RE: Idaho State Plan Amendment (SPA) Transmittal Number 18-0007

Dear Mr. Jeppesen:

The Centers for Medicare & Medicaid Services (CMS) has completed its review of the enclosed State Plan Amendment (SPA), Transmittal Number 18-0007. This SPA amends Idaho's Enhanced Alternative Plan (Enhanced ABP) to add coverage of additional Mental Health/Substance Use Disorder (MH/SUD) benefits, Early Intervention Services, and to make updates to the Enhanced ABP's Adult Dental benefits.

This SPA was approved by CMS on April 23, 2019, with an effective date of July 1, 2018. Enclosed is a copy of the CMS-179 summary form, as well as the approved pages for incorporation into the Idaho State Plan.

If there are any questions concerning this approval, please contact me or your staff may contact Walter Neal at walter.neal@cms.hhs.gov or at 206-615-2330.

Sincerely,

Digitally signed by David L. Meacham

Date: 2019.04.26 06:50:28 -07'00'

See "Other 1937 Benefits" for additional provider types covered beyond the Base Benchmark: Other Licensed Practitioner, Licensed Midwife.

Participants in the optional pregnant individuals group may receive EHB and other 1937 services that are pregnancy-related as described below:

Idaho covers services that are necessary for the health of the pregnant individual and fetus, or that have become necessary because of the individual having been pregnant and services for other conditions that might complicate the pregnancy. Coverage includes prenatal care, delivery, postpartum care, and family planning services. This coverage includes services for the mother or fetus for other conditions that might complicate the pregnancy, including those for diagnoses, illnesses, or medical conditions that might threaten the carrying of the fetus to full term or the safe delivery of the fetus. Pregnancy-related services are covered for a postpartum period that begins on the last day of pregnancy and extends through the end of the month in which the 60-day period following termination of pregnancy ends.

Idaho does not cover services for pregnant individuals that are medically contraindicated during pregnancy or elective procedures for conditions that do not threaten the health of the pregnant individual, the carrying of the fetus to full term, or the safe delivery of the fetus.

Based on the benefits provided, this group does not meet Minimum Essential Coverage under section 5000A(f)(1)(E) of the Internal Revenue Code on 1986.

Program Description: Partial Care Treatment; 1905(a)(6) of the Act.

* Services are prior authorized, and there is no limitation in amount, duration or scope.

* A distinct and organized intensive ambulatory treatment service offering less than 24-hour daily care that is reasonable and necessary for the diagnosis or active treatment of the individual's condition, reasonably expected to improve or reduce disability or restore the individual's condition and functional level and to prevent relapse or hospitalization. These services occur through the application of principles of behavior modification for behavior change and structured, goal-oriented group socialization for skill acquisition.

* Partial Care is a program of services that include support therapy, medication monitoring, and skills building as appropriate for the individual. Each service must be delivered by a person licensed or certified to deliver those services.

Partial Care treatment may be provided by one of the following contracted licensed or certified professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor

Alternative Benefit Plan

6) Licensed Marriage and Family Therapist
7) Providers who hold at least a Bachelor's degree and are Licensed Social Workers
8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
9) Registered Nurse

- These licensed practitioners provide supervision to unlicensed practitioners, including certified alcohol and drug counselors.
- Such supervision is included in the State's Scope of Practice Act for the supervising licensed practitioner.
- The licensed practitioner assumes professional responsibility for the services provided by the unlicensed practitioner.

Scope Limit:

IOP services do not include overnight housing.

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

An Intensive Outpatient Program (IOP) can be used to treat mental health conditions or substance use disorders, or can specialize in the treatment of co-occurring mental health and substance-related disorders. IOP is a structured program for participants whose symptoms result in significant personal distress and/or significant psychosocial and environmental issues. IOP provides not only behavioral health treatment, but also the opportunity to practice new skills. Programs for adolescents are offered separately from programs for adults, and each program and its staff must meet the certification and credentialing criteria of the Idaho Department of Health and Welfare. In compliance with EPSDT, this service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

IOP is appropriate for participants who are experiencing symptoms that can be addressed and managed in a level of care that is less intensive than psychiatric hospitalization but that require a higher level of care than routine outpatient services. The program may function as a step-down option from psychiatric hospitalization, partial hospitalization, or residential treatment, and may also be used to prevent or minimize the need for a more intensive level of treatment.

IOP–Mental Health occurs at a minimum of three (3) days per week, maintaining at least nine (9) hours of service for adults and at least six (6) hours of service for adolescents. IOP–SUDs maintains nine (9) to nineteen (19) hours of service weekly for adults and six (6) to nineteen (19) hours of service for adolescents. Services are expected to be maintained at this level throughout the duration of the program. However, services may be authorized at a less intense level for fewer hours per week as the participant

Alternative Benefit Plan

moves toward discharge until the participant can be safely and appropriately transitioned back into a less intensive level of outpatient care.

IOP services may include any of the following:

- Individual, group, and family psychotherapy and education focused on recovery
- Evidence-informed practices such as group therapy, cognitive behavioral therapy (CBT), motivational interviewing, and multidimensional family therapy
- Psychiatric evaluations and medication management
- Substance use screening and monitoring, if appropriate
- Transition management and discharge planning
- 24-hour crisis coverage
- Initial and ongoing risk assessments

Due to the non-residential nature of the program, IOP services are commonly provided during evenings and on weekends. Because IOP programs have such a different approach and intensity, they are not typically designed to be used for extended duration; instead they rely on an integrated approach using high-frequency contact to increase functioning, monitor and maintain stability, and support recovery.

Following the participant’s admission to IOP, it is not appropriate for other behavioral health providers to provide services to the participant or bill for services outside the program, with the exception of psychiatric services and medication management. All other services are included in the IOP’s per diem rate.

Provider Qualifications

IOP services may be provided by the following contracted professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Marriage and Family Therapist
- 7) Paraprofessionals who hold at least a Bachelor's degree and a current credential from the Psychiatric Rehabilitation Association (i.e., a certificate or certification in psychiatric rehabilitation based upon the primary population with whom the provider works, in accordance with the requirements set by the PRA), and who meet requirements of the Idaho Department of Health and Welfare
- 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 9) Registered Nurse

The IOP provider is responsible for coordination of care with the participant’s primary care provider (PCP) and other behavioral health providers.

Provider Qualifications

The provider's professional training and licensure must include any of the following:

- A doctoral-level psychologist who is licensed to practice independently, and demonstrates sufficient training and experience.
- A psychometrist or psychometrician who administers and scores psychological tests under the supervision of a licensed, doctoral-level psychologist, and whose services are billed by the supervising psychologist.
 - The supervising psychologist must have face-to-face contact with the member at intake and during the feedback session.
 - The supervising psychologist is also responsible for final test interpretation, report writing, and final signature of approval.
- A master's-degreed behavioral health professional whose licensure specifically allows for provision of psychological testing services.
 - The master's-degreed provider has professional expertise in the types of tests/assessments being administered.
 - The master's-degreed provider is conducting test administration, scoring and interpretation in accordance with licensing standards and psychological testing professional and ethical standards.

Benefit Provided:

Skills Building/CBRS: Adults

Source:

Base Benchmark Small Group

Remove

Authorization:

Prior Authorization

Provider Qualifications:

Other

Amount Limit:

None

Duration Limit:

None

Scope Limit:

Limited to adults age 18 or over who are receiving treatment for a Severe and Persistent Mental Illness (SPMI) or Serious Mental Illness (SMI) and have a functional impairment

Other information regarding this benefit, including the specific name of the source plan if it is not the base benchmark plan:

The Skills Building/Community Based Rehabilitation Services (CBRS): Adults service focuses on behavioral, social, communication, rehabilitation, and/or basic living skills training to increase a participant's functioning and decrease mental health and/or behavioral symptoms. Skills Building/CBRS addresses an adult's ability to function adaptively in home and community settings. Examples of training areas that may be addressed include self-care, behavior, social decorum, avoidance of exploitation, anger management, budgeting, development of social support networks, and use of community resources.

Delivered pursuant to a written plan of care, Skills Building/CBRS vary in intensity, frequency, and duration in order to support the participant's ability to manage functional difficulties and to realize recovery and resiliency goals.

Skills Building/CBRS is appropriate for adults receiving treatment for a Severe and Persistent Mental Illness (SPMI) or Serious Mental Illness (SMI) when they have been assessed to have at least two (2) significant functional deficits related to the identified SPMI/SMI, and Skills Building/CBRS services are necessary in order for the adult to obtain and/or apply developmentally age-appropriate skills.

The participant's functioning in the following areas will be assessed to determine the training needs to

Alternative Benefit Plan

address using Skills Building/CBRS:

- Vocational/educational
- Financial
- Social relationships/support
- Family
- Basic living skills
- Housing
- Community/legal
- Health/medical

Skills Building/CBRS services may be provided by one of the following contracted professionals within the scope of their practice:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Marriage and Family Therapist
- 7) Paraprofessionals who hold at least a Bachelor's degree and a current credential from the Psychiatric Rehabilitation Association (i.e., a certificate or certification in psychiatric rehabilitation based upon the primary population with whom the provider works, in accordance with the requirements set by the PRA), and who meet requirements of the Idaho Department of Health and Welfare
- 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 9) Registered Nurse

Licensed clinicians qualified for independent practice in the State of Idaho may provide Skills Building/CBRS services without the need to obtain a PRA credential. Paraprofessional providers who do not hold a current PRA credential and were hired on or after November 1, 2010, may deliver this service for a period not to exceed thirty (30) months from the initial date of hire. This thirty-month (30) period does not restart with new employment as a Skills Building/CBRS specialist when transferring to a new employer or agency. The provider must show documentation that they are working towards obtaining the required PRA credential. In order to continue providing this service as a Skills Building/CBRS specialist beyond the 30-month period, the paraprofessional provider must have obtained the required current PRA credential.

Idaho Medicaid provides coverage to Medicaid participants for the following drugs or classes of drugs, or their medical uses, which may be excluded from coverage or otherwise restricted under § 1927(d)(2) of the Social Security Act:

- (A) Agents when used for anorexia, weight loss, or weight gain.
- (B) Agents when used to promote fertility.
- (C) Agents when used for cosmetic purposes or hair growth.
- (D) Agents when used for the symptomatic relief of cough and colds.
- (E) Agents when used to promote smoking cessation.
- (F) Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations. Covered agents include: Injectable vitamin B12 (cyanocobalamin and analogues); vitamin K and analogues; prescription vitamin D and analogues; prescription pediatric vitamin-fluoride preparations; prescription pediatric vitamins, minerals, and flouride preparations; prenatal vitamins for pregnant or lactating individuals; prescription vitamin D and analogues; prescription folic acid; and oral prescription drugs containing folic acid in combination with vitamin B12 and/or iron salts, without additional ingredients.
- (G) Nonprescription drugs, except, in the case of pregnant women when recommended in accordance with Guideline referred to in section 1905(bb)(2)(A), agents approved by the Food and Drug Administration under the over-the-counter monograph process for purposed of promoting, and when used to promote, tobacco cessation. Certain prescribed non-prescription products are covered, including: Permethrin; oral iron salts; disposable insulin syringes and needles; insulin; and tobacco cessation products.
- (H) Covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- (I) Barbiturates
- (J) Benzodiazepines
- (K) Agents when used for the treatment of sexual or erectile dysfunction, unless such agents are used to treat a condition, other than sexual or erectile dysfunction, for which the agents have been approved by the Food and Drug Administration.

Additional Excluded Drugs

Drugs are also not covered when the following circumstances apply:

- The participant's practitioner has written an order for a prescription drug for which federal financial participation is not available.

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

- The participant’s practitioner has written an order for a prescription drug that is deemed to be experimental or investigational, as defined in IDAPA 16.03.09.390.03. Investigational drugs are not a covered service under the Idaho Medicaid pharmacy program. The Idaho Department of Health and Welfare may consider Medicaid coverage on a case-by-case basis for life-threatening medical illnesses when no other treatment options are available.
- The participant’s practitioner has written an order for a covered outpatient drug for which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- The Idaho Medicaid Pharmacy Program receives a provider reimbursement claim for a covered drug or pharmacy item that requires, but has not received, prior authorization for Medicaid payment.
- The participant is dually eligible for Medicare and Medicaid, and the prescribed drug or drug class is covered under Medicare Part D. In the case of dual eligibles, the Department will pay for only those Medicaid-covered drugs not covered under Medicare Part D.

Covered Outpatient Drugs

Medical necessity is the primary determinant of whether a therapeutic agent will be covered. The Department will cover generic drugs, and also brand drugs when medically necessary and that necessity is adequately documented. If case-specific indications of medical necessity are present, the Department may also issue prior authorization for otherwise excluded drugs.

Idaho Medicaid maintains a Preferred Drug List (PDL) that identifies the preferred drugs and non-preferred drugs within a therapeutic class. The Director of the Department makes final decisions regarding drugs’ designated preferred or non-preferred status based on therapeutic recommendations from the Pharmacy and Therapeutics Committee and cost analysis from the Idaho Medicaid Pharmacy Program. A brand name drug may be designated as a preferred drug by the Department if, after consideration of all rebates, the net cost of the brand name drug is less than the cost of the generic equivalent.

The Director of the Department of Health and Welfare, acting upon the recommendation of the Pharmacy and Therapeutics Committee, may determine that a non-prescription drug product is covered when the non-prescription product is found to be therapeutically interchangeable with prescription drugs in the same pharmacological class following evidence-based comparisons of efficacy, effectiveness, clinical outcomes, and safety, and the product is deemed by the Department to be a cost-effective alternative.

Other services covered by the Department, but not covered by the Base Benchmark: Preventive Health Assistance

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

The Basic Alternative Benefit Plan includes certain Preventive Health Assistance (PHA) benefits for individuals in the target group, provided in accordance with applicable Department rules.

Basic PHA benefits are individualized benefits to address target health behaviors. Authorizations will be managed by the State Medicaid agency. PHA benefits made available under the Basic Alternative Benefit Plan will target individuals who are obese.

PHA benefits will be available when individuals complete specified activities in preparation for addressing the target health condition. These activities include discussing the condition with their primary care provider, participating in an applicable support group, and completing basic educational materials related to the condition.

PHA benefits may be used to purchase goods and services related to weight reduction/management rules. These goods and services may include weight-loss programs, dietary supplements, and other health-related benefits.

Other:

Any Idaho Behavioral Health Plan (IBHP) enrollee diagnosed with a behavioral health condition or substance use disorder who is in need of care coordination is eligible to receive this service, including, but not limited to:

1. Adults 18 and older with serious and persistent mental illness; and
2. Children up to age 21 with serious emotional disturbance and/or substance use disorder.

~ Areas of State in which services will be provided: Entire State

~ Comparability of services: Services are not comparable in amount, duration and scope (§1915(g)(1)).

~ Definition of services:

Targeted Care Coordination is a service provided to assist IBHP enrollees to gain access to needed medical, social, educational, and other services, in accordance with the provisions of 42 CFR 440.169. Care coordinators also monitor the participant's progress in treatment, evaluate the effectiveness of services received under multiple providers' treatment/service plans, and track service utilization to guard against any duplication of services. Services may be delivered telephonically.

Care Coordination includes the following assistance:

- Initial assessment and annual reassessment of a participant to determine the need for any medical, educational, social or other services. More frequent reassessments may be conducted if medically necessary.
- Development (and periodic revision) of a care plan.
- Referral and related activities to help an eligible participant obtain needed services, including activities that help link a participant with Medicaid providers.
- Monitoring and follow-up activities to ensure the care plan is implemented and is adequately addressing the participant's needs.

~ Provider Qualifications:

This service is delivered by a qualified provider as determined by the Department. Service providers must comply with the limitations of practice imposed by state law, federal regulations, State of Idaho occupational licensing requirements, the provider's professional area of competency, and applicable Department rules, and qualifying criteria are subject to approval by the Department.

• Minimum Provider Qualifications for Care Coordination are providers holding at least a Bachelor's Degree
TN: 18-0007 Approval Date: 4/23/19 Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

degree in a human services field and a Certification or Licensing in their fields and meeting the requirements of the Idaho Department of Health and Welfare.

~ Waiver of Freedom of Choice of Providers

As permitted and authorized under section 1915(b)(4) of the Social Security Act, choice of care coordination providers is waived. Participants will have free choice of providers of other medical care under the state plan.

~ Freedom of Choice Exception (1915(g)(1) and 42 CFR 441.18(b)):

Providers are limited to qualified Medicaid providers of care coordination services capable of ensuring that IBHP enrollees diagnosed with a behavioral health condition or substance use disorder receive needed services and coordination of care.

~ Access to Services. The State assures that:

- Care coordination services will be provided in a manner consistent with the best interests of recipients and will not be used to restrict an participant's access to other services under the plan; [section 1902(a)(19)]
- Participants will not be compelled to receive care coordination services, condition receipt of care coordination services on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of care coordination services; [section 1902(a)(19)]
- Providers of care coordination services do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

~Payment (42 CFR 441.18(a)(4)):

Payment for care coordination services does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

~Case Records (42 CFR 441.18(a)(7)):

The State assures that providers maintain case records that document the following for all participants receiving Care Coordination [42 CFR 441.18(a)(7)]:

- The dates of the care coordination services.
- The name of the provider agency and the person providing the care coordination services.
- The nature, content, and units of the care coordination services received, and whether goals specified in the care plan have been achieved.
- Whether the participant has declined services in the care plan.
- The need for, and occurrences of, coordination with other care coordinators.
- A timeline for obtaining needed services.
- A timeline for reevaluation of the plan.

~Limitations:

Care coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the care coordination activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual §4302).

Care coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the care coordination activities constitute the direct delivery of underlying medical, educational, social, or other services to which a participant has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; and making placement arrangements. (42 CFR 441.18(c))

Providers of care coordination must deliver the service in a way that precludes conflict of interest, in

Alternative Benefit Plan

accordance with 42 CFR 441.301. Providers of direct services to Medicaid participants, agencies/entities providing direct services, and those who have an interest in or are employed by a provider of direct services cannot also deliver care coordination or person-centered service plan development, except under the circumstances set forth at 42 CFR 441.301(c)(1)(vi).

FFP is only available for care coordination services if there are no other third parties liable to pay for such services, including as reimbursed under a medical, social, educational, or other program, except for care coordination that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c))

This service is provided to students in an educational setting pursuant to a signed and dated recommendation or referral by a physician or allowed non-physician practitioner.

Other:

Program Description: Other diagnostic, screening, preventive, and rehabilitative services - 1905(a)(13)(C) of the Act.

- Behavioral consultation supports a multi-disciplinary approach to rehabilitative and treatment by consulting with the IEP team during the assessment process for a specific child, performing advanced assessment of the child, coordinating the implementation of the behavior implementation plan and providing ongoing training to the behavioral interventionist and other team members for a child's needs.

Behavioral consultation provides expertise for children with complex needs who are not demonstrating outcomes with behavioral interventions alone. The consultant works with the IEP team and other professionals to develop a positive behavior support plan and provide oversight in carrying out that plan to reduce disability and increase function.

- Qualifications for Behavioral Consultation providers are:

~ Behavioral consultation must be provided by a professional who has a Doctoral or Master's degree in psychology, education, applied behavioral analysis, or in a related discipline with one thousand five hundred (1,500) hours of relevant coursework or training, or both, in principles of child development, learning theory, positive behavior support techniques, dual diagnosis, or behavior analysis (may be included as part of degree program), and who meets one (1) of the following:

~ An individual with an Exceptional Child Certificate as defined by State law.

~ An individual with an Early Childhood/Early Childhood Special Education Blended Certificate as defined by State law.

~ A Special Education Consulting Teacher as defined by State law.

~ An individual with a Pupil Personnel Certificate as defined by State law, excluding a registered nurse or audiologist.

~ An occupational therapist who is qualified and registered to practice in Idaho.

~ Therapeutic consultation professional who meets the requirements defined by the Department.

- Services provided in the schools must be the same in amount, duration and scope as the services provided in the community.

- Individuals delivering services in the schools must adhere to the same provider qualifications as required for individuals delivering services in the community.

- Participants are able to choose to receive Medicaid services from the pool of qualified Medicaid providers, which includes school-based and community providers.

- Participants through the month of their twenty-first (21st) birthday, pursuant to EPSDT, may receive additional services if determined to be medically necessary and prior authorized by the Department.

This service is provided to students in an educational setting pursuant to a signed and dated recommendation or referral by a physician or allowed non-physician practitioner.

Other:

Program Description: Behavioral Intervention: 1905(a)(13)(C) of the Act.

Other services covered by the Department, but not covered by the Base Benchmark: Behavioral Intervention.

- Behavioral intervention is based on a treatment plan developed by the family and a multidisciplinary team that also writes the IEP.

- Behavioral Intervention is used to promote the student's ability to participate in educational services through a consistent, assertive, and continuous intervention process. It includes the development of replacement behaviors with the purpose to prevent or treat behavioral conditions of students who exhibit maladaptive behaviors.

- The behavioral intervention treatment plan is developed and implemented by the multi-disciplinary team. The parents/guardian are included in the development of the plan.

- Qualifications for a Behavioral Intervention Professional are as follows:

- ~ An individual with an Exceptional Child Certificate as defined by State law; or
- ~ An individual with an Early Childhood/Early Childhood Special Education Blended Certificate as defined by State law; or
- ~ A Special Education Consulting Teacher as defined by State law; or
- ~ Habilitative intervention professional who meets the requirements defined by the Department; or
- ~ Individuals employed by a school as certified Intensive Behavioral Intervention (IBI) professionals prior to July 1, 2013, who are qualified to provide behavioral intervention; and
- ~ The individual must be able to provide documentation of one (1) year's supervised experience working with children with developmental disabilities.

- Qualifications for a Behavioral Intervention Paraprofessional are as follows:

- ~ Must be at least eighteen (18) years of age;
- ~ Must demonstrate the knowledge, have the skills needed to support the program to which they are assigned, and meet the requirements under the "Standards for Paraprofessionals Supporting Students with Special Needs," available online at the State Department of Education website; and
- ~ Must meet the paraprofessional requirements under the Elementary and Secondary Education Act of 1965, as amended, Title 1, Part A, Section 1119.
- ~ A paraprofessional delivering behavioral intervention services must be under the supervision of a behavioral intervention professional or behavioral consultation provider.

Program Description: Private-Duty Nursing (PDN); 1905(a)(8) of the Act.

Other services covered by the Department, but not covered by the Base Benchmark: Private-Duty Nursing (PDN).

Medical severity and complexity means that the child requires more individual and continuous care than is available from a visiting nurse and the needed services cannot safely be delegated to an Unlicensed

Alternative Benefit Plan

Assistive Personnel.

The nursing needs must be of such a nature that the Idaho Nursing Practice Act, rules, regulations, or policy require the service to be provided by an Idaho Licensed Registered Nurse (RN), or by an Idaho Licensed Practical Nurse (LPN), and require more individual and continuous care than is available from Home Health skilled nursing services. All PDN services are ordered by a physician and provided under a written plan of care.

Limitations. The following service limitations apply to the Enhanced Alternative Benefit Plan covered under the State plan.

- PDN services must be authorized by the Department or its authorized agent prior to delivery of service.
 - PDN Services may be provided only in the child's personal residence or when normal life activities take the child outside of this setting. If service is requested only to attend school or other activities outside of the home, but the child does not need such services in the home, private duty nursing will not be authorized.
- The following are specifically excluded as personal residences:

- Licensed Nursing Facilities (NF);
- Licensed Intermediate Care Facilities for the Intellectually Disabled (ICF/ID);
- Licensed Residential Care Facilities;
- Licensed hospitals; and
- Public or private schools.

Medically oriented care services related to a participant's physical or functional requirements provided in the participant's home or personal residence. Children may also receive PCS as a school-based service.

Other:

Program Description: Personal Care Services (PCS); 1905(a)(24) of the Act.

Other services covered by the Department, but not covered by the Base Benchmark: Personal Care Services.

PCS include medically oriented tasks related to a participant's physical or functional requirements, as opposed to housekeeping or skilled nursing care, provided in the participant's home or personal residence.

The provider must deliver at least one (1) of the following services for a participant needing that service (as identified by a Department Nurse Reviewer):

- Basic personal care and grooming to include bathing, care of the hair, assistance with clothing, and basic skin care;
- Assistance with bladder or bowel requirements that may include helping the participant to and from the bathroom or assisting the participant with bedpan routines;
- Assistance with food, nutrition, and diet activities including preparation of meals if incidental to medical need;
- The continuation of active treatment training programs in the home setting to increase or maintain

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

- participant independence for the participant with developmental disabilities;
- e. Assisting the participant with physician-ordered medications that are ordinarily self-administered, when the provider has completed an Idaho State Board of Nursing approved training program in accordance with Idaho state statute and regulations governing assistance with medications;
- f. Non-nasogastric gastrostomy tube feedings, if authorized by RMS prior to implementation and if the following requirements are met:
- i. The task is not complex and can be safely performed in the given participant care situation;
 - ii. A Licensed Professional Nurse (RN) has assessed the participant's nursing care needs and has developed a written standardized procedure for gastrostomy tube feedings, individualized for the participant's characteristics and needs;
 - iii. Individuals to whom the procedure can be delegated are identified by name. The RN must provide proper instruction in the performance of the procedure, supervise a return demonstration of safe performance of the procedure, state in writing the strengths and weaknesses of the individual performing the procedure, and evaluate the performance of the procedure at least monthly;
 - iv. Any change in the participant's status or problem related to the procedure must be reported immediately to the RN.

PCS may also include non-medical tasks. In addition to performing at least one (1) of the services listed above, the provider may also perform the following services, if no natural supports are available:

- a. Incidental housekeeping services essential to the participant's comfort and health, including changing bed linens, rearranging furniture to enable the participant to move around more easily, laundry, and room cleaning incidental to the participant's treatment. Cleaning and laundry for any other occupant of the participant's residence are excluded.
- b. Accompanying the participant to clinics, physicians' office visits or other trips that are reasonable for the purpose of medical diagnosis or treatment.
- c. Shopping for groceries or other household items specifically required for the health and maintenance of the participant.

Services are furnished to a participant who is not an inpatient or resident of a hospital, nursing facility, intermediate care facility for the intellectually disabled, or institution for mental diseases.

Services are authorized for the individual by a physician in accordance with a plan of treatment.

The PCS described above are furnished in the participant's place of residence, which may include:

- Personal Residence.
- Certified Family Home. A home certified by the Department to provide care to one (1) or two (2) adults, who are unable to reside on their own and require help with activities of daily living, protection and security, and need encouragement toward independence.
- Residential Care or Assisted Living Facility. A facility or residence, however named, operated on either a profit or nonprofit basis for the purpose of providing necessary supervision, personal assistance, meals, and lodging to three (3) or more adults not related to the owner.
- PCS Family Alternate Care Home. The private home of an individual licensed by the Department to provide personal care services to one (1) or two (2) children, who are unable to reside in their own home and require assistance with medically oriented tasks related to the child's physical or functional needs.

PCS can also be provided to a student as a school-based service. To be eligible, a student must have a completed children's PCS assessment and allocation tool approved by the Department. The assessment results must find that the student requires PCS due to a medical condition that impairs the physical or functional abilities of the student. The provider of school-based PCS must deliver at least one (1) of the following services:

- a. Basic personal care and grooming to include bathing, care of the hair, assistance with clothing, and basic skin care;
- b. Assistance with bladder or bowel requirements that may include helping the student to and from the

Alternative Benefit Plan

- bathroom or assisting the student with bathroom routines;
- c. Assistance with food, nutrition, and diet activities, including preparation of meals if incidental to medical need;
- d. Assisting the student with physician-ordered medications that are ordinarily self-administered;
- e. Non-nasogastric gastrostomy tube feedings, if the task is not complex and can be safely performed in the given student care situation.

Personal assistance agency. An entity that recruits, hires, fires, trains, supervises, schedules, oversees quality of work, takes responsibility for services provided, provides payroll and benefits for personal assistants working for them, is the employer of record and in fact.

Provider Qualifications: Personal care services are provided by Licensed Professional Nurse (RN), Licensed Practical Nurse (LPN), Certified Nursing Assistant (CNA), a person listed on the CNA Registry who performs selected nursing services under the supervision of a registered professional nurse who has successfully completed a training program and holds a Certificate of Training meeting Federal eligibility requirements for listing on the Registry), or personal assistant, who must be at least eighteen (18) years of age and receive training to ensure the quality of services. Services may be provided by any individual who is qualified to provide such services and who is not a member of the individual's family (legally responsible relative).

Freedom of Choice: The provision of personal care services will not restrict an individual's free choice of providers (§ 1902(a) (23) of the Act). Eligible participants (or a parent, legal guardian or the state in loco parentis) will have free choice of providers, the setting in which to reside, and a different personal care assistant, CNA, LPN, or RN if desired under the plan.

Personal care service providers will receive training in the following areas:

- Participant confidentiality - Knowledge of the limitations regarding participant information and adherence to Health Insurance Portability and Accountability Act (HIPAA) and agency confidentiality guidelines.
- Universal precautions - Knowledge of how infection is spread, proper handwashing techniques, and currently accepted practice of infection control; knowledge of currently accepted practice for handling and disposition of bodily fluids.
- Documentation - Knowledge of basic guidelines and fundamentals of documentation.
- Reporting - Knowledge of mandatory and incident reporting, as well as one's role in reporting condition changes.
- Care plan implementation - Knowledge of utilization of care plan when delivering participant services.

Based on the participant's Department-assessed needs, the personal care service provider may receive training on basic personal care and grooming, toileting, transfers, mobility, assistance with food preparation, nutrition, and diet, assistance with medications, and RN-delegated tasks.

Providers who are expected to carry out training programs for developmentally disabled participants must be supervised at least every ninety (90) days by a qualified intellectual disability professional (QIDP) as defined in 42 CFR 483.430(a).

Individuals through the month of their twenty-first (21st) birthday, pursuant to EPSDT, may receive additional services if determined to be medically necessary and prior authorized by the Department.

Program Description: Targeted Case Management Services; 1905(a)(19) of the Act.

Other services covered by the Department, but not covered by the Base Benchmark: Targeted Service Coordination for Adults with Developmental Disabilities.

Target Group (42 CFR 441.18(a)(8)(i) and 441.18(a)(9):

Adults age 18 and older, who have a developmental disability diagnosis, and who require and choose assistance to access services and supports necessary to maintain independence in the community.

For targeted service coordination provided to individuals in medical institutions: [Olmstead letter #3]

Target group is comprised of individuals transitioning to a community setting and targeted service coordination services will be made available for up to the last 60 consecutive days of the covered stay in the medical institution.

Areas of State in which services will be provided: Entire State.

Services are not comparable in amount duration and scope - 1915(g)(1).

Definition of services: [42 CFR 440.169]

Targeted service coordination is a service furnished to assist participants, eligible under the State plan, in gaining access to needed medical, social, educational and other services.

Targeted service coordination includes the following assistance:

- Comprehensive assessment and annual reassessment of a participant to determine the need for any medical, educational, social or other services and to update the plan. These assessment activities include up to six hours of:

- Taking client history;
- Identifying the participant's needs and completing related documentation;
- Gathering information from other sources such as family members, medical providers, social workers, and educators (if necessary), to form a complete assessment of the participant.

Additional hours may be prior authorized if medically necessary.

- Development (and periodic revision) of a specific care plan that:

- Is based on the information collected through the assessment;
- Specifies the goals and actions to address the medical, social, educational, and other services needed by the participant;
- Includes activities such as ensuring the active participation of the participant, and working with the participant (or the participant's authorized health care decision-maker) and others to develop those goals; and
- Identifies a course of action to respond to the assessed needs of the participant.

- Referral and related activities:

- To help a participant obtain needed services including activities that help link the participant with:

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

- Medical, social, educational providers; or
- Other programs and services capable of providing needed services, such as making referrals to providers for needed services and scheduling appointments for the participant.

• Monitoring and follow-up activities:

- Activities, and contacts, necessary to ensure the care plan is implemented and adequately addresses the individual's needs. These activities, and contacts, may be with the participant, his or her family members, providers, other entities or individuals and may be conducted as frequently as necessary, including at least one annual monitoring to assure following conditions are met:

- Services are being furnished in accordance with the participant's care plan;
- Services in the care plan are adequate; and
- If there are changes in the needs or status of the individual, necessary adjustments are made to the care plan and service arrangements with providers.

Targeted service coordination may include contacts with non-eligible individuals that are directly related to identifying the needs and supports for helping the participant to access services.

Qualifications of providers:

- Targeted service coordination must only be provided by a service coordination agency enrolled as a Medicaid provider. An agency is a business entity that provides management, supervision, and quality assurance for service coordination and includes at least two (2) individuals, one (1) supervisor, and a minimum of one (1) service coordinator.
- Agencies must provide supervision to all service coordinators and paraprofessionals.
- Any willing, qualified public or private service coordination agency may be enrolled.

Agency Supervisor: Education and Experience

- Master's Degree in a human services field from a nationally accredited university or college and twelve (12) months of experience with adults with developmental disabilities; or
- Bachelor's degree in a human services field from a nationally accredited university or college, or being a licensed professional nurse (RN) with twenty-four (24) months of experience with adults with developmental disabilities.

Service Coordinator: Education and Experience

- Minimum of a Bachelor's Degree in a human services field from a nationally accredited university or college and twelve (12) months of experience working with adults with developmental disabilities, or being a licensed professional nurse (RN) with twelve (12) months of experience working with adults with developmental disabilities. Individuals who meet the education or licensing requirements, but do not have the required work experience, may work as a service coordinator under the supervision of a qualified service coordinator while they gain this experience.

Paraprofessional: Education and Experience

- Be at least eighteen (18) years of age, have a minimum of a high school diploma (or equivalency), be able to read and write at a level commensurate with the paperwork and forms involved in the provision of the service, and have twelve (12) months of experience with adults with developmental disabilities. Under the supervision of a qualified service coordinator, a paraprofessional may be used to assist in the implementation of the service plan.

Freedom of choice: The State assures that the provision of targeted service coordination will not restrict a participant's free choice of providers in violation of section 1902(a)(23) of the Act. Any willing, qualified private agency may be enrolled as a service coordination agency.

- Participants will have free choice of the providers of targeted service coordination within the specified geographic area identified in this plan.
- Participants will have free choice of the providers of other medical care under the plan.

Alternative Benefit Plan

Access to Services: The State assures that:

- Targeted service coordination will be provided in a manner consistent with the best interests of recipients and will not be used to restrict a participant's access to other services under the plan; [section 1902 (a)(19)]
- Participants will not be compelled to receive targeted service coordination, condition receipt of targeted service coordination on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of targeted service coordination; [section 1902 (a)(19)]
- Providers of targeted service coordination do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

Payment (42 CFR 441.18(a)(4)):

Payment for targeted service coordination under the plan does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

Case Records: The State assures that providers maintain case records that document the following for all participants receiving targeted service coordination [42 CFR 441.18(a)(7)]:

- The name of the participant.
- The dates of the targeted service coordination services.
- The name of the provider agency and the person providing the targeted service coordination.
- The nature, content, and units of the targeted service coordination services received, and whether goals specified in the care plan have been achieved.
- Whether the participant has declined services in the care plan.
- The need for, and occurrences of, coordination with other service coordinators.
- A timeline for obtaining needed services.
- A timeline for reevaluation of the plan.

Limitations:

Targeted service coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the targeted service coordination activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual (SMM) §4302). Targeted service coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the targeted service coordination activities constitute the direct delivery of underlying medical, educational, social, or other services to which a participant has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; and making placement arrangements. (42 CFR 441.18(c))

FFP is only available for targeted service coordination if there are no other third parties liable to pay for such services, including reimbursement under a medical, social, educational, or other program except for targeted service coordination that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c))

Additional limitations:

- Reimbursement for ongoing service coordination is not allowed prior to the completion of the assessment and service plan.
- In order to assure that no conflict of interest exists, providers of targeted service coordination may not provide both service coordination and direct services to the same Medicaid participant.
- Reimbursement is not allowed for missed appointments, attempted contacts, leaving messages, travel to provide the service, documenting services, or transporting the participant.

Agency Supervisor: Education and Experience

- Master's Degree in a human services field from a nationally accredited university or college and twelve (12) months of experience with adults with developmental disabilities; or
- Bachelor's degree in a human services field from a nationally accredited university or college, or being a licensed professional nurse (RN) with twenty-four (24) months of experience with adults with developmental disabilities.

Service Coordinator: Education and Experience

- Minimum of a Bachelor's Degree in a human services field from a nationally accredited university or college and twelve (12) months of experience working with adults with developmental disabilities, or being a licensed professional nurse (RN) with twelve (12) months of experience working with adults with developmental disabilities. Individuals who meet the education or licensing requirements, but do not have the required work experience, may work as a service coordinator under the supervision of a qualified service coordinator while they gain this experience.

Paraprofessional: Education and Experience

- Be at least eighteen (18) years of age, have a minimum of a high school diploma (or equivalency), be able to read and write at a level commensurate with the paperwork and forms involved in the provision of the service, and have twelve (12) months of experience with adults with developmental disabilities. Under the supervision of a qualified service coordinator, a paraprofessional may be used to assist in the implementation of the service plan.

Freedom of choice: The State assures that the provision of service coordination will not restrict a participant's free choice of providers in violation of section 1902(a)(23) of the Act. Any willing, qualified

Alternative Benefit Plan

private agency may be enrolled as a service coordination agency.

- Participants will have free choice of the providers of service coordination within the specified geographic area identified in this plan.
- Participants will have free choice of the providers of other medical care under the plan.

Access to Services: The State assures that:

- Service coordination will be provided in a manner consistent with the best interests of participants and will not be used to restrict a participant's access to other services under the plan; [section 1902(a)(19)]
- Participants will not be compelled to receive service coordination, condition receipt of service coordination on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of service coordination; [section 1902 (a)(19)]
- Providers of service coordination do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

Payment (42 CFR 441.18(a)(4)):

Payment for service coordination under the plan does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

Case Records: The State assures that providers maintain case records that document the following for all participants receiving service coordination [42 CFR 441.18(a)(7)]:

- The name of the participant.
- The dates of the service coordination services.
- The name of the provider agency and the person providing the service coordination.
- The nature, content, and units of the service coordination services received, and whether goals specified in the care plan have been achieved.
- Whether the participant has declined services in the care plan.
- The need for, and occurrences of, coordination with other service coordinators.
- A timeline for obtaining needed services.
- A timeline for reevaluation of the plan.

Limitations:

Service coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the service coordination activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual (SMM) § 4302).

Service coordination does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the service coordination activities constitute the direct delivery of underlying medical, educational, social, or other services to which a participant has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; and making placement arrangements. (42 CFR 441.18(c))

FFP is only available for service coordination if there are no other third parties liable to pay for such services, including reimbursement under a medical, social, educational, or other program, except for service coordination that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c)).

Additional limitations:

- Reimbursement for ongoing service coordination is not allowed prior to the completion of the assessment and service plan.
- In order to assure that no conflict of interest exists, providers of service coordination may not provide both service coordination and direct services to the same Medicaid participant.

Alternative Benefit Plan

• Reimbursement is not allowed for missed appointments, attempted contacts, leaving messages, travel to provide the service, documenting services, or transporting the participant.

Early Intervention Services (EIS) are Early, Periodic, Screening, Diagnostic and Treatment (EPSDT) services provided to Idaho Medicaid participants through the IDEA Part C Lead Agency. The IDEA Part C Lead Agency is responsible for assessing and treating the developmental needs of infants and toddlers and

Alternative Benefit Plan

the needs of the family related to enhancing the child's development. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

An EIS provider is responsible for:

- a. Responding to referrals for assessing and screening Medicaid eligible infants and toddlers for EIS.
- b. Educating families on options for services through the IDEA Part C Lead Agency and providing referrals to other EPSDT providers or community resources.
- c. Participating in the multidisciplinary team's ongoing assessment of the participant and family's resources, priorities, and concerns as related to the needs of the infant or toddler, in the development of integrated goals and outcomes for the Individualized Family Service Plan (IFSP).
- d. Providing EIS in accordance with the IFSP.
- e. Consulting with and training parents and others regarding the provision of the EIS described in the participant's IFSP.

EIS are delivered as part of the statewide comprehensive, coordinated, multidisciplinary interagency system for EIS. The following age-appropriate screenings, evaluations and services are covered when delivered by an early intervention provider:

- a. Developmental, motor, language, social, adaptive, and cognitive functioning testing and interpretation.
- b. Development, review, and implementation of IFSPs.
- c. EIS including therapy services, family training, home care training, and interdisciplinary teaming.

EIS Provider Qualifications:

EIS for infants and toddlers enrolled in Idaho Medicaid are provided by the IDEA Part C Lead Agency (Idaho Infant Toddler Program, or ITP). The ITP must hold a valid Idaho Medicaid EIS provider agreement and comply with all provider screening requirements as specified in IDAPA 16.03.09.

All personnel providing EIS must be employed by or contracted with Idaho ITP, meet the IDEA Part C requirements, and meet all Medicaid regulations. Idaho Code, Title 16, Chapter 1 requires the Idaho ITP to ensure that individuals providing EIS meet Idaho's established certification or licensing standards within the scope of their practice and that they are appropriately and adequately trained. ITP personnel providing EIS include the following professions or disciplines providing the services designated:

- a. Audiologist – Hearing screenings and evaluations
- b. Developmental Specialist – Assessment and services
- c. Family Therapist – Social/emotional assessment and services
- d. Marriage and Family Therapist – Social/emotional assessment and services
- e. Professional Counselor – Social/emotional assessment and services
- f. Occupational Therapist – Occupational therapy assessment and services
- g. Orientation/Mobility Specialist – Assessment and services for vision impaired
- h. Optometrist – Vision assessment
- i. Pediatrician/Physician – Plan development and oversight
- j. Physician Assistant – Plan development and oversight
- k. Nurse Practitioner – Plan development and oversight
- l. Physical Therapist (PT) – Physical therapy assessment and services
- m. Psychologist – Assessments/behavioral health services
- n. Registered Dietitian – Dietary counseling services
- o. Registered Nurse – Nursing services
- p. Licensed Practical Nurse – Nursing services
- q. Social Worker – Service Coordination/Social work services
- r. Clinical Social Worker – Service Coordination/Social work services
- s. Master's-level Social Worker – Service Coordination/Social work services

Peer Support includes Adult Peer Support and Youth Support. Adult Peer Support is a face-to-face recovery support service in which a Certified Peer Support Specialist mentors, guides and coaches the participant to achieve self-identified recovery and resiliency goals. This service is typically delivered to adults with a serious mental illness or co-occurring mental health and substance use disorders who are actively involved in their own recovery process. This specialized support is intended to complement an array of therapeutic services and may be offered before, during, or after mental health treatment has begun to facilitate long-term recovery in the community.

In collaboration with the participant, the Peer Support Specialist will create an individualized recovery plan that reflects the participant’s needs and preferences, and describes the participant’s individualized goals, interventions, timeframes and measurable results. The recovery plan will be formally reviewed at least every three (3) months.

Components of this service may include:

- Assistance with setting recovery goals, developing a recovery action plan, a relapse plan, solving problems and addressing barriers related to recovery;
- Encouraging self-determination, hope, insight, and the development of new skills;
- Connecting the participant with professional and non-professional recovery resources in the community and helping the participant navigate the service system in accessing resources independently;
- Facilitating activation so that participants may effectively manage their own mental illness or co-occurring conditions, and empowering participants to engage in their own treatment, healthcare and recovery;
- Helping the participant decrease isolation and build a community supportive of the participant establishing and maintaining recovery.

Qualified Adult Peer Support providers must have obtained certification as a Peer Support Specialist. The Peer Support Specialist is supervised by a competent mental health practitioner.

Youth Support services are provided by younger adults with lived experience of serious emotional disturbance (SED) during childhood/adolescence to assist and support participants in understanding their role in accessing services, and in becoming informed consumers of services and self-advocates. Youth support may include mentoring, advocating, and educating provided through youth support groups. Participants receiving this service will work on goals within their group, which will consist of four (4) or more participants.

In addition to the mandatory SED diagnosis, participants may also have a co-occurring substance-related

Superseded TN: 17-0009

Alternative Benefit Plan

disorder or developmental disability disorder. This service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

Provider Qualifications

Youth Support Specialists will meet the following requirements:

1. High school diploma or GED
2. Diagnosed with SED as a young adult
3. Was transitioned out of treatment at least one year ago
4. 21 to 30 years of age (recommended)
5. Completion of certification as a Peer Support Specialist
6. Completion of training for YSS Providers and Youth Group Facilitation required by the IDHW contractor.
7. Successful completion of a nationally based background check
8. The provider's agency will conduct a mandatory Agency Training, and the provider will work under clinical supervision by a competent mental health practitioner.

Other:

A planning team is responsible for successfully completing a person-centered planning process that will culminate in a person-centered service plan and other treatment plans, as needed, which will be used to inform and guide the ongoing treatment of the participant. Participation on this team, referred to as the Child and Family Team (or CFT), entails collaboration among diverse team members of the family's choosing; i.e., the CFT may include family members, a plan facilitator, the targeted care coordinator, treating clinicians and providers, the primary care physician, MH/SUDs professionals or paraprofessionals, and other persons selected by the family to be involved in the planning and/or delivery of the participant's care.

Planning activities take place within the framework of the CFT Interdisciplinary Team Meeting, which is an in-person or telephonic meeting, with the participant present, focused on developing, monitoring, or modifying a plan of care. In addition, CFT Interdisciplinary Team Meetings provide a forum in which the team can review the effectiveness of current services, assess the participant's progress towards objectives specified in the plans of care, and discuss treatment options and service adjustments for possible inclusion in revisions to planning documents.

The Care Planning benefit is the mechanism that will allow a Medicaid provider—when the provider will be actively involved in the development, implementation, and revision of the services prescribed in the plan(s)—to be reimbursed for attending planning sessions and participating on the CFT. In accordance with the core principles of person-centered planning, CFT Interdisciplinary Team Meetings are held at times and settings identified as convenient for the family.

The Care Planning benefit is limited exclusively to CFT participation. Periodic consultations between

Superseded TN: 17-0009

Alternative Benefit Plan

providers are considered a routine function of the practitioner, not a direct medical service to the participant, and therefore do not constitute a standalone service eligible for reimbursement.

Provider Qualifications

Medicaid-enrolled providers who are involved in the participant's care and have been selected by the family to serve on the CFT may bill for this service, including the provider types listed below:

- 1) Licensed physician
- 2) Advanced Practice Registered Nurse
- 3) Physician Assistant
- 4) Licensed Social Worker
- 5) Licensed Counselor
- 6) Licensed Marriage and Family Therapist
- 7) Paraprofessionals who hold at least a Bachelor's degree and a current credential from the Psychiatric Rehabilitation Association (i.e., a certificate or certification in psychiatric rehabilitation based upon the primary population with whom the provider works, in accordance with the requirements set by the PRA), and who meet requirements of the Idaho Department of Health and Welfare
- 8) Licensed Psychologist, Psychologist Extender (Registered with the Idaho Bureau of Occupational Licenses)
- 9) Registered Nurse

Section 1937 Coverage Option Benchmark Benefit Package

Remove

Authorization:

Other

Provider Qualifications:

Other

Amount Limit:

None

Duration Limit:

None

Scope Limit:

None

Other:

Crisis Response is delivered over the telephone, and the service is available 24/7 to help participants cope with a mental health crisis and remain in their own home and community. Crisis Response includes telephone contact with skilled crisis response providers who already have an established therapeutic relationship with the participant, and can furnish assessment and crisis de-escalation through counseling, support, active listening or other telephonic interventions, as well as offer linkage to services and community providers.

The goals of Crisis Response are to ensure the safety and emotional stability of the participant experiencing a mental health crisis, to avoid further deterioration in the participant's mental status, assist in the development or enhancement of more effective coping skills and support system, raise the participant's level of functioning, help in obtaining ongoing care by way of outreach to existing support services, community mental health, substance use and/or medical healthcare providers.

On occasion, the crisis response provider may determine that a higher level of intervention is indicated.

Typical circumstances may involve a participant who is determined to be:

- Threatening imminent harm to self or others;
- Severely disoriented or out of touch with reality;
- Functionally or physically impaired;
- Extremely distraught and out of control; or

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

- Severely impaired by drugs or alcohol.

The presence of these risk factors suggest that the crisis has become a potentially life-threatening situation and a mental health emergency exists. In such cases, the crisis response provider will make contact with emergency responders who can evaluate whether a higher level of care is warranted.

Provider Qualifications

Crisis Response providers are:

1. Paraprofessionals who hold at least a Bachelor's degree in a human services field, are certified in their field (Crisis Response and Intervention from the Crisis Prevention Institute), and who meet requirements of the Idaho Department of Health and Welfare; or
2. Master's level clinicians or higher level who are licensed to practice independently in Idaho.

Section 1937 Coverage Option Benchmark Benefit Package

Remove

Authorization:

Other

Provider Qualifications:

Other

Amount Limit:

None

Duration Limit:

None

Scope Limit:

None

Other:

Family Psychoeducation (FPE) is an approach for partnering with participants and families to treat participants with behavioral health diagnoses. In contrast with family therapy, Family Psychoeducation emphasizes the behavioral health condition as the focus of instruction, not the family. While psychoeducation is a typical component of psychotherapy, it is also an effective service when provided as a targeted service to a single family or group of families. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

Rather than a short-term intervention, Family Psychoeducation is a series of meetings that present a pre-established curriculum comprising counseling to families based on the participant's specific medical needs.

Family Psychoeducation can be provided in a multifamily group (two to five families) or in a single-family format. Services provided should be identified on the participant's plan of care, and driven by the participant's and family's goals.

Family Psychoeducation supports the participant/family/caregivers in understanding aspects such as:

- The participant's symptoms of the behavioral health condition and nature of their specific illness
- The impact symptoms have on the participant's development and functioning across environments
- The components of treatment that are known to be effective for the participant's specific condition
- The concept of rehabilitation through skill development
- Other important elements of treatment (e.g., Medication and Medication Compliance)

Provider Qualifications

Single-family psychoeducation requires a master's-level, independently licensed clinician (Licensed Marriage and Family Therapist, Licensed Clinical Social Worker, Licensed Master Social Worker,

TN: 18-0007

Approval Date: 4/23/19

Effective Date: 7/1/18

Superseded TN: 17-0009

Alternative Benefit Plan

Licensed Professional Counselor or Licensed Clinical Professional Counselor) or a master's-level provider qualified to deliver psychotherapy in a group agency under supervision. In cases where providers are working with a single family having many participants or complex issues, the family could benefit from the involvement of a second facilitator. Multifamily psychoeducation warrants two facilitators; at least one of these will be an independently licensed clinician or or a master's-level provider qualified to deliver psychotherapy in a group agency under supervision. The second facilitator may be a bachelor's-level paraprofessional operating in a group agency under supervision.

Other:

Crisis intervention services are provided face to face 24/7 in the community or home of the participant in order to assess immediate strengths and needs to ensure appropriate services are provided to de-escalate the current crisis and prevent future crisis. Services to the participant's family and significant others are for the direct benefit of the participant, in accordance with the participant's needs and treatment goals identified in the participant's treatment plan, and for the purpose of assisting in the participant's recovery.

This work includes the following activities: intervene, coordinate with current services, and provide linkages and referral for follow-up care to participants and families experiencing a behavioral health crisis. Crisis interventions are intended to address the immediate safety and well-being of the participant and family due to the participant's escalating behaviors that may be creating disruption to the participant's functioning and stability. Crisis interventions are short-term and time-limited as identified by the participant, family, or crisis services provider.

Crisis intervention specialists will be required to have the capacity to assess, intervene, de-escalate, and produce a stabilization/crisis plan as well as follow up telephonically within 24 hours with the participant/participant's family to assess participant stability and deliver crisis follow-up needs. The result of an outpatient Crisis Intervention is a stabilized participant who remains in the community, a stabilized child participant whose family elects to receive some unplanned respite, or a participant who gets linked with higher level of care or response.

Provider Qualifications

Any providers of this service will be required to obtain certification in Crisis Response and Intervention by the Crisis Prevention Institute (CPI). The team typically includes a Master's-level clinician (Licensed Marriage and Family Therapist, Licensed Clinical Social Worker, Licensed Master Social Worker, Licensed Professional Counselor or Licensed Clinical Professional Counselor) and a Bachelor's-level paraprofessional with a degree in a human services field plus CPI certification, supervised by a Master's-level Clinical Supervisor with CPI certification.

Scope Limit:

Limited to children under age 18 who have been diagnosed with Serious Emotional Disturbance (SED).

Other:

Behavior Modification and Consultation services emphasize the replacement of problematic or inappropriate behaviors with positive behaviors and increasing the ability of the participant to exhibit more effective and appropriate behaviors. Behavioral strategies are used to teach the participant alternative means to deal with targeted behaviors and the environment to ensure inappropriate behaviors are eliminated and positive behaviors are learned and maintained. Behavior modification providers may provide assistance to help develop or maintain prosocial behaviors at any time and in any setting appropriate to meet the participant's needs, including home, school, and community. In compliance with EPSDT, this service is covered for children through the month of their twenty-first (21st) birthday when medically necessary.

Alternative Benefit Plan

Behavior modification providers focus on social and behavioral skill development by building a participant's competencies and confidence. These services are individualized and are related to goals identified in the participant's treatment plan.

Behavior modification services typically include development, implementation and monitoring of a behavioral management plan and other rehabilitation services identified in the behavior management plan. Once the behavior management plan is implemented, behavioral strategies can alter or improve specific behaviors when consistently applied by family members, teachers, and professional therapists working in concert with the participant until the behavior is effectively managed.

After assessment, the resulting behavioral management treatment plan can also include a risk- management or contingency plan developed to address the needs of the participant.

Provider Qualifications

Behavior modification and consultation providers must obtain a nationally recognized certification for providers of services related to behavior analysis and modification. Independently licensed clinicians or Master's-level clinicians and paraprofessionals who meet supervisory protocol may provide this service.

There are four nationally recognized certifications for providers of services related to behavior analysis and modification:

- Registered Behavioral Technician (RBT)—RBTs must: Be 18 years old with HS diploma; be supervised by BCaBA, BCBA, or BCBA-D; pass competency assessment and RBT exam.
- Board Certified Assistant Behavior Analyst (BCaBA)—BCaBAs must: Be Bachelor's level; be supervised by a BCBA or BCBA-D; pass BCaBA exam.
- Board Certified Behavior Analyst (BCBA)—BCBAs must: Be Master's level; pass BCBA exam; complete supervisor training.
- Board Certified Behavioral Analyst-Doctoral (BCBA-D)—BCBA-Ds must: Hold a Ph.D.; pass BCBA exam; complete supervisor training.
