1932(a)(1)(A)

A. Section 1932(a)(1)(A) of the Social Security Act.

The State of New Hampshire enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization (MCOs) and/or primary care case managers (PCCMs)) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230).

This authority may *not* be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries who are Medicare eligible, who are Indians (unless they would be enrolled in certain plans—see D.2.ii. below), or who meet certain categories of “special needs” beneficiaries (see D.2.iii. - vii. below)

B. General Description of the Program and Public Process.

For B.1 and B.2, place a check mark on any or all that apply.

1932(a)(1)(B)(i)
1932(a)(1)(B)(ii)
42 CFR 438.50(b)(1)

1. The State will contract with an

- i. MCO
- ii. PCCM (including capitated PCCMs that qualify as PAHPs)
- iii. Both

42 CFR 438.50(b)(2)
42 CFR 438.50(b)(3)

2. The payment method to the contracting entity will be:

- i. fee for service;
- ii. capitation;
- iii. a case management fee;
- iv. a bonus/incentive payment;
- v. a supplemental payment, or
- vi. other. (Please provide a description below).

The state will pay the agreed upon capitated rate on a two month retrospective basis. The state will also make performance incentive payments related to quality improvement and payment reform as specified in the contract. The performance incentives are funded with an amount withheld from each

capitation payment as a fixed percentage of the MCOs capitation payment. The maximum performance incentive payments that could be made to the MCO are equal to the amount withheld. The standards that must be met for the MCO to receive the quality improvement and payment reform incentive payments are specified in the contract.

1905(t)
42 CFR 440.168
42 CFR 438.6(c)(5)(iii)(iv)

3. For states that pay a PCCM on a fee-for-service basis, incentive payments are permitted as an enhancement to the PCCM's case management fee, if certain conditions are met.

If applicable to this state plan, place a check mark to affirm the state has met **all** of the following conditions (which are identical to the risk incentive rules for managed care contracts published in 42 CFR 438.6(c)(5)(iv)).

- i. Incentive payments to the PCCM will not exceed 5% of the total FFS payments for those services provided or authorized by the PCCM for the period covered.
- ii. Incentives will be based upon specific activities and targets.
- iii. Incentives will be based upon a fixed period of time.
- iv. Incentives will not be renewed automatically.
- v. Incentives will be made available to both public and private PCCMs.
- vi. Incentives will not be conditioned on intergovernmental transfer agreements.
- vii. Not applicable to this 1932 state plan amendment.

CFR 438.50(b)(4)

4. Describe the public process utilized for both the design of the program and its initial implementation. In addition, describe what methods the state will use to ensure ongoing public involvement once the state plan program has been implemented. (Example: public meeting, advisory groups.)

activity. Approximately 60 days prior to managed care commencement, a state generated correspondence will notify these children that the state Medicaid program is transitioning to managed care, describe the plans, explain plan enrollment processes and clearly state that managed care enrollment is optional for children described in (iii-vii) above but that failure to communicate the intent to not enroll, will result in enrollment in managed care requiring plan selection. Children who become described as one of the categories above mid-enrollment with managed care, will not be disenrolled but will be notified of their option to disenroll if they so choose.

All managed care enrolled individuals, including children described in (iii-vii) above, will have the opportunity to disenroll from their plan whether selected by the member or auto assigned, within the first 90 days of plan enrollment, with or without cause. Children described in (iii-vii) above who disenroll during this period may either select a different plan or disenroll from managed care altogether.

E. Identification of Mandatory Exempt Groups

1932(a)(2)
42 CFR 438.50(d)

1. Describe how the state defines children who receive services that are funded under section 501(a)(1)(D) of title V. (*Examples: children receiving services at a specific clinic or enrolled in a particular program.*)

In New Hampshire this population of children is identified as "children with special health care needs," which is defined in RSA 132:13, II, as "children who have or are at risk for chronic physical, developmental, behavioral, or emotional conditions and who also require health and related services of a type or amount beyond that required by children generally."

These children's clinical care cases are managed in a distinct organizational unit within DHHS. Their identities can be readily determined by coordinating with this unit and appropriate communications about opt-out rights targeted to them.

1932(a)(2)
42 CFR 438.50(d)

2. Place a check mark to affirm if the state's definition of title V children is determined by:

- i. program participation,
- ii. special health care needs, or
- iii. both

----------	--------------------------

who had previously chosen not to serve Medicaid recipients to increase diversity in our network and increase access opportunities.

- iii. the equitable distribution of Medicaid recipients among qualified MCOs and PCCMs available to enroll them, (excluding those that are subject to intermediate sanction described in 42 CFR 438.702(a)(4)); and disenrollment for cause in accordance with 42 CFR 438.56 (d)(2). (*Example: No auto-assignments will be made if MCO meets a certain percentage of capacity.*)

Enrollees who fail to make a voluntary MCO selection within 60 days of the enrollment process and the auto-assignment processes as noted in i. and ii are not sufficient to auto-assign someone, state will assign beneficiary to an MCO. For those beneficiaries for whom it is not possible to determine any prior patient/provider relationship, or family member plan selection, the state will randomly assign members to ensure equitable enrollment among plans through the use of an algorithm. The algorithm included within the contracts calls for the plan with the highest technical RFP bid score will receive 2 enrollees to the other two plans 1 enrollee for a 2/1/1 distribution of members who did not make a plan selection. Pursuant to the contract terms, this algorithm will be employed during year one of the contract at which time the state will determine if a better methodology exists (such as 2 enrollees to the plan with the highest member satisfaction over the prior year, for example).

The technical scoring of the RFP bids consisted of an interdepartmental team of 10 members who read each proposal and scored them based on 11 domains, including but not limited pharmacy, care coordination, disease management, quality, member services, administration, behavioral health. Each team member scored each plan and then the team came together for consensus building to assign a score (maximum of 1100) to each plan. The plan with the highest technical score from this process will receive the 2 enrollees in the algorithm to the other two plans 1 enrollee.

1932(a)(4)
42 CFR 438.50

3. As part of the state's discussion on the default enrollment process, include the following information:

- i. The state will x / will not use a lock-in for managed care.

Members who are mandatorily enrolled in managed care are locked in until or unless their category changes to a voluntary category such as Medicare beneficiary or foster care child, or to an excluded category such as a member with Veterans benefits. Members who enroll voluntarily who do not disenroll from managed care will not be locked into managed care for a period of 12 mos; they may disenroll at any time. All managed care enrolled individuals may disenroll from a selected plan within 90 days of their plan enrollment with or without cause. If after 90 days they have not disenrolled, they will be locked into that plan for a period of 12 mos. If the member disenrolls from a plan within the 90

RFP bid score will receive 2 enrollees to the other two plans 1 enrollee for a 2/1/1 distribution of members who did not make a plan selection. Pursuant to the contract terms, this algorithm will be employed during year one of the contract at which time the state will determine if a better methodology exists (such as 2 enrollees to the plan with the highest member satisfaction over the prior year, for example). The new assignment methodology for year two, if any, would reward those MCOs that demonstrate superior performance and/or improvement on one or more key dimensions of performance, pursuant to the contract.

The technical scoring of the RFP bids consisted of an interdepartmental team of 10 members who read each proposal and scored them based on 11 domains, including but not limited pharmacy, care coordination, disease management, quality, member services, administration, behavioral health. Each team member scored each plan and then the team came together for consensus building to assign a score (maximum of 1100) to each plan. The plan with the highest technical score from this process will receive the 2 enrollees in the algorithm to the other two plans 1 enrollee.

- vi. Describe how the state will monitor any changes in the rate of default assignment. (*Example: usage of the Medical Management Information System (MMIS), monthly reports generated by the enrollment broker*)

The state will run reports on at least a monthly basis to determine the rate of autoassignment. The state target for member selection of plans is 80% leaving only 20% for autoassignment. Should performance fall short of this goal, work will commence to increase communication effectiveness and outreach strategies to elevate the percentage of members who self select a plan. These monthly reports will seek not only the rate of autoassignment but also look for trends among the autoassigned individual such as but not limited to, are they mandatory or voluntary groups, what eligibility category are they, what regions of the state do they come from, age, and gender.

1932(a)(4)
42 CFR 438.50

I. State assurances on the enrollment process

Place a check mark to affirm the state has met all of the applicable requirements of choice, enrollment, and re-enrollment.

1. The state assures it has an enrollment system that allows recipients who are already enrolled to be given priority to continue that enrollment if the MCO or PCCM does not have capacity to accept all who are seeking enrollment under the program.
2. The state assures that, per the choice requirements in 42 CFR 438.52, Medicaid recipients enrolled in either an MCO or PCCM model will have a choice of at least two entities unless the area is considered rural as defined in 42 CFR 438.52(b)(3).

Condition or Requirement

1. The state will X /will not _____ intentionally limit the number of entities it contracts under a 1932 state plan option.
2. X The state assures that if it limits the number of contracting entities, this limitation will not substantially impair beneficiary access to services.

Based on the relative size of New Hampshire, only 1.2 million in total population and approximately 120,000 in any given month on Medicaid, dilution of the covered population further than among two or three plans is not feasible for either the state or an MCO. Having two to three plans in a small state such as New Hampshire likely means significant overlap in the networks and consistent access for members.

3. Describe the criteria the state uses to limit the number of entities it contracts under a 1932 state plan option. (*Example: a limited number of providers and/or enrollees.*)

New Hampshire cannot sustain more than two to three MCO's. See response in M.2 above.

4. _____ The selective contracting provision in not applicable to this state plan.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0933. The time required to complete this information collection is estimated to average 10 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the
