 - (F) It is not necessary for the hospital to wait for the medicare (Title XVIII) audit in order to file the initial cost report for the stated time period. The interim cost report filing can be audited by the ODJFS prior to any applicable final adjustment and settlement. If an amount is due ODJFS as a result of the filing, payment must be forwarded, in accordance with the instructions in the appendix to this rule, at the time the cost report is submitted for it to be considered a complete filing. Any revised interim cost report must be received within thirty days of the provider's receipt of the interim cost settlement. A desk audit will be performed by the hospital audit section on all as filed and interim cost reports. An interim cost settlement by ODJFS does not preclude the finding of additional cost exceptions in a final settlement for the same cost-reporting period.

Information contained in the amended medicare cost report will be incorporated into the interim cost report, as originally filed,

- (H) Hospitals that fail to submit cost reports timely as defined in paragraph (A) of this rule will receive a delinquency letter from the ODJFS and are subject to notification that thirty days following the date on which the cost report was due, payments for hospital services will be suspended. Suspension of payments will be terminated on the fifth working day following receipt of the delinquent cost report. Claims affected by suspension of payment are not considered to be clean claims as "clean claims" are defined in rule 5101:3-1-19.3 of the Administrative Code. At the beginning of the third month following the month in which the hospital cost report became overdue, if the cost report has not yet been submitted, termination of the provider from the program will be recommended in accordance with Chapter 5101:3-1 of the Administrative Code.

The cost report schedules should be completed in order, from A to I. Within the report, the line numbers for the revenue centers are set up to closely match the CMS-2552-96 in order to allow for easy transfer of data.

UB-92 revenue center codes should be grouped as shown on the attached sheets for inpatient and outpatient services. If this is not possible **YOU MUST** specifically identify any differences in groupings on the enclosed **BILLING CODE ALLOCATION sheet(s)** and return them with the completed cost report. When differences in groupings exist but are not identified by the report filer, ODJFS groupings will be used at the time of settlement.

Report only data and discharges occurring within the fiscal period covered by this cost report.

The external reviewer shall at a minimum perform the data verification based on a set procedure as follows.

1. Verify that patient logs are maintained for the following categories of patients:
 - Disability Assistance inpatient charges, with insurance
 - Uncompensated care inpatient charges < 100% federal poverty income limits (FPL), with insurance
 - Disability Assistance outpatient charges, with insurance
 - Uncompensated care outpatient charges < 100% FPL, with insurance

2. Verify that the Hospital's patient logs include a date-of-service. Verify that the service dates for accounts with Disability Assistance coverage or family income < 100% FPL are recorded in the cost report period in which they occurred, and that the write-off dates for accounts with family incomes >100% FPL, are recorded in the cost report period in which they were written-off. Verify that each log entry includes a unique (unduplicated) identifier for the patient, that is unique to the patient and not to each visit by the patient.

3. Verify that the supporting patient log totals for the data elements listed below agree to each data element on the Hospital's JFS 02930 Schedule F. If any of the elements do not match, return the patient logs to Hospital for correction.

4. Verify the mathematical accuracy of Hospital's logs, by using at least the methodologies described below. If the logs were totaled manually, request adding machine tapes and match a sample of 10 entries on two of the tapes to the corresponding entries on the patient logs. If the logs were totaled with the use of an electronic spreadsheet, verify the accuracy of the formula(s) used. If the log entries were taken directly from the hospital's mainframe computer system, select one of the categories in Step 3 and tally the entries. If the logs do not foot, return the logs, and, if appropriate, the tapes to Hospital for correction.

5. From the hospital logs, select a random sample of entries from each of the ten data elements listed in Step 3, and verify the appropriateness of the write-off. The appropriateness of the write-off for each account selected shall be determined in accordance with Ohio Administrative Code (OAC) 5101:3-2-07.17 and the hospital's policies regarding the documentation of applicants' incomes.

The size of the required sample will vary according to which of three tiers the Hospital is placed in, using data from the current cost reporting period:

- If the hospital reports total uncompensated care charges for patients without insurance that is less than \$5.0 million, the size of the sample shall be at a minimum, 32 accounts: four in each of the six data categories identified in Step 3 for patients with no insurance and two in each of the categories for patients with insurance.
- If the hospital reports total uncompensated care charges for patients without insurance that is greater than \$5.0 million but less than \$10.0 million, the size of the sample shall be at a minimum, 64 accounts: eight in each of the six data categories identified in Step 3 for patients with no insurance and four in each of the categories for patients with insurance.
- If the hospital reports total uncompensated care charges for patients without insurance that is greater than \$10.0 million, the size of the sample shall be at a minimum, 96 accounts: 12 in each of the six data categories identified in Step 3 for patients with no insurance and six in each of the categories for patients with insurance.
- In addition to the above sample criteria, review all accounts for patients in the uncompensated care < 100% FPL, with no insurance categories which show receipts.

6. Obtain itemized statements from the Hospital for each of the patient accounts identified in the random selection of data elements identified in Step 5. Match the itemized statement to its corresponding entry in Hospital's log. Verify that patient accounts were correctly logged and entered in Schedule F, based on insurance status.

From the itemized statement, verify the patient's name, the date(s) of service, and whether the account is inpatient or outpatient and corresponds with the log entry. Subtract from the itemized statement any charges for services that can not be counted as "basic, hospital level" as described in OAC 5101:3-2-07.17 and OAC 5101:3-2-02, Appendix A. Verify that the sum of any subtraction of non-hospital level charges matches or does not exceed the entry for gross charges in Hospital's log. Verify that the total of all receipts on each selected account matches the receipts shown in the Hospital's log.

7. Obtain a copy of the Hospital's internal policy outlining its procedures for documenting applications for HCAP qualifying charity care or write-off.

8. Obtain copies of the documentation the Hospital used to determine eligibility for each of the patient accounts identified in the random selection of data elements identified in Step 5. Verify that the hospital's documentation practices are supported by its policy statement, obtained in Step 7, and are in accordance with OAC 5101:3-2-07.17.

9. From the eligibility documentation outlined in Step 8, verify that the patients were residents of Ohio, and not eligible for Medicaid according to OAC 5101:3-2-07.17. Verify that the patient accounts logged as eligible for Disability Assistance (DA) were in fact eligible for DA on the date(s) of service. For accounts of patients <100 % FPL, verify that Hospital used the appropriate Federal Poverty Income Guidelines that were in effect for the date(s) of service, and verify that the patient's income and family size on the date(s) of service were correctly calculated according OAC 5101:3-2-07.17.

10. Request a list of pending-Medicaid accounts from Hospital. Verify that no accounts that have been approved for Medicaid were included in any log or Schedule F entry.

11. The external reviewer shall issue a review report to the hospital.

Hospital Response to External Reviewer Report

The hospital must respond to the external reviewer with a written report which includes a course of corrective action taken by the hospital.

Re-verification of Schedule F Changes

Any hospital that submits an amended cost report that includes changes to data reported on Schedule F shall be required to have an independent CPA re-verify the data reported on Schedule F. The external reviewer shall, at a minimum, perform the data verification as follows:

1. When making wholesale changes, including reassigning amounts between write-off categories, the entire Schedule F data shall be reviewed as specified in step 5.
2. If only new accounts are added and no other changes to Schedule F are made, then the CPA shall select and review at least 5% of new accounts from each category in accordance with the review procedures steps 6 through 9. If the number of accounts to be reviewed under the 5% criteria exceeds the original sample size, then the entire Schedule F data shall be reviewed as specified in step 5.

External Data Validation Report

Each hospital shall retain all Schedule F data validation review reports for every cost report year, including recertification review reports and hospital responses to auditor reports, for a period of three years, and shall make such reports available to the department upon request, within three business days of such request.

GENERAL INSTRUCTIONS (APPLIES TO ALL OF SECTION I):

Only discharges/visits and charges for hospital services may be included in Schedule F. Include only "Basic, medically necessary hospital level services" which are considered services in Appendix A of rule 5101:3-2-02 of the Ohio Administrative Code. Do not include charges related to physicians' services, transportation services, or take-home pharmacy items, and do not include visits to free standing clinics or surgery centers that are not hospital based. Do not include any portion of a patient account for a Medicaid recipient, regardless of whether the recipient is enrolled in an HMO or Medicaid fee-for-service. Do not include discharge/visits and charges that have been written off as Medicare bad debts.

Report uncompensated care information for patients with insurance in Column 1. Report uncompensated care information for patients without insurance in Column 2. Schedule F does not include a column for reporting total uncompensated care; it will be calculated by the department. Include any charges, inpatient discharges, and outpatient visits for patients eligible for "Hill-Burton" or covered by a local levy fund. Do not consider any Hill-Burton write-off or any payment by a local health care levy to be "insurance."

In both Column 6 and 7 the amount reported in lines 8 through 15 must equal all payments you have either received or reasonably expect to receive from these patients or their insurers. **For patients below poverty without insurance, rule 5101:3-2-07.17 of the Ohio Administrative Code requires that these patients receive care free of charge. There are very few circumstances which allow you to accept receipts for these accounts.**

The data on uncompensated care for people on Disability Assistance in lines 8 and 12, and the data on uncompensated care for patients with family incomes below federal poverty guidelines in lines 9 and 13, may only include inpatient and outpatient accounts with discharge/visit dates that fall within your hospital's fiscal year. You must split-bill any outpatient accounts which cross these

dates. Uncompensated care for patients with family incomes above federal poverty income guidelines may be included in lines 10 and 14 regardless of the service dates, so long as the date of the bad debt or charity care write-off fell within your hospital's fiscal year, and had not been previously written off.

OBRA SURVEY

Medicaid programs must, on an annual basis, determine whether hospitals which receive disproportionate share payments under Medicaid meet certain federally-mandated requirements. For instance, urban non-children's hospitals which receive disproportionate share payments and which offer non-emergency obstetrical services must have at least two obstetricians on staff who have agreed to service Medicaid patients. Rural hospitals which offer non-emergency obstetrical services must have at least two physicians (not necessarily obstetricians) who have agreed to provide obstetrical services to Medicaid recipients in order to receive Medicaid disproportionate share payments. A related requirement is that states must provide disproportionate share payments to hospitals with a low-income utilization rate that exceeds 25 percent.

Complete Section A and Section B for your facility for this cost reporting period.

Section A

1 Does your hospital predominantly serve patients less than 18 years of age? (If answer to this question is Yes, please proceed to Section B.)

Section B

The following section should be completed by hospitals to determine if a low-income utilization rate (as described below) which exceeds 25% exists.

"Low-income utilization rate" means, according to federal law, the sum of (1) and (2) below:

(1) the fraction, expressed as a percentage:

(a) the numerator of which is the sum for a period of Medicaid (Ohio only) revenues (payments including HMO payments for patient services plus the amount of cash subsidies (including HCAP and UPL payments) for patient services received directly from state and local governments.

(b) the denominator of which is the total patient services revenue -- including such cash subsidies -- for the period.

(2) the fraction, expressed as a percentage:

(a) the numerator of which is the total (gross) hospital inpatient charges in a period attributable to charity care (not including contractual allowances and discounts and bad debts) less the portion of any subsidies received in the period from state and local governments reasonably attributed to inpatient hospital services.

(b) the denominator of which is total (gross) hospital inpatient charges in the period.

Provide the following information from your financial records:

Fraction 1	Medicaid Revenues:	<input type="text"/>	
	Plus: Government Cash Subsidies:	<input type="text"/>	
	Total patient revenues including cash subsidies:	<input type="text"/>	Fraction (1)

Fraction 2	Total hospital inpatient charges for charity care (not including allowances, discounts and bad debts):	<input type="text"/>	
	Less: Government cash subsidies:	<input type="text"/>	
	Total inpatient charges:	<input type="text"/>	Fraction (2)
