average case mix index and the statewide average Medicaid case mix index.

(i) The Medicaid average case mix index for each facility to be used in rate setting will be the simple average of each facility's four Medicaid case mix indices calculated for the periods of February 1 of the current year and November 1, August 1 and May 1 of the year immediately preceding the current year. The statewide average Medicaid case mix index will be the weighted average of each facility's four quarter average Medicaid case mix index to be used in rate setting.

(c) The statewide price for nursing facility services will be determined each year through a public process. Factors that could be considered in the establishment of this price include the cost of providing nursing facility services, Medicaid recipients access to nursing facility services, and the quality of nursing facility care.

(d) The total payment rate available for the period July 1, 2014 through June 30, 2015 will be the rate as computed in (2), plus any additional amount computed in ARM 37.40.311 and 37.40.361.

(3) Providers who, as of July 1 of the rate year, have not filed with the department a cost report covering a period of at least six months participation in the Medicaid program in a newly constructed facility will have a rate set at the statewide median price of \$169.42 as computed on July 1, 2014. Following a change in provider as defined in ARM 37.40.325, the per diem rate for the new provider will be set at the previous provider's rate, as if no change in provider had occurred.

(4) For ICF/MR services provided by nursing facilities

37.40.326 INTERIM PER DIEM RATES FOR NEWLY CONSTRUCTED FACILITIES AND NEW PROVIDERS (1) This rule specifies the methodology the department will use to determine the interim per diem rate for in-state providers, other than ICF/MR providers, which as of July 1 of the rate year have not filed with the department a cost report covering a period of at least six months participation in the medicaid program in a newly constructed facility or following a change in provider as defined in ARM 37.40.325.

(a) Effective July 1, 2001, and thereafter, the rate paid to new providers that acquire or otherwise assume the operations of an existing nursing facility, that was participating in the medicaid program prior to the transaction, will be paid the price-based reimbursement rate in effect for the prior owner/operator of the facility before the transaction as if no change in provider had occurred. These rates will be adjusted at the start of each state fiscal year in accordance with (1)(b).

(b) Effective July 1, 2001, and thereafter, the rate paid to newly constructed facilities or to facilities participating in the medicaid program for the first time will be the statewide average nursing facility rate under the price-based reimbursement system. The direct care component of the rate will not be adjusted for acuity, until such time as there are three or more quarters of medicaid CMI information available at the start of a state fiscal year. Once the CMI information is available the price-based rate will include the acuity adjustment as provided for in ARM 37.40.307(2)(b). 37.40.361 DIRECT CARE AND ANCILLARY SERVICES WORKERS' WAGE REPORTING/ADDITIONAL PAYMENTS INCLUDING LUMP SUM PAYMENTS FOR DIRECT CARE AND ANCILLARY SERVICES WORKERS' WAGE AND BENEFIT INCREASES (1)

Effective for the period July 1, 2014 and for the six months thereafter, nursing facilities must report to the department actual hourly wage and benefit rates paid for all direct care and ancillary services workers or the lump sum payment amounts for all direct care and ancillary services workers that will receive the benefit of the increased funds. The reported data shall be used by the department for the purpose of comparing types and rates of payment for comparable services and tracking distribution of direct care wage funds to designated workers.

(2) The department will pay Medicaid certified nursing care facilities located in Montana that submit an approved request to the department a lump sum payment in addition to the amount paid as provided in ARM 37.40.307 and 37.40.311 to their computed Medicaid payment rate to be used only for wage and benefit increases or lump sum payments for direct care or ancillary services workers in nursing facilities.

(a) The department will determine the lump sum payments, twice a year commencing July 1, 2014, and again in six months from that date as a pro rata share of the appropriated \$3,981,108 funds allocated for increases in direct care and ancillary services workers' wages and benefits or lump sum payments to direct care and ancillary services workers.

(b) To receive the direct care and/or ancillary services workers' lump sum payment, a nursing facility shall submit for approval a request form to the department stating how the direct care and ancillary services workers' lump sum payment will be spent in the facility to comply with all statutory requirements. The facility shall submit all of the information required on a form to be developed by the department in order to continue to receive subsequent lump sum payment amounts for the entire rate year. The form for wage and benefit increases will request information including but not limited to:

(i) the number by category of each direct care and ancillary services workers that will receive the benefit of the increased funds if these funds will be distributed in the form of a wage increase

(ii) the actual per hour rate of pay before benefits and before the direct care wage increase has been implemented for each worker that will receive the benefit of the increased funds;

(iii) the projected per hour rate of pay with benefits after the direct wage increase has been implemented;

(iv) the number of staff receiving a wage or benefit increase by category of worker, effective date of implementation of the increase in wage and benefit; and

(v) the number of projected hours to be worked in the budget period.

(c) If these funds will be used for the purpose of providing lump sum payments (i.e. bonus, at-need or other payment types) to direct care and ancillary services workers in nursing care facilities the form will request information including, but not limited to:

(i) the number by category of each direct care and ancillary services worker that will receive the benefit of the increased funds;

(ii) the type and actual amount of lump sum payment to be provided for each worker that will receive the benefit of the lump sum funding;

(iii) the breakdown of the lump sum payment by the amount that represents benefits and the direct payment to workers by category of worker; and

(iv) the effective date of implementation of the lump sum benefit.

(d) A facility that does not submit a qualifying request for use of the funds distributed under (2), that includes all of the information requested by the department, within the time established by the department, or a facility that does not wish to participate in this additional funding amount shall not be entitled to their share of the funds available for wage and benefit increases or lump sum payments for direct care and ancillary services workers.

(3) A facility that receives funds under this rule must maintain appropriate records documenting the expenditure of the funds. This documentation must be maintained and made available to authorized governmental entities and their agents to the same extent as other required records and documentation under applicable Medicaid record requirements, including but not limited to the provisions of ARM 37.40.345, 37.40.346 and 37.85.414.
