RE: Colorado #17-0042

Dear Mr. Massey:

We have reviewed the proposed State Plan Amendment (SPA) submitted under transmittal number (TIN) 17-0042. This Amendment changes to the Alternative Benefit Plan form 5 ([ABP5]) in order to align with the behavioral health and largested case management State Plan benefit pages at Attachment 3.1-A.

Hease be informed that this State Illan Amendment was approved today with an effective date of Ogtober 1, 2017. We are englosing the CMS-179 and the amended plan plage(|s).

In order to track expenditures associated with this amendment, Cloloraca should follow the Form CMS-64 reporting instructions outlined in Section 2500 of the State Medicaic Manual (SMM).

For Bahavioral Health and RIHH Substance Abuse expanditures, individuals acovered by the state's 1915(b) waiver and whose expanditures qualify for the newly eligible federal medical assistance percentage, report on the Form CMS-62.9 VIII Waiver MEG: AwDC on Line 18B2 - Brepaid Inpatient Health Plan.

For Special Connections Brogram Substance Abuse expenditures, individuals covered by the state's 1915(b) waiver and whose expenditures qualify for the newly eligible federal medical assistance percentage, claims should be reported on the Form CIMS-64.9 VIII Waiver MHG: AwDC on Hine 24A - Targeted Case Management Services - Community Case-Management.

For Bahavioral Health and Sull stance Abuse expenditures, individuals not govered by the state's 1915(b) and whose expenditures qualify for the newly eligible federal medical assistance percentage, report on the Form CMS-64. 9 VIII on Line 24A - Targetec Case Management Services - Community Case-Management.

For those individuals whose expenditures qualify for the newly eligible federal medical assistance percentage, report on the Form CMS-64.9 VIII. This amendment could affect expenditures reported on various lines of the Form CMS-64 VIII dependent upon where the client receives services and the type of client.

Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A) (i)(VIII) of the Act

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

The Alternative Benefit Plan using the Essential Health Benefits and subject to 1937 is fully aligned with Colorado's approved Medicaid state plan in that the approved state plan will include the same coverage of the EHB preventive services. However, note that Colorado's approved Medicaid state plan does and will not include Habilitative Services. Coverage of habilitative services is required in the Alternative Benefit Plan. The state has aligned all other benefits between the Colorado state plan and the Alternative Benefit Plan. Therefore, the benefits established in the state's approved state plan and ABP that is the state's approved state plan are considered in alignment and Colorado is not required to implement a medically frail determination process, which would result in a choice between the Alternative Benefit Plan and the state's approved state plan.

Furthermore, the mental health parity requirements will be met because there are no limitations and financial requirements applicable to mental health/substance use disorder (MH/SUD) benefits that are more restrictive than those applicable to medical/surgical benefits. MH/SUD benefits will have no limitations and are presumed to be no more restrictive than those applicable to medical/surgical benefits.

Other Information Related to Selection of the Section 1937 Coverage Option and the Base Benchmark Plan (optional):

Colorado chose to use the same base-benchmark for the ABP that the Colorado Marketplace is using for its qualified health plans. Indexing both Medicaid and QHPs to the same base-benchmark will help to ease transitions as clients churn across public and private coverage. To ease the transition of clients who churn across 1937 and 1905(a) coverage, Colorado will offer traditional state plan Medicaid benefits to the expansion population.

The state assures that all services in the base benchmark have been accounted for throughout the benefit chart found in ABP5.

The state assures the accuracy of all information in ABP5 depicting amount, scope and duration parameters of services authorized in the currently approved Medicaid state plan.

Managed Care Implementation Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts. The implementation plan for the Alternative Benefit Plan (ABP) under managed care has and will include public and tribal noticing, and messaging through stakeholder forums and provider bulletins. The department is also currently holding individual meetings with health plans, behavioral health organizations (BHOs), Regional Collaborative Organizations (RCCOs) and providers to discuss the details of the ABP. The health plans, BHOs and RCCOs will further communicate with providers and members how the Alternative Benefit Plan will affect them. Lastly, the department is negotiating managed care contract amendments to include the expansion population and will continue to monitor performance on an ongoing basis. Furthermore, implementation includes changes to the MMIS system that allow provider reimbursement for new services that were not offered through traditional Medicaid. Several USPSTF A and B recommended preventive services were identified as procedures that were not formerly reimbursed but needed to become so in order to meet assurance standards. CPT and HCPCS codes were chosen to represent the new preventive services and are identically available for existing State Plan benefits as well as the Alternative Benefit Plan. These changes will be appropriately communicated to providers and clients. MCO: Managed Care Organization The managed care delivery system is the same as an already approved managed care program. The Accountable Care Collaborative (ACC) Program builds on the existing Primary Care Case Management (PCCM) Program. The program is designed to affordably optimize client health, functioning and self-sufficiency. The four main goals of the ACC program are ensuring access to a focal point of care or medical home, coordinating medical and non-medical care, improving member and provider experiences and providing the necessary data to support these functions. The ACC program utilizes Regional Care Coordination Organizations (RCCO's) to accomplish program objectives. RCCOs, Primary Care Medical Providers (PCMP) and data and information from a Statewide Data and Analytics Contractor (SDAC) combine to optimize the delivery of outcome-based healthcare service delivery. The aim of the RCCO is to achieve health outcomes while ensuring comprehensive care coordination. This aim includes a medical home level of care for every member. These objectives are attained through the RCCOs' primary responsibilities of network development, provider support, medical management and care coordination, accountability and reporting.		
The ACC Program utilizes a voluntary passive enrollment model. Clients have the opportunity to opt out of the program should the they choose but they must make a specific request to the Department.

O Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

The majority of clients will be served through a fee-for-service delivery system where providers are paid a fee for each service they provide. The department describes its payment methodologies for mandatory and optional Medicaid services in its approved Medicaid State Plan. All such state plan amendments are consistent with federal statutes and regulations.

The department typically develops its rates based on the cost of providing the service, a review of what commercial payers reimburse in the private market or a percentage of what Medicare pays for equivalent services.

This is a statewide managed care program that provides comprehensive mental health services to all Coloradans with Medicaid. Medicaid members are assigned to a Behavioral Health Organization (BHO) based on where they live. BHOs arrange or provide for medically necessary mental health services to clients in their service areas. There are five BHOs statewide: Access Behavioral Care (ABC); Behavioral Healthcare Inc (BHI); Colorado Health Partnerships (CHP); Foothills Behavioral Health Partnerships (FBHP); Northeast Behavioral Health Partnerships (NBHP). These five BHO contracts go through a competitive bid process every five years and within each 5 year period, the Department has the option of renewing or not renewing the contract on a yearly basis.

Eligibility:

Colorado residents who are U.S. citizens or legal permanent residents for at least five years are eligible. Individuals must have a mental health diagnosis that is covered by the program to receive covered services.

Services Available:

- · Inpatient hospital psychiatric care
- · Outpatient hospital services
- Psychiatrist services
- · Individual and group therapy
- Medication management
- Clinic case management services
- Emergency services
- Vocational services
- · Clubhouse/drop-in centers
- Residential services
- Assertive Community Treatment
- Recovery services
- Respite services
- · Prevention/early intervention activities
- · Home and Community-Based services for children/youth

Cost Sharing:

CO-17-0042

There are no co-pays for Medicaid mental health services. However, members with other insurance must use that insurance first before using Medicaid benefits.
