Re: 3<sup>rd</sup> Quarter 1999 Corrections

Please see the following list of products that are **ACTIVE**. Due to a programming error, these active files were grouped with products from the 00058 labeler code that were coded with term dates. These products should **NOT** have received termination dates as indicated on the 3<sup>rd</sup> quarter submission diskette, and we request that you update your files accordingly. Please assist us in notifying the states so they can also update their systems to activate these products as reimbursable. Should you have any questions, please contact Perri Wagner at CIBA Vision at (678) 415-4019. Thank you.
