs.
