### METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES Other Types of Care

#### Anesthesiologists

The agency's rates were set as of January 1, 2014 and are effective for services on or after that date. All rates are published on the agency's website. Effective January 1, 2014, the anesthesia procedure codes listed in the 2014 CPT Code Book (CPT Codes 00100 through 01966 and 01968 through 01999) are eligible for reimbursement based on a formula involving base units and time units multiplied by a conversion factor approved by the agency's internal rate setting committee. The CPT Codes are subject to published clinical edits and will be updated concurrently with the annual publication of the American Medical Association's CPT Code Book (CPT ® is a registered trademark of the American Medical Association).

Anesthesia CPT Code 01967 will be reimbursed at a maximum reimbursement amount set by agency's internal rate setting committee for one unit of service regardless of the base and time units involved in the procedure. All rates are published on the agency's website located at <u>www.okhca.org</u>.

Anesthesia CPT Code 01996 will be reimbursed at a maximum reimbursement amount based on a formula involving base units and multiplied by the current conversion factor regardless of the time units involved in the procedure.

For services rendered effective January 1, 2008, the base unit values for the anesthesia codes (CPT Codes 00100 through 01966 and 01968 through 01999) were taken from the 2008 American Association of Anesthesiologist (ASA) Relative Value Guide. Additional units are not eligible to be added to the ASA base value for additional difficulty. All rates are published on the agency's website located at <u>www.okhca.org</u>. A uniform rate is paid to governmental and non-governmental providers.

Effective for services provided between 04-01-10 and 12-31-13, the rates in effect on 03-31-10 were decreased by 3.25%.

Anesthesia time means the time during which the anesthesia provider (physician or CRNA) providing anesthesia is present (face to face) with the patient. It starts when the anesthesia provider begins to prepare the patient for induction of anesthesia in the operating room or equivalent area and ends when the anesthesia provider is no longer furnishing anesthesia services to the patient. The anesthesia time must be documented in the medical record with begin and end times noted.

Physicians and CRNAs should report a quantity of one (1) for each minute of anesthesia time. For example, if anesthesia time is thirty-seven (37) minutes, the quantity would be reported as 37. The program will convert the actual minutes reported to anesthesia time units. One anesthesia time unit is equivalent to 15 minutes of anesthesia time.

The following formula provides an example of how an anesthesiologist will be reimbursed:

If the ASA RVU (base) for an anesthesia procedure is 4.00 and the surgery lasts 90 minutes (time = 6 units) with a maximum allowable CF of \$39.00 the reimbursement is calculated as follows:

#### (4b+6u) x \$39.00 = \$390.00

Time is reported in "units" where each unit is expressed in 15 minute increments and will be

Effective January 1, 2008, Anesthesia Healthcare Common Procedure Coding System (HCPC) modifiers must be reported for each anesthesia service billed and will determine the rate of reimbursement to each provider for anesthesia services. The modifiers are as follows:

2014 Published HCPC Modifier	Description	Payment Rate
AA	Anesthesia services performed personally by Anesthesiologist.	100%
AD	Medical supervision by a physician: more than four concurrent anesthesia procedures	Current Flat Rate; no time units
QK	Medical direction of two, three, or four concurrent anesthesia procedures involving qualified individuals	50%

### Certified Registered Nurse Anesthetists

Modifiers must be reported for each anesthesia service billed and will determine the rate of reimbursement to each provider for anesthesia services. Payment is made to Certified Registered Nurse Anesthetists at a rate of 80 percent of the allowable for physicians for anesthesia services without medical direction and at a rate of 50 percent of the allowable when medically directed.

### Anesthesiologist Assistants

Modifiers must be reported for each anesthesia service billed and will determine the rate of reimbursement to each provider for anesthesia services. Payment is made to Anesthesiologist Assistants at a rate of 80 percent of the allowable for physicians for anesthesia services without medical direction and at a rate of 50 percent of the allowable when medically directed.

Effective February 1, 2010, payment will not be made to anesthesiologists, CRNAs or AAs for three national coverage determinations which relate to serious, preventable errors in medical care. These errors include surgery performed on wrong body part, surgery performed on wrong patient, and wrong surgery performed on patient.
