

**Overview:** The Medicaid Section 1115 Eligibility and Coverage Demonstrations Monitoring Report contains information on the following policies:<sup>1</sup>

1. Premiums or account payments (PR)
2. Health behavior incentives (HB)
3. Community engagement (CE)
4. Retroactive eligibility waivers (RW)
5. Non-eligibility periods (NEP)

Each state with an approved eligibility and coverage demonstration will receive a customized version of the Monitoring Report Template that includes each eligibility and coverage policy in its demonstration and the sections applicable for the demonstration overall. If the eligibility and coverage policies are part of a broader section 1115 demonstration, the state should report on the entire demonstration in the sections that apply to all eligibility and coverage demonstrations. In those situations, CMS will work with the state to ensure there is no duplication in the reporting requirements for different components of the demonstration. For more information, the state should contact the section 1115 eligibility and coverage demonstration monitoring and evaluation mailbox ([1115MonitoringandEvaluation@cms.hhs.gov](mailto:1115MonitoringandEvaluation@cms.hhs.gov)), copying the state's CMS demonstration team on the message.

<sup>1</sup> For other eligibility and coverage policies, such as non-emergency medical transportation and marketplace-focused premium assistance, see general guidance for monitoring and evaluation available on [Medicaid.gov](https://www.medicaid.gov).

**1. Title page for the state’s eligibility and coverage demonstration or eligibility and coverage policy components of the broader demonstration**

*The state should complete this title page at the beginning of a demonstration and submit as the title page of all monitoring reports. The content of this table should stay consistent over time.*

*This section collects information on the state’s section 1115 demonstration overall, followed by information for each eligibility and coverage policy. This form should be submitted as the title page for all eligibility and coverage monitoring reports. The content of this table should stay consistent over time. Definitions for certain rows are provided below the table.*

Overall section 1115 demonstration	
State	Iowa
Demonstration name	Iowa Wellness Plan section 1115 demonstration
Approval period for section 1115 demonstration	01/01/2020-12/31/2024
Demonstration year and quarter	EandC DY3Q2
Reporting period	04/01/2022 – 06/30/2022
Premiums or account payments	
Premiums or account payments start date <sup>a</sup>	01/01/2020
Implementation date, if different from premiums or account payments start date <sup>b</sup>	N/A
Health behavior incentives	
Health behavior incentives start date	01/01/2020
Implementation date, if different from health behavior incentives start date	N/A
Retroactive eligibility waiver	
Retroactive eligibility waiver start date	01/01/2020
Implementation date, if different from retroactive eligibility waiver start date	N/A

<sup>a</sup> **Start date:** For monitoring purposes, CMS defines the start date of the demonstration as the “effective date” listed in the state’s STCs at time of eligibility and coverage demonstration approval. For example, if the state’s STCs at the time of eligibility and coverage demonstration approval note that the demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the demonstration. Note that the effective date of the eligibility and coverage demonstration may differ from the date CMS approved the demonstration.

<sup>b</sup> **Implementation date of policy:** The date the state implemented each eligibility and coverage policy in its demonstration.

## **2. Executive summary (500 words or less)**

Iowa completed the development of the new quality metrics and submitted all past due reports in the 2<sup>nd</sup> quarter once those metrics were established. The project has been moved to the automation phase to collect most of the data that's required for the metrics.

Iowa continues to process passive renewals on recertifications in the 2<sup>nd</sup> quarter and is still not advancing the renewal date into the future on the cases that could not be passively renewed. Therefore, we have a growing number of Medicaid cases with renewal dates sitting in the past. This is reflected in the continuing decrease in members eligible for renewal.

One of the DWP MCP's, Delta Dental, attended the Iowa Public Health Conference and the Iowa Dental Association (IDA) conference to provide education about the DWP. Outreach and education continue from both MCP's to new members of the plan via text, postcards that remind members of benefits and how to access them. A large number of postcards were sent to existing members who had not utilized any services in the past fiscal year.

Work continues on the IHAWP Process Evaluation Report from the Public Policy Center and the University of Iowa. By the end of the 2<sup>nd</sup> quarter, the final draft proposal had been reviewed by the Iowa Medicaid quality committee and has moved on to the final phase of the vetting processes.

The Healthy Behaviors member phone survey closed in June 2022. Development began for the Member Experiences Survey. Printing details, online surveys, tracking mechanisms and surveillance plans were all finalized. Non-Emergency Medical Transportation (NEMT) membership and eligibility items were merged into this member survey. The first Member Experience Survey was mailed 06/29/22. Planning is underway for the 2022-2023 process evaluation plan. Items that came up in key stake holder interviews are guiding this plan. Areas of interest include transportation, value-based payments, and health risk assessment data.

This is a 1.0% increase from the prior quarter. The average number of new enrollees per month over the 1<sup>st</sup> quarter was 1,950, decreasing 13% from the prior quarter.</p> <p>At the end of this quarter, Iowa had 513,177 total enrollees in the Dental Wellness Plan (DWP). This is a 1.0% increase from the prior quarter. The average number of new enrollees per month over the 1<sup>st</sup> quarter was 3,941, decreasing 15% from the prior quarter.</p> <p>The decrease in new enrollees for both programs can be attributed to the Maintenance of Effort (MOE) during the PHE. With so many members remaining on these programs throughout the MOE, the number of new members applying will continue to decrease overall.</p> <p>Although the numbers show children under 19 enrolled in the IWP, these numbers are due to technical errors due to overrides in the eligibility system due to the PHE and are being addressed to correct the issue.</p>

1.1.2 Discuss any data trends related to mid-year loss of demonstration eligibility. At a minimum, changes (+ or -) greater than two percent should be described.		<i>AD_6-10</i>	<p>The IHAWP program saw a decrease in the number of beneficiaries that were determined ineligible for reasons other than renewal, and also due to a change in circumstances. These two categories decreased by 15% each this quarter. The AD_10 metric issue was resolved by our data department and discovered an issue with the rule they put in the system effective 1<sup>st</sup> Qtr 2022. They re-ran all numbers for this metric for 01/2022 – 06/2022. A revised copy of both 1<sup>st</sup> and 2<sup>nd</sup> quarter was just posted. The monthly count of beneficiaries no longer eligible for the demonstration due to transfer to another Medicaid eligibility group increased 10% in 2<sup>nd</sup> quarter over 1<sup>st</sup> quarter. This is again a reflection of the field’s efforts to focus more on processing changes rather than renewals due to the MOE during the PHE.</p> <p>The DWP program also saw a decrease in the number of beneficiaries that were determined ineligible for reasons other than renewal by 29%, and also due to a change in circumstances by 44% each quarter.</p> <p>The decreases in both of these programs can be attributed to the Maintenance of Effort (MOE) for the PHE. Members determined to be ineligible after reporting a change or at renewal still remain on the program as per the MOE.</p>

1.1.4 Discuss any data trends related to renewals. Describe and explain changes (+ or -) greater than two percent.		<i>AD_14-22</i>	<p>For the IHAWP program, the number of beneficiaries who renewed ex parte decreased 33% from the prior quarter. The number of beneficiaries due for renewal decreased 8%.</p> <p>For the DWP program, the number of beneficiaries who renewed ex parte decreased 43% from the prior quarter. The number of beneficiaries due for renewal decreased 37%.</p> <p>These decreases can be attributed to the field’s ongoing process to stop advancing the renewal dates for the members who could not be passively renewed, therefor leaving the renewal dates in the past. These cases with old renewal dates will all be addressed after the PHE ends in accordance with the state’s unwind plan.</p>
1.1.5 Discuss any data trends related to cost sharing limits. Describe and explain changes (+ or -) greater than two percent.	X	<i>AD_23</i>	Iowa does not report this metric

<b>2. Eligibility and coverage demonstration evaluation update</b>		
<b>2.1 Narrative information</b>		
2.1.1 Provide updates on eligibility and coverage policy evaluation work and timeline. The appropriate content will depend on when this report is due to CMS and the timing for the demonstration. There are specific requirements per Code of Federal Regulations for annual monitoring reports. See Monitoring Report Instructions for more details.		Work continues on the 2022 IHAWP Process Evaluation Report from the Public Policy Center and the University of Iowa. By the end of the 2 <sup>nd</sup> quarter, the final draft proposal had been reviewed by the Iowa Medicaid quality committee and has moved on to the final phase of the vetting processes.
2.1.2 Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.		Development began for the Member Experiences Survey. Printing details, online surveys, tracking mechanisms and surveillance plans were all finalized. The first Member Experience Survey was mailed 06/29/22.  Non-Emergency Medical Transportation (NEMT) membership and eligibility items were merged into this member survey.
2.1.3 List anticipated evaluation-related deliverables related to this demonstration and their due dates.		Planning is underway for the 2022-2023 process evaluation plan. Items that came up in key stake holder interviews are guiding this plan. Areas of interest include transportation, value-based payments, and health risk assessment data.

<b>3. Other demonstration reporting</b>		
<b>3.1 General reporting requirements</b>		
3.1.1 Describe whether the state foresees the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.	X	Iowa will need to make changes to the STCs to remove Dental HB, prior to the end of the PHE. We are in communication with CMS on this issue.
3.1.2 Compared to the details outlined in the STCs and the monitoring protocol, describe whether the state has formally requested any changes or whether the state expects to formally request any changes to: 3.1.2.i The schedule for completing and submitting monitoring reports	X	Iowa has submitted a letter of intent to remove HB & contributions from the Dental Wellness Plan.
3.1.2.ii The content or completeness of submitted monitoring reports and or future monitoring reports	X	
3.1.3 Describe whether the state has identified any real or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.		Work is continuing to identify pregnant women in the IWP to ensure there will continue to be no cost sharing for these members once the PHE ends.
<b>3.2 Post-award public forum</b>		
3.2.1 If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held indicating any resulting action items or issues. A summary of the post-award public forum should be included here for the period during which the forum was held and in the annual monitoring report.	X	N/A

<b>4. Notable state achievements and/or innovations</b>		
<b>4.1 Narrative information</b>		
<p>4.1.1 Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies (1) pursuant to the eligibility and coverage policy hypotheses (or if broader demonstration, then eligibility and coverage policy related) or (2) that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms, e.g., number of impacted beneficiaries.</p>		<p>The average number of new enrollees for the IWP per month over the 2<sup>nd</sup> quarter was 1,950. This demonstrates the continued need for health care coverage for individuals ages 19-64.</p>

Note: States must prominently display the following notice on any display of measure rates based on NCQA technical specifications for 1115 eligibility and coverage demonstration monitoring metrics:

Measures MSC-AD, FUA-AD, FUM-AD, and IET\_AD (metrics AD\_38A, AD\_39, and AD\_40) are Healthcare Effectiveness Data and Information Set (HEDIS®) measures that are owned and copyrighted by the National Committee for Quality Assurance (NCQA). HEDIS measures and specifications are not clinical guidelines, do not establish a standard of medical care and have not been tested for all potential applications. The measures and specifications are provided “as is” without warranty of any kind. NCQA makes no representations, warranties or endorsements about the quality of any product, test or protocol identified as numerator compliant or otherwise identified as meeting the requirements of a HEDIS measure or specification. NCQA makes no representations, warranties, or endorsement about the quality of any organization or clinician who uses or reports performance measures and NCQA has no liability to anyone who relies on HEDIS measures or specifications or data reflective of performance under such measures and specifications.

The measure specification methodology used by CMS is different from NCQA’s methodology. NCQA has not validated the adjusted measure specifications but has granted CMS permission to adjust. A calculated measure result (a “rate”) from a HEDIS measure that has not been certified via NCQA’s Measure Certification Program, and is based on adjusted HEDIS specifications, may not be called a “HEDIS rate” until it is audited and designated reportable by an NCQA-Certified HEDIS Compliance Auditor. Until such time, such measure rates shall be designated or referred to as “Adjusted, Uncertified, Unaudited HEDIS rates.”
