

UTAH*MAGI Adjusted AFDC Payment Standard as of July 1, 1996*

Utah used state-based data to determine the average disregard amounts for 1931 families, and what percent of the FPL that would be. That percentage was then used to determine the dollar equivalent needed to increase the 1996 standard to set the minimum income limit.

The percentage of FPL increase determined using State Based data was 6%

Normal rounding is used to calculate the dollar equivalent of the FPL increase
