MEDICAID DRUG REBATE PROGRAM RELEASE #103

For State Medicaid Directors

SPECIAL !!! SPECIAL !!! SPECIAL !!!

ZENITH-GOLDLINE INCORRECT TERMINATION DATES

Due to a computer software problem, Zenith Goldline submitted incorrect termination dates for many products under the #00172 and #00182 labeler codes. Attached are lists of the NDCs by labeler code that should **NOT** have termination dates. These are active products that may be covered by you. Please correct your files to remove these termination dates, and, if possible, contact your pharmaceutical community as appropriate.

These termination dates have subsequently been removed from the HCFA MDRI master file and will show up as product record updates with the 4Q2000 URA file, due to you mid-February. Questions regarding this issue may be directed to Vince Powell on (410) 786-3314 or vpowell@hcfa.gov.

Timothy M. Westmoreland

Director
