Reduces Benefits: No

Detail:

Effective July 1, 2012, this SPA provides for a per diem increase to nursing facility and HIV nursing facility reimbursement rates by granting a trend adjustment of \$6.00 per day. Public notice was timely for this amendment. There are no tribal organizations in Missouri. The State fiscal year 2013 UPL demonstration was reviewed and found to be acceptable. The funding questions were adequately answered. This rate increase is funded in part by state appropriations and in part by a previously approved provider tax. In conjunction with the NF rate increase, the State modified the rate of the provider tax. The State submitted a revised B1/B2 analysis to support the rate change. The B1/B2 analysis was reviewed and approved by CMCS FMG staff

Other Considerations: This OSN has been reviewed in the context of the Affordable Care Act (ACA) and approval of the OSN is not in violation of the ACA provisions.

We do not recommend the Secretary contact the governor.
