### STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: WASHINGTON

### LIENS AND ADJUSTMENTS OR RECOVERIES (cont.)

### 6. Cost effectiveness (cont.)

- Because the costs of estate administration may deplete an estate valued at \$3,000 or less, each such case is evaluated individually to determine costeffectiveness.
- After consultation with the Attorney General's Office, claims rejected (disallowed) in probate court are evaluated individually to determine if initiating legal action is cost-effective.
- 7. The State uses the following collection procedures (include specific elements contained in the advance notice requirement, the method for applying for a waiver, hearing and appeals procedures, and time frames involved):

#### Advance Notice Requirement:

The State will file liens, seek adjustment, or otherwise effect recovery for medical assistance correctly paid on behalf of a client. "Medical assistance" here means long-term care (LTC) services, including nursing facility services, home and community-based services, and related hospital and prescription drug services".

When the State seeks to recover from a client's estate the cost of medical assistance (as defined above) that is provided to the client, prior to filing a lien against the deceased client's real property the State will provide notice to:

- The probate estate's personal representative, if any; or
- Any other person known to have title to the affected property.

Prior to filing a lien against any of the deceased client's property, the State will provide ascertained titled property owners notice and an opportunity for an adjudicative proceeding. The State will serve upon ascertained titled property owners a notice of intent to file lien, which will state:
