I. Family Medicine Program

Teaching Hospital Allocation: Effective October 1, 1994 hospitals shall qualify for additional payment when they meet the criteria for being a Teaching Hospital.

A hospital qualifies as a Teaching Hospital when it has a Family Medicine Program meeting the Medicaid inpatient utilization rate formula. These Family Medicine programs must be recognized by the Family Medicine Commission and are defined as those programs having at least 10 residents and interns. The Family Medicine program must be affiliated with a Medicaid participating hospital that has a Medicaid utilization rate of at least one percent. Family Medicine programs meeting these criteria shall be eligible for an additional payment adjustment as follows:

The Family Medicine Residency Program Payment is calculated on a state fiscal year (July 1 through June 30) basis and is distributed to all qualified providers in monthly installments. Payments will be made consistent with the level of funds established and amended by the General Assembly, which is published in the Long Bill and subsequent amendments each year. Any changes to the rate setting methodology will be approved by the Medical Services Board and the Centers for Medicare and Medicaid Services prior to implementation. Once funds and rate setting methodology have been established, rate letters will be distributed to providers qualified to receive the payment each fiscal year and 30 days prior to any adjustment in the payment. Rate letters will document any change in the total funds available, the payment specific to each provider, and other relevant figures specific to each provider so that providers may understand and independently calculate their payment. Rate letters allow providers to dispute the payment on the basis that the payment was not calculated correctly given the established funds and rate setting methodology. Total funds available by state fiscal year (SFY) for this payment are as follows:

SFY 2003-04: \$1,524,626	SFY 2004-05: \$1,444,944	SFY 2005-06: \$1,576,502

Effective May 23, 2008, the Family Medicine Residency Program Payment for providers that qualify to receive the State University Teaching Hospital Payment is suspended.

Effective May 23, 2008, when state owned government hospitals, non-state owned government hospitals, and privately owned hospitals meet the criteria for being a State University Teaching Hospital, they will qualify to receive additional Medicaid reimbursement for services provided to Medicaid recipients. The additional Medicaid reimbursement will be commonly referred to as the "State University Teaching Hospital Payment", which will be established on an annual state fiscal year (July 1 through June 30) basis and dispensed in equal quarterly installments.

The State University Teaching Hospital Payment is made only if there is available federal financial participation under the Upper Payment Limit for inpatient hospital services after the Medicaid reimbursement (as defined in this attachment as a Diagnosis Related Group and/or per diem reimbursement paid under the Medicaid program).

A State University Teaching Hospital is defined as a Colorado hospital which meets the following criteria:

1. Provides supervised teaching experiences to graduate medical school interns and residents enrolled in a state institution of higher education.
2. More than fifty percent (50%) of its credentialed physicians are members of the faculty at a state institution of higher education.

Qualified providers and the total yearly payments to those are as follows:
