Supplement to Attachment 3.1A

Service 5a Physicians' Services

MONTANA

The following limitations apply to Physicians' Services:

- 1. Physicians' Services for conditions or ailments that are generally considered cosmetic in nature are not a benefit of the Medicaid Program except in such cases where it can be demonstrated that the physical well-being and psycho-social well-being of the recipient are severely affected in a detrimental manner. The determination of whether a service is cosmetic will be made by the Department or its designated review organization.
- Services considered experimental are not a benefit of the Montana Medicaid Program. Experimental services include:
 - a. All procedures and items, including prescribed drugs, considered experimental by the U.S. Department of Health and Human Services or any other appropriate federal agency.
 - b. All procedures and items, including prescribed drugs, provided as part of a control study, approved by the Department of Health and Human Services, or any other appropriate federal agency to demonstrate whether the item, prescribed drug or procedure is safe and effective in curing/preventing, correcting or alleviating the effects of certain medical conditions.
 - c. All procedures and items, including prescribed drugs, which may be subject to question but are not covered in #1 and #2 above, will be evaluated by the Department's designated medical review organization.
- 3. The Department requires that National Drug Codes (NDC) must be submitted for all physician administered drugs. Montana Medicaid will cover only those physician administered drugs manufactured by companies that have a signed rebate agreement with CMS.

Service 5(a) Physicians' Services

MONTANA

I. Reimbursement for Physician Services shall be:

- A. The lower of:
 - The provider's usual and customary charge for the service; or
 - 2. Reimbursement provided in accordance with the methodology described In Number II.
- II. The Department's fee schedule for Physician Services is determined:
 - A. In accordance with the Resource Based Relative Value Scale (RBRVS) methodology, by multiplying Medicare's Relative Value Units RVU), which is numeric, by the Montana Medicaid specific conversion factor, which is a dollar amount, to equal a fee. Specific to Montana Medicaid, there is an ability to multiply the fee times a policy adjuster (either plus or minus) to affect the fee.
 - B. "Resource based relative value scale (RBRVS)" means the version of the Medicare resource based relative value scale contained in the Medicare Physician Fee Schedule adopted by the Centers for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services published November 19, 2008.
 - C. "Relative value unit (RVU)" means a numerical value assigned in the resource based relative value scale to each procedure code used to bill for services provided by a health care provider. The relative value unit assigned to a particular code expresses the relative effort and expense expended by a provider in providing one service as compared with another service.
 - D. If there is not a Medicare RVU, Montana Medicaid will utilize history data to convert to an RVU.
 - E. For anesthesia services, by multiplying the sum of Medicare's anesthesia base units and applicable time

units, which is numeric, by the Montana, Medicaid specific anesthesia conversion factor, which is a dollar amount, to equal a fee.

- F. The RVUs are adopted from the RBRVS. For services for which the RBRVS does not specify RVUs, the Department sets those RVUs as follows:
 - The RVUs for a Medicaid covered service are calculated as follows:

(i) if Medicare sets RVUs, the Medicare RVUs are applicable;(ii) if Medicare does not set RVUs but Medicaid sets RVUs, the Medicaid RVUs are set in the following manner:

- a) convert the existing dollar value of a fee to an RVU value;
- b) evaluate the RVU of similar services and assign an RVU value; or
- c) convert the average by report dollar value of a fee to an RVU value.
- G. Anesthesia Base Unit reimbursement will be 'by report'. 'By report' means paying a percentage of billed charges. The percentage is derived by dividing the previous state fiscal year's total Medicaid reimbursement for services included in the RBRVS by the previous state fiscal year's total Medicaid billings.
- H. Reimbursement for physician-administered drugs is made according to the department's fee schedule or the provider's usual and customary charge, whichever is lower. Effective March 1, 2010, the department's fee schedule will be based upon:

- 1. The Medicare Average Sales Price (ASP) methodology if there is an ASP fee;
- 2. The RBRVS fee if there is an RBRVS fee;
- 3. The estimated acquisition cost (EAC) as defined in the outpatient drug services state plan (service 12a); or
- 4. The 'by report' amount.
- I. Consistent with the policies described in this section, the agency's fee schedule for SFY 2009 was updated July 1, 2009 and is effective for services provided on or after that date. All rates are published on the agency's website at http://medicaidprovider.hhs.mt.gov/.
