Notes: Program notes	West Virginia's full-risk managed care program, Specialized Managed Care Plan for Children and Youth, provides statewide physical and behavioral health managed care services for approximately 20,000 children and youth in the foster care system and individuals receiving adoption assistance. This program runs concurrent with the state's 1915(c) waiver for Children with Serious Emotional Disturbances (SED) and 1115 expenditure authority allowing the state to enroll the SED population into one specialized MCO.
