Re: South Dakota 15-0003

Dear Ms. Valenti:

We have reviewed the proposed amendment to Attachment 4.19-A of your Medicaid State plan submitted under transmittal number (TN) 15-0003. Effective for services on or after July 1, 2015, this amendment incorporates a 1.65 percent inflationary increase for inpatient hospital services for State Fiscal Year 2016.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a) and 1923 of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C. We are pleased to inform you that Medicaid State plan amendment TN 15-0003 is approved effective July 1, 2015. The CMS-179 and the amended plan pages are attached.

If you have any questions, please contact Christine Storey at (303) 844-7044.

Sincerely,

7

Timothy Hill
Director

INPATIENT HOSPITAL PAYMENT METHODOLOGY

GENERAL

The South Dakota Medicaid program has reimbursed hospitals for inpatient services under a prospective Diagnosis Related Groups (DRGs) methodology, with a few exceptions, since January 1, 1985. The State uses the federal definitions of DRGs, classifications, weights, geometric mean lengths of stay, and outlier cutoffs. The DRG Grouper program has been updated annually as of October 1 of each year beginning with the Medicare grouper version 15 (effective October 1, 1997). The agency provides a link to Medicare's DRGs on its website at <http://dss.sd.gov/sdmedx/includes/providers/feeschedules/dss/index.aspx>. The agency calculates Medicaid-specific weight and geometric mean length of stay factors annually using the latest three years of non-outlier claim data, this three-year claims database updated annually to establish new weight and geometric length of stay factors with each new grouper.

The agency developed hospital-specific costs per Medicaid discharge amounts for all in-state hospitals using Medicare cost reports and non-outlier claims data for the hospitals' fiscal years ending after June 30, 1996 and before July 1, 1997. The agency applied an inflation factor, specific to each hospital's fiscal year end, to the cost per discharge amounts of all hospitals with more than thirty (30) Medicaid discharges during the base year to establish target amounts for the most recently completed federal fiscal year. There is a cap on the hospitals' target amounts, under which no hospital is allowed a target amount that exceeds 110% of the statewide weighted average of all target amounts.

South Dakota Medicaid reimburses out-of-state hospitals on the same basis as the Medicaid agencies in the states where the hospitals are located. If the hospital's home state refuses to provide the amount they would pay for a given claim, the payment will be at 41.65% of billed charges. Payment is for individual discharge or transfer claims only. There is no annual cost settlement with out-of-state hospitals or in-state DRG hospitals unless an amount is due the South Dakota Medicaid program.

For claims with dates of service beginning July 1, 2015, the reimbursement for in-state DRG hospitals and all out-of-state hospitals not paid the above-stated percentage of charges is increased by 1.65% over what the calculated amounts were for State fiscal year 2015 after any cost sharing amount due from the patient and any third party liability amounts have been deducted, and after computation of any cost outlier payment. The agency will increase reimbursements to South Dakota hospitals classified as Medicare Critical Access or Medicaid Access Critical by 1.65% for claims with dates of service on and after July 1, 2015.

SPECIFIC DESCRIPTION

Each year the agency calculates a hospital's target amounts for non-outlier claims by dividing the hospital's average cost per discharge for non-outlier claims by the hospital's case mix index. To ensure budget neutrality, the agency adjusts annually a hospital's target amount for any change in that hospital's case mix index resulting from the establishment of new program specific weight factors. For each hospital, the case mix index is the calculated result of accumulating the weight factors for all claims submitted during the base period and dividing by the number of claims.

Effective Date 07/01/15

The agency calculates the average cost per discharge for non-outlier claims by subtracting the charges for ancillary services on outlier claims, multiplied by the average ancillary cost to charge ratio, from the total allowable ancillary charges for the hospital. Total Medicaid days and discharges are reduced by the number of days and discharges from outlier claims to calculate the routine costs for non-outlier claims. Routine costs and ancillary costs related to non-outlier claims are added and then the total allowable costs were divided by the number of non-outlier discharges during the base period. The agency publishes the annually updated cost outlier figure and a link to Medicare's DRGs on its website at <http://dss.sd.gov/sdmedx/includes/providers/feeschedules/dss/index.aspx>

CAPITAL COSTS

South Dakota Medicaid makes interim payments for capital and education costs to in-state hospitals that had more than thirty (30) Medicaid discharges during the hospitals' fiscal year ending after June 30, 1996 and before July 1, 1997 on a per diem basis. The agency calculates hospital-specific interim rates using the most recently-reviewed Medicare cost report for each hospital, with reimbursements increased 1.65% for the year beginning July 1, 2015.

TRANSFER PATIENTS

Payment is allowed to the transferring hospital whenever a patient is transferred to another hospital regardless of whether the receiving hospital is paid under the DRG system or is an exempt hospital or unit.

The amount of payment made to the transferring hospital is on a per diem basis calculated by dividing the standard DRG payment for the particular stay by the geometric mean length of stay for the DRG. The per diem rate is then multiplied by the number of days stay prior to the transfer. In no instance will the payment to the transferring hospital be any higher than the full DRG payment amount if the patient had been discharged home. The daily capital/education pass-through will be added to the DRG payment.

The receiving hospital will be paid a normal DRG payment unless the patient is again transferred to another hospital.

COVERED DIAGNOSTIC RELATED GROUPS

South Dakota has adopted all DRGs, except DRG 522, established in the version of the grouper program being used by the Department as of the admission date on the claim.
