

13. Other diagnostic, screening, preventive, and rehabilitative services, i.e., other than those provided elsewhere in the plan.

d. Rehabilitative services

(c) Developing positive coping mechanisms;

(3) Managing mental health and behavioral symptoms to enhance independent living; and

(4) Psychoeducational services including individualized instruction and training of persons served in order to increase their knowledge and understanding of their psychiatric diagnosis(es), prognosis(es), treatment, and rehabilitation in order to enhance their acceptance of these psychiatric disabilities, increase their cooperation and collaboration with treatment and rehabilitation, improve their coping skills, and favorably affect their outcomes. Such education shall be consistent with the individual's ISP and be provided with the knowledge and support of the interdisciplinary/intersystem team providing treatment in coordination with the ISP.
