Supersedes: 10-21 (10-02, 09-25, 04-05, 02-02)

7.c. Medical supplies, equipment, and appliances suitable for use in the home. (continued)

Effective for services provided on or after October 1, 2011, home infusion therapy services provided by home infusion pharmacies are paid the lower of:

1) the submitted charge; or

2) a per diem amount for home infusion therapy services as defined in home infusion HCPCS codes. The per diem rate is equal to the combined payment rates for the component services which include, but are not limited to, medical supplies and equipment, professional pharmacy services, care coordination, delivery and shipping and products used in a standard total parental nutrition formula.

No dispensing fee is paid for home infusion therapies when dispensed by home infusion pharmacies.
