Medicaid Section 1115 Substance Use Disorder & Serious Mental Illness and Serious Emotional Disturbance Demonstrations Monitoring Report Template

Note: PRA Disclosure Statement to be added here

1. Title page for the state's substance use disorder (SUD) and serious mental illness and serious emotional disturbance (SMI/SED) demonstrations or the SUD and SMI/SED components of the broader demonstration

This section collects information on the approval features of the state's section 1115 demonstration overall, followed by information for the SUD and SMI/SED components. The state completed this title page as part of its SUD and SMI/SED monitoring protocol(s). The state should complete this table using the corresponding information from its CMS-approved monitoring protocol(s) and submit this as the title page of all monitoring reports. The content of this table should stay consistent over time. Definitions for certain rows are below the table.

	Overall section 1115 demonstration
State	District of Columbia
Demonstration name	Behavioral Health Transformation
Approval period for section 1115 demonstration	01/01/2020 - 12/31/2024
Reporting period	01/01/2023 - 12/31/2023
	SUD demonstration
SUD component start date ^a	01/01/2020
Implementation date of SUD component, if different from SUD component start date ^b	
SUD-related demonstration goals and objectives	The goal of the demonstration is for the District to maintain and enhance access to opioid use disorder (OUD) and other substance use disorder (SUD) services; and continue delivery system improvements to provide more coordinated and comprehensive treatment for Medicaid beneficiaries with SUD. This demonstration authorizes the District to receive federal financial participation (FFP) for delivering high-quality, clinically appropriate treatment to beneficiaries diagnosed with SUD and receiving treatment while they are short-term residents in settings that qualify as Institutions for Mental Diseases (IMDs). This demonstration also complements the District's efforts to implement models of care that are focused on increasing supports for individuals outside of institutions, in home and community-based settings (HCBS), to improve their access to SUD services at varied levels of intensity, and to combat OUD and other SUDs among District residents.
SUD demonstration year and quarter	SUD DY4Q4

	SMI/SED demonstration
SMI/SED component demonstration start date ^a	01/01/2020
Implementation date of SMI/SED component, if different from SMI/SED component start date ^b	
SMI/SED-related demonstration goals and objectives	The goal of this demonstration is for the District to maintain and enhance access to mental health services and continue delivery system improvements to provide more coordinated and comprehensive treatment for Medicaid beneficiaries with serious mental illness (SMI) and serious emotional disturbance (SED). This demonstration authorizes the District to receive federal financial participation (FFP) for delivering high-quality, clinically appropriate treatment to beneficiaries diagnosed with SMI and receiving treatment while they are short-term residents in settings that qualify as Institutions for Mental Diseases (IMD). This demonstration also complements the District's efforts to implement models of care that are focused on increasing supports for individuals outside of institutions, in home and community-based settings (HCBS) to improve their access to SMI/SED services at varied levels of intensity.
SMI/SED demonstration year and quarter	SMI/SED DY4Q4

^a **SUD and SMI/SED demonstration components start dates:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state's STCs at time of SUD and SMI/SED demonstration component approvals. For example, if the state's STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD or SMI/SED demonstration component. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

^b **Implementation date of SUD and SMI/SED demonstration components:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

2. Executive summary

There were some significant changes in the SUD and SMI/SED metrics, as detailed below.

Per the Annual Availability Assessment of Mental Health Services, beneficiaries with mental health service needs has held fairly steady since the initial assessment and provider counts have remained stable or increased.

The District expended \$50,152,322.29 in local funding for outpatient community-based mental health services in FY23, compared to \$30,343,484.26 in FY19. Several factors contributed to the increase in local expenditures and are detailed in the relevant section below.

The District held the annual post-award public forum on October 27, 2023. About 90 attendees participated in the meeting. Comments and questions received at the forum are summarized in the relevant section below.

3. Narrative information on implementation, by milestone and reporting topic

A. SUD component

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
1.	Assessment of need and qualification for SUD se	rvices		
1.1	Metric trends			
1.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to assessment of need and qualification for SUD services.		#2 Medicaid Beneficiaries with Newly Initiated SUD	The District calculates a 4% decline in the number of Medicaid beneficiaries with newly initiated SUD between DY4 Q2 (4/1/23-6/30/23) and DY4 Q3 (7/1/23-9/30/23). We attribute this to the design of the measure. We attribute the decrease this quarter to the design of the measure because beneficiaries with a diagnosis in the prior quarter are not counted this quarter.
1.2	Implementation update			
1.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 1.2.1.a The target population(s) of the demonstration	X		
	1.2.1.b The clinical criteria (e.g., SUD diagnoses) that qualify a beneficiary for the demonstration	Х		
1.2.2	The state expects to make other program changes that may affect metrics related to assessment of need and qualification for SUD services.	Х		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
2. Access to Cri	itical Levels of Care for OUD and o	ther SUDs (Miles	stone 1)	
2.1 Metric trend	s			
including all	orts the following metric trends, changes (+ or -) greater than 2 d to Milestone 1.		 #7 Early Intervention #8 Outpatient Services #9 Intensive Outpatient and Partial Hospitalization Services #12 Medication- Assisted Treatment (MAT) 	 The District calculates the following changes that were less or more than 2% between DY4 Q2 (4/1/23-6/30/23) and DY4 Q3 (7/1/23-9/30/23): There was a 3% decline in the number of beneficiaries receiving outpatient services. We attribute this to natural variation. There were no providers that saw major declines in billing. There was a 183% increase in the number of beneficiaries receiving intensive outpatient and partial hospitalization services. There was a 33% decline in the number of beneficiaries receiving early intervention services. We attribute these changes to small numbers. There was a 9% decrease in the number of beneficiaries receiving MAT. We attribute the decline to decreases in billing from certain providers that have had challenges with claims submission and payment.

3.	Access to Continuum of Care, Including Crisis S	Stabilization (Mil	estone 3)	
<u>3.1</u> 3.1.1	Metric trends The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 3.		 #14 Mental Health Services Utilization - Intensive Outpatient and Partial Hospitalization #16 Mental Health Services Utilization - ED #17 Mental Health Services Utilization - Telehealth 	 The District calculates the following changes that were less or more than 2% between DY4 Q2 (4/1/23-6/30/23) and DY4 Q3 (7/1/23-9/30/23): There was a 27% decrease in the number of beneficiaries receiving intensive outpatient and partial hospitalization services. We attribute this change to a coding update that removed telehealth claims from the metrics. Prior to this quarter, telehealth was included. There was a 16% decrease in the number of beneficiaries receiving ED services. We attribute this to the count coming down after several quarters of increases. There was a 5% decrease in the number of beneficiaries receiving telehealth services. We partially attribute this change to the Covid-19 pandemic having less of an impact on where beneficiaries seek services.
3.2	Implementation update			
3.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 3.2.1.a State requirement that providers use an evidenced-based, publicly available patient assessment tool to determine appropriate level of care and length of stay	Х

Prom	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
6.	Other SMI/SED-related metrics			
6.1	Metric trends			
6.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SMI/SED-related metrics.		#38 Critical Incidents Related to Services for SMI/SED	The District attributes the 20% increase in critical incidents to natural variation.
6.2	Implementation update			
6.2.1	The state expects to make the following program changes that may affect other SMI/SED-related metrics.	X		
7.	Annual Assessment of Availability of Mental He	alth Services (An	nual Availability As	sessment)
7.1	Description of changes to baseline conditions and	d practices		
7.1.1	Describe and explain any changes in the mental health service needs of Medicaid beneficiaries with SMI/SED compared to those described in the Initial Assessment of the Availability of Mental Health Services (for example, prevalence and distribution of SMI/SED). Recommended word count is 500 words or less.			Between last year's assessment of availability of mental health services (2022 data) and the current assessment of the availability of mental health services (2023 data) adult (-7%) and total Medicaid (-5%) enrollment declined due to the restart of Medicaid renewals, or the "unwinding". At the same time, the number of adult and total beneficiaries with an SMI/SED stayed the same, which led to an increase in the percent of adults (8%) and total Medicaid beneficiaries (5%) with SMI/SED.

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.2	Describe and explain any changes to the organization of the state's Medicaid behavioral health service delivery system compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.			Since the initial assessment, the District has begun reimbursing for behavioral health services provided to individuals with SMI/SED or SUD by psychologists and other licensed behavioral health providers practicing independently (in either a separate practice or hospital setting). The District also issued rulemaking and implemented new crisis stabilization reimbursement methodologies to increase the availability of non-hospital, non-residential crisis stabilization services. In 2022, the District transitioned authority for new non-IMD behavioral health services from the 1115 demonstration to state plan authority. There were no major changes to the organization of the District's Medicaid behavioral health service delivery system in 2023.

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.3 Describe and explain any changes in the availability of mental health services for Medicaid beneficiaries with SMI/SED in the state compared to those described in the Initial Assessment of the Availability of Mental Health Services. At minimum, explain any changes across the state in the availability of the following services: inpatient mental health services; outpatient and community-based services; crisis behavioral health services; and care coordination and care transition planning. Recommended word count is 500 words or less.			 Changes in availability between the two assessments include: The number of Number of Medicaid-Enrolled Psychiatrists and Other Practitioners Who Are Authorized to Prescribe Psychiatric Medications increased from 389 to 441 (13% increase). The number of Medicaid-enrolled psychologists and other licensed BH providers practicing independently increased from 73 to 111 (52% increase). The number of providers offering intensive outpatient services increased from 8 to 11 (38% increase). Most figures remained constant, for example, the number of crisis providers of varying types, licensed psychiatric hospital beds at 613, the number of psychiatric hospitals at 2 and the number Medicaid-enrolled psychiatric units in acute care hospitals 7. Provider counts have remained stable or increased. Changes in the ratio of Medicaid beneficiaries with SMI/SED to providers are small because the count of Medicaid beneficiaries with a SMI/SED remained constant during 2023, even as the enrollment declined due to the restarting of Medicaid renewals.

Promp	ot	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.4	Describe and explain any changes in gaps the state identified in the availability of mental health services or service capacity while completing the Annual Availability Assessment compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.			Identified gaps have been addressed ongoing in part via policy changes noted above. As also noted above, in particular, the District has continued to see an increase in the number of independent licensed BH practitioners.
7.1.5	Describe and explain whether any changes in the availability of mental health services have impacted the state's maintenance of effort (MOE) on funding outpatient community-based mental health services. Recommended word count is 500 words or less.			Changes in the availability of mental health services have not impacted the District's maintenance of effort. Other changes that affected the maintenance of effort are described in Section 8 below.
7.2	Implementation update			
7.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: 7.2.1.a The state's strategy to conduct annual assessments of the availability of mental health services across the state and updates on steps taken to increase availability	X		
	7.2.1.b Strategies to improve state tracking of availability of inpatient and crisis stabilization beds	Х		

Promp	h f	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
8.	Maintenance of effort (MOE) on funding outpat			-
8.1	MOE dollar amount			
8.1.1	Provide as a dollar amount the level of state appropriations and local funding for outpatient community-based mental health services for the most recently completed state fiscal year.			The District expended \$50,152,322.* in local funding for outpatient community-based mental health services in FY23, compared to \$30,343,484.26 in FY19.
8.2	Narrative information			
8.2.1	Describe and explain any reductions in the MOE dollar amount below the amount provided in the state's application materials. The state should confirm that it did not move resources to increase access to treatment in inpatient or residential settings at the expense of community-based services.			The significant increase in local expenditures is driven by a reduction in PHE-related financial assistance provided via enhanced FMAP, and increase utilization of Mental Health Rehabilitation Services (MHRS). Specifically, expenditures for community support services, the largest service within MHRS, has grown by over 200% since FY20 and over 14% from FY22. Enhanced FMAP was 6.2% for quarters 1 and 2 of FY23 (consistent with FY22) but dropped to 5% and 2.5% in quarters 3 and 4 respectively.
				The District did not move resources to increase access to treatment in inpatient or residential settings at the expense of community-based services.

* Excluded non-Medicaid reimbursed MHRS services.

Prom	pt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
9.	SMI/SED financing plan			
9.1	Implementation update			
9.1.1	 Compared to the demonstration design and operational details, the state expects to make the following changes to: 9.1.1.a Increase availability of non-hospital, non-residential crisis stabilization services, including services made available through crisis call centers, mobile crisis units, and observation/assessment centers, with a coordinated community crisis response that involves law enforcement and other first responders 	Х		
	9.1.1.b Increase availability of on-going community-based services, e.g., outpatient, community mental health centers, partial hospitalization/day treatment, assertive community treatment, and services in integrated care settings such as the Certified Community Behavioral Health Clinic model	X		

Promp	ts	State has no update to report (place an X)	State response
10.	Budget neutrality		
10.1	Current status and analysis		
10.1.1	Describe the current status of budget neutrality and an analysis of the budget neutrality to date. If the SUD and SMI/SED components are part of a broader demonstration, the state should provide an analysis of the SUD- and SMI/SED-related budget neutrality and an analysis of budget neutrality as a whole.		The DY4Q4 submission is not budget neutral. The District previously communicated to CMS that due to the global pandemic and other programmatic changes the per-member, per month estimate based on historic utilization data is no longer accurate. Additionally, the large increase in the Non-IMD services blended MEG PMPM is the result of The District incorporating guidance from CMS to exclude 50k+ member months representative of \$1 copays for MAT services, which were accounted for in the initial PMPM threshold calculation. The District plans to submit a technical amendment request to address these issues, however, we are currently awaiting guidance from CMS regarding the submission.
10.2	Implementation update		
10.2.1	The state expects to make other program changes that may affect budget neutrality.		The District is in the process of implementing changes to the methodologies of some waiver services in FY24. These changes will likely result in rate increases and/or significant shifts from the underlying assumptions used to calculate the current PMPM thresholds. The agency is in the midst of fine-tuning these anticipated programmatic changes and is unable to calculate impact at this time.

4. Narrative information on other reporting topics applicable to both SUD and SMI/SED components

_		State has no update to report	
Prompts		(place an X)	State response
11.	SUD- and SMI/SED-related demonstration operati	ons and policy	
11.1	Considerations		
11.1.1	The state should highlight significant SUD and SMI/SED (or if broader demonstration, then SUD- and SMI/SED-related) demonstration components' operations or policy considerations that could positively or negatively affect beneficiary enrollment, access to services, timely provision of services, budget neutrality, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the SUD and SMI/SED demonstration components approved goals or objectives, if not already reported elsewhere in this document. See Monitoring Report Instructions for more detail.		The District is continuing Medicaid redeterminations after the federal Medicaid continuous coverage requirement ended earlier in 2023. As noted in previous reports, the resumption of Medicaid redeterminations will broadly impact beneficiary enrollment.
11.2	Implementation update		
11.2.1	The state experienced challenges in partnering with entities contracted to help implement the demonstration (e.g., health plans, credentialing vendors, private sector providers) and/or noted any performance issues with contracted entities.	Х	
11.2.2	The state is working on other initiatives related to SUD, OUD and/or SMI/SED.		In August 2022, the District received a third State Opioid Response (SOR) grant.

Promp	ts	State has no update to report (place an X)	State response
11.2.3	The initiatives described above are related to the SUD and/or SMI/SED demonstration components. (The state should note similarities and differences from the SUD and SMI/SED demonstration components).		 The SOR 3 grant complements the 1115 SUD demonstration. The funding allows the District to support behavioral health transformation in several ways: Increase entry points into the system of care (e.g., stabilization and sobering center, satellite Opioid Treatment Programs) Improve the coordination of care for individuals as they move through the system by expanding care management initiatives in the community and at the DC Jail Provide training, technical assistance, coaching, and consultation to SUD providers/health care professionals to increase their ability to address an individual's whole-person needs Implement a coordinated approach at the community level by facilitating key stakeholders in each ward to work collaboratively around harm reduction, prevention, community outreach and education initiatives, and sustainability planning
11.2.4	Compared to the demonstration design and operational details, the state expects to make the following changes to:		
	11.2.4.a How the delivery system operates under the demonstration (e.g., through the managed care system or fee for service)	Х	
	11.2.4.b Delivery models affecting demonstration participants (e.g., Accountable Care Organizations, Patient Centered Medical Homes)	X	
	11.2.4.c Partners involved in service delivery	X	
	11.2.4.d <i>SMI/SED-specific:</i> The state Medicaid agency's Memorandum of Understanding (MOU) or other agreement with its mental health services agency	X	

Promp	ots	State has no update to report (place an X)	State response
12.	SUD and SMI/SED demonstration evaluation upda	te	
12.1	Narrative information		
12.1.1	Provide updates on SUD and SMI/SED evaluation work and timeline. The appropriate content will depend on when this monitoring report is due to CMS and the timing for the demonstration. There are specific requirements per 42 Code of Federal Regulations (CFR) § 431.428a(10) for annual reports. See Monitoring Report Instructions for more details.		 In accordance with the District's approved evaluation design: AIR prepared for the round 2 beneficiary survey by updating the questionnaire and selecting the sample. AIR drafted work plan for the final round of primary data collection. AIR began outreach and recruitment for provider, beneficiary and stakeholder interviews. AIR began updating the code and analytic plan for the summative evaluation report.
12.1.2	Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.	Х	
12.1.3	List anticipated evaluation-related deliverables related to this demonstration and their due dates.	Х

13.	Other demonstration reporting		
13.1	General reporting requirements		
13.1.1	The state reports changes in its implementation of the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring protocol.	X	
13.1.2	The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.	Х	
13.1.3	Compared to the demonstration design and operational details, the state expects to make the following changes to:		
	13.1.3.a The schedule for completing and submitting monitoring reports	Х	
	13.1.3.b The content or completeness of submitted monitoring reports and/or future monitoring reports	Х	
13.1.4	The state identified current or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.	Х	
13.1.5	Provide updates on the results of beneficiary satisfaction surveys, if conducted during the reporting year, including updates on grievances and appeals from beneficiaries, per 42 CFR § 431.428(a)5.	Х	

Prompts		State has no update to report (place an X)	State response
13.2	Post-award public forum		
13.2.2	If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held pursuant to 42 CFR § 431.420(c) indicating any resulting action items or issues. A summary of the post-award public forum must be included here for the period during which the forum was held and in the annual monitoring report.		The District held the annual post-award forum on October 27, 2023. Approximately 90 attendees participated in the meeting. Participants inquired about the public availability of evaluation deliverables, ongoing investments in provider capacity to deliver services that were originally implemented via 1115 authority, and the District's plans for renewing the demonstration.

Prompts		State has no update to report (place an X)	State response
14.	Notable state achievements and/or innovations		
14.1	Narrative information		
14.1.1	Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies pursuant to the hypotheses of the SUD and SMI/SED (or if broader demonstration, then SUD- or SMI/SED-related) demonstration components or that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms (e.g., number of impacted beneficiaries).	X	

*The state should remove all example text from the table prior to submission.

Note: Licensee and states must prominently display the following notice on any display of Measure rates:

SUD measures IET-AD, FUA-AD, FUM-AD, and AAP [Metrics #15, 17(1), 17(2), and 32] and SMI/SED measures MPT, FUH-CH, FUH-AD, FUA-AD, FUM-AD, AAP, and APM measures (#13, 14, 15, 16, 17, 18, 7, 8, 9, 10, 26, 29) are Healthcare Effectiveness Data and Information Set (HEDIS®) measures that are owned and copyrighted by the National Committee for Quality Assurance (NCQA). HEDIS measures and specifications are not clinical guidelines, do not establish a standard of medical care and have not been tested for all potential applications. The measures and specifications are provided "as is" without warranty of any kind. NCQA makes no representations, warranties or endorsements about the quality of any product, test or protocol identified as numerator compliant or otherwise identified as meeting the requirements of a HEDIS measure or specification. NCQA makes no representations, warranties, or endorsement about the quality of any organization or clinician who uses or reports performance measures and NCQA has no liability to anyone who relies on HEDIS measures or specifications or data reflective of performance under such measures and specifications.

The measure specification methodology used by CMS is different from NCQA's methodology. NCQA has not validated the adjusted measure specifications but has granted CMS permission to adjust. A calculated measure result (a "rate") from a HEDIS measure that has not been certified via NCQA's Measure Certification Program, and is based on adjusted HEDIS specifications, may not be called a "HEDIS rate" until it is audited and designated reportable by an NCQA-Certified HEDIS Compliance Auditor. Until such time, such measure rates shall be designated or referred to as "Adjusted, Uncertified, Unaudited HEDIS rates."
