1932(a)(1)(A)

A. Section 1932(a)(1)(A) of the Social Security Act.

The State of Nebraska enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization (MCOs)) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230). This authority may *not* be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries who are Medicare eligible, who are Indians (unless they would be enrolled in certain plans—see D.2.ii. below), or who meet certain categories of “special needs” beneficiaries (see D.2.iii. - vii. below)

The default enrollment process will assign the client with a MCO health plan that is in the zip code range of the client. Providers that have traditionally served Medicaid recipients will be located in a zip code range that is close to the Medicaid client. Also, providers that have traditionally served Medicaid recipients will not have an "established only" indicator which means the client would not be assigned to these providers unless there is an existing provider-recipient relationship.

- iii. the equitable distribution of Medicaid recipients among qualified MCOs and PCCMs available to enroll them, (excluding those that are subject to intermediate sanction described in 42 CFR 438.702(a)(4)); and disenrollment for cause in accordance with 42 CFR 438.56 (d)(2). *(Example: No auto-assignments will be made if MCO meets a certain percentage of capacity.)*

The default enrollment algorithm is built so that there is an equal distribution of recipients into each of the two MCO health plans.

3. Describe the criteria the state uses to limit the number of entities it contracts under a 1932 state plan option. (Example: a limited number of providers and/or enrollees.)

Nebraska uses a competitive procurement process and ensures that qualifying MCO contracts comply with federal procurement requirements and 45 CFR Section 92.36. The Department requires all participating MCOs to be licensed by the Nebraska Department of Commerce, Insurance Division. The Department sets the capitation rates and any contracting MCO must accept those rates for the respective Medicaid covered services.

4. The selective contracting provision is not applicable to this state plan.
