ATTN: Kelly Flynn

RE: IN SPA TN# 15-0024 – Alternative Benefit Package for Healthy Indiana Plan Basic (ABP – HIP Basic)

Dear Mr. Moser,

Enclosed for your records is an approved copy of the following State Plan Amendment (SPA).

#### Transmittal #15-0024:

- This SPA updates ABP2a the Voluntary Benefit Package Selection Assurances and updates the supporting medically frail population identification methodology.
- This SPA updates ABP2c Enrollment Assurances for Mandatory Participants.
- Effective Date: October 1, 2015

All requirements pertaining to ABPs must be met including but not limited to: benefits, payment rates, reimbursement methodologies, cost-sharing state plan pages, and (if applicable) managed care service delivery systems (waivers and contracts). Amendments to the state's approved Medicaid program (SPAs, waivers, contracts) may require corresponding amendments to the ABP if the change to the benefit in the approved state plan will be mirrored in the ABP.

If you have any questions, please have a member of your staff contact Tannisse Joyce at (312) 886-5121 or by email at <a href="mailto:tannisse.joyce@cms.hhs.gov">tannisse.joyce@cms.hhs.gov</a>.

Sincerely,

/s/

Ruth A. Hughes Associate Regional Administrator Division of Medicaid and Children's Health Operations

#### Enclosure

The HIP Basic Plan is only available for individu MAGI income standards who do not pay a contri (POWER) account.		

TN#: 15-0024 ABP 1 Approval Date:10/29/15

A woman who becomes pregnant while enrolled in the HIP Basic Plan may choose to transfer to the pregnancy

Medicaid aid category under the State Plan. If she stays in HIP Basic, she may keep her HIP Basic benefits through the term of the pregnancy and postpartum period. Pregnant women receive additional benefits in Basic that are only available to pregnant women. For pregnant women, there are no material differences in benefits between HIP Basic and the pregnancy Medicaid aid category under the State Plan. Women who are pregnant at their regularly scheduled redetermination are not eligible to remain in HIP Basic and are transferred to the pregnancy Medicaid aid category.

Indiana

Effective Date: October 1, 2015

Disease/Condition/Diagnosis/Disorder.
Other.
Other Targeting Criteria (Describe):
New adult group members who are AI/AN and participate in the 1115 demonstration will be enrolled in the HIP Plus ABP with no POWER account contribution or cost-sharing requirements, regardless of FPL
Geographic Area
The Alternative Benefit Plan population will include individuals from the entire state/territory.
Any other information the state/territory wishes to provide about the population (optional)
Enrollment in the Alternative Benefit Plan (ABP) that is the HIP Basic Plan with Essential Health Benefits (EHBs) will include non-medically frail adults between the ages of 19 and 64 with income at or below 100% of the Federal Poverty Level (FPL). All HIP Basic enrollees will be eligible for the enhanced ABP that is the HIP Plus Plan with EHBs.
Individuals with income at or below 100% FPL are eligible for HIP Plus. If they do not make the POWER account payment then they default to the HIP Basic Plan. Educational information about the differences in benefits and cost-sharing structure between HIP Basic and HIP Plus are provided in all member communications from both the state and the MCEs. This includes but is not limited to eligibility notices, welcome letters, invoices, and member handbooks. Members can also receive information about the difference in the Basic and Plus plans from all call center staff including the state call centers, the enrollment broker, and the MCE call centers. The state also makes educational information available to members online.

Copy of correspondence sent to the individual.
☐ Signed documentation from the individual consenting to enrollment in the Alternative Benefit Plan.
○ Other
Describe:
Confirmed medically frail individuals do not have the option to select the HIP Basic and Plus Plans that are the Alternative Benefit Plans (ABPs) with Essential Health Benefits, but will receive the benefits from the State Plan ABP.
The state/territory assures that it will maintain data that tracks the total number of individuals who have voluntarily enrolled in either Alternative Benefit Plan coverage subject to section 1937 requirements or Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan, which is not subject to section 1937 requirements.
Other information related to benefit package selection assurances for exempt participants (optional):
Confirmed medically frail individuals will receive benefits that are in all ways equivalent to State Plan ABP benefits and offer benefits not covered through the HIP Basic and Plus ABPs. Therefore, medically frail individuals will not need to have the choice to opt into these two less generous plans.

Self-identification		
Describe:		
Self-identification is one of the ways frail status is identified detailed in the Other section. Members may self-identify managed care entities after initial enrollment in HIP.	by requesting a review of their n	nedically frail status with their

to a verification process utilizing the Milliman underwriting guidelines as detailed below.

Once a member self-identifies as medically frail the Managed Care Entity (MCE) will validate applicant data to confirm medically frail status. The managed care entity will have 30 days as required by contract to confirm if the member is medically frail. Managed care entities may identify members as medically frail via claims received during the 30 day verification process, and members receiving health services and using pharmaceuticals to treat their medically frail conditions will likely be identified before the end of the 30 day verification period.

Confirmation may occur through applicant interview or follow-up, current treatment (claims) and/or physician medical attestation documented medical records. Members are confirmed medically frail by the managed care entity when they have a documented medically frail condition and meet the following point thresholds using the Milliman Underwriting Guidelines:

- 150 combined debit points for indicated medical, mental, or behavioral health conditions; or,
- 75 debit points for indicated behavioral health conditions; or,
- 75 debit points for indicated substance abuse conditions; or,
- Needs assistance with one of the activities of daily living.

The debit point system above provides the minimal points a member would meet to be identified as medically frail. For example, individuals who are infected with the hepatitis C virus, but have no signs of the virus, receive no medications and have normal liver functions, will be assigned 50 debit points and not qualify as medically frail. However, an individual that has abnormal liver function will be assigned 150 debit points or higher for conditions such as cirrhosis of the liver at 650 debit

TN#: 15-0024 ABP 2c Approval Date:10/29/15 Page 1 of 4 Effective Date: October 1, 2015

Indiana

points. From these examples, an individual must meet 150 debit points or higher and have a condition listed on the medically frail condition listing to be considered as having a medical condition identified as medically frail. A person that has a medical condition that falls below the 150 threshold and/or is not a condition listed on the medically frail condition listing would not be considered medically frail. A medically frail determination would be effective for 12 months and after this time is required to be reverified and updated by the MCE. The debit point system, threshold range, and extensive tables of medical conditions each assigned debit points was developed from the Millliman Underwriting Guidelines and is the methodology that will be utilized to determine a medically frail identification. To develop the debit point system, a code list and software tool from the medical ICD-9 codes and pharmacy NDC codes was used. The use of medical and pharmacy codes in assessing claims data allows for an automated process when screening individuals for medically frail conditions on an ongoing basis. Members identified as medically frail will receive the State Plan ABP effective the first of the month following the confirmation of their medically frail status by the managed care entity. Individuals have the right to appeal all medically frail determinations through the state, but must first exhaust the grievance process with their managed care entity. ○ Other Describe: On an ongoing basis, health and pharmacy claims data and data from medical professionals including lab results will be used in the identification and conformation of medically frail status using an automated process. Similar to verification that occurs with the member request to review frail status, members that have pharmacy or medical claims that demonstrate conditions that may qualify them for medically frail status will have their claims checked against the Milliman Underwriting Guidelines. Those that have claims over the point threshold will automatically be designated as medically frail and receive the State Plan ABP. For individuals that do not meet the medically frail threshold based on claims alone, medical records, risk assessments and lab results may be utilized to verify medically frail status. The state/territory must inform the individual they are exempt or meet the exemption criteria and the state/territory must comply with all requirements related to voluntary enrollment or, for beneficiaries in the "Individuals at or below 133% FPL Age 19 through 64" eligibility group, optional enrollment in Alternative Benefit Plan coverage defined using section 1937 requirements or Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan. The state/territory assures that for individuals who have become exempt from enrollment in an Alternative Benefit Plan, the state/ territory must inform the individual they are now exempt and the state/territory must comply with all requirements related to voluntary enrollment or, for beneficiaries in the "Individuals at or below 133% FPL Age 19 through 64" eligibility group, optional enrollment in Alternative Benefit Plan coverage defined using section 1937 requirements, or Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan. How will the state/territory identify if an individual becomes exempt? (Check all that apply) Review of claims data Review at the time of eligibility redetermination Provider identification Change in eligibility group

Other

How frequently will the state/territory review the Alternative Benefit Plan population to determine if individuals are exempt from nandatory enrollment or meet the exemption criteria?
○ Monthly
○ Quarterly
Annually
○ Ad hoc basis
• Other
Describe:
Managed Care entities may continually assess their enrolled population to determine if an individual has claims that qualify them for medically frail status. The Managed Care Entities will alert the state when an individual qualifies for medically frail status to initiate the activation of benefits of the State Plan ABP. On an annual basis all individuals marked medically frail must be reconfirmed as medically frail by their Managed Care Entity.
Managed care entities determination of frail status is subject to review and audit by the state.
The state/territory assures that it will promptly process all requests made by exempt individuals for disenrollment from the Alternative Benefit Plan and has in place a process that ensures exempt individuals have access to all standard state/territory plan services or, for beneficiaries in the "Individuals at or below 133% FPL Age 19 through 64" eligibility group, optional enrollment in Alternative Benefit Plan coverage defined using section 1937 requirements, or Alternative Benefit Plan coverage defined as the state territory's approved Medicaid state plan.
Describe the process for processing requests made by exempt individuals to be disenrolled from the Alternative Benefit Plan:
Individuals that meet the medically frail criteria will not receive the HIP Basic and HIP Plus benefits described in the Alternative Benefit Plans (ABPs) and do not have the option to opt into these plans, because they do not contain enhanced benefits. Individuals that are confirmed as medically frail will be enrolled in the State Plan ABP. The benefits of the State Plan ABP as provided to HIP eligible individuals through managed care are at least as generous as the HIP Basic and Plus benefits in each benefit offered and offer additional benefits in excess of what is covered in these plans.
Other Information Related to Enrollment Assurance for Mandatory Participants (ontional):

Other Information Related to Enrollment Assurance for Mandatory Participants (optional):

To ensure accurate and fair identification methods are in place when determining a member's medical condition, such as medically frail, the state will establish an oversight process. The State utilizes external quality control measures to ensure proper identification for medically frail individuals. The type of quality control measures utilized depends on the frail identification method used by the MCE. When the MCE identifies a member as medically frail, they must document and notify the State. The notification must include (1) the medically frail designation; (2) the date of the determination; and (3) the method used to make the medically frail determination. The following outlines the State audit procedures based on the identification method used.

- MCE identifies member as medically frail based on the Milliman Underwriting Guidelines by using the Milliman tool that conducts analysis of claims data. This can be done at any time. The tool analyzes claims to determine if the member has accrued sufficient debit points to meet the debit point thresholds that designate a member as frail. The State will review the determination and claims data on an ongoing basis throughout the enrollment period, however, determinations made by the MCEs through the use of the Milliman tool based on member claims are considered to be non-partial.
- MCE identifies member as medically frail based on supplemental data. All supplemental data used to support a frail designation must be indexed to the Milliman Underwriting Guidelines. The Milliman tool provides an automated way to analyze claims for indications of frail status, however if claims have not yet been filed, the Milliman Underwriting Guidelines may also be met through a manual process. When meeting the Milliman Underwriting Guidelines points thresholds through a manual process, the MCE must complete a generic

TN#: 15-0024 ABP 2c Approval Date: 10/29/15

Page 3 of 4 Effective Date: October 1, 2015 Indiana

description of the information utilized by the MCE to support the medically frail designation. This information will be reviewed by the State or its designated vendor to independently confirm these medically frail designations. The State will also conduct audits of the MCE's medically frail determinations to ensure the Milliman Underwriting Guidelines are appropriately applied.

Medically frail audits will include review of non-claim data to form a complete picture of the health of the member. This data review could include, but not be limited to: output files from the Milliman Renewal MUGs tool indicating the number of debit points the member accumulated; completed Health Risk Assessments; documentation of attempts to make contact with their member and/or physician(s); recorded responses and supporting information indicating member impairment in Activities of Daily Living (ADLs); and supplemental information gathered by the MCE in order to make a complete decision (such as lab results, physician notes or lifestyle factors). To ensure accurate and timely review of members, the State will also monitor the average time and determination completion rate for each MCE as well as complete in depth reviews surrounding member state appeals (e.g. rate of appeals, appeals outcome statistics, number of State Fair Hearings requested) and Internet Queries (IQs).

In addition, to the specific methods described, the State's MCE audit procedures are ongoing. The State will conduct regular audits of the MCE's Medically Frail Supplemental File to determine and verify appropriate placement of medically frail members including the use of Milliman Underwriting Guidelines. If the member does not meet the medically frail criteria based upon the State's review, the State will request additional information from the MCE. The State anticipates that approximately ten percent (10%) of the total HIP population will be designated as medically frail. If at any time the State finds that a significant amount more or less than ten percent (10%) of an MCE's total HIP population is designated as medically frail, the State will initiate a random audit of the MCE population to ensure that the Milliman Underwriting Guidelines are being applied appropriately or supporting data was used properly. If any MCE is found to have a consistent issue applying the Milliman Underwriting Guidelines in a uniform fashion, the State's will take the appropriate corrective actions.

The State's oversight processes, as explained, focus on ensuring the member receives the proper health services needed which include the appropriate health designation.

The prescription drug benefit will cover at least one drug in every category and class or the number of drugs covered in each category and class as the base benchmark, whichever is greater. The formulary must support the coverage and non-coverage requirements for legend drugs by Indiana Medicaid, found in 405 IAC 5-24-3. In addition, the exact drugs covered under the formulary may vary by the Managed Care Entities (MCEs). Prescription supply is limited to 30 days.

For authorization, Managed Care Entities may require prior authorization requirements, such as general member information, a justification of need for Rx related to the medical needs of the member and a planned course of treatment, if applicable, as related to the number Rx provided and duration of treatment. Prior authorization requirements for prescription drugs may vary by MCE, but will comply with Mental Health Parity requirements. MCEs will be required to have a process in place to allow drugs that are medically necessary, but not included on the formulary to be accessed by members.

#### Describe program below:

The HIP 2.0 program was developed from expanding the existing HIP program to reach more individuals and provide better access to benefits including more coverage options. This program will replace traditional Medicaid for all non-disabled adults ages 19-64 with income below 133% of FPL as based on MAGI income standards. The key feature of the HIP program is the high-deductible design and the Personal Wellness and Responsibility (POWER) account where members make contributions based on their income and use the funds in the account to cover their deductible expenses. Under HIP 2.0, members who consistently make required contributions to their POWER account will maintain access to the HIP Plus plan that includes enhanced benefits, such as dental and vision coverage. Members up to and including 100% FPL who do not make monthly POWER account contributions will be placed in the HIP Basic plan, a more limited benefit plan, which will also require copayments for all services in lieu of the monthly POWER account contributions. Those with income over this amount who do not make required contributions are disenrolled and subject to a six month lock-out period. Lock-out will not apply if you are medically frail, residing in a domestic violence shelter or in a state declared disaster area.

All HIP medical benefits are currently provided through three managed care entities ("MCE"), Anthem, MDwise, and Managed Health Services. These same MCE's will provide HIP 2.0 services. HIP members have access to enrollment brokers, who provide counseling on the available MCE choices. For HIP members, once an MCE has been selected and coverage has initiated, the member must remain in the MCE for 12 months, as applicable. Members who do not select an MCE will be auto-assigned to an MCE, but will have the opportunity to change the assigned MCE before the first POWER account contribution is made.

#### Additional Information: MCO (Optional)

Provide any additional details regarding this service delivery system (optional):

As selected above, the state's managed care program currently operates under Section 1932(a) mandatory managed care state plan amendment. This is concurrent with the 1115 authority in order to authorize the enrollment processes.

#### **Fee-For-Service Options**

Indiana

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

	$\overline{}$	TD 11.1 1	1	C C	
- 6		Iraditional	state-managed	too tor	COTTIOO
А	•	Trauruonar	State-managed	ICC-IOI-	-SCI VICC

(	Services mana	ged under ar	administrative	services	organization	(ASO)	) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

#### **Additional Information: Fee-For-Service (Optional)**

Provide any additional details regarding this service delivery system (optional):

Under HIP 2.0, all services are carved into the Managed Care System except for Medicaid Rehabilitation Option (MRO) services which will be provided to qualifying individuals receiving the ABP that is the State Plan. Individuals eligible for MRO under HIP 2.0 would also be eligible for the State's 1915(i) Behavioral and Primary Health Care Coordination program. It is anticipated that there will be minimal use of MRO for individuals enrolled in HIP 2.0.
