INCOME AND ELIGIBILITY VERIFICATION SYSTEM PROCEDURES
REQUESTS TO OTHER STATE AGENCIES

In accordance with the requirements of 42 CFR 435.940 through 435.960 and Section 1137 of the Act, the Medicaid agency has a system for income and eligibility verification.

This Attachment describes in accordance with 42 CFR 435.948(a)(6) the information that will be requested in order to verify eligibility or the correct payment amount and the agencies and the State(s) from which that information will be requested.

The State of Delaware has an eligibility system that provides for data matching through the Public Assistance Reporting Information System (PARIS), or any successor system, including matching with medical assistance programs operated by other States for the purpose of eligibility determination of public programs. The PARIS match helps the State maintain program integrity by detecting and deterring improper payments.

The PARIS match collects data from three separate data matches: Federal, Veterans Affairs (VA), and Interstate. The Federal match provides information about recipient's military and civil service benefits. The VA match provides information about veterans' pension and compensation benefits. The Interstate provides information about recipients' possible receipt of duplicative TANF, Medicaid, and Food Benefits issued by the 50 states, Washington, D.C., and Puerto Rico.

The information that is requested will be exchanged with other States and entities legally entitled to verify title XIX applicants and individuals eligible for covered title XIX services consistent with applicable PARIS agreements.
