State Plan Amendment (SPA) #: WV/3: /2242

This file contains the following documents in the order listed:

- 1) Approval Letter
- 2) State Plan Pages

Children and Adults Health Programs Group

November 10, 2021

Jeff Nelson
CHIP Director
Division of Medicaid and Health Financing
P.O. Box 143101
Salt Lake City, UT 84114-3101

Dear Mr. Nelson:

Your title XXI Children's Health Insurance Program (CHIP) state plan amendment (SPA) UT-18-0020 submitted on June 30, 2018 with additional information submitted on November 9, 2021 has been approved. UT-18-0020 implements mental health parity requirements to ensure that treatment limitations applied to mental health (MH) and substance use disorder (SUD) benefits are no more restrictive than those applied to medical/surgical (M/S) benefits. This SPA has an effective date of July 1, 2017, except for the change noted below.

Section 2103(c)(7)(A) of the Social Security Act (the Act), as implemented through regulations at 42 CFR 457.496(d)(3)-(5), requires states that provide both M/S and MH/SUD benefits to ensure that financial requirements (FRs) and treatment limitations applied to MH/SUD benefits covered under the state child health plan are consistent with the mental health parity requirements of section 2705(a) of the Public Health Service Act, in the same manner that such requirements apply to a group health plan. Utah demonstrated compliance by providing the necessary assurances and supporting documentation that the state's application of FRs and treatment limitations to MH/SUD benefits are consistent with section 2103(c)(7)(A) of the Act. The state also removed FRs applicable to behavioral health services provided in an urgent care center to come into compliance with parity regulations, effective July 1, 2021.

This approval relates only to benefits provided under the CHIP state plan; Medicaid benefits will be analyzed separately.

Your title XXI project officer is Ms. Joyce Jordan. She is available to answer questions concerning this amendment and other CHIP-related issues. Her contact information is as follows:

Centers for Medicare & Medicaid Services
Center for Medicaid and CHIP Services
Mail Stop: S2-01-16

Baltimore, MD 21244-1850
Telephone: (410) 786-3413
E-mail: Joyce.Jordan@cms.hhs.gov

Page 2 – Mr. Jeff Nelson

If you have any questions, please contact Meg Barry, Director, Division of State Coverage Programs, at (410) 786-1536. We look forward to continuing to work with you and your staff.

Sincerely,

/Signed by Amy Lutzky/

Amy Lutzky
Deputy Director

Proposed implementation date: July 1, 2016

SPA #20 Purpose of SPA: CHIP Mental Health Parity and Addiction Equity Act Analysis, Removal of Co-Payment Requirements for Residential Treatment and the Removal of Co-payment Requirements for Mental Health and Substance Use Disorder Services in an Urgent Care Clinic

Proposed effective date: July 1, 2021

Proposed implementation date: July 1, 2021

SPA# 21, Purpose of SPA: Update CHIP benefits

Proposed effective date: July 1, 2019

Proposed implementation date: July 1, 2019

SPA# 22, Purpose of SPA: Add CHIP Disaster Relief Plan

Proposed effective date: March 1, 2020

Proposed implementation date: March 1, 2020

SPA# 24, Delay timeliness requirements on ex parte renewals.

Proposed implementation date: February 1, 2021

- 6.2.10.** Inpatient mental health services, other than services described in 6.2.18., but including services furnished in a state-operated mental hospital and including residential or other 24-hour therapeutically planned structural services (Section 2110(a)(10))

Scope of Coverage

Inpatient and outpatient services are covered. Medically necessary services from contracted hospitals, residential treatment centers, inpatient pain clinics, day treatment facilities or intensive outpatient programs are covered.

- 6.2.11.** Outpatient mental health services, other than services described in 6.2.19, but including services furnished in a state-operated mental hospital and including community-based services (Section 2110(a)(11))

Scope of Coverage

Inpatient and outpatient services are covered. Medically necessary services from contracted hospitals, residential treatment centers, inpatient pain clinics, day treatment facilities or intensive outpatient programs are covered.

- 6.2.12.** Durable medical equipment and other medically-related or remedial devices (such as prosthetic devices, implants, eyeglasses, hearing aids, dental devices, and adaptive devices) (Section 2110(a)(12))

Scope of Coverage

allowed to the extent permitted by HIPAA/ERISA. If the State is contracting with a group health plan or provides benefits through group health coverage, describe briefly any limitations on pre-existing conditions.
Previously 8.6

6.2- MHPAEA Section 2103(c)(6)(A) of the Social Security Act requires that, to the extent that it provides both medical/surgical benefits and mental health or substance use disorder benefits, a State child health plan ensures that financial requirements and treatment limitations applicable to mental health and substance use disorder benefits comply with the mental health parity requirements of section 2705(a) of the Public Health Service Act in the same manner that such requirements apply to a group health plan. If the state child health plan provides for delivery of services through a managed care arrangement, this requirement applies to both the state and managed care plans. These requirements are also applicable to any additional benefits provided voluntarily to the child health plan population by managed care entities and will be considered as part of CMS's contract review process at 42 CFR 457.1201(l).

6.2.1- MHPAEA Before completing a parity analysis, the State must determine whether each covered benefit is a medical/surgical, mental health, or substance use disorder benefit based on a standard that is consistent with state and federal law and generally recognized independent standards of medical practice. (42 CFR 457.496(f)(1)(i))

Response: Please see the attached covered services section of the CHIP contracts.

6.2.1.1- MHPAEA Please choose the standard(s) the state uses to determine whether a covered benefit is a medical/surgical benefit, mental health benefit, or substance use disorder benefit. The most current version of the standard elected must be used. If different standards are used for different benefit types, please specify the benefit type(s) to which each standard is applied. If “Other” is selected, please provide a description of that standard.

International Classification of Disease (ICD) **SelectHealth only.**

Diagnostic and Statistical Manual of Mental Disorders (DSM)

SelectHealth only.

State guidelines (Describe: **Molina uses the contract with the State to determine whether a covered benefit is M/S or MH/SUD. SelectHealth uses state guidelines when appropriate.**)

Other (Describe: **SelectHealth uses procedures and provider specialty.**)

6.2.1.2- MHPAEA Does the State provide mental health and/or substance use disorder benefits?

Yes

No

Guidance: If the State does not provide any mental health or substance use disorder benefits, the mental health parity requirements do not apply ((42 CFR 457.496(f)(1)). Continue on to Section 6.3.

6.2.2- MHPAEA Section 2103(c)(6)(B) of the Social Security Act (the Act) provides that to the extent a State child health plan includes coverage of early and periodic screening, diagnostic, and treatment services (EPSDT) defined in section 1905(r) of the Act and provided in accordance with section 1902(a)(43) of the Act, the plan shall be deemed to satisfy the parity requirements of section 2103(c)(6)(A) of the Act.

6.2.2.1- MHPAEA Does the State child health plan provide coverage of EPSDT? The State must provide for coverage of EPSDT benefits, consistent with Medicaid statutory requirements, as indicated in section 6.2.26 of the State child health plan in order to answer “yes.”

Yes

No

Guidance: If the State child health plan *does not* provide EPSDT consistent with Medicaid statutory requirements at sections 1902(a)(43) and 1905(r) of the Act, go to Section 6.2.3- MHPAEA to complete the required parity analysis of the State child health plan.

If the state *does* provide EPSDT benefits consistent with Medicaid requirements, please continue this section to demonstrate compliance with the statutory requirements of section 2103(c)(6)(B) of the Act and the mental health parity regulations of 42 CFR 457.496(b) related to deemed compliance. Please provide supporting documentation, such as contract language, provider manuals, and/or member handbooks describing the state's provision of EPSDT.

6.2.2.2- MHPAEA EPSDT benefits are provided to the following:

All children covered under the State child health plan.

A subset of children covered under the State child health plan.

Please describe the different populations (if applicable) covered under the State child health plan that are provided EPSDT benefits consistent with Medicaid statutory requirements.

Guidance: If only a subset of children are provided EPSDT benefits under the State child health plan, 42 CFR 457.496(b)(3) limits deemed compliance to those children only and Section 6.2.3-MHPAEA must be completed as well as the required parity analysis for the other children.

6.2.2.3- MHPAEA To be deemed compliant with the MHPAEA parity requirements, States must provide EPSDT in accordance with sections 1902(a)(43) and 1905(r) of the Act (42 CFR 457.496(b)). The State assures each of the following for children eligible for EPSDT under the separate State child health plan:

- All screening services, including screenings for mental health and substance use disorder conditions, are provided at intervals that align with a periodicity schedule that meets reasonable standards of medical or dental practice as well as when medically necessary to determine the existence of suspected illness or conditions. (Section 1905(r))

All diagnostic services described in 1905(a) of the Act are provided as needed to diagnose suspected conditions or illnesses discovered through screening services, whether or not those services are covered under the Medicaid state plan. (Section 1905(r))

All items and services described in section 1905(a) of the Act are provided when needed to correct or ameliorate a defect or any physical or mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the Medicaid State plan. (Section 1905(r)(5))

Treatment limitations applied to services provided under the EPSDT benefit are not limited based on a monetary cap or budgetary constraints and may be exceeded as medically necessary to correct or ameliorate a medical or physical condition or illness. (Section 1905(r)(5))

Non-quantitative treatment limitations, such as definitions of medical necessity or criteria for medical necessity, are applied in an individualized manner that does not preclude coverage of any items or services necessary to correct or ameliorate any medical or physical condition or illness. (Section 1905(r)(5))

EPSDT benefits are not excluded on the basis of any condition, disorder, or diagnosis. (Section 1905(r)(5))

The provision of all requested EPSDT screening services, as well as any corrective treatments needed based on those screening services, are provided or arranged for as necessary. (Section 1902(a)(43))

All families with children eligible for the EPSDT benefit under the separate State child health plan are provided information and informed about the full range of services available to them. (Section 1902(a)(43)(A))

Guidance: For states seeking deemed compliance for their entire State child health plan population, please continue to Section 6.3. If not all of the covered populations are offered EPSDT, the State must conduct a parity analysis of the benefit packages provided to those populations. Please continue to 6.2.3- MHPAEA.

Mental Health Parity Analysis Requirements for States Not Providing EPSDT to All Covered Populations

Guidance: The State must complete a parity analysis for each population under the State child health plan that is not provided the EPSDT benefit consistent with the

requirements 42 CFR 457.496(b). If the State provides benefits or limitations that vary within the child or pregnant woman populations, states should perform a parity analysis for each of the benefit packages. For example, if different financial requirements are applied according to a beneficiary's income, a separate parity analysis is needed for the benefit package provided at each income level.

Please ensure that changes made to benefit limitations under the State child health plan as a result of the parity analysis are also made in Section 6.2.

6.2.3 MHPAEA In order to conduct the parity analysis, the State must place all medical/surgical and mental health and substance use disorder benefits covered under the State child health plan into one of four classifications: Inpatient, outpatient, emergency care, and prescription drugs. (42 CFR 457.496(d)(2)(ii); 42 CFR 457.496(d)(3)(ii)(B))

6.2.3.1 MHPAEA Please describe below the standard(s) used to place covered benefits into one of the four classifications.

Utah CHIP uses the following definitions for each of the four classifications:
Inpatient, Outpatient, Emergency Care and Prescription Drugs:

Inpatient hospital services are services that a hospital provides for the care and treatment of inpatients with disorders other than mental illness, under the direction of a physician or other practitioner of the healing arts.

Outpatient services means any service covered by a managed health care plan other than inpatient hospital stays or outpatient hospital services.

Prescribed drugs means simple or compound substances or mixtures of substances prescribed for the cure, mitigation, or prevention of disease, or for health maintenance that are— (1) Prescribed by a physician or other licensed practitioner of the healing arts within the scope of this professional practice as defined and limited by Federal and State law; (2) Dispensed by licensed pharmacists and licensed authorized practitioners in accordance with the State Medical Practice Act; and (3) Dispensed by the licensed pharmacist or practitioner on a written prescription that is recorded and maintained in the pharmacist's or practitioner's records.

Emergency Services means covered inpatient and outpatient services that are furnished by a Provider that is qualified to furnish these services and that are needed to evaluate or stabilize an Emergency Medical Condition.

6.2.3.1.1 MHPAEA The State assures that:

The State has classified all benefits covered under the State plan into one of the four classifications.

The same reasonable standards are used for determining the classification for a mental health or substance use disorder benefit as are used for determining the classification of medical/surgical benefits.

6.2.3.1.2- MHPAEA Does the State use sub-classifications to distinguish between office visits and other outpatient services?

Yes

No

6.2.3.1.2.1- MHPAEA If the State uses sub-classifications to distinguish between outpatient office visits and other outpatient services, the State assures the following:

The sub-classifications are only used to distinguish office visits from other outpatient items and services, and are not used to distinguish between similar services on other bases (ex: generalist vs. specialist visits).

Guidance: For purposes of this section, any reference to “classification(s)” includes sub-classification(s) in states using sub-classifications to distinguish between outpatient

office visits from other outpatient services.

6.2.3.2 MHPAEA The State assures that:

Mental health/ substance use disorder benefits are provided in all classifications in which medical/surgical benefits are provided under the State child health plan.

Guidance: States are not required to cover mental health or substance use disorder benefits (42 CFR 457.496(f)(2)). However if a state does provide any mental health or substance use disorder benefits, those mental health or substance use disorder benefits must be provided in all the same classifications in which medical/surgical benefits are covered under the State child health plan (42 CFR 457.496(d)(2)(ii).

Annual and Aggregate Lifetime Dollar Limits

6.2.4- MHPAEA A State that provides both medical/surgical benefits and mental health and/or substance use disorder benefits must comply with parity requirements related to annual and aggregate lifetime dollar limits for benefits covered under the State child health plan. (42 CFR 457.496(c))

6.2.4.1- MHPAEA Please indicate whether the State applies an aggregate lifetime dollar limit and/or an annual dollar limit on any mental health or substance abuse disorder benefits covered under the State child health plan.

Aggregate lifetime dollar limit is applied

Aggregate annual dollar limit is applied

No dollar limit is applied

Guidance: A monetary coverage limit that applies to *all* CHIP services provided under the State child health plan is not subject to parity requirements.

If there are no aggregate lifetime or annual dollar limits on any mental health or substance use disorder benefits, please go to section 6.2.5-MHPAEA.

6.2.4.2- MHPAEA Are there any medical/surgical benefits covered under the State child health plan that have either an aggregate lifetime dollar limit or an annual dollar limit? If yes, please specify what type of limits apply.

Yes (Type(s) of limit:)

No

Guidance: If no aggregate lifetime dollar limit is applied to medical/surgical benefits, the State may not impose an aggregate lifetime dollar limit on *any* mental health or substance use disorder benefits. If no aggregate annual dollar limit is applied to medical/surgical benefits, the State may not impose an aggregate annual dollar limit on *any* mental health or substance use disorder benefits. (42 CFR 457.496(c)(1))

6.2.4.3 – MHPAEA. States applying an aggregate lifetime or annual dollar limit on medical/surgical benefits and mental health or substance use disorder benefits must determine whether the portion of the medical/surgical benefits to which the limit applies is less than one-third, at least one-third but less than two-thirds, or at least two-thirds of all medical/surgical benefits covered under the State plan (42 CFR 457.496(c)). The portion of medical/surgical benefits subject to the limit is based on the dollar amount expected to be paid for all medical/surgical benefits under the State plan for the State plan year or portion of the plan year after a change in benefits that affects the applicability of the aggregate lifetime or annual dollar limits. (42 CFR 457.496(c)(3))

The State assures that it has developed a reasonable methodology to calculate the portion of covered medical/surgical benefits which are subject to the aggregate lifetime and/or annual dollar limit, as applicable.

Guidance: Please include the state’s methodology to calculate the portion of covered medical/surgical benefits which are subject to the aggregate lifetime and/or annual dollar limit and the results as an attachment to the State child health plan.

6.2.4.3.1- MHPAEA Please indicate the portion of the total costs for medical and surgical benefits covered under the State plan which are subject to a lifetime dollar limit:

- Less than 1/3
- At least 1/3 and less than 2/3
- At least 2/3

6.2.4.3.2- MHPAEA Please indicate the portion of the total costs for medical and surgical benefits covered under the State plan which are subject to an annual dollar limit:

- Less than 1/3
- At least 1/3 and less than 2/3
- At least 2/3

Guidance: If an aggregate lifetime limit is applied to less than one-third of all medical/surgical benefits, the State may not

impose an aggregate lifetime limit on *any* mental health or substance use disorder benefits. If an annual dollar limit is applied to less than one-third of all medical surgical benefits, the State may not impose an annual dollar limit on *any* mental health or substance use disorder benefits (42 CFR 457.496(c)(1)). Skip to section 6.2.5-MHPAEA.

If the State applies an aggregate lifetime or annual dollar limit to at least one-third of all medical/surgical benefits, please continue below to provide the assurances related to the determination of the portion of total costs for medical/surgical benefits that are subject to either an annual or lifetime limit.

6.2.4.3.2.1- MHPAEA If the State applies an aggregate lifetime or annual dollar limit to at least 1/3 and less than 2/3 of all medical/surgical benefits, the State assures the following (42 CFR 457.496(c)(4)(i)(B)); (42 CFR 457.496(c)(4)(ii)):

The State applies an aggregate lifetime or annual dollar limit on mental health or substance use disorder benefits that is no more restrictive than an average limit calculated for medical/surgical benefits.

Guidance: The state’s methodology for calculating the average limit for medical/surgical benefits must be consistent with 42 CFR 457.496(c)(4)(i)(B) and 42 CFR 457.496(c)(4)(ii). Please include the state’s methodology and results as an attachment to the State child health plan.

6.2.4.3.2.2- MHPAEA If at least 2/3 of all medical/surgical benefits are subject to an annual or lifetime limit, the State assures either of the following (42 CFR 457.496(c)(2)(i)); (42 CFR 457.496(c)(2)(ii)):

The aggregate lifetime or annual dollar limit is applied to both medical/surgical benefits and mental health and substance use disorder benefits in a manner that does not distinguish between medical/surgical benefits and mental health and substance use disorder benefits; or

The aggregate lifetime or annual dollar limit placed on mental health and substance use disorder benefits is no more restrictive than the aggregate lifetime or annual dollar limit on medical/surgical benefits.

Quantitative Treatment Limitations

6.2.5- MHPAEA Does the State apply quantitative treatment limitations (QTLs) on any mental health or substance use disorder benefits in any classification of benefits? If yes, specify the classification(s) of benefits in which the State applies one or more QTLs on any mental health or substance use disorder benefits.

Yes

No

Guidance: If the state does not apply any type of QTLs on any mental health or substance use disorder benefits in any classification, the state meets parity requirements for QTLs and should continue to Section 6.2.6 - MHPAEA. If the state does apply QTLs to any mental health or substance use disorder benefits, the state must conduct a parity analysis. Please continue.

6.2.5.1- MHPAEA Does the State apply any type of QTL on any medical/surgical benefits?

Yes

No

Guidance: If the State does not apply QTLs on any medical/surgical benefits, the State may not impose quantitative treatment limitations on mental health or substance use disorder benefits, please go to Section 6.2.6- MHPAEA related to non-quantitative treatment limitations.

6.2.5.2- MHPAEA Within each classification of benefits in which the State applies a type of QTL on any mental health or substance use disorder benefits, the State must determine the portion of medical and surgical benefits in the classification which are subject to the limitation. More specifically, the State must determine the ratio of (a) the dollar amount of all payments expected to be paid under the State plan for medical and surgical benefits within a classification which are subject to the type of quantitative treatment limitation for the plan year (or portion of the plan year after a mid-year change affecting the applicability of a type of quantitative treatment limitation to any medical/surgical benefits in the class) to (b) the dollar amount expected to be paid for all medical and surgical benefits within the classification for the plan year. For purposes of this paragraph, all payments expected to be paid under the State plan includes payments expected to be made directly by the State and payments which are expected to be made by MCEs contracting with the State. (42 CFR 457.496(d)(3)(i)(C))

The State assures it has applied a reasonable methodology to determine the dollar amounts used in the ratio described above for each classification within which the State applies QTLs to mental health or substance use disorder benefits. (42 CFR 457.496(d)(3)(i)(E))

Guidance: Please include the state’s methodology and results as an attachment to the State child health plan.

6.2.5.3- MHPAEA For each type of QTL applied to any mental health or substance use disorder benefits within a given classification, does the State apply the same type of QTL to “substantially all” (defined as at least two-thirds) of the medical/surgical benefits within the same classification? (42 CFR 457.496(d)(3)(i)(A))

Yes

No

Guidance: If the State does not apply a type of QTL to substantially all medical/surgical benefits in a given classification of benefits, the State may *not* impose that type of QTL on mental health or substance use disorder benefits in that classification. (42 CFR 457.496(d)(3)(i)(A))

6.2.5.3.1- MHPAEA For each type of QTL applied to mental health or substance use disorder benefits, the State must determine the predominant level of that type which is applied to medical/surgical benefits in the classification. The “predominant level” of a type of QTL in a classification is the level (or least restrictive of a combination of levels) that applies to more than one-half of the medical/surgical benefits in that classification, as described in 42 CFR 457.496(d)(3)(i)(B). The portion of medical/surgical benefits in a classification to which a given level of a QTL type is applied is based on the dollar amount of payments expected to be paid for medical/surgical benefits subject to that level as compared to all medical/surgical benefits in the classification, as described in 42 CFR 457.496(d)(3)(i)(C). For each type of quantitative treatment limitation applied to mental health or substance use disorder benefits, the State assures:

The same reasonable methodology applied in determining the dollar amounts used to determine whether substantially all medical/surgical benefits within a classification are subject to a type of quantitative treatment limitation also is applied in determining the dollar amounts used to determine the predominant level of a type of quantitative treatment limitation applied to medical/surgical benefits within a classification. (42 CFR 457.496(d)(3)(i)(E))

The level of each type of quantitative treatment limitation applied by the State to mental health or substance use disorder benefits in any classification is no more restrictive than the predominant level of that type which is applied by the State to medical/surgical benefits within the same classification. (42 CFR 457.496(d)(2)(i))

Guidance: If there is no single level of a type of QTL that exceeds the one-half threshold, the State may combine levels within a type of QTL such that the combined levels are applied to at least half of all medical/surgical benefits within a classification; the predominant level is the least restrictive level of the levels combined to meet the one-half threshold. (42 CFR 457.496(d)(3)(i)(B)(2))

Non-Quantitative Treatment Limitations

6.2.6- MHPAEA The State may utilize non-quantitative treatment limitations (NQTLs) for mental health or substance use disorder benefits, but the State must ensure that those NQTLs comply with all the mental health parity requirements. (42 CFR 457.496(d)(4)); (42 CFR 457.496(d)(5))

6.2.6.1 – MHPAEA If the State imposes any NQTLs, complete this subsection. If the State does not impose NQTLs, please go to Section 6.2.7-MHPAEA.

The State assures that the processes, strategies, evidentiary standards or other factors used in the application of any NQTL to mental health or substance use disorder benefits are no more stringent than the processes, strategies, evidentiary standards or other factors used in the application of NQTLs to medical/surgical benefits within the same classification+.

Guidance: Examples of NQTLs include medical management standards to limit or exclude benefits based on medical necessity, restrictions based on geographic location, provider specialty, or other criteria to limit the scope or duration of benefits and provider network design (ex: preferred providers vs. participating providers). Additional examples of possible NQTLs are provided in 42 CFR 457.496(d)(4)(ii). States will need to provide a summary of its NQTL analysis, as well as supporting documentation as requested.

Response: Please see the two attachments (6.2.6 NQTL Analysis & Supporting Documentation - PART I; and 6.2.6 NQTL Analysis & Supporting Documentation - PART II).

6.2.6.2 – MHPAEA The State or MCE contracting with the State must comply with parity if they provide coverage of medical or surgical benefits furnished by out-of-network providers.

6.2.6.2.1- MHPAEA Does the State or MCE contracting with the State provide coverage of medical or surgical benefits provided by out-of-network providers?

Yes

No

Guidance: The State can answer no if the State or MCE only provides out of network services in specific circumstances, such as emergency care, or when the network is unable to provide a necessary service covered under the contract.

6.2.6.2.2- MHPAEA If yes, the State must provide access to out-of-network providers for mental health or substance use disorder benefits. Please assure the following:

The State attests that when determining access to out-of-network providers within a benefit classification, the processes, strategies, evidentiary standards, or other factors used to determine access to those providers for mental health/ substance use disorder benefits are comparable to and applied no more stringently than the processes, strategies, evidentiary standards or other factors used to determine access for out- of-network providers for medical/surgical benefits.

Availability of Plan Information

6.2.7- MHPAEA The State must provide beneficiaries, potential enrollees, and providers with information related to medical necessity criteria and denials of payment or reimbursement for mental health or substance use disorder services (42 CFR 457.496(e)) in addition to existing notice requirements at 42 CFR 457.1180.

6.2.7.1- MHPAEA Medical necessity criteria determinations must be made available to any current or potential enrollee or contracting provider, upon request. The state attests that the following entities provide this information:

- State
- Managed Care entities
- Both
- Other

Guidance: If other is selected, please specify the entity.

6.2.7.2- MHPAEA Reason for any denial for reimbursement or payment for mental health or substance use disorder benefits must be made available to the enrollee by the health plan or the State. The state attests that the following entities provide denial information:

- State

Managed Care entities

Both

Other

6.3 The State assures that, with respect to pre-existing medical conditions, one of the following two statements applies to its plan: (42CFR 457.480)

The state assures that it will not permit the imposition of any pre-existing Medical condition exclusion for covered services.

6.3.1. The State shall not permit the imposition of any pre-existing medical condition exclusion for covered services (Section 2102(b)(1)(B)(ii));
OR

The state assures that it will not permit the imposition of any pre-existing medical condition exclusion for covered services.

6.3.2. The State contracts with a group health plan or group health insurance coverage, or contracts with a group health plan to provide family coverage under a waiver (see Section 6.6.2. formerly 6.4.2 of the template). Pre-existing medical conditions are permitted to the extent allowed by HIPAA/ERISA (Section 2103(f)). Describe:
Previously 8.6

Guidance: States may request two additional purchase options in Title XXI: cost

Laboratory and X-ray Services:

\$0 co-payment for laboratory and x-ray services for minor diagnostic tests and x-rays

Co-insurance, 5% after deductible for major diagnostic tests and x-rays

Vision Screening Services:

\$5 co-payment (limit of one exam per plan year).

Hearing Screening Services:

\$5 co-payment (limit of one exam per plan year).

Dental Services :

Maximum benefit of \$1,000 per person, per year

\$0 co-payment for cleanings, exams, x-rays, fluoride, and sealants.

5% co-insurance for all other covered services.

Orthodontic benefits are only covered if the client scores 30 or greater on the Salzmann Index

Mental Health Services, Inpatient Facility:

\$150 co-payment after deductible for each visit

Mental Health Services, Outpatient Office Visit and Urgent Care:

\$0 co-payment for each visit

Residential Treatment:

\$0 co-payment

Home Health and Hospice Care:

Co-insurance of 5% after deductible per visit.

Medical Equipment and Supplies:

Co-insurance of 5% after deductible

Physical, Occupational and Speech Therapy:

\$5 co-payment, 20 visits combined limit per child, per plan year.

Out- of-Pocket Maximum:

5% of a family's annual gross countable income. Only out of pocket costs for covered services, deductibles, co-pays, and premiums will be used to calculate the maximum out of pocket limit.

Co-insurance, 50% after deductible for porcelain-fused crowns (not Covered for non-adult and back teeth).

Orthodontic benefits are only covered if the client scores 30 or greater on the Salzmann Index.

Mental Health Services In-Patient Facility

Co-insurance, 20% after deductible.

Mental Health Services Outpatient Office Visit and, Urgent Care:

\$40 co-payment for each visit

Residential Treatment:

\$0 co-payment

Home Health and Hospice Care:

Co-insurance, 20% after deductible

Medical Equipment and Supplies:

Co-insurance, 20% after deductible

Physical, Occupational and Speech Therapy:

\$40 co-payment after deductible, 20 visits combined limit, per child, per plan year.

Out-of-Pocket Maximum

The maximum out of pocket expense is 5% of a family's annual gross income. Only out of pocket costs for covered services, deductibles, co-pays, and premiums will be used to calculate the maximum out of pocket limit.

Co-Insurance and Co-payment requirements for CHIP clients/enrollees who are Native American.

No co-payments or premiums are charged to CHIP enrollees who are American Indian/Alaska Native

8.2.4. Other:

Please provide a description of the consequences for an enrollee or applicant who does not pay a charge. (42CFR 457.570 and 457.505(c))

Consequences for an enrollee or applicant who does not pay copayments or coinsurance will be handled between the enrollee or applicant and the health care provider who has rendered the services.

The invoice regarding the quarterly premium is mailed to enrollees on the 1st day of the first month of the quarter.”

age-appropriate immunizations. (Section 2103(e)(2)) (42CFR 457.520)

8.4.3 No additional cost-sharing applies to the costs of emergency medical services delivered outside the network. (Section 2103(e)(1)(A)) (42CFR 457.515(f))

8.4.1- MHPAEA There is no separate accumulation of cumulative financial requirements, as defined in 42 CFR 457.496(a), for mental health and substance abuse disorder benefits compared to medical/surgical benefits. (42 CFR 457.496(d)(3)(iii))

8.4.2- MHPAEA If applicable, any different levels of financial requirements that are applied to different tiers of prescription drugs are determined based on reasonable factors, regardless of whether a drug is generally prescribed for medical/surgical benefits or mental health/substance use disorder benefits. (42 CFR 457.496(d)(3)(ii)(A))

8.4.3- MHPAEA Cost sharing applied to benefits provided under the State child health plan will remain capped at five percent of the beneficiary's income as required by 42 CFR 457.560 (42 CFR 457.496(d)(3)(i)(D)).

8.4.4- MHPAEA Does the State apply financial requirements to any mental health or substance use disorder benefits? If yes, specify the classification(s) of

benefits in which the State applies financial requirements on any mental health or substance use disorder benefits.

Yes (Specify: Inpatient mental health and prescription drugs)

No

Guidance: For the purposes of parity, financial requirements include deductibles, copayments, coinsurance, and out of pocket maximums; premiums are excluded from the definition. If the state does not apply financial requirements on any mental health or substance use disorder benefits, the state meets parity requirements for financial requirements. If the state does apply financial requirements to mental health or substance use disorder benefits, the state must conduct a parity analysis. Please continue below.

Please ensure that changes made to financial requirements under the State child health plan as a result of the parity analysis are also made in Section 8.2.

8.4.5- MHPAEA Does the State apply any type of financial requirements on any medical/surgical benefits?

Yes Inpatient, outpatient, prescription drugs, urgent care and emergency room.

No

Guidance: If the State does not apply financial requirements on any medical/surgical benefits, the State may not impose financial requirements on mental health or substance use disorder benefits.

8.4.6- MHPAEA Within each classification of benefits in which the State applies a type of financial requirement on any mental health or substance use disorder benefits, the State must determine the portion of medical and surgical benefits in the class which are subject to the limitation.

The State assures it has applied a reasonable methodology to determine the dollar amounts used in the ratio described above (Section 6.2.5.2-MHPAEA) for each classification or within which the State applies financial requirements to mental health or substance use disorder benefits. (42 CFR 457.496(d)(3)(i)(E))

Guidance: Please include the state's methodology and results of the parity analysis as an attachment to the State child health plan.

8.4.7- MHPAEA For each type of financial requirement applied to any mental health or substance use disorder benefits within a given classification, does the

State apply the same type of financial requirement to at least two-thirds (“substantially all”) of all the medical/surgical benefits within the same classification? (42 CFR 457.496(d)(3)(i)(A))

Yes

No

Guidance: If the State does not apply a type of financial requirement to substantially all medical/surgical benefits in a given classification of benefits, the State may *not* impose financial requirements on mental health or substance use disorder benefits in that classification. (42 CFR 457.496(d)(3)(i)(A))

8.4.8- MHPAEA For each type of financial requirement applied to substantially all medical/surgical benefits in a classification, the State must determine the predominant level (as defined in 42 CFR 457.496(d)(3)(i)(B)) of that type which is applied to medical/surgical benefits in the classification. For each type of financial requirement applied to substantially all medical/surgical benefits in a classification, the State assures:

The same reasonable methodology applied in determining the dollar amounts used in determining whether substantially all medical/surgical benefits within a classification are subject to a type of financial requirement also is applied in determining the dollar amounts used to determine the predominant level of a type of

financial requirement applied to medical/surgical benefits within a classification. (42 CFR 457.496(d)(3)(i)(E))

The level of each type of financial requirement applied by the State to mental health or substance use disorder benefits in any classification is no more restrictive than the predominant level of that type which is applied by the State to medical/surgical benefits within the same classification. (42 CFR 457.496(d)(2)(i))

Guidance: If there is no single level of a type of financial requirement that exceeds the one-half threshold, the State may combine levels within a type of financial requirement such that the combined levels are applied to at least half of all medical/surgical benefits within a classification; the predominant level is the least restrictive level of the levels combined to meet the one-half threshold. (42 CFR 457.496(d)(3)(i)(B)(2))

- 8.5** Describe how the State will ensure that the annual aggregate cost-sharing for a family does not exceed 5 percent of such family's income for the length of the child's eligibility period in the State. Include a description of the procedures that do not primarily rely on a refund given by the State for overpayment by an enrollee: (Section 2103(e)(3)(B)) (42CFR 457.560(b) and 457.505(e))
