ADDITIONAL REBATE PAYMENTS FROM McNEIL PHARMACEUTICALS FOR HALDOL

Based on agreement with McNeil Pharmaceuticals (labeler 00045), the company has recalculated pricing data for HALDOL for the period 1991 - 1993, consistent with our guidance to other manufacturers. As a result, significant additional rebates are due the states. McNeil is attempting to complete the processing and payment of these additional amounts by the end of December 1997, or shortly thereafter. Please be advised the company will be sending spreadsheets to each state explaining the additional payments based on the revised pricing data and the reported state utilization. Subsequently, McNeil will pay the appropriate interest upon the states' agreement with and acceptance of the additional amounts.

Further, McNeil is aware that the recalculation is subject to possible review by the Office of the Inspector General. As is the case with all pricing data provided to HCFA for the Medicaid drug rebate program, if HCFA determines that the recalculation requires revision, the company will be required to take appropriate corrective action. We encourage the states to work with McNeil in accepting these additional payments and, with the subsequent receipt of applicable interest, to finally reach closure for the disputed rebates on HALDOL for the period 1991 - 1993. Further discussions are underway with McNeil to reach resolution on the remaining HALDOL rebates for 1994 and forward. We will advise all states when an agreement is reached.

We appreciate the considerable effort McNeil has made in processing the recalculation and payment of the additional amounts and for the states' significant efforts in processing and reconciling these payments. We particularly appreciate the states' patience as we worked toward settlement of these longstanding disputes.
