RE: Colorado #14-0010

Dear Ms. Birch:

We have reviewed the proposed State Plan Amendment (SPA) submitted under transmittal number (TN) 14-0010. This Alternative Benefits Plan SPA amendment adds Adult Dental Benefits to the existing Alternative Benefit Plan for Colorado Medicaid previously approved under (TN) 13-0055.

Please be informed that this State Plan Amendment was approved June 30, 2014 with an effective date of April 1, 2014. We are enclosing the CMS-179 and the amended plan page(s).

In order to track expenditures for these SPA services, report those individuals whose expenditures qualify for the newly eligible federal medical assistance percentage on form CMS-64.9 VIII, line 8-Dental Services. For individuals not enrolled in the new adult group the respective claims need to be accounted for on the form CMS-64.9 Base, line 8-Dental Services.

If you have any questions concerning this amendment, please contact Curtis Volesky at (303) 844-7033.

Sincerely,

/s/

Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A) (i)(VIII) of the Act ABP2a

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

The Alternative Benefit Plan using the Essential Health Benefits and subject to 1937 is fully aligned with Colorado's approved Medicaid state plan in that the approved state plan will include the same coverage of the EHB preventive services. However, note that Colorado's approved Medicaid state plan does and will not include Habilitative Services. Coverage of habilitative services is required in the Alternative Benefit Plan. The state has aligned all other benefits between the Colorado state plan and the Alternative Benefit Plan. Therefore, the benefits established in the state's approved state plan and ABP that is the state's approved state plan are considered in alignment and Colorado is not required to implement a medically frail determination process, which would result in a choice between the Alternative Benefit Plan and the state's approved state plan.

Furthermore, the mental health parity requirements will be met because there are no limitations and financial requirements applicable to mental health/substance use disorder (MH/SUD) benefits that are more restrictive than those applicable to medical/surgical benefits. MH/SUD benefits will have no limitations and are presumed to be no more restrictive than those applicable to medical/surgical benefits.

Attachment 3.1-C-

Selection of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package ABP3

Select one of the following:

- The state/territory is amending one existing benefit package for the population defined in Section 1.
- The state/territory is creating a single new benefit package for the population defined in Section 1.

Name of benefit package:

Selection of the Section 1937 Coverage Option

The state/territory selects as its Section 1937 Coverage option the following type of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package under this Alternative Benefit Plan (check one):

- Benchmark Benefit Package.
- Benchmark-Equivalent Benefit Package.

The state/territory will provide the following Benchmark Benefit Package (check one that applies):

- The Standard Blue Cross/Blue Shield Preferred Provider Option offered through the Federal Employee Health Benefit Program (FEHBP).
- State employee coverage that is offered and generally available to state employees (State Employee Coverage):
- A commercial HMO with the largest insured commercial, non-Medicaid enrollment in the state/territory (Commercial HMO):
- Secretary-Approved Coverage.
 - The state/territory offers benefits based on the approved state plan.
 - The state/territory offers an array of benefits from the section 1937 coverage option and/or base benchmark plan benefit packages, or the approved state plan, or from a combination of these benefit packages.

Please briefly identify the benefits, the source of benefits and any limitations:

Selection of Base Benchmark Plan

The state/territory must select a Base Benchmark Plan as the basis for providing Essential Health Benefits in its Benchmark or Benchmark-Equivalent Package.

The Base Benchmark Plan is the same as the Section 1937 Coverage option.

Indicate which Benchmark Plan described at 45 CFR 156.100(a) the state/territory will use as its Base Benchmark Plan:

- Largest plan by enrollment of the three largest small group insurance products in the state's small group market.
- Any of the largest three state employee health benefit plans by enrollment.

Alternative Benefit Plan

- Any of the largest three national FEHBP plan options open to Federal employees in all geographies by enrollment.
- Largest insured commercial non-Medicaid HMO.

Plan name:

Other Information Related to Selection of the Section 1937 Coverage Option and the Base Benchmark Plan (optional):

Colorado chose to use the same base-benchmark for the ABP that the Colorado Marketplace is using for its qualified health plans. Indexing both Medicaid and QHPs to the same base-benchmark will help to ease transitions as clients churn across public and private coverage. To ease the transition of clients who churn across 1937 and 1905(a) coverage, Colorado will offer traditional state plan Medicaid benefits to the expansion population.

The state assures that all services in the base benchmark have been accounted for throughout the benefit chart found in ABP5.

The state assures the accuracy of all information in ABP5 depicting amount, scope and duration parameters of services authorized in the currently approved Medicaid state plan.

This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

The implementation plan for the Alternative Benefit Plan (ABP) under managed care has and will include public and tribal noticing, and messaging through stakeholder forums and provider bulletins. The department is also currently holding individual meetings with health plans, behavioral health organizations (BHOs), Regional Collaborative Organizations (RCCOs) and providers to discuss the details of the ABP. The health plans, BHOs and RCCOs will further communicate with providers and members how the Alternative Benefit Plan will affect them. Lastly, the department is negotiating managed care contract amendments to include the expansion population and will continue to monitor performance on an ongoing basis.

Furthermore, implementation includes changes to the MMIS system that allow provider reimbursement for new services that were not offered through traditional Medicaid. Several USPSTF A and B recommended preventive services were identified as procedures that were not formerly reimbursed but needed to become so in order to meet assurance standards. CPT and HCPCS codes were chosen to represent the new preventive services and are identically available for existing State Plan benefits as well as the Alternative Benefit Plan. These changes will be appropriately communicated to providers and clients.

Identify the date the managed care program was approved by CMS:

Describe program below:

Plan Model and Structure: Denver Health is a staff-model HMO, similar to the Kaiser model. Denver Health physicians are employees of the organization and are salaried. Denver Health Medicaid Choice (DHMC) is a full-risk capitation contract. Capitation payments are made monthly and DHMC provides all covered services to enrolled clients from these monies. In Colorado, Medicaid behavioral health is carved out from physical health contracts, so it is not included in DHMC. Certain other services are also carved out and paid directly by HCPF where such an arrangement makes sense. An example is non-emergent transportation, which HCPF provides through contracts with State counties and their vendors.

Plan Services: DHMC provides comprehensive physical health care including inpatient and outpatient hospital care, acute home health care, office visits, laboratory, radiology, DME and prescription drugs. Members can access all services without co-payments. Adult preventative care, family planning and the full range of Early Periodic Screening, Diagnosis and Treatment (EPSDT) services are covered. Members select a Primary Care Physician who coordinates all aspects of their care.

DHMC operates 9 community health centers and 12 school-based clinics in underserved neighborhoods throughout the Denver metropolitan area.

Plan Model and Structure: The plan is a 1915(a), non-risk Prepaid Inpatient Health Plan (PIHP). Rocky Mountain Health Plan (RMHP) has a network of physicians and contracts with the majority of them through the Mesa County Individual Practice Association (MCIPA). Through its contracts with the IPA, RMHP pays a negotiated amount for each provider service that is the same irrespective of the patient's insurance coverage. RMHP is an Administrative Services Organization (ASO) model, which means RMHP receives and adjudicates claims from its providers, reprices the claims to the Medicaid Fee Schedule, and submits them to Colorado Medicaid for payment. Claims are then paid to RMHP by the State on a fee-for-service basis.

RMHP receives a small monthly fee (per member per month) for their work in 1) claims adjudication and 2) care management/

coordination, which includes a variety of clinical quality and disease management programs.

Plan Services: RMHP provides comprehensive physical health care including inpatient and outpatient hospital care, acute home health care, office visits, laboratory, radiology, DME and prescription drugs. Adult preventative care, family planning and the full range of Early Periodic Screening, Diagnosis and Treatment (EPSDT) services are covered. Members select a Primary Care Physician who coordinates all aspects of their care. Members are also assigned a case manager who helps them understand and use their RMHP Medicaid benefits and relevant community resources.

May 2011

Describe program below:

The Accountable Care Collaborative (ACC) Program builds on the existing Primary Care Case Management (PCCM) Program. The program is designed to affordably optimize client health, functioning and self-sufficiency. The four main goals of the ACC program are ensuring access to a focal point of care or medical home, coordinating medical and non-medical care, improving member and provider experiences and providing the necessary data to support these functions.

The ACC program utilizes Regional Care Coordination Organizations (RCCO's) to accomplish program objectives. RCCOs, Primary Care Medical Providers (PCMP) and data and information from a Statewide Data and Analytics Contractor (SDAC) combine to optimize the delivery of outcome-based healthcare service delivery. The aim of the RCCO is to achieve health outcomes while ensuring comprehensive care coordination. This aim includes a medical home level of care for every member. These objectives are attained through the RCCOs' primary responsibilities of network development, provider support, medical management and care coordination, accountability and reporting.

The ACC Program utilizes a voluntary passive enrollment model. Clients have the opportunity to opt out of the program should they choose but they must make a specific request to the Department.

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

The majority of clients will be served through a fee-for-service delivery system where providers are paid a fee for each service they provide. The department describes its payment methodologies for mandatory and optional Medicaid services in its approved Medicaid State Plan. All such state plan amendments are consistent with federal statutes and regulations.

The department typically develops its rates based on the cost of providing the service, a review of what commercial payers reimburse in the private market or a percentage of what Medicare pays for equivalent services.
