Re: Kentucky State Plan Amendment 15-0007

Dear Ms. Lee:

We have reviewed the proposed Kentucky state plan amendment, KY 15-0007, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on October 30, 2015. This amendment adds Licensed Alcohol and Drug Counselors and Licensed Alcohol and Drug Counselor Associates as service providers to the state plan. This amendment also revises service descriptions for certain rehabilitative services and includes other technical changes.

Based on the information provided, the Medicaid State Plan Amendment KY 15-0007 was approved on January 14, 2016. The effective date of this amendment is October 1, 2015. We are enclosing the approved HCFA-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Melanie Benning at (404) 562-7414 or Melanie.Benning@cms.hhs.gov.

Sincerely,

//s//

Jackie Glaze
Associate Regional Administrator

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

Rehabilitative substance use and mental health services are medical or remedial services that have been recommended by a physician or other licensed practitioner of the healing arts within the scope of his practice, under Kentucky State Law and consistent with federal regulations at 42 CFR 440.130(d).

Each medical professional is given the choice of whether or not to participate in the Kentucky Medicaid Program. From those professionals who have chosen to participate, the recipient may choose the one from whom he wishes to receive his medical care.

When the Department makes payment for a covered service and the provider accepts the payment made by the Department in accordance with the Department's fee structure, the amounts paid shall be considered payment in full except any applicable co-payment; and no bill for the same service shall be sent to the recipient for any amount above the Medicaid allowed charges (with the exception of any applicable co-payments). The provider may bill the recipient for services not covered by Kentucky Medicaid; however, the provider must make the recipient aware of the non-covered services prior to rendering those services.

Providers of medical service attest by their signatures that the presented claims are valid and in good faith. Fraudulent claims are punishable by fine and/or imprisonment.

Diagnoses shall be recorded in the health record within three (3) visits, in order to receive Medicaid payment. The exception is for crisis services, screening, and assessment.

A billable unit of service is the actual time spent face-to-face delivering an actual service. Time spent in traveling to and from an off-site visit shall not be billed.

1. Limitations on Amount, Duration or Scope of Services

Unless a diagnosis is made and documented in the medical record within three (3) visits, the service will not be covered. The exception is for crisis services, screening, and assessment. An appropriate mental health or substance use disorder diagnosis is required for coverage, with the exception for crisis services, screening, and assessment.

Some rehabilitative services are furnished with limitations on amount, duration, or scope of service. The limitations of these services are indicated in the service description. If there is no limitation noted within the description of the service, there are no limits on the amount, duration or scope of the service. All services must meet medical necessity. All services, including those without specific limitations, with the exception of crisis services, screening, and assessment must be provided in accordance with a documented diagnosis and plan of treatment.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

1. Limitations on Amount, Duration or Scope of Services (continued)

The following services will NOT be covered by Medicaid under this State Plan Amendment:

- (a) Services provided to residents of:
 - (1) nursing facilities;
 - (2) hospital;
 - (3) Intermediate Care Facility – Individual with Intellection Disability (ICF-IID)
 - (4) Psychiatric Residential Treatment Facility (PRTF)
- (b) Services provided to inmates of local, state or federal jails, detention centers or prisons
- (c) Services to those with developmental and intellectual disabilities, without documentation of an additional psychiatric diagnosis
- (d) Psychological assessment or testing for other agencies such as courts or schools, which does not result in the recipient receiving psychiatric intervention or therapy from the independent provider. If the testing results in behavioral health treatment, then the testing was medically necessary and would be covered. School services included in a child's Individual Education Plan (IEP) may be coverable under the Medicaid School-Based Services Program.
- (e) Consultation or educational services provided to Medicaid recipients or others
- (f) Collateral Outpatient therapy for ages 21 and over
- (g) Consultation or third party contacts shall be outside the scope of covered benefits, except for consultation provided as a part of collateral outpatient therapy or family outpatient therapy. Covered services require direct patient contact except collateral services for children under age twenty-one (21), when a part of the treatment plan
- (h) Telephone calls, emails, texts or other electronic contacts (excluding telehealth, as described on page 7.1 of the State Plan)
- (i) Travel time
- (j) Field trips, recreational, social, and physical exercise activity groups
- (k) Any applicable exclusion listed under the description of each service.

2. Eligible Recipients

All services, except for the following six services are considered mental health, substance use, or co-occurring mental health and substance use services. These services are available for all Medicaid beneficiaries who meet the medical necessity criteria for these services:

- (a) Service Planning (mental health only);
- (b) Residential Services for Substance Use Disorders (substance use only);
- (c) Screening, Brief Intervention and Referral to Treatment (substance use only);

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

3. Categories of Providers

- (d) Assertive Community Treatment (mental health only);
- (e) Comprehensive Community Support Services (mental health only); and
- (f) Therapeutic Rehabilitation Program (mental health only).

Except where indicated, all services will apply to both children and adults.

Kentucky defines the following categories of providers:

- (a) Individual Practitioner: An individual practitioner who is licensed by the respective board in the Commonwealth of Kentucky or who is supervised by a licensed practitioner to render health services and/or bill Kentucky Medicaid.
- (b) Provider group: A group of more than one individually licensed practitioner who forms a business entity to render behavioral health services and bill Kentucky Medicaid.
- (c) Licensed organization: A business entity that employs licensed and non-licensed health professionals and is licensed to render behavioral health services and bill Kentucky Medicaid. This organization must also meet the following criteria:
 - (1) Be enrolled as a Medicaid provider in the Commonwealth of Kentucky;
 - (2) Demonstrate experience serving the population of individuals with behavioral health disorders relevant to the particular services provided;
 - (3) Have the administrative capacity to provide quality of services in accordance with state and federal requirements;
 - (4) Use a financial management system that provides documentation of services and costs; and
 - (5) Demonstrate capacity to document and maintain individual case records in accordance with state and federal requirements.

All providers must operate within the scope of their license. Providing services to Medicaid recipients outside a provider's licensure is considered fraud.

6. Covered Services

The following services, as defined by the Kentucky Department for Medicaid Services, are considered Medicaid mental health, substance use, or co-occurring mental health and substance use services, unless otherwise indicated:

- (a) [Screening](#)
- (b) [Assessment](#)
- (c) [Psychological Testing](#)
- (d) [Crisis Intervention](#)
- (e) [Mobile crisis](#)

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

- (f) [Residential Crisis Stabilization](#)
- (g) [Day Treatment](#)
- (h) [Peer Support](#)
- (i) [Parent/Family Peer Support](#)
- (j) [Intensive Outpatient Program \(IOP\)](#)
- (k) [Individual Outpatient Therapy](#)
- (l) [Group Outpatient Therapy](#)

- (s) [Assertive Community Treatment](#) (Mental health only)
- (t) [Comprehensive Community Support Services](#) (Mental health only)
- (u) [Therapeutic Rehabilitation Program](#) (TRP) (Mental health only)

(a) [Screening](#)

Screening shall be the determination of the likelihood that a person has a mental health, substance use, or co-occurring mental health and substance use disorder. The purpose is not to establish the presence or specific type of such a disorder but to establish the need for an in-depth assessment.

(b) [Assessment](#)

Assessment shall include gathering information and engaging in a process with the recipient that enables the provider to establish the presence or absence of a mental health disorder, substance use disorder or co-occurring disorders; determine the recipient's readiness for change; identify recipient's strengths or problem areas that may affect the processes of treatment and recovery; and engage the recipient in the development of an appropriate treatment relationship. The purpose of an assessment is to establish (or rule out) the existence of a clinical disorder or service need and to work with the recipient to develop a treatment and service plan, if a clinical disorder or service need is assessed. Also includes functional behavioral assessment utilized when problem behaviors (e.g. aggression, self-injury, destruction of property) are present to identify the reason(s) behavior(s) occur and the skills and strategies necessary to decrease them. This service also includes interpretation and written report of assessment findings. This does not include psychological evaluations or assessments.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(c) Psychological Testing

Psychological testing for individuals with mental health, substance use, or co-occurring mental health and substance use disorders may include psychodiagnostic assessment of personality, psychopathology, emotionality, and/or intellectual disabilities. The service also includes interpretation and written report of testing results.

(d) Crisis Intervention

Crisis Intervention shall be a therapeutic intervention provided for the purpose of immediately reducing or eliminating risk of physical or emotional harm to the recipient, or others. This service shall be provided as an immediate relief to the presenting problem or threat. Crisis Intervention must consist of clinical intervention and support services necessary to provide integrated crisis response, crisis stabilization, interventions, or crisis prevention activities for individuals. It must be followed by non-crisis service referral as appropriate. It must be provided in the provider's office in a face-to-face, one-on-one encounter between the provider and the recipient.

Crisis intervention may include further service prevention planning such as lethal means reduction for suicide risk or substance use relapse prevention or verbal de-escalation, risk assessment, or cognitive therapy.

(e) Mobile Crisis

Mobile crisis is a multi-disciplinary team based intervention that ensures access to acute mental health and substance use services and supports. The service aims to effect symptom or harm reduction, or to safely transition an individual in acute crisis to the appropriate least restrictive level of care. Mobile crisis services are provided face-to-face and available in locations outside the provider's facility (e.g., home or community) 24 hours per day, 7 days per week and 365 days per year. This service is provided in duration of less than 24 hours. Mobile crisis involves all supports and services necessary to provide integrated crisis prevention, assessment and disposition, intervention, continuity of care recommendations, and follow-up services.

Authorized Providers

The Mobile Crisis practitioners must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Capacity to employ required practitioners and coordinate service provision among the rendering practitioners
- Capacity to provide the full range of mobile crisis services on a 24/7/365 basis
- Access to a board-certified or board-eligible psychiatrist on a 24/7/365 basis

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(f) **Residential Crisis Stabilization**

Residential Crisis Stabilization services are provided in Crisis Stabilization Units. Crisis Stabilization Units are community-based, residential programs that offer an array of services including screening, assessment, treatment planning, individual, group, and family therapy, and peer support in order to stabilize a crisis and divert the individual from a higher level of care. It is not part of a hospital. They are used when individuals in a behavioral health emergency cannot be safely accommodated within the community, are not in need of hospitalization but need overnight care.

The purpose is to stabilize the individual, provide treatment for acute withdrawal, when appropriate, and re-integrate him back into the community, or other appropriate treatment setting, in a timely fashion. These units provide a non-hospital residential setting and services 24-hours per day, seven (7) days per week, 365 days a year. The estimated length of stay for children is three (3) to five (5) days. The estimated length of stay for adults is seven (7) to 10 days. The component services of crisis stabilization units are screening, assessment, service planning, psychiatric services, individual therapy, family therapy, group therapy, and peer support.

Residential crisis stabilization does not include, and federal financial participation (FFP) is not available for, room and board services; educational, vocational and job training services; habilitation services; services to inmates in public institutions as defined in 42 CFR §435.1010; services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010; recreational and social activities; and services that must be covered elsewhere in the state Medicaid plan.

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit “inpatient psychiatric services for individuals under 21” (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Authorized Providers

The Residential Crisis Stabilization providers must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Capacity to employ practitioners and coordinate service provision among rendering providers
- Capacity to provide the full range of services included in the Residential Crisis Stabilization service definition
- Ability to provide Residential Crisis Stabilization services on a 24/7/365 basis
- Access to a board-certified or board-eligible psychiatrist on a 24/7/365 basis

(g) Day Treatment

Day Treatment is a non-residential, intensive treatment program designed for children/youth under the age of 21 who have a mental health, substance use, or co-occurring mental health and substance use disorder, and who are at high risk of out-of-home placement due to behavioral health issues. Intensive coordination/linkage with schools and or other child serving agencies is included.

Intensive coordination is needed in order to successfully transition youth recipients to a lower level of care. See below for basic components of the required linkage agreement between the provider and the local education authority that specifies the responsibility of the authority and the provider for:

- Appropriately licensed teachers and provisions for their professional development;
- Educational supports including classroom aides and textbooks;
- Educational facilities;
- Physical education and recreational therapies;
- Transportation; and
- Transition planning.

Day treatment services do not include services covered in a child's Individualized Education Plan (IEP).

Day treatment may focus on resolving multiple mental health and/or substance use issues and is typically provided as an alternative to a school or other traditional day time setting for children.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Day treatment services shall be provided:

- In collaboration with the education services of the Local Education Authority (LEA) including those provided through IDEA and/or Section 504;
- On school days and during scheduled breaks;
- In coordination with the recipient's IEP, if the recipient has an IEP;
- With a linkage agreement to other behavioral health services with the LEA that specifies the responsibilities of the LEA and the day treatment provider.

(h) **Peer Support**

Peer Support is social and emotional support that is provided by an individual who is employed by a provider group or licensed organization and who has experienced a mental health disorder, substance use disorder, or co-occurring mental health and substance use disorder to a recipient sharing a similar mental health disorder, substance use disorder, or co-occurring mental health and substance use disorder in order to bring about a desired social or personal change. It is an evidence-based practice. Peer Support Services are structured and scheduled non-clinical therapeutic activities with an individual recipient or a group or recipients and are provided by a self-identified consumer of mental health, substance use, or co-occurring mental health and substance use disorder services who has been trained and certified in accordance with state regulations. Services should promote socialization, recovery, self-advocacy, preservation and enhancement of community living skills for the recipient.

Peer support services must incorporate the following core components:

-
- Supervision – Peer support specialists must be supervised regularly by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA.
- Care coordination - Peer support services must be coordinated within the context of a comprehensive, individualized treatment plan which is developed through a person-centered planning process. The peer support services must be identified on each recipient's individual treatment plan, and must be designed to directly contribute to the participant's individualized goals, as specified in the plan.
- Training - Peer Support Specialists have a minimum educational requirement of a high school diploma or a General Educational Development (GED) certificate and must successfully complete training approved by the Kentucky Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID).

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Pursuant to KRS 309.0831, Registered Alcohol and Drug Peer Support Specialists are exempt from the DBHDID training required in 908 KAR 2:220, 230 and 240.

Authorized Providers

Peer Support – Peer support specialists must be either employed by a provider group or a licensed organization that meet the following additional criteria:

- Must employ qualified peer support specialists who successfully completed the training/exam as outlined in the Kentucky Administrative Regulation;
- Must provide supervision by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA;
- Must have the capacity to provide on-going continuing education and technical assistance to peer support specialists; and
- Must have demonstrated experience serving the behavioral health population (mental health, substance use or co-occurring mental health and substance use disorders) and age range served (youth or adult peers or parent-to-parent).
- Registered Alcohol and Drug Peer Support Specialist

(i) Parent/Family Peer Support

Parent/Family Peer Support is emotional support that is provided by a parent or family member, who is employed by a provider group or licensed organization, of a child who has experienced a mental health disorder, substance use disorder, or a co-occurring mental health and substance use disorder to a parent or family member with a child sharing a similar mental health, substance use, or co-occurring mental health and substance use disorder in order to bring about a desired social or personal change. It is an evidence-based practice. Peer Support Services are structured and scheduled non-clinical therapeutic activities with individuals or groups provided by a self-identified parent /family member of a child/youth consumer of mental health, substance use, or co-occurring mental health and substance use disorder services who has been trained and certified in accordance with state regulations. Services should promote socialization, recovery, self-advocacy, preservation and enhancement of community living skills for the recipient. To provide parent or family peer support services a provider shall:

- have demonstrated the capacity to provide the core elements of parent or family peer support services for the behavioral health population being served including the age range of the population being served;
- employ family peer support specialists who are qualified to provide family peer support services in accordance with state regulations; and
- use an approved behavioral health services provider to supervise family peer support specialists.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Peer support services must incorporate the following core components:

- Supervision – Peer support specialists must be supervised regularly by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA.
- Care coordination - Peer support services must be coordinated within the context of a comprehensive, individualized treatment plan which is developed through a person-centered planning process. The peer support services must be identified on each recipient's individual treatment plan, and must be designed to directly contribute to the participant's individualized goals, as specified in the plan.
- Training - Peer Support Specialists have a minimum educational requirement of a high school diploma or a General Educational Development (GED) certificate and must successfully complete training approved by DBHDID.

Authorized Providers

Peer Support – Peer support specialists must be either employed by a provider group or a licensed organization that meet the following additional criteria:

- Must employ qualified peer support specialists who successfully completed the training/exam as outlined in the Kentucky Administrative Regulation;
- Must provide supervision by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA;
- Must have the capacity to provide on-going continuing education and technical assistance to peer support specialists; and
- Must demonstrate experience serving the behavioral health population (mental health, substance use or co-occurring mental health and substance use disorders) and age range served (youth or adult peers or parent-to-parent).

(j) Intensive Outpatient Program (IOP)

Intensive Outpatient Program (IOP) is an alternative to or transition from inpatient hospitalization or partial hospitalization for mental health or substance use disorders. An IOP must offer a multi-modal, multi-disciplinary structured outpatient treatment program that is significantly more intensive than individual outpatient, group outpatient therapy, and family outpatient therapies.

IOP services must be provided at least three (3) hours per day and at least three (3) days per week.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Programming must include individual outpatient therapy, group outpatient therapy, and family outpatient therapy unless contraindicated, crisis intervention as it would occur in the setting where IOP is being provided, and psycho-education. Psycho-education is one component of outpatient therapy for mental health conditions. During psycho-education, the recipient or their family is provided with knowledge about his diagnosis, the causes of that condition, and the reasons why a particular treatment might be effective for reducing his symptoms. Recipients and their families gain empowerment to understand and accept the diagnosis and learn to cope with it in a successful manner).

All treatment plans must be individualized, focusing on stabilization and transition to a lesser level of care.

The State does not claim IOP that is located in a hospital as a rehabilitative service.

Intensive Outpatient Services - Practitioners must be employed by a provider group or licensed organization that meets the criteria of a provider group or licensed organization and the following additional criteria:

- Access to a board-certified or board-eligible psychiatrist for consultation;
- Access to a psychiatrist, other physician or Advanced Practice Registered Nurse (APRN) for medication management;
- Adequate staffing to assure a minimum recipient-to-program staff ratio of ten (10) recipients to one (1) staff member;
- Capacity to provide services utilizing a recognized intervention protocol based on nationally accepted treatment principles when serving adults with mental health, substance use disorder or co-occurring disorders and the System of Care Principles when serving a recipient under the age of 21 with mental health, substance use disorder or co-occurring disorders;
- Capacity to employ required practitioners and coordinate service provision among rendering practitioners;
- Capacity to provide the full range of services included in the Intensive Outpatient service definition;
- Demonstrated experience in serving individuals with behavioral health disorders;
- The administrative capacity to ensure quality of services;
- A financial management system that provides documentation of services and costs; and
- The capacity to document and maintain individual case records.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(k) **Individual Outpatient Therapy**

Individual Outpatient Therapy shall consist of a face-to-face, one-on-one encounter between the provider and the recipient. The therapy shall be a behavioral health therapeutic intervention provided in accordance with a recipient's identified treatment plan and is aimed at the reduction of adverse symptoms and improved functioning and reducing or eliminating the presenting problem of the recipient. Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, which can be exceeded based on medical necessity.

(l) **Group Outpatient Therapy**

Group therapy shall be therapeutic intervention provided to a group of unrelated persons, with the exception of multi-family group therapy. Group therapy shall consist of a face-to-face behavioral health therapeutic intervention provided in accordance with the recipient's identified treatment plan. Group outpatient therapy shall not solely include physical exercise, a recreational activity or an educational activity, or a social activity. The subject of the group outpatient therapy shall be related to each recipient participating in the group. A group consists of no more than twelve persons. It is usually for a limited time period (generally 1 to 1 ½ hours in duration). Group therapy focuses on psychological needs of the recipients as evidenced in each recipient's plan of treatment. Group therapy centers on goals such as building and maintaining healthy relationships, personal goal setting, and the exercise of personal judgment. The group shall have a deliberate focus and must have a defined course of treatment. Individual notes must be written for each recipient within the group and be kept in that individual's medical record.

Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, which can be exceeded based on medical necessity.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(m) **Family Outpatient Therapy**

Family Therapy shall consist of a face-to-face therapeutic intervention provided through scheduled therapeutic visits between the therapist and the recipient and one or more members of a recipient's family or household member of the recipient to address issues interfering with the relational functioning of the family and improve interpersonal relationships within the home environment.

The need for family therapy shall be so stated in the recipient's plan of treatment. Family therapy services shall be for the benefit of the recipient.

Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, but can be exceeded based on medical necessity.

(n) **Collateral Outpatient Therapy**

Collateral services shall be limited to recipients under the age of twenty-one, who are recipients of the rendering provider. A collateral service shall be a face-to-face encounter with a parent/caregiver, household member of a recipient, legal representative/guardian, school personnel or other person in a position of custodial control or supervision of the recipient, for the purpose of providing counseling or consultation on behalf of a recipient in accordance with an established plan of treatment. The parent or legal representative in a role of supervision of the recipient shall give written approval for this service. This written approval shall be kept in the recipient's medical record. This service is only reimbursable for a recipient under age 21.

(o) **Partial Hospitalization**

Partial Hospitalization is a short-term (average of four (4) to six (6) weeks), less than 24-hour, intensive treatment program for individuals experiencing significant impairment to daily functioning due to substance use disorders, mental health disorders, or co-occurring mental health and substance use disorders. Partial Hospitalization may be provided to adults or children. This service is designed for individuals who cannot effectively be served in community-based therapies or IOP.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

The program consists of individual, group, family therapies and medication management. Educational, vocational, or job training services that may be provided as part of Partial Hospitalization are not reimbursed by Medicaid. The program has an agreement with the local educational authority to come into the program to provide all educational components and instruction which are not Medicaid billable or reimbursable. Services in a Medicaid-eligible child's Individual Education Plan (IEP) are coverable under Medicaid.

Partial Hospitalization is typically provided for at least four (4) hours per day. Partial Hospitalization is typically focused on one primary presenting problem (i.e., Substance use, sexual reactivity, etc.).

Authorized Providers

Partial Hospitalization – Practitioners must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- An Advanced Practice Registered Nurse (APRN), Physician Assistant (PA) or Physician available on-site and a board-certified or board-eligible psychiatrist available for consultation;
- Capacity to provide services utilizing a recognized intervention protocol based on Recovery Principles;
- Capacity to employ required practitioners and coordinate service provision among rendering practitioners; and
- Capacity to provide the full range of services included in the Partial Hospitalization definition.

(p) Service Planning TREATMENT OF MENTAL HEALTH ONLY

Service planning involves assisting the recipient in creating an individualized plan for services needed for maximum recovery of symptoms associated with a mental health disorder and restoration of a recipient to his best possible functional level. A person-centered planning process is required. The plan is directed by the recipient and must include practitioners of the recipient's choosing. The providers include more than licensed professionals – it may include the recipient (and his guardian if applicable), care coordinator, other service providers, family members or other individuals that the recipient chooses. Service Planning may include a mental health advance directive being filed with a local hospital; crisis plan or a relapse prevention strategy or plan.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(q) **Residential Services for Substance Use Disorders (SUDS) TREATMENT FOR SUBSTANCE USE ONLY**

Residential services for substance use disorders is residential treatment (24 hour/day) that may be short-term or long-term for the purposes of providing intensive treatment and skills building, in a structured and supportive environment, to assist individuals (children and adults) to enter into alcohol/drug addiction recovery. This service is provided in a 24-hour live-in facility that offers a planned and structured regimen of care that aims to treat persons with addictions or substance use disorders and assists them in making the necessary changes in their lives that will enable them to live drug or alcohol free lives.

Services must:

- 1) Be provided under the medical direction of a physician;
- 2) Provide continuous nursing services in which a registered nurse shall be:
 - a) On-site during traditional first shift hours, Monday through Friday;
 - b) Continuously available by phone after hours; and
 - c) On-site as needed in follow-up to telephone consultation after hours.

Individuals must have been assessed and meet criteria for approval of residential services, utilizing a nationally recognized assessment tool (e.g., American Society of Addiction Medicine (ASAM)) as approved by the Kentucky Department of Behavioral Health, Development and Intellectual Disabilities (DBHDID).

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit “inpatient psychiatric services for individuals under 21” (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

Residential treatment services shall be based on individual need and may include:

- Screening
- Assessment
- Service Planning
- Individual Therapy
- Group Therapy
- Family Therapy
- Peer Support

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

There are two levels of residential treatment:

- Short term –length of stay less than 30 days
- Long term- length of stay 30- 90 days

Short Term

Short term services should have a duration of less than thirty (30) days, but can be exceeded based on medical necessity. 24 hour staff as required by licensing regulations.

Short term services should have planned clinical program activities constituting at least 15 hours per week of structured professionally directed treatment services to stabilize and maintain a person's substance use disorder and to help him to develop and apply recovery skills.

Long Term

Long term services should have 24 hour staff as required by licensing regulations, as well as planned clinical program activities constituting 40 hours per week of structured professionally directed treatment services to stabilize and maintain a person's substance use and or substance use and mental health disorder and to help him or her to develop and apply recovery skills.

Residential SUD treatment programs do not include, and Federal Financial Participation (FFP) is not available for, room and board services; educational, vocational and job training services; habilitation services; services to inmates in public institutions as defined in 42 CFR §435.1010; services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010; recreational and social activities; and services that must be covered elsewhere in the state Medicaid plan.

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit "inpatient psychiatric services for individuals under 21" (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

Limitations

To provide residential services for substance use disorders, a behavioral health services organization shall:

- a. Have the capacity to employ staff authorized to provide services in accordance with this section and to coordinate the provision of services among team members; and
- b. Be licensed as a non-medical and non-hospital based alcohol and other drug abuse treatment program in accordance with state licensing regulations

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(r) **Screening, Brief Intervention, and Referral to Treatment (SBIRT) TREATMENT OF SUBSTANCE USE ONLY**

SBIRT is an evidence-based early intervention approach that targets individuals with non-dependent substance use to provide effective strategies for intervention prior to the need for more extensive or specialized treatment. SBIRT consists of three major components:

Screening – Assessing an individual for risky substance use behaviors using standardized screening tools;

Brief Intervention – Engaging a patient showing risky substance use behaviors in a short conversation, providing feedback and advice; and

Referral to Treatment – Provides a referral to additional mental health, substance use, or co-occurring mental health and substance use disorder services to patients who screen in need of additional services to address substance use. The Referral to Treatment is part of the Brief Intervention and thus referral to a behavioral health service.

(s) **Assertive Community Treatment (ACT) TREATMENT OF MENTAL HEALTH ONLY**

Assertive community treatment (ACT) is an evidence-based psychiatric rehabilitation practice which provides a comprehensive approach to service delivery for consumers with serious mental illnesses. ACT uses a multidisciplinary team of professionals including psychiatrists, nurses, case managers, therapists and peer support specialists.

Component services include assessment, person centered treatment planning, case management, individual outpatient therapy, family outpatient therapy, and group outpatient therapy, peer support, mobile crisis intervention, mental health consultation, medication monitoring, family support and basic living skills training. Mental health consultation involves brief, collateral interactions with other treating professionals who may have information for the purposes of treatment planning and service delivery.

Family support involves the ACT team working with the recipient's natural support systems to improve family relations in order to reduce conflict and increase recipient autonomy and independent functioning. Basic living skills training shall be rehabilitative services focused on restoring activities of daily living to reduce disability and improve function (i.e., taking medications, housekeeping, meal preparation, hygiene, interacting with neighbors) necessary to maintain independent functioning and community living.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Services are provided by a multidisciplinary team of providers whose backgrounds and training include social work, rehabilitation, counseling, nursing. Providers of ACT services consist of multidisciplinary staff organized as a team in which members function interchangeably to provide treatment, rehabilitation and support.

Authorized Providers

Assertive Community Treatment (ACT) – Team members must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Must employ one or more teams led by an approved behavioral health services provider and including, at a minimum, four (4) full time equivalents including 1.0 FTE therapist, 1.0 Case Manager, .5 Peer Support Specialist, .5 FTE nurse (medication and health management) and 1.0 of the team's choosing with access to a prescriber.
- Adequate staffing to assure a caseload size no greater than ten (10) participants per team member, not including the prescriber or administrative support; Have the capacity to:
 - (i) Employ staff authorized to provide assertive community treatment services in accordance with this paragraph;
 - (ii) Coordinate the provision of services among team members;
 - (iii) Provide the full range of assertive community treatment services as stated in this paragraph; and
 - (iv) Document and maintain individual case records; and
 - (v) Demonstrate experience in serving individuals with persistent and serious mental illness who have difficulty living independently in the community.

(t) Comprehensive Community Support Services **TREATMENT OF MENTAL HEALTH ONLY**

Comprehensive Community Support Services covers activities necessary to allow individuals with mental illnesses to live with maximum independence in the community. Activities are intended to assure successful community living through utilization of skills training as identified in the individual treatment plan. Skills training is designed to reduce symptoms associated with a mental health disorder and restore the recipient to his best possible functional level. Comprehensive community support services consists of using a variety of psychiatric rehabilitation techniques to improve daily living skills, self-monitoring of symptoms and side effects, improve emotional regulation skills, crisis coping skills and developing and enhancing interpersonal skills.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

- To provide comprehensive community support services, a licensed organization shall:
- Have the capacity to employ staff authorized pursuant to 908 KAR 2:250 to provide comprehensive community support services in accordance with subsection (2)(k) of this section and to coordinate the provision of services among team members; and
- Meet the requirements for comprehensive community support services established in 908 KAR 2:250.

(u) **Therapeutic Rehabilitation Program TREATMENT OF MENTAL HEALTH ONLY**

A Therapeutic Rehabilitation Program is a rehabilitative service for adults with serious mental illnesses and recipients under the age of twenty-one years who have a serious emotional disability designed to maximize reduction of the symptoms associated with a mental health disorder and restoration of the recipient's best possible functional level. Services shall be designed for the reduction in disabilities related to social, personal, and daily living skills, as well as the restoration of these skills. The recipient establishes his own rehabilitation goals within the person centered service plan. Component services are delivered using a variety of psychiatric rehabilitation techniques and focus on improving daily living skills, self-monitoring of symptoms and side effects, emotional regulation skills, crisis coping skills and interpersonal skills. Services may be delivered individually or in a group.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

9. Qualifications of Providers (continued)

- g. Licensed Professional Counselor Associate – KRS 335.525 states that the board shall issue a "professional clinical counselor" license to an applicant who:
- (1) Has completed all requirements under paragraphs (a) to (d) as outlined under Licensed Professional Counselor above;
 - (2) Has not met the requirements of paragraphs (e) or (f) as outlined under Licensed Professional Counselor above; and
 - (3) Has obtained a board-approved supervisor of record.

A licensed professional counselor associate shall maintain ongoing supervision with a licensed behavioral health professional who meets the requirements of the respective KY Board of Licensure for supervision of the Licensed Professional Counselor Associate. The supervising licensed behavioral health professional shall assume responsibility for and supervise the LPCA's practice.

- h. Licensed Psychological Associate – KRS 319.064 states a licensed psychological associate shall:
- (1) Have received a master's degree in psychology from a regionally accredited educational institution;
 - (2) Have passed an examination procedure in psychology; and
 - (3) A licensed psychological associate shall not practice independently, except under the employment and supervision of any board-approved licensed psychologist.
- i. Licensed Psychological Practitioner – KRS 319.053 states a person holding a credential as a certified psychologist or as a licensed psychological associate may apply for a license to perform certain functions within the practice of psychology without supervision and use the title of "licensed psychological practitioner" when all of the following conditions are met:
- (1) Submission of three (3) letters of endorsement to the board to sit for the examination:
 - (a) One of the letters shall be from the applicant's current board approved supervisor of record and shall include a statement describing the scope of practice demonstrated in the clinical experience of the applicant; and
 - (b) Two letters shall be from licensed mental health professionals who are acceptable to the board and who are familiar with the clinical work of the applicant.

9. Qualifications of Providers (continued)

- (2) Documentation of at least sixty (60) semester hours of graduate study in psychology or a related field or its equivalent acceptable to the board; and
 - (3) Completion, after credentialing by the board as a certified psychologist, psychological associate, or licensed psychological associate, of the equivalent of five full-time years of professional experience under the supervision of a board-approved licensed psychologist.
 - (4) An applicant for licensure shall be required by the board to pass the national objective examination known as the EPPP, with an equal to or exceeding the score required for the passage for a licensed psychologist candidate at the doctoral level at the time the examination is taken.
 - (5) The board shall require an applicant for licensure under this section to pass an examination of psychological practice, ethical principles and the law.
- j. Licensed Psychologist – Per KRS 319.050, a licensed psychologist shall pass an examination in psychology and fulfill all requirements for supervised experience.
- (1) The psychologist shall:
 - (a) Have received a doctoral degree in psychology that is acceptable to the board from a regionally accredited educational institution; provided, however, the board may grant a license to an individual otherwise qualified under this chapter who has received a doctoral degree in psychology that is acceptable to the board from an educational institution outside the United States, if the educational institution would otherwise be accredited by a regional accrediting body if located in the United States;
 - (b) Have passed the national EPPP examination at the doctoral level; and
 - (c) Have had at least two (2) years of supervised professional experience satisfactory to the board, one (1) year of which shall be an internship.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

9. Qualifications of Providers (continued)

- (2) Upon acceptance of the application to sit for the examination in psychology, the applicant may practice psychology under the supervision of a licensed psychologist under conditions of supervision and temporary licensure established by the board. The board shall establish a grace period not to exceed sixty (60) days to allow for the employment and supervision of the applicant by an agency from the time the applicant's degree requirements are completed to the submission of the complete application. During this period of supervision, the applicant for licensure may not supervise certified psychologists, licensed psychological associates, other applicants for licensure, or temporarily licensed persons, nor shall he engage in an independent practice, except under the employment of his supervising psychologist. Upon certification to the board of completion of the two (2) years of supervision satisfactory to the board, the applicant shall be examined on psychological practice, ethical principles, and the law.
 - (3) Licensed psychologists may function independently without supervision. Licensed psychologists who have the designation "health service provider" may retain that designation and may employ and supervise certified psychologists and licensed psychological associates. Licensed psychologists who have the designation "health service provider" may supervise no more than a total of six (6) certified psychologists, licensed psychological associates, or applicants for licensure at one (1) time.
- k. Physician – KRS 311.571 states that any applicant who is a graduate of a medical or osteopathic school shall be eligible for a regular license to practice medicine in the Commonwealth if they:
- (1) Are able to understandably speak, read, and write the English language;
 - (2) Has graduated from an accredited college or university or has satisfactorily completed a collegiate course of study necessary for entry into an approved medical or osteopathic school or college;
 - (3) Has graduated from a prescribed course of instruction in a medical or osteopathic school or college situated in the United States or Canada and approved by the board;
 - (4) Has satisfactorily completed a prescribed course of postgraduate training of a duration to be established by the board in an administrative regulation; and
 - (5) Has successfully completed an examination prescribed by the board.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

Rehabilitative substance use and mental health services are medical or remedial services that have been recommended by a physician or other licensed practitioner of the healing arts within the scope of his practice, under Kentucky State Law and consistent with federal regulations at 42 CFR 440.130(d).

Each medical professional is given the choice of whether or not to participate in the Kentucky Medicaid Program. From those professionals who have chosen to participate, the recipient may choose the one from whom he wishes to receive his medical care.

When the Department makes payment for a covered service and the provider accepts the payment made by the Department in accordance with the Department's fee structure, the amounts paid shall be considered payment in full except any applicable co-payment; and no bill for the same service shall be sent to the recipient for any amount above the Medicaid allowed charges (with the exception of any applicable co-payments). The provider may bill the recipient for services not covered by Kentucky Medicaid; however, the provider must make the recipient aware of the non-covered services prior to rendering those services.

Providers of medical service attest by their signatures that the presented claims are valid and in good faith. Fraudulent claims are punishable by fine and/or imprisonment.

Diagnoses shall be recorded in the health record within three (3) visits, in order to receive Medicaid payment. The exception is for crisis services, screening, and assessment.

A billable unit of service is the actual time spent face-to-face delivering an actual service. Time spent in traveling to and from an off-site visit shall not be billed.

1. Limitations on Amount, Duration or Scope of Services

Unless a diagnosis is made and documented in the medical record within three (3) visits, the service will not be covered. The exception is for crisis services, screening, and assessment. An appropriate mental health or substance use disorder diagnosis is required for coverage, with the exception for crisis services, screening, and assessment.

Some rehabilitative services are furnished with limitations on amount, duration, or scope of service. The limitations of these services are indicated in the service description. If there is no limitation noted within the description of the service, there are no limits on the amount, duration or scope of the service. All services must meet medical necessity. All services, including those without specific limitations, with the exception of crisis services, screening, and assessment must be provided in accordance with a documented diagnosis and plan of treatment.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

1. Limitations on Amount, Duration or Scope of Services (continued)

The following services will NOT be covered by Medicaid under this State Plan Amendment:

- (a) Services provided to residents of:
 - (1) nursing facilities;
 - (2) hospital;
 - (3) Intermediate Care Facility – Individual with Intellection Disability (ICF-IID)
 - (4) Psychiatric Residential Treatment Facility (PRTF)
- (b) Services provided to inmates of local, state or federal jails, detention centers or prisons
- (c) Services to those with developmental and intellectual disabilities, without documentation of an additional psychiatric diagnosis
- (d) Psychological assessment or testing for other agencies such as courts or schools, which does not result in the recipient receiving psychiatric intervention or therapy from the independent provider. If the testing results in behavioral health treatment, then the testing was medically necessary and would be covered. School services included in a child's Individual Education Plan (IEP) may be coverable under the Medicaid School-Based Services Program.
- (e) Consultation or educational services provided to Medicaid recipients or others
- (f) Collateral Outpatient therapy for ages 21 and over
- (g) Consultation or third party contacts shall be outside the scope of covered benefits, except for consultation provided as a part of collateral outpatient therapy or family outpatient therapy. Covered services require direct patient contact except collateral services for children under age twenty-one (21), when a part of the treatment plan
- (h) Telephone calls, emails, texts or other electronic contacts (excluding telehealth, as described on page 7.1 of the State Plan)
- (i) Travel time
- (j) Field trips, recreational, social, and physical exercise activity groups
- (k) Any applicable exclusion listed under the description of each service.

2. Eligible Recipients

All services, except for the following six services are considered mental health, substance use, or co-occurring mental health and substance use services. These services are available for all Medicaid beneficiaries who meet the medical necessity criteria for these services:

- (a) Service Planning (mental health only);
- (b) Residential Services for Substance Use Disorders (substance use only);
- (c) Screening, Brief Intervention and Referral to Treatment (substance use only);

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

3. Categories of Providers

- (d) Assertive Community Treatment (mental health only);
- (e) Comprehensive Community Support Services (mental health only); and
- (f) Therapeutic Rehabilitation Program (mental health only).

Except where indicated, all services will apply to both children and adults.

Kentucky defines the following categories of providers:

- (a) Individual Practitioner: An individual practitioner who is licensed by the respective board in the Commonwealth of Kentucky or who is supervised by a licensed practitioner to render health services and/or bill Kentucky Medicaid.
- (b) Provider group: A group of more than one individually licensed practitioner who forms a business entity to render behavioral health services and bill Kentucky Medicaid.
- (c) Licensed organization: A business entity that employs licensed and non-licensed health professionals and is licensed to render behavioral health services and bill Kentucky Medicaid. This organization must also meet the following criteria:
 - (1) Be enrolled as a Medicaid provider in the Commonwealth of Kentucky;
 - (2) Demonstrate experience serving the population of individuals with behavioral health disorders relevant to the particular services provided;
 - (3) Have the administrative capacity to provide quality of services in accordance with state and federal requirements;
 - (4) Use a financial management system that provides documentation of services and costs; and
 - (5) Demonstrate capacity to document and maintain individual case records in accordance with state and federal requirements.

All providers must operate within the scope of their license. Providing services to Medicaid recipients outside a provider's licensure is considered fraud.

(a) [Screening](#)

Screening shall be the determination of the likelihood that a person has a mental health, substance use, or co-occurring mental health and substance use disorder. The purpose is not to establish the presence or specific type of such a disorder but to establish the need for an in-depth assessment.

(b) [Assessment](#)

Assessment shall include gathering information and engaging in a process with the recipient that enables the provider to establish the presence or absence of a mental health disorder, substance use disorder or co-occurring disorders; determine the recipient's readiness for change; identify recipient's strengths or problem areas that may affect the processes of treatment and recovery; and engage the recipient in the development of an appropriate treatment relationship. The purpose of an assessment is to establish (or rule out) the existence of a clinical disorder or service need and to work with the recipient to develop a treatment and service plan, if a clinical disorder or service need is assessed. Also includes functional behavioral assessment utilized when problem behaviors (e.g. aggression, self-injury, destruction of property) are present to identify the reason(s) behavior(s) occur and the skills and strategies necessary to decrease them. This service also includes interpretation and written report of assessment findings. This does not include psychological evaluations or assessments.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(c) **Psychological Testing**

Psychological testing for individuals with mental health, substance use, or co-occurring mental health and substance use disorders may include psychodiagnostic assessment of personality, psychopathology, emotionality, and/or intellectual disabilities. The service also includes interpretation and written report of testing results.

(d) **Crisis Intervention**

Crisis Intervention shall be a therapeutic intervention provided for the purpose of immediately reducing or eliminating risk of physical or emotional harm to the recipient, or others. This service shall be provided as an immediate relief to the presenting problem or threat. Crisis Intervention must consist of clinical intervention and support services necessary to provide integrated crisis response, crisis stabilization, interventions, or crisis prevention activities for individuals. It must be followed by non-crisis service referral as appropriate. It must be provided in the provider's office in a face-to-face, one-on-one encounter between the provider and the recipient.

Crisis intervention may include further service prevention planning such as lethal means reduction for suicide risk or substance use relapse prevention or verbal de-escalation, risk assessment, or cognitive therapy.

(e) **Mobile Crisis**

Mobile crisis is a multi-disciplinary team based intervention that ensures access to acute mental health and substance use services and supports. The service aims to effect symptom or harm reduction, or to safely transition an individual in acute crisis to the appropriate least restrictive level of care. Mobile crisis services are provided face-to-face and available in locations outside the provider's facility (e.g., home or community) 24 hours per day, 7 days per week and 365 days per year. This service is provided in duration of less than 24 hours. Mobile crisis involves all supports and services necessary to provide integrated crisis prevention, assessment and disposition, intervention, continuity of care recommendations, and follow-up services.

Authorized Providers

The Mobile Crisis practitioners must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Capacity to employ required practitioners and coordinate service provision among the rendering practitioners
- Capacity to provide the full range of mobile crisis services on a 24/7/365 basis
- Access to a board-certified or board-eligible psychiatrist on a 24/7/365 basis

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(f) **Residential Crisis Stabilization**

Residential Crisis Stabilization services are provided in Crisis Stabilization Units. Crisis Stabilization Units are community-based, residential programs that offer an array of services including screening, assessment, treatment planning, individual, group, and family therapy, and peer support in order to stabilize a crisis and divert the individual from a higher level of care. It is not part of a hospital. They are used when individuals in a behavioral health emergency cannot be safely accommodated within the community, are not in need of hospitalization but need overnight care.

The purpose is to stabilize the individual, provide treatment for acute withdrawal, when appropriate, and re-integrate him back into the community, or other appropriate treatment setting, in a timely fashion. These units provide a non-hospital residential setting and services 24-hours per day, seven (7) days per week, 365 days a year. The estimated length of stay for children is three (3) to five (5) days. The estimated length of stay for adults is seven (7) to 10 days. The component services of crisis stabilization units are screening, assessment, service planning, psychiatric services, individual therapy, family therapy, group therapy, and peer support.

Residential crisis stabilization does not include, and federal financial participation (FFP) is not available for, room and board services; educational, vocational and job training services; habilitation services; services to inmates in public institutions as defined in 42 CFR §435.1010; services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010; recreational and social activities; and services that must be covered elsewhere in the state Medicaid plan.

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit “inpatient psychiatric services for individuals under 21” (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Authorized Providers

The Residential Crisis Stabilization providers must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Capacity to employ practitioners and coordinate service provision among rendering providers
- Capacity to provide the full range of services included in the Residential Crisis Stabilization service definition
- Ability to provide Residential Crisis Stabilization services on a 24/7/365 basis
- Access to a board-certified or board-eligible psychiatrist on a 24/7/365 basis

(g) Day Treatment

Day Treatment is a non-residential, intensive treatment program designed for children/youth under the age of 21 who have a mental health, substance use, or co-occurring mental health and substance use disorder, and who are at high risk of out-of-home placement due to behavioral health issues. Intensive coordination/linkage with schools and or other child serving agencies is included.

Intensive coordination is needed in order to successfully transition youth recipients to a lower level of care. See below for basic components of the required linkage agreement between the provider and the local education authority that specifies the responsibility of the authority and the provider for:

- Appropriately licensed teachers and provisions for their professional development;
- Educational supports including classroom aides and textbooks;
- Educational facilities;
- Physical education and recreational therapies;
- Transportation; and
- Transition planning.

Day treatment services do not include services covered in a child's Individualized Education Plan (IEP).

Day treatment may focus on resolving multiple mental health and/or substance use issues and is typically provided as an alternative to a school or other traditional day time setting for children.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Day treatment services shall be provided:

- In collaboration with the education services of the Local Education Authority (LEA) including those provided through IDEA and/or Section 504;
- On school days and during scheduled breaks;
- In coordination with the recipient's IEP, if the recipient has an IEP;
- With a linkage agreement to other behavioral health services with the LEA that specifies the responsibilities of the LEA and the day treatment provider.

(h) **Peer Support**

Peer Support is social and emotional support that is provided by an individual who is employed by a provider group or licensed organization and who has experienced a mental health disorder, substance use disorder, or co-occurring mental health and substance use disorder to a recipient sharing a similar mental health disorder, substance use disorder, or co-occurring mental health and substance use disorder in order to bring about a desired social or personal change. It is an evidence-based practice. Peer Support Services are structured and scheduled non-clinical therapeutic activities with an individual recipient or a group or recipients and are provided by a self-identified consumer of mental health, substance use, or co-occurring mental health and substance use disorder services who has been trained and certified in accordance with state regulations. Services should promote socialization, recovery, self-advocacy, preservation and enhancement of community living skills for the recipient.

Peer support services must incorporate the following core components:

-
- Supervision – Peer support specialists must be supervised regularly by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA.
- Care coordination - Peer support services must be coordinated within the context of a comprehensive, individualized treatment plan which is developed through a person-centered planning process. The peer support services must be identified on each recipient's individual treatment plan, and must be designed to directly contribute to the participant's individualized goals, as specified in the plan.
- Training - Peer Support Specialists have a minimum educational requirement of a high school diploma or a General Educational Development (GED) certificate and must successfully complete training approved by the Kentucky Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID).

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Pursuant to KRS 309.0831, Registered Alcohol and Drug Peer Support Specialists are exempt from the DBHDID training required in 908 KAR 2:220, 230 and 240.

Authorized Providers

Peer Support – Peer support specialists must be either employed by a provider group or a licensed organization that meet the following additional criteria:

- Must employ qualified peer support specialists who successfully completed the training/exam as outlined in the Kentucky Administrative Regulation;
- Must provide supervision by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA;
- Must have the capacity to provide on-going continuing education and technical assistance to peer support specialists; and
- Must have demonstrated experience serving the behavioral health population (mental health, substance use or co-occurring mental health and substance use disorders) and age range served (youth or adult peers or parent-to-parent).
- Registered Alcohol and Drug Peer Support Specialist

(i) Parent/Family Peer Support

Parent/Family Peer Support is emotional support that is provided by a parent or family member, who is employed by a provider group or licensed organization, of a child who has experienced a mental health disorder, substance use disorder, or a co-occurring mental health and substance use disorder to a parent or family member with a child sharing a similar mental health, substance use, or co-occurring mental health and substance use disorder in order to bring about a desired social or personal change. It is an evidence-based practice. Peer Support Services are structured and scheduled non-clinical therapeutic activities with individuals or groups provided by a self-identified parent /family member of a child/youth consumer of mental health, substance use, or co-occurring mental health and substance use disorder services who has been trained and certified in accordance with state regulations. Services should promote socialization, recovery, self-advocacy, preservation and enhancement of community living skills for the recipient. To provide parent or family peer support services a provider shall:

- have demonstrated the capacity to provide the core elements of parent or family peer support services for the behavioral health population being served including the age range of the population being served;
- employ family peer support specialists who are qualified to provide family peer support services in accordance with state regulations; and
- use an approved behavioral health services provider to supervise family peer support specialists.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Peer support services must incorporate the following core components:

- Supervision – Peer support specialists must be supervised regularly by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA.
- Care coordination - Peer support services must be coordinated within the context of a comprehensive, individualized treatment plan which is developed through a person-centered planning process. The peer support services must be identified on each recipient's individual treatment plan, and must be designed to directly contribute to the participant's individualized goals, as specified in the plan.
- Training - Peer Support Specialists have a minimum educational requirement of a high school diploma or a General Educational Development (GED) certificate and must successfully complete training approved by DBHDID.

Authorized Providers

Peer Support – Peer support specialists must be either employed by a provider group or a licensed organization that meet the following additional criteria:

- Must employ qualified peer support specialists who successfully completed the training/exam as outlined in the Kentucky Administrative Regulation;
- Must provide supervision by a physician, a psychiatrist, an APRN, a PA, a LP, a LPP, a LPA, a LCSW, a LMFT, a LPCC, a CSW, a MFTA, a LPCA, a CADC, a LADC, a LADCA a LPAT, or a LPATA;
- Must have the capacity to provide on-going continuing education and technical assistance to peer support specialists; and
- Must demonstrate experience serving the behavioral health population (mental health, substance use or co-occurring mental health and substance use disorders) and age range served (youth or adult peers or parent-to-parent).

(j) Intensive Outpatient Program (IOP)

Intensive Outpatient Program (IOP) is an alternative to or transition from inpatient hospitalization or partial hospitalization for mental health or substance use disorders. An IOP must offer a multi-modal, multi-disciplinary structured outpatient treatment program that is significantly more intensive than individual outpatient, group outpatient therapy, and family outpatient therapies.

IOP services must be provided at least three (3) hours per day and at least three (3) days per week.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Programming must include individual outpatient therapy, group outpatient therapy, and family outpatient therapy unless contraindicated, crisis intervention as it would occur in the setting where IOP is being provided, and psycho-education. Psycho-education is one component of outpatient therapy for mental health conditions. During psycho-education, the recipient or their family is provided with knowledge about his diagnosis, the causes of that condition, and the reasons why a particular treatment might be effective for reducing his symptoms. Recipients and their families gain empowerment to understand and accept the diagnosis and learn to cope with it in a successful manner).

All treatment plans must be individualized, focusing on stabilization and transition to a lesser level of care.

The State does not claim IOP that is located in a hospital as a rehabilitative service.

Intensive Outpatient Services - Practitioners must be employed by a provider group or licensed organization that meets the criteria of a provider group or licensed organization and the following additional criteria:

- Access to a board-certified or board-eligible psychiatrist for consultation;
- Access to a psychiatrist, other physician or Advanced Practice Registered Nurse (APRN) for medication management;
- Adequate staffing to assure a minimum recipient-to-program staff ratio of ten (10) recipients to one (1) staff member;
- Capacity to provide services utilizing a recognized intervention protocol based on nationally accepted treatment principles when serving adults with mental health, substance use disorder or co-occurring disorders and the System of Care Principles when serving a recipient under the age of 21 with mental health, substance use disorder or co-occurring disorders;
- Capacity to employ required practitioners and coordinate service provision among rendering practitioners;
- Capacity to provide the full range of services included in the Intensive Outpatient service definition;
- Demonstrated experience in serving individuals with behavioral health disorders;
- The administrative capacity to ensure quality of services;
- A financial management system that provides documentation of services and costs; and
- The capacity to document and maintain individual case records.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(k) **Individual Outpatient Therapy**

Individual Outpatient Therapy shall consist of a face-to-face, one-on-one encounter between the provider and the recipient. The therapy shall be a behavioral health therapeutic intervention provided in accordance with a recipient's identified treatment plan and is aimed at the reduction of adverse symptoms and improved functioning and reducing or eliminating the presenting problem of the recipient. Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, which can be exceeded based on medical necessity.

(l) **Group Outpatient Therapy**

Group therapy shall be therapeutic intervention provided to a group of unrelated persons, with the exception of multi-family group therapy. Group therapy shall consist of a face-to-face behavioral health therapeutic intervention provided in accordance with the recipient's identified treatment plan. Group outpatient therapy shall not solely include physical exercise, a recreational activity or an educational activity, or a social activity. The subject of the group outpatient therapy shall be related to each recipient participating in the group. A group consists of no more than twelve persons. It is usually for a limited time period (generally 1 to 1 ½ hours in duration). Group therapy focuses on psychological needs of the recipients as evidenced in each recipient's plan of treatment. Group therapy centers on goals such as building and maintaining healthy relationships, personal goal setting, and the exercise of personal judgment. The group shall have a deliberate focus and must have a defined course of treatment. Individual notes must be written for each recipient within the group and be kept in that individual's medical record.

Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, which can be exceeded based on medical necessity.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(m) **Family Outpatient Therapy**

Family Therapy shall consist of a face-to-face therapeutic intervention provided through scheduled therapeutic visits between the therapist and the recipient and one or more members of a recipient's family or household member of the recipient to address issues interfering with the relational functioning of the family and improve interpersonal relationships within the home environment.

The need for family therapy shall be so stated in the recipient's plan of treatment. Family therapy services shall be for the benefit of the recipient.

Individual therapy, family therapy and group therapy services shall be limited to a maximum of a combined three (3) hours per day, per recipient, but can be exceeded based on medical necessity.

(n) **Collateral Outpatient Therapy**

Collateral services shall be limited to recipients under the age of twenty-one, who are recipients of the rendering provider. A collateral service shall be a face-to-face encounter with a parent/caregiver, household member of a recipient, legal representative/guardian, school personnel or other person in a position of custodial control or supervision of the recipient, for the purpose of providing counseling or consultation on behalf of a recipient in accordance with an established plan of treatment. The parent or legal representative in a role of supervision of the recipient shall give written approval for this service. This written approval shall be kept in the recipient's medical record. This service is only reimbursable for a recipient under age 21.

(o) **Partial Hospitalization**

Partial Hospitalization is a short-term (average of four (4) to six (6) weeks), less than 24-hour, intensive treatment program for individuals experiencing significant impairment to daily functioning due to substance use disorders, mental health disorders, or co-occurring mental health and substance use disorders. Partial Hospitalization may be provided to adults or children. This service is designed for individuals who cannot effectively be served in community-based therapies or IOP.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

The program consists of individual, group, family therapies and medication management. Educational, vocational, or job training services that may be provided as part of Partial Hospitalization are not reimbursed by Medicaid. The program has an agreement with the local educational authority to come into the program to provide all educational components and instruction which are not Medicaid billable or reimbursable. Services in a Medicaid-eligible child's Individual Education Plan (IEP) are coverable under Medicaid.

Partial Hospitalization is typically provided for at least four (4) hours per day. Partial Hospitalization is typically focused on one primary presenting problem (i.e., Substance use, sexual reactivity, etc.).

Authorized Providers

Partial Hospitalization – Practitioners must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- An Advanced Practice Registered Nurse (APRN), Physician Assistant (PA) or Physician available on-site and a board-certified or board-eligible psychiatrist available for consultation;
- Capacity to provide services utilizing a recognized intervention protocol based on Recovery Principles;
- Capacity to employ required practitioners and coordinate service provision among rendering practitioners; and
- Capacity to provide the full range of services included in the Partial Hospitalization definition.

(p) Service Planning TREATMENT OF MENTAL HEALTH ONLY

Service planning involves assisting the recipient in creating an individualized plan for services needed for maximum recovery of symptoms associated with a mental health disorder and restoration of a recipient to his best possible functional level. A person-centered planning process is required. The plan is directed by the recipient and must include practitioners of the recipient's choosing. The providers include more than licensed professionals – it may include the recipient (and his guardian if applicable), care coordinator, other service providers, family members or other individuals that the recipient chooses. Service Planning may include a mental health advance directive being filed with a local hospital; crisis plan or a relapse prevention strategy or plan.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(q) **Residential Services for Substance Use Disorders (SUDS) TREATMENT FOR SUBSTANCE USE ONLY**

Residential services for substance use disorders is residential treatment (24 hour/day) that may be short-term or long-term for the purposes of providing intensive treatment and skills building, in a structured and supportive environment, to assist individuals (children and adults) to enter into alcohol/drug addiction recovery. This service is provided in a 24-hour live-in facility that offers a planned and structured regimen of care that aims to treat persons with addictions or substance use disorders and assists them in making the necessary changes in their lives that will enable them to live drug or alcohol free lives.

Services must:

- 1) Be provided under the medical direction of a physician;
- 2) Provide continuous nursing services in which a registered nurse shall be:
 - a) On-site during traditional first shift hours, Monday through Friday;
 - b) Continuously available by phone after hours; and
 - c) On-site as needed in follow-up to telephone consultation after hours.

Individuals must have been assessed and meet criteria for approval of residential services, utilizing a nationally recognized assessment tool (e.g., American Society of Addiction Medicine (ASAM)) as approved by the Kentucky Department of Behavioral Health, Development and Intellectual Disabilities (DBHDID).

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit “inpatient psychiatric services for individuals under 21” (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

Residential treatment services shall be based on individual need and may include:

- Screening
- Assessment
- Service Planning
- Individual Therapy
- Group Therapy
- Family Therapy
- Peer Support

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

There are two levels of residential treatment:

- Short term –length of stay less than 30 days
- Long term- length of stay 30- 90 days

Short Term

Short term services should have a duration of less than thirty (30) days, but can be exceeded based on medical necessity. 24 hour staff as required by licensing regulations.

Short term services should have planned clinical program activities constituting at least 15 hours per week of structured professionally directed treatment services to stabilize and maintain a person's substance use disorder and to help him to develop and apply recovery skills.

Long Term

Long term services should have 24 hour staff as required by licensing regulations, as well as planned clinical program activities constituting 40 hours per week of structured professionally directed treatment services to stabilize and maintain a person's substance use and or substance use and mental health disorder and to help him or her to develop and apply recovery skills.

Residential SUD treatment programs do not include, and Federal Financial Participation (FFP) is not available for, room and board services; educational, vocational and job training services; habilitation services; services to inmates in public institutions as defined in 42 CFR §435.1010; services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010; recreational and social activities; and services that must be covered elsewhere in the state Medicaid plan.

KY Medicaid will not pay for this service in a unit of more than 16 beds or multiple units operating as one unified facility with more than 16 aggregated beds except for services furnished pursuant to the state plan benefit "inpatient psychiatric services for individuals under 21" (section 1905(a)(16) of the Act; 42 CFR 440.160) or pursuant to an exclusion for individuals age 65 or older who reside in institutions that are IMDs (section 1905(a) of the Act; 42 CFR 440.140.)

Limitations

To provide residential services for substance use disorders, a behavioral health services organization shall:

- a. Have the capacity to employ staff authorized to provide services in accordance with this section and to coordinate the provision of services among team members; and
- b. Be licensed as a non-medical and non-hospital based alcohol and other drug abuse treatment program in accordance with state licensing regulations

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

(r) **Screening, Brief Intervention, and Referral to Treatment (SBIRT) TREATMENT OF SUBSTANCE USE ONLY**

SBIRT is an evidence-based early intervention approach that targets individuals with non-dependent substance use to provide effective strategies for intervention prior to the need for more extensive or specialized treatment. SBIRT consists of three major components:

Screening – Assessing an individual for risky substance use behaviors using standardized screening tools;

Brief Intervention – Engaging a patient showing risky substance use behaviors in a short conversation, providing feedback and advice; and

Referral to Treatment – Provides a referral to additional mental health, substance use, or co-occurring mental health and substance use disorder services to patients who screen in need of additional services to address substance use. The Referral to Treatment is part of the Brief Intervention and thus referral to a behavioral health service.

(s) **Assertive Community Treatment (ACT) TREATMENT OF MENTAL HEALTH ONLY**

Assertive community treatment (ACT) is an evidence-based psychiatric rehabilitation practice which provides a comprehensive approach to service delivery for consumers with serious mental illnesses. ACT uses a multidisciplinary team of professionals including psychiatrists, nurses, case managers, therapists and peer support specialists.

Component services include assessment, person centered treatment planning, case management, individual outpatient therapy, family outpatient therapy, and group outpatient therapy, peer support, mobile crisis intervention, mental health consultation, medication monitoring, family support and basic living skills training. Mental health consultation involves brief, collateral interactions with other treating professionals who may have information for the purposes of treatment planning and service delivery.

Family support involves the ACT team working with the recipient's natural support systems to improve family relations in order to reduce conflict and increase recipient autonomy and independent functioning. Basic living skills training shall be rehabilitative services focused on restoring activities of daily living to reduce disability and improve function (i.e., taking medications, housekeeping, meal preparation, hygiene, interacting with neighbors) necessary to maintain independent functioning and community living.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

Services are provided by a multidisciplinary team of providers whose backgrounds and training include social work, rehabilitation, counseling, nursing. Providers of ACT services consist of multidisciplinary staff organized as a team in which members function interchangeably to provide treatment, rehabilitation and support.

Authorized Providers

Assertive Community Treatment (ACT) – Team members must be employed by a licensed organization that meets the criteria of a licensed organization and the following additional criteria:

- Must employ one or more teams led by an approved behavioral health services provider and including, at a minimum, four (4) full time equivalents including 1.0 FTE therapist, 1.0 Case Manager, .5 Peer Support Specialist, .5 FTE nurse (medication and health management) and 1.0 of the team's choosing with access to a prescriber.
- Adequate staffing to assure a caseload size no greater than ten (10) participants per team member, not including the prescriber or administrative support; Have the capacity to:
 - (i) Employ staff authorized to provide assertive community treatment services in accordance with this paragraph;
 - (ii) Coordinate the provision of services among team members;
 - (iii) Provide the full range of assertive community treatment services as stated in this paragraph; and
 - (iv) Document and maintain individual case records; and
 - (v) Demonstrate experience in serving individuals with persistent and serious mental illness who have difficulty living independently in the community.

(t) Comprehensive Community Support Services **TREATMENT OF MENTAL HEALTH ONLY**

Comprehensive Community Support Services covers activities necessary to allow individuals with mental illnesses to live with maximum independence in the community. Activities are intended to assure successful community living through utilization of skills training as identified in the individual treatment plan. Skills training is designed to reduce symptoms associated with a mental health disorder and restore the recipient to his best possible functional level. Comprehensive community support services consists of using a variety of psychiatric rehabilitation techniques to improve daily living skills, self-monitoring of symptoms and side effects, improve emotional regulation skills, crisis coping skills and developing and enhancing interpersonal skills.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

- To provide comprehensive community support services, a licensed organization shall:
- Have the capacity to employ staff authorized pursuant to 908 KAR 2:250 to provide comprehensive community support services in accordance with subsection (2)(k) of this section and to coordinate the provision of services among team members; and
- Meet the requirements for comprehensive community support services established in 908 KAR 2:250.

(u) **Therapeutic Rehabilitation Program TREATMENT OF MENTAL HEALTH ONLY**

A Therapeutic Rehabilitation Program is a rehabilitative service for adults with serious mental illnesses and recipients under the age of twenty-one years who have a serious emotional disability designed to maximize reduction of the symptoms associated with a mental health disorder and restoration of the recipient's best possible functional level. Services shall be designed for the reduction in disabilities related to social, personal, and daily living skills, as well as the restoration of these skills. The recipient establishes his own rehabilitation goals within the person centered service plan. Component services are delivered using a variety of psychiatric rehabilitation techniques and focus on improving daily living skills, self-monitoring of symptoms and side effects, emotional regulation skills, crisis coping skills and interpersonal skills. Services may be delivered individually or in a group.

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

8. Community Mental Health Centers (CMHC)

CMHCs provide a comprehensive range of coordinated mental health and substance use rehabilitation services. Reimbursement is available for all rehabilitation services described above under covered services subject to the following:

1. Medicaid will reimburse for community mental health center rehabilitation services when provided to persons diagnosed with a mental health, substance use or co-occurring mental health and substance use disorder when provided by qualified mental health professionals listed below. Service limitations applicable to other provider types are also applicable to CMHCs.
2. Professionals qualified to provide mental health or substance use rehabilitation services in the CMHCs include:
 - Licensed Psychologist (LP)
 - Licensed Psychological Practitioner (LPP)
 - Licensed Clinical Social Worker (LCSW)
 - A psychiatric social worker with a master's degree from an accredited school
 - Licensed Professional Clinical Counselor (LPCC)
 - Licensed Marriage and Family Therapist (LMFT)
 - Psychiatrist
 - Physician
 - Licensed Professional Art Therapist (LPAT)
 - Licensed Behavior Analyst (LBA)
 - A psychiatric nurse licensed in the Commonwealth of Kentucky with one of the following combination of education and experience:
 - i. Master of Science in Nursing with a specialty in psychiatric or mental health nursing. No experience required.
 - ii. Bachelor of Science in Nursing and 1 year of experience in a mental health setting.
 - iii. A graduate of a three-year educational program with 2 years of experience in a mental health setting.
 - iv. A graduate of a two-year educational program (Associate degree) with 3 years of experience in a mental health setting.
 - Licensed Alcohol and Drug Counselor (LADC)
 - Licensed Alcohol and Drug Counselor Associates* (LADCA)

* Requires Supervision

13. Other diagnostic, screening, preventive and, rehabilitative services, i.e., other than those provided elsewhere in this plan.

13d. Rehabilitative Services

A. Treatment Services for Substance Use Disorders and Mental Health Disorders

8. Community Mental Health Centers (CMHC) (continued)

- A professional equivalent, through education in a behavioral health field and experience in a behavioral health setting, qualified to provide behavioral health services. Professional equivalents may include practitioners obtaining experience to qualify for licensure in their behavioral health profession or individuals with a bachelor's degree or greater, with experience in behavioral health. Partial hospitalization will be reimbursed a rate of \$194.10 per day. In order to be reimbursed this rate, at least one service must be provided during the period. This rate is posted at <http://chfs.ky.gov/dms/fee.htm>.

- A. Kentucky has developed a method for allocating the portion of the rate related to each of the bundled services for purposes of proper reporting on the CMS-64.
- B. The partial hospitalization rate is based on rates currently set for state plan services. The rates for each service are multiplied by the anticipated service frequency per day. Additionally, these rates do not include costs related to room and board or any other unallowable facility costs.
