District of Columbia CARTS FY2021 Report

Basic State Information

Welcome!

We already have some information about your state from our records. If any information is incorrect, please contact the mdct_help@cms.hhs.gov.

1. State or territory name:

District of Columbia

2.

Program type:

○ Both Medicaid Expansion CHIP and Separate CHIP

◉ Medicaid Expansion CHIP only

○ Separate CHIP only

3. CHIP program name(s):

N/A. DC's Medicaid Managed Care Program is known as DC Healthy Families.

Who should we contact if we have any questions about your report?

4. Contact name:

Colleen Sonosky

5. Job title:

Associate Director, Division of Children's Health Services/DHCF

6. Email:

colleen.sonosky@dc.gov

7. Full mailing address:

Include city, state, and zip code.

441 4th Street, NW Suite 900S One Judiciary Square Washington, DC 20001

8. Phone number:

(202)-442-5913

Program Fees and Policy Changes

Part 1: Medicaid Expansion CHIP Enrollment Fees, Premiums, and Delivery Systems

1.

Does your program charge an enrollment fee?

○　　Yes

◉　　No

2.

Does your program charge premiums?

○　　Yes

◉　　No

3.

Is the maximum premium a family would be charged each year tiered by FPL?

○　　Yes

○　　No

4. Do premiums differ for different Medicaid Expansion CHIP populations beyond FPL (for example, by eligibility group)? If so, briefly explain the fee structure breakdown.

N/A

5.

Which delivery system(s) do you use?

Select all that apply.

☑　　Managed Care

☐　　Primary Care Case Management

☑　　Fee for Service

6. Which delivery system(s) are available to which Medicaid Expansion CHIP populations? Indicate whether eligibility status, income level, age range, or other criteria determine which delivery system a population receives.

> CHIP populations are enrolled in Managed Care unless there is an "opt-out" request.

Part 2: Separate CHIP Enrollment Fees, Premiums, and Delivery Systems

Part 3: Medicaid Expansion CHIP Program and Policy Changes

Indicate any changes you've made to your Medicaid Expansion CHIP program policies in the past federal fiscal year. Many changes listed in this section require a State Plan Amendment (SPA), while some don't, such as changing outreach efforts or changing the health plan enrollment process. Please submit a SPA to reflect any changes that do require a SPA.

1.

Have you made any changes to the eligibility determination process?

○ Yes

⦿ No

○ N/A

2.

Have you made any changes to the eligibility redetermination process?

○ Yes

◉ No

○ N/A

3.

Have you made any changes to the eligibility levels or target populations?

For example: increasing income eligibility levels.

○ Yes

◉ No

○ N/A

4.

Have you made any changes to the benefits available to enrollees?

For example: adding benefits or removing benefit limits.

○ Yes

◉ No

○ N/A

5.

Have you made any changes to the single streamlined application?

○   Yes

⊙   No

○   N/A

6.

Have you made any changes to your outreach efforts?

For example: allotting more or less funding for outreach, or changing your target population.

○   Yes

⊙   No

○   N/A

7.

Have you made any changes to the delivery system(s)?

For example: transitioning from Fee for Service to Managed Care for different Medicaid Expansion CHIP populations.

○ Yes

◉ No

○ N/A

8.

Have you made any changes to your cost sharing requirements?

For example: changing amounts, populations, or the collection process.

○ Yes

◉ No

○ N/A

9.

Have you made any changes to the substitution of coverage policies?

For example: removing a waiting period.

○   Yes

◉   No

○   N/A

10.

Have you made any changes to the enrollment process for health plan selection?

○   Yes

◉   No

○   N/A

11.

Have you made any changes to the protections for applicants and enrollees?

For example: changing from the Medicaid Fair Hearing process to the review process used by all health insurance issuers statewide.

○   Yes

◉   No

○   N/A

12.

Have you made any changes to premium assistance?

For example: adding premium assistance or changing the population that receives premium assistance.

○   Yes

◉   No

○   N/A

13.

Have you made any changes to the methods and procedures for preventing, investigating, or referring fraud or abuse cases?

○ Yes

◉ No

○ N/A

14.

Have you made any changes to eligibility for "lawfully residing" pregnant women?

○ Yes

◉ No

○ N/A

15.

Have you made any changes to eligibility for "lawfully residing" children?

○ Yes

◉ No

○ N/A

16.

Have you made changes to any other policy or program areas?

○   Yes

◉   No

○   N/A

Part 4: Separate CHIP Program and Policy Changes

Enrollment and Uninsured Data

Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

Program	Number of children enrolled in FFY 2020	Number of children enrolled in FFY 2021	Percent change
Medicaid Expansion CHIP	7,869	17,062	116.826%
Separate CHIP	0	0	0%

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

The number of children ever enrolled in CHIP peaked in FFY 2020 and FFY 2021 may reflect a combination of children that have aged out and are new beneficiaries. We will continue to look into any enrollment changes.

Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey. Due to the impacts of the COVID-19 PHE on collection of ACS data, the 2020 children's uninsurance rates are currently unavailable. Please skip to Question 3.

Year	Number of uninsured children	Margin of error	Percent of uninsured children (of total children in your state)	Margin of error
2016	2,000	1,000	2%	1.1%
2017	0	0	0.1%	0.1%
2018	1,000	1,000	1.1%	1%
2019	1,000	1,000	1%	0.6%
2020	Not Answered	Not Answered	Not Answered	Not Answered

Percent change between 2019 and 2020
Not Available

1. What are some reasons why the number and/or percent of uninsured children has changed?

N/A - numbers remained the same.

2.

Are there any reasons why the American Community Survey estimates wouldn't be a precise representation of the actual number of uninsured children in your state?

○ Yes

⊙ No

3.

Do you have any alternate data source(s) or methodology for measuring the number and/or percent of uninsured children in your state?

○ Yes

⊙ No

4. Is there anything else you'd like to add about your enrollment and uninsured data?

N/A

5.

Optional: Attach any additional documents here.

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.
Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)

Eligibility, Enrollment, and Operations

Program Outreach

1.

Have you changed your outreach methods in the last federal fiscal year?

- ○ Yes

- ◉ No

2.

Are you targeting specific populations in your outreach efforts?

For example: minorities, immigrants, or children living in rural areas.

- ○ Yes

- ◉ No

3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

N/A

4. Is there anything else you'd like to add about your outreach efforts?

N/A

5.

Optional: Attach any additional documents here.

Eligibility, Enrollment, and Operations

Substitution of Coverage

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

○   Yes

○   No

⊙   N/A

2.

Do you match prospective CHIP enrollees to a database that details private insurance status?

○ Yes

◉ No

○ N/A

	%

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

The District does not track the number of CHIP enrollees who have access to private insurance. Children who are enrolled in a third party insurance are not enrolled in CHIP.

6.

Optional: Attach any additional documents here.

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.

Eligibility, Enrollment, and Operations

Renewal, Denials, and Retention

Part 1: Eligibility Renewal and Retention

1.

Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?

This question should only be answered in respect to Separate CHIP.

○ Yes

◉ No

○ N/A

2.

In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

○ Yes

◉ No

3.

Do you send renewal reminder notices to families?

○   Yes

◉   No

4. What else have you done to simplify the eligibility renewal process for families?

> We typically use passive renewal processes to support continuous renewal for families. During the Public Health Emergency (PHE), we continue to suspend verifications for individuals already enrolled and are extending eligibility at renewal without interruption for non-disabled families.

5. Which retention strategies have you found to be most effective?

> Passive renewal has supported efforts for continuous enrollment.

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?

> Enrollment data is our most reliable source of information on retention. We use cohort studies to determine retention at renewal.

7. Is there anything else you'd like to add that wasn't already covered?

> N/A

Part 2: CHIP Eligibility Denials (Not Redetermination)

1.

How many applicants were denied CHIP coverage in FFY 2021?

Don't include applicants being considered for redetermination - this data will be collected in Part 3.

2.

How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.

3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

4.

How many applicants were denied CHIP coverage for other reasons?

5. Did you have any limitations in collecting this data?

N/A

Table: CHIP Eligibility Denials (Not Redetermination)

This table is auto-populated with the data you entered above.

Type	Number	Percent
Total denials	Not Answered	Not Answered
Denied for procedural reasons	Not Answered	Not Answered
Denied for eligibility reasons	Not Answered	Not Answered
Denials for other reasons	Not Answered	Not Answered

Part 3: Redetermination in CHIP

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in CHIP in FFY 2021?

2.

Of the eligible children, how many were then screened for redetermination?

3.

How many children were retained in CHIP after redetermination?

4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

Computed:

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.

4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

As of the end of fiscal year 2021, the District of Columbia did not have an renewals in CHIP or Medicaid due to PHE. Therefore, we do not have any redetermination information and/or metrics to input into the CARTS reports.

Table: Redetermination in CHIP

These tables are auto-populated with the data you entered above.

Type	Number	Percent
Children screened for redetermination	Not Answered	Not Answered
Children retained after redetermination	Not Answered	Not Answered
Children disenrolled after redetermination	Not Answered	Not Answered

Table: Disenrollment in CHIP after Redetermination

Type	Number	Percent
Children disenrolled after redetermination	Not Answered	Not Answered
Children disenrolled for procedural reasons	Not Answered	Not Answered
Children disenrolled for eligibility reasons	Not Answered	Not Answered
Children disenrolled for other reasons	Not Answered	Not Answered

Part 4: Redetermination in Medicaid

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in Medicaid in FFY 2021?

2.

Of the eligible children, how many were then screened for redetermination?

3.

How many children were retained in Medicaid after redetermination?

4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

> **Computed:**
>
> 4a.
>
> How many children were disenrolled for procedural reasons?
>
> This could be due to an incomplete application, missing documentation, or a missing enrollment fee.
>
> 4b.
>
> How many children were disenrolled for eligibility reasons?
>
> This could be due to an income that was too high and/or eligibility in CHIP instead.

4c.

How many children were disenrolled for other reasons?

[ ]

5. Did you have any limitations in collecting this data?

As of the end of fiscal year 2021, the District of Columbia did not have an renewals in CHIP or Medicaid due to PHE. Therefore, we do not have any redetermination information and/or metrics to input into the CARTS reports.

Table: Redetermination in Medicaid

These tables are auto-populated with the data you entered above.

Type	Number	Percent
Children screened for redetermination	Not Answered	Not Answered
Children retained after redetermination	Not Answered	Not Answered
Children disenrolled after redetermination	Not Answered	Not Answered

Table: Disenrollment in Medicaid after Redetermination

Type	Number	Percent
Children disenrolled after redetermination	Not Answered	Not Answered
Children disenrolled for procedural reasons	Not Answered	Not Answered
Children disenrolled for eligibility reasons	Not Answered	Not Answered
Children disenrolled for other reasons	Not Answered	Not Answered

Part 5: Tracking a CHIP cohort (Title XXI) over 18 months

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). This year you'll report on the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

○ Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

⦿ Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

⦿ Yes

○ No

January - March 2020 (start of the cohort): included in 2020 report.

You completed this section in your 2020 CARTS Report. Please refer to that report to assist in filling out this section if needed.

3.

How many children were newly enrolled in CHIP between January and March 2020?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
26	468	901	393

July - September 2020 (6 months later): included in 2020 report.

4.

How many children were continuously enrolled in CHIP six months later?

Only include children that didn't have a break in coverage during the six-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
25	466	898	391

5.

How many children had a break in CHIP coverage but were re-enrolled in CHIP six months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1			

6.

Of the children who had a break in CHIP coverage (in the previous question), how many were enrolled in Medicaid during the break?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16

7.

How many children were no longer enrolled in CHIP six months later?

Possible reasons for no longer being enrolled:b" Transferred to another health insurance program other than CHIPb" Didn't meet eligibility criteria anymoreb" Didn't complete documentationb" Didn't pay a premium or enrollment fee

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	2	3	5

8.

Of the children who were no longer enrolled in CHIP (in the previous question), how many were enrolled in Medicaid six months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	1		

9. Is there anything else you'd like to add about your data?

N/A

January - March 2021 (12 months later): to be completed this year.

This year, please report data about your cohort for this section

10.

How many children were continuously enrolled in CHIP 12 months later?

Only include children that didn't have a break in coverage during the 12-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
24	457	887	390

11.

How many children had a break in CHIP coverage but were re-enrolled in CHIP 12 months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1	1		1

12.

Of the children who had a break in CHIP coverage (in the previous question), how many were enrolled in Medicaid during the break?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	1		

13.

How many children were no longer enrolled in CHIP 12 months later?

Possible reasons for not being enrolled:b" Transferred to another health insurance program other than CHIPb" Didn't meet eligibility criteria anymoreb" Didn't complete documentationb" Didn't pay a premium or enrollment fee

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1	14	10	2

14.

Of the children who were no longer enrolled in CHIP (in the previous question), how many were enrolled in Medicaid 12 months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	1	1	

July - September of 2021 (18 months later): to be completed this year

This year, please report data about your cohort for this section.

15.

How many children were continuously enrolled in CHIP 18 months later?

Only include children that didn't have a break in coverage during the 18-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
24	454	883	390

16.

How many children had a break in CHIP coverage but were re-enrolled in CHIP 18 months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1	2		

17.

Of the children who had a break in CHIP coverage (in the previous question), how many were enrolled in Medicaid during the break?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	2		

18.

How many children were no longer enrolled in CHIP 18 months later?

Possible reasons for not being enrolled:b" Transferred to another health insurance program other than CHIPb" Didn't meet eligibility criteria anymoreb" Didn't complete documentationb" Didn't pay a premium or enrollment fee

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1	12	18	3

19.

Of the children who were no longer enrolled in CHIP (in the previous question), how many were enrolled in Medicaid 18 months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
	1	1	1

20. Is there anything else you'd like to add about your data?

N/A

Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). This year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2021. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2021 must be born after January 2004. Similarly, children who are newly enrolled in February 2021 must be born after February 2004, and children newly enrolled in March 2021 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

⦿   Newly enrolled in Medicaid: Children in this cohort weren't enrolled in Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in Medicaid in December 2019.

○   Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

⦿   Yes

○   No

January - March 2020 (start of the cohort): included in 2020 report

You completed this section in your 2020 CARTS Report. Please refer to that report to assist in filling out this section if needed.

3.

How many children were newly enrolled in Medicaid between January and March 2020?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1274	830	901	370

July - September 2020 (6 months later): included in 2020 report

You completed this section in your 2020 CARTS report. Please refer to that report to assist in filling out this section if needed.

4.

How many children were continuously enrolled in Medicaid six months later?

Only include children that didn't have a break in coverage during the six-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1253	704	685	242

5.

How many children had a break in Medicaid coverage but were re-enrolled in Medicaid six months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1	4		

6.

Of the children who had a break in Medicaid coverage (in the previous question), how many were enrolled in CHIP during the break?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16

7.

How many children were no longer enrolled in Medicaid six months later?

Possible reasons for no longer being enrolled:b" Transferred to another health insurance program other than Medicaidb" Didn't meet eligibility criteria anymoreb" Didn't complete documentationb" Didn't pay a premium or enrollment fee

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
20	122	216	128

8.

Of the children who were no longer enrolled in Medicaid (in the previous question), how many were enrolled in CHIP six months later?

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
13	115	212	128

9. Is there anything else you'd like to add about your data?

No Value from Last Year

January - March 2021 (12 months later): to be completed this year

This year, please report data about your cohort for this section.

10.

How many children were continuously enrolled in Medicaid 12 months later?

Only include children that didn't have a break in coverage during the 12-month period.

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
1271	820	893	367

Ages 0-1	Ages 1-5	Ages 6-12	Ages 13-16
		1	1

20. Is there anything else you'd like to add about your data?

N/A

Eligibility, Enrollment, and Operations

Cost Sharing (Out-of-Pocket Costs)

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles, coinsurance, and copayments.

Eligibility, Enrollment, and Operations

Employer Sponsored Insurance and Premium Assistance

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1.

Does your state offer ESI including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI demonstration?

○   Yes

◉   No

Eligibility, Enrollment, and Operations

Program Integrity

Eligibility, Enrollment, and Operations

Dental Benefits

Eligibility, Enrollment, and Operations

CAHPS Survey Results

Children's Health Insurance Program Reauthorization Act (CHIPRA) requires that all CHIP programs submit survey results from the Consumer Assessment of Healthcare Providers and Systems (CAHPS). The survey assesses your CHIP program quality and customer satisfaction. For the 2021 CARTS report, we highly encourage states to report all raw CAHPS data to the Agency for Healthcare Research and Quality (AHRQ) CAHPS Database instead of reporting a summary of the data via CARTS. For 2022, the only option for reporting CAHPS results will be through the submission of raw data to

ARHQ.

1.

Did you collect the CAHPS survey?

○   Yes

◉   No

Part 2: You collected the CAHPS survey

Part 3: You didn't collect the CAHPS survey

Since you didn't collect the CAHPS survey, please complete Part 3.

1.

Why didn't you collect the CAHPS survey?

Check all that apply.

☐ Entire population wasn't included in the survey

☐ Part of the population wasn't included in the survey

☐ Data wasn't available due to budget constraints

☐ Data wasn't available due to staff constraints

☐ Data wasn't consistent or accurate

☐ Data source wasn't easily accessible

☐ Data source wasn't easily accessible: requires medical records

☐ Data source wasn't easily accessible: requires data linkage that doesn't currently exist

☐ Data wasn't collected by a provider

☐ Sample size was too small (fewer than 30)

☑ Other

2. Explain in more detail why you weren't able to collect the CAHPS survey.

> The CAHPS survey is conducted for the Medicaid Managed Care Program population only. Our contracted Managed Care Organizations are required to report CAHPS data, and the results are highlighted in the District's EQRO Annual Technical Report.

Eligibility, Enrollment, and Operations

Health Services Initiative (HSI) Programs

All states with approved HSI program(s) should complete this section.States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1.

Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

Even if you're not currently operating the HSI program, if it's in your current approved CHIP State Plan, please answer "yes."

○ Yes

◉ No

State Plan Goals and Objectives

Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different. Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.

1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

> Our goal is to maintain over 95% of eligible children to be enrolled in Medicaid/CHIP.

2.

What type of goal is it?

○   New goal

◉   Continuing goal

○   Discontinued goal

Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP in the last federal fiscal year.

See national and state patterns calculated by Urban Institute.

4.

Numerator (total number)

Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of eligible children in the last federal fiscal year.

See national and state patterns calculated by Urban Institute.

6.

Denominator (total number)

Computed:

7.

What is the date range of your data?

Start

mm/yyyy

| 01 | / | 2021 |

End

mm/yyyy

| 12 | / | 2021 |

8.

Which data source did you use?

○ Eligibility or enrollment data

○ Survey data

◉ Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

Maintained over 95% of eligible children in Medicaid/CHIP.

10. What are you doing to continually make progress towards your goal?

N/A

11. Anything else you'd like to tell us about this goal?

N/A

12.

Do you have any supporting documentation?

Health Services Initiatives (HSI)	Not Answered	Not Answered	Not Answered
Other administrative costs	Not Answered	Not Answered	Not Answered
Total administrative costs	1448470	2442592	2613170
10% administrative cap	6494686.56	10393548.56	9844203.44

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding. This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2023 will be calculated once the eFMAP rate for 2023 becomes available. In the meantime, these values will be blank.

FMAP Table	FFY 2021	FFY 2022	FFY 2023
Total program costs	59900649	95984529	91211001
eFMAP	79	79	Not Available
Federal share	47321512.71	75827777.91	Not Available
State share	12579136.29	20156751.09	Not Available

8.

What were your state funding sources in FFY 2021?

Select all that apply.

☑   State appropriations

☐   County/local funds

☐   Employer contributions

☐   Foundation grants

☐   Private donations

☐   Tobacco settlement

☐   Other

9.

Did you experience a shortfall in federal CHIP funds this year?

○   Yes

◉   No

Part 3: Managed Care Costs

Complete this section only if you have a Managed Care delivery system.

1.

How many children were eligible for Managed Care in FFY 2021? How many do you anticipate will be eligible in FFY 2022 and 2023?

2021	2022	2023
16950		

2.

What was your per member per month (PMPM) cost based on the number of children eligible for Managed Care in FFY 2021? What is your projected PMPM cost for FFY 2022 and 2023?

Round to the nearest whole number.

2021	2022	2023

Challenges and Accomplishments

1. How has your state's political and fiscal environment affected your ability to provide healthcare to low-income children and families?

In FY2021, the political environment in the District continues to be supportive of health care for low-income, uninsured children and families. CHIP covers approximately 16,000 children under a Medicaid expansion. When CHIP was re-authorized, the District continued to maintain health coverage for these children due to the Maintenance of Effort (MOE) requirements of the law. The District had minimal impact from the change in enhanced FMAP that was effective in FY2021. We have worked in the past with CMS to ensure appropriate processes were in place to maintain the needed allotments for CHIP children, but did not have any major issues in FY21. Generally, all children remained covered in Medicaid/CHIP throughout the COVID-19 Public Health Emergency (PHE). While the service delivery for beneficiaries and the fiscal environment for providers has been greatly impacted by the COVID-19 public health emergency (PHE), there were no changes to eligibility or services for Medicaid/CHIP beneficiaries throughout FY21. The District continues to work with CMS and key stakeholders to ensure that the needs of low-income children and families are met throughout the PHE, and in the months and years post-PHE. The Associate Director of the Division of Children's Health Services continues to serve as the co-chair of the Health and Well-Being Subcommittee of the State Early Childhood Development Coordinating Council (SECDCC). This subcommittee focuses on coordinating pediatric primary care in the District of Columbia. A cross-agency working group of health and education District officials and key pediatric provider stakeholders meet quarterly to improve communication concerning activities to improve children's health in the District.

2. What's the greatest challenge your CHIP program has faced in FFY 2021?

The greatest challenge continued to be managing the needs of CHIP/Medicaid population during the public health emergency due to COVID-19. We worked closely with the District's managed care organizations (MCOs), child-serving agencies across the District to ensure continuity of coordinated care and access to all types of services, including health care. The Medicaid and public health agencies worked closely together to ensure providers knew the latest information on access to care for Medicaid beneficiaries and expansion of telehealth services during the PHE (and beyond). In addition, the District's budget (as most state budgets) will be affected greatly by the PHE, and are working to ensure access to health care coverage continues to be a top priority in the District.

3. What are some of the greatest accomplishments your CHIP program has experienced in FFY 2021?

The District continued to work closely with their Medicaid MCO partners and sister agencies to ensure all needs of families were met during the PHE. In addition, the District's budget included a FY22 budget enhancement for neuro-behavioral services to screen, diagnose and treat Medicaid/CHIP-enrolled children on the autism spectrum. We are currently working on the State Plan Amendments to implement this benefit for Medicaid/CHIP-enrolled children.

4. What changes have you made to your CHIP program in FFY 2021 or plan to make in FFY 2022? Why have you decided to make these changes?

In FY22 the District is proposing to amend its CHIP State Plan to provide coverage to immigrant pregnant women up 324% FPL under the CHIP Unborn Child Option. Women will be eligible from up to 90 days prior to application through conclusion of the pregnancy. Services will be covered under Managed care. The scope of benefits will mirror services available to beneficiaries under the Medicaid State Plan, including EPSDT where appropriate.

5. Is there anything else you'd like to add about your state's challenges and accomplishments?

N/A
