

FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

* - When "state" is referenced throughout this template it is defined as either a state or a territory.

***Disclosure**. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.

State/Territory: OK

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Rebecca Pasternik-Ikard

CHIP Program Name(s): All, Oklahoma

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2018 **(Note: Federal Fiscal Year 2018 starts 10/1/2017 and ends 9/30/2018)**

Contact Person/Title: Reginald (Reggie) Mason Sr. Research Analyst

Address: 4345 N. Lincoln Blvd.

City: Oklahoma State: OK Zip: 73015

Phone: 405-522-7773 Fax: 405-530-3230

Email: Reggie.Mason@okhca.org

Submission Date: 12/27/2018

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state's CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., **[500]** are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
 YES
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

FFS delivery system (aka SoonerCare Traditional) is a comprehensive health care plan for members who do not qualify for SoonerCare Choice. FFS (SoonerCare Traditional) members access services from contracted providers all over the state, whom OHCA pays on a fee-for-service basis to provide health care services.

Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
- YES
- N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

IO ESI Dependents are enrolled in various health plans through their parent's employers so they may be in Managed Care (HMO's). IO ESI adults receive Managed Care, IO ESI dependent children receive Managed Care

- 2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate "yes" or "no change" by marking the appropriate column.

For FFY 2018, please include only the program changes that are in addition to and/or beyond those required by the Affordable Care Act.

	Medicaid Expansion CHIP Program			Separate Child Health Program		
	Yes	No Change	N/A	Yes	No Change	N/A
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

S.(a)The State submitted a State Plan Amendment to the Title XXI State Plan on 6.29.18 to comply with the Mental Health Parity and Addiction Equity Act (MHPAEA) federal regulation. MHPAEA increases access to obtain services for persons with mental health and substance use disorders by reducing barriers that could limit coverage of behavioral health treatment and services. MHPAEA requires coverage of mental health and substance use disorders to be no more restrictive than the coverage generally available for medical/surgical conditions. Federal regulation requires Medicaid & CHIP programs to comply with parity requirements; the amendment submitted aims to comply with MHPAEA federal requirements as applicable within the Oklahoma Medicaid CHIP program.

Section II Program's Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state's general strategic objectives and performance goals.

Section IIA: Enrollment And Uninsured Data

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your state's 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2017	FFY 2018	Percent change FFY 2017-2018
CHIP Medicaid Expansion Program	190438	195570	2.69
Separate Child Health Program	10568	10780	2.01

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**

<https://www.kff.org/health-costs/press-release/50-state-survey-finds-medicaid-enrollment-tied-to-stronger-economy-and-new-eligibility-systems/>

Oklahoma's CHIP Medicaid Expansion program and Separate Child Health Program experienced only modest growth which mirror national trends (see link above).

2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	116	18.8	12.6	2.0
1998 - 2000	102	17.7	12.1	2.0
2000 - 2002	98	13.9	10.6	1.4
2002 - 2004	86	13.1	9.4	1.4
2003 - 2005	86	14.1	9.5	1.5
2004 - 2006	77	14.0	8.4	1.5
2005 - 2007	70	13.0	7.4	1.4
2006 - 2008	63	13.0	6.6	1.3
2007 - 2009	55	12.0	5.7	1.2
2008 - 2010	59	8.0	6.0	.8
2009 - 2011	62	9.0	6.3	.9
2010 - 2012	57	8.0	5.8	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	60	4.0	6.1	.4
2014	50	4.0	5.1	.4
2015	45	4.0	4.5	.4
2016	41	4.0	4.2	.4
2017	42	4.0	4.3	.4
Percent change 2016 vs. 2017	2.4%	N/A	2.4%	N/A

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**
<https://ccf.georgetown.edu/2018/11/21/nations-progress-on-childrens-health-coverage-reverses-course/>
 The small troubling increase in number/rate of uninsured children in Oklahoma again mirror national trends (see link above)

- B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. **[7500]**
 NA

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.
[7500]

- B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.
[7500]

- C. What are the limitations of the data or estimation methodology?
[7500]

- D. How does your state use this alternate data source in CHIP program planning?
[7500]

Enter any Narrative text related to Section IIA below. [7500]

Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2016 and FFY 2017) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2018).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.

Additional instructions for completing each row of the table are provided below.

A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- **New/revised:** Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- **Continuing:** Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- **Discontinued:** Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued. GAL

C. Status of Data Reported:

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional:** Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2018.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final:** Check this box if the data you are reporting are considered final for FFY 2018.
- **Same data as reported in a previous year’s annual report:** Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

D. Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

HEDIS® Version:

Please specify HEDIS® Version (example 2016). This field MUST be completed only when a user selects the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

E. Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

F. Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded). The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

G. Deviations from Measure Specification

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

H. Date Range: available for 2018 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

I. Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

J. Explanation of Progress:

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2019, 2020 and 2021. Based on your recent performance on the measure (from FFY 2016 through 2018), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

K. Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)

FFY 2016	FFY 2017	FFY 2018
<p>Goal #1 (Describe) Decrease the number of uninsured Oklahoma children by 2% within 5 years beginning 7/1/09, under 19 years of age, under 186% of FPL.</p>	<p>Goal #1 (Describe) Decrease the number of uninsured Oklahoma children by 2% within 5 years beginning 7/1/09, under 19 years of age, under 186% of FPL.</p>	<p>Goal #1 (Describe) Decrease the number of uninsured Oklahoma children by 2% within 5 years beginning 7/1/09, under 19 years of age, under 186% of FPL.</p>

<p>Other Comments on Measure:</p>	<p>Other Comments on Measure:</p>	<p>Other Comments on Measure:</p>

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

Assessing the quality of care for all children enrolled in Oklahoma Medicaid is a priority, thus there is no separation between the CHIP and TXIX population for these purposes at the OHCA. Currently the OHCA utilizes quality assessment and performance studies to report on the access and quality of care SoonerCare members receive in both the CHIP and TXIX populations. The OHCA conducts annual HEDIS reports focused on the access and quality of care received by the SoonerCare populations. These reports include the following HEDIS measures for our children and adolescent populations: lead screening, appropriate treatment for children with Upper Respiratory Infection (URI), annual dental visit, well child visits in the first 15 months of life, well child visits in the third, fourth, fifth, and sixth years of life, and children and adolescents' access to primary care practitioners. In addition to HEDIS reports, EPDST screening and ER provider profiles over the SoonerCare population are sent to providers on a semi-annual basis.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

The CHIP expansion population is integrated with the Medicaid population. Strategies for measurement and reporting on access, quality, and outcomes of care will continue with the ongoing activities outlined in question 1 above.

Currently, OHCA is developing an agency-wide Quality Improvement Plan (QIP). The plan will include various Quality Improvement (QI) activities and outcome measures.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

Because the CHIP expansion population is integrated with the Medicaid population there have not been any focused studies specifically targeting the CHIP population. However, there are reports that address the SoonerCare child population.

For example, the Quality of Care in the SoonerCare Program – Quality Measures is a bi-annual report that addresses: Access/Availability of Care; Effectiveness of Care; and Utilization. Also, the bi-annual CAHPS survey is used to gauge member satisfaction.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Enter any Narrative text related to Section IIB below. [7500]

NA

Section III: Assessment of State Plan and Program Operation

Please reference and summarize attachments that are relevant to specific questions

Please note that the numbers in brackets, e.g., [7500] are character limits in the State Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

The Oklahoma Health care Authority (OHCA) continue targeted efforts with our provider network as we continue to bring them more information and resources concerning topics such as LARCs (Long Acting Reversible Contraceptives) Tribal Government Relations, and a new initiative Opioid Education and Naloxone Distribution (OEND)

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

During this reporting period targeted visits were made to providers who provide LARCs in their practice. This initiative, called Focus Forward Oklahoma aims to provide comprehensive training for providers and their staff about the “best practices” for LARC usage. The target population for LARC utilization are females between the age of 12 and 18. A total of 591 practices were visited by staff to provide information concerning clinical training for providers and education about LARC coverage in the SoonerCare program.

Tribal Government Relations

The Oklahoma Health Care Authority’s Tribal Government Relations Unit continues to work with Tribal Governments and Health Systems with enrollment assistance. Staff regularly attends tribal health fairs and other outreach events in order to assist in the enrollment of potential tribal citizens and promote healthy life styles. Staff have met with individual Tribal Governments and Tribal Health System to provide training on OHCA’s Home View and Agency View enrollment systems.

OEND

Beginning in October 2016, OEND, a CHIP_HSI initiative, purchases medication that can prevent hospitalizations and deaths with the use of naloxone. Naloxone reverses the effects of an opioid overdose and is completely safe to use. The 13 high-risk, high-need counties identified throughout the State is where naloxone rescue kits will be distributed to at-risk individuals. As of September 2018, Opioid Education and Naloxone Distribution (OEND) services are available at 72 locations across the state. To date, more than 4,000 kits have been distributed to the public. In FY18, 23% of kits were distributed to or intended for youth age 19 and under. Most kits were distributed in Oklahoma and Tulsa counties. Cherokee, Creek, Potawatomie, and Wagoner counties also had high distribution rates. Most kits went to institutions such as libraries, apartment complexes, and businesses and 37% went to a friend or family member of a person who uses opioids. About 19% of all kits were given directly to the person who uses opioids.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

LARC, Tribal Government Relations and OEND

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes
 No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

Have these efforts been successful?

LARC

To date more than 150 providers have attended the training. There are currently an additional 70 providers who are enrolled in the training for FY 19.

Tribal Government Relations

Staff attended the annual health event at Riverside Indian School where approximately 500 students received health and dental screenings.

OEND

In FY2018, for the entire OEND program, there were 97 refills and people reported the previous kit was administered 74 times and 72 lives were saved.

How have you measured effectiveness?

LARC

A total of 591 practices were visited by staff to provide information concerning clinical training for providers and education about LARC coverage in the SoonerCare program. To date more than 150 providers have attended the training. There are currently an additional 70 providers who are enrolled in the training for FY 19.

OEND

In FY2018, for the entire OEND program, there were 97 refills and people reported the previous kit was administered 74 times and 72 lives were saved.

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]** 0

(Identify the data source used). **[7500]**

<https://www.insurekidsnow.gov/campaign/participation-rates/index.html>

<https://www.medicaid.gov/medicaid/by-state/stateprofile.html?state=oklahoma>

Enter any Narrative text related to Section IIIA below. **[7500]**

The links provided for #5 is the history of CHIP participation for 2013-2015 and CHIP enrollment increase As of August 2018. In addition see attachment: CHIP Fast Fact_SF2018.

Section IIIB: Substitution of Coverage (Crowd-out)

All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.

1. Does your program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No
 Yes
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?

3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**

4. List all exemptions to imposing the period of uninsurance **[1000]**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No
 Yes
 N/A

6. If answered yes to question 5, what database? **[1000]**

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]** 0

a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)*100]? **[5]** 0

8. Do you track the number of individuals who have access to private insurance?

- Yes
 No

9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

#2a NA

Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?

- Yes
 No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]**
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]**
2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.

Conducts follow-up with clients through caseworkers/outreach workers

Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]**

The Periodic Redetermination Letter is sent out 45 days before the end of current eligibility.

Other, please explain: **[500]**

Passive renewal – redetermination of eligibility without requiring information from the member if able to do so based on reliable information contained in the individual’s account or other more current information available to the agency, including information accessed through data bases.

3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. **[7500]**

The strategies have not been evaluated for effectiveness.

Section IIIC: Subpart B: Eligibility Data

Table 1. Data on Denials of Title XXI Coverage in FFY 2018

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2018. Please enter the data requested in the table below and the template will tabulate the requested percentages.

If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	6231	100
a. Total number of procedural denials	721	11.6
b. Total number of eligibility denials	5415	86.9
i. Total number of applicants denied for title XXI and enrolled in title XIX	2970	47.7
<input type="checkbox"/> (Check here if there are no additional categories)	95	1.5
c. Total number of applicants denied for other reasons Please indicate:		

2. Please describe any limitations or restrictions on the data used in this table:

NA

Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2018. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2018 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
 - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2018 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
 - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2018.

Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	197285	100%			
2. Total number of children screened for redetermination for title XXI	177965	90.21	100%		
3. Total number of children retained in title XXI after the redetermination process	110744	56.13	62.23		
4. Total number of children disenrolled from title XXI after the redetermination process	22657	11.48	12.73	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures	4468			19.72	
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria	17613			77.74	100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/>)	12589				71.48
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/>)	0				
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/>)	370				2.1
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/>)	4654				26.42
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)	576			2.54	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2018, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2018 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2018.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2018. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2018 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	564227	100%			
2. Total number of children screened for redetermination for title XIX	498562	88.36	100%		
3. Total number of children retained in title XIX after the redetermination process	455284	80.69	91.32		
4. Total number of children disenrolled from title XIX after the redetermination process	31235	5.54	6.27	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures	5204			16.66	
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria	24656			78.94	100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/>)	13009				52.76
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/>)	11647				47.24
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)	1375			4.4	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2018, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children

who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2018 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2018.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2018. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2018 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

Because the measure is designed to capture continuity of coverage in title XIX and title XXI beyond one year of enrollment, the measure collects data for 18 months of enrollment. This means that reporting spans two CARTS reports over two years. The duration measure uses a cohort of children and follows the enrollment of the same cohort of children for 18 months to measure continuity of coverage. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

The FFY 2018 CARTS report is the first year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018. For the FFY 2018 report, States will only report on lines 1-4a of the tables. States will continue to report on the same table in the FFY 2019 CARTS report. In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a. The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

Instructions: For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2018 report you will only enter data on line 1 about the total children newly enrolled, and lines 2-4a related to the 6-month enrollment status of children identified on line 1. Line 1 should be populated with data on the children newly-enrolled in January, February, and March 2018. Lines 2-4a of the tables should also be populated with information about these same children 6 months later (as of June 2018 for children first identified as newly enrolled in January 2018, as of July 2018 for children identified as newly enrolled in February 2018, and as of August 2018 for children identified as newly enrolled in March 2018). **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

Note that all data must sum correctly in order to save and move to the next page. The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to the row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so for data reported at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for. That is, regardless of how the enrollment numbers are distributed between line 2-10 in the continuously enrolled, break in coverage but re-enrolled, and disenrolled categories and across the age category columns at each time period, the total number of children accounted for in each time period should add up to the number in line 1, column 2 "All Children Ages 0-16."

Rows numbered with an “a” (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.

Table 3 a. Duration Measure of Children Enrolled in Title XIX

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

Table 3a. Duration Measure, Title XIX	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XIX in the second quarter of FFY 2018	27060	100%	8598	100%	7945	100%	7808	100%	2709	100%
Enrollment status 6 months later

Definitions:

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
 - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
- 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
 - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
 - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
- 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
- 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.
10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from title XIX.

Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2018	6547	100%	531	100%	1491	100%	2808	100%	1717	100%

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
Enrollment status 6 months later										
2. Total number of children continuously enrolled in title XXI	5667	86.56	463	87.19	1263	84.71	2428	86.47	1513	88.12
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	109	1.66	11	2.07	25	1.68	43	1.53	30	1.75
3.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input checked="" type="checkbox"/>)										
4. Total number of children disenrolled from title XXI	771	11.78	57	10.73	203	13.62	337	12	174	10.13
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)	60	0.92	8	1.51	18	1.21	22	0.78	12	0.7
Enrollment status 12 months later										
5. Total number of children continuously enrolled in title XXI										
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
7. Total number of children disenrolled from title XXI										
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										
Enrollment status 18 months later										
8. Total number of children continuously enrolled in title XXI										
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Definitions:

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018

3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.

4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.

5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.

7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
 - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
 - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.

8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019

9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
 - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

Enter any Narrative text related to Section IIIC below. **[7500]**

Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?

a. Cost sharing is tracked by:

- Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

The proof of burden is on the members to keep track of their own out of pocket costs by submitting a copay receipt for reimbursement. The state verifies via the Online Enrollment system.

- Health Plan(s)
 State
 Third Party Administrator
 N/A (No cost sharing required)
 Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?
 Yes
 No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

Providers are not advised/or notified of copay responsibility. Members are reimbursed at later date. The burden of proof is on the members. They pay the cost sharing and then ask for reimbursement after the fact.

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

0

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

- Yes
 No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

- Yes
 No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

N/A

Enter any Narrative text related to Section IIID below. **[7500]**

Section IIIE: Employer sponsored insurance Program (including Premium Assistance)

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.
 No, skip to Program Integrity subsection.

Children

- Yes, Check all that apply and complete each question for each authority
- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))
 - Additional Premium Assistance Option under CHIP state plan (2105(c)(10))
 - Section 1115 Demonstration (Title XXI)

Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP state plan (2105(c)(10))
 - Section 1115 demonstration (Title XXI)
2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)
- Parents and Caretaker Relatives
 - Pregnant Women
3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**
- Provides premium assistance for commercial group coverage. The subsidy payments go to the small employer. Employer pays commercial plan.
4. What benefit package does the ESI program use? **[7500]**
- Available commercial plan
5. Are there any minimum coverage requirements for the benefit package?
- Yes
 - No

6. Does the program provide wrap-around coverage for benefits?

- Yes
 No

7. Are there limits on cost sharing for children in your ESI program?

- Yes
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
 No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**? Subscriber premium payments are automatically tracked in MMIS (added to the household out of pocket panel). Members also submit claims with documentation for co-payments, co-insurance and deductible. These claims are added to the out of pocket panels. Once the amount exceeds 5% of household income, members are issued a warrant for the amount of those claims.

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

0 Number of childless adults ever-enrolled during the reporting period

0 Number of adults ever-enrolled during the reporting period

464 Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2018.

Children 204
Parents 0

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

Increasing Enrollment

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

Insure Oklahoma continues to improve the Online Enrollment platform.

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

Insure Oklahoma continues to make changes to the Online Enrollment platform in hopes to make it more user friendly. Insure Oklahoma has also secured three FTE that will be dedicated to outreach to continue to grow enrollment.

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

The Oklahoma Health Care Authority (OHCA) does not track/measure.

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child	85		15
Parent	60		15

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

25% of employee premium

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
Children	186 % of FPL [5]	200 % of FPL [5]
Parents	1 % of FPL [5]	200 % of FPL [5]

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes
 No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes
 No

22. Can you cap enrollment for your program?

- Yes
 No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Insure Oklahoma has merged into one Online Enrollment platform to make enrollment for multiple programs a one stop shop.

Enter any Narrative text related to Section III E below. **[7500]**

Question # 8 does not require a response because we do not cover adults in ESI with TXXI funding. We do not track/ or measure question # 17.

Section III F: Program Integrity

COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

- (1) prevention:
 Yes
 No
- (2) investigation:
 Yes
 No
- (3) referral of cases of fraud and abuse?
 Yes
 No

Please explain: **[7500]**

OHCA's MMIS has an extensive pre-payment edit system that checks all claims against specified criteria prior to payment which will result in either continued processing or denial of claims. The system compares the provider information against eligibility criteria to ensure that the provider was active at the time service was given and has been approved for payment. Should the provider have a lapsed or terminated contract, the claim will be denied

Preliminary and Full Investigations.

Preliminary investigations are considered a necessary audit step prior to undertaking a full investigation. A preliminary investigation is initiated whenever a complaint or questionable practice is identified. For cases in which fraud and / or abuse is suspected, that information is provided to OHCA's Office of Legal Counsel and, where appropriate, a referral is made by the Office of Legal Counsel to the appropriate law enforcement agency. Program Integrity Referral

Forms are utilized to notify the Oklahoma Department of Human Services Office of Inspector General (OKDHS OIG). Notification in writing is submitted to MFCU when a provider is in question.

Investigation Procedures.

Providers. The purpose of the preliminary provider investigation is to determine whether further investigation is warranted and whether fraud and / or abuse is suspected. The actual methods used in preliminary investigations vary depending on the situation. Techniques that may be used include queries, reports and data mining to identify unusual dollar amounts, units of service and / or billing patterns that may indicate that further investigation is necessary. Procedures applied depend on the issue, but often large scale data extracts are performed and analyzed, on-site reviews are performed, medical records are requested and reviewed, billing patterns analyzed, etc. For the preliminary investigation of a single provider / member, a query is developed to review the billing or service utilization behaviors of the provider / member. If data indicates unusual or unexpected behavior, other actions are taken such as analysis of previous reviews and findings as well as claimed dollars and service utilization. This information is evaluated to determine whether a full investigation is warranted.

For preliminary investigations on populations such as provider types or provider billing practices, once the issue is isolated a universe of claims is created based on those that could be affected by the review. From this universe, the number of providers and claim dollars impacted by the errors are identified. For new areas of review, onsite reviews are conducted to validate the query results. An example of a preliminary investigation would be the concern that a provider is up-coding. In this case, Program Integrity (PI) staff develops a query to report the span of CPT codes utilized by the provider. If the query results in only high level codes claimed, with no mid- or lower-level codes billed, further investigation takes place. Further confirmation would include review of the provider contract, the amounts claimed and paid, and other audits or reviews evaluating the provider's behaviors. This information is taken to the Case Selection Committee for discussion and identification of next steps.

If fraud or abuse is suspected, the matter is referred to the OHCA Office of Legal Counsel, which makes the final determination as to whether the matter should be referred to MFCU or other law enforcement agency for full investigation. Where the referral is based on an audit, the MFCU is provided copies of PI audit documentation, findings and appeals results.

Eligibility referrals are screened to determine potential fraud, waste, or abuse, and associated claims are reviewed. Member eligibility is reviewed and compared to referrals received using a variety of tools and data sources. The review includes a determination of whether immediate or delayed case action is necessary, as well as a decision to pursue further investigation and/or seek remedy to eligibility inaccuracies. Information requests are issued through Program Integrity and through the online eligibility MMIS system depending on circumstances presented. Once the investigation is complete the eligibility is updated, closed, or left unchanged based on reviewer findings. Case actions occur through the online eligibility system, and appropriate notices are issued. Hearings are completed through normal channels for negative actions related to eligibility. Referrals to OIG may occur when fraud is suspected after review by Member Audit.

Do managed health care plans with which your program contracts have written plans?

- Yes
 No

Please Explain: **[500]**

NA

2. For the reporting period, please report the
146 Number of fair hearing appeals of eligibility denials
7 Number of cases found in favor of beneficiary
3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

117 Number of cases investigated

10 Number of cases referred to appropriate law enforcement officials

Provider Billing

117 Number of cases investigated

10 Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

402 Number of cases investigated

18 Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

OHCA is contracted with an entity that performs investigations on eligibility related to a portion of the Medicaid programs approved through OKDHS. The entity is required to report to OHCA and is subject to review of records by OHCA or audit by the State Auditor and Inspector.

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

NA

Enter any Narrative text related to Section IIIF below. **[7500]**

In regards to provider fraud investigations and any subsequent referrals to law enforcement, OHCA does not differentiate or distinguish between the CHIP and Medicaid programs. *Additionally, OHCA does not categorize provider fraud referrals based on the type of potential fraud, i.e. provider credentialing v. provider billing. A provider fraud referral can contain multiple different reasons and OHCA does not

separately track referrals based on the type of provider fraud. Eligibility related investigations and referrals are categorized by program type.

Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2018	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Individuals Enrolled for at Least 90 Continuous Days¹	143546	1266	8687	14546	31577	42287	45183
Total Enrollees Receiving Any Dental Services² [7]	76479	13	1538	6495	18625	25080	24728
Total Enrollees Receiving Preventive Dental Services³ [7]	70611	1	1132	5817	17603	23599	22459

¹ **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

² **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

³ **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2018	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services ⁴ [7]	35988	10	144	1808	8430	11728	13868

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth⁵? [7]

1029

2. Does the state provide supplemental dental coverage?

Yes

No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section III G below. [7500]

⁴ **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

⁵ **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
 - Entire population not covered
 - Partial population not coveredExplain the partial population not covered:
- Data not available
 - Explain why data not available
 - Budget constraints
 - Staff constraints
 - Data inconsistencies/accuracyPlease explain:
 - Data source not easily accessibleSelect all that apply:
 - Requires medical record review
 - Requires data linkage which does not currently exist
 - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

Definition of Population Included in the Survey Sample:

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

Which Version of the CAHPS® Survey was Used?

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain:

Which Supplemental Item Sets were Included in the Survey?

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain:

Which Administrative Protocol was Used to Administer the Survey?

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain:

Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan

Pursuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.

1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?

Yes, please answer questions below.

No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state’s CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program ⁶
Health Service Initiative Request #1: Long Acting Reversible Contraceptive (LARC). The initiative promotes education to the targeted age group regarding the use of LARCs. It aligns strategies across agencies as well as private and public payers in order to promote efficient utilization. This effort increases the population’s access and utilization of LARC devices leading to a decrease in unwanted pregnancies as well as decrease costs to the Medicaid program.	18 and younger	196,799	100%

⁶ The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program ⁶
<p>Health Service Initiative Request #2: The Long Acting Reversible Contraceptive (LARC) devices Health Service Initiative (HSI) will formulate a concerted effort to address the problem of unintended pregnancy and promote LARC devices. The State proposes to spearhead a state-wide effort to promote provider education and training regarding LARC devices and align strategies across agencies as well as private and public payers in order to support efficient utilization.</p>	18 and younger	196,799	100%
<p>Health Service Initiative Request #3: This initiative purchases medication that can prevent hospitalizations and deaths with the use of Naloxone, which reverses the effects of an opioid overdose and is completely safe to use. The 13 high-risk, high-need counties identified throughout the State is where Naloxone rescue kits will be distributed to at-risk individuals.</p>	18 and younger	999	15%

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program ⁶
Health Service Initiative Request#4: This initiative implements an informed and coordinated approach to ensuring quality of care for children in the foster care system that is prescribed psychotropic medications. This method includes improvements to our current health portal.	18 and younger	0	0
Health Service Initiative Request #5: This initiative combines the standards of care with current evidence and presents this in a nonbiased manner known as Academic Detailing (AD). The AD program results in measurable cost savings to OHCA through improved prescribing and a decrease in the number of prior authorizations submitted. (See attachment)	18 and younger	1063	

3) Please define a metric for each of your state's HSI programs that is used to measure the program's impact on improving the health of low-income children. In the table below, please list the HSI program title

in the first column, and include a metric used to measure that program’s impact in the second column. In the third column, please provide the outcomes for metrics reported in the second column. Reporting on outcomes is optional as states work to develop metrics and collect outcome data. States that are already reporting to CMS on such measures related to their HSI program(s) do not need to replicate that reporting here and may skip to Section IV.

HSI Program	Metric	Outcome
#5: Academic Detailing	Second-generation antipsychotic medication prior authorizations submitted	33.49 % decrease
#5: Academic Detailing	Second-generation antipsychotic medication claims (pre-rebate \$ amount)	38.56 % decrease
#5: Academic Detailing	Second-generation antipsychotic, number of medication claims, age 0-4	65.28 % decrease

Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2018. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

Benefit Costs	2018	2019	2020
Insurance payments			
Managed Care	206225538	209278289	212142179
Fee for Service	19491725	19055227	18628503
Total Benefit Costs	225717263	228333516	230770682
(Offsetting beneficiary cost sharing payments)			
Net Benefit Costs	\$ 225717263	\$ 228333516	\$ 230770682

Administration Costs	2018	2019	2020
Personnel			
General Administration	8073305	10322773	10464036
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other (e.g., indirect costs)			
Health Services Initiatives	772094	3552165	3552165
Total Administration Costs	8845399	13874938	14016201
10% Administrative Cap (net benefit costs ÷ 9)	25079696	25370391	25641187

	2018	2019	2020
Federal Title XXI Share	226751725	234142912	214702575
State Share	7810937	8065542	30084308
TOTAL COSTS OF APPROVED CHIP PLAN	234562662	242208454	244786883

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

Yes. Due to delay in Congress action on reauthorizing and extending the CHIP program for upcoming federal fiscal years beginning October 1, 2017.

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2018	132692	\$154
2019	135151	\$157
2020	137655	\$156

A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2018	9786	\$191
2019	9688	\$188
2020	9533	\$187

Enter any Narrative text related to Section IV below. **[7500]**

The estimate for FFY-2018 and FFY-2019 are based on the assumption of CHIP program will be reauthorized by Congress for the next five years thru 2022 and maintain the ACA's 23 percentage-point increase in the enhanced federal match in FY 2018 and FY 2019.

Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

OHCA faced many challenges during the reporting period. The legislature was called into two Special Session as it looked for ways to fund budget shortfalls facing many state agencies. In December 2017, CMS had also issued a \$31 million deferral to OHCA for supplemental payments made to state medical schools.

In mid-January, OHCA and state universities began work on a Workforce Development Amendment to the 1115a waiver. On January 19, 2018, OHCA submitted an amendment to CMS that would allow supplemental payments to medical schools and offer an OHCA approved physician qualified loan repayment program. On April 17, 2018, CMS notified OHCA that it would not be approving its 1115a Workforce Development Amendment request.

The 2018 legislative session ended with OHCA being appropriated \$1.1 billion for SFY19 and being directed to raise provider rates. With an increased FMAP and improving Oklahoma economy, OHCA's future budget outlook looks positive.

With a lot of help from Oklahoma's energy industries, the state's economy has improved over the last year. Other factors that have stabilized economic outlook include the legislature's approval of an historic revenue package, improved budgeting practices, and below-average debt burden. The future outlook for the economy remains stable and reflects an expectation of modest economic growth, despite continued reliance on the oil and gas sector, and the stabilization of the state's finances driven by recent growth.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

OHCA has faced many budgetary challenges during the reporting period. With a budget shortfall, OHCA had to plan for possible rate reductions and service cuts while the legislature went into two special sessions to identify ways to fund budget shortfalls. While the legislature worked to find ways to adequately fund state programs, the Oklahoma economy was also improving, which increased state revenues.

In federal fiscal year 2019, which starts in October, Oklahoma's FMAP will be 62.38, its highest federal share since 2014, and up 3.81 points from 58.57 in 2018. Projections suggest that Oklahoma will see the largest FMAP increase in 2020 as well, bringing our federal share of Medicaid funding to 65.20 percent. This increase in federal funding will go a long way in offsetting the budget challenges of the last several years.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

The following paragraphs describe a few of Oklahoma's current and ongoing accomplishments.

Health Service Initiative Request #1:

The(LARC) devices HSI will address a state-wide effort to promote education to the 18 and younger targeted age group. The initiative will align strategies across agencies as well as private and public payers in order to promote efficient utilization. This effort will increase the target population's access and utilization of LARC devices leading to a decrease in unwanted pregnancies as well as decrease costs to the Medicaid program.

Health Service Initiative Request #2:

The LARC devices Health Service Initiative (HSI) will formulate a concerted effort to address the problem of unwanted pregnancy and promote LARC devices. The State proposes to spearhead a state-wide effort to promote provider education and training regarding LARC devices and align

strategies across agencies as well as private and public payers in order to support efficient utilization. The State will contract with an entity to provide training and education for other payers, medical schools, health departments, and stakeholders in order to increase availability and usage of LARC devices while decreasing the barriers of LARC device usage in female Oklahomans under the age of 19.

Health Service Initiative Request #3:

Oklahoma leads the nation in non-medical use of prescription painkillers, with more than 8% of the population aged 12 and older abusing/misusing painkillers. It is also one of the leading states in prescription painkiller sales per capita. Both behaviors have resulted in a large number of hospitalizations and overdose deaths among the States' residents. An increasingly popular medication that can prevent the hospitalizations and deaths is Naloxone, which reverses the effects of an opioid overdose and is completely safe to use. However, the State does not currently have a comprehensive, centralized overdose prevention program to pay for and distribute it. The State has identified 13 high-risk, high-need counties where Naloxone rescue kits will be distributed to at-risk individuals 19 years of age and younger. The rescue kits will be distributed by CCARCs and OTPs within the identified communities. These two entities will contract with the ODMHSAS which will provide the funding and training. Monitoring will be provided jointly by the OHCA and ODMHSAS.

Health Service Initiative Request #4:

The(OHCA) and the(OKDHS) would like to implement an informed and coordinated approach to ensuring quality of care for children in the foster care system that are prescribed psychotropic medications. The methods for achieving this include additional improvements to our current health portal, the creation of an advisory committee of community experts to identify best practices; identification of barriers and improving current data matching; and the development of training and outreach for foster parents, health care providers, and child welfare workers in order to improve services to all children in the foster care system under the age of 19.

Health Service Initiative Request #5:

The State Medicaid agency is responsible for controlling costs of state purchased health care while assuring that standards of care are met as part of a progressive system. Combining standards of care with current evidence and presenting these in a nonbiased manner is known as(AD). It is anticipated that the AD program will result in measurable cost savings to OHCA through improved prescribing according to existing evidence and a decrease in the number of prior authorizations submitted. Over the long term, it is expected that improved prescribing will result in improved patient outcome and decreased burden on the healthcare system. The 15-18 month pilot phase of the AD program will be a targeted intervention aimed at improving evidence-based prescribing of(ADHD) medications and atypical antipsychotic medications for Medicaid members under 18 years of age. Counties which have high utilization of the initial target medications will be selected for the intervention. Prescribers within those counties will be chosen from non-specialists. A specially trained pharmacist will make an appointment with the selected prescriber to go over the guidelines for appropriate prescribing within the targeted therapeutic category and provide resources as needed.

Health Service Initiative Request #6

Individuals with Sickle Cell disease (SCD) experience lifelong complications including anemia, infections, stroke, tissue damage, organ failure, intense painful episodes, and premature death. These debilitating symptoms and the complex treatment needs of people living with SCD often limit their education, career opportunities, and quality of life. In Oklahoma, approximately 1,500 individuals enrolled in Sooner Care are impacted by SCD and its inherited disorders. Individuals living with SCD face a highly-fragmented system of care and health disparities in access and health outcomes. In this project, a newborn kit is designed to help new moms integrate into the sickle cell community, make connections with other parents/caregivers, ask the right questions and begin the lifelong journey of self-education, self-care management and knowing that they are not alone. A separate care kit is developed for children ages 6 to 18 to address isolation and depression for the child/youth and provide parents/caregivers with information that will assist them in identifying symptoms that their child/youth may be experiencing.

Health Service Initiative Request #7

In 2015, there were 88 infants in Oklahoma that died before their first birthday due to(SIDS)and(SUID); this was an increase from 67 deaths the previous year. This project seeks to increase the number of vulnerable infants that use a safe sleep environment during their first year of life. OHCA will work in partnership with the OSDH expand a current effort working with delivery hospitals on safe sleep for newborns. Newborns assessed with a need will be eligible to receive a safe sleep kit to increase access to a safe sleep environment during their first year. The HSI funding will be used to cover the costs of the crib kits for newborns and a vendor for hospital recruitment and follow-up surveys.

Health Service Initiative Request #8

Nearly half (45.7%) of all pregnancies in Oklahoma are unintended. In teens the number of unintended pregnancies is around 82%. Oklahoma experiences the 2nd highest teen birth rate in 15-19 year olds, and 1 in every 5 teen births is a subsequent birth. Pregnant and parenting teens are less likely to finish school, and more likely to live in poverty. Additionally, Medicaid is the principal source of payment for 9 of 10 subsequent births to teens in Oklahoma. Around 40% of unintended pregnancies are estimated to be the result of no use or misuse of contraception. Therefore, increasing access to highly effective forms of contraception such as long-acting reversible contraceptives (LARC) is a strategy that has shown promise in reducing unintended pregnancies. Through the use of HSI funding and the collaborative effort between the(OHCA) and the(OSDH), long-acting reversible contraceptives (LARC) will be purchased for health department locations statewide to increase access to low maintenance highly effective contraceptive methods and to decrease the number of unintended pregnancies in Oklahoma for uninsured individuals.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

OHCA is also planning and looking for ways to continue initiatives begun with the help of CHIP HSI funds and to look into new initiatives that could take advantage of CHIP HSI funding opportunities.
