PRA Disclosure Statement.

This information is being collected to assist the Centers for Medicare & Medicaid Services (CMS) in partnership with States with the ongoing management of Medicaid and CHIP programs and policies. This mandatory information collection (42 U.S.C. 1397hh) will be used to help each state meet the statutory requirements at section 2108(a) of the Social Security Act to assess the operation of the State child health plan in each Federal fiscal year and to report the results of the assessment including the progress made in reducing the number of uncovered, low-income children. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #1). The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

Program Fees and Policy Changes

Part 1: Medicaid Expansion CHIP Enrollment Fees, Premiums, and Delivery Systems

1.

Does your program charge an enrollment fee?

Yes

No

2.

Does your program charge premiums?

Yes

No

3.

Is the maximum premium a family would be charged each year tiered by FPL?

Yes

No

4. Do premiums differ for different Medicaid Expansion CHIP populations beyond FPL (for example, by eligibility group)? If so, briefly explain the fee structure breakdown.

Yes, our Healthy Kids Expansion group has no premium. Our MICHild program has a \$10 per month per family premium. Each family with children enrolled in MICHild would pay a maximum of \$120 if one or more children were enrolled for an entire year.

5.

Which delivery system(s) do you use?

Select all that apply.

- Managed Care
- Primary Care Case Management
- Fee for Service

6. Which delivery system(s) are available to which Medicaid Expansion CHIP populations? Indicate whether eligibility status, income level, age range, or other criteria determine which delivery system a population receives.

Most individuals are enrolled in managed care. Native Americans and children with medical needs not covered by managed care are in fee for service.

Part 2: Separate CHIP Enrollment Fees, Premiums, and Delivery Systems

1.

Does your program charge an enrollment fee?

- Yes
- No

2.

Does your program charge premiums?

Yes

No

3.

Is the maximum premium a family would be charged each year tiered by FPL?

Yes

No

4. Do your premiums differ for different CHIP populations beyond FPL (for example, by eligibility group)? If so, briefly explain the fee structure breakdown.

N/A

5.

Which delivery system(s) do you use?

Select all that apply.

Managed Care

Primary Care Case Management

Fee for Service

6. Which delivery system(s) are available to which CHIP populations? Indicate whether eligibility status, income level, age range, or other criteria determine which delivery system a population receives.

All individuals in the MOMS program are enrolled in fee for service.

Part 3: Medicaid Expansion CHIP Program and Policy Changes

Indicate any changes you've made to your Medicaid Expansion CHIP program policies in the past federal fiscal year. Many changes listed in this section require a State Plan Amendment (SPA), while some don't, such as changing outreach efforts or changing the health plan enrollment process. Please submit a SPA to reflect any changes that do require a SPA.

Enrollment and Uninsured Data

Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

Program	Number of children enrolled in FFY 2019	Number of children enrolled in FFY 2020	Percent change
Medicaid Expansion CHIP	83,961	69,129	-17.665%
Separate CHIP	3,984	2,724	-31.627%

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

Our Medicaid expansion groups are higher income groups. These families may have transitioned to other Medicaid groups due to loss of income as a result of the pandemic. The separate CHIP program was also likely impacted by the pandemic as well as the news about the possibility of instituting a public charge rule for noncitizen individuals.

Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey.

Year	Number of uninsured children	Margin of error	Percent of uninsured children (of total children in your state)	Margin of error
2015	44,000	4,000	1.9%	0.2%
2016	41,000	4,000	1.8%	0.2%
2017	34,000	4,000	1.5%	0.2%
2018	38,000	5,000	1.7%	0.2%
2019	44,000	6,000	2%	0.3%

Percent change between 2018 and 2019
Not Available

2.

Are there any reasons why the American Community Survey estimates wouldn't be a precise representation of the actual number of uninsured children in your state?

Yes

No

3.

Do you have any alternate data source(s) or methodology for measuring the number and/or percent of uninsured children in your state?

Yes

No

4. Is there anything else you'd like to add about your enrollment and uninsured data?

Program Outreach

1.

Have you changed your outreach methods in the last federal fiscal year?

Yes

No

2.

Are you targeting specific populations in your outreach efforts?

For example: minorities, immigrants, or children living in rural areas.

Yes

No

3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

We have found electronic and word of mouth outreach to be the most effective.

4. Is there anything else you'd like to add about your outreach efforts?

5.

Eligibility, Enrollment, and Operations

Substitution of Coverage

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

- Yes
- No
- N/A

2.

Do you match prospective CHIP enrollees to a database that details private insurance status?

- Yes
- No
- N/A

%

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

6.

Eligibility, Enrollment, and Operations

Renewal, Denials, and Retention

Part 1: Eligibility Renewal and Retention

1.

Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?

This question should only be answered in respect to Separate CHIP.

- Yes
- No
- N/A

2.

In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

Yes

No

3.

Do you send renewal reminder notices to families?

Yes

No

4. What else have you done to simplify the eligibility renewal process for families?

We attempt to passively renew individuals using the verified data already in our systems before we reach out to ask them for any information.

5. Which retention strategies have you found to be most effective?

We have found allowing online renewals has been one of our most effective retention strategies.

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?

7. Is there anything else you'd like to add that wasn't already covered?

Part 2: CHIP Eligibility Denials (Not Redetermination)

1.

How many applicants were denied CHIP coverage in FFY 2020?

Don't include applicants being considered for redetermination - this data will be collected in Part 3.

7845

2.

How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.

0

3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

7845

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

0

4.

How many applicants were denied CHIP coverage for other reasons?

0

5. Did you have any limitations in collecting this data?

Table: CHIP Eligibility Denials (Not Redetermination)

This table is auto-populated with the data you entered above.

Type	Number	Percent
Total denials	7845	100%
Denied for procedural reasons	0	0%
Denied for eligibility reasons	7845	100%
Denials for other reasons	0	0%

Part 3: Redetermination in CHIP

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in CHIP in FFY 2020?

393330

2.

Of the eligible children, how many were then screened for redetermination?

51230

3.

How many children were retained in CHIP after redetermination?

20847

4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

Computed:

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.

4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

Table: Redetermination in CHIP

These tables are auto-populated with the data you entered above.

Part 4: Redetermination in Medicaid

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1.

How many children were eligible for redetermination in Medicaid in FFY 2020?

77693

2.

Of the eligible children, how many were then screened for redetermination?

5882

3.

How many children were retained in Medicaid after redetermination?

3302

4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

Computed:

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to an income that was too high and/or eligibility in CHIP instead.

4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

Table: Redetermination in Medicaid

These tables are auto-populated with the data you entered above.

Part 5: Tracking a CHIP cohort (Title XXI) over 18 months

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). You'll identify a new cohort every two years. This year you'll report the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). How does your state define "newly enrolled" for this cohort?

Newly enrolled in Medicaid: Children in this cohort weren't enrolled in Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in Medicaid in December 2019.

Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

Dental Benefits

Tell us about the children receiving dental benefits in your Separate CHIP program. Include children who are receiving full benefits and those who are only receiving supplemental dental benefits. Include the unduplicated number of children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

Note on age groups

Children should be in age groups based on their age on September 30th, the end of the federal fiscal year (FFY). For example, if a child turns three years old on September 15th, the child should be included in the "ages 3-5" group. Even if the child received dental services on September 1st while they were still two years old, all dental services should be counted as their age at the end of the FFY.

1.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-18 years) instead.

Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100-D9999 (or equivalent CDT codes D0100-D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

6.

How many children in the "ages 6-9" group received a sealant on at least one permanent molar tooth during FFY 2020?

Sealant codes and definitions

The sealant on a permanent molar tooth is provided by a dental professional for whom placing a sealant is within their scope of practice. It's defined by HCPCS code D1351 (or equivalent CDT code D1351) based on an unduplicated paid, unpaid, or denied claim. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, and 31, and additionally - for states covering sealants on third molars ("wisdom teeth") - teeth numbered 1, 16, 17, and 32.

Eligibility, Enrollment, and Operations

Health Services Initiative (HSI) Programs

All states with approved HSI program(s) should complete this section. States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1.

Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

Even if you're not currently operating the HSI program, if it's in your current approved CHIP State Plan, please answer "yes."

Yes

No

Tell us about your HSI program(s).

1. What is the name of your HSI program?

Michigan Poison Control Center

2.

Are you currently operating the HSI program, or plan to in the future?

Yes

No

3. Which populations does the HSI program serve?

The Michigan Poison Control Center serves the state of Michigan.

4.

How many children do you estimate are being served by the HSI program?

35038

5.

How many children in the HSI program are below your state's FPL threshold?

2147

Computed: 6.13%

Skip to the next section if you're already reporting HSI metrics and outcomes to CMS, such as in quarterly or monthly reports.

6. How do you measure the HSI program's impact on the health of low-income children in your state? Define a metric to measure the impact.

The state's metric to measure the HSI program's impact is the percent of unintentional exposure calls for children under 19 that are handled without an emergency department visit or 911 call.

7. What outcomes have you found when measuring the impact?

Of the calls received in 2019, 68% were handled by the control center without an emergency department visit or 911 call.

8. Is there anything else you'd like to add about this HSI program?

To expand on question 5: This data is not currently available. Effective August 1, 2019, the Michigan Poison Control Center transferred operations from the Detroit Medical Center to Wayne State University. During this change, the complete electronic medical record was not transitioned. As a result, the state only has data on pediatric contacts between August 1, 2019 and December 31, 2019. In this five-month time frame, the Michigan Poison Control Center served a minimum of 2,147 children enrolled in Medicaid. This number is likely higher as the Michigan Poison Control Center is not always able to collect insurance information from callers. The state expects to be able to report data for the entire calendar year for this measure next year.

7. What outcomes have you found when measuring the impact?

8. Is there anything else you'd like to add about this HSI program?

To expand on question 4: In 2020 the program served 479 children and 12 pregnant women. To expand on question 5: This data is not currently available. Abatement activities are only permissible for federal funds if the services are delivered to properties that a Medicaid or CHIP-eligible individual, under the age of 19, or pregnant woman is currently residing at or visited regularly.

State Plan Goals and Objectives

Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different.

Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.

1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

Continue to enroll the uninsured, low income pregnant women and their unborn child in Michigan in either the Medicaid program or MOMs, as appropriate.

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal

Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP in the last federal fiscal year.

The the difference between the number of pregnant women enrolled in CHIP FY2020 and FY2019.

4.

8.

Which data source did you use?

- Eligibility or enrollment data
- Survey data
- Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

Due to the constraints of the format of this form, negative numbers cannot be input. The actual numerator should be -1,260 which amounts to -31.62% growth for the year. Progress for this year's CHIP goals were likely hampered by several factors as discussed in Section 2 Part 1.

10. What are you doing to continually make progress towards your goal?

Table 2: Administrative Costs

This table is auto-populated with the data you entered above.
 Your total administrative costs cannot be more than 10% of your total CHIP program costs (the sum of your benefit and administrative costs). The 10% administrative cap is calculated by dividing the total benefit costs by 9.

Type	FFY 2020	FFY 2021	FFY 2022
Personnel	Not Answered	Not Answered	Not Answered
General administration	4699	2877500	2877500

10% administrative cap	29535958.78	34692777.78	34960666.67

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding.

This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2022 will be calculated once the eFMAP rate for 2022 becomes available. In the meantime, these values will be blank.

Type	FFY 2020	FFY 2021	FFY 2022
Total program costs	285636484	338172500	341283500
