Data Source: Statistical Enrollment Data System (SEDS) forms CMS-21E, CMS-64.21E, CMS-64.EC (07/23/14)

Notes: Data are reported by individual states and are representative of the unduplicated number of children ever-enrolled in Medicaid and CHIP as of July 23, 2014.

States may subsequently revise their current and/or historical data.

*With respect to Alaska's data reported in FY 2013: On 10/01/2013 Alaska transitioned to a new MMIS system. The FY 2013 SEDS report was prepared using data from the new system.

**Arizona's CHIP growth is related to the reopening of the program during the reporting period which resulted in a large percentage increase in CHIP enrollment.

Nevada and New York were combination programs in FY 2013 but did not report any Medicaid-expansion enrollees in SEDS.
