23. REMARKS:

## STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

### ***Policy and Methods for Establishing Payment Rates (Other than Inpatient Hospital and Long Term Care Facilities)***

---

#### 3. Outpatient Hospital Services and Other Outpatient Prospective Payment System (OPPS) Reimbursed Facilities

Reimbursement to individual hospitals, including off-campus satellite clinics, hospital-owned ambulance services, freestanding dialysis centers, comprehensive outpatient rehabilitation facilities (CORFs) and rehabilitation agencies for outpatient services is made in accordance with Medicaid's OPPS. Payments made under OPPS will be calculated utilizing the current Medicare conversion factors/rates with an MDHHS reduction factor (RF) applied to the calculated payment (Medicare fee x RF = Medicaid fee) to maintain statewide budget neutrality. As of January 1, 2016 the OPPS reduction factor is 52.6%. The current Michigan Medicaid fee schedule is available at [www.michigan.gov/medicaidproviders](http://www.michigan.gov/medicaidproviders).

- a) Monitoring of outpatient hospital expenditures will be conducted and the reduction factor adjusted to maintain statewide budget neutrality. A wage index of 1.0 is applied for all hospitals.
- b) Medicare's APC weights are utilized.
- c) Services paid reasonable cost under OPPS are paid by applying individual hospital cost-to-charge ratios to charges.
- d) Updates of each hospital's outpatient cost-to-charge ratios are done in conjunction with updates of the inpatient operating ratios.
- e) For out of state hospitals, the default cost-to-charge ratio is the average statewide outpatient cost-to-charge ratio.

When service coverage/reimbursement methodology differences exist between Medicare and Medicaid, Medicaid fee schedules are utilized. Methodology differences only exist when Medicare does not cover a facility-based service provided. The current Michigan Medicaid fee schedule, available at [www.michigan.gov/medicaidproviders](http://www.michigan.gov/medicaidproviders), is updated to conform to Medicare OPPS and is effective for dates of service on or after January 1, 2016.

## STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

### ***Policy and Methods for Establishing Payment Rates (Other than Inpatient Hospital and Long Term Care Facilities)***

---

#### 24. Ambulatory Surgical Centers

Reimbursement to individual Medicare-certified Ambulatory Surgical Centers (ASCs) for outpatient services provided in the ASC setting on or after January 1, 2011 is calculated by applying the MDCH outpatient prospective payment system (OPPS) reduction factor (RF) to current Medicare ASC reimbursement rates. Medicare ASC rate x RF = Medicaid rate.

State-developed fee schedule rates are the same for both governmental and private ASC providers. The ASC reduction factor is monitored and adjusted in accordance with the OPPS reduction factor schedule. The state maintains an up to date reduction factor history posting on the MDCH website that includes the current OPPS/ASC reduction factor, as well as historical OPPS/ASC reduction factors. As of January 1, 2015~~6~~ the OPPS/ASC reduction factor is 52.36%. A wage index of 1.0 is applied for all ASCs. Services paid by Medicare at reasonable cost and contractor priced items are paid by applying the Medicaid state-wide outpatient hospital cost to charge ratio to the Medicare ASC rate. All rates including the ASC wrap list are published on the MDCH MDHHS website at <http://michigan.gov/medh MDHHS>.

When service coverage or reimbursement methodology differences exist between Medicare and Medicaid, Medicaid fee schedules are used.
