RE: Colorado #14-0046

Dear Ms. Birch:

We have reviewed the proposed State Plan Amendment (SPA) submitted under transmittal number (TN) 14-0046. This amendment concerns the addition of an annual maximum to the adult dental benefit and the addition of an adult denture benefit to Colorado's Alternative Benefit Plan to maintain the State's assurance that the ABP matches regular Medicaid. The annual maximum to the Adult Dental benefit and an Adult Denture benefits were added to Colorado's State Plan effective July 1, 2014 through approved CO SPA 14-036.

Please be informed that this State Plan Amendment was approved November 17, 2014 with an effective date of October 1, 2014. We are enclosing the Summary Form (formerly the CMS-179) and the amended plan page(s).

In order to track expenditures associated with this amendment, Colorado should follow the CMS-64 reporting instructions outlined in Section 2500 of the State Medicaid Manual (SMM).

For those individuals whose expenditures qualify for the newly eligible federal medical assistance percentage report on the Form CMS-64.9 VIII and those not enrolled in the new adult group, claims should be reported on the Form CMS-64.9 Base.

This amendment would affect expenditures reported on 8- Dental Services.

If you have any questions concerning this amendment, please contact Curtis Volesky at (303) 844-7033.

Sincerely,

/s/

Mary Marchioni

Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A) ABP2a (i)(VIII) of the Act

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

The Alternative Benefit Plan using the Essential Health Benefits and subject to 1937 is fully aligned with Colorado's approved Medicaid state plan in that the approved state plan will include the same coverage of the EHB preventive services. However, note that Colorado's approved Medicaid state plan does and will not include Habilitative Services. Coverage of habilitative services is required in the Alternative Benefit Plan. The state has aligned all other benefits between the Colorado state plan and the Alternative Benefit Plan. Therefore, the benefits established in the state's approved state plan and ABP that is the state's approved state plan are considered in alignment and Colorado is not required to implement a medically frail determination process, which would result in a choice between the Alternative Benefit Plan and the state's approved state plan.

Furthermore, the mental health parity requirements will be met because there are no limitations and financial requirements applicable to mental health/substance use disorder (MH/SUD) benefits that are more restrictive than those applicable to medical/surgical benefits. MH/SUD benefits will have no limitations and are presumed to be no more restrictive than those applicable to medical/surgical benefits.

Other Information Related to Selection of the Section 1937 Coverage Option and the Base Benchmark Plan (optional):

Colorado chose to use the same base-benchmark for the ABP that the Colorado Marketplace is using for its qualified health plans. Indexing both Medicaid and QHPs to the same base-benchmark will help to ease transitions as clients churn across public and private coverage. To ease the transition of clients who churn across 1937 and 1905(a) coverage, Colorado will offer traditional state plan Medicaid benefits to the expansion population.

The state assures that all services in the base benchmark have been accounted for throughout the benefit chart found in ABP5.

The state assures the accuracy of all information in ABP5 depicting amount, scope and duration parameters of services authorized in the currently approved Medicaid state plan.

Managed Care Options

Managed Care Assurance

- The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

The implementation plan for the Alternative Benefit Plan (ABP) under managed care has and will include public and tribal noticing, and messaging through stakeholder forums and provider bulletins. The department is also currently holding individual meetings with health plans, behavioral health organizations (BHOs), Regional Collaborative Organizations (RCCOs) and providers to discuss the details of the ABP. The health plans, BHOs and RCCOs will further communicate with providers and members how the Alternative Benefit Plan will affect them. Lastly, the department is negotiating managed care contract amendments to include the expansion population and will continue to monitor performance on an ongoing basis.

Furthermore, implementation includes changes to the MMIS system that allow provider reimbursement for new services that were not offered through traditional Medicaid. Several USPSTF A and B recommended preventive services were identified as procedures that were not formerly reimbursed but needed to become so in order to meet assurance standards. CPT and HCPCS codes were chosen to represent the new preventive services and are identically available for existing State Plan benefits as well as the Alternative Benefit Plan. These changes will be appropriately communicated to providers and clients.

Describe program below:

Plan Model and Structure: Denver Health is a staff-model HMO, similar to the Kaiser model. Denver Health physicians are employees of the organization and are salaried. Denver Health Medicaid Choice (DHMC) is a full-risk capitation contract. Capitation payments are made monthly and DHMC provides all covered services to enrolled clients from these monies. In Colorado, Medicaid behavioral health is carved out from physical health contracts, so it is not included in DHMC. Certain other services are also carved out and paid directly by HCPF where such an arrangement makes sense. An example is non-emergent transportation, which HCPF provides through contracts with State counties and their vendors.

Plan Services: DHMC provides comprehensive physical health care including inpatient and outpatient hospital care, acute home health care, office visits, laboratory, radiology, DME and prescription drugs. Members can access all services without co-payments. Adult preventative care, family planning and the full range of Early Periodic Screening, Diagnosis and Treatment (EPSDT) services are covered. Members select a Primary Care Physician who coordinates all aspects of their care.

DHMC operates 9 community health centers and 12 school-based clinics in underserved neighborhoods throughout the Denver metropolitan area.

Describe program below:

Plan Model and Structure: The plan is a 1915(a), non-risk Prepaid Inpatient Health Plan (PIHP). Rocky Mountain Health Plan (RMHP) has a network of physicians and contracts with the majority of them through the Mesa County Individual Practice Association (MCIPA). Through its contracts with the IPA, RMHP pays a negotiated amount for each provider service that is the same irrespective of the patient's insurance coverage. RMHP is an Administrative Services Organization (ASO) model, which means RMHP receives and adjudicates claims from its providers, reprices the claims to the Medicaid Fee Schedule, and submits them to Colorado Medicaid for payment. Claims are then paid to RMHP by the State on a fee-for-service basis.

RMHP receives a small monthly fee (per member per month) for their work in 1) claims adjudication and 2) care management/

Alternative Benefit Plan

coordination, which includes a variety of clinical quality and disease management programs.

Plan Services: RMHP provides comprehensive physical health care including inpatient and outpatient hospital care, acute home health care, office visits, laboratory, radiology, DME and prescription drugs. Adult preventative care, family planning and the full range of Early Periodic Screening, Diagnosis and Treatment (EPSDT) services are covered. Members select a Primary Care Physician who coordinates all aspects of their care. Members are also assigned a case manager who helps them understand and use their RMHP Medicaid benefits and relevant community resources.

Identify the date the managed care program was approved by CMS:

May 2011

Describe program below:

The Accountable Care Collaborative (ACC) Program builds on the existing Primary Care Case Management (PCCM) Program. The program is designed to affordably optimize client health, functioning and self-sufficiency. The four main goals of the ACC program are ensuring access to a focal point of care or medical home, coordinating medical and non-medical care, improving member and provider experiences and providing the necessary data to support these functions.

The ACC program utilizes Regional Care Coordination Organizations (RCCO's) to accomplish program objectives. RCCOs, Primary Care Medical Providers (PCMP) and data and information from a Statewide Data and Analytics Contractor (SDAC) combine to optimize the delivery of outcome-based healthcare service delivery. The aim of the RCCO is to achieve health outcomes while ensuring comprehensive care coordination. This aim includes a medical home level of care for every member. These objectives are attained through the RCCOs' primary responsibilities of network development, provider support, medical management and care coordination, accountability and reporting.

The ACC Program utilizes a voluntary passive enrollment model. Clients have the opportunity to opt out of the program should they choose but they must make a specific request to the Department.

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

- Traditional state-managed fee-for-service

Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

The majority of clients will be served through a fee-for-service delivery system where providers are paid a fee for each service they provide. The department describes its payment methodologies for mandatory and optional Medicaid services in its approved Medicaid State Plan. All such state plan amendments are consistent with federal statutes and regulations.

The department typically develops its rates based on the cost of providing the service, a review of what commercial payers reimburse in the private market or a percentage of what Medicare pays for equivalent services.

ABP9

Yes

Provide a description of employer sponsored insurance, including the population covered, the amount of premium assistance by population, employer sponsored insurance activities including required contribution, cost-effectiveness test requirements, and benefit information:

The Medicaid agency pays all premiums deductibles, coinsurance and other cost sharing obligations for items and services covered under the State plan as specified in the qualified employer sponsored coverage without regard to limitations specified in section 1916 or section 1916A of the Act for eligible individuals under age 19 who have access to and elect to enroll in such coverage. The eligible individual is entitled to services covered by the State plan which are not included in the employer sponsored coverage.

When coverage for eligible family members under age 19 is not possible unless an ineligible parent enrolls, the Medicaid agency pays premiums for enrollment of the ineligible parent and at the parent option other ineligible family members the agency also pays deductibles, coinsurance and other cost sharing obligations for items and services covered under the State plan for the ineligible parent.

To determine cost effectiveness, the Medicaid agency determines whether the annual cost of an applicant's commercial health insurance is less than the estimated total cost of the applicant's annual medical expenses, out-of-pocket costs, and administrative costs. If the commercial health insurance is less, the client is eligible for this program. For qualified employer sponsored coverage the employer must contribute at least 40 percent of the premium cost.

The state assures that ESI coverage is established in sections 3.2 and 4.22(h) of the state's approved Medicaid state plan. The beneficiary will receive a benefit package that includes a wrap of benefits around the employer sponsored insurance plan that equals the benefit package to which the beneficiary is entitled. The beneficiary will not be responsible for payment of premiums or other cost sharing that exceeds nominal levels as established at 42 CFR part 447 subpart A.

The state/territory otherwise provides for payment of premiums.
