1115 Waiver: Texas Healthcare Transformation Quality Improvement Program Monitoring Report

As Required by

Special Terms and Conditions 74

and 42 CFR § 431.428

Texas Health and Human Services

Commission

Quarter One Report

March 2022

TEXAS
Health and Human Services

1. Preface

State	Texas Health and Human Services Commission
Demonstration Name	Texas Healthcare Transformation and Quality Improvement Program - "1115 Transformation Waiver"
Approval Dates	Initial approval date: December 12, 2011 15-Month Extension approval date: May 2, 2016 Renewal approval date: December 13, 2017 Extension approval date: January 15, 2021
Approval Period	December 13, 2017-September 30, 2022 (prior approval period) January 15, 2021-September 30, 2030
Demonstration Goals and Objectives	The Texas Healthcare Transformation and Quality Improvement Program Section 1115 Waiver enables the State to expand its use of Medicaid managed care to achieve program savings, while also preserving locally funded supplemental payments to hospitals. The goals of the demonstration are to: • Expand risk-based managed care statewide; • Support the development and maintenance of a coordinated care delivery system; • Improve outcomes while containing cost growth; and • Transition to quality-based payment systems across managed care and providers.

2. Executive Summary

According to the Special Terms and Conditions (STCs) of the Demonstration, the Texas Health and Human Services Commission (HHSC) provides its monitoring report for Demonstration Year (DY) 11, which began October 1, 2021[1]. Pursuant to 42 CFR § 431.428, Texas provides this quarterly report to demonstrate how the goals and objectives were met as Texas Medicaid served almost five million Medicaid beneficiaries through risk-based Medicaid managed care authorized under this waiver while finalizing the transition from the Delivery System Reform Incentive Payment (DSRIP) pool to integrated state directed payment programs, continuing the Uncompensated Care pool, and launching the Public Health Provider Charity Care Program.

Growth in Caseload

As of December 2021, Texas had over 5.1 million full benefit clients in Medicaid. Prior to the public health emergency (PHE), full benefit caseloads were under 4 million and experiencing overall declines due to sustained positive economic conditions and record low unemployment levels. This growth in Medicaid underscores the significant impact the COVID-19 PHE and related Maintenance of Eligibility (MOE) policy has had on Texas Medicaid enrollment.

Medicaid Managed Care Enrollment

The State continues to contract with 17 managed care organizations (MCOs) and 3 dental maintenance organizations (DMOs): 16 for STAR, 5 for STAR+PLUS, and 9 for STAR Kids. Each MCO covers one or more of the service delivery areas (SDAs), while each dental plan provides statewide services (See ***Attachment A***).

Approximately 95% of Texas Medicaid beneficiaries are enrolled in Medicaid Managed Care (MMC). The PHE has had the largest impact on the STAR program, which serves parents, pregnant women and children. The STAR Program is the largest Medicaid managed care program and has experienced 98% of the overall managed care growth in enrollment. The STAR+PLUS and STAR Kids programs did not experience the same degree of impact as these programs which serve disability related populations which are largely covered today due to their level of need and long lengths of stay in Medicaid.

Initiatives

Fiscal Year 2022 is full of new initiatives and programs. The State continues to work toward final approval of the state directed payment programs set forward in the DSRIP transition plan and STCs. The state is making preparations to launch the Public Health Provider-Charity Care Pool and began work on the resizing exercise for the Uncompensated Care program. The state is continuing to make DSRIP payments as necessary and working to comply with the federal Home and Community-Based Services regulations. The state will be updating the appeals process based on the Independent Review Organization developed last year. Finally, the state will be working with CMS on pending 1115 Waiver amendments, transitioning services to managed care and implementing State legislation.

Critical Incident Management System

[1] Demonstration Year 10 includes work that is tied to the State fiscal year as well.

HHSC will implement a new a statewide critical incident management system (CIMS) for reporting critical incidents. The new system will be in compliance with guidance issued by the Centers for Medicare and Medicaid Services (CMS) on March 12, 2014. To streamline the level of critical incident information received and to standardize the format, the Legislature appropriated funding during the 86th Legislature, House Bill 1, for the new CIMS. HHSC is working with FEI Systems, the CIMS vendor, to configure a platform to collect all required critical incident information across all 1915(c) and STAR+PLUS Home and Community-Based Services programs. This will include information on abuse, neglect and exploitation allegations in addition to other critical incidents required by program policy. All waiver providers will be required to report information into the new system. The system will go live May 2022.

COVID-19 Public Health Emergency

The PHE related to COVID-19 continues to be a key challenge impacting the 1115 Transformation Waiver. It has significantly impacted both costs and caseload. In response to the PHE and financial strains impacting the Texas healthcare system, Texas submitted an extension application in November 2020. Texas and the Centers for Medicare and Medicaid Services (CMS) worked together to negotiate and to agree to updated terms. Texas received approval on January 15, 2021. This was a key achievement and created financial certainty and security for Texas Medicaid, Medicaid managed care organizations, and the network of contracted providers actively responding to the PHE.

Extension Implementation

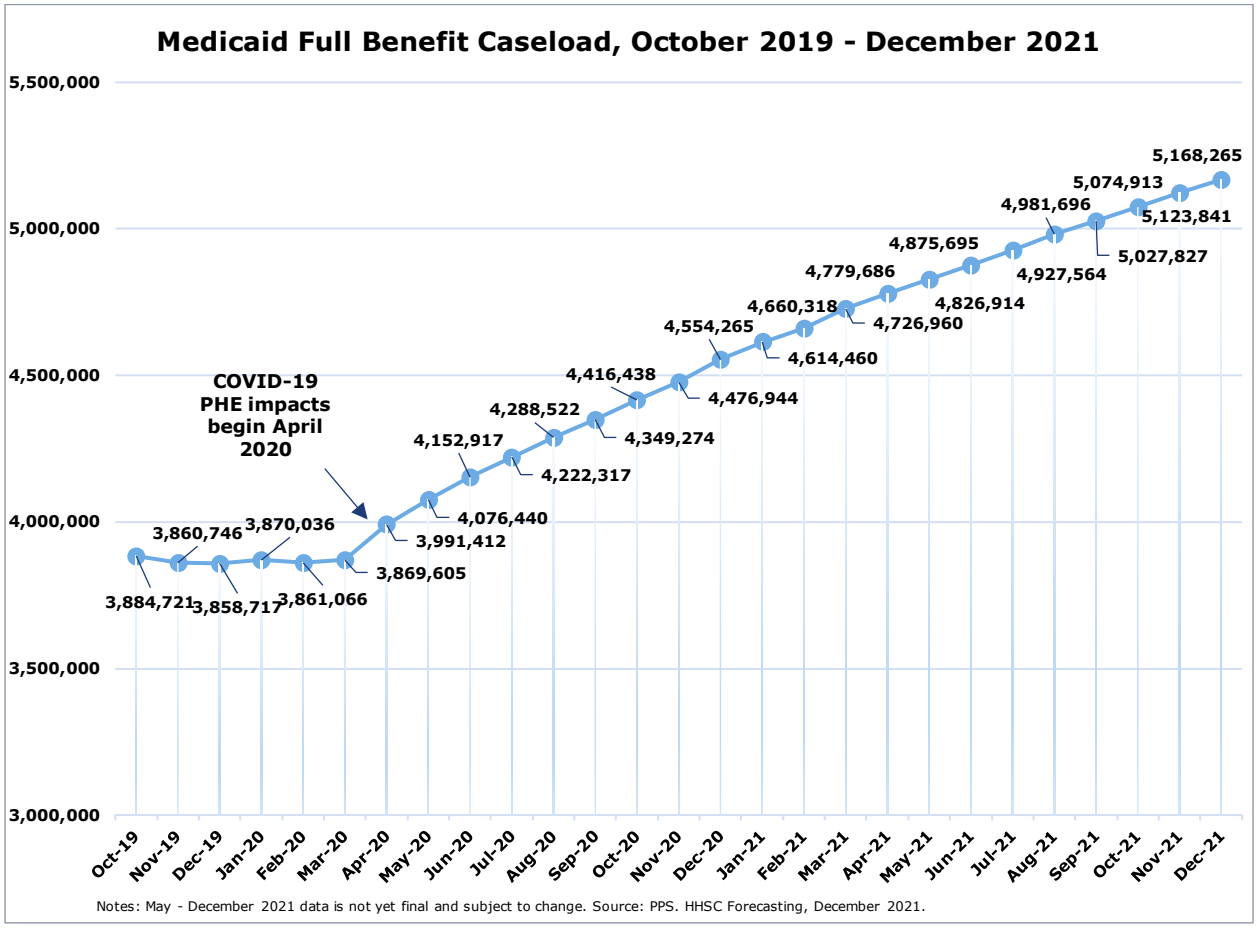
Difficulties related to operation of the 1115 Transformation waiver emerged with the letter from CMS rescinding its January 15, 2021 approval letter. The Texas 1115 Transformation waiver provides the authority under which most of Medicaid managed care is authorized. Without the terms previously negotiated and agreed to, Medicaid managed care, state directed payment programs within Medicaid managed care, supplemental payments made possible through managed care savings, and various initiatives aimed at continuous improvement of the program are at risk. During Q1 of FY 22, 5 state directed payment programs, or approximately $7 billion annually, were pending CMS approval.

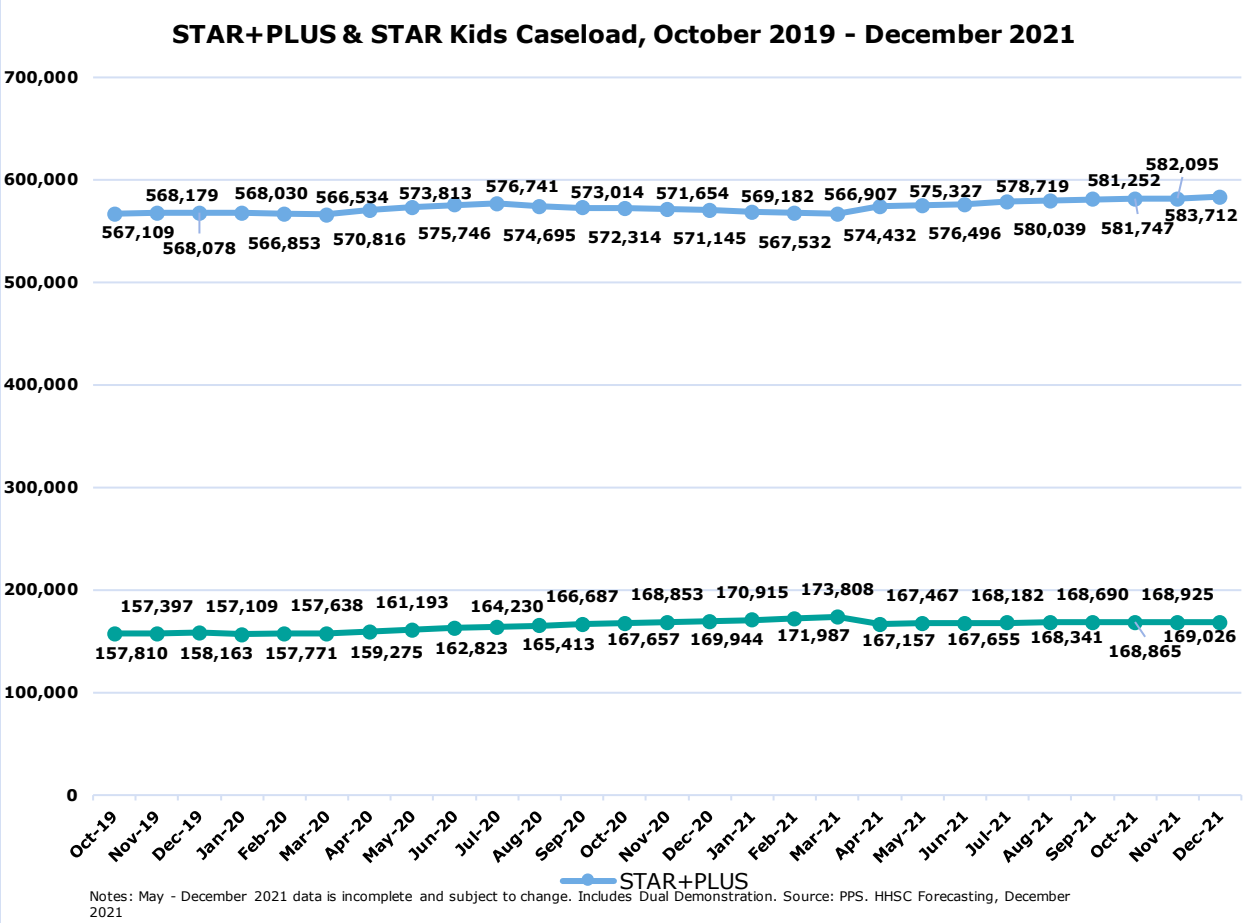
This report discusses in more detail the highlights included in this summary section.

3. Enrollment

This section addresses trends and issues related to STAR, STAR Kids, STAR+PLUS, and Dental program eligibility and enrollment; enrollment counts for the quarter; Medicaid eligibility changes; anticipated changes in populations and benefits; and disenrollment from managed care.

The graph below provides a visual look of the overall Medicaid caseload growth experienced during the PHE. Growth began in April 2020 and has increased by over 1.2 million clients.





***STAR+PLUS is the one notated in darker blue at the top of the above graph.**

Ninety eight percent of the growth in managed care during the PHE has been attributed to the STAR program while disability related managed care programs have experienced minimal impact. The graph below illustrates the impact to the STAR Kids and STAR+PLUS programs, which serve aged, blind, and disabled clients.

In ***Attachment B1***, an enrollment summary is broken out by product line, service delivery area, and MCO for SFY21 Q1-Q4 to show where caseloads are headed. Due to the amount of time required for accurate data collection and reporting; total enrollment counts are reported on a one-quarter lag. ***Attachment B2*** includes Medicaid and CHIP Enrollment Reports from March 2021 through May 2021, these reports include the estimated enrollment by delivery model, program, risk group, Medicaid MCOs, DMOs, and CHIP MCOs. These data are projections provided by Forecasting and considered final after eight months.

Enrollment Counts for the Quarter by Populations Served

This subsection includes the latest quarterly enrollment counts for which final data is available. This enrollment summary includes all of Medicaid to demonstrate the total number served and those in Medicaid managed care authorized under the waiver. Unique client counts per quarter will be reported on a two-quarter lag and provided every other quarter.

Enrollment of Members with Special Health Care Needs

This subsection of the report addresses managed care enrollment of members with special health care needs (MSHCN).

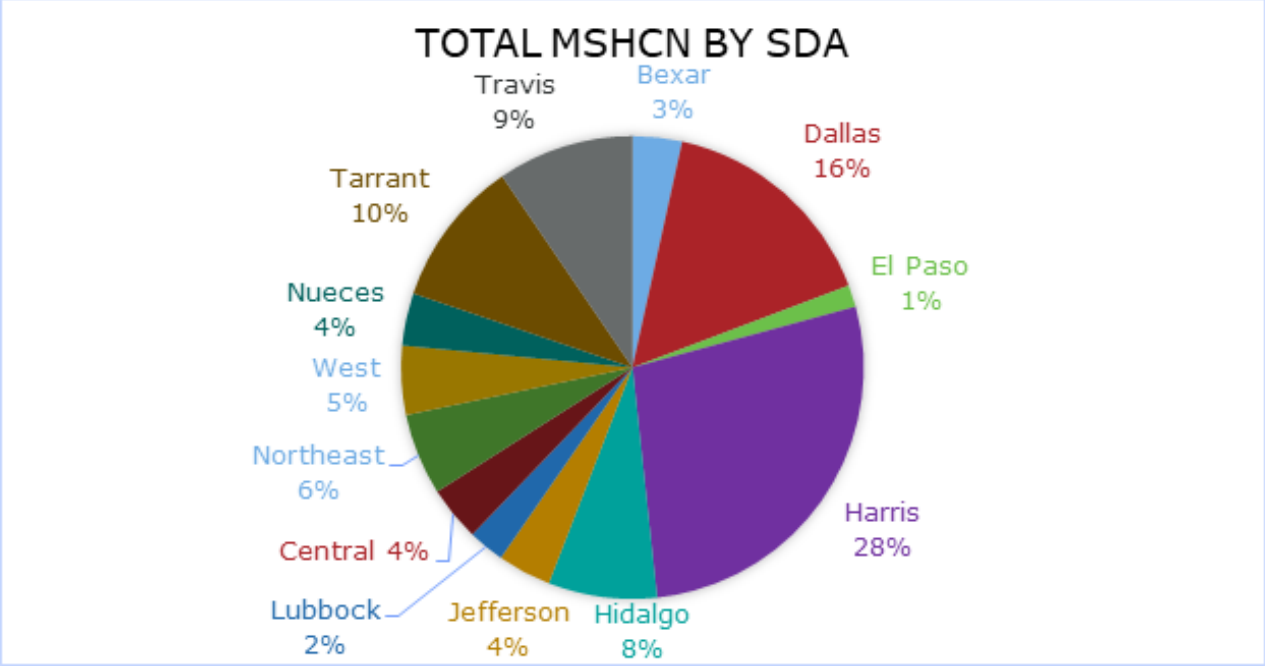
All STAR Kids and STAR+PLUS members are deemed to be MSHCN. All STAR Kids and STAR+PLUS plans reported 100% MSHCN, as required in the contract. STAR Kids and STAR+PLUS managed care organizations (MCOs) are required to provide service coordination to all members, unless the member declines. STAR MCOs must identify MSHCN based on criteria outlined in the managed care contract. STAR MCOs are required to provide service management to MSHCN unless the member declines service management or is unable to be reached. Service management includes the development of a service plan to meet the member's short- and long-term goals.

Attachment Q outlines STAR MSHCN details by service delivery area (SDA) and MCO. Data are reported on a one-quarter lag. SFY21 Q4 data excludes 14 MSHCN from Parkland due to reporting errors. HHSC has established contractual requirements and a template for the MCOs to submit quarterly MSHCN data.

The number without service plans includes those who declined and those who could not be reached. Percentages represent the proportion of MSHCN without service plans who declined Service Management or whom the MCO was unable to reach. An MSHCN is defined as a member who: (1) Is in one or more groups designated by HHSC. These groups include pregnant women identified as high risk, members with behavioral health conditions, members serious ongoing illness or a chronic complex condition that is anticipated to last for a significant period and requires ongoing therapeutic intervention and evaluation (2) Has been identified as MSHCN based on the MCO's assessment of each individual Member's needs.

In SFY21 Q4, the overall percentage of STAR MSHCN with service plans has slightly increased since the last reporting period. Four MCOs reported more than 60% of their MSHCN in certain SDAs had a service plan (Aetna, Community Health Choice, Driscoll, and United). Five MCOs (Amerigroup, Blue Cross Blue Shield, Community First, Parkland, and Texas Children's) reported less than 10% of their MSHCN in certain SDAs had a service plan.

Harris SDA holds the most MSHCN with 27.54% (30,213) of all reported STAR MSHCN. Dallas SDA holds the second-most reported MSHCN with 15.77% (17,306 STAR MSHCN). See chart below for additional detail.



Member Disenrollment

The State received a total of zero requests to disenroll from any MCOs for Dental, STAR, STAR Kids and STAR+PLUS in SFY22 Q1.

Provider Network Enrollment

This subsection includes quarterly healthcare provider counts for STAR, STAR+PLUS, STAR Kids, and dental provider counts for the dental program (See ***Attachment C2***). Provider Network Count Methodology may be found in ***Attachment C1***. Because of the time required for data collection, healthcare provider counts per quarter are reported on a one-quarter lag.

During SFY21 Q4, unique Primary Care Provider (PCP) provider enrollment continued to increase across all programs statewide. Specialist provider enrollment increase across all programs statewide. Similarly, unique pharmacist enrollment slightly increased across all programs during SFY21 Q4. Across the dental programs statewide, the DMOs reported an increase in dental provider enrollment compared to the previous quarter.

Provider Termination

Attachment C3 details the data reported by the MCOs regarding the number of PCPs and specialists terminated in SFY21 Q1-Q4. The MCOs reported a variety of reasons for termination. For Q4, the top three reasons for PCP terminations included the provider left a group practice, a termination was requested by the provider, and the provider moved locations. The top three reasons for specialist terminations included the provider left a group practice, a termination was requested by the provider, and the provider failed to recredential.

3.1 Anticipated Changes to Enrollment

On Jan. 27, 2020, the Secretary of Health and Human Services declared a PHE due to the novel coronavirus. In March, Governor Greg Abbott declared a disaster in Texas due to the COVID-19 pandemic. Additionally, the federal law passed in March 2020, H.R. 6201 (Families First Coronavirus Response Act), required States to maintain continuous Medicaid coverage during the federal PHE period as a condition of receiving enhanced federal funding. As part of the emergency response, Texas Health and Human Services put automated processes in place to maintain Medicaid coverage.

On October 28, 2020, the Centers for Medicare and Medicaid Services (CMS) issued interim final rules which provided clarification on the continuous enrollment requirements in the Families First Coronavirus Response Act (FFCRA). CMS clarified States must transition individuals between eligibility categories during the PHE, if the new Medicaid program provides the same tier of benefits or a higher tier of benefits. Texas has aligned with the interim final rule related to maintenance of eligibility as part of the FFCRA.

Beginning in February 2021, the Texas Health and Human Services Commission (HHSC) transitioned Medicaid clients to the appropriate program on an ongoing basis when there was a change in circumstance or when processing a renewal application. Generally, if a client no longer meets the criteria for their current program, and does not qualify for another Medicaid group, they will remain in their current group for the remainder of the continued eligibility period. There are some limited situations where an individual will not continue to receive Medicaid State Plan benefits such as when the individual leaves the State, voluntarily leaves the program, or is deceased.

With the anticipated end of the PHE in 2022, Texas is estimating that the PHE-impacted caseloads will experience a recovery over the course of 1 to 2 years before caseloads stabilize and resume normal growth trends. Texas continues to monitor new guidance from CMS related to the PHE.

4. Provider Network & Network Adequacy

To ensure the availability and accessibility of services in a timely manner, MCOs are required to meet network adequacy standards for time and distance. These vary by provider type and county designation (metro, micro, rural). MCOs must ensure at least 90% of members, unless otherwise specified, have access to a choice of each provider type (PCPs, dentist, and specialty services) in each service delivery area (SDA) within a prescribed travel time and distance standards. The required distance and travel time standards vary by provider and county designation (see ***Attachment E and Attachments H1-H4)***.

Attachment H1 provides an analysis of the percentage of each managed care plan's members with at least two PCPs within the maximum distance from the member's residence (based on Medicaid enrollment files) by program and county designation (metro, micro, rural) within the distance standard of 90%. During SFY22 Q1, the MCOs met or exceeded the 90% standard for members' access to PCPs except Community First in STAR and STAR Kids Micro. Similarly, MCOs are required to maintain an adequate network of specialty providers such that 90% of members have access to at least two providers (except as noted below) within the time and distance standard for the specialty provider type. Community First has been placed on corrective action plans (CAPs) for not meeting these standards.

HHSC has established network adequacy standards for the following types of specialty providers: acute care hospital; audiologist; behavioral health outpatient; cardiovascular disease; ear, nose and throat (ENT); Mental Health Targeted Case Management (TCM) and Mental Health Rehabilitative Services (MHR); general surgeon; nursing facility; OB/GYN; ophthalmologist; orthopedist; pediatric sub-specialty; prenatal care; therapy (occupational, physical, and speech); psychiatrist; and urologist.

Attachment H2 presents the detailed specialty provider analysis by program and county designation (metro, micro, rural). During Q1, and across all Medicaid managed care programs, MCOs met or exceeded the 90% standard for members' access to specialty providers for Nursing Facility, OG/YN, Pediatric Sub-specialty, and Therapy. The evaluation of network adequacy compliance occurs at the county level. It is possible for an MCO's overall average compliance rate to be high yet still be below 90% in one or more counties. The table below summarizes the count of MCOs that did not meet the 90% compliance standard in one or more counties.

MCO Network Adequacy Summary – Specialty Providers – Number of MCOs that did not meet the standard, by Specialty Provider, Program and County designation SFY22 Q1*

Type of Specialist	Program	Number of MCOs that did not meet the standard in a county		
		Metro County	Micro County	Rural County
Acute Care Hospital	STAR	2	7	13
	STAR+PLUS	0	5	5

	STAR Kids	0	6	6
Audiologist	STAR	6	9	8
	STAR+PLUS	4	4	5
	STAR Kids	4	4	4
Behavioral Health – Outpatient	STAR	0	1	0
	STAR+PLUS	0	0	0
	STAR Kids	0	1	0
Cardiovascular Disease	STAR	3	5	1
	STAR+PLUS	0	3	0
	STAR Kids	1	6	2
ENT (Otolaryngology)	STAR	0	2	1
	STAR+PLUS	0	1	0
	STAR Kids	0	2	2
Mental Health Targeted Case Management (TCM) and Mental Health Rehabilitative Services (MHR)	STAR	10	13	6
	STAR+PLUS	5	5	4
	STAR Kids	7	9	5
General Surgeon	STAR	0	2	0
	STAR+PLUS	0	0	0
	STAR Kids	0	0	0
Nursing Facility	STAR+PLUS	0	0	0
OB/GYN	STAR	0	0	0
	STAR+PLUS	0	0	0
	STAR Kids	0	0	0
Ophthalmologist	STAR	2	5	1
	STAR+PLUS	0	1	1
	STAR Kids	1	3	2
Orthopedist	STAR	0	4	1
	STAR+PLUS	0	3	1
	STAR Kids	0	3	2
Pediatric Sub-Specialty (*The standard requires access to one provider*)	STAR	0	0	0
	STAR Kids	0	0	0
Prenatal	STAR	0	0	0
	STAR+PLUS	0	0	0
	STAR Kids	0	1	0
Psychiatrist	STAR	2	4	3

	STAR+PLUS	0	3	2
	STAR Kids	2	3	3
Therapy (Occupational, Physical, and Speech)	STAR	0	0	0
	STAR+PLUS	0	0	0
	STAR Kids	0	0	0
Urologist	STAR	0	4	7
	STAR+PLUS	0	3	3
	STAR Kids	0	3	3

*See Attachment H2 for detailed data tables for each MCO.
**HHSC may grant an exception during the corrective action process.

The DMOs met the network access standard of 95% for Main Dentist, excluding Micro counties, in SFY22 Q1. ***Attachment H3*** provides dentist analysis by DMO and county designation.

DMOs did not consistently meet network access standards for dental specialty providers (Orthodontists, Endodontists and Pediatric dentists) for SFY22 Q1. DentaQuest and MCNA met the standards for Pediatric Dental but did not meet the standards for Orthodontists or Endodontists in micro and rural counties. United Healthcare Dental did not meet standards for Endodontists or Orthodontists in all counties and Pediatric Dental in micro counties. The DMOs are on corrective action plans for these issues. ***Attachment H4*** provides dental specialty analysis by provider type and county designation.

In addition to monitoring network adequacy performance of the MCOs related to primary and specialty care, HHSC continues to enhance efforts to monitor long-term services and supports, in particular, community attendant care. As part of the implementation of the Community Attendant Workforce Development Strategic Plan required by the 2020-21 General Appropriations Act, House Bill 1, 86th Legislature, Regular Session, 2019 (Article II, Health and Human Services Commission, Rider 157)[2], HHSC is enhancing provider network adequacy standards for Medicaid MCOs to ensure members have sufficient access to community care attendants. Managed care contracts have been updated to clarify that MCOs must ensure that a minimum of 90% of their members have timely access to community attendant care services upon authorization of services. Timeliness is defined as within seven days from the authorization. HHSC will begin reporting on this in future reports once data is available for the corresponding reporting period.

MCO and DMO Network Adequacy Standard Exceptions

In FY22 Q1, HHSC focused its monitoring efforts on ensuring MCOs and DMOs implement access to care plans and member education initiatives. HHSC utilized this time to resolve data discrepancies and redesign the network adequacy corrective action process to include the exception request process. HHSC requires MCO provider networks to comply with distance or travel time standards in accordance with managed care contract requirements. A Corrective Action Plan (CAP) is required if the MCO/DMO does not meet the performance standards outlined in UMCM 5.28.1 Access to Network Providers - Performance Standards and Specifications in at least one county.

[2] https://www.hhs.texas.gov/sites/default/files/documents/laws-regulations/reports-presentations/2020/rider-157-ca-workforce-dev-strat-plan-nov-2020.pdf

As a part of HHSC's process, MCOs and DMOs may submit an exception request for areas of non-compliance via the network adequacy corrective action process. HHSC approves or denies the exception request based on the review of supporting information that demonstrates an MCO's provider contracting efforts and assurances of access to care. As part of the exception, the MCO must implement strategies to proactively contact and provide education to the impacted members on how to access care by approaches such as providing a list of network providers in the area, providing guidance and a list of network providers offering telehealth and telemedicine services, how to access care outside of the area, how to contact member services and the Member Hotline, what to do in case of an emergency, and how to access non-emergent medical transportation and the MCOs' transportation value-added service, if available. The MCO must ensure continuity of care. If the exception request is denied, the MCO is subject to remedies such as liquidated damages or a corrective action plan.

Member and Provider Hotline Performance

The list below outlines performance standards of MCO and DMO Member and Provider Hotlines. The MCOs and DMOs must have a toll-free hotline that members can call 24 hours a day, 7 days a week. The MCOs are required to meet the following hotline performance standards:

- 99% of calls must be answered by the fourth ring;
- ≤1% busy signal rate for all calls (for behavioral health (BH), no incoming calls receive a busy signal);
- 80% of all calls must be answered by a live person within 30 seconds (not applicable for provider hotlines).
- ≤ 7% call abandonment rate; and
- ≤ 2 minutes average hold time.

Included in ***Attachment M1-M4*** is data from SFY21 Q1-Q4. The average hold time data was not collected for SFY21 Q1 due to system changes in the TexConnect portal. Below is the information for the most recent quarter for which we have final data.

Member Hotline **(STAR/STAR+PLUS - SFY21 Q4)**

- All MCOs met the requirement to answer calls by the fourth ring except for Amerigroup, Cigna-HealthSpring, Community First, Community Health Choice, Cook Children's, Driscoll Children's, El Paso Health, FirstCare, Molina, and Scott & White.
- All MCOs met the 80% standard for answered by a live person within 30 seconds except for Amerigroup, Dell Children's, and United.
- All MCOs met the ≤ 7% abandoned calls standard.

Member Hotline **(STAR Kids – SFY21 Q4)**

- All MCOs met the requirement to answer calls by the fourth ring except for Aetna, BCBS, Community First, Cook Children's, and Driscoll Children's.
- All MCOs met the 80% standard for answered by a live person within 30 seconds except Driscoll Children's.
- All MCOs met the ≤ 7% abandoned calls standard.

Behavioral Health Hotline **(STAR/STAR+PLUS SFY21 Q4)**

- All MCOs met the requirement to answer calls by the fourth ring except for Aetna, Amerigroup, Community First, Community Health Choice, FirstCare, Molina, Texas Children's, and United.

- All MCOs met the 80% standard for answered by a live person within 30 seconds.
- All MCOs met the ≤ 7% abandoned calls standard.

Behavioral Health Hotline **(STAR Kids – SFY21 Q4)**

- All MCOs met the requirement to answer calls by the fourth ring except for Aetna, BCBS, Cook Children's, Superior, Texas Children's, and United.
- All MCOs met the 80% standard for answered by a live person within 30 seconds except United.
- All MCOs met the ≤ 7% abandoned calls standard.

Provider Hotline **(STAR/STAR+PLUS– SFY21 Q4)**

- All MCOs did not meet the requirement to answer calls by the fourth ring except for BCBS, Texas Children's and United.
- All MCOs met the ≤ 7% abandoned calls standard except for Aetna, Cook Children's, El Paso, FirstCare, Molina, and Scott & White.
- All MCOs met the requirement for ≤ 2 minutes average hold time except FirstCare, Molina, and Scott & White.

Provider Hotline **(STAR Kids – SFY21 Q4)**

- All MCOs met the requirement to answer calls by the fourth ring except for Aetna, Amerigroup, and Cook Children's.
- All MCOs met the ≤ 7% abandoned calls standard except for Aetna and Cook Children's.
- All MCOs met the requirement for ≤ 2 minutes average hold time except for Aetna and Cook Children's.

Dental Hotline **(STAR/STAR+PLUS– SFY21 Q4)**

- DentaQuest met the ≤ 7% abandoned calls standard for member hotline but not the provider hotline standard. DentaQuest did not meet the average hold time standard or the requirement to answer calls by the fourth ring for both member and provider. DentaQuest also met the 80% standard for answering by a live person within 30 seconds for member hotline but not for provider hotlines.
- MCNA met the ≤ 7% abandoned calls and average hold time standard for provider hotlines but not for member hotlines and did not meet the requirement to answer calls by the fourth ring for both member and provider hotlines. MCNA did not meet the 80% standard for answering by a live person within 30 seconds for member hotlines.
- United Dental met the ≤ 7% abandoned calls and average hold time standard, the requirement to answer calls by the fourth ring, and the 80% standard for answering by a live person within 30 seconds for both provider and member hotlines.

MCOs that have identified instances of non-compliance are reviewed quarterly for remedies as stated in the contract that include but are not limited to corrective action plans and liquidated damages assessments.

Provider Open Panel

MCOs submit provider files identifying the number of PCPs and main dentists who are accepting new Medicaid patients, which are described here as "open panel" PCPs and "open practice" dentists. HHSC monitors PCPs with "open panel" at an 80% benchmark.

Quarterly healthcare provider counts per quarter are reported on a one-quarter lag. In SFY21 Q4, all MCOs and DMOs, except Cook Children's in STAR (71%) and STAR Kids (70%) met the 80% benchmark. However, HHSC has not identified access to care concerns, issues, or complaints. The PCPs provide services to a certain number of Medicaid clients as well as other clients not enrolled in these programs. In addition, Cook Children's has the flexibility of working with certain PCPs who have a closed panel to agree to take on new members normally achieved on a case-by-case basis. This arrangement has allowed Cook Children's to maintain these providers in the network. Based on these justifications, HHSC is not pursuing remedial action against Cook Children's.

Appointment Availability

HHSC conducts appointment availability studies to assess how quickly members get in-person appointments. The next primary care provider study will be conducted in February of SFY22.

Accessibility and Language Compliance

MCOs submit provider's language and accessibility survey results by program and SDA on an annual basis. HHSC requires MCOs to make best efforts to ensure that PCPs are accessible 24 hours per day, 7 days a week and outlines specific criteria for what constitute compliance with the managed care contracts. For example, providers must offer after-hours telephone availability through an answering service, recorded messages with contact information for on-call PCP, or call forwarding routing the caller to the on-call PCP or an alternate provider.

Each MCO is also required to systematically and regularly verify that covered services furnished by PCPs meet the 24/7 access criteria and enforce access standards in non-compliance. MCOs survey providers on a quarterly, semiannual, or annual basis to assess compliance for 24/7 and after-hours provider accessibility. MCOs utilize methods including computer-assisted telephone interviews, telephone surveys (non-computerized), mailed surveys, monthly secret shopper calls, and face-to-face provider visits to measure provider accessibility compliance with the HHSC contractual standards. Provider compliance rates for 24/7 accessibility ranged from 30% to 100%. Providers who are not in compliance with 24/7 accessibility standards receive phone calls or letters from the MCOs detailing the requirements and are subject to remediation methods including mailed provider re-education letters regarding the managed care contractual standards, follow-up surveys, face-to-face re-education (e.g., evaluating/coaching provider staff, training) and unscheduled calls to providers to reassess compliance. MCOs employ contractual remedies for the provider until compliance is achieved or the provider contract is terminated.

MCOs submitted the provider's language and accessibility survey results by program and SDA in December of 2021 for SFY21. Program provider compliance results are outlined below. This is an annual deliverable which we include in the following fiscal year's Q1 report.

Count of Standard Met - Accessibility										
Program/Quarter	**SFQ1**		**SFQ2**		**SFQ3**		**SFQ4**		**Total Surveyed**	**Total Compliant**
	No	Yes	No	Yes	No	Yes	No	Yes		
STAR	3	5	2	30	13	3	17	10	83	48
STAR Kids	1	6		6	3	5	3	12	36	29

Count of Standard Met - Accessibility										
STAR+PLUS	3		1	7	7		3	3	24	10

Percentage Accessibility Compliance					
Program	**SFQ1**	**SFQ2**	**SFQ3**	**SFQ4**	**Annual**
STAR	63%	94%	19%	38%	58%
STAR Kids	86%	100%	63%	80%	81%
STAR+PLUS	0%	88%	0%	50%	42%

Count of Standard Met - Language										
Program/Quarter	**SFQ1**		**SFQ2**		**SFQ3**		**SFQ4**		**Total Surveyed**	**Total Compliant**
	No	Yes	No	Yes	No	Yes	No	Yes		
STAR	5	3	3	29	13	3	23	4	83	39
STAR Kids	2	5	1	5	4	4	10	5	36	19
STAR+PLUS	3		1	7	7		6		24	7

Percentage Accessibility Compliance					
Program	**SFQ1**	**SFQ2**	**SFQ3**	**SFQ4**	**Annual**
STAR	38%	91%	19%	15%	47%
STAR Kids	71%	83%	50%	33%	53%
STAR+PLUS	0%	88%	0%	0%	29%

Out-of-Network (OON) Utilization

MCOs are required to submit the OON Utilization Report for each service delivery area (SDA) in which the MCO operates. In each SDA, the OON utilization should not exceed the following standards:

- 15% of inpatient hospital admissions
- 20% of emergency room (ER) visits
- 20% of total dollars billed for other outpatient services

HHSC continues to work closely with MCOs to ensure compliance with the OON utilization standards. MCOs may submit a Special Exception Request Template (SERT) for areas of non-compliance. HHSC approves or denies the SERT based on the review of supporting information that demonstrates the MCO was unsuccessful in provider contracting efforts. If approved, the MCO submits a recalculated Out-of-Network Utilization Report, excluding the utilization of the aforementioned provider(s). If the recalculation does not bring the MCO into compliance, the MCO remains out of compliance and is subject to contract action such as assessing liquidated damages or implementing a corrective action plan.

Attachment D provides OON utilization performance summary for SFY21 Q4. Because of the time required for data collection, OON utilization counts are reported on a one-quarter lag. The MCOs listed below exceeded OON utilization standards in SFY21 Q4 and have a SERT in place or are finalizing a SERT bringing the MCOs into compliance. The State will continue to monitor these MCOs and will require corrective action or other remedies as appropriate.

OON Emergency Room (ER) (<20% Standard)

- STAR
  - CHC – SERT on file for SFY21 Q4
  - Dell Children's – No SERT on file
  - Parkland – SERT on file for SFY21 Q4

OON Inpatient (<15% Standard)

- STAR
  - CHC – SERT on file for SFY21 Q4

Oversight of MCOs and DMOs

HHSC staff routinely evaluate MCO and DMO data reported by the MCOs and DMOs and compiled by HHSC. If an MCO or DMO fails to meet a performance expectation, standard, schedule, or other contract requirement such as the timely submission of deliverables, the managed care contract gives HHSC the authority to use a variety of remedies, including:

1. Developing corrective action plans (CAPs).
2. Assessing monetary damages (actual, consequential, direct, indirect, special, and/or liquidated damages (LDs).

The information reflected in this report represents the most current information available at the time it was compiled. The sanction process between HHSC and the health and dental plans may not be complete at the time the report is submitted to the Centers for Medicare and Medicaid Services (CMS). HHSC posts the final details of any potential enforcement actions taken against a health or dental plan each quarter on the following website: https://hhs.texas.gov/services/health/medicaid-chip/provider-information/managed-care-organization-sanctions.

Texas Medicaid launched a new process for tracking CAPs. As of September 2021, HHSC has transitioned to direct entry into the TexConnect Portal for tracking of CAPs. As actions are taken by HHSC to submit, approve, close or withdraw a CAP, letters are auto generated and sent directly to the MCO. Direct entry and visibility allow for transparency between HHSC and the managed care organizations.

5. Waiver Amendments and Upcoming Managed Care Initiatives

Waiver Amendments

The following amendments have been submitted to CMS.

Autism Services

Senate Bill 1, Article II, (Health and Human Services Commission) Rider 28, 87th Legislature, Regular Session, 2021 authorized the implementation of Applied Behavioral Analysis (ABA) services for the evaluation and treatment of eligible children/youth with autism under the Texas Medicaid program. HHSC has submitted a State plan amendment and an amendment to the 1115 Transformation waiver related to the coverage of certain early and periodic screening, diagnostic, and treatment (EPSDT) services for children and youth with a diagnosis of autism spectrum disorder (ASD). The State plan amendment was approved on 1/28/2022 with an effective date of February 1, 2022. The 1115 Transformation waiver amendment included provisions for service delivery through Medicaid managed care organizations (MCOs) with non-risk payments outside of the capitation payments.

On January 11, 2022, via email, CMS indicated, "An amendment to the 1115 Transformation waiver is not needed to make ABA payments using a non-risk methodology. This non-risk payment arrangement would be operationalized through the states Managed Care Plan (MCP) contract(s) and this guidance is applicable to MCOs." CMS confirmed this approach complies with federal regulations. Based on this direction from CMS, HHSC requested the withdrawal of amendment 19, effective immediately.

Medically Fragile

House Bill (H.B.) 4533, SECTION 32, 86th Legislature, Regular Session, 2019 required HHSC to pursue a benefit for medically fragile individuals. If determined to be cost effective, the legislation directed Health and Human Services Commission (HHSC) to submit an amendment to add this benefit to the 1115 Transformation waiver under the STAR+PLUS Home and Community Based Services (HCBS) program. HHSC submitted this amendment to CMS originally on September 1, 2020. After the original submission, CMS indicated the packet was not complete and HHSC was required to resubmit the packet to CMS. The second submission of the packet was on February 22, 2021. HHSC and CMS continue to discuss the amendment.

Preferred Drug List (PDL) Prior Authorizations (PA)

Senate Bill 1096, 86th Legislature, Regular Session, 2019 (S.B. 1096) directed HHSC to exempt STAR Kids members from all preferred drug list (PDL) prior authorizations (PAs) to meet the requirements of Section 533.005, Government Code (a)(23)(L), as added by S.B. 1096.

Specifically, S.B. 1096 removes all the PDL PAs for all members of the STAR Kids program except those PAs based on evidence-based clinical criteria and nationally recognized peer-reviewed information and those PAs designed to minimize waste, fraud, or abuse. To implement S.B. 1096, HHSC submitted a waiver amendment to propose waiving requirements in 42 C.F.R. §440.240, related to comparability of

services for groups, to apply the PDL PA exemption to the STAR Kids program only. This amendment will not result in any changes to the formulary. This amendment, if approved, will give a member the opportunity to be prescribed any drug whether the drug has preferred or non-preferred status, although a member will not have access to drugs not covered by Medicaid. HHSC and CMS continue to discuss the amendment.

HHSC anticipates submitting the following amendments in the future.

Maternal and Child Health

House Bill 133, 87th Legislature, Regular Session, 2021 (H.B. 133) directs HHSC to:

- Transition targeted case management services for children and pregnant women to Medicaid managed care;
- Transition Healthy Texas Women (HTW) program services, funded through the HTW 1115 waiver[3], to managed care; and
- Seek federal approval to extend Medicaid coverage to six months postpartum for women who deliver or experience an involuntary miscarriage.

HHSC plans to request amendments to the THTQIP 1115 waiver in SFY22 to:

- Transition the case management services for children and women.
- Extend Medicaid for Pregnant Women postpartum eligibility for certain women.

Long-Term Services and Supports for Individuals with Intellectual and Developmental Disabilities (IDD) Transition

HHSC continues work toward implementation of with House Bill (HB) 4533 (86th Legislature, Regular Session, 2019), which amends Texas Government Code, Chapter 534 and directs HHSC to develop and implement a pilot program through the STAR+PLUS Medicaid managed care program to test person-centered managed care strategies and improvements under a capitated model. The pilot program will inform the future carve-in of waivers and community intermediate care facilities programs to a Medicaid managed care model, or system redesign, beginning with Texas Home Living in 2027. The pilot program will serve individuals with intellectual and developmental disabilities (IDD), traumatic brain injury, and people with similar functional needs. The pilot program will operate in one service delivery area selected by HHSC with up to two STAR+PLUS Medicaid managed care plans. The pilot program will implement September 1, 2023 and operate for at least 24 months. HHSC submitted a draft amendment to begin working with CMS to develop the proposal.

The Intellectual and Developmental Disabilities (IDD) System Redesign Advisory Committee (SRAC) and the Pilot Program Workgroup continue to meet and submit recommendations to aid in the development of the pilot program. The Pilot Program Workgroup and SRAC are having joint meetings to focus on the pilot.

Initiatives

Compliance with Home and Community-Based Services (HCBS) Settings Regulations

Texas continues efforts to comply with the federal HCBS settings regulations issued by CMS in March 2014. Compliance efforts include revising State rules and policies and conducting heightened scrutiny assessments on all STAR+PLUS HCBS assisted living facility settings. HHSC is also revising managed care contracts to require managed care organizations to ensure their contracted providers comply with the HCBS settings regulations. Before the final compliance deadline of March 2023, HHSC plans to replace its current day habilitation service with a new, fully compliant service called individualized skills and socialization in the Home and Community-based Services, Texas Home Living, and Deaf Blind with Multiple Disabilities 1915(c) waiver programs. HHSC is also amending the Texas Statewide Transition Plan for re-submission to CMS. The Statewide Transition Plan will be posted for a 30-day public comment period starting in March 2022.

Community Attendant Workforce Development Strategic Plan

The Community Attendant Workforce Development Strategic Plan was submitted to the legislature and Governor's office pursuant to legislative direction in 2019. The plan contains strategies related to recruiting and retaining community attendants and ensuring Medicaid recipients have adequate access to services. More specifically, the plan includes information and data about the community attendant workforce in Texas; feedback collected from stakeholders during a cross-agency forum and an online survey; and HHSC's long-term goals and recommendations for addressing challenges faced by individuals receiving community attendant care, as well as providers.

HHSC is currently working to implement the strategies identified in the strategic plan and explore stakeholder recommendations. Some of these strategies that relate directly to the waiver include:

- Dedicate resources at HHSC to coordinate and support a Workforce Development Taskforce.
    - HHSC identified the newly established Office of Disability Services Coordination as the dedicated resource to launch, support, and manage a taskforce. The Direct Service Workforce Development Taskforce (DSW Taskforce), launched in March 2021, is a collaborative workgroup whose purpose is to explore long-term recruitment and retention (non-wage based) strategies, which were proposed by stakeholders, within the community attendant, personal care attendant and direct service workforce. The DSW Taskforce provided input into the THTQIP 1115 Waiver application, HHSC's spending plan in response to the American Rescue Plan Act of 2021 Section 9817 which provides States with a temporary ten percent point increase to the federal medical assistance percentage for Medicaid HCBS, and the project plan to explore recruitment and retention (non-wage based) strategies. The project plan has two main goals—enhance workforce development and improve data collection—and 13 objectives each with numerous research and data activities within a three state-fiscal-year project period. Two of the objectives are already complete. During Q1 specifically, HHSC is exploring the use of a web-based job matching and training software that would allow providers and home health agencies recruit and hire attendant applicants within their local areas. HHSC is also continuing to partner with the Texas Workforce Commission to determine if search

count and job placement data is available for attendant-like positions through the WorkInTexas,com job matching site.

- Add network adequacy measures for community attendants to the Medicaid managed care contracts.
    - HHSC is enhancing provider network adequacy standards for Medicaid MCOs to ensure members have sufficient access to community care attendants. Managed care contracts have been updated to clarify that MCOs must ensure that a minimum of 90% of their members have timely access to community attendant care services upon authorization of services. HHSC continues to explore improvements in this area.

6. Demonstration-related Appeals and Complaints

Complaints Received by the State and MCOs

In summer 2018, HHSC began a cross-divisional effort to revise and improve the tracking and trending of managed care complaints data. This effort resulted in the following:

- New HHSC complaint routing and resolution processes to improve consistency,
- New reporting requirements for MCO and DMO self-reported data, including changes to definitions and categories, and
- A more complete picture of emerging trends by compiling the complaints received through multiple divisions within HHSC and through the MCOs and DMOs into one report.

Prior to March 2019, all managed care member complaints were received and researched by Managed Care Compliance and Operations (MCCO), however as part of the restructuring of complaint processes, HHSC's Office of the Ombudsman (OOO) began handling managed care member complaints. The OOO works with the member and the MCO to address the complaint and coordinate any needed services. However, if a resolution cannot be reached, OOO collaborates with MCCO through complaint resolution.

The State monitors complaints received by the Office of the Ombudsman Managed Care Assistance Team (OMCAT) and HHSC Managed Care Compliance and Operations (MCCO). The MCOs and DMOs are required to track and monitor the number of member complaints and appeals and provider complaints received, to ensure resolution occurs within 30 days of receipt. A 98% compliance standard is required.

Attachment O includes complaints data compiled from both MCOs/DMOs and HHSC for members and providers. The reports in ***Attachment O*** reflect SFY2021 Q3 and Q4. Subsequent monitoring reports will continue to be reported on a two-quarter lag. Complaint data are displayed by the following:

- Top five most frequent types of complaints overall, separately for members and providers, by program, and by MCO/DMO.
- Outcome status by program and by MCO/DMO.
- Distribution of complaints and enrollment by MCO/DMO.
- Overall quarterly rate of complaints by MCO/DMO, including previous six quarters (as the data becomes available).

Generally, the total number of complaints submitted is small relative to the total number of individuals enrolled in Medicaid per month. Complaint data are expressed in number of complaints per 10,000 clients (otherwise referred to as rate). Complaint volumes may vary based on MCO/DMO size, program (e.g., STAR versus STAR+PLUS) and complexity of population served.

Member Appeals

Attachment N provides a performance summary of member appeals for all of SFY21 and Q1-Q4. For SFY21 Q4 STAR MCOs collectively reported 2,132 member appeals resolved. STAR+PLUS MCOs reported 2,648 and STAR Kids MCOs reported 1,217 member appeals resolved. DMOs collectively reported 418 member appeals resolved.

Member Appeal reports are submitted on a monthly basis. Some MOCs met the compliance standard for one or more months; however, some did not meet the 98% compliance standard for 30-day appeals resolved timely for all three months reported in SFY21 Q4. First Care, CHC and Cigna are currently on a CAP for non-compliance related to member appeals. Identified instances of non-compliance are reviewed quarterly for remedies, as stated in the contract, that include but are not limited to, corrective action plans and liquidated damages assessments.

Provider Fraud and Abuse

MCOs and DMOs are required to send referrals regarding Medicaid waste, abuse, or fraud to the HHSC Office of Inspector General (OIG). Please see ***Attachments R1 and R2*** for MCO and DMO provider referral details. These attachments include the total number of referrals received and the allegation category.

Claims Summary Reports

The MCOs and DMOs submit monthly claims summary reports (CSR) to HHSC for the following services: acute care, behavioral health (BH), vision services, pharmacy claims, and long-term services and supports (LTSS). The standards for the clean claims and appealed claims follow:

- appealed claims adjudicated within 30 days: >98%
- clean claims adjudicated within 30 days: >98%
- clean claims adjudicated within 90 days: >99%
- clean electronic claims adjudicated within 18 Days: >98%
- clean non-electronic (paper) claims adjudicated within 21 Days: >98%

Claims summary counts are reported on a one-quarter lag. ***Attachment V1*** provides a claims summary for the STAR program. ***Attachment_V2*** provides claims summary for the STAR+PLUS program. ***Attachment V3*** provides a claims summary for the Dental program. ***Attachment V4*** provides a claims summary for the STAR Kids program.

Fair Hearings

The Fair and Fraud Hearings Department (FFH) of the Appeals Division of the Texas Health and Human Services (HHSC) receives appeal requests from applicants and clients contesting actions taken regarding benefits and services for various programs. Fair Hearings Officers conduct fair hearings and administrative disqualification hearings statewide for 169 eligibility programs within HHSC, including the waiver programs.

In the first quarter of FY22, FFH received 657 fair hearing requests for the waiver programs (40 for the STAR program, 126 for the STAR Kids program and 491 for the STAR+PLUS program). Of the 657 fair hearing requests, 121 were withdrawn by the Appellant, 204 were dismissed, 177 were upheld, and 27 were reversed by the presiding Fair Hearings Officer; 128 decisions are pending final resolution. The COVID-19 pandemic continues to influence the number of fair hearings for the 1115 waiver programs.

6.1 Anticipated Changes to Appeals

HHSC plans to implement an External Medical Review (EMR) option, to be performed by an Independent Review Organization (IRO) in May 2022. The EMR is an option for a Member to request further review of the MCO's adverse benefit determination. The EMR will take place between the MCO internal appeal process and the State Fair Hearings. The IRO will not consider new evidence that was not presented to the MCO but can do so at a Fair Hearing. The MCO will have to provide the IRO the same set of records the MCO reviewed to determine service denial. EMRs will be conducted by IROs contracted with HHSC. The role of the IRO is to act as an objective arbiter and decide whether the MCO's original adverse benefit determination must be reversed or affirmed.

7. Quality

HHSC received initial MCO quality measure results in October 2021 for measurement year 2020 and HHSC is assessing the impact of the PHE on those results. Full 2020 results will be posted to the Texas Healthcare Learning Collaborative Portal (thlcportal.com) when finalized. The results will help inform HHSC decisions about its quality improvement programs for measurement years 2021 and 2022.

The EQRO completes many required and optional quality review activities for HHSC each year. HHSC publishes an annual summary of EQRO activities that includes their key findings and recommendations. The most recent report is the *External Quality Review of Texas Medicaid and CHIP Managed Care Summary of Activities for SFY 2020*. The SFY 2021 report will be published by April 30, 2022.

8. HCBS Quality Assurance Reporting

This update will be provided in the next annual report.

9. State Directed Payment Programs

On November 15, 2021, CMS approved two state directed payment programs retroactive to September 1, 2021:

1. Directed Payment Program for Behavioral Health Services (DPP for BHS) and
2. Quality Improvement Payment Program (QIPP).

The state is working with our MCOs to successfully implement these programs. Three state directed payment programs remain pending before CMS:

1. Comprehensive Hospital Increased Reimbursement Program (CHIRP),
2. Texas Incentives for Physicians and Professional Services (TIPPS), and
3. Rural Access to Primary and Preventive Services Program (RAPPS).

Pursuant to STCs 29 – 34, the state continues to meet with CMS every two days to discuss modifications requested by CMS.

10. Financial/Budget Neutrality

This section addresses the quarterly reporting requirements regarding financial and budget neutrality development and issues. The budget neutrality workbook is on a one-quarter lag (see ***Attachment P***) and provides forecasting data for SFY21 Q4. Information on eligibility groups in budget neutrality calculations will be provided next quarter.

10.1 Anticipated Changes to Financial/Budget Neutrality

Texas and CMS negotiated and agreed to specific budget neutrality terms included in the January 2021 approval. These terms set forth a base year of fiscal year 2022 to be used in the first rebasing exercise. These terms identified adjustments for the base year and projected expenditures in Attachment U, inclusive of the proposed state directed payment programs as a part of the DSRIP transition. The waiver contemplated DSRIP ending September 30, 2021, and the transition to State directed payment programs starting September 1, 2021.

As such, Texas Medicaid expenditures in FY 2022, the base year, will set the annual expenditure limit for the remainder of the 10-year waiver term. Without the pending state directed payment programs contemplated in the waiver, the budget neutrality expenditures will be significantly reduced in FY22 and each year thereafter, inhibiting HHSC from sustaining provider payments going forward.

Budget neutrality could be impacted by waiver amendments, and in accordance with the adjustments set forth in STC 62.

11. Demonstration Operations and Policy

Medicaid Managed Care

The goals of the Texas Healthcare Transformation and Quality Improvement Program are to:

- Expand risk-based managed care to new populations and services;
- Support the development and maintenance of a coordinated care delivery system;
- Improve outcomes while containing cost growth; and
- Transition to quality-based payment systems across managed care and providers.

Texas Health and Human Services Commission provides coverage to approximately 5 million Texans under our managed care programs.

HHSC and the Medicaid MCOs achieved the following Medicaid Managed Care (MMC) milestones in SFY22 Q1, including:

- Worked with MCOs toward February 2022 implementation of the new Autism Services Policy for children under 21 with autism spectrum disorder
- Launched a new provider enrollment and management system in December 2021

Challenges successfully navigated during SFY22 Q1 include:

- Continue to implement a wide range of COVID-19 PHE member and provider flexibilities, including but not limited to teleservices, to ensure member health and safety and continuity of care while planning for the end of the PHE
- Updated claims systems and prepared for the state directed payment program implementation

Upcoming major initiatives and activities that support the waiver goals include:

- Implementing revisions to the STAR Kids Screening and Assessment Instrument to improve initial and reassessment processes, as directed by Senate Bill (SB) 1207, 86th Texas Legislature, Regular Session. The initiative is intended to reduce the amount of time needed to complete the assessment, improve training and consistency in completion of the assessment, and streamline the annual reassessment process for a child who has not had a significant change in function that may affect medical necessity.
- Implementation of an external independent review organization process
- Allowing MCOs to provide more care coordination services using telecommunications or information technology
- Expanding Medicaid coverage for women six months after delivery
- Including Healthy Texas Women and Case Management for Children and Pregnant Women in managed care
- Full compliance with the home and community-based settings regulations
- Implementation of the STAR+PLUS Pilot Program
- Implement a policy change to better serve medically fragile adults

Procurement Activities

HHSC has created a plan to procure new contracts for STAR+PLUS, STAR, and STAR Kids according to the estimated timeline below.

STAR+PLUS

- Request for Proposals (RFP) Posting: Q2 FY2022
- Estimated Notice of Award: Q1 FY2023
- Start of Operations: Q1 FY2024

STAR

- RFP Posting: Q1 FY2023
- Estimated Notice of Award: Q3 FY2023
- Start of Operations: Q4 FY2024

STAR Kids

- RFP Posting: Q3 FY2023
- Estimated Notice of Award: Q1 FY2024
- Start of Operations: Q2 FY2025

Extension Application

Texas submitted an extension application of the 1115 THTQIP waiver on November 30, 2020. CMS approved this extension application on January 15, 2021. Difficulties operating the 1115 Transformation waiver emerged with the letter from CMS purporting to rescind their January 15, 2021, approval letter. The Texas 1115 Transformation waiver provides the authority under which most of Medicaid manage care is authorized. Without the terms previously negotiated and agreed to, Medicaid managed care, state directed payment programs within Medicaid managed care, supplemental payments made possible through managed care savings, and various initiatives aimed at continuous improvement of the program are at risk. The General Appropriations Act for the 2022-2023 biennium, 87th Legislature, Regular Session, 2021 (Article II, HHSC Rider 37) expressed the Legislature's intent that HHSC should seek a renewal or extension of the current Section 1115 THTQIP waiver from CMS. Texas sought legal redress and submitted another extension application on July 14, 2021.

A federal court has issued a preliminary injunction against the rescission letter and set forth clarifying orders by which HHSC and CMS are to comply with the January 15, 2021 Special Terms and Conditions.

12. Litigation Summary

Consideration 1:

Type of Consideration	*Ongoing litigation*
Summary of Consideration	*Frew, et al. v. Young, et al.* (commonly referred to as *Frew*), was filed in 1993, and was brought on behalf of children under age 21 enrolled in Medicaid and eligible for Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefits. The class action lawsuit alleged that the Texas EPSDT program did not meet the requirements of the Federal Medicaid Act. The lawsuit was settled by a consent decree in 1996. The decree requires numerous State obligations and is monitored by the Court. In 2000, the court found the State defendants in violation of several of the decree's paragraphs. In 2007, the parties agreed to eleven corrective action orders to bring the State into compliance with the consent decree and to increase access to EPSDT benefits. Currently, four of the eleven corrective action orders and their related consent decree paragraphs are fully dismissed: (1) Check-Up Reports and Plans for Lagging Counties, (2) Prescription and Non-Prescription Medications, Medical Equipment, and Supplies, (3) Transportation Program, and (4) Health Care Provider Training. In 2014, the parties jointly agreed to vacate most of the Toll-Free Numbers corrective action order, and the related consent decree paragraphs. One toll-free number remains under the corrective action order and court monitoring. Another corrective action order was dismissed in December 2020 and is currently on appeal to the Fifth Circuit: Outreach and Informing, along with Part III of corrective action order: Managed Care.
Date and Report in Which Consideration Was First Reported	The lawsuit was filed on September 1, 1993. The consent decree was entered on February 20, 1996. The eleven corrective action orders were entered on April 27, 2007.
Summary of Impact	The consent decree and corrective action orders touch upon many program areas, and generally require the State to take actions intended to ensure access, or measure access, to Medicaid services for children. The Texas Medicaid program must consider these obligations in many policy and program decisions for Medicaid services available for persons under age 21.

Estimated Number of Beneficiaries	Estimated (as of June 2021) at 3,777,471.
If Issue, Remediation Plan and Timeline for Resolution / Updates in Status if Previously Reported.	HHSC and DSHS will continue to follow the obligations in the remaining portions of the consent decree and corrective action orders until they are dismissed by the court.

13. Evaluation

HHSC completed the following 1115 Waiver evaluation activities during FFY22 Q1:

- HHSC met with CMS on October 28, 2021 to review CMS feedback of Revision 5.1 of the 1115 Evaluation Design covering DYs 7-11. HHSC submitted Revision 5.2 of the 1115 Evaluation Design covering DYs 7-11 to CMS on November 17, 2021.
- CMS provided feedback on the Interim Evaluation Report conducted by Texas A&M University (TAMU; submitted September 29, 2021 in accordance with the December 2017 STCs) on December 6, 2021. HHSC analysts met with TAMU on December 13, 2021 to discuss CMS considerations. HHSC analysts summarized TAMU's initial reaction on the feedback to CMS during a call on December 15, 2021. HHSC will submit the revised Interim Evaluation Report to CMS by February 4, 2022.
- HHSC analysts met with TAMU on October 7, 2021, October 28,2021, and December 13, 2021 to discuss plans for the Interim Evaluation Report #1 (due on March 31, 2024 in accordance with the January 2021 STCs). HHSC also attended a Quarterly Meeting with TAMU on November 30, 2021 to discuss overall progress on the evaluation.
- CMS provided considerations for the Interim Evaluation Report #1 (due on March 31, 2024) to HHSC on December 6, 2021. HHSC analysts shared CMS feedback with TAMU on December 13, 2021.
- CMS provided feedback on the 1115 Evaluation Design covering DYs 10-19 (January 2021 STCs) on December 6, 2021. HHSC analysts met with CMS on December 15, 2021 and December 21, 2021 to discuss CMS feedback. CMS approved an extension for the evaluation design on December 15, 2021; HHSC will continue meeting with CMS as needed in FFY22 Q2, and submit Revision 2.1 of the 1115 Evaluation Design covering DYs 10-19 to CMS by February 28, 2022.

Modifications to the Evaluation Design
HHSC submitted Revision 5.2 of the 1115 Evaluation Design covering DYs 7-11 to CMS on November 17, 2021. Revision 5.2 includes a reference CMS requested for measure for Measure 1.1.5. No other changes to the 1115 Evaluation Design covering DYs 7-11 or the 1115 Evaluation Design covering DYs 10-19 were requested during FFY22 Q1.

Description of Evaluation Findings or Reports
HHSC submitted the Interim Report from TAMU to CMS on September 29, 2021. Key takeaways from the Interim Report were described in the Annual Monitoring Report for DY 10.

Type of Evaluation Deliverable	Due Date	State Notes or Comments	Description of Any Anticipated Issues
Procurement of Independent External Evaluator	9/1/2019	The contract with TAMU has been executed for fulfillment of 2017 STCs. Procurement for 2021 STCs pending CMS approval of Evaluation Design.	*No issues anticipated at this time*
Interim Evaluation Report (2017 STCs)	9/30/2021	Initial draft submitted to CMS on 9/24/2021; Revision submitted to CMS on 2/4/2022	*No issues anticipated at this time*
Evaluation Design Plan (2021 STCs)	7/14/2021	Initial draft submitted to CMS on 7/14/2021; Revision submitted to CMS on 2/28/2022	*No issues anticipated at this time*
Interim Evaluation Reports (2021 STCs)	3/31/2024; 3/31/2027; 9/30/2029		*No issues anticipated at this time*
Summative Evaluation Report (2021 STCs)	3/30/2032		*No issues anticipated at this time*

14. Delivery System Reform Incentive Payment Program

The DSRIP Program evolved from project-level reporting in DY1-6 to provider-level outcome reporting in DY7-10 to measure the continued transformation of the Texas healthcare system. DSRIP providers report on required categories at the provider system level, rather than the project level. DY7-10 is an opportunity to advance sustainability of providers' transformed systems, including development of alternative payment models (APMs) to continue services for Medicaid and low-income or uninsured (MLIU) individuals. Regional Healthcare Partnerships (RHP) updated their RHP Plans during DY9 Q1, which HHSC reviewed and approved. The plan updates provided an opportunity to reassess regional efforts toward a coordinated care delivery system. The plan updates also allowed providers to update their outcome measures selection and activities for reporting during DY9-10. Providers choose the focus areas of initiatives that drive system transformation and improve quality of services and health outcomes for individuals served.

October DY10 Reporting Payments

Providers reported achievement of DY10 Category B MLIU patients served, DY9 and DY10 Category C measures, and DY10 Category D measures in October 2021. In total for October DY10 reporting, $406,878,538 was approved to be paid to DSRIP providers in January 2022, dependent on available Intergovernmental Transfer (IGT), for a potential total of $22.7 billion in DY1-10 DSRIP payments to date. ***Attachment W*** includes reported achievement and approved payments by Category and anchor reporting of DY10 progress. ***Attachment X*** includes DSRIP providers' overall status for April DY10 reporting.

COVID-19 Accommodations
In light of the significant impact of the COVID-19 PHE, HHSC and CMS agreed on flexibility for reporting and demonstrating achievement on certain reporting requirements for DY9 and DY10. The totals above reflect providers' use of the approved flexibilities. CMS approved a COVID-19 accommodation for Category B including:

- Broadening the definition of an encounter to include patient telephone calls for DY9-10.
- Allowing HHSC to adjust allowable variation across all providers.

Providers who reported in October DY10 saw an average increase in Category B MLIU volume of 7.7% over their DY8 Category B MLIU volume which in part may be attributable to broadening the definition of an encounter for DY10. The DY10 accommodations allowed providers to earn $5.4 million more in Category B than if there had been no accommodations. A remaining 23 providers will complete reporting on their Category B MLIU volume during the October DY10 additional reporting period or April DY11 reporting period.

CMS approved a COVID-19 accommodation for DY9-10 Category C including:

- Earning payment for DY9 or DY10 achievement milestones based on the higher of a provider's approved DY8 achievement, the statewide average approved DY8 achievement per measure or measure bundle, DY9 achievement in calendar year (CY) 2020 or CY2021 for DY9 achievement milestones, or DY10 achievement in CY2021 for DY10 achievement milestones.

- Using the average approved DY8 achievement per bundle measure as the minimum payment for a provider's DY9 or DY10 achievement milestone for measures that have been selected by 10 or fewer providers.
- Requiring providers to report CY2020 and CY2021 data to be eligible for payment on the Category C achievement milestones.

Providers may use the DY9 Category C accommodation during April or October DY10 reporting and the DY10 Category C accommodation during April or October DY11 reporting.

October DY10 Category C Reporting

In October DY10, 259 Category C measures were eligible to report Performance Year 3 (PY3, which is 01/01/20 – 12/31/20) to potentially earn payment for remaining DY9 reporting and achievement milestones.

Of the 112 achievement milestones (pay-for-performance) that were approved for Performance Year (PY) 3 (CY2020) reporting in October 2021, 37 (or 33%) used the approved COVID-19 accommodations to earn payments. Providers earned $12,175,692 in payments that they would not have earned without the approved COVID-19 accommodations.

Overall, 87.37% of measures were reported in October 2021 as fully achieving the DY9 goal in PY3, and an additional 12.62% of measures reported partially achieving the DY9 goal in PY3.

Providers may carryforward remaining DY9 achievement milestones to April DY11 (April 2022). DY10 reporting and achievement milestones will begin reporting in April DY11. DSRIP continues to provide technical assistance to correct Category C reported baselines and performance.

The table below provides a summary of reported DY9 achievement by measure type across April and October DY10 reporting and ***Attachment Z*** includes all Category C reporting and summaries by measure, Measure Bundle, provider type, measure type, and region.

Measure Type	P4P Measures Active in DY9-10	P4P Measures that have reported PY3 (CY20) in DY10	P4P 100% of AM-9.x Goal Achieved in PY3	P4P Partial Achievement of AM-9.x Goal in PY3
Cancer Screening	114	94.74%	81.48%	18.52%
Clinical Outcome	511	98.04%	76.45%	23.55%
Hospital Safety	236	97.88%	67.10%	32.90%
Immunization	252	98.41%	82.66%	17.34%
Population Based Clinical Outcome	111	100.00%	72.97%	22.52%
Process	1366	97.88%	88.03%	11.97%
Quality of Life	19	100.00%	100.00%	0.00%
All Measures	2625	98.7%	82.54%	17.27%

DSRIP Transition Plan Update

HHSC submitted all deliverables for eight milestones as required under the Transition Plan to CMS in FFY2021 and continued to work on implementation of that plan in Q1:

- Report on analysis of Demonstration Year (DY) 7-8 DSRIP quality data and related core activities was submitted in December 2020.
- Proposals for new programs, including state-directed payment programs, to sustain key DSRIP initiative areas in DY 11 were submitted in December 2020.
- Updated Texas Medicaid Managed Care Quality Strategy, updated Value-Based Payment (VBP) Roadmap, and report of Managed Care Organizations' Alternative Payment Model achievement were submitted in March 2021.
- Assessment of Social Factors Associated with Health Outcomes in Texas Medicaid was submitted in March 2021.
- Assessment of financial incentives for alternative payment models and quality improvement cost guidance was submitted in June 2021.
- Assessment of Texas Medicaid rural teleservices was submitted in June 2021.
- Report on options for RHP structure post-DSRIP was submitted in June 2021.
- Proposals for additional new programs, including potential new Medicaid benefits, to sustain key DSRIP initiative areas beginning in FFY23 were submitted in September 2021.

As part of DSRIP transition, HHSC submitted preprints for four new directed payment programs (DPPs) proposed to begin in September 2021.[4] As indicated in the DY11 new program proposals submitted to CMS, these programs are key to the DSRIP Transition for Medicaid providers and enrollees. The programs include measures that providers must report as a condition of participation and that will be used for program evaluation. These programs are:

- Texas Incentives for Physician and Professional Services (TIPPS)
- Comprehensive Hospital Increased Reimbursement Program (CHIRP)
- Rural Access to Primary and Preventive Services (RAPPS)
- Directed Payment Program for Behavioral Health Services (DPP BHS)

HHSC received CMS approval for DPP BHS in November 2021. Providers began reporting on measures as a condition of participation in late December. The other three new DPPs are pending CMS approval.

[4] HHSC has submitted a fifth pre-print for the Quality Incentive Payment Program, which is unrelated to the DSRIP transition.

15. Charity Care Pools

Uncompensated Care Pool

This update will be provided in the next annual report.

Public Health Provider Charity Care Pool

This update will be provided in the next annual report.

16. Post Award Forum

This update will be provided in the quarterly report in which the hearing is held and in the next annual report.

17. Report Attachments

Attachment A - Managed Care Organizations by Service Delivery Area. The attachment includes a table of the health and dental plans by Service Delivery Area.
Attachment B1 - Enrollment Summary (SFY21). The attachment includes annual and quarterly Dental, STAR, STAR Kids and STAR+PLUS enrollment summaries.
Attachment B2 - Medicaid and CHIP Enrollment Reports. Includes Medicaid and CHIP Enrollment Reports from March through May 2021, which include finalized data from Q3.
Attachments C1, C2, C3 - Provider Network and Methodology. The attachments summarize STAR, STAR Kids, and STAR+PLUS network enrollment by MCOs, SDAs, and provider types. It also includes a description of the methodology used for provider counts and terminations.
Attachments D - Out-of-Network Utilization. The attachments summarize Dental, STAR, STAR Kids, and STAR+PLUS out-of-network utilization.
Attachment E - Distance Standards. The attachment shows the State's distance standards by provider type and county designation.
Attachment H1-H4 - Network Access Analysis. The attachments include the results of the State's analysis for PCPs, main dentists, and specialists.
Attachments M1-M4 - Hotline Summaries. The attachments provide data regarding phone calls and performance standards of MCO and DMO Member and Provider Hotlines.
Attachments N - MCO Appeals. The attachment includes Dental, STAR, STAR Kids, and STAR+PLUS appeals received by MCOs.
Attachment O - HHSC and MCOs self-reported Complaints. The attachment includes information concerning Dental, STAR, STAR Kids, and STAR+PLUS complaints received by the State and MCOs.
Attachment P - Budget Neutrality. The attachment includes actual expenditure and member-month data as available to track budget neutrality.
Attachment Q - Members with Special Healthcare Needs Report. The attachment represents total MSHCN enrollment in STAR, STAR Kids, and STAR+PLUS during the prior fiscal year.
Attachment R1-R2 - Provider Fraud and Abuse. The attachments represent a summary of the referrals that STAR, STAR Kids, STAR+PLUS, and Dental Program plans sent to the OIG during the biannual reporting period.
Attachments V1-V4 - Claims Summary (SFY21). The attachments are summaries of the MCOs' claims adjudication results.
Attachment X - DSRIP Provider Summary.
Attachment Y - DSRIP Remaining Payments. Reported biannually after DSRIP payments are distributed.
Attachment Z - DSRIP Category C Summary Workbook.

Sub-Category (included in above groups)		
AAPCA	60,987	1.1%

(1) Partial benefit categories: Emergency Medicaid (TP30), Duals (TP23 and TP24)

(2) MAO counts found by excluding TPs 12 and 13.

(3) Medically Needy clients are grouped with children; about 90% of clients in this eligibility category are under 18.

(4) Includes Aged category.

(5) Beginning on 2/18/2020, the Healthy Texas Women (HTW) program is being funded through Medicaid.

(6) Beginning in February 2018, traditional CHIP counts are based on CHIP_HX_ALL file to match System Forecasting's method.
Previously, these counts were based on the P010DH, machiphist20150825.dat file. The change in method results in a <1% decrease in the caseload count.

Data Sources:

Medicaid: 8-Month Eligibility files (ma8thmth.dat, mw8thmth.dat), CADS/HHSC.
CHIP: History file [DSP].[dbo].[CHIP_HX_ALL] from SDS Server, CADS/HHSC.
Estimated Enrollments: Forecasting Division/Budget, HHSC.
Preliminary Forecast: Using 202007 data for 202109.
Reported enrollment estimates may differ from System Forecasting's due to rounding.

Prepared by Medicaid CHIP Data Analytics at CADS on 10/01/2021 and verified by System Forecasting, HHSC.

(1) Partial benefit categories: Emergency Medicaid (TP30), Duals (TP23 and TP24)

(2) MAO counts found by excluding TPs 12 and 13.

(3) Medically Needy clients are grouped with children; the majority of clients in this eligibility category are under 18.

(4) Includes Aged category.

(5) Beginning on 2/18/2020, the Healthy Texas Women (HTW) program is being funded through Medicaid.

Data Sources:

Medicaid: Premiums Payable System (Eligibility files: ma8thmth.dat, mw8thmth.dat), DAP/HHSC.

CHIP: Premiums Payable System (Eligibility file: machiphist.dat), DAP/HHSC.

Prepared by Medicaid CHIP Data Analytics at DAP on 01/11/2022 and verified by System Forecasting, HHSC.

Attachment C1

Provider Network Count Methodology - FY22

PROVIDER TYPES

Primary care provider (PCP) and specialist counts are based on the provider network files submitted by MCOs. The data is validated using the Medicaid Master Provider File. Unique provider counts are generated using the National Provider Identifiers (NPIs). The NPI is the standard unique identifier for health-care providers, and is required to enroll as a Texas Medicaid provider. The provider count data represents a snapshot in time and shows the number of unique providers for the last month of the quarter.

HHSC reporting requirements for the MCOs restricts PCP validity to certain provider specialty codes. The network counts are based on all PCPs with open panel included in the MCO provider files, which includes traditional and non-traditional provider types listed in Appendix A, as well as other provider types that may have agreed to serve as a PCP for a particular member with special needs.

The specialist count includes all specialty provider types listed in Appendix B. Since a provider may be represented in both the PCP count and Specialist count, the combined total may include duplications.

Dental provider counts are broken down by main dentists and dental specialists. For DMOs, the PCP column shows the number of main dentists (general or pediatric) with open panel. The specialist column includes endodontists, orthodontists, pediatric dental, and prosthodontists.

Pharmacy counts include the following pharmacy providers: pharmacy, 24 Hour Pharmacy, and Mail Order Pharmacy.

PROVIDER TERMINATIONS

PCP and Specialists terminations counts are based on self-reported data from the MCOs. The MCOs reported a variety of reasons for provider termination, including providers failed to re-credential, termination requested by provider, MCO terminated for cause, provider left group practice, and provider retired and provider closed practice.

HHSC - SFY 2021 Q3

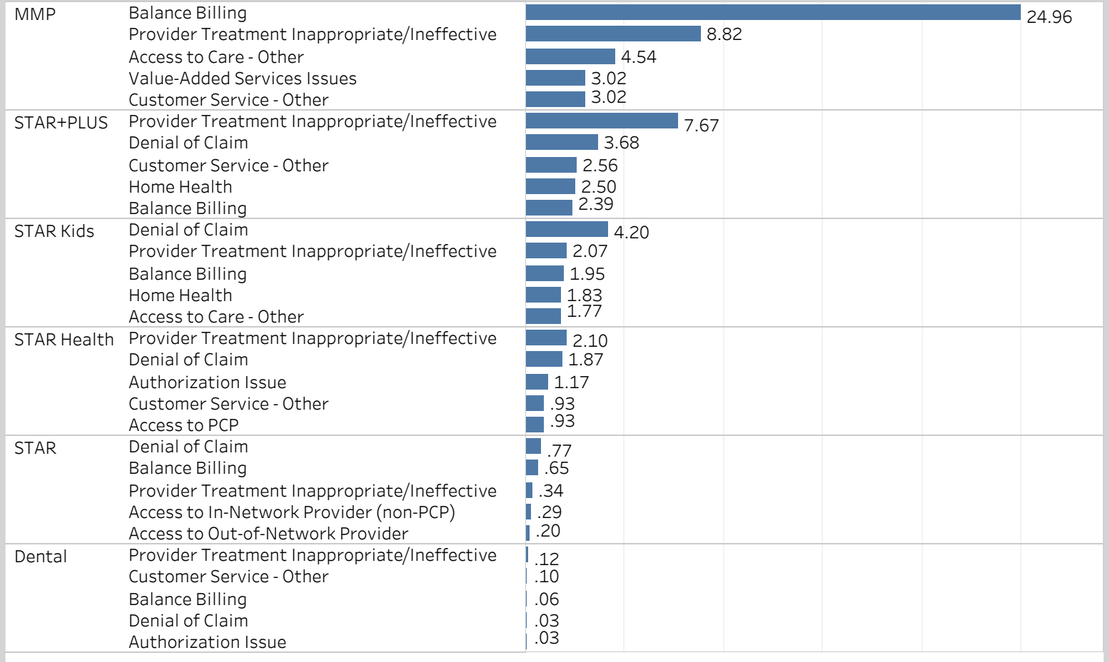
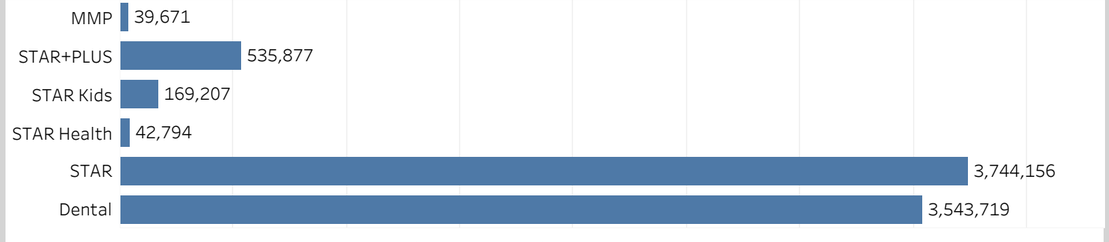
Top 5 Complaints by Program per 10,000 Members



Programs are sorted in descending order from highest rate of complaints to lowest. Ties are sorted in descending order alphabetically.

Average Monthly Medicaid Members by Program for 2021 Q3



Total Average Monthly Medicaid Members for 2021 Q3 (excluding Dental): 4,531,705
Enrollment numbers do not equal a distinct count of members as members in Dental can also be enrolled in other programs.

Percentage of Complaints Substantiated - Ombudsman Data

Outcome	MMP	STAR+PLUS	STAR Kids	STAR Health	STAR	Dental
Substantiated	4%	10%	8%	0%	14%	13%
Unsubstantiated	4%	11%	10%	38%	11%	13%
Unable to Substantiate	93%	79%	83%	63%	75%	73%

Substantiated – a complaint where research clearly indicates agency policy was violated or agency expectations were not met.
Unsubstantiated – a complaint where research clearly indicates agency policy was not violated or agency expectations were met.
Unable to Substantiate – a complaint where research does not clearly indicate if agency policy was violated or agency expectations were met.
Percentages may not add up to 100% due to rounding. Complaint outcomes are discrete and do not overlap.

Percentage of Complaints Confirmed - MCS and MCO Self-Reported Data

Outcome	MMP	STAR+PLUS	STAR Kids	STAR Health	STAR	Dental
Confirmed	78%	63%	73%	89%	64%	40%
Not Confirmed	21%	35%	26%	11%	32%	60%
Unable to Determine	0%	2%	1%	0%	4%	0%

Confirmed – resolved or partially resolved in Complainant's favor.
Not Confirmed – resolved or partially resolved in MCO's favor.
Unable to Determine – not able to confirm if a complaint is confirmed or not confirmed and complaints not related to MCO actions.
Percentages may not add up to 100% due to rounding. Complaint outcomes are discrete and do not overlap.

Rate of complaints for every 10,000 enrolled members. (Complaint Volume / Total Medicaid Enrollment for SFY 21 Q3) * 10,000 = Complaints per 10,000.

Unable to Determine	15%	30%	0%	0%	8%	0%

Confirmed – resolved or partially resolved in Complainant's favor.
Not Confirmed – resolved or partially resolved in MCO's favor.
Unable to Determine – not able to confirm if a complaint is confirmed or not confirmed and complaints not related to MCO actions.
Percentages may not add up to 100% due to rounding. Complaint outcomes are discrete and do not overlap.

Rate of initial contact complaints for every 10,000 enrolled members. (Complaint Volume / Total Medicaid Enrollment for SFY 21 Q3) * 10,000 = Complaints per 10,000.

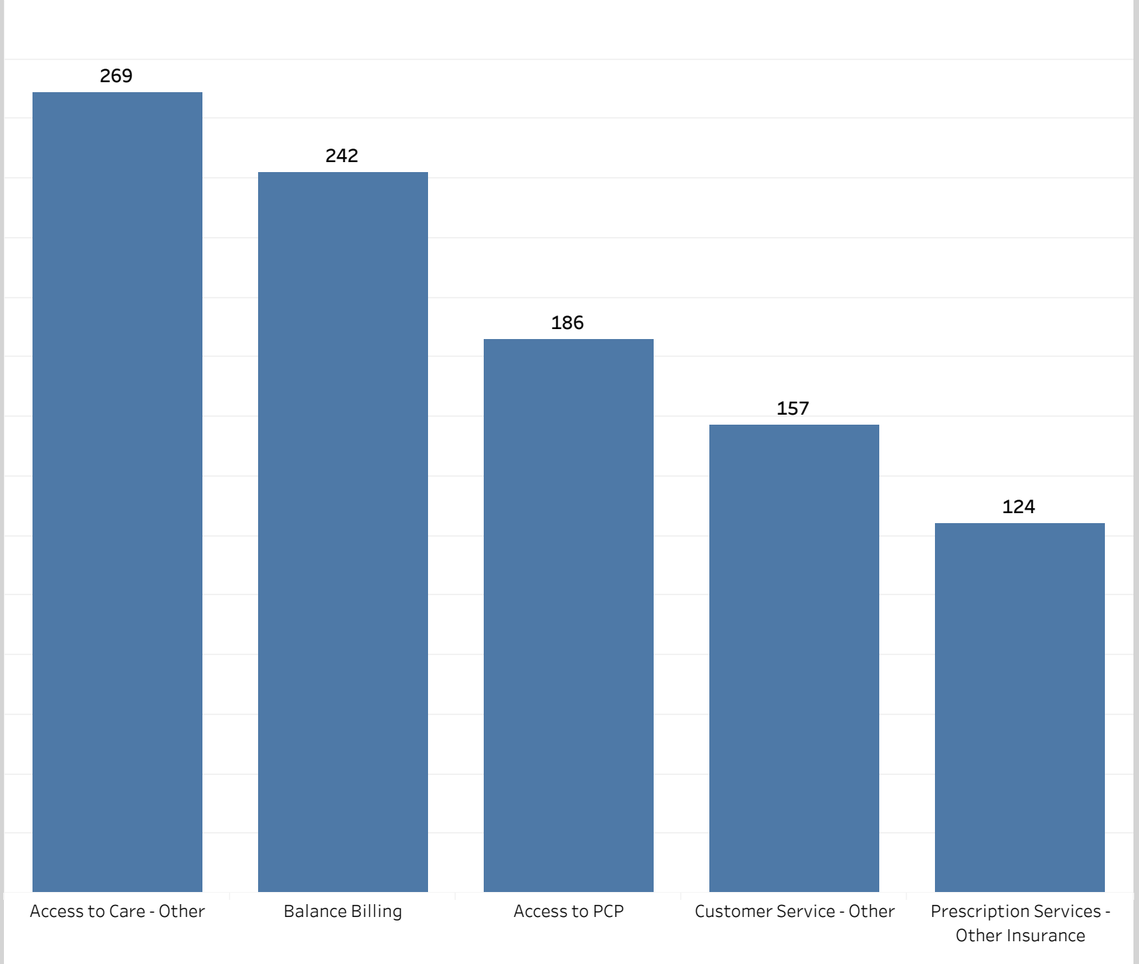
HHSC Initial Contact Complaints - SFY 2021 Q4

Total Resolved Initial Contact Complaints in SFY 2021 Q4: 1,933

Top 5 Initial Contact Complaints



Initial Contact Complaint is defined as any complaint resolved by the business day following the day it was received.
Withdrawn and pending complaints are excluded from this report. CHIP complaints are excluded from this report.
Eighty-six (86) % of total initial contact complaints reported were member complaints.
Data Sources: MCO Self-Reported Complaints extracted from TexConnect. Medicaid Enrollment information is from TMHP's Point in Time enrollment file and HHSC's Dental file.

Confirmed – resolved or partially resolved in Complainant's favor.
Not Confirmed – resolved or partially resolved in MCO's favor.
Unable to Determine – not able to confirm if a complaint is confirmed or not confirmed and complaints not related to MCO actions.
Percentages may not add up to 100% due to rounding. Complaint outcomes are discrete and do not overlap.

HHSC Initial Contact Complaints - SFY 2021 Q4

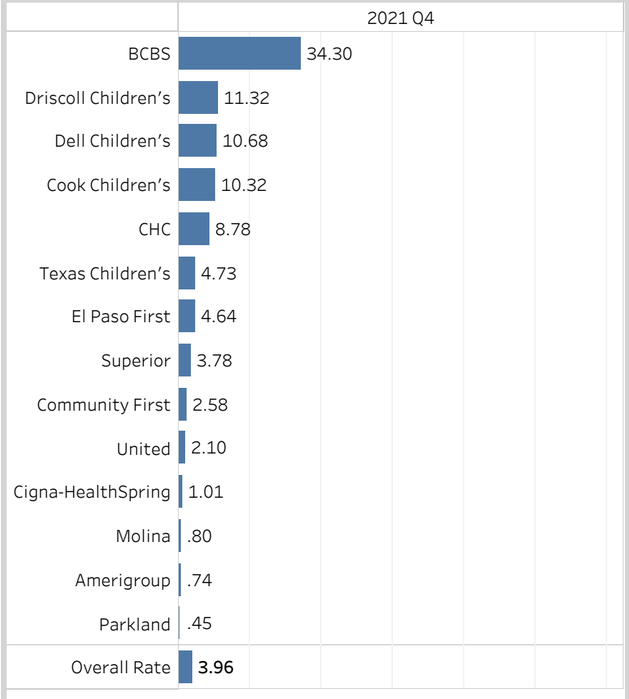
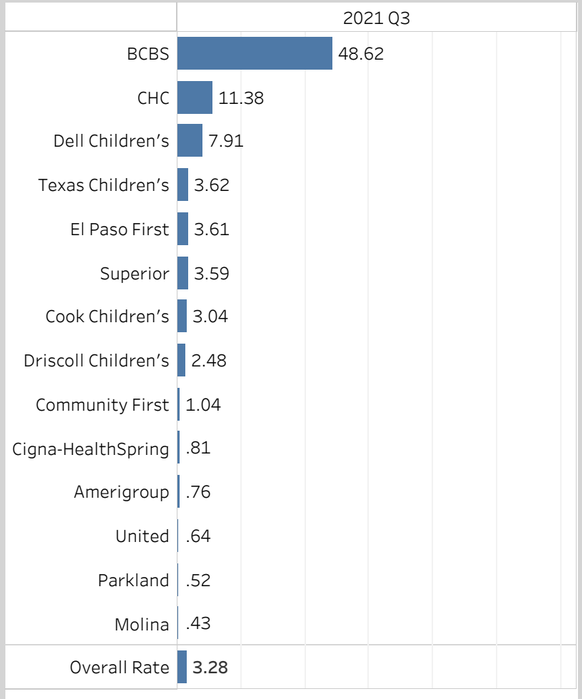
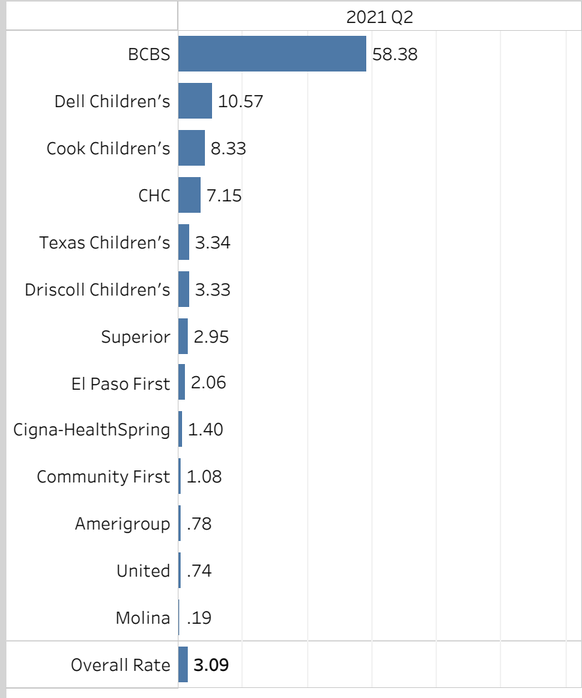
Overall Rate of Initial Contact Complaints per 10,000 Members by MCO and Quarter



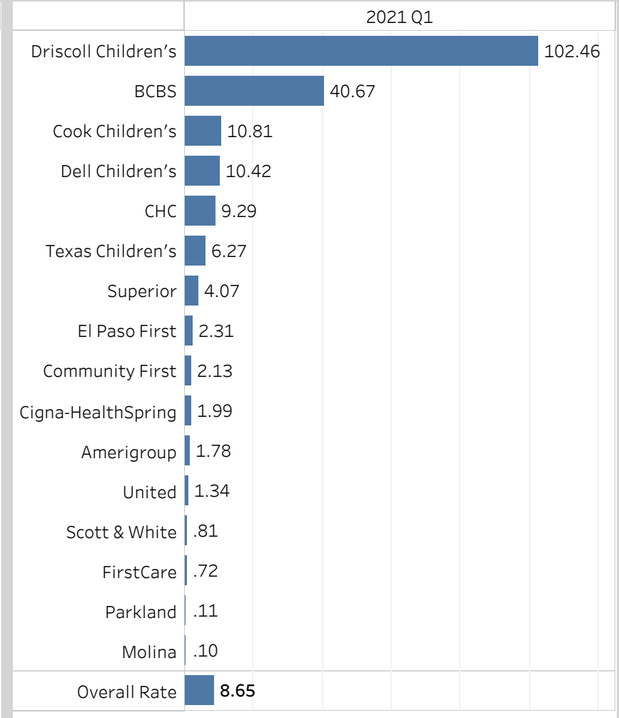
No initial contact complaints reported for Aetna, FirstCare, or Scott & White in SFY 21 Q4.



No initial contact complaints reported for Aetna, FirstCare, or Scott & White in SFY 21 Q3.

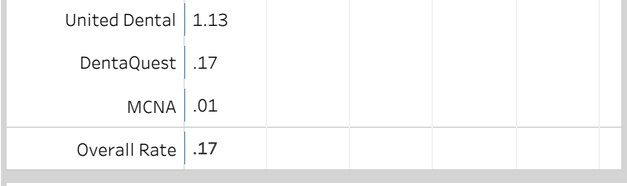


No initial contact complaints reported for Aetna, Parkland, or Scott & White in SFY 21 Q2.

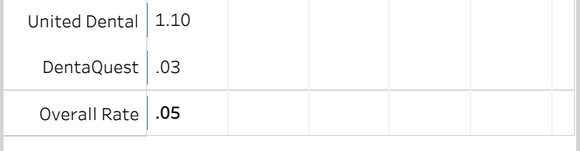


No initial contact complaints reported for Aetna in SFY 21 Q1.

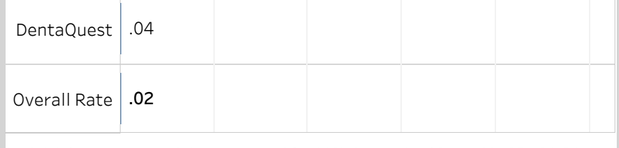
Overall Rate of Initial Contact Complaints per 10,000 Members by DMO and Quarter



No initial contact complaints reported for MCNA in SFY 21 Q3.



No initial contact complaints reported for MCNA in SFY 21 Q2.



No initial contact complaints reported for MCNA or United Dental in SFY 21 Q1.

Rate of initial contact complaints for every 10,000 enrolled members. (Complaint Volume / Total Medicaid Enrollment for SFY 21 Q4) * 10,000 = Complaints per 10,000.
*MCO/DMOs with no initial contact complaints for the quarter are not shown but are included in the overall denominator.

Budget Neutrality Summary

The Budget Neutrality Reporting Period dropdown menu allows for selection of a specific reporting period, by Demonstration Year.
By changing these settings, you change the view for which Demonstration Years will be used in calculating Budget Neutrality.
Selecting the 'Reset to Defaults' button will reset the Reporting DY values back to the demonstration's current Period of Performance.

* The number without service plans includes those who declined and those who could not be reached.

** Percentages represent the proportion of MSHCN without service plans who declined Service Management or whom the MCO was unable to reach. Member with Special Health Care Needs (MSHCN): A member including a child in the Department of State Health Services (DSHS) Children with Special Health Care Needs (CSHCN) Program as further defined in Texas Health & Safety Code § 35.0022, who: (1) has a serious ongoing illness, a Chronic or Complex Condition, or a Disability that has lasted or is anticipated to last for a significant period of time, and (2) requires regular, ongoing therapeutic intervention and evaluation by appropriately trained health care personnel.

RHP	Describe your RHP's progress during DY10
RHP01	The Northeast Texas Regional Healthcare Partnership (RHP 1) is comprised of 28 counties: Anderson, Bowie, Camp, Cass, Cherokee, Delta, Fannin, Franklin, Freestone, Gregg, Harrison, Henderson, Hopkins, Houston, Hunt, Lamar, Marion, Morris, Panola, Rains, Red River, Rusk, Smith, Titus, Trinity, Upshur, Van Zandt, and Wood. Northeast Texas RHP 1 continued its progress on meeting community needs during the DY10 (October 1, 2020 - September 30, 2021) period. During the last year, the region conducted an update on the community needs assessment developed in 2012 and previously updated in 2018. This is an activity we do for Northeast Texas to keep up with
RHP02	In DY10, RHP 2 supported efforts regarding Category C reporting (PY3, including accommodations related to COVID), and provided continued readiness support for compliance review. Reporting (including NMIs) was supported. Focused efforts regarding cost and savings were conducted. Stakeholder engagement and learning collaborative virtual meetings were held to support performing providers in accordance with COVID-related concerns. Date Time Event Location
RHP03	RHP3 providers began DY10 with the October DY9R2 semi-annual reporting which included the submission of the second costs and savings analysis option for most participating providers. The anchor team provided support to ensure reporting accuracy. The pandemic continued to impact providers with challenges, and opportunities to develop innovative care. Providers continued to leverage innovations in response to barriers created from COVID to include alternatives to face-to-face appointments such as telehealth. Additionally, providers continued to assist the community by providing
RHP04	Regional Healthcare Partnership (RHP) 4 is comprised of 18 counties in South Texas including Aransas, Bee, Brooks, DeWitt, Duval, Goliad, Gonzales, Jackson, Jim Wells, Karnes, Kenedy, Kleberg, Lavaca, Live Oak, Nueces, Refugio, San Patricio, and Victoria. Most Region 4 counties are located within the Coastal Bend Council of Government (Coastal Bend-COG) geographic area. The Nueces County Hospital District, Jonny Hipp, is the Anchor for RHP 4. The RHP 4 Anchor communicates regularly with the providers sharing information on DSRIP policies, changes, and guidelines for reporting. The RHP 4 Anchor also hosts learning collaboratives, webinars, and conference calls to encourage
RHP05	RHP 5 anchor has continuously worked with all of our performing providers to meet the needs that were identified in the community needs assessment that was updated in 2018. All of the current providers continue to provide a high level of care and meet all metrics as well as all providers continue to engage our community despite the challenges that have been caused due to COVID and the uncertainty of the program's future. RHP 5 website is up to date. (http://www.hchd.org/153/Texas-Regional-Healthcare-Partnership-Re) RHP 5 participated in the virtual learning collaborative series held by RHP 4 and provided the opportunity to participate to all of the RHP providers.
RHP06	DY10 has been a year represented by continued implementation of core activities designated in the DY9-10 RHP Plans of the Medicaid Waiver. Providers reported Category C outcomes for DY9 and Category D data for DY10 in April 2021. Providers reported Category B Patient Population by Provider data and Category A responses for DY10 in October 2021. Our Performing Providers remained the same during this period. RHP 6 includes 22 providers across 20 south Texas counties: Atascosa, Bandera, Bexar, Comal, Dimmit, Edwards, Frio, Gillespie, Guadalupe, Kendall, Kerr, Kinney, La Salle, McMullen, Medina,

RHP07	Summary of Regional Implementation of the RHP Plan RHP 7's seven DSRIP providers completed the fourth and final year of the redesigned DSRIP program, finalizing their transition from the original project-oriented delivery system transformation (Waiver 1.0) to one that focuses on system-level patient outcome improvements (Waiver 2.0). In DY 10, providers continued using standardized clinical practices, workflows, and protocols to measure and improve health outcome goals for targeted populations. The flexibility of Waiver 2.0 has allowed providers to utilize continuous process improvement methodologies utilized during Waiver 1.0 to
RHP08	Regional Healthcare Partnership 8 (RHP 8) is a nine-county partnership that consists of Bell, Blanco, Burnet, Lampasas, Llano, Milam, Mills, San Saba, and Williamson counties. It is contained within Health Service Region 7 as defined by the Texas Department of State Health Services. Formed in June 2012, RHP 8 is located in Central Texas. The initial population of the region, per the 2010 US Census, was approximately 975,620. The region has seen growth of 29.88% since that time, with the 2020 US Census now showing a regional population of 1,117,978. While RHP 8 is considered a smaller, rural, Tier 4 region in Texas, it does include two of the top 20 most populous counties in the
RHP09	Comprised of Dallas, Denton and Kaufman counties, Regional Healthcare Partnership Nine (RHP9) performing providers include the tax-supported hospital system of Dallas County (Parkland Health & Hospital System, also serving as the anchor), a children's hospital (Children's Health), two local health departments (Dallas County HHS and Denton County HHS), a state university hospital (UT Southwestern Medical Center), a physician/dentist practice associated with a health science center (Texas A&M Health Science Center College of Dentistry), three mental health agencies (Denton County MHMR, Metrocare Services, and Lakes Regional MHMR Center), and thirteen private
RHP10	Regional Health Partnership (RHP) 10 represents nine counties in north Texas - Tarrant, Ellis, Erath, Hood, Johnson, Navarro, Parker, Somervell, and Wise - and 24 providers across the care continuum. Inclusively, the region is responsible for the implementation of 284 measures. Common threads shared across measures in the region focus on behavioral healthcare, access to primary and specialty care, chronic care management, health promotion and disease prevention and assisting patients with complex needs navigate the healthcare system. Regional Health Partnership (RHP) 10's implementation plan is focused on delivery
RHP11	Regional Healthcare Partnership (RHP) 11 is comprised of 15 counties in West Central Texas including Brown, Callahan, Comanche, Eastland, Fisher, Haskell, Jones, Knox, Mitchell, Nolan, Palo Pinto, Shackelford, Stephens, Stonewall and Taylor. The region is primarily rural counties, 5 of which are considered frontier counties, with an approximate population of 480,000 within 13,834 square miles. The Palo Pinto Hospital District dba Palo Pinto General Hospital, William Whiddon, is the Anchor for RHP 11, with assistance from Joann Greenway, Hendrick Medical Center. Abilene, Texas, in Taylor County is the urban hub in RHP 11 with Hendrick Medical Center identified as the
RHP12	1.RHP 12 Progress Regional Implementation of the RHP Plan RHP 12 is comprised of both urban and rural areas. The RHP 12 Urban region consists of 3 counties: Lubbock, Potter, and Randall counties. The urban region consists of 2,715 square miles with a population density of 198.8 residents per square mile. The rural portion of the region consists of 42,595 square miles with a population density of 8.74 residents per square mile. The region is anchored by the only Urban Public Hospital and Level I Trauma Center in
RHP13	RHP 13 encompasses the Heart of Texas region and areas north and west of it. This region includes Coke, Coleman, Concho, Crockett, Irion, Kimble, Mason, McCulloch, Menard, Pecos, Reagan, Runnels, Schleicher, Sterling, Sutton, Terrell, and Tom Green counties. These counties continue to be rural and frontier areas in Texas. Adult diabetes and adult obesity remained the highest-ranking needs in the CNA that was conducted in previous years. Access to mental health care emerged as a higher priority need than access to primary care, which was reflected in the prioritization as

RHP14	For the DY9-10 period, RHP 14 DSRIP performing providers decreased from ten to eight, following Martin County Hospital District and Winkler Count Hospital Districts' withdrawal from the DSRIP Program. During DY10, the remaining eight RHP 14 providers continued implementation of the DY9-10 RHP Plan, including engagement in core activities, addressing community needs included in the community needs assessment, and preparing for DSRIP transition. RHP 14 provider core activities that directly align with the region's community needs assessment include: expanding access to primary care and specialty care, improving maternal care outcomes, promoting health education
RHP15	The RHP 15 continues to implement the regional plan during DY10 (Oct 2020 thru Sep 2021). In alignment with the community health needs assessment, the DSRIP metrics are focused in the five identified priority areas in our region: 1. To Promote Healthy Eating and Active Living; 2. To Improve Mental Health and Treatment; 3. To Reduce Tobacco and Alcohol use and Drug abuse; 4. To Improve Sexual Health; 5. To Improve Health Care Access. Providers in the region continue to struggle during this demonstration year while
RHP16	RHP 16 represents 6 hospital providers and 1 mental health authority. There were no changes related to program participation during DY10 and all performing providers reported achievement during Round 1 and Round 2 of DY10. There were also no changes to key stakeholders. All providers reported improvement in most measure categories over DY9 as they are still recovering from the multiple challenges presented by COVID-19. RHP 16 held conference calls to address any questions or concerns related to current challenges, mainly COVID-19, but we also met in person during the later part of of DY10 to talk about changes to DSRIP and how we can work together
RHP17	RHP 17 Overview Regional Healthcare Partnership 17 (RHP 17) consists of Brazos, Burleson, Grimes, Leon, Madison, Montgomery, Robertson, Walker and Washington Counties. The regional population was approximately 845,000 people spread across the nine counties when the waiver started. Since that time, the region has grown 20.23% with the 2020 census now showing a regional population of 1,059,338 people. While the region overall is classified for DSRIP as a smaller, Tier 4, rural region in Texas, the RHP does include two larger urban areas within its borders (Bryan/College Station in Brazos County and Conroe/The
RHP18	Within the scope of DSRIP goals, RHP18 has continuously implemented the regional plan, meeting community needs as identified in the needs assessment process. The changes in the structure and goals of DSRIP have reduced the common ground among providers. Our six providers continue to meet their DSRIP metrics. Only two providers share common metrics, and we have identified none that share similar methods or challenges. This is likely due to the variety of communities and populations each provier serves. Momentum has slowed regarding innovation, care coordination between systems, and exploring future potential initiatives. We have continued to meet virtually
RHP19	Implementation of RHP Plan: As the anchor for RHP 19, we continue to serve the providers within the geographic boundaries of the RHP to pursue delivery system changes and networks that will provide a sustainable solution for rural Texas. We have endeavored to prepare the region and our providers for DSRIP transition, or a state directed payment program that will be sustainable, and quality based. Hospitals and clinic continue with office and telehealth visits. Communities and regional leaders have recognized the benefits of having both types of visits available to patients.
RHP20	As with health providers around the country, the COVID-19 pandemic has continued to have a big impact on Region 20. While our providers continue to provide their services via telemedicine, many have started to transition back to in-person services, especially for those services where telemedicine was not feasible. This pandemic has further strengthened the collaboration between our providers and other organizations in our community, especially since our region is so limited in the number of DSRIP providers. Our providers have continued working on project sustainability but with the already high number of low income/uninsured in our community coupled with the growing number

Describe lessons learned
The RHP 1 DSRIP providers continue to make progress toward transforming health care delivery and meeting system performance and regional goals. Lessons learned by RHP 1 performing providers during DY10 through measure bundle implementation and continuous quality improvement activities are diverse but are significantly associated with the severity of the impact of the COVID-19 world-wide pandemic. Lessons learned are listed below: •Continuous education needed for staff to correctly update EMR to satisfy the reporting specifications; additional monitoring and follow-up is required.
There were many lessons learned throughout the RHP in DY10. The major themes are highlighted below: Flexibility • Every provider has been affected by COVID-19. Normal operations are not fully restored throughout RHP 2 but the patient needs must still (attempt to) be met. • Many providers maintained telemedicine efforts launched in DY9. • Patient expectations on how care should be delivered are forever changed based off
Regional Governance Concerns related to regional governance shifted significantly in DY10 due to COVID-19. Prior to the pandemic, concerns centered on data sharing and post-DSRIP transition; since the pandemic, concerns have shifted to managing the pandemic response and ensuring DSRIP requirements are met.
RHP 4 Providers have made progress toward transformation and meeting system performance and regional goals. The efforts towards sustainability, alternative payment methodologies, and integration with Medicaid managed care organizations are challenging, especially for a rural RHP that does not have the volume of Medicaid patients to pique interest and engagement of the managed care organizations (MCOs), nor are they in a position to take any level of financial risk. A RHP 4 lesson learned is the importance of collaboration among all Providers and stakeholders in the community to create a vision that is supported by all entities.
RHP 5 anchor and providers have been continously learning always while attending different collaboratives. Some of those lessons learned of how to handle things given the current ongoing pandemic really allowed providers to see that the difficulties of dealing with this situation was not only limited to our area but other areas of the state as well. Providers were able to experience what a pandemic year looked like last year and have applied these lessons.
Providers continue to learn many important lessons through the experiences of DSRIP. These lessons are communicated in conversations with the anchor and during semi-annual reporting. • With the new waiver model, providers have better alignment of outcome measures across our region. Knowing which measures each provider has selected and how they are progressing allows them to work with others who are pursuing similar outcomes to collaborate and achieve success. • A critical component is Health Information Technology data. We need to facilitate

From RHP 7's perspective, DSRIP's most significant contributions to the delivery of healthcare include:
•Development of organizational capacity to collect and analyze data on delivery process and patient outcomes
oDSRIP providers have shown keen interested in simple, effective data visualization tools that can help communicate health outcome status to a variety of organizational and community stakeholders quickly and easily.
oMost providers have developed or are developing internal dashboards to monitor

As in years past, RHP 8 continues to take note and work, together and individually, to identify challenges and learn from them. As continued implementation of initiatives and core activities takes place, as well as planning and preparation for post-DSRIP transition, the region has been able to continue to move forward with providers continuing to share their experiences and knowledge with the anchor and each other.
Regional/Anchor Lessons Learned
Throughout DY10, some of the lessons identified in past years remain ongoing; particularly regarding working with providers and IGT entities to understand and

For ongoing governance of the RHP 9 waiver activities, we continue to collaborate with our providers through email and virtual Stakeholder communications and in larger learning collaborative events in DY10. In addition, the anchor is in constant contact with other state anchors and we share learning collaborative opportunities that our providers can attend.

RHP 9 held the following Learning Collaborative/Stakeholder Events in DY 10, all but one were co-hosted with RHP 19 & 18:

In the time of the COVD-19 pandemic, the role of the anchor in regional governance became increasingly important to synthesize, disseminate, and coordinate information in a concise and effective manner. We've learned that in such a diverse environment in terms of geographic location, size, type and scale of providers there is no one size fits all. To better serve our providers, we continued facilitating a monthly RHP 10 call/webinar so that lead providers could respond to the HHSC Anchor Notes, engage in effective discussion and provide us valuable feedback that we share on the Anchor Calls with HHSC.

RHP 11 Providers have made progress toward transformation and meeting system performance goals. Lessons learned through the DSRIP activities includes the following:
• Patient education and outreach is critical to the success of the continuous quality improvement efforts and more work is needed to change patients' learned behaviors especially for prevention and wellness, maternity prenatal and post-natal care, inappropriate use of the emergency departments, and behavioral health crises;
• Telehealth and/or audio calls for those clients that are able to participate using that venue showed an improvement in the no show rate for appointments;

2.Lessons Learned
2A-Lessons Learned- Regional Governance Perspective
This past demonstration year, our biggest lesson learned from a regional governance perspective was the importance of steadfastness in the face of uncertainty. Throughout the year, we as a region worked continually to serve our patients, ensure accurate data collection despite changing patient environments, focused on achieving our DSRIP performance goals despite not having certainty of what, if any, COVID allowances would be given or what the future of the program beyond DY10 would look like. As an anchor

Working with the HHSC Waiver team, leaders involved with the waiver understand more of the delivery transformation ideas and goals, but many providers and staff on the front lines don't grasp the larger goals related to delivery transformation as they are often in the day-to-day activities where old models are being utilized. Continuous quality improvement activities are imperative to navigate and impact healthcare transformation; however, increasing staff shortages and demands on staff limit the resources to fully engage in quality improvement activities.

RHP 14 providers continue to believe that DY9-10 DSRIP quality measures and related core activities have created a solid foundation upon which to build the kind of quality measurement infrastructure that includes manageable reporting requirement for providers, coordination and education among reporting entities, and measurable improvements in health outcomes that are meaningful to patients, providers, and payers On August 19, the RHP 14 Anchor hosted a virtual stakeholder meeting with regional
From a regional governance perspective, RHP 15 has a solid team representing each of the seven participating providers. There continues to be turnover in DSRIP leadership at two of the provider hospitals (Tenet and HCA hospitals). The RHP 15 Anchor continues to provide training and education to the new DSRIP leaders hired. Designated representatives continue to attend monthly meetings (online) chaired by the Anchor (UMC) and collaborate well on the DSRIP initiatives. This synergy has resulted in the ability of the DSRIP providers to effectively share interventions, innovations, challenges and data. The Nurse to Nurse handoff project (standardizing Nurse-to-Nurse handoffs)
RHP 16 has struggled to find projects or other initiatives where we can collaborate as we did during DSRIP 1.0 for regional projects. The LPPF changes also created a negative impact on collaboration as private hospitals are no longer incentivized to work closely with other public hospitals for IGT purposes. The bi-annual learning collaboratives have been very beneficial in order to share best practices and learn from others how best to overcome challenges related to the COVID-19 response, patient communication and quality measures. It is also beneficial to have access to other regional learning collaboratives to broaden opportunities share best practices. Learning collaboratives
As in years past, RHP 17 continues to take note and work, together and individually, to identify challenges and learn from them. As continued implementation of initiatives and core activities takes place, as well as planning and preparation for post-DSRIP transition, the region has been able to continue to move forward with providers continuing to share their experiences and knowledge with the anchor and each other. Regional/Anchor Lessons Learned Throughout DY10, some of the lessons identified in past years remain ongoing; particularly with regard to working with providers and IGT entities to understand and
With the changes in DSRIP to measure bundle focus, there are few no incentives for providers to work across systems. Providers are focused on how to meet metrics within the limitations imposed by CMS. With the expectation that the state intends to organize future directed payment programs around managed care service areas there is little motivation to work as a regional group. Without resources to support HIE participation or Care Coordination initiatives, the inspiration to truly transform healthcare as a system, with partnerships and networks, has faded. Each provider continues to work in its own respective arena on CQI.
DYs 9 and 10 have been particularly challenging for the providers in RHP 19. COVID-19 has forced us to shift our focus from improving our quality measures to caring for patients beyond the realm of our expertise. Through the relationships we've developed through the DSRIP program we have been able to help one another find acceptance for critical patients at hospitals we would not normally transfer to. Our Learning Collaborative for DY10 was postponed until September in hopes that COVID-19 would be behind us. We held a hybrid – both in person and virtual – so that
DSRIP providers have continued to collaborate and provide referrals to other DSRIP providers for services that they may qualify for that the original provider does not provide. Providers have also continued to expand how they deliver services due to COVID-19 restrictions while also looking into alternative funding sources to offset the uncompensated care that they currently provide. Collaboration between providers has included referrals to medical homes/primary care providers for patients seen at emergency rooms or urgent care clinics so that they are able to obtain ongoing primary care services, behavioral health services, disease self-management classes, etc.

Describe other challenges within your RHP during DY10
Challenges within RHP 1 consist of various issues. A primary challenge involves compliance monitoring activities conducted with Myers & Stauffer (MSLC) which present to be an ongoing administrative challenge. Furthermore, the level of detail requested by MSLC has differed from the provider understood measure specifications which surpass the capacity of IT departments and has led to manual review of medical records for data extraction resulting in burdensome administrative time requirements. Another ongoing primary challenge includes provider recruitment and retention in rural areas of RHP 1 as well as the significant prevalence of chronic disease such as diabetes,
Pre-COVID-19, challenges that were common amongst providers remained consistent from prior years: recruiting/retaining clinical staff, broadening the reach of care coordination efforts to cover the full spectrum of providers, patient (non)adherence to treatment plans and preparing to deal with compliance audits. The continuing lessons learned from the details of the compliance audits have influenced the administrative efforts related to DSRIP, as the conversion to the organizational approach has required and extensive amount of planning/testing/validation to ensure that the data systems are sufficient to support the reporting requirements.
DY10 brought continued challenges due to COVID-19 and the surges Texas experienced throughout the year. Competing priorities continued to challenge providers as they dealt with COVID and the uncertainties about the waiver extension. The anchor struggled with anticipating provider needs, creating meaningful content for learning collaborative events and providing accurate and timely information so providers could properly prepare for life beyond DY10.
In DY 10, RHP 4 also experienced new performing provider staff that were not familiar with DSRIP and had a significant learning curve to understand the nuances of the DSRIP program. With the uncertainty of the DSRIP extension and other issues related to the proposed directed payment programs, providers are unsure of their next steps. There is financial concern for Providers who utilize contractors to create new reporting protocols which may or may not be of use if DSRIP extension and other supplemental payment programs are not approved and implemented. Following is a summary of the most common challenges as identified by RHP 4
RHP 5 anchor and providers face the same challenge that other regions have due to the uncertainty of the program. This area faces the same challenges of what will happen given the current situation of the waiver and what will become of many of the programs post waiver.
In DY10, RHP 6 providers fund similar challenges to those experienced in the previous DY. In addition, preparing for the end of DSRIP in September 2021 has been challenging for providers. The earned incentives are critical to funding essential services for low income and uninsured patients. Without a clear plan for sustainability, many providers are concerned they will be forced to reduce or end services that have been initiated through DSRIP. Providers have actively engaged in transition planning activities. The HHSC partner engagement webinars and newsletters have been helpful in sharing information. Providers are anxiously anticipating the agreement or proposed resolution

Providers continue to experience frustration with audit staff unfamiliar with healthcare operations. This lack of familiarity makes measure audits more time consuming than necessary. While providers appreciate HHSC's efforts to improve the cost and savings analysis process, providers still found this exercise challenging and not useful beyond meeting the basic reporting requirement. RHP 7 hopes that future cost and savings analyses supported by the state will have clearer guidance, more timely instructions, and solicit the input of providers before developing required tools.
Challenges in a program as complex and multi-faceted as the 1115 Transformation Waiver are certainly to be expected, and we have continued to experience challenges in DY10 that have also been challenges highlighted in years past including the roles and opportunities for more rural providers in value-based purchasing/alternative payment model arrangements and directed payment programs and staffing/retention among others. Anchor/Regional Challenges
At a regional level, the biggest non-Covid-19 challenge during DY10 for all providers across the region is the uncertainty of the outcome of the 1115 Waiver Extension Approval and/or the DPP programs for DSRIP Transition and the status of the DSRIP Extension Submission. The ability to plan for resources including but not limited to valuable clinical staff and other staffing resources, program supplies and material resource needs, and reporting requirements is putting a considerable strain on the provider organizations. There is a high level of anxiety of what funding will be available while they continue to serve their patient populations during the ongoing COVID-19
DY10 has been a busy year for each of our interdisciplinary bundle teams, as the goals for each metric increased to further improvement over baseline. At the beginning of DY10, operational teams performed gap analyses for each measure and bundle to assess performance at the end of DY9 following the onset of COVID-19 and the gap that had to be closed to achieve DY10 performance rates. Each bundle team reviewed relevant processes and began developing new action plans for DY10 for each measure, while addressing the ongoing hurdles of the pandemic across the organization and on patients and the community. We continued to see a heavy impact upon our overall performance
Following is a summary of the most common challenges, not related to COVID-19, as identified by RHP 11 Performing Providers: • No consistent funding source for low income/uninsured populations. • Patient compliance with Provider instructions. • Turnover rate of staff. • Lack of Patient engagement. • Shortage of clinical staff including primary, specialty, and behavioral health. • Lack of information technology, internet and broadband capability, and lack of
3.Describe other challenges within your RHP during DY10 that are not related to COVID-19. This may include challenges both at the RHP governance level and at the individual provider Core Activities/Measure level, particularly if there are themes across multiple Performing Providers or activities in an RHP. Information can also be included on discontinued activities and reasons Performing Providers did not continue with an activity. 3A-Challenges at the RHP Governance Level
The complexity and administrative burden of the Category C measure bundles continues to cause confusion and conflicting interpretations of clinical outcomes measures. We continue to be diligent with understanding the specifications, and develop consistency in our reports. Partnerships and innovation need to be further fostered, particularly in rural regions. Whether that is through data sharing or regional projects, it is imperative to continue fostering partnerhips and collaborations in rural regions.

Providers report common challenges that are not COVID-related, including: •Electronic Health Record systems may not be sufficiently robust to properly capture and track DSRIP quality data in real time, which makes it challenging to gauge the effectiveness of projects and programs. Another challenge raised is that providers may not document DSRIP data properly in the electronic record, which impacts the provider's ability to report data for clinical measures. This issue may negatively impact DSRIP performance rates because a data is not documented properly. This concern may be addressed with ongoing provider education.
RHP 15 providers continue to have the following challenges: 1. Concerns for the future of DSRIP initiatives post-DY10. 2. Confusion in the understanding and interpretation of the state's implementation of the new DPPs. 3. Concern for the future of funding for LIU patient care services after DSRIP has ended. 4. The perception that politics from the governor's office is leaking into the program operations.
It can be difficult to describe challenges that aren't related to COVID-19, simply because most every challenge we faced was related to employee abseetism, worker shortages and lack of patient compliance, all related to the pandemic. These factors contributed greatly to our inability to achieve certain quality goals. Most providers indicate that they are beginning to see an improvement over 2020 with regards to quality achievement. There were no issues at the RHP governance level and activities related to core activities/ quality measures that were not related to COVID-19.
Challenges in a program as complex and multi-faceted as the 1115 Transformation Waiver are certainly to be expected, and we have continued to experience challenges in DY10 that have also been challenges highlighted in years past including the roles and opportunities for more rural providers in value-based purchasing/alternative payment model arrangements and directed payment programs and staffing/retention among others. Anchor/Regional Challenges
Because our six providers who are still administratively participating in RHP18 as a whole, all have different Core Activities, we find little common ground among them. And so the challenge is in finding shared interests to inspire collaboration or discover shared learning topics. The "small" providers who are not divisions within larger systems, have found important and unexpected benefits from conducting the core activities. All providers have incorporated quality monitoring, planning, and problem solving practices in their operations that they might not otherwise have utilized. Larger systems have incorporated cross-program QI activities that benefit the corporate
One of the biggest challenges in RHP 19 has been the effect of COVID-19 on measure outcomes. Rural hospitals are already short-staffed and with the increased volume have had to scramble to meet the needs of patients. Moreover, patients are more acutely ill and things that would normally be transferred to a tertiary facility are stuck in emergency rooms while nurses spend hours calling facilities in hopes of gaining acceptance. Morale of the staff is low, and nurses continue to consider taking travel positions, creating even more chaos for remaining staff.
The biggest challenge with providers continues to be the potential sustainability for their DSRIP programs without the supplemental funding they were receiving as their population is mostly uninsured and low-income. This has been especially felt by the local hospitals who have not been able to access funding from the Uniform Hospital Rate Increase Program (UHRIP) since its expiration on August 30th. While local providers have been encouraging program participants to apply for "low-cost" insurance options available under the Affordable Care Act, the monthly premiums, high deductibles, and high copays in essence make them out of reach for most of our low

Describe any other pertinent findings from your RHP during DY10
RHP 1 continues to make substantial strides in moving towards regional health care transformation. As we continue the transition from DSRIP, we encourage HHSC and CMS to allow providers adequate time to fully implement all the necessary programs and policy decisions and system modifications that will be required to fully transition from DSRIP. Additional findings from RHP 1 providers are briefly listed below: •Telehealth has played an important role in our ability to continue to serve our patients and provide support throughout this pandemic. •Improvement can still be achieved by continuing to educate the ED physicians regarding
level; attempts to 'catch up' from 2020 are still ongoing. Nearly all DSRIP specific activities, as well as normal operations, continue to be at least partially impacted for every performing provider. The changes to care delivery, including the rushed implementation of telehealth services where they had not previously been in place, fundamentally changes the way that providers support their patients – but may not be in full alignment with DSRIP specifications as they currently stand. With the continued issues in knowing what the plan(s) for DY11 and beyond will be, it there is considerable fear about what a break in funding will do for all provider organizations.
Other pertinent findings include the increasing demand for Behavioral Health Care during DY10. Providers continue to look for alternative ways such as telehealth visits, and patient self-care through education to deliver care to meet the increasing demand.
RHP 4 has made significant strides in moving towards regional health care transformation. With the uncertainty of the DSRIP waiver extension and the proposed directed payment programs, providers have significant concern regarding their next steps. If resolution of these issues is not finalized by the spring of 2022, providers may be required to implement strategies that will have a negative impact on the patient population, provider staffing, financing, and health outcomes in their communities.
None
In addition to findings noted above, RHP 6 providers that attained great overall success in achieving their selected outcome measures and improving the quality of care in their communities, as demonstrated by improvements in overall performance metrics reported and the increase in populations served. Many providers have also expressed concerns with the uncertainty of timing and processes of moving forward with Directed Payment Programs as we transition away from DSRIP. These concerns center around how to move forward with their current operations and with preparation for the next phase of programs with HHSC in light of so

Findings are addressed above or in the COVID-19 questions.

Several providers have reported success, despite the pandemic limitations, in maintaining community partnerships and collaborations they began throughout DY10. One of the hospitals in Williamson County has been able to continue partnering to provide diabetes management services to patients. Additionally, as providers have considered the end of DSRIP, sustainability of initiatives and the additional challenges uninsured patients face, the Seton family of hospitals in the region has been monitoring self-pay patients to help identify and assist those who qualify for Medicaid and charitable opportunities. One of our mental health centers has been very successful in

Regardless of the COVID-19 pandemic, in our communities one of the most pertinent and ongoing impacts in our efforts to improve the patient experience, improve the health of populations, and reduce the cost of healthcare are the Social Drivers of Health (SDoH). These drivers determine if patients can access available care, adhere to recommended treatments, or even afford their care. Our providers continue to strive to mitigate and assist patients and clients with these needs, some examples are listed below:

Much of the future planning post DSRIP depends on accurate data and there currently exist many obstacles for effective and efficient data sharing and interoperability. Regional providers have found the structure of the Anchor and Performing Providers has worked well in allowing for collaboration, clarification of measure information, as well as reporting deadlines.

transformation by implementing evidence-based strategies to encourage and empower patients to make lifestyle changes to stay healthy. Unfortunately, patient participation in educational trainings and follow through with healthy behaviors is still an area of concern, but one provider indicated that some of their patients were beginning to increase their knowledge of their disease and make better health choices.
Some RHP 11 providers saw success with telemedicine/ telehealth visits at the rural health clinics. However, most rural providers do not have the infrastructure to fully utilize these capabilities. Without financial support from the state or federal

4.Describe any other pertinent findings from your RHP during DY10
The waiver definitely has brought about extensive and much-needed collaboration as hospitals, physician practices, behavioral health centers, health departments, and their respective communities have come together to provide excellence in healthcare throughout the region. Also, the waiver has created opportunities to highlight the hard work and dedication that physicians and staff display on a daily basis. Learning collaboratives and workshops build those forums.

N/A

As stated in other responses, providers remain concerned about the uncertainty of the Waiver renewal, approval status of state directed payment programs, and DSRIP Transition / potential one-year DSRIP extension. With respect to the DSRIP transition. DSRIP providers are concerned about how the uninsured will fit into a post-DSRIP quality initiative and how to improve collaboration with MCOs to ensure a successful program

There are no additional pertinent findings from RHP 15 during DY10.

Every provider in RHP 16 was negatively impacted by COVID-19 with regards to quality measure outcomes but have all worked extremely hard to recover lost patient volume and relaunch programs and service lines to improve patient compliance with routine primary care and improve access to services related to heart disease, diabetes care, and cancer prevention. Access to care continues to improve with the addition of virtual and curbside services but we are working to overcome challenges related to blood pressure measurements, BMI and other vital statistics that can be missed or not formally documented during these types of visits. Based on conversations with health

As noted in previous years, the ability for DSRIP providers to better align DSRIP-initiated programs with Medicaid managed care continues to be a challenge even with the proposed directed payment programs that have been put forth as post-DSRIP options by HHSC. While directed payment programs offer a good option, run through the MCOs, and aligned with quality components and performance goals, they are meant to support Medicaid patients. A large population served under DSRIP is not Medicaid, and as noted in our regional summary, the pandemic saw an increase in the number of low-income, uninsured patients served by DSRIP providers even when the number of Medicaid

Four LC events were held jointly by RHPs 18, 9, and 10, that providers reported as satisfactory alternatives to in-person LC events. These were:

- January 19, 2021*: RHP 9, 10, & 18 Stakeholder Primary Contact Check-In
- April 7, 2021: RHP 9, 10 & 18 DY10R1 Highlights & QA with Anchors Session
- July 7, 2021: RHP 9, 10 & 18 Learning Collaborative 1115 Waiver Updates
- August 19, 2021: RHP 9, 10 & 18 Learning Collaborative Costs & Savings Reporting
- September 27, 2021: RHP 9 Virtual Event Learning Collaborative DY10R2 Reporting Preparations

As DSRIP comes to an end, we have reflected on our successes and the relationships we have formed with our colleagues – not only the providers in RHP 19, but also with the staff at HHSC. It has been a privilege to serve as the anchor for RHP 19 and lead our providers in our quest to transform healthcare in Texas. We believe our providers have used waiver funds to improve access and have a positive impact on the health of the MLIU population in this region.

The majority of our region's population is considered low-income uninsured and/or Medicaid eligible and we are designated as a Health Professional Shortage Areas (HPSAs) so it is even more difficult for those residents with no medical insurance or coverage to be able to afford and pay for medical care. A lot of these residents rely on health fairs, traveling health care teams, and medical mission clinics to obtain primary care to treat chronic medical conditions such as hypertension, diabetes, and mental health issues. Unfortunately, due to ongoing COVID concerns, most, if not all, of these health events that are now reopening have had little attendance which discourages providers from

Describe any challenges and other pertinent findings from your RHP due to COVID-19
RHP 1 has worked diligently to overcome challenges presented by COVID-19; however, due to safety -protocols, social distancing, and closures some challenges have been more difficult than others. A primary challenge existing due to COVID-19 involves staff shortages from all levels of clinical and administrative staff. Additional challenges due to COVID-19 from RHP 1 providers are briefly Listed below: •Depression screenings using the PHQ-9 protocol decreased as the clinics closed to in-person services in Mid-March of FY20 and have remained largely closed since due to widespread local COVID-19 infection rates and low rates of vaccination.
significantly impacted by COVID-19. All providers continue to see a change in the way care was delivered, as some providers are still lagging on the ability to offer the same level of in-person ambulatory visits for those they serve. All in-person learning collaborative activities and regional meetings remained virtual in DY10. Providers have all been focused on "crisis management" as the local and state mandates have changed, as well as the changing needs of the patient populations they serve.; most individuals who serve as the DSRIP teams within the performing providers have been pulled into at least one COVID-related activity. Larger hospitals continued to
COVID-19 was the major disruptor for DY10. Most, if not all, providers in RHP3 had to manage responding to the COVID-19 crisis leaving minimal resources to focus on DSRIP programs and requirements, especially for reporting and auditing activities. Providers struggled with transitioning to virtual environments, staff redeployment, and the limitation COVID-19 imposed on healthcare providers in caring for vulnerable patient populations.
All providers reported continued challenges throughout DY 10 as a result of COVID-19. While providers became more adept at adapting to the ever-changing health care scene, the pandemic prevented some providers from achieving maximum results in various DSRIP projects. Projects that depended on in-person visits suffered the most, particularly for providers serving rural populations who were less likely to use telemedicine due to technology/broadband issues. While numerous providers stated that telehealth was a critical factor in continuing many of the DSRIP services, limitations in face-to-face visits and provider shortages that required temporary re-assignment of
RHP 5 just like all other areas of this state was affected by COVID-19. Our ability to conduct a learning collaborative in our region was still a challenge for our area. Our region has typically held and in person collaborative in March but given the situation we have yet to be able to host one. Providers also have been impacted because they still did not have the extra man power to spare a person or two to even attend some of the virtual collaboratives (however, they did mange to scramble when needed). We here are proud to say that our providers found a way to still serve our community despite the uncertainties that have been experienced with the waiver.
Because RHP 6 covers a large geography, we modified anchor communications to be conducted via phone, email, and webinar. This modified approach enabled us to continue sharing pertinent information and collaborations without interruption. We used this approach instead of hosting our annual in-person Learning Collaborative and Stakeholder Forum. In the past, this event has allowed us to gather together more than 200 DSRIP providers and other stakeholders from across RHP 6 and Texas. We use this event to promote collaboration, engage stakeholders, and share DSRIP successes and best practices. In lieu of this in-person event, we hosted a two-session virtual series

• How COVID-19 has impacted major activities conducted by the RHP during DY9. •The DSRIP Exchange/Learning Collaborative topics incorporated COVID-19 response and DSRIP efforts in that environment. •All Learning Collaborative meetings and Stakeholder Engagement processes were conducted to virtual formats. •Anchor staff shifted focus to COVID-19 response, both on behalf of providers and on behalf of their home organizations. For instance, Anchor staff worked to apply for FEMA reimbursement for COVID-19 response efforts.
The impact of the ongoing COVID-19 pandemic to RHP 8 continues to be been broad and all encompassing, impacting every single performing provider, IGT entity and stakeholder across every RHP 8 county. While approximately seven months were affected in DY9 (March 2020 – September 2020), the entire 12 months of DY10 have taken place amidst the full-blown pandemic. Throughout DY10, stakeholders have been operating under lockdowns, gradual re-openings for only a few months, and then another resurgence of the virus with the delta variant in the latter half of DY10.
COVID related issues continue to be the primary challenge for DSRIP related activities: competition for resources including supplies and staffing and external patient resources for SDOHs, frequent changes and guidance from various governmental agencies Federal and State level, and patients' attituded towards face-to-face care in a still unstable environment all contribute to COVID related challenges. Below are a few examples of statements from the RHP9 providers on the COVID related challenges: •COVID 19 is still creating hesitancy in patients to return to non-emergent care related
Challenges faced due to COVID-19 include steady decline in measure performance metrics across the region, as well as the obstacles with assuring appropriate resources were in place to continue to address the pandemic, as well as focus on the new programs needed for patients. This included the development of telehealth programs and relying heavily on this method to provide care for patients and continue to engage them in their care. Despite these efforts, the closing and consolidation of patient sites severely impacted volumes and the ability to provide in person care – for which, some measures rely on such as cancer screenings for patients. This also came with the
measure achievements, but with the pandemic continuing through another reporting cycle, there are still challenges. Most RHP 11 providers reported COVID-19 had a significant impact on their DY 10 activities. While patient volume has increased in the last six months, it is still not at the pre-pandemic level. Several providers implemented telemedicine/telehealth services and appreciate those services becoming an allowable service. While this was an effective option for some services, the transition was difficult for some patients and is not well-suited for some activities. For example, providers were not able to conduct some screening services,
5.Describe any challenges and other pertinent findings from your RHP due to COVID-19. For example, this section may include: •How COVID-19 has impacted major activities conducted by the RHP during DY10. •How COVID-19 has impacted provider participation. •Any noticeable trends in terms of challenges due to COVID-19 across multiple provider types (e.g. implementation of telehealth/telemedicine services, staffing or service changes, etc.)
COVID-19 has impacted the ability to host in-person meetings, events and activities for learning collaboratives, as well as education outreach in communities. In addition, COVID-19 has put significant strain on performing providers in RHP13 due to lower volumes, staffing resources, limitations on services provided, etc. The lasting impact to rural healthcare and rural communities continues to evolve, but there is significant impacts to staffing and resources available. Our goal is to continue efforts under our selected measure bundles to improve the health outcomes for those we serve.

The COVID-19 pandemic continues to be a disruptive event for RHP 14 providers and patients. The pandemic has strained provider operations, workforce, and finances. Staff turnover and shortages has been exacerbated by COVID 19, which has directly impacted DSRIP initiatives. Patients are also reluctant to attend medical appointments in person, due to concerns about the virus. To improve patient care access, providers have shifted to a greater reliance on tele-health services. Telehealth has worked well for some DSRIP initiatives, however, for other initiatives that require in-person visits (e.g., foot exams, performing lab tests), telehealth services have fallen short in meeting

As discussed previously, COVID-19 impacted the annual Learning Collaborative event that RHP 15 usually hosts in the summer. The planning committee decided to cancel the event this year again. RHP 15 has also noticed that attendance in the monthly (online) meetings has dropped significantly due to COVID-19. This may be due to the fact that there are many online meetings and providers are forced to make decisions at which meetings to participate. Finally, there is a concern among those providers who are pursuing primary care metrics that with the transition to telehealth/telemedicine modalities that many metrics (especially those that had been historically successful) are

Most providers indicated that the most significant challenge related to COVID-19 was the redeployment of staff to support COVID duties. Also, all providers reported a significant decline in patient volume across all service lines but most importantly, in primary care. Although volumes have improved, many patients are still reluctant to receive preventive services that go beyond an urgent care visit including lab and imaging services. All providers utilized telehealth/ telemedicine services during the pandemic although many patients and providers prefer the face to face encounter in the office setting. Telehealth/telemedicine has continued in the rural areas where technology is

The impact of the ongoing COVID-19 pandemic to RHP 17 continues to be been broad and all encompassing, impacting every single performing provider, IGT entity and stakeholder across every RHP 17 county. While approximately seven months were affected in DY9 (March 2020 – September 2020), the entire 12 months of DY10 have taken place amidst the full-blown pandemic. Throughout DY10, stakeholders have been operating under lockdowns, gradual re-openings for only a few months, and then another resurgence of the virus with the delta variant in the latter half of DY10.

The social isolation dictated by a pandemic era has changed the way providers think about healthcare delivery. Many of them have created or expanded Tele-health. The RHP as a system, has had no face-to-face meetings or reporting events. All our work has been virtual, and while this is good, it does not have the same level of learning and interaction as do "in-person" activities. Partnerships are difficult to maintain. Social isolation and distancing, and a focus on defensive health measures make new relationships more difficult to establish, and existing ones difficult to enrich, expand, and sustain.

Learning Collaborative and have gained valuable insight into the way providers choose to learn.

The challenges of meeting clinical measures through telehealth were some of the most difficult, but many patients were fearful to come to the hospitals and clinics.

Staffing for screening stations increased stress and increased costs. Even after installing screening stations, many providers noted that someone still had to be available to assist

COVID-19 has had a huge impact on our region as it was already classified as a medically underserved area. With the widespread availability of COVID-19 vaccines, our region has approximately 79.99% of the population fully vaccinated but there is still almost 20% of the population that is not fully vaccinated. However, the older population and those with chronic health conditions or are immunocompromised continue to limit their interaction outside their residences so many are still limiting their visits to medical providers. The performing providers in RHP20 consist of two hospitals, the local health department, and the local mental health authority - all of which were extremely hard hit

Describe any best practices associated with improvements in the health status of Medicaid recipients that were developed and achieved under DSRIP in your RHP.	Describe the provider-level activities initiated through DSRIP that will continue post-DSRIP.
Medicaid recipients that were developed and achieved under DSRIP for RHP 1 providers are briefly listed below: •Individuals identified to have a BMI outside of normal parameters receive follow-up, including education, with information entered in newly developed electronic medical record template. Use of the template has standardized entry and collection of data, resulting in improved timeliness of reporting and earlier identification of any needs for additional training.	be initiated throughout RHP 1. Although providers want to continue activities initiated through DSRIP, there is a possibility without funding assistance some of the activities may not continue or at the very least the level of activity may be reduced. RHP 1 provider-level activities initiated through DSRIP are briefly described below: •Continuation of some measures will depend on financing availability. •Continued partnership with the FQHC to manage MLIU patients.
Enhanced analytics and increased data sharing (through health information exchanges or through other methods) have grown due to DSRIP. These efforts enhance patient safety and patient care, so these will continue. The performing providers have done well to work together, though there are significant process issues that must be addressed to enhance the communication with Medicaid MCOs.	Most providers in RHP 2 will continue to monitor the metrics associated with DY10 post-DSRIP, as they either align with their expected DPP(s) or they have become the expectation for payor partners. Stakeholder meetings/initiatives re: social determinants of health are also expected to continue.
Waiver funding is not just about demonstrating achievements, it is about providing access to those who do not have the means to receive care elsewhere. RHP3 providers improved access by introducing a new method of receiving care, virtual care. Throughout DY10, providers established strong and extensive telehealth programs to include video visits and phone calls. Some RHP3 providers introduced home visits and/or created health hubs	•Screening patients for housing, food insecurities, and other social determinant needs •Telehealth •Data sharing •Utilizing care management to provide self-care •Preventative care •Behavioral health delivery
range of DSRIP activities that are directly linked to improvements in health status and health outcomes of Medicaid recipients and other patients receiving services. These include the following: • Through increased provider collaboration, one medical center decreased its NTSV CS rates from a 2017 baseline rate of 31% and 2018 rate of 32% to 28% in 2019 and 25% in 2020, and a current rate of 22% for 2021. The decrease is attributed to the clinic's discussion with its OB providers that would limit scheduling	wide range of programs that they expect to continue after the DSRIP program ends. Many of the same initiatives were identified by multiple providers who expect continuation in some form. Several providers reported all DSRIP activities will continue while others indicated only specific projects are likely to continue based on availability of financial support. Following is a summary of the initiative's providers identified as likely to continue: • Behavioral health services and counseling for low-income
RHP 5 has always had great success with the care provided by the providers participating in the waiver specially the mental health provider in the RHP. The success of Tropical Texas Behavioral has been a constant in our region since the waiver was first implemented and continues to be. RHP 5 is confident that our mental health provider will continue to provide services and improve the health of those with mental health conditions.	As the anchors in RHP 5 we have always prided ourselved with having great partnerships with the local hospitals even prior to the waiver. We know that even post-DSRIP our collaboration and partnerships will continue because we all have the focus of providing better health initiatives for the members of our community.
surrounding one or several best practices associated with improvements in the health status of Medicaid recipients. There were a number of common key practices noted to be utilized throughout the region. A significantly noted practice was the prioritization of pre-visit planning and/or standing order protocols. A large number or providers noted this practice to be instrumental in managing patient workflow, maximizing the number of patients seen with sometimes limited staffing. Another was the inclusion of	that providers speak to continuing post-DSRIP surround telemedicine. Many indicate plans to continue with the use of telemedicine, some indicating plans to broaden telehealth services for their patients (i.e. incorporating remote monitoring into EMR), and others indicating that they are likely to consider other or additional virtual avenues for patients in order to better accommodate and serve the DSRIP patient population. Providers have initiated care transition and/or discharge planning programs

improvement including diabetes and cardiovascular disease management, cancer screening, screening and follow up for mental illness, immunizations, and care coordination. RHP 7's experience aligns with these priorities as key drivers of health for Medicaid and Low-Income Uninsured populations. Across RHP 7 providers, three particular practices were common themes for success: -Chronic disease management	behavioral health care services •Increased focus on population health data analysis of patient populations to uncover trends and define needed interventions •Development of standard protocols for care delivery •Partnerships across mental health and the criminal justice system, such as embedding of mental health providers with 911 operations •Value-based arrangements with subcontractors •Quality improvement initiatives that have been incorporated into
2019, the Anchor Team encouraged providers across different DSRIP provider types to submit nominations and be involved in the process. As a result, there were four RHP 8 provider representatives on the workgroup, along with one member of the Anchor Team, who actively participated throughout 2020. The provider types directly represented by the selected members were hospitals (both urban and rural) and community mental health centers.	continue post-DSRIP include: •Screening and follow-up for mental health conditions and services •Provide independent living, vocational rehabilitation, and housing assessments for schizophrenic individuals •Increased care coordination/navigation for primary care and mental health patients •ED case management to assess and assist patients with primary care and specialty care follow-up
care for the patients and clients entrusted to our care. A small sample of what providers have identified as best practice activities are: •Our engagement of patients through community-based community health workers/outreach and other techniques to improve education and awareness regarding preventive services and screenings has adopted to a hybrid model where clinical care and	efforts that have been put into place by DSRIP activities, for others the uncertainty associated with the 1115 Waiver Extension/Transition and/or the DSRIP Extension Request will determine what resources are available for their programs and will determine whether they continue or modify those programs. At this time, they cannot make a decisions based on the uncertainty/pending approvals of related programs. Areas that most providers have indicated they will continue services because
Over the years, we have developed and strengthened our identification of Medicaid patients and developed ongoing and adaptable strategies for outreach to this patient population, education around preventative and associated health maintenance items and medications. We have worked to create directed processes and workflows to appropriately engage and address the health needs of this population and continue to assess processes for targeted efforts.	Provider level activities initiated through DSRIP that will continue post DSRIP include the ongoing communication between other providers across the state to discuss best practices, ongoing strategies to engage and communicate with patients, as well as directed efforts to transform the delivery system. Other activities include conducting gap analyses that we will continue to perform on a consistent basis to identify opportunities to improve the delivery system and facilitate better care coordination for patients.
range of DSRIP activities that are directly linked to best practices. These include the following: • Development of prenatal and postpartum screening tools to promote and advocate for timely maternal screenings; • Allowance of telehealth visits allowed some patients to keep their appointments and reduced the no show rate; • Implementation of automated reminders/flags within the electronic health record; and	where feasible, but there also is a significant need for financial resources and support to achieve the best outcomes. RHP 11 providers indicated that some provider-level activities will continue such as: • Emphasis on Increasing access to care by continuous recruitment of physicians and other types of clinicians to the rural communities and medically underserved areas; • Continue to provide both Prenatal & Postpartum screenings to all
health status of Medicaid recipients that were developed and achieved under DSRIP in your RHP. Root cause treatment for chronic illnesses is the main trend across the RHP 12 region. Performing Providers reported that prevention, timely assessment, treatment, and self-management are the most effective interventions to sustaining healthy communities. This also includes vaccinating the population against the COVID-19 virus.	will continue post-DSRIP. Many Performing Providers have voiced concerns regarding having the ability to continue provider-level activities post-DSRIP. It took a great deal of work and commitment to implement programs that increase awareness and education while promoting greater access to behavioral health, prenatal care, preventive care, screenings, and vaccines. These services are transformative and are vital to
There have been some best practices implemented across the region that are similar to those listed in the Best Practices Workgroup: Key Practices; however the RHP13 Anchor Team has not trended this information at this time. Many of the providers in RHP13 participate in the Rural bundles which primary focus preventative care and/or emergency care.	There is opportunity for continued shared learning opportunities and collaborative meetings going forward for RHP13 and surrounding healthcare providers. Currently, Shannon offers quarterly leadership meetings and invites surrounding leadership teams to join, and will continue to do so.

providers as reported by the Best Practices Workgroup. RHP 14 providers report using many of these same practices to enhance the quality of care provided to Medicaid patients, for example: •Adoption of telehealth services has become common practice, especially because of COVID-19 pandemic. This option has benefitted patients who are unable or concerned about visiting the office in person due to the pandemic. RHP 14 providers continue to offer this option to Medicaid patients and other patients in DY10.	initiated through DSRIP will continue post-DSRIP. The potential one-year DSRIP extension impacts timing of decisions regarding which activities will continue after DSRIP ends. Some RHP 14 providers noted plans to continue select activities, including: •Patient education programs targeted at patients with chronic conditions such as diabetes. •Regular patient monitoring and testing (e.g., HbA1c tests, blood pressure, foot exams) for high-risk patients with chronic conditions;
developed and achieved by RHP15 providers in DY10 were: In the Access to Care area: Same-day and/or walk-in appointments in the outpatient setting; Telehealth to provide virtual medical appointments and/or consultations with a primary care provider; and Telehealth to provide virtual medical appointments and/or consultations with a specialty care physician (physical health only)	providers as "continuing" post-DSRIP are: UMC El Paso – All improvements to workflows and patient navigation will continue post-DSRIP especially in the Care Management and Social Work areas of the hospital. El Paso Children's Hospital will continue to improve on those metrics in the Patient Safety bundle post-DSRIP
care management, care navigation and transition services, and access to primary care. All providers reported achievement on most quality measures related to chronic disease surveillance utilizing the electronic health record and prevention efforts through use of care coordination and patient navigation strategies. Access to primary care included efforts to integrate physical and behavioral health at mental health centers as well as improved screening tools to increase compliance with preventive services such as vaccines and	post-DSRIP unless we are able to take advantage of opportunties to collaborate on future projects during the final year of DSRIP that can be sustained without additional funding. All providers have indicated an interest in continuing some form of learning collaborative beyond DSRIP to discuss issues related to critical access hospitals, data sharing between urban and rural facilities, RHCs and FQHCs and how we can work together on certain projects. Regional projects incentivized through DSRIP funds were very
2019, the Anchor Team encouraged providers across different DSRIP provider types to submit nominations and be involved in the process. As a result, there were four RHP 17 provider representatives on the workgroup, along with one member of the Anchor Team, who actively participated throughout 2020. The provider types directly represented by the selected members were hospitals (both urban and rural) and physician groups.	post-DSRIP include: •Integration of primary care with behavioral health care services •Increased care coordination/navigation for primary care and mental health patients •ED case management to assess and assist patients with primary care and specialty care follow-up •Chronic disease management education, outreach, and management
care. The two behavioral health centers have different measures from each other. The remaining two are OBGYN/Maternal Health, and Cancer Screening. This makes crosswalking strategies or issues, challenging. This is one reason we cooperate with RHPs 9 and 10 for LC events. No hospitals in our three-county RHP interact with our local providers on deliberate and structured care coordination or HIE issues. Our OBGYN practice was denied participation in the prospective TIPPS program due to a technical issue. This will be	infrastructures such as improving their electronic health records capabilities, conducting more meaningful client satisfaction surveys, investing in equipment, reorganizing staffing plans, and expanding their presence in their communities. These will continue. Some providers achieved certain certifications they might otherwise not have achieved, and some established healthcare coordination partnerships or programs they did not previously have in place. These will continue. Depending on the qualifications each provider
effective in improving the health of Medicaid patients. Prior to the 1115 Waiver, access for Medicaid patients was very limited, particularly to specialty care. By recruiting additional primary and specialty care providers, increasing clinic capacity, and having the resources to reach out to patients, providers were able to have a significant impact on the health of both the Medicaid and low income/uninsured populations.	continued by providers in the post-DSRIP world, including HPV, flu and pneumonia vaccination, back to school fairs to assure children have vaccines, and other wellness initiatives. Outreach programs that were funded through DSRIP will likely be discontinued due to financial constraints, and only things required to be tracked for the DPPs will be monitored. Staffing may be reduced in rural clinics since the RAPPs program will not provide funding to cover the cost of additional staff that was performing chart review prior to visits
Practices Workgroup as a key measure, continue to be two of the major health concerns in our region and most of our providers have interventions and practices that work to directly or indirectly impact these two issues. Border Region's primary care clinic has had a steady increase in the number of individuals who are diagnosed with diabetes as well as high blood pressure and through their approach of focusing on education, medication compliance, and frequent follow-ups have helped these patients to better control	through DSRIP are expected to continue post-DSRIP, though some may be reduced to a smaller scale depending on alternative funding sources. Border Region Behavioral Health's primary care clinic has been a great asset to its patients in making sure that their other chronic health conditions are being treated along with their behavioral health conditions. Doctors Hospital of Laredo's mobile clinic has continued to provide access to medical care to individuals who are not able to travel to other medical providers. Laredo

DSRIP Provider Summary - October DY10

RHP	TPI	Provider Name	Provider Type	Year	Round
