Executive Summary

Summary Description Including Goals and Objectives

The District of Columbia's (DC) Department of Health Care Finance (DHCF) developed DC's Health Home (HH) State Plan benefit for beneficiaries with three or more chronic conditions. The goals of DHCF's HH program for beneficiaries with three or more chronic conditions are to improve the integration of medical and behavioral health, community supports and social services; to lower rates of avoidable emergency department (ED) use; to reduce preventable hospital admissions and re-admissions; to reduce healthcare costs; to improve the experience of care, quality of life and beneficiary satisfaction; and to improve health outcomes. Under DHCF's approach, the HH will be the central point for coordinating patient-centered and population-focused care for beneficiaries with three or more chronic conditions. HH providers will be embedded in the primary care setting to effectively manage the full breadth of beneficiary needs. A beneficiary can only be enrolled and receive HH services from one HH at a time. DHCF will ensure payments to HH providers do not

duplicate payments for comparable services financed by Medicaid. HH services will be consistent with, but not limited to, those set forth under 42 CFR 440.169.
