	State:	Iowa	
Citation		Condition or Requirement	

The definition of "family" for purposes of the 250% family income eligibility test includes:

- For disabled individuals under 18 and unmarried: the individual, parents living with the individual, unmarried siblings under 18 living with the individual, and children of the individual who live with the individual.
- For disabled individuals 18 or older or married: the individual, the individual's spouse living with the individual, and any unmarried children under 18 who are living with the individual.

In comparing family income to 250%, SSI income disregards and exemptions are applied.

Premiums will be charged for recipients with individual gross income in excess of 150% of the federal poverty level and will be adjusted annually based on changes in the average state employee health insurance premium. The premium is determined according to a sliding scale based on income, with the maximum premium, based on the average state employee's health insurance premium, charged only when not more than 7.5% of an individual's gross income.

Monthly premium amounts established August 1, 2012, begin at \$34 for individuals with gross income greater than 150% of the federal poverty level and increase to a maximum of \$667 for individuals with gross income greater than 1480% of the federal poverty level. No other cost-sharing charges apply to this group, except for otherwise applicable Iowa Medicaid co-payments.
